In an industrial centre like Peterborough the claims of the working classes are especially deserving of consideration. No country is well governed that does not look after the interests of all classes of the community. The Conservative Government has been, and the Conservative party declares itself to be, extremely solicitous of the interests of the capitalist classes—the manufacturers—but it left the working classes to largely shift for themselves. A Liberal Government came into power, and the attitude towards Labour was changed, and the rights of Labour to its rights recognized, and in a practical way. A Department of Labour has been established and a Minister of Labour placed over it. A Labour Gazette has been established in the interests of workingmen, published monthly; conditions have been inserted in all Government contracts compelling contractors to pay the highest current wages, which the Government guarantees the payment of; the sweating system has been abolished on Government contracts; the Alien Labour Act is enforced by a special officer, and in many other ways the Government has shown by deeds that the rights of the workingmen, as well as the capitalist, shall be protected. I heartily support the Government in what it has done, and shall support them in extending the benefits which they have already conferred, and which it is their policy to continue, as need arises.

The splendid achievements of Canadian soldiers in South Africa, make them worthy of the gratitude of the country. We have the best militia material in the world, and if we keep up a military establishment, let it be worthy of Canadians. Situated as Peterborough is, on the line of the Grand Trunk and Canadian Pacific Railways, and on the line of the Trent Valley Canal, begun as a military work, and now under course of completion, no other point in this Province is so well adapted for a military centre. I shall, therefore, feel it my duty to press upon the Government the advisability of constructing in Peterborough new armories and connected buildings for military stores for Ontario, and I feel that this is practicable of attainment at the hands of a Government which has shown its interest in our volunteers by placing the Militia Department, so greatly neglected by a previous administration, upon an effective basis, and will, therefore, more naturally be well disposed towards the improvement involved in making Peterborough a centre for military stores.

A town of the industrial and commercial importance of Peterborough, has certainly strong claims upon the good offices and of a Government. For the past four years the town has been represented, when it was represented in the House, by a member opposed to the Government. There is no doubt in the minds of unprejudiced observers, that the present Liberal Government will be strongly sustained in the country at the coming elections, and the question arises whether West Peterborough will have its interests better served by a member sitting in opposition and hostile to the Government and its policy, or by a member pledged to give the Government a fair support in the application of its policy. If elected I pledge myself to give my best ability and exertions to the promotion of the general good of the country, and to look especially after the interests of West Peterborough.

I cannot obviously here, enter into details of how in other ways the Liberal Government has implemented its promises and applied its policy, but I shall have an opportunity during the campaign of more fully dealing with these and other public questions.

As a supporter of such a Government I can appeal with confidence for the support of the Electors of West Peterborough, knowing that by helping to give, as you will do, through my election, a renewal of the trust the Liberal Government has discharged with such evident and gratifying results, they will be conferring a great and lasting good upon this riding, the country at large, and securing a continuation of the great blessings of prosperity and good government we now enjoy.

Again soliciting your support, your votes, and influence, in this contest,

I have the honor to be,
gentlemen,
Your obedient servant,

THE LIME JUICE CLUB

A Long Way After The Lime Kiln Club

REGULAR MONTHLY MEETING OF THIS CHASTE SOCIETY.

Annual Election of Officers—Hon. Richard McBride Again Elected President—The President Makes Some Pungent Remarks.

The fifteenth annual meeting of the Lime Juice Club took place at the Hall of Wisdom last night. There was a ponderous crush as the hour for opening the meeting approached. All the highways and by-ways leading to the Hall were thronged with people.

In the main body of the Hall could be seen many old faces, while many new ones adorned the back benches. Every prominent place was represented. Bobcaygeon sent the best looking lot of delegates, while Keene had the worst. Amongst the honoraries were sixteen J. P.'s, twenty-two colonels, eleven captains, twenty-three "hons." twelve "squars," and six majors. In the visitors' gallery were seven aldermen and eighteen would-be aldermen. Delegates began to arrive early on Thursday and were billeted as they came in and reported. A reception committee of fifteen active members were constantly at the stations and stage landings, and escorted the visitors to the Hall of Wisdom, where they were royally entertained on a consignment of cheese from Bro. Geo. Fitzgerald.

When the President took his seat there was a storm of applause that broke several lamp chimneys, and awoke Bro. Croft from his first nap. "You are assembled on this great occasion to hold your fifteenth annual election," said Sir Richard, as he quietly rubbed a cramp out of his left leg. "I always feel it my duty at our annual meeting to recite the circumstances under which this great club was organized, and to show how frequently it is that out of small beginnings great things materialize. A little over fifteen years ago seven men and a dog met on the market square, and organized the Lime Juice Club. At the next meeting we had nine men and four dogs, and it has kept going on this way 'till now we have a membership of 8,963 persons, saying nothing about dogs. During the past year we have absorbed several societies, organized active branches in several districts in the neighborhood, collected over $2,000 in cash, lost 5 members by death, expelled 11 for bad behavior, paid out $11.16 for relief of the sick, increased our library one-half, added much to the interest of the museum, and are now running as smoothly and as happy as the Stratton Conservatives and clear Grit Liberals. (wild cheer by mistake from Bro. Garvin.) We are now on good terms with every department of the government, as wit as with Sir Charles Tupper; we join hands with philosophers and patriots; we are O.K. with leading astronomers and scientists; we have the friendship of all societies, and our prosperity is all that could be looked for. The first business will be the election of officers for the ensuing year. Bro. Ed. Brown, you and Bro. Harry LeBrun will now pass the ballot box.

THE PRESIDENT.

The following is the result of the first ballot for President:—

Sir Richard McBride	1987
Anvil McCann	1
Jamfed Jones...	1
Daylight Smith	1
Darkness Ross...	1
Scattering	9

On motion of Hustler Robinson, Bobcaygeon, the election of Sir Richard was made unanimous, and the old man took the honor in a well-chosen speech twenty seven feet long. The following is a list of the other officers elected,—

Vice-President, Hentoast Bell.
Treasurer, Cautious Miller, Keene.
Secretary, Stepoff Kelly.
Grand Legal Adviser, Magnesia Smith, Toronto.
Honorary Post, Strawberry Bell.
Grand Chaplain, Nutmeg Cunningham.
Keeper of the Bear Traps, Sloping Dinwoodie.
Librarian, Plainday Johnston.

NO NEPOTISM.

At this juncture, Hon. Wm. McFarlane, late President of the Young's Point Liver Complaint Club (recently amalgamated with the Lime Juice Club), arose to a question of privilege and said that the janitor was employing his son to help him around the Hall, and paying out of the Club's funds. Mr. McFarlane moved for an investigation.

"The Janitor will please step to the front," said the President. "This Club investigates on the spot."

"Gentlemen," began the Janitor, as he limped out," I have heard the charges and am ready for trial. I have been charged with working my son into a fat job. Where's the fatness? Where's the son? Away back in the sixties I had a son born to me, and after he grew big enough to let the hot stove poker alone, he died. That's the only son I ever had. If I've got another around here I'd be mighty glad to shake hands with him."

PREPARING FOR A PANIC.

Cripes Mulcahey desired to call the attention of the President to the fact that the only means of egress from the Hall of Wisdom was a single door which opened into the room. In case of fire, and a rush, a calamity might occur which would fill hundreds of Peterborough homes with wails and lamentations.

"The President has that fact in mind for the last twelve months," replied Sir Richard; and now that the question has been called up, I deem it my duty to arrange a programme to prevent accident. In case the janitor puts a stick in the stove that has been loaded with powder, or some of the lamps explode, our first duty will be to extinguish the flames. In case of failure, I will walk out of the hall first, followed by Anvil McCann, Tredup Garley, Jamfed Jones, Full House Johnston (Hastings), and Gingerale Craig (Lakefield), at regular intervals. The rest of you can follow on in single file, and I figure that not a coat-tail will even be singed. My reasons for going out first is that I may see the fire brigade when it arrives, and tell them when to throw water in order to keep our safe from heating its contents.

NO CHARTER AT PRESENT.

Sir Isaac Walpole, travelling lecturer and installer, desired to report on the application from Lakefield for a branch charter. He had been out there and made the acquaintance of Setback Smith, Coincidence Johnston, Hardbeal Williams and other applicants, and it was his opinion that no branch could be organised that would do honor to the parent Club. Most of the fifteen applicants showed the meanest kind of plug tobacco, keep fighting dogs, and two of them were just out of the county jail for larceny.

His report was received and adopted on a vote of 915 to 7, and accordingly no charter will be granted at present.

A brief investigation disclosed the fact that Mr. Macfarlane was the victim of a put-up job, and he was fined $200 and costs, for the benefit of the library fund.

LAID ON THE TABLE.

The Secretary announced a petition from the Woman's Rights Association, asking the Club to use its influence with Sir Wilfred Laurier to secure the right for women in this country to vote. Opportunity was given for debate, and it was discovered that Bro. McHarrie was the only member present who favored the idea. The petition was therefore laid on the table.

THE ELECTIONS.

Amongst the visitors in the gallery were Messrs. J. H. McClelland and Mayor Kendry, who were no doubt feeling their way to an understanding with the Club in regard to the elections. The presence of the two candidates at this particular time was noticed by the President, who said that he would make a few observations on elections in general and local politics in particular at a future meeting.

MUSIC.

The Harmony Club secured the floor and rendered the following touching lines by Bro. Salisbury—

When the fiddle gets to singing out
an old Virginia reel,
And you begin to feel a tickling in
your toe and in your heel,
If you think you've got religion and
you want to keep it, too,
You jest bettah tek a hint an' git
yo'self clean out of view,
Case de time is mighty temptin' when
de chune is in de swing,
Fu' a holy saint or sinner man, to cut
de pigeon-wing.
An' you couldn't he'p f'um dancin' ef
yo' feet was bound wif twine,
When the Lime Juice Club's a' meeting and doing things so fine.

The silence was so intense that for the space of two minutes nothing could be heard save the tickling of Ald. Dawson's Waterbury watch. Then Bro. Sam Ray let a cheer that cracked several lamp chimneys and which at once became general.

THE CLOSE.

The Keeper of the Relics reported that the bear trap and other articles of reverence were in good order, the janitor was ordered to give the stove two coats of paint during the week, and the meeting took short cuts for home.

ATTACK of ROYAL CANADIANS at Paardeberg

The present is a time when war pictures are in greater demand than ever. The conduct of the British soldiers on the battlefield has won the plaudits of admiring nations. We have at great expense published four large, beautiful pictures size 22x28, on heavy, superfine calendered paper. A picture that will commend itself and send a thrill to the heart of every true Canadian is the one called Attack of Royal Canadians at Paardeberg, there are literally hundreds of figures on this picture, the mountains or kopjes stretching out into the distance are swarming with men, while here and there a prostrate figure speaks only too well of the Boer riflemen. It was on this battlefield the gallant Major Arnold met death unflinchingly. Indeed, it is only too true that many of those gallant hearts that beat so high when the cheering thousands bade them Godspeed as they sailed from Canada's shores now lie still forever in lonely graves on the other side of the world under African skies. To every Canadian heart, to every Canadian home, the deeds of their brave soldier boys speak with an irresistible thrill of patriotism and pride. Gordon Highlanders at the Battle of Belmont, Charging the Boer Guns at Elandslaagte and the Charge of Gen. French's Cavalry on the Retreating Gen. Cronje's Army. These are all stirring pictures and cannot fail to commend themselves to anyone who will examine them. They are RED HOT SELLERS! Agents coin money. Big profits. Enormous success. One agent sold 68 in one day. Sample and terms 25 cts (none free); four for 80 cts; $1.75 per dozen; 25 for $3.25; 50 for $6.00; 100 for $11.00 Write to day for a dozen and make money. WE CURE STRICTURE

Thousands of young and middle-aged men are troubled with this disease—many unconsciously. They may have a smarting sensation, small, twisting stream, sharp cutting pains at times, slight discharge, difficulty in commencing, weak organs, emissions, and all the symptoms of nervous debility—they have STRICTURE. Don't let doctors experiment on you, by cutting, stretching, or tearing you. This will not cure you, as it will return. Our NEW METHOD TREATMENT absorbs the stricture tissue; hence removes the stricture permanently. It can never return. No pain, no suffering, no detention from business by our method. The sexual organs are strengthened. The nerves are invigorated, and the bliss of manhood returns.

WE CURE GLEET

Thousands of young and middle-aged men are having their sexual vigor and vitality continually sapped by this disease. They are frequently unconscious of the cause of these symptoms. General Weakness, Unnatural Discharges, Failing Manhood, Nervousness, Poor Memory, Irritability, at times Smarting Sensation, Sunken Eyes, with dark circles, Weak Back, General Depression, Lack of Ambition, Varicocele, Shrunken Parts, etc. GLEET and STRICTURE may be the cause. Don't consult family doctors, as they have no experience in these special diseases—don't allow Quacks to experiment on you. Consult Specialists, who have made a life study of Diseases of Men and Women. Our NEW METHOD TREATMENT will positively cure you. PETERBOROUGH, OCTOBER 13, 1900

TOWN AND COUNTY NEWS

Harvest Excursion to Jubilee

A grand harvest excursion will be run to Jubilee Point on Thanksgiving Day, October 18th Steamers will run from all points. Prominent speakers will make addresses.

A Town Lawsuit

The action against the corporation for $2000 brought by Mrs. W. C. Sherwood for injuries sustained through failling on the icy pavement near the Y.M.C.A. building last winter, will come up for trial on Monday, before Justice Ferguson at the Court House here on Monday. The case for the plaintiff is being conducted by Messrs. Dennistoun, Peck and Stevenson, while the town's interests is being looked after by Town Solicitor Edwards.

Laid at Rest

The funeral of the late Harry Crocker, who was killed on the C.P.R. on Wednesday, took place yesterday afternoon to Little Lake Cemetery, and was attended by a large number of sorrowing friends and acquaintances, including many of his fellow-employees in the Ackerman harness manufactory. The Rev. Mr. Thompson officiated at the grave. A memorial service will be held in the Mark street church tomorrow evening.

Entertained by the Officers

The officers of the 57th Regiment entertained Major Fred H. Brennan, who has just returned from South Africa, at their rooms in the Drill Shed last night. Speeches were made, eulogistic of the Major's services during the war, and before it broke out. The doctor made a fitting reply, in which he thanked his old comrades of the 57th for the honor done him. A very enjoyable evening was spent.

The Century Fund

The Christian Guardian announces that nearly $900,000 of the million dollar thanksgiving fund of the Methodist church has been subscribed and reported, with many circuits yet unheard from, whose reports will surely cover the other $100,000. The probability is that $700,000 will be devoted to paying church debts and $300,000 to other connexional purposes. All the Peterborough Methodist churches have contributed their full portion to the fund.

Foot Ball.

The players have practised faithfully all week for their game with Torontos to-day and the team will go on the field in splendid condition. A team chosen from the following will represent Peterborough — Scott, Burnham, McWilliams, McPherson, McDonald, Paterson, Brundrette, O'Connor, Hurtubise, Smith, Revell, Crowley, Meagher, McWilliams, Rickey, Graham, Hollingshead.

The team committee will have its work cut out as these players are nearly all on a par.

It behoves all good citizens to turn out to see the game to-day and cheer the boys along. It is a great advertisement for the town to have such a line of young fellows, but they can't go away without money, and good gate receipts will held along towards their winning the championship.

JOTTINGS ABOUT TOWN

—Thanksgiving Day next Thursday.

—Sporting parties are now in order. The woods are full of them.

—The steam roller is working on Simcoe street.

—The elections will interfere with the usual deer hunting parties.

—Double trading stamps given on all purchases to-day at Times Bookstore.

—The duty of the hour is to see that your name is on the voter's list, and also on the list of subscribers to The Times.

—Messrs. Harry LeBrun and R. B. McKee returned yesterday from a three days' visit to Bellchase, Mr. LeBrun's cottage at Stony Lake.

Rich, warm, healthy blood is given by Hood's Sarsaparilla and thus coughs, colds and pneumonia are prevented. Take it now.

—Remember the Harvest Picnic at Jubilee Point on Oct. 18th, 1900. Boats will run from all points. For particulars see posters.

—The Canadian General Electric Company has the contract for the electric plant for the Lakefield Cement Works, and the Wm. Hamilton for the turbine wheels and other machinery.

UNION FORMED

The Carpenters and Joiners Organize a Union

The organization of Local Union, No. 672, of Carpenters and Joiners, took place at the meeting held on Thursday evening. The Union begins with a membership of 50, vigorous at the very commencement. The officers were elected as follows.—

President—Thos. J. Wilson.
Vice-President—Jas. Haggart.
Rec. Secretary—W. J. Johnston.
Fin. Secretary—Robt. McGregor.
Treasurer—George Kane.
Conductor—Geo. Bremaine.
Warden—Napoleon Trombly.
Trustees—Messrs. J. R. Donnel, Geo. Glover and John Taylor.

Prospects point to this being one of the best Unions ever organized here.

The charter is left open until Dec. 1st. so that the admission fee will be 50 cts. till then, after which the fee will be $5.00.

Every carpenter and joiner should take advantage of this special rate and connect themselves with this organization.

ATHLETE'S FAILURE.

Was not a Success Until He Was Put on the Right Food.

Cecelius X. Hale, of 1717 Barclay St., Baltimore, Md., now quite a famous runner, has had some interesting experience in regard to proper feeding. His testimony is worth the attention of any athlete, or in fact, of any person who cares for good, sturdy, powerful health.

"Up to about 18 months ago I had been in many athletic contests, without much success. I about made up my mind it was time to stop, but a physical director of the Y.M.C.A. of this city, advised me to use Grape-Nuts food and Postum Cereal Coffee as principal factors in my diet.

"I accepted the advice and to-day am in possession of perfect health, and a great many medals won in different athletic events. I can now run a race and finish in fine condition, whereas before I started on the right diet, I would find myself in a faint at the end of the race.

"Formerly I had more or less nervous headaches, I am glad to say since using Grape-Nuts and Postum Food Coffee I have forgotten what a headache feels like. My heart is in perfect condition, whereas while I was using ordinary coffee it would not stand the heavy strain. This statement is absolutely true, and I do not object to your publishing it, for it may bring back health and strength to some poor being suffering from ill health, caused by the use of improper food."

There is a reason for this; in the first place, ordinary coffee will show its effects somewhere in the nervous system,—frequently in weakening of the heart or in stomach troubles, which prevents one from obtaining the strength and value of food. It is therefore necessary to quit the use of this drug, and in its place use Postum Cereal Food Coffee and Grape-Nuts food.

They were both invented by a food expert and are made at the famous pure food factories of the Postum Cereal Co., Ltd., at Battle Creek, Mich. This food and the food drink are both made for a definite purpose, and there are thousands of users throughout the world that can testify, from practical experience, that the theory is borne out by facts.

"Welcome, Evil, If Thou Comest Alone."

One evil that cannot come alone is impure blood. If this is allowed, it is attended by kindred ailments galore. This condition means that every vein and artery of the body, instead of carrying to the organs a health-giving flow of life, is laden with a slow and impure fluid that is harming instead of healing.

It is unfortunate when there is "bad blood" inside of you. Hood's Sarsaparilla will not make enemies friends, but it will make "bad blood" good blood, and blood should be of the best quality. *Hood's never disappoints.*

Erysipelas—"Had a severe attack of erysipelas, suffering from dizziness and nervousness so that I could not rest at night. Tried Hood's Sarsaparilla with good results, and now recommend it to others." M. Chalmers, Toronto, Ont.

Strength Builder—"Myself, wife and children have taken Hood's Sarsaparilla and it strengthened us. It relieved me of a lame back." David McGeorge, caretaker, Galt Institute, Galt, Ont.

Rheumatism—"I was badly afflicted with sciatic rheumatism. Consulted doctors without relief. Was persuaded to try Hood's Sarsaparilla, and five bottles gave me relief and enabled me to go to work." William R. Roach, Margaretville, N. S.

SEALED TENDERS addressed to the signed and endorsed "Tender for Post Office, Paris, Ont.," will be received at this office until Monday, the fifteenth October next, inclusively, for the erection of a Post Office at Paris, Province of Ontario.

Plans and specifications can be seen at the Mayor's office, Paris, and at this Department, where all necessary information can be obtained.

Persons tendering are notified that tenders will not be considered unless made on the form supplied, and signed with their actual signatures.

An accepted cheque on a chartered bank, equal to ten per cent. of the amount of the tender, payable to the order of the Honorable the Minister of Public Works, must accompany each tender. The cheque will be *forfeited* if the party decline the contract, or fail to complete the work contracted for, and will be returned in case of non-acceptance of tender.

The Department does not bind itself to accept the lowest or any tender.

By Order,
JOS. R. ROY,
Acting Secretary
Department of Public Works of Canada,
Ottawa, Sept. 28th, 1900.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

One More Unfortunate

Wanted the DIAMOND DYES, but was induced by her dealer to try another make.

A lady writing from a small town in New Brunswick to the proprietors of Diamond Dyes, says—

"Please find enclosed Express Money order for six packets of Diamond Dyes, colors as mentioned below. I have been a user of Diamond Dyes for over five years, and they have given me entire satisfaction. A few weeks ago our merchant was out of a color I wanted in the Diamond Dyes and strongly recommended another make he was selling. I bought the packet with many doubts as to their worth. I made an effort to dye an old cream colored opera shawl with the new dye. The ghastly result almost drove me mad. There was not a semblance of any decided color. Now I am obliged to dye it black, and will do the work with the Diamond Dyes. No more poor muddy dyes for me while I can send to you for the reliable Diamond Dyes."

No other business school in Canada, nor perhaps on the continent, is in a better position to do as much for its pupils as we are doing.

These successes are simply the RESULTS of the thorough course of training which this school has been giving its pupils during the past 24 years, and which has gained us the confidence of the business public and enables us to place many of our pupils with the best business houses. What we get we hold, What we have not got, we're after.

We pay the railway fare of students from a distance, provided it does not exceed $8. Board for ladies at $2 per week and for gentlemen $2.50.

Write for one of our catalogues. It also is a compilation of RESULTS and is believed to be the handsomest issued by any business school in America.

MARTYRS IN CHINA NUMBER 15,000

But Even These Figures may be an Under-Estimate

150 MISSIONARY MARTYRS

China Inland Mission Has Suffered the Greatest Loss of Workers and Property

New York, October 13.—More than 15,000 native Christians and 150 Catholic and Protestant missionaries died the death of martyrs during the four or five months of the Boxer uprising in the northern part of China. These figures are only approximate, as it will be impossible to obtain a complete record of the Christians massacred until the missionaries return to the districts from which they were driven and make detailed reports to their respective boards.

At present it seems doubtful if the missionaries can safely return to the more disturbed provinces for a year or perhaps longer. The estimates thus far given of the number of Christians killed during the uprising differ greatly. Consul-General Goodnow, after making inquiries of the refugee missionaries at Shanghai, reported the probable death of 93 American and British missionaries. Of this number 32 were Americans. He also reported that 109 English and 61 American missionaries were unaccounted for.

The number of native Christians massacred, he believes, will reach 15,0000.

Statistics recently published by the religious press of London place the total number of British and American missionaries massacred, including children, at so high a figure as 218. According to these statistics the American societies lost 28 men, 40 women, and 25 children, and the British societies 56 men, 50 women and 19 children.

ANOTHER ESTIMATE.

"The total number of Protestant and Catholic missionaries killed," said an officer of a missionary society in this city, "was about 150, which includes children. Ninety-five other missionaries are reported as missing. It would not be surprising," he added, "to hear that 20,000 native converts had been horribly butchered.

So far as known no Protestant missionaries were killed outside of the northern provinces of China. All were warned in time to make their escape to places of safety in the towns along the coast. The province of Shansi has been the worst in respect to barbarities practiced against missionaries and Christians. In this province almost the entire force of Swedish workers sent out by the Christian and Missionary Alliance of this city was destroyed. Out of a party of thirty-two missionaries stationed at Shansi the Alliance has been notified of the safety of only ten. The others have been reported massacred. Besides eleven men and eleven women missionaries given up as dead it is supposed that the fourteen children of these missionaries were also killed.

AMERICANS KILLED.

The American Board of Foreign Missions reports the death of six men and seven women missionaries, together with five small children. Three of these were stationed at Pao Tung Fu, and the others at Fen Chu Fu and Takuu in the Shansi province. The Presbyterian Foreign Missions Board also lost five missionaries at Pao Ting Fu.

The Swedish-American mission, with headquarters in Chicago, had several of its representatives killed, and the American Bible Society fears that many of its Chinese colporteurs have met a like fate.

All of the Methodist missionaries sent out by the society in this city, numbering 152, escaped, and the Episcopal church, which has extensive missions in China, suffered no loss of life among its foreign workers.

The China Inland Mission, an English society, has suffered the greatest loss of missionaries and property. In December this society had 800 foreign workers in the field, many of whom were stationed in northern China. Six hundred have been reported safe, 500 of whom took refuge at Shanghai. Of the remainder nearly a hundred have been reported killed, and another hundred are missing. Many Italian and French Catholic priests have also been massacred.

PETERBORO AGAIN VICTORIOUS

Saturday's Football Match Resulted in a Victory for the Home Team

On the Nicholls' Oval, Saturday, the Rugby team defeated the Torontos by the score of 19 to 0, and go into the finals without having a point scored against them.

The game was hotly contested throughout, and played in a gentlemanly way.

Peterborough won the toss, and chose to kick west, favored by a slight breeze. Toronto started in with a rush and looked like scoring right at first, and in fact, were never so dangerous again. It was heart-breaking at this point, when awarded a free kick, Vic McWilliams punted into touch for a gain of about 5 feet. However, Peterborough soon transformed the play to the middle of the field and worked in a beautiful dribble down to Toronto's goal, where Revell fell on the ball for a try. The goal was not converted. Score—Peterborough 4, Toronto 0.

Toronto kicked off from centre and worked very hard to score, but Peterborough kept aggressive, and after being dangerous a number of times, only to be thwarted by free kicks, from a scrimmage near the line, Jack McDonald and McWilliams made a tandem play through a hole Smith made for them, and another try resulted.

Burnham had hard luck on the goal, the ball hitting one of the uprights. Score —8—0.

McPherson made a very pretty run in this part of the game, gaining fully 35 yards. Mac. is very hard to stop when he gets going with the ball.

A few minutes later half time was called, and the boys retired for a much needed rest.

The second half was stubbornly contested. Torontos saw they couldn't win, but tried to keep the score down. After many ups and downs, Burnham and McDonald got over for another try. Score —12—0.

Shortly after Smith and Revell got away on a dribble, but kicked the ball too far ahead of them and it landed in touch in goal.—Score—13—0.

Peterborough was forcing matters now, and working very hard when Rickey lost his temper a little, and was given five minutes in which to cool down.

"You're a stiff," says Rickey. "Take the rest of the game," says the referee, and Bruce got away.

With 14 men to 15 Peterborough still forced matters, and nearly scored. But Fred O'Connor couldn't find room to get into the scrimmage right, and kicked his check to make him give over, and he was also sent to the fence for the rest of the game.

With only 13 men Peterborough still kept going, and at last McPherson got a nice run around the end for a try which Scott converted. Score—Peterborough 19, Toronto 0. There was only 20 or 30 seconds more, as the game was called.

NOTES.

Too much praise cannot be given to Smith, Ravell, and Crowley. They hold their men to the Queen's taste, and although handicapped by being inside, are always among the first down on the ball.

Chris Graham played his position without an error, his tackling being superb.

Meagher was up against a tough proposition, but stuck to it like glue.

Hal. Burnham's long punts plagued the opposing back line, and they were afraid to kick for it always meant a loss to them.

"Rolly" McWilliams deserves great credit for the way he has worked football up in the town. From being a lot of dead ones, they rose to the position of intermediate champions in one year, and are on the high road to the same honor again this year.

The Juniors play Port Hope on Thanksgiving Day. Let there be a full practice Tuesday afternoon to put them in shape for their game.

A DASTARDLY ACT

The Steamer Eclipse Tied up on Saturday Afternoon

On Saturday afternoon last, shortly after the arrival of the Steamer Eclipse from Rice Lake with her usual Saturday's complement of passengers and freight, she was, to use a nautical term, "tied up," by the order of the Court at Toronto.

The facts are as follows—Early in the season a man from Toronto was employed by Capt. C. W. Calcutt, as mate, at a fixed salary. He asked to be relieved, as he wanted to go back to the city, after serving a couple of months, and was paid off in full, and a receipt taken for his wages in full. This was some weeks ago. Imagine Capt. Calcutt's surprise and indignation on Saturday when papers were served on him claiming $30, and he was not to be allowed to return with his passengers and freight, unless he settled. Fortunately he was able to send his passengers home on another steamer.

Capt. Calcutt has instructed his solicitors, Messrs. Pousette & McWilliams, to defend the action, and take such measures against the party referred to as will probably teach them an everlasting lesson.

COUNTY COUNCIL ELECTIONS

There Will be Several New Candidates in the Field this Year

Elections to the County Council will take place in January, on the same day as the municipal elections. All the old members of the Council will offer themselves for re-election as well as some new ones. Mr. T. M. Hunter, Reeve of North Monaghan will probably enter the field This district is now represented by the esteemed Warden, Mr. Joseph Forster, and Mr. Geo. W. Fitzgerald. In the Norwood-Asphodel district, there will also be opposition to the re-election of Messrs. J. B. Pearce and Buck. Mr. W. H. Casement, of Lakefield, will also likely stand for the Douro-Dummer district, at present represented by Messrs. E. Hawthorne and J. Crowe. The Otonabee district, represented by Messrs. A. E. Peck and Anderson, will probably remain as it is, as both these gentlemen are very popular, and have made good and worthy representatives. In the North, Messrs. Tom Eastland and Shaw will probably remain in undisturbed possession of their seats, as they have always been alive to their duties.

DR. BRENNAN'S CHANCES

The Gallant Doctor Will Have to Hustle to Win

The Toronto Telegram says,—"After several years' absence in South Africa, Dr. Frederick H. Brennan has returned to Peterborough. For a long time East Peterborough Tories have been in search of an opponent to John Lang, M.P., and Dr. Brennan's return to Canada came just in time. He has consented to contest the riding, but will need to hustle to defeat Farmer Lang The Doctor is a Peterborough County boy, and practiced for a good many years in Peterborough. He has been chairman of the Separate School Board, president of the Canadian Baseball Association, and has held other offices as well. During the war Dr. Brennan was professionally engaged on one of the hospital ships that did service during the South African campaign. Towards the end of July last the five shiploads of Boer prisoners were sent back to Holland, the captives having the option of returning home or remaining as prisoners of the British in Africa. In medical charge of one of these ships, containing 750 people, was Dr. Brennan. Upon discharging his duties in Holland he went to England, and from thence to New York."

THE ASSIZES TO-DAY.

THE CIVIL DOCKET IS HEAVIER THAN FOR YEARS.

No Criminal Cases—The Court Will Probably Have a Long Session—A Case Against the Corporation.

The Fall Assizes of the High Court of Justice for the County of Peterborough open at 1 o'clock to-day, before the Honorable Mr. Justice Ferguson. Whilst there are no criminal cases on the docket, the list of civil actions has not been as large in many years. The docket is made up of four jury cases, and five non-jury cases. They are as follows,—

WHITE VS. EDMISON.—This is a seduction case, the plaintiff being Zaccheus White, a saw miller residing in the village of Lakefield. He alleges that the defendant, William J. Edmison, a merchant at Harwood, on or about the third day of June, 1899, at the National Hotel, in the town of Peterborough, seduced Alice E. White, an infant daughter of the plaintiff, and that on or about the fourth day of March, 1900, the said Alice E. White was delivered of a child as a result of the said seduction. He claims $2,000 damages and the costs of the action

The defendant in his statement of defence, denies the allegations made by the plaintiff, and asks that the action be dismissed with costs.

Dennistoun, Peck, and Stevenson, for plaintiff; E. C. S. Huycke, (Cobourg), for defendant.

STEVENS VS. WM. HAMILTON MFG. CO.—George Stevens, a junk dealer in Ashburnham, seeks to recover $3,000 damages from the Wm. Hamilton Mfg. Co., for alleged breach of contract. The plaintiff in his statement of claim alleges that on or about the 10th day of February, 1900, by an agreement made between himself and the Wm. Hamilton Mfg. Co., the defendants undertook to take from the plaintiff a certain class of scrap iron at a certain price per ton, and in such quantities as the plaintiff was able to deliver. Under this contract it is alleged several consignments of iron were disposed of to the Wm. Hamilton Mfg. Co. However, on or about the 15th day of May, 1900, the plaintiff received notice from the defendants that they would not accept further deliveries under the said contract, and repudiated same. In conclusion the plaintiff states that all conditions by the plaintiff to be performed, all things have happened, and all times have elapsed to entitle the plaintiff to maintain this action.

The plaintiffs for a defence of the action plead the statutes of frauds. They also allege that on the said 10th day of February, plaintiff offered to sell to defendants a large quantity of scrap iron, amounting to over $3,000 in value, but the defendants refused to buy same by the load as delivered, and then after such refusal the plaintiff delivered a number of loads, which the defendants accepted and paid for in the usual way. Having purchased all they required and had yard room for, they refused to take more.

H. E. Wood for plaintiff; D. W. Dumble for defendants.

BOWIE VS. WEIR.—The plaintiff in this action is Edward E. Bowie, a retired farmer residing in the town of Peterboro, and the defendant a farmer residing in the township of Otonabee. The plaintiff is endeavoring to recover the sum of $500 and the cost of the action for alleged breach of agreement wherein the plaintiff was to secure a purchaser for a farm of which he had been the owner, and which was sold by auction by virtue of a certain mortgage to defendant. The defendant, it is alleged, agreed to give to plaintiff the amount of the difference between what the farm was purchased for under mortgage, including expences connected therewith, and the price at which the farm was sold subsequently. This difference amounted to $932.47. The plaintiff admits that the defendant has properly expended $432.47 and claims a balance of $5.00.

The defendant states that having made himself liable by endorsing the plaintiff's notes, and having paid large sums of money for him in order to save himself from loss, he purchased the said farm at the said auction sale, and then he bought the farm without any understanding with the plaintiff, and was not under any obligation to account to the plaintiff. He further claims that the subsequent sale of the same was not made through plaintiff's efforts.

Kerr & Kerr for plaintiff; D. W. Dumble for defendants.

LITTLE VS. COUGHLIN. — Andrew F. Little, a harness maker of town, seeks to recover from Michael Coughlin $2,000 damages and the cost of the action for slander. He alleges that on the seventh day of November, 1899, the defendant in the presence of several persons in a certain hotel in town, falsely and maliciously spoke and published of the plaintiff words which imputed that the plaintiff was guilty of a serious crime.

The defendant does not think that the allegations contained in the plaintiff's statement of claim are sufficient in law to sustain the plaintiff's cause of action. He claims also that he did not speak the words alleged, or if he did, they were not intended to bear the meaning alleged.

E. B. Stone for plaintiff. D. O'Connell for defendant.

WALSH VS. DICKSON.—John Walsh, of the Township of Asphodel, brings an action against William Dickson, of the same township, to recover the sum of $250 damages for the alleged wrongful waste and cutting of timber and timber trees by defendant. The action arose over a misinterpretation of a lease.

D. O'Connell for plaintiff. Edmison & Dickson for defendant.

SHERWOOD VS. PETERBOROUGH —Hattie M. Sherwood, of town, seeks to recover from the Town of Petrborough the sum of $2,000 for damages alleged to have been sustained by her, by reason of having on the second day of February, 1900, while passing along the west side of George street, near the Y. M. C. A., fallen and broken her leg. The accident was caused, so it is alleged, by reason of a ridge of ice and snow which had formed on the pavement about a month before the accident occurred. The statement of claim amongst other things states that the defendants were guilty of gross negligence in permitting such ice and snow to accumulate. Continuing the plaintiff says—the ridge of ice and snow upon which the plaintiff fell was not caused by ordinary climatic conditions, but was caused by gross negligence of the defendant corporation, under the following circumstances. In mentioning said circumstances, plaintiff states that the grade of the granolithic walk was struck too low; that the corporation was notified of this before the pavement was constructed, but the corporation took no measures to prevent the evils of which notice was given, and which have occurred as predicted. The by-law of the Town of Peterborough regarding the clearing of sidewalks is also quoted.

The defendant corporation claims that the sidewalk in question is properly constructed and was at the time of the accident in good repair, that the alleged condition of the sidewalk was due to climatic changes, and they deny that the accident was caused by a ridge of ice that had formed a month before the accident. Further they deny any gross negligence, and the statement that they were made award of the said alleged bad condition of the pavement.

Dennistoun, Peck and Stevenson for plaintiff. E. B. Edwards, Q.C., for defendant.

ARMSTRONG VS. THE SUN LIFE ASSURANCE COMPANY. — The plaintiff in this case, Margaret Elizabeth Armstrong, enters action for $2,000, which it is claimed the defendant promised to pay on the death of her husband, John M. Armstrong.

Stratton and Hall for plaintiff, Dennistoun, Peck and Stevenson for defendant.

ENNIS VS. McALLISTER MILLING CO. AND C. B. McALLISTER.—The plaintiff is a grain and flour merchant of Neepawa, Manitoba, and in his statement of claim sets forth that the defendant ordered five cars of a certain quality of flour from plaintiff which was duly forwarded to Owen Sound, there to await defendant's order. One car only was accepted but as the value of flour became greatly reduced, defendant refused to accept remainder, giving as an excuse that the quality of the flour was not up to the standard. The remaining four cars of flour were then sold at a loss of $1,238.02, which sum the plaintiff claims with costs of action.

In the statement of the defence the defendant claims that no contract for the five cars were ever entered upon no memorandum in writing being ever signed by any person on their behalf; also that it never was agreed that any flour should be forwarded to Owen Sound subject to their order. Defendants claim that the car of flour was bought by them from the co-defendant, who was paid for it, but that it was not of the quality ordered. The defendants further claim that the goods were not delivered within a reasonable time and that they suffered great loss in consequence, and by way of a counterclaim claim $1,000 from the plaintiff.

Hatton and Bradburn for plaintiff. E. B. Stone for defendants.

CROWLEY VS. TRUST AND LOAN CO.—Being an action to receive an account of the proceeds of the sale of the west half of lot No. 15, in the 15th concession of Otonabee, and an account of such sums of money that the defendants should have received from the proper and prudent sale thereof...

D. O'Connell for plaintiff. Lount, Mark and Cameron for defendant.

DICKSON VS. WALSH.—In this case both plaintiff and defendant are Asphodel farmers, and action is brought by the plaintiff in order to have a certain conveyance declared to operate only as a mortgage or security for the payment of money advanced and not to stand as an absolute deed in fee simple.

Edmison and Dixon for plaintiff. D. O'Connell for defendant.

When General Buller Will Return to England

French Government will not Object to Kruger Landing in France

ARRANGEMENTS AT HALIFAX.

Halifax, Oct. 13.—The Programme Committee of the reception to the Canadians met last evening and decided to recommend the following to the general committee—If the steamer arrives in the morning, the landing to be made in the afternoon, if at night, the landing to be in the morning; landing to be at the dockyard. The line of march to be lined with the sailors from the warships, and the troops to proceed to The Commons, where a short thanksgiving service will be held, thence to the Armory for the banquet. Invitations to be sent to the Premier and Cabinet Ministers, Mayors of provincial towns and commanders of the militia in Nova Scotia. It was also recommended that the Government be asked for the use of a steamer to meet the troopship; to request the general decoration and illumination of all steamers in port, to go down the harbor and meet the troopship. A salute will be fired from the citadel, the forts and the warships.

A STRATHCONA DEAD.

Ottawa, Oct. 13.—A cable from South Africa announces the death from enteric fever at Pretoria, on the 9th, of 331, L. S. Days, of the Strathconas, formerly of New York.

WHEN BULLER WILL RETURN.

Cape Town, Oct. 13.—General Buller is expected to leave here for England at the end of the month.

Four hundred refugees, principally miners, will return to the Transvaal next Wednesday. They will comprise the first consignment of refugees to return from here.

Sir Alfred Milner, Governor-General of Cape Colony, left for Bloemfontein to-night on a special train. He will probably be gone for several weeks. During his absence General Sir Frederick Forestier-Walker will discharge the duties of a Governor.

NAVAL BRIGADE ARRIVES.

The naval brigade, under command of Captain Barecroft, arrived at Simons to-day from the front. The men were enthusiastically received by the people. The town was decorated, and all the business houses were closed. There was a great crowd at the railway station when the train arrived, and the Mayor made an address of welcome, in which he referred in a complimentary manner to the conspicuous part of the naval brigade had taken in the arduous campaign. The sailormen were banquetted to-night by the citizens. The majority of them will sail for England on Monday.

KRUGER SAID TO HAVE SAILED.

Brussels, Oct. 13.—It is reported here that ex-President Kruger sailed from Lorenzo Marquez on Thursday aboard the Dutch cruiser Gelderland.

MAY GO TO FRANCE.

Paris, Oct. 13.—It is learned from an excellent source that it is absolutely untrue that the Government will oppose the landing of ex-President Kruger at Marseilles. The report circulated to that effect was the sole invention of newspapers hostile to the Government.

NO DEMONSTRATION.

Antwerp, Oct. 13.—The Belgian burgomasters are determined to prevent any public outdoor demonstrations in favor of ex-President Kruger on his arrival in this country. This decision has been taken in order to prevent all further offence to Great Britain.

CHINESE REBELS TOOK OF EIGHTY-SIX HEADS

Visitors to Pekin Despatched by Bargain Hunting Americans to the Devastated Cities of China.

Pekin, Oct. 12, via Tien Tsin Oct. 13 and Shanghai Oct. 14.—Li Hung Chang began to make his formal call upon the Legations to-day. This afternoon he visited the British and American representatives. Gen. Chaffee and General Wilson assisted United States Minister Conger in receiving Earl Li. Li Hung Chang and Prince Ching will shortly address a note to the foreign Ministers asking that a meeting be held for the purpose of beginning the negotiations for peace. He expressed a preference for the Tsung Li Yamen as a meeting place. It is stated that owing to foreign objections Yung Lu has withdrawn from the post of peace commissioner. Li Hung Chang expresses doubt as to the authenticity of the decree banishing Prince Tuan.

Tien Tsin, Oct. 12, via Taku, Oct. 13 and Shanghai, Oct. 14—

Count Von Waldersee has issued an official statement summarizing military progress made since he assumed command. He explains that the seemingly delay is due to the difficulties experienced in the disembarkation and the transportation of the German troops, and also to the difficulty of getting the various commanders to work in harmony. Count Von Waldersee says the condition is now tolerably satisfactory, and that active operations are inaugurated with the Pao Tung Fu expedition, a statement regarding the inactivity of the hostile Chinese merely as a ruse to cover possible future extensive operations. Count Von Waldersee's military policy is designed to crush the possibility of further hostilities.

Paris, Oct. 13.—A trustworthy cable despatch from Shanghai says that General Liu, the chief of the Black Flags, has left Canton at the head of a considerable force, and that he will traverse the province of Hu Nan, try to cross the Yantse at Oua, and then traversing the province of Ho Nan, join the Empress at Siam Fu, capital of the province of Shen Si, for the purpose of acting as her body guard.

The despatch adds it is believed that the Dowager Empress will arrive at Sian Fu about Oct. 20.

VISITORS TO PEKIN.

London, Oct. 13.—A despatch from Hong Kong says the rebels are looting San Chuen district. They captured and beheaded thirty Chinese soldiers. They were subsequently driven out of the district and fled north, with a force under Admiral Ho in pursuit.

London, Oct. 13.—The Times publishes to-day Dr. Morrison's mail accounts of the events that led up to the siege of Pekin. He says that the Boxers only became important after the German occupation of Kiao Chu. The Chinese are ascribing the disastrous drought and famine, with other troubles to the judgment of heaven for the usurpation of the Empress Dowager. She seized upon the "Boxer" movement, according to Dr. Morrison, as a means of diverting popular wrath from herself to the foreigners, and appointed Yu Hsieru, founder of the Boxer sect, to be Governor of Shan Tung, in March, 1899. Thus, under Imperial protection, the Boxers preached the doctrine that it was the foreigners and not the Empress Dowager who had aroused the wrath of the gods.

Tien Tsin, Sept. 7.—(Correspondence of the Associated Press)—Lured by the prospects of rich bargains and loot, large numbers of buyers are reaching Pekin and Tien Tsin from Shanghai and other cities in the south.

Most of them are acting under cable instructions from dealers in America and Europe, the most exaggerated reports having been spread of the value of the plunder taken in the sacking of these two north of China cities. It is safe to predict that Europe and America will be flooded with curios and relics which have never seen either Pekin or Tien Tsin, because so far the speculators have met with keen disappointment. There is to-day any quantity of stuff for sale, but practically all of it could be bought in any curio or Oriental shop at home.

In every by-street, and in the environs of the camps, soldiers of all the powers gather in little groups bartering the spoils of war.

PARTITION OF CHINA.

Pekin, Sep. 1—In regard to division of Chinese territory among the powers it seems the opinion of most of the officers here, that if there is such apportionment, Japan will obtain Korea.

Everyone here seems to believe a division is imminent, and all think America is hardly to be taken into consideration.

It is generally conceded that the most she wants is a money indemnity and possibly a coaling station. The British and the American Legation grounds are the central point of interest, and it is here that most of the news of the day is gathered and discussed.

The Germans claim that they have the greatest right to dictate the terms of peace, on account of the murder of Baron von Ketteler, but the other Ministers claim that their having been besieged, bombarded, and in peril of their lives for weeks, constitutes just as much of an affront to their respective nations as though they had been killed.

EIGHTY-SIX HEADS.

Shanghai, Oct. 13.—A plot of 400 rebels in Suchow to get possession of that town and pillage it has been discovered and 86 prisoners have been arrested, the rest of the conspirators taking to their heels.

All the prisoners have been beheaded.

Berlin, Oct. 13.—A despatch received here to-day from Shanghai says a very serious view is taken at Field Marshall Count von Waldersee's headquarters in Tien Tsin of the revolutionary movement. At Canton a false alarm, October 7, caused the Chinese of that province to protest against any occupation of any Chinese territory. The Tang-tse-Kiang openly affirm that they will oppose any advance of the Germans into Shantung province.

BACKED INTO THE RIVER

Two Men From Douro With a Team Get Into Difficulties

"Two men, a team and wagon are in the River," was the startling message telephoned to Chief Rozel at seven o'clock Saturday evening. The Chief secured help, and hastening to the head of Antrim street, immediately south of Elcome's, the taxidermist, he found that Ed. Welsh and his chum John, had unexpectedly wound up "a day in town" by sampling the waters of the Otonabee.

Both men, who live in Douro, some thirteen miles from Peterborough, had been, "making merry" during the afternoon, and the thickness of John's vocabulary rendered a translation of what he gave as his surname somewhat difficult.

Starting for home a little before seven, they drove north and turned down Antrim, instead of Smith street; on reaching a bend in the road by Elcome's, and finding the river confronting them, they proceeded to turn about, but being aware that by continuing along Harvey street, the Smith Street bridge could be reached. But the road is narrow and the river dangerously near at this point, and Welsh backed his team over the steep banks into the chilling water below. John jumped for it, but Welsh stuck to his team, and got a ducking. Fortunately the river is not very deep at this point, and both horses and men were quickly extricated from their cold bath; but the wagon had to be left in the river over night till yesterday, when the men, with the aid of several citizens, succeeded in hauling it up the bank.

Welsh and his chum John, by advice of Chief Rozel, registered at an hotel Saturday night, and left for home at three o'clock yesterday afternoon, sadder but wiser men, and vowing to assuage their thirst (with something in the lemonade line next time they come to town.

WEATHER NOTES.

To-day—Cooler with local showers.

A depression is passing up the United States Atlantic coast, which is likely to cause unsettled weather again in the Maritime Provinces, but elsewhere in Canada the weather promises to remain fine.

THE PRESIDENT'S SALARY.

Editor Morning Times

Sir,—To settle a wager, will the Times please tell its readers what salary is paid the President of Mexico? Is it more than the Governor-General of Canada receives?

D. R. SHERD.

Ans.—The President of Mexico receives $50,000 per annum salary. Our Governor-General has an allowance of $50,000 a year.

THE MAJORITIES.

Editor Morning Times

Sir,—Will you be good enough to publish the majorities at the last election for Mr. Lang in East Peterborough, Mr. Kendry in West Peterborough; George McHugh in South Victoria, and Col. Sam Hughes in North Victoria, and oblige,

A READER.

Ans.—East Peterborough, Mr. Lang's majority was 613; West Peterborough, 319; South Victoria, 62; North Victoria, 251.

THE MUNICIPAL ELECTIONS.

Editor Morning Times

Sir,—As a constant reader of the Times (which appears to be read in almost every house in town) I have watched the course of events in connection with municipal matters. I would like to see a man who has served faithfully at the Council Board promoted to the Mayor's seat, but he must show a clean record. If any of the present council aspire to the honor of being chief magistrate, I would like to know that he had at least done his duty in the lower position as councillor. It appears to me that things have not gone altogether right. Closed committee meetings, the bad management of the streets, and other matters will tell against the Council when the elections come on.

It is a pity, Mr. Editor, that we cannot get men who will manage the affairs of the town as they would their own business. We have a number of law suits on hand and an ever increasing tax bill. It is time for a change, before we become so grippled with debt that we will retrograde. Let the ratepayers wake up, I say, before it is too late.

Morning Times

PETERBOROUGH, OCTOBER 15 1900.

NEW YORK THE BATTLEGROUND.

As is common in national contests the public are now liberally supplied with estimates of the electoral vote to be cast in November, varying from two-thirds Republic to two-thirds Democratic; but the intelligent and dispassionate observer of the situation will understand that the Presidential candidate for whom the electoral vote of New York shall be cast will be the next President of the United States.

In saying that New York is the pivotal State of the battle, it means much more than the mere arithmetical argument that decides the majority in the electoral college. New York is affected by the same political influences which prevail in all other sections of the country, and the doubtful States, because influenced by the same causes, will be likely to vote almost solidly in accord with the Empire State. That the dominating influences in New York are favorable to Democratic success must be evident to all who understand the political situation; but the electoral vote of that State has several times been cast the logical expression of the people, by political machinations such as sacrificed Hancock in 1880, and Cleveland in 1888. If there shall be positivve and earnest Democratic unity in New York State, her electoral vote will be given to Bryan, and thus make him the next President.

Since 1860 New York has never given her electoral vote against the general verdict of the nation, with the single exception of the Grant-Seymour contest in 1868, when Seymour was given a majority of doubtful validity. In every other instance the electoral vote of New York has been given for the successful candidate for President. True, Tilden was defrauded out of Presidency, after his election by a large popular and electoral majority in 1876, but that fraud does not affect the record of the State; and there is no reason to doubt that the record of the Empire State in the present contest will be the record of the Republic.

New York gave her electoral vote to Lincoln in 1860 and again in 1864, in harmony with the verdict of the American people. In 1868 the personal strength of Seymour, with Tammany and its political machinery at the very zenith of their power, made New York give ten thousand majority for Seymour against Grant; but that verdict stands single and alone as the expression of New York against the expression of the country.

In 1872 Grant carried the State by a large majority, and four years later, in 1876, Tilden carried New York by a large majority, with a popular majority of 250,000 of the nation. In 1880, New York decided the contest against the Democrats, and gave Garfield the Presidency with a popular majority of the country of less than 10,000. In 1884, New York voted for Cleveland and decided his election in harmony with a popular majority of some 30,000. In 1888, the electoral vote of New York defeated Cleveland when Hill, Democrat, was elected Governor by some 20,000, and when the popular vote gave Cleveland nearly 100,000 majority. In 1892, New York gave Cleveland a large majority, being influenced by the tidal wave that returned Cleveland to the Presidency by nearly 400,000 plurality; and in 1896 New York was thrown out of the Democratic fold by a majority that swelled into hundreds of thousands, in the great Republican hurricane that swept the land. Thus with the single exception of the Grant-Seymour contest of 1868, the electoral vote of New York has always been cast for the successful Presidential candidate.

It is idle to figure on minute details as to the electoral vote at the next election. If New York shall vote for Bryan he will be successful, and the Democratic leaders of that State can give him the electoral vote, if they shall be faithful to their cause and to their plighted faith to the country. The same influences which would carry New York would carry with it the State of New Jersey and probably Connecticut, and would assure the electoral votes of Delaware, Maryland, Kentucky and Indiana for Bryan, with the certainty of adding Nebraska, Colorado, Nevada, Utah, Idaho and Montana to the Democratic column, leaving Illinois and Wisconsin as fairly doubtful under such conditions.

HUGH JOHN REPUDIATED

The Conservative party is threatened with another split over Hugh John Macdonald's pledge publicly given recently in Brandon that if elected, he will use his influence to have the entire duty removed from agricultural implements. The Toronto World gets after Hugh John with a double column axe and remarks as follows:—

"We have no great apology for Hugh John Macdonald and his declaration for lower duties on agricultural implements. We would not like to see it. Our belief that Canada's future depends on two things,—Keeping out Yankee farm products, most of all Yankee goods (manufacturing our own,) and getting a wider market in England for our farm products.

"After this speech of Hugh John's the public may look for the cry being raised that the Conservative party intend to take the duty off implements and to close the Massey Works in Toronto. This will be the cry in West Toronto. No such proposition from the Conservative party is before the country."

Hugh John, of course, only speaks as an individual, but it is safe to gamble that the Liberals will see that his remarks get all possible publicity in manufacturing centres. In the meantime the World repudiates him. Will the other Conservative papers follow suit?

THE POLITICAL POT

The Conservatives have opened out a committee room on George street, and the work of organizing is being proceeded with. Mr. Kendry apparently realizes that he will have to put up a strong fight to win.

* * * *

Mr. McClellan is working like a beaver. He is not letting grass growing under his feet. The Liberal Committee rooms are being well patronized, and perfect organization is assured.

* * * *

The Conservative Convention in East Peterborough will take place on Wednesday, when the nomination will be formally tendered Dr. F. H. Brennan, the returned South African hero. Dr. Brennan will have three weeks in which to meet the electors.

* * * *

The publication of Dr. Brennan's name in the Times in connection with the Conservative nomination for East Peterboro has spread the news throughout the entire riding. There is hardly a man, woman or child in the riding who does not already know that the Doctor will be the Tory standard bearer. This only goes to show what we all along have maintained, that everybody reads the Times.

* * * *

Mr. McClellan told the Times that things looked hopeful, and he had every confidence that he would be elected. He thinks the abuse given Mr. Tarte by th local Tory organ, will not help to win votes for the Conservative party.

* * * *

J. J. Foy, M. P. P., is still talked of among the knowing ones as a possible Conservative candidate in Centre Toronto. Renewed pressure is being brought to bear on him to reconsider his previous decision to remain in provincial politics. Mr. Whitney is also being asked to allow his supporter in the Legislature to step into the Federal arena and carry Centre Toronto for the Conservatives. It is believed that Mr. Foy could easily carry the seat, and that his candidature would also strengthen the party in other constituencies.

* * * *

Ex-Ald. John Flett will in all probability be the Liberal candidate in Centre Toronto. A number of the local Liberal leaders waited on Mr. Flett and asked him to allow his name to go before the nominating convention this evening. After a little pow-wow Mr. Flett concented to accept the call. Mr. L. V. McBrady will not consent to withdraw, and will divide the convention with Mr. Flett. The latter, however, is the choice of the executive, and will undoubtedly secure the nomination. Mr. Flett is a well-known business man in Toronto, being a member of the wholesale firm of Flett, Lowndes & Co., of 41 Bay street. He is not much of a platform speaker, but is a solid business man of unimpeachable integrity.

* * * *

Mr. Tarte is hopeful—very hopeful. Speaking in Laval County this week he predicted that the Government would be returned to power with a majority of over 50—more than they had after the elections of 1896. He figured on a Liberal majority of at least 18 in the Maritime Provinces, 12 in Ontario and over 48 in Quebec. He was also willing to bet a silk hat that the Liberals would have a majority in the West. We think Mr. Tarte is a trifle too sanguine.

The name of Mr. P. W. Ellis, president of the Board of Trade, is mentioned as a probable Conservative candidate in East Toronto.

* * * *

Sir Wilfrid Laurier will speak in Massey Hall, Toronto, to-morrow evening.

* * * *

South Renfrew Liberals met in convention at Renfrew yesterday and nominated Mr. A. A. Wright for the Commons. Mr. Wright's opponent is John Ferguson, M.P., who rejoiced in a majority of 432 in 1896.

* * * *

Ex-Premier Taillon, of Quebec, was nominated yesterday for the Commons by the Conservatives of Bagot County, Quebec. Bagot is nominally a Conservative riding, but in the bye-election following the death of Mr. Dupont, M.P., Mr. Tarte succeeded, with the help of the Government, in electing Mr. J. E. Marcil, the present member. The Conservatives are confident that ex-Premier Taillon will bring the constituency back to the Conservative fold.

* * * *

East Durham Liberals gather at Millbrook on the 23rd inst., and Dr. Powers, of Port Hope, will be the candidate chosen, though the names of Dr. R. A. Corbett, Port Hope; W. H. McCallum, Port Hope, and A. Wood, banker, Millbrook, are mentioned.

ATTACK of ROYAL CANADIANS at Paardeberg

The present is a time when war pictures are in greater demand than ever. The conduct of the British soldiers on the battlefield has won the plaudits of admiring nations. We have at great expense published four large, beautiful pictures size 20x24, on heavy, superfine calendered paper. A picture that will commend itself and send a thrill to the heart of every true Canadian is the one called Attack of Royal Canadians at Paardeberg, there are literally hundreds of figures on this picture, the mountains or kopjes stretching out into the distance are swarming with men, while here and there a prostrate figure speaks only too well of the Boer rifleman. It was on this battlefield the gallant Major Arnold met death unflinchingly. Indeed, it is only too true that many of those gallant hearts that beat so high when the cheering thousands bade them Godspeed as they sailed from Canada's shores now lie still forever in lonely graves on the other side of the world under African skies. To every Canadian heart, to every Canadian home, the deeds of their brave soldier boys speak with an irresistible thrill of patriotism and pride. Gordon Highlanders at the Battle of Belmont, Charging the Boer Guns at Elandslaagte and the Charge of Gen. French's Cavalry on the Retreating Gen. Cronje's Army. These are all stirring pictures and cannot fail to commend themselves to anyone who will examine them. They are RAPID SELLERS! Agents coin money. Big profits. Enormous success. One agent sold 68 in one day. Sample and terms 25 cts (none free); four for 80 cts; $1.75 per dozen; 25 for $3.25; 50 for $6.00; 100 for $11.00 Write to day for a dozen and make money. Address to the Electors

To the Free and Independent Electors of West Peterborough—

Gentlemen,—Having accepted the unanimous nomination of the Liberals of this Riding, as a candidate for its representation in the House of Commons I hereby respectfully solicit your support in securing my return at the coming general elections.

The grounds upon which I base my appeal are not so much nor chiefly by any means, my personal fitness for the position of your representation though as a citizen of Peterborough and interested in its progress in common with that of the country, I can and do promise, if elected, an intelligent support of such a public policy and such measures as will best conduce to the promotion of all the interests of Canada, the developement of her great resources and the general betterment of the civil moral and material condition of the public; and my best abilities and most assiduous attention shall be devoted to the faithful discharge of my representative duties.

The strongest ground, however, of my appeal consists in the fact that I am a firm supporter of the Liberal Government led by Sir Wilfrid Laurier, which is entitled to the renewed confidence of the people, both on the ground of its policy and the splendid record established by the application of that policy. The Liberal party appealed to the country in 1896 upon a clearly defined policy and the promised results followed.

The Liberal party promised a reduction of a high tariff that hampered our industrial and agricultural interests and was hostile to the Mother Country.

The tariff was materially reduced and otherwise improved and in such a way as to help instead of hinder the manufacturer and farmer, with the consequence that never before in the history of the country have our industries or our farmers enjoyed such great prosperity, our mechanics and working men such constant employment and high wages, nor our commercial and all other interests so flourished.

Our domestic and foreign trade have also greatly increased. The loyal gift of a trade preference, represented by a tariff reduction on British goods of 33 1-3 per cent., and our despatch of the Canadian Contingent, have resulted in a kindlier feeling towards Canada and greatly increased trade with the Mother Country.

With a largely reduced rate of tariff, our revenue has greatly expanded so that the Government was warranted in practicing true economy (reducing our postal rate one third, giving imperial penny postage,) and premitting of the completion of great public works, deepening our canals, so long trifled with, pushing the work on the Trent Valley Canal which is now urged and will be urged to completion by the Liberal Government, and the application of a vigorous policy of general development and improvement of our transportation facilities, resulting and to result in easier access to the British market and better prices for all our products.

The farming interests of the country are deserving of the best services of a Government, such as the present has given. The immense impetus given the produce trade between Canada and Great Britain, through the preferential tariff, has been greatly helped by the action of the Government in providing an excellent and adequate system of cold storage, by which Canadian products can be landed in Great Britain in first-class condition, guaranteeing the highest prices. The system is of the most modern character, sufficient for all the present needs of the trade, and it will be improved and enlarged as experience suggests, and increase of the produce trade demands, and I shall, if elected, feel it my duty to support any policy that will improve our trade with the Mother Country, and strengthens the bond of British connection, of which we are so proud.

In an industrial centre like Peterborough the claims of the working classes are especially deserving of consideration. No country is well governed that does not look after the interests of all classes of the community. The Conservative Government has been, and the Conservative party declares itself to be, extremely solicitous of the interests of the capitalist classes—the manufacturers—but it left the working classes to largely shift for themselves. A Liberal Government came into power, and the attitude towards Labour was changed, and the rights of Labour to its rights recognised, and in a practical way. A Department of Labour has been established and a Minister of Labour placed over it. A Labour Gazette has been established in the interests of workingmen, published monthly; conditions have been inserted in all Government contracts compelling contractors to pay the highest current wages, which the Government guarantees the payment of; the sweating system has been abolished on Government contracts; the Alien Labour Act is enforced by a special officer, and in many other ways the Government has shown by deeds that the rights of the workingmen, as well as the capitalist, shall be protected. I heartily support the Government in what it has done, and shall support them in extending the benefits which they have already conferred, and which it is their policy to continue, as need arises.

The splendid achievements of Canadian soldiers in South Africa, make them worthy of the gratitude of the country. We have the best militia material in the world, and if we keep up a military establishment, let it be worthy of Canadians. Situated as Peterborough is, on the line of the Grand Trunk and Canadian Pacific Railways, and on the line of the Trent Valley Canal, begun as a military work, and now under course of completion, no other point in this Province is so well adapted for a military centre. I shall, therefore, feel it my duty to press upon the Government the advisability of constructing in Peterborough new armories and connected buildings for military stores for Ontario, and I feel that this is practicable of attainment at the hands of a Government which has shown its interest in our volunteers by placing the Militia Department, so greatly neglected by a previous administration, upon an effective basis, and will, therefore, more naturally be well disposed towards the improvement involved in making Peterborough a centre for military stores.

A town of the industrial and commercial importance of Peterborough, has certainly strong claims upon the good offices and of a Government. For the past four years the town has been represented, when it was represented in the House, by a member opposed to the Government. There is no doubt in the minds of unprejudiced observers, that the present Liberal Government will be strongly sustained in the country at the coming elections, and the question arises whether West Peterborough will have its interests better served by a member sitting in opposition and hostile to the Government and its policy, or by a member pledged to give the Government a fair support in the application of its policy. If elected I pledge myself to give my best ability and exertions to the promotion of the general good of the country, and to look especially after the interests of West Peterborough.

I cannot obviously here, enter into details of how in other ways the Liberal Government has implemented its promises and applied its policy, but I shall have an opportunity during the campaign of more fully dealing with these and other public questions.

As a supporter of such a Government I can appeal with confidence for the support of the Electors of West Peterborough, knowing that by helping to give, as you will do, through my election, a renewal of the trust the Liberal Government has discharged with such evident and gratifying results, they will be conferring a great and lasting good upon this riding, the country at large, and securing a continuation of the great blessings of prosperity and good government we now enjoy.

Again soliciting your support, your votes, and influence, in this contest,

I have the honor to be,
gentlemen,
Your obedient servant,

Love Won — and — Lost.

A NOVEL.

(Continued.)

was so bound up in his; Alderic is the other half of my soul. I could not live my li'e out and know I should never look upon his face again," she cried, vehemently.

"Others have lived through sorrows just as deep and dark, my child."

"There never could have been a life so dark and desolate as mine," wailed Isetta; "first my beautiful young mother was taken from me, then my father, and next my patient old grandmother. I had always been so good so dutiful, why was I left alone to suffer so? My husband's love was all I had to comfort me. Can you tell why that was denied me, too?"

"God knows best, child."

"I cannot believe he could be guilty of such a wrong, Mrs. Moore! If you had only known Alderic, you would have felt how impossible it would have been for him to deceive any one. I have heard him say again and again; 'His honor was his shield.'"

"Alas! alas! poor child, how little he cared for your honor!" sighed the flute-maker's wife sorrowfully. "You will wonder, child, why I have so little faith in the promises of men. Do you see a motto with the simple word 'mother' worked in worsted flowers, that hangs on yonder wall?"

"Yes," answered Isetta, pressing the worn hand she held.

"That was my Amy's handiwork; she was my only child. You cannot know the depths of mother-love, Isetta; you cannot realize how I loved my only child—I worshipped her; I often think that is why God took her from me. Amy was fair and good — she was just about your age when the dark cloud of her life settled over her. Love caused it all, Isetta—love caused it all.

"This was the way it came about. A stranger was riding through Silvernook; when opposite this gate, his horse slipped and the rider fell. We took the stranger in and cared for him. They told me he was young and handsome; but I took no heed; it did not strike me then as strange.

"He lingered, after he recovered, many a day—I shall never forget the day he left. As the night came on, I missed my Amy. I cannot describe to you the agony of that day. Abel found a note in Amy's room, saying she had gone with the handsome stranger. We are to be married this very day, mother, dear, and in a few short weeks we will return to you."

"All the long days that followed, I sat with my face to the wall; darkness shrouded my eyes, but a darkness more bitter than death shrouded my soul. In all the long months that followed, no word came from my child. Heaven alone knew what sorrows surrounded Amy; still I held my faith with God. When Amy's sorrows are greater than she can bear, she will come back to her poor old mother's arms, I said,

"When she was a little child she found shelter on this breast; she knows her mother's love will prove faithful to the last, though all else fail her; if harm befalls my child, she will come to me.

"I was right," continued the poor old blind woman, softly; "one night as I sat in this same chair, I heard soft footsteps creep close up beside me, and a stifled sob. Two soft arms stole round my neck, a tired head fell on my breast, and a voice, I scarcely knew was Amy's, sobbed:

"'Do not censure me, mother, I have come home to die.'

"'What of your husband, Amy?' I cried.

"'Do not speak of him, mother.'

"Little by little she told me all; of the morning they had left, and of the little, dwarfed minister who had married them in the morning light—of the few short weeks that had been like a dream of heaven to her. Then came the horrible awakening. Saying he would soon return, he left her. He never returned; instead, he wrote her a letter which broke her trusting heart, confessing that the marriage she so fully believed and trusted in was no marriage, that the dwarf who married them was no minister. A bank-note was inclosed in the letter, which read:

"'I would indeed undo the past if it was in my power, Amy, but it is too late. I cannot. Go back to Silvernook, Amy, and forget me.'

"Poor child she came back to her mother's love, but she never forgot him—she died with his name on her lips. You can see a grave, a little white cross beneath the trees. That is Amy's grave. Her poor old father never was the same. His heart is buried in Amy's grave.

"The name of our child has seldom been spoken between us; our sorrow is too deep for words. Now you will understand, Isetta, how my heart yearns toward you—how I would shield your trusting heart from every cruel stab."

Isetta laid her head on Marguirette's shoulder.

"She was young, as I am," she said. "She could not live without her love; I cannot live without mine."

"She might have lived," answered Marguirette, "had she come to me for comfort when the first stab of grief fell upon her. She pined away for want of a loving word of courage and strength. You must look to God to be righted, if you have been wronged, my child. Promise me you will look for guidance up there."

"I cannot believe I have been so wronged, Mrs. Moore. I solemnly believe it was a minister of God who married Alderic and me."

"There are others, child, who have been just so trustful."

"Mrs. Moore," said Isetta, solemnly, "in heaven I have an angel mother. She could not have allowed a crime so dark to fall on her helpless child. I have never done a single wrong for which I should atone."

"Alas! it is the good who seem to be called upon to suffer most," said Marguirette, sadly.

"I shall always believe I am his wife in the sight of heaven and in the sight of man," said Isetta, firmly. "That is the one great thought that will help me to bear my ills bravely. It may be with me as it was with your poor Amy. He may have ceased to love me, but for all that I believe I am his lawful wife. The world shall proclaim it. I never could die with the least stain clouding the name my mother gave me in all its purity. I shall know no rest until I have sought my husband out, and he has said, that all the wide, wide world may know it:

"'This is Isetta, my wife.'"

CHAPTER XIV.

A Heart Pang.

Soon another fact became apparent to Isetta; she must not remain longer under the flute-maker's roof. Abel's scanty earnings scarcely provided the necessaries of life for himself and wife; she must not add to their burden.

She made one more effort, with Abel's help, to find the former nurse of her husband. The endeavor proved useless.

"I have known every one in Silvernook this many a year. I never knew but two who were nurses; one was good old Aunty Becket, as we used to call her; she died fully forty years ago. Then there is Mrs. Ryegate, who, in her early days, lived up at Ulverford Mansion, but never anywhere else, so 'twas not she. No one hereabouts ever heard of a Mr. Roast. Ah! child, there is too deep a mystery here for honest country folk like us to probe."

"Shall I have to give up the search?" asked Isetta, pitifully, sick and weary at heart.

"I don't see what else you can do," replied Abel. "Could you pick up a grain of sand and fling it into that rushing river, with the hope of finding it again? He has gone out of your life, child. There is nothing left you but to forget."

"If I only could forget!" she sobbed, passionately. "Why, the soft wooing of the breeze against my cheek reminds me of his voice; the very trees, the flowers, and birds, whisper of nothing but him. I might not know the difference between one grain of sand and its mates, but, oh! Mr. Moore, my love would teach me by its sweet thrillings, when Alderic is near me; he is like none other."

"Was there ever a love so grand, so passionate, so sublime as this was?" thought Abel, in simple wonder; he could not comprehend its great depths.

One great prayer rose up from Abel's heart that these two should never meet, if, perchance, fates e'er willed it otherwise. He trembled for the young girl standing there, so beautiful, so passionate, so loving; he little knew what lay in store for her.

Isetta began to look around her, wondering what she should do.

Those little white hands were unused to toil, other than the pleasant task of drawing the sweetest melody from piano, harp or guitar.

Her grandfather had been wont to say that her voice alone was a fortune to her.

Alas! alas! it was worse than useless to her in time of need.

"What use have we for teachers of music?" the simple folk of Silvernook had said to her, "with such great masters as the birds, the brook, and the great sighing trees? Your voice is sweet, like the music of silvery, chiming bells, but we are content with our own."

"Is there nothing I can do?" cried Isetta, turning her white face to the fleecy clouds. "Father in Heaven! which way shall I turn? Without home or friends, where shall I go? what shall I do?" Many a time had the good old parson of Silvernook watched that beautiful, wistful face as she hurriedly passed his cottage to greet the approaching train, noting the woful tears and the agony in the dark eyes, as she slowly and sadly retraced her steps.

He deeply pitied her, wishing he knew her history. He was sure some great sorrow had crept into her life, and he longed to comfort her.

Isetta shrank from repeating to him the sad tale, which caused everyone who had heard it to gaze at her in such sorrowful pity, with the words, "poor child!" upon their lips.

"I must find something to do," she told the parson. "I am all alone in the world; home, friends, or money, I have none. Can you tell me, sir, what I can do?"

"You are very young, my child," replied the pastor slowly; "the world calls for experience, and experience goes with age. I will see what I can do for you; still, I can give you no hope as to the results."

"Perhaps I might teach the village school, or something of that kind," suggested Isetta.

The Rev. Dr. Morleigh shook his head.

"Miss True is twice your age," he said, "and she finds her task no light one."

"Perhaps I could find some one who would engage me for lace work."

He shook his head; there was no one in Silvernook who required such services.

She could not spin, neither could she knit; these were the principal industries of the village.

She had invested her little store in an advertisement as governess, in an adjacent city paper, but nothing had come of it. She had dispensed with all the pretty ornaments her husband had given her, waiting patiently in the hope that some one would want her who read that advertisement, but all in vain; only the plain gold band Alderic had placed upon her finger remained.

"I would not part with that," she told herself, "if I were to die of hunger; when I gaze upon it, this little band reminds me, even though deserted, that I am an honorable wife. I have done no wrong; this must be my passport to heaven."

One day the pastor sent for Isetta he had said she must not hope; yet why had he sent for her so suddenly?

She lifted the latch of the cottage gate and entered.

Dr. Morleigh was among his flowers, carefully pruning the dead leaves and withered tendrils.

"Would there were gentle hands to prune away all that is harmful from the buds of life's garden," he thought, as he looked up benignly upon seeing who his visitor was. He never forgot the mournful expression of the beautiful eyes that searched his face so eagerly for one ray of hope.

"Sit down, my dear," said Dr. Morleigh, motioning to a rustic garden seat beneath a spreading cedar; "I have news for you."

For one brief instant the hope that it might be from Alderic, her husband, rose in her heart.

A tide of color rushed across the white face, her breast heaved, and her little white hands were clasped convulsively together.

"It is about a situation," continued Dr. Morleigh, cheerily.

He wondered why the young girl leaned so wearily back against the cedar tree.

The white lids closed over the dark eyes, and all the bright color left the delicate face; he thought, in his honest heart, the good news had been quite too much for her.

"I have grave doubts, however, as to whether you will be able to fill the position, my dear. I do not refer to your capability, but your age,

THE COLORADO COPPER MINING COMPANY

LOCATION OF OUR MINES

THE COLORADO COPPER MINING COMPANY is fortunate in being the possessor of five splendid showing properties in the great Salida copper belt, the principal copper producing region of this portion of the rockies. All of our claims have been more or less developed and it is our purpose to put the same on a paying basis at once.

Our Company owns, clear of incumbrances the following claims,—The Sedalia Extension, the Sedalia Extension No. 2, which property adjoins the great Sedalia mine, which has been a big producer for upwards of seventeen years; the Copper King of Colorado, which immediately adjoins the above; the Copper Queen of Salida, a very promising property, only a few steps from the depot in Salida. This claim occupies an imposing position on a mountain just north of the city; and last, but by no means least, the Sunshine, located two miles east of Salida at Cleora station, on the main Trunk line of the great Denver and Rio Grande Railroad, also on the Arkansas river, which in length is one of America's greatest streams.

Their Fame is Spreading

The fame of the Stanley Piano is spreading rapidly. On Saturday last the Company shipped one of their celebrated upright grand pianos to Miss Laura J. Hawley, who resides in Dixon, Ill. This speaks for itself.

Obituary

We regret to have to announce the death of Mrs. John Logan, which occurred at the residence of her son, Mr. John Logan, No. 383 Park street. Mrs. Logan came to Peterborough from Scotland in 1872. She has been suffering from an attack of pneumonia for the past two weeks. The funeral will take place from No. 383 Park street this afternoon at 2.30 o'clock.

The Indian Chief and His Daughter

The Times received a photograph on Saturday through Miss Windsor, of Hiawatha, a photograph of Chief Paudash and his little daughter, taken at the Indian Reserve, Hiawatha, a few days ago. The little one, who is a little over a year old, is seated in a verandah chair, and seemed to realize that she was having her "picture took," as she is wreathed in smiles.

Ill With Appendicitis

A son of Mr. Frank White, who is employed by Ald. Denne, and who lives on London street, was stricken with appendicitis on Monday last, and became so ill that an operation was deemed necessary by the physician in charge, Dr. McCullough. The operation was successfully performed yesterday, and the lad, who is about ten years of age, is doing as well as can be expected. About three months ago, a similar operation was performed on the lad, and a growth of the appendix was removed, but the appendix itself was not disturbed.

Death of Mr F McAuliffe

An old resident, in the person of Mr. Florence McAuliffe, passed away on the 13th instant. The deceased had been suffering for some time with cancer and has been confined to bed for the past five weeks. He was a native of the County Limerick, Ireland, where he was born about sixty-two years ago. In 1853 he was one of a family of seven who came to Canada and settled in Peterborough where he has since resided. Of this family three sisters survive him. He was united in marriage to Miss Mary McCue, who with his son Robert and his daughter Minnie and Maggie, are left to mourn him. Interment took place yesterday at the Roman Catholic Cemetery.

—There will be a meeting of the Board of Works this evening.

St. John's vestry will meet to-morrow evening at eight o'clock.

Service will be held in St. John's Church, Thanksgiving morning at ten o'clock.

The best protection against fevers, pneumonia, diphtheria, etc., is in building up the system with Hood's Sarsaparilla.

—The Harold Jarvis concert, announced for November 1st, has been cancelled.

The advisory board of All Saints' Church will meet this evening at 8 o'clock. A large attendance is requested.

—Mr. Harv. Thompson, of the Rockland House, Bobcaygeon, caught a 20 pound maskilonge the other day.

—Mr. B. Morrow has been appointed returning officer for East Peterboro and Sheriff Hall for West Peterboro.

The Brotherhood of St. Andrews meet in convention at St. James' school house, Toronto, from Thursday till Sunday inclusive.

—Joseph Parrington, for assaulting his wife, was sentenced to one month in gaol at the police court Saturday morning.

—The hunters are in a bad way just now. If they go hunting they will lose their votes, as the elections are held in the middle of the hunting season.

—A telegraph and telephone line is being constructed between Stirling and Marmora, and will soon be in operation.

Rich, warm, healthy blood is given by Hood's Sarsaparilla and thus coughs, colds and pneumonia are prevented. Take it now.

—M. T. Conley, Madoc, has entered an action for $10,000 against Dr. Archer, Port Perry, for alienation of his wife's affections. There are few men who love their wife so dearly.

—The meeting of the Granite Curling Club, advertised to take place last Friday night, did not materialize. The elections monopolize the attention of lovers of the roarin' game.

—Dr. Brennan has made a presentation to the officers' mess of the 57th of a number of trophies of his visit to India, in the shape of Ghurka knives and other native weapons, all of which make a most formidable looking array.

Yesterday, the Presbyterian Church, Lakefield, which has recently been enlarged and otherwise improved, was formally opened. This afternoon a "Tea" will be given, followed by an entertainment in the evening.

—Messrs. McDougall, Brandon & Austin, owners of the Fenelon Falls electric light plant, have placed an order for a new 75 Kilowatt machine, and will make their plant first-class in every respect.

Next Sunday will be the anniversary of the dedication of the building formerly known as the South Ward Church of English Mission as "All Saints' Church." Special services will be held morning and evening, at which Rev. H. Symonds, of St. Luke's, Ashburnham, will preach.

—Amongst the selections to be rendered next Friday night at the band concert will be the prelude to the 4th act of Traviata, and a descriptive selection from the "Hunting Scene." As a tribute to the memory of the late D. M. Spence, killed in South Africa, the Dead March in Saul will be played.

—A very interesting and pleasing evening was spent in the lecture room of the George street Methodist church on Friday evening, when the rally of Sabbath school workers took place. Interesting addresses were delivered by Rev. H. Symonds, Rev. J. P. Wilson and Dr. Taylor, of Boston.

—The Boys' Department committee of the local Association held a meeting on Friday night to make arrangements for the inter-provincial Boys' Conference to be held here on Thursday and Friday of next week. The delegates will be entertained at a banquet on Thursday evening. All the delegates will be billited, and the committee requests that if there are any who would like to entertain delegates to send in their names at once to the secretary.

A Small Blaze

The fire alarm sounded on Saturday night, through a blaze at the residence of Mr. Richard Hall, Water street, North, caused by the electric wires in the cellar. There was little damage done, and the fire brigade returned, the blaze having been extinguished before their arrival.

Duck Shooting Party

On Saturday a duck shooting party, consisting of Col. J. Z. Rogers, and Messrs. H. M. Roy, Twey, Harry, Neill, Talbot, J. Irwin and J. Ringer, left on Mr. Ray's steam launch for Rainy Pt., Rice Lake, for duck shooting. The party will remain for some time.

AMONG THE CLERGY.

Coffee Being Replaced by Postum Food Coffee.

"I am the wife of a minister. About three years ago a warm friend, an exemplary mother and the conscientious wife of a minister, asked me if I had ever tried giving up coffee and using the Postum Food Coffee. I had been telling her of my excessive nervousness and ill health. She said—'We drink nothing else for breakfast but Postum Food Coffee, and it is a delight and a comfort to have something that we do not have to refuse the children when they ask for it.

"I was surprised that she would permit the children to drink even the food coffee, but she explained that it was a most healthful beverage and that the children thrived on it. A very little thought convinced me that for brain work, one should not rely upon a stimulant such as coffee is, but should have food and the very best of food.

"My first trial of Postum was a failure. The maid of all work brought it to the table, lukewarm, weak and altogether lacking in character. We were in despair but decided on one more trial. At the second trial, we faithfully followed the directions, used four teaspoonsful to the pint of water, let it boil full fifteen minutes after the real boiling began, and served it, with rich cream. It was delicious and we were all won.

"I have since sung the praises of Postum Food Coffee on many, many occasions and have induced numbers of friends to abandon coffee and use Postum, with remarkable results. The wife of a college professor said to me a short time ago that nothing had ever produced so marked a change in her husband's health as the leaving off of coffee and the use of Postum Food Coffee." Edith Smith Davis, Appleton, Wis.

PERSONAL MENTION

—Mrs. (Dr.) R. King of town, and Mrs. G. R. Stephens, of Lindsay, have returned from an extended visit in London, Detroit, and other Western cities.

—Rev. F. O. Taylor, of Boston, who speaks in the Y.M.C.A. Hall Saturday night, Sunday afternoon and evening, and this evening, is the guest of Miss Roberts, Bethune street.

—Mr. Alex. Hamilton, a former resident of Auburn, now of Warren, Nipissing district is in town on a few days' visit, the guest of his brother-in-law, Dr. Morrison, Gilmour street.

—Mr. and Mrs. Chas. Durand, of Toronto, were in town Saturday. Mr. Durand is over ninety years of age and is one of the oldest residents of the Province, and is a most active man for his years.

—Lakefield News—Capt. W. V. Reynolds, wife and child have returned home from visiting friends at Toronto Junction. While in the city Capt. Reynolds had an operation performed on his eye, and his many friends will be pleased to learn that he will be all right in a short time.

—Among the ladies visiting Toronto for the inter-provincial golf match between Quebec and Ontario were four from the Peterborough Club, Mrs. Peter Campbell, Mrs. R. S. Davidson, Miss Daisy Hamilton, Peterborough's lady champion and a member of the inter-provincial team, and Miss A. M. Hall, secretary of the club. With them also is Miss Sherwood, who is making a short visit to Toronto.

Sherwood vs Peterboro

The Town Council met in special, but very brief, session Saturday evening to confer with Town Solicitor Edwards concerning the suit of Mrs. Sherwood against the Town. The action arises out of an accident which befell plaintiff last winter, when she fell on the sidewalk at the Y.M.C.A. corner, and broke a limb. Her solicitor entered a suit against the Town for $2,000 damages, basing their claim on the hypothesis that attention having been called to the dangerous condition of the spot in question, and proper precautions not being taken to guard against accidents, the Town is liable. The case will be argued before Judge Ferguson at the Assizes to-morrow, or Wednesday, and will undoubtedly be of interest to ratepayers, for should the Town lose the case, a precedent will be established whereby the Town will be held responsible for our many miles of granolithic sidewalks, which so readily assume an exceedingly slippery condition in winter, thereby taxing to the utmost the ingenuity of our Engineer and civic fathers to guard against possible accidents.

A GOOD FRIEND

THOS. ARNOLD OF LINDSAY, PRAISES POWLEY'S LIQUIFIED OZONE, IT CURED HIM OF KIDNEY DISEASE.

The wonderful way that Powley's Liquified Ozone is making cures, stamps it at once as a most wonderful preparation. You should not continue the old fashioned medicine method. You should take a treatment which kills the germs of your disease. That treatment is Powley's Liquified Ozone. Thos. Arnold is a well-known citizen of Lindsay, Ont. If you doubt this testimonial you should write to him. He will answer your questions cheerfully. "Some years ago I straind myself; cold set in and very soon I had a disease of the bladder which gave me great pain. I was operated upon and pronounced incurable. You recommended your remedy, 'Ozone,' which I at once tried. Ozone acted at once in a vigorous manner on all my urinary organs and I soon received benefit. I am glad to say I am now about cured, as all my former symptoms are nearly gone. I am free from pain and can work easily and feel physically like a new man. We use your remedy for all ills to any of our family. We feel we would lose a good friend if we could not have your remedy in our home all the time. Very respectfully yours, Thos. Arnold, Lindsay, Ont.

Ozone is $1.00 large size bottle, 50c. small size. At druggists or from the laboratories of the Ozone Co. of Toronto, Limited. 48 Colborne street, Toronto.

MR. KENDRY

The Liberal Conservative Candidate will address the electors on the issues of the campaign as follows,—

TEMPERANCE HALL, 4th line Smith, on *Friday*, October 19th.

MONTGOMERY'S SCHOOL HOUSE, Smith, on Monday, October 22nd.

SELWYN, Smith, on Wednesday, October 24th.

TOWN HALL, Bridgenorth, on Thursday, October 25th.

MEETINGS WILL BEGIN AT 7.30 p.m.

All are cordially invited to be present.

Mr. McClellan or his representative is invited to attend and will be given the usual time.

GOD SAVE THE QUEEN.

"Love and a Cough. Cannot be Hid."

It is this fact that makes the lover and his sweetheart happy, and sends the sufferer from a cough to his doctor. But there are hidden ills lurking in impure blood. "The liver is wrong," it is thought, "or the kidneys." Did it ever occur to you that the trouble is in your blood?

Purify this river of life with Hood's Sarsaparilla. Then illness will be banished, and strong, vigorous health will result. Hood's Sarsaparilla is the best known, best endorsed and most natural of all blood purifiers.

Eczema—"I was run down with complaints peculiar to my sex. Large sores broke out on my body, head and limbs. I could not do any work on account of the itching. My trouble was termed eczema and I doctored for it for a long time. I then tried Hood's Sarsaparilla and several bottles effected a cure." MRS. J. G. BROWN, Brantford, Ont.

Organs Affected—"I was run down in health and had spells of coughing which left me prostrate. My lungs, heart and kidneys were affected. Took Hood's Sarsaparilla upon advice and soon felt better. I continued the treatment and now feel like a new woman." MRS. SOMMERVILLE, 217 Ossington Avenue, Toronto, Ont.

Hood's Sarsaparilla Never Disappoints

Hood's Pills cure liver ills; the non-irritating and only cathartic to take with Hood's Sarsaparilla.

Liberals Rally

Peterborough Liberals, young and old, and all those interested in the success of the present Administration are asked to meet each evening in the Committee Rooms over Stevenson's Coat Office (the old Roller Skating rink) for the purpose of completing organization in the interests of Mr. J. H. McClellan, Liberal nominee for the Commons.

Let everyone do his share.

P. HAMILTON, President.
G. M. ROGER, Secretary.

Are you interested in the election of Mr. McClellan, the Liberal Nominee? If so, call at the Committee Rooms and ascertain if you are on the list to vote. If you are not, you can get information as to registering at the committee rooms. Do not neglect this.

SEALED TENDERS, addressed to the undersigned and endorsed "Tenders for Post Office, Deseronto," will be received at this office until Tuesday, twenty-third October, 1900, for the erection of a Post Office at Deseronto, Ont.

Plans and specifications can be seen at this Department and on application to John Dalton, Esq., Deseronto, where forms of tender and all necessary information can be obtained.

No other business school in Canada, nor perhaps on the continent, is in a better position to do as much for its pupils as we are doing.

These successes are simply the RESULTS of the thorough course of training which this school has been giving its pupils during the past 34 years, and which has gained us the confidence of the business public and enables us to place many of our pupils with the best business houses. What we get we hold. What we have not got, we're after.

We pay the railway fare of students from a distance, provided it does not exceed $8. Board for ladies at $2 per week and for gentlemen $2 50.

Write for one of our catalogues. It also is a compilation of RESULTS and is believed to be the handsomest issued by any business school in America.

Sir Robert Hart Says Boxers Will Unite in One Band

JAPAN IS NOT TRUSTED

Europeans in China Afraid Lest They Should Unite with the Chinese and Menace Western Civilization

Berlin, Oct. 15.

The Berliner Neust Nachrichten says it understands that Germany's answer to the note of M. Delcasse, French Minister of Foreign Affairs, was despatched today; that it is in a friendly tone, and that it raises no objection to the principles enumerated by M. Delcasse. The paper does not assert that the reply deals with all the propositions. The Associated Press learns that the Chinese Minister to Russia, Yang Yu, who visited Emperor Nicholas yesterday, strongly appealed for the intercession of the Czar in China's favor, and presented to him a letter from Emperor Kwang Su, together with documentary evidence tending to show that the Chinese Rulers and Court are less to blame for the anti-foreign out-breaks than the Russian Emperor had been led to believe; A German, named Bismark, connected with the marines, who were sent to Pekin before the siege of the foreign Legations, kept an interesting diary which has been forwarded to Emperor William.

The Munich Algeme Tng Zutung which is strictly governmental, reviews the question of the Imperial chancellorship, intimating that all political parties desire a younger and more

A despatch received here from Shangbenlohe. However, there are no indications that Emperor William is dissatisfied with an arm which gives him a free hand.

Berlin, Oct, 15.

Chow, escorted by Russians. He hai says the British consul there warns European women against coming south from Hong Kong in the hope of joining their husbands, the situation in the Yang Tse valley being very serious.

Pekin, Wednesday, October 10.

Li Hung Chang has arrived at Tung Chow, escortedb y Russians. He will arrive here to-morrow.

London, Oct. 15.—Another stage has

been gained in the Chinese affair. The Ambassadors at Pekin have met and decided that the punishment awarded by the Chinese Government to the Boxer leaders is inadequate, and that the list is not complete. This is exactly in accordance with the hints contained in this despatch some weeks ago. It now remains for the powers to make demands upon China for more severe punishment of the murderers of Christian missionaries and converts. Meantime, it looks as if the allies were setting about the conquest of Pe-Chi-Li, the province in which Pekin is situated in real earnest, and this will probably be the precursor of the gradual subjugation of other provinces and the partition of China, which has apparently begun, though not declared as a formal policy. The words of Sir Robert Hart, who predicts a great battle next month, with the united Boxer forces, are worth attention, as Sir Robert is an authority of great weight.

GREAT BATTLE PREDICTED.

Pekin, Sept. 11.—English and American papers have just been received, which make interesting reading for the Ministers and their families, telling as they do all about their supposed death, and giving tragic details as to how the men killed their women-folk, how members of certain Legations were boiled in oil, and other harrowing pictures of the last days of the siege. There is a certain gentleman living in Shanghai better known to the world as "the Shanghai liar," who if he were here would probably meet a warm reception from some of his resusciated victims.

If Sir Robert Hart shall prove a true prophet, there will be a serious affair before the beginning of November, when the numerous bands from the south will have come together and be more or less under central control. There will probably be one battle, with great loss to the Chinese, before they realize the hopelessness of further resistance.

Though the Japanese have the general sympathy here as against Russia, still nearly all those who have lived long in China say that they trust that if the department of Chu Li, in which Pekin is situated, has to be controlled by Japanese or Russians, that Russia will get it.

The reason for this is that the religions and the people of Japan and China are so much alike that with Japanese in control the yellow peril would then become an assured reality, for with the modern idea of the Japanese engrafted on the Chinese, with the wealth they could accumulate, the largest trained army in the world would be at their disposal, and their navy would be equally powerful and that combined the Chinese and Japanese would become the most powerful race on earth.

GERMANY ALONE HOLDS BACK.

Paris, Oct. 15.—Germany is the only power which has not replied formally to France's note on China, though she has verbally accepted its terms. Japan's answer, received to-day, accepts the proposals, retaining only one condition. This refers to the permanent prohibition of the importation of arms. While agreeing with the principle, Japan offers suggestions as to how the prohibition can be best accomplished. A despatch received at the French Foreign Office from Hankow, dated October 13, says the Chinese court arrived at Sian Fu October 12.

Hong Kong, Oct. 15.—A column of troops was despatched this morning to the Kowloon frontier with the object of barring armed refugees, either rebels or Imperial troops from entering British territory when defeated.

The rebels are reported to be 3,000 strong, thirty miles north of the British frontier A thousand of Admiral Ho's troops are in pursuit of them, while two thousand Chinese troops have left Canton, overland, to intercept the rebels.

EMPEROR ASSERTS HIMSELF.

London, Oct. 15—There is reason to believe that the British Foreign Office received satisfactory news from Pekin on Friday, indicating the early return of the Emperor and his court to the capital, while the Empress Dowager remains at Singan-fuu. If this inference is correct it means also that the Emperor has plucked up courage, with the assistance of the strong men of his court, to arrest Prince Tuan and drag him to Pekin for public execution. If the powers secure Prince Tuan's head they will not be unduly curious as to his accomplices in the massacres.

It is also said that negotiations are proceeding between Russia and Japan which will result in the defining of spheres of interest, and which will practically give to Japan a free hand in dealing with Corea.

Lord Salisbury still maintains an absolute silence as to his Chinese policy.

ADVANCE ON PAO TING FU.

Washington, Oct. 13.—The Japanese Legation is in receipt of a despatch from the Foreign Office at Tokio containing a report from the Japanese Consul at Tien Tsin to the effect that the allied forces of Great Britain, France, Germany and Italy would, on the 12th inst., march upon Pao Ting Fu in three columns, the right under the British commander, the centre under the French, and that the Japanese commander would take charge of the defence of Pekin.

THE DEADLY WIRES

A Chinaman Instantly Killed by Electricity

Yesterday afternoon Sam Lung, a Chinese laundryman on Hunter street next to Mervin's butcher shop, was instantly killed by coming in contact with the electric wires. He had been working with the water pipes in the cellar of his building, and from all indications had lowered an incandescent lamp from the floor above in order to obtain light while he worked. The cellar was very muddy and it appears that the victim had been handling a lamp in some manner when the current passed through his body, causing instant death.

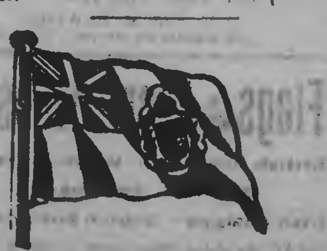
The globe of the lamp was found detached from the stem when the body was found, and this fact gives rise to the impression that the Chinaman in his effort to fasten the globe in place again had placed his hand upon the brass stem while he stood in the mud, and thus caused a circuit through his body. Another theory is that while working upon the water pipes with one hand and holding the lamp in another a circuit had also thus been formed, with fatal results.

Dr. Gray, coroner, decided to hold an inquest, and a jury was summoned at 8 o'clock. The remains had been removed to Belleghem's undertaking establishment, where the inquest was held. After viewing the body, it was decided to adjourn to enable the doctors to make a post mortem examination. The inquest will be continued to-day.

WEATHER NOTES.

Probs — To-day — Moderate to fresh winds, southwesterly to northwesterly; generally fair.

Another heavy fall of rain has occurred in the Maritime Provinces, elsewhere the weather has remained fine. In the Northwest it has turned colder.



DOMINION ELECTIONS

Grandson Says He Does Not Intend to Return to South Africa.

THE CAPE VOLUNTEERS

Lord Roberts Fears the Effect is They Leave the Field to Soon

London, Oct. 15.—Ex-President Kruger's grandson, Eloff, who accompanies his grandfather to Europe, said in a cabled interview that he did not think Kruger intended to return to South Africa, and did not suppose the British would allow him to land, if he did return.

The Mayor of Cape Town has received a telegram from Gen. Roberts announcing that the colonial volunteers may return home as soon as possible after the war. Gen. Roberts expresses the hope, however, that many of the volunteers will remain in the field until the termination of the war, and says that their leaving now will have the worst possible effect.

A despatch from Mafeking yesterday states that the Australian Bushmen had an engagement on Friday at Lietpoort, two miles from Malmani, with a force of Boers, who for a considerable time had been strongly intrenched in the kopjes north-east of Malmani. The British loss was two wounded. The Boers left seven dead on the field.

DEAD WOMAN IDENTIFIED.

Rose Henderson, Formerly of Peterboro' Expired in a Maternity Home.

The young woman who died Friday at Mrs. Mrs. Wylie's maternity home, Toronto, and whose death is the subject of an investigation by Coroner Young, has been identified as Rose or Rosalia Henderson, says the Toronto Telegram. She was 28 years of age and came originally from Peterboro'. Up to a few days ago she was employed as chambermaid in a downtown hotel, but left there to go to Mrs. Wylie's.

Dr. Primrose performed a post-mortem Friday afternoon and found traces of Bright's disease. Not being quite satisfied, he advised the coroner to have the stomach examined, and if the Attorney-General consents this will be done. The remains have been claimed by relatives from Peterboro'. Coroner Young held the inquest yesterday (Monday) afternoon.

Coroner Young interviewed the Attorney-General regarding the proposed analysis of the stomach. It was explained that the post mortem so far did not show sufficient cause of death, though it may turn out that the kidney trouble which was discovered, may have been sufficiently far advanced to terminate fatally. The Attorney-General decided to wait until part of the evidence has been taken at the inquest on Monday before making up his mind to order an analysis.

WHAT ARE RUSSIA'S PLANS IN CHINA

She Has Now One Hundred Thousand Troops Landed There.

The military information bureau of the War Department in Washington has prepared a table showing the number of foreign troops in China and the number en route for that country. The table suggests that Russia has plans that go beyond the present situation, for she will soon have an army of 150,000 men there—an army that will not, like the others, require a naval force to keep open its line of communications. Here are the figures.—

HIGH COURT OF JUSTICE

Regular Autumn Term of the Court of Assizes

The fall assizes of the High Court of Justice opened yesterday afternoon, at the Court House, before Hon. Justice Ferguson. The following legal gentlemen were also present—Messrs. R. M. Dennistoun R. E. Wood, E. B. Edwards, D. O'Connel, D. W. Dumble, Geo. Edmison G. W. Hatton, E. B. Stone, J. W. Bennett, of Peterborough, Mr. E. C. S. Huycke, of Cobourg, and Mr. Shepley, of Toronto.

The Court having been called to order, the clerk called the roll of the Grand Jury, who were accordingly sworn. The thirteen good men, and true, are—

Messrs. W. G. Buck, Ashphodel, farmer, foreman, John Fitzpatrick, Ashphodel, farmer, H. C. Garbutt, Smith, farmer; W. T. Mather, Otonabee, farmer; W. H. Meredith, Peterborough, merchant; Thos. Morrow, Peterborough, gentleman; W. C. Manning, Smith, farmer; Hugh Nelson, Otonabee, farmer; A. G. Parker, Peterborough, banker; Henry Rush, Peterborough, agent; William Whitfield, Monaghan, farmer; E. Bowie, Otonabee, farmer; F. E. Bell, Peterborough, gentleman.

THE JUDGE'S CHARGE.

In his charge to the Grand Jury, the Honorable Justice referred to the fact, that, as he understood the docket that had been placed before him, though there were fourteen persons in prison, there were none awaiting trial, nor were there any persons accused who were out on bail. There were no criminal cases to be heard, and such being the case, there would be a vast difference in the charge and the remarks which he had to make The object of delivering an address to the Grand Jury was that they might receive information in regard to the manner of dealing with the accusations of crime that may be brought before them. It was a matter of congratulation, however, that the Assizes opened in the town of Peterborough with a docket that was free from a criminal case. After referring to the change that had been brought about whereby the Grand Juries had been reduced from 23 to 13, and when he had given instructions in regard to the inspection of county and public buildings, the Judge concluded.

Mr T G Shaughnessy Tells Of The British Columbia Mining Regions

Montreal, Oct. 15.—The President of the Canadian Pacific Railway has returned.

"Our smelters in British Columbia," said Mr. Shaugnessy, "are being worked to their fullest capacity, and are being enlarged and added to meet the demands upon them. The Grand Forks smelter is now handling 300 tons of ore daily, and within 60 days will have been enlarged to double its present capacity. The smelter at Trail is being similarly enlarged. At Greenwood the smelter recently begun will be shortly completed and in operation, and will then be able to treat 300 tons a day. We are also building a pyritic smelter at Boundary Falls for the treatment of the low-grade ore."

Regarding the grain crop in the Canadian Northwest, Mr. Shaughnessy said that the summer's drought had not injured the growth as much as had been feared, but the heavy rains during the harvest had done some harm. These rains had now, however, ceased, so that the balance of the crop would be harvested without the loss which had attended the earlier cutting.

Our Rate

Editor Morning Times.

Sir,—As a new citizen of Peterborough I was attracted by the low rate of taxation which exists here, and felt that Peterborough had a bright future before it. I was very much disappointed, however, when I learned that the assessment was made high in order to keep the rate low.

Now, Sir, let us be honest with ourselves. Let the new Council which is soon to be elected, see to it that the assessment is reduced at least 35 per cent. This would, of course increase the rate on the dollar, but it would probably have the effect of curtailing expenditure. We spend, I see by the Times, over $3,000 per year in salaries alone. This, I am sure all candid persons will admit, is far too much, and a sum greater by two or three thousand dollars, than we can afford.

I am pleased to see some interest is likely to be awakened in municipal matters, which I presume, will begin as soon as the Dominion elections are over.

Thanking you, &c.,

J. H. C.

The Sale of Offices

Editor Morning Times

Sir,—The Mail says that Mr. H. H. Cook, ex-M.P., was offered a senatorship for $10,000. Now, Sir, the Mail is a party paper and is no more to be believed than the Globe or any other political organ, which is paid to do the dirty work of the party.

The charge, however, is a grave one, and the Government cannot afford to ignore it. It is not sufficient for the papers and the politicians to deny the charge. The Liberal party must, without losing time, investigate and disprove the charge, or accept the consequences. I can tell you, Mr. Editor, that hundreds and thousands of votes will be lost to the party if this is not done—votes, like my own, that may be regarded as "independent." I believe, sir, that trafficking in offices should be sat upon vigorously by the electors. If only those who could afford to purchase an office were permitted to serve the Crown, what a nice state of affairs would exist. The poor man would be nowhere. How many people in Peterborough, for instance, could afford $10,000 for a senatorship?

I would like to have the opinion of the Times on the subject. It is the only newspaper in the County that gives us facts.

Thanking you, Mr. Editor, for your valuable space, I am, &c.,

AN INDEPENDENT.

Ans.—No doubt Mr. McClellan will be able to explain the little $10,000 matter, for we cannot do so. Our correspondent is right. The Liberal party should sift Mr. Cook's charges to the very dregs without an hour's delay, so that the electors may have the facts. If it is as Mr Cook says, that only men with $10,000 or more can look for a seat in the Senate, there are, we must confess very few of us who will ever be able to make the grade. Fortunately the editor of this g.f.j. never had any political ambition and therefore does not feel sore that the price has gone up.

What is Sixteen to One.

Editor Morning Times

Sir,—Very many people, and some intelligent ones, too, are befogged over the meaning of 16 to 1, as used in the United States Presidential election. Will you kindly give a clear explanation in your valuable paper and oblige

AN AMERICAN-CANADIAN

Ans.—Technically sixteen to one is the ratio of the weight of pure silver in a silver dollar to the weight of pure gold in a gold dollar. The ratio is in reality slightly different, being 15.98 to one, but the round figures are substantially correct. The pure silver in a silver dollar weighs 371.25 grains, and the gold in a gold dollar weighs 23.22 grains.

In the pending political discussion the phrase "sixteen to one" means the Populist doctrine that the Government should coin all silver brought to its mints for the benefit of the owner into silver dollars having sixteen times the weight of pure metal that gold dollars have, and that these silver dollars should be full legal tender for all debts public and private at their face value, the same as gold dollars. The gold in a gold dollar is worth a dollar in the open market, and will buy a dollar's worth of anything else that is for sale anywhere in the world. The silver in a silver dollar is worth a little less than half a dollar, and will not buy more than half a dollar's worth of anything in the markets. On the other hand, the gold in a gold dollar cannot be got for less than a dollar in any market. Its owner cannot make a cent of profit by having it coined, and the only advantage for him is that it is more conveniently used in the form of coin, because its exact weight and purity are certified by the mints, in which every one has entire confidence. Silver enough to make a silver dollar can be got in any of the large markets for less than half a dollar. If the owner of the silver could have it coined into a dollar with which he could pay a dollar of debt, he would make a profit of 100 per cent. Whatever he would get for his silver dollar beyond the half dollar that it cost him would be so much made clear.

BOERS PERSIST IN GUERILLA WAR

Lord Roberts Reports Many Successful Raids

GEN. DEWET AGAIN ESCAPES

Story of an Attempt to Surround Him Which Came to Nought—Fighting in the Mafeking District.

London, Oct. 15.—The War Office has received the following despatch from Lord Roberts, dated Pretoria—

"The Boers have been making many successful raids, and are interfering with railway and telegraphic communications. The damage is quickly repaired, and severe punishment inflicted, but the Boers are remarkedly persistent.

"There have been several slight engagements with small bands of the enemy. The total British casualties were five killed and six wounded."

"A satisfactory little affair occurred near Frankfort Thursday. Col. Grove, with the West Kents, surprised a Boer laager at dawn, killed seven, wounded nine, and captured eighteen."

PROGRAMME AT HALIFAX.

Halifax, Oct. 15.—The committee for the reception to the returning soldiers met Saturday and decided upon the program, which was—Parade of naval, military, militia and societies; religious services on Common, with massed bands, banquet, demonstrations of ships of war, and also grand salute of the fleets and forts, torchlight procession, massing of school children on grand parade, with pageantary marches past. The ladies of Halifax will supply the banquet and present each soldier with a gold maple leaf pin.

AUSTRALIANS FIGHT BOERS.

Cape Town, Oct. 15.—A despatch sent from Mafeking states that the Australian bushmen had an engagement Friday at Lietpoort, two miles from Malmani, with a force of Boers, who for a considerable time had been strongly entrenched in the kopjes northeast of Malmani. The British loss was two wounded. The Boers left seven dead on the field.

FORTY CANADIANS ARRIVE.

Quebec, Oct. 15.—The Dominion Line steamer Vancouver arrived at the Grand Trunk wharf, Levis, at 11 o'clock this morning. There were some 40 Canadian volunteers on board, returning from South Africa. They were brought by a tender to the Queen's wharf and disembarked about 2 o'clock. They were met by Lieut. Col. Wilson, commandant of the fortress, accompanied by Major Fages, Captain Duplessis, other officers belonging to the militia and some of the members of the Citizens' Permanent Reception Committee. Hundreds of spectators were on the embankment, and the returned soldiers were enthusiastically received. They were escorted afterwards to their temporary quarters at the citadel by a detachment from the R.C.R.I. and R.C.A. accompanied by the State band.

The names of the contingent have already appeared.

A SCHEME THAT FAILED.

Pretoria, Oct. 15.—Towards the latter part of September information was received at Kronstad that the Boer generals would hold a conference with Gen. De Wet at Heilbron on Sept. 26. The British immediately elaborated a scheme to surround and capture them. Col. Knox's infantry brigade, Porter's cavalry, Delgetty's colonials, Delisle's mounted infantry and W. Knox's details were ordered to proceed to Heilbron and put the plan into execution. On the first and second days of the march nothing occurred. The troops formed a circle sixty miles in circumference around Heilbron but they were closely watched by Boer patrols, who occasionally fired sniping shots at them. On the third day, as the cavalry approached the town, they were opposed by a large force of Boers, who were holding a position on Vecht Kop. The cavalry cleared the hill, and a sharpnel fire was poured after the retreating burghers.

In the afternoon of the same day, just as the cavalry were bivouacking, a strong force of Boers, commanded by Gen. De Wet personally, made a determined attack upon them. Gen. Porter handled his brigade magnificently. He took up such a position that the attack was rendered ineffective, and compelled the Boers to retire to Heilbron.

Meanwhile Gen. C. Knox advanced to Paarde Kraal, Gen. Dalgetty to Uitkyk, and Gen. Delisle to Elandspruit, reducing the circumference of the British circle to twenty miles.

The next day the Boers disputed Gen. Porter's advance on Heilbron from the southeast. There was heavy fighting, but the cavalry was not to be stopped. They took hill after hill in grand style. The artillery did good work. Finally the two thousand Boers who were opposing the British and holding the town fled to the northeast, leaving in such a hurry that they left their transport behind.

It was hoped that they would be turned by the northern column, but the latter unfortunately mistook the road, and the Boers got away to Klip River.

The scheme of the British therefore failed.

MINERS AND OWNERS ARENOT YET AGREED

Operators Say That Unless Forced by the Coal Carrying Companies They Will Take no Action

Shamokin, Pa., Oct. 15.—Not a colliery resumed operations in this portion of the coal region this morning. While miners generally think the terms of their convention will be accepted by operators and coal carrying companies, operators hereabouts insist that so far as they are concerned, they will not, unless forced by the coal carrying companies to sign an agreement to pay ten per cent.

PETERBOROUGH, OCTOBER 15 1900.

MUNICIPAL OWNERSHIP.

In the convention of the civic reform clubs, which has recently been held at Milwaukee, stress was laid upon the tendency of the times towards municipal ownership of public utilities. The paper, which was read upon this topic, presumably after the author had carefully studied all the conditions, said that there has been no abatement in the subject, there being a general acquiescence in the contention that the city should control all its franchises, though there is still a great diversity of opinion as to whether the city should control and operate them all. There are few indeed who are willing to maintain that a city should give away or sell for all time the right to run street railways, to furnish heat, light, water or other municipal necessities. To advocate such a policy would be to sanction the utilization of city property for the benefit of the few at the expense of the many. There are few who are willing to do this, so that the discussion has practically narrowed itself down to the determination whether the city shall merely control the franchise in a general way, reserving a fair rental or whether it shall actually operate the plants directly. In considering this phase we find that the consensus of opinion seems to be in favor of the operation of water plants and the control of street railway operations, with opinion about equally divided on the subject of lighting. One thing is perfectly sure and that is as a result of all this discussion concerning municipal ownership, control and operation, there has been a material improvement in the conditions which the city has been able to impose and secondly the people have been interested as nothing else has succeeded in doing, in questions of local government. Matters pertaining to water, heat, light and transportation come home directly to the average citizen and any policy affecting them appeals to him as no others do.

THE CONTEST.

The dissolution of the House and the naming of the date for the general elections gives a definite status to the campaign which the political warriors have been waging in Canada in more or less desultory fashion for some time. For the next four weeks the party drums will be thumping harder than ever, the party organs will grind more vigorously, and the party politicians will saw the air and disturb the atmosphere more volubly, and with a vigor and a volume that will culminate in one grand hurricane of clamor a day or so before the polling day. Then the noise will cease and both parties will draw a long breath and roll up their sleeves for the final tug on polling day.

The present election differs very materially from its predecessor of four years ago. Then there was an issue as lively as a warmed tarantula to agitate the people, the Manitoba school question. To-day the green grasses wave over the last resting place of that thoroughly de-funct issue, though there are whispers that the grave has been disturbed and that sections of the corpse are doing duty down in Quebec.

Four years ago the nest of traitors episode was tolerably fresh in the minds of the people. To-day the "traitors" have been forgiven if not forgotten, and have resumed their political trades.

Four years ago the haunting fear was abroad in the land that the Liberals if elected might abolish the N. P., and send the country to the bow-wows. To-day the Liberals are in power and the factory chimneys are belching forth their smoke to the great detriment of the atmosphere.

To-day we have such issues as the perferential tariff, imperialism and cold storage, but the differences between the parties in these and other issues are not sharply defined. Both favor perferential treatment for Canada by Britain, they differ as to the likehood of Britain giving Canada a perference. Both parties are imperialist, the difference being that one poses as more imperialistic than the other. Both claim cold storage as their own pet project.

In fact there is a dearth of tangible issues and the contest is in essence a more waving of party flags and beating of party drums to see which [illegible] patriots can attract the most followers. The contest is interesting of course, but no man need lose any sleep over it. The country is tolerably safe no matter who wins.

EDITORIAL NOTES

From motives of economy, Hamilton will use gas for lighting its city hall and offices hereafter. A different brand will be used from that which the aldermen of the city have disseminated with such lavishness in the past.

It's a good thing for Hugh John Macdonald that the Kaiser is not Sir Charles Tupper. Hugh John's declaration in favor of the abolition of the duty on agricultural implements while his leader is protectionist to the hilt, comes perilously close to being an act of less majeste.

Events, the Independent Ottawa paper, which thinks the Laurier government will be beaten because it deserves to be b eaten, loses sight of the sad fact that people very seldom get what they deserve in this sinful world.

* * *

The sight of H. H. Cook, ex-Liberal candidate and prospective senator, belaboring the Laurier government for its deeds, and Hon. John Costigan, ex-Conservative cabinet minister, stumping for the same government in New Brunswick, is just a trifle bewildering.

The country is being thickly strewn with fallen maple leaves and political promises, but there's not much for the people in the harvesting of either crop.

Possibly you may remember something about a certain Admiral Dewey knocking the everlasting tar out of a fleet of Spanish tubs in Manilla Bay. Well, Lieut. Hobson was in Vancouver recently on his way home from Hong Kong, and he informed the Daily Province that the Spanish vessels were not stuck below the water line, that the Spaniards had scuttled the vessel themselves. Hobson ought to know as he bossed the repairing of the vessels after they were raised. In a few years more the people who strained their throats shouting for Dewey will be hiring buck niggers to give them a kicking—good and hard.

SEALED TENDERS, addressed to the undersigned and endorsed "Tenders for Post Office, Deseronto," will be received at this office until Tuesday, twenty-third October, 1900, for the erection of a Post Office at Deseronto, Ont.

Plans and specifications can be seen at this Department and on application to John Dalton, Esq., Deseronto, where forms of tender and all necessary information can be obtained.

Persons tendering are notified that tenders will not be considered unless made on the form supplied, and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honorable the Minister of Public Works, equal to ten per cent. of the amount of the tender, which will be forfeited if the party decline to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the tender be not accepted, the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,

JOS. R. ROY,
Acting Secretary

Department of Public Works of Canada,
Ottawa, October 11th, 1900.

Newspapers inserting this advertisement without authority from the department will not be paid for it.

Symbols of Success

A vacant chair and a portrait on the wall—strange symbols of success! Yet, in many a home these are the symbols of the success of the man who did not find time to care for his health, or neglected the increasing warnings of disease which Nature gave him. When the stomach is "weak" and food is imperfectly digested and assimilated, it is only a question of time until the break-down comes. The stomach is the very center of vital power and must be kept in health if sickness is to be avoided. Doctor Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It increases the supply of pure, rich blood, and gives the body strength to withstand the strain put upon it by the struggle for success.

"I was a sufferer from what the doctors called indigestion, but after trying several eminent physicians failed to get a cure," writes Mr. Frank Merick, of Independence, Jackson Co., Mo., Box 473. "Some of my symptoms were soreness in pit of stomach, fullness, tired feeling, constipation; sometimes soreness would extend to bowels. Some one recommended me to take Dr. Pierce's Golden Medical Discovery, which I did, and after taking only a few bottles of 'Discovery' and your 'Pleasant Pellets' can say I derived more benefit from them than any other medicine I ever tried. I began to gain flesh from the start. Have recommended it to others and will continue to do so."

The sluggish liver made active by Dr. Pierce's Pleasant Pellets.

ATTACK of ROYAL CANADIANS at Paardeberg

The present is a time when war pictures are in greater demand than ever. The conduct of the British soldiers on the battlefield has won the plaudits of admiring nations. We have at great expense published four large, beautiful pictures, size 22x28, on heavy, superfine calendered paper. A picture that will commend itself and send a thrill to the heart of every true Canadian is the one called Attack of Royal Canadians at Paardeberg, there are literally hundreds of figures on this picture, the mountains or kopjes stretching out into the distance are swarming with men, while here and there a prostrate figure speaks only too well of the Boer riflemen. It was on this battlefield the gallant Major Arnold met death unflinchingly. Indeed, it is only [illegible] many of those gallant hearts that beat so high when the cheering [illegible] Godspeed as they sailed from Canada's shores now lie still forever in lonely graves on the other side of the world under African skies. To every Canadian heart, to every Canadian home, the deeds of their brave soldier boys [illegible] with an irresistible thrill of patriotism and pride. Gordon Highlanders at the Battle of Belmont, Charging the Boer Guns at Elandslaagte and the Charge of Gen. French's Cavalry on the Retreating Gen. Cronje's Army. These are all stirring pictures and cannot fail to commend themselves to anyone who will examine them. They are RED HOT SELLERS! Agents coin money. Big profits. Enormous success. One agent sold 68 in one day. Sample and terms 25 cts (none free); four for 80 cts; $1.75 per dozen; 25 for $3.25; 50 for $6.00; 100 for $11.00 Write to day for a dozen and make money. Homeroyal Mfg. Address to the Electors

To the Free and Independent Electors of West Peterborough—

Gentlemen,—Having accepted the unanimous nomination of the Liberals of this Riding, as a candidate for its representation in the House of Commons I hereby respectfully solicit your support in securing my return at the coming general elections.

The grounds upon which I base my appeal are not so much nor chiefly by any means, my personal fitness for the position of your representation though as a citizen of Peterborough and interested in its progress in common with that of the country, I can and do promise, if elected, an intelligent support of such a public policy and such measures as will best conduce to the promotion of all the interests of Canada, the developement of her great resources and the general betterment of the civil moral and material condition of the public; and my best abilities and most assiduous attention shall be devoted to the faithful discharge of my representative duties.

The strongest ground, however, of my appeal consists in the fact that I am a firm supporter of the Liberal Government led by Sir Wilfred Laurier, which is entitled to the renewed confidence of the people, both on the ground of its policy and the splendid record established by the application of that policy. The Liberal party appealed to the country in 1896 upon a clearly defined policy and the promised results followed.

The Liberal party promised a reduction of a high tariff that hampered our industrial and agricultural interests and was hostile to the Mother Country.

The tariff was materially reduced and otherwise improved and in such a way as to help instead of hinder the manufacturer and farmer, with the consequence that never before in the history of the country have our industries or our farmers enjoyed such great prosperity, our mechanics and working men such constant employment and high wages, nor our commercial and all other interests so flourished.

Our domestic and foreign trade have also greatly increased. The loyal gift of a trade preference, represented by a tariff reduction on British goods of 33 1-3 per cent., and our despatch of the Canadian Contingent, have resulted in a kindlier feeling towards Canada and greatly increased trade with the Mother Country.

With a largely reduced rate of tariff, our revenue has greatly expended so that the Government was warranted in practicing true economy (reducing our postal rate one third, giving Imperial penny postage,) and promoting of the completion of great public works, deepening our canals, so long trifled with, pushing the work on the Great Valley Canal which is now urged and will be urged to completion by the Liberal Government, and the application of a vigorous policy of general development and improvement of our transportation facilities, resulting and to result in easier access to the British market and better prices for all our products.

The farming interests of the country are deserving of the best services of a Government, such as the present has given. The immense impetus given the produce trade between Canada and Great Britain, through the preferential tariff, has been greatly helped by the action of the Government in providing an excellent and adequate system of cold storage, by which Canadian products can be landed in Great Britain in first-class condition, guaranteeing the highest prices. The system is of the most modern character, sufficient for all the present needs of the trade, and it will be improved and enlarged as experience suggests, and increase of the produce trade demands, and I shall, if elected, feel it my duty to support any policy that will improve our trade with the Mother Country, and strengthens the bond of British connection, of which we are so proud.

In an industrial centre like Peterborough the claims of the working classes are especially deserving of consideration. No country is well governed that does not look after the interests of all classes of the community. The Conservative Government has been, and the Conservative party declares itself to be, extremely solicitous of the interests of the capitalist classes—the manufacturers—but it left the working classes to largely shift for themselves. A Liberal Government came into power, and the attitude towards Labour was changed, and the rights of Labour to its rights recognized, and in a practical way. A Department of Labour has been established and a Minister of Labour placed over it. A Labour Gazette has been established in the interests of workingmen, published monthly; conditions have been inserted in all Government contracts compelling contractors to pay the highest current wages, which the Government guarantees the payment of; the sweating system, has been abolished on Government enforced by a special officer, and in many other ways the Government has shown by deeds that the rights of the workingmen, as well as the capitalist, shall be protected. I heartily support the Government in what it has done, and shall support them in extending the benefits which they have already conferred, and which it is their policy to continue, as need arises.

The splendid achievements of Canadian soldiers in South Africa, make them worthy of the gratitude of the country. We have the best militia material in the world, and if we keep up a military establishment, let it be worthy of Canadians. Situated as Peterborough is, on the line of the Grand Trunk and Canadian Pacific Railways, and on the line of the Trent Valley Canal, begun as a military work, and now under course of completion, no other point in this Province is so well adapted for a military centre. I shall, therefore, feel it my duty to press upon the Government the advisability of constructing in Peterborough new armories and connected buildings for military stores for Ontario, and I feel that this is practicable of attainment at the hands of a Government which has shown its interest in our volunteers by placing the Militia Department, so greatly neglected by a previous administration, upon an effective basis, and will, therefore, more naturally be well disposed towards the improvement involved in making Peterborough a centre for military stores.

A town of the industrial and commercial importance of Peterborough, has certainly strong claims upon the good offices and of a Government. For the past four years the town has been represented, when it was represented in the House, by a member opposed to the Government. There is no doubt in the minds of unprejudiced observers, that the present Liberal Government will be strongly sustained in the country at the coming elections, and the question arises whether West Peterborough will have its interests better served by a member sitting in opposition and hostile to the Government and its policy, or by a member pledged to give the Government a fair support in the application of its policy. If elected I pledge myself to give my best ability and exertions to the promotion of the general good of the country, and to look especially after the interests of West Peterborough.

I cannot obviously here, enter into details of how in other ways the Liberal Government has implemented its promises and applied its policy, but I shall have an opportunity during the campaign of more fully dealing with these and other public questions.

As a supporter of such a Government I can appeal with confidence for the support of the Electors of West Peterborough, knowing that by helping to give, as you will do, through my election, a renewal of the trust the Liberal Government has discharged with such evident and gratifying results, they will be conferring a great and lasting good upon this riding, the country at large, and securing a continuation of the great blessings of prosperity and good government we now enjoy.

Again soliciting your support, your votes, and influence, in this contest,

I have the honor to be,
gentlemen,
Your obedient servant,

child, will be a serious drawback."

"If I were only older how much better it would be for me," sighed Izetta.

"Ah," replied the minister, softly, "those who have the weight of years upon their brow cry out in the bitterness of their soul. "If I had but youth again what would I not do!'"

He looked at the fair face, more gloriously beautiful than an artist's dream, and thought how many of the grand ladies he had known would give princely fortunes for a face like that.

"You are not much more than sixteen, are you child?" he asked.

"Not much more, sir; sixteen and a few months."

"There are not many of Madam Root's pupils below that age," he reflected; "a serious drawback, indeed. You speak your native tongue, I presume?"

"Oh, yes, sir; my grandfather took the greatest of pains with my French and music."

"Could you give a recommendation from the school you last attended, as to qualifications?"

"I never attended a school, sir. My grandfather was my only teacher; it was the one bright dream of his life that I should master the languages and music perfectly."

"I will give you a letter to Madam Root; you can do no more than apply. Hush," said he gently, as Izetta was about to speak, "you must not talk of failure, if that is what you were about to say, until after you have first tried. It is a sad thing in life when light-hearted youth first finds out the terrible reality of the words: 'I have striven hard, but, alas, I have failed.' Madam Root is a wise woman and will judge wisely at all events, I am sure. I have known the lady well for many a year, and I have asked, as a special favor to myself, that she will give you full opportunity of testing your abilities."

"Oh sir, you are more than kind," sobbed Izetta; "how can I ever sufficiently thank you!"

"By not attempting it. I am but a humble instrument in the hands of God. Thank Him for all things."

He placed a sealed envelope in her hands, advising her to peruse it before she started, that she might be familiar with the duties which might be assigned her.

"Should I prove satisfactory to madam, there is one request I would like to ask of you," said Izetta, still lingering in the path.

"Speak out, my child; never hesitate in good thoughts."

Izetta drew nearer to where he stood; the little, soft, white hand she laid upon his arm trembled as the sweet voice whispered, hesitatingly:

"If any one —a stranger, I mean —a gentleman— should come to Silvernook and inquire for me, will you please tell him where I have gone, sir?"

The hand which held the pruning knife fell to his side, and the keen blade severed a white blossom from the bush in its descent, falling in the dust at his feet.

The old man looked Izetta full in the face.

"I will not question you," he said; "but if I were to promise you this, can you answer me truthfully—would it be a just action? Your motive is strictly a true one?"

"You need have no fear, sir," Izetta answered; "Heaven would bless you for such a kind action to me."

Still the thought troubled the old minister; he pondered over these words long and earnestly after Izetta had gone.

Was this the key that solved the hidden sorrow of this beautiful young girl's past?

The question greatly troubled him; he could not tell why.

CHAPTER XV.

The College of Music.

There were tears in the eyes of the good old flute-maker and his wife, when Izetta told them of the situation the minister hoped to procure for her at Madam Root's, in a neighboring city.

"God bless you, my child," whispered Marguirette, as she folded the young girl to her heart. "Always remember, if you find the world too cold and stormy, you shall have a place by our hearthstone, humble though it be. You have been with us scarcely a fortnight, yet we love very dearly; you will not forget us, Izetta?"

Izetta sobbed as if her heart would break. Forget those two kind souls who had cheered her so patiently through her dark sorrow! Never! never while life lasted.

She looked around upon the quiet hills and vales that had silently witnessed the great tragedy of her life. She laid her hand tenderly on the mossy stone, beside which Abel had first found her, murmuring softly:

"I shall never forget how this spot looks; 'twas here my heart broke."

The tender violets swayed by the evening breeze, lowly bent their purple heads earthward as if in sorrow because she had said farewell to them.

As Izetta sat in the doorway of the little cottage, which on the morrow she would leave perhaps forever, she thought of the letter the minister had given her, with the request that she should make herself aware of its contents at her leisure.

As she opened the envelope something fluttered to her feet.

Heaven bless the kind old parson; it was a bank-note for a small amount, which would enable her to defray the expense of her journey.

"If you never repay me perhaps I may find the interest which collects from a worthy deed up there."

The letter to Madam Root spoke of her as "Miss Rienzi." Then it occurred to her she had not told her kind benefactor she was married.

She thought she had explained to him that Rienzi was her grandfather's name, not her own.

She fully meant to make these facts known to Madam Root, however.

"Will you promise me," asked Marguirette, holding the little white hands in her own for the last time, "no matter what you are called upon to suffer in life, should you in the years to come ever meet him, promise me that you will do nothing rash?"

For a moment only Izetta hesitated.

"I give you my promise, Mrs. Moore," she said.

She little knew under what trying circumstances that sacred promise made to the blind, would faithfully return to her.

A few hours later, Izetta, travelling-satchel in hand, alighted from the hack in front of a spacious, imposing edifice which announced to the public in golden letters over the arched doorway: "College of Music."

Izetta's heart sank within her, as she gazed up at the tall marble building, with its long, narrow, coldly-staring windows, its gables and turrets.

She would have sat down on the stone steps and cried, had it not been for the passers-by.

She asked herself why everyone stared at her in such wonder.

She never once dreamed it was her wondrously lovely foreign face that caused the ladies who passed her by to look so coldly on the beautiful, forlorn girl, and the men to pause in unfeigned admiration, taking a lingering backward glance as they pursued their journey.

Izetta ascended the marble steps and timidly rang the bell, clutching the Rev. Dr. Morleigh's letter nervously in her hand. A tidy waiting-maid answered the summons.

"I should like to see Madam Root, if you please," said Izetta.

"Surely you are not the music-teacher madam was expecting from Silvernook?" asked the maid, curiously.

"Yes," answered Izetta, simply, and she wondered why a suppressed giggle shook the girl's frame, as she ushered her into the reception room to await madam's appearance.

Like the exterior, the interior of the house was imposing in its stately appointments; no unnecessary article found lodgment there; an air of stiffness pervaded the elegance of the establishment, which struck a cold chill to Izetta's heart.

"All brightness and joy have gone from me," she said to herself. "I shall try to wear my life out as patiently as I can."

She was so young to have had such thoughts.

So intent was Izetta with her own thoughts she did not hear the tread of approaching footsteps, nor the rustling of a silk dress as it swept over the thick carpet.

"You wished to see me, I believe?" said a hard, metallic voice at her elbow.

Izetta raised her eyes like a startled, timid fawn to the speaker's face.

"I had thought you wished to see me, madam," she replied.

Madam Root looked at the shrinking young girl before her in unfeigned astonishment.

"Surely you are not the person I was expecting from Silvernook?" she asked, interrogatively.

Izetta bowed, placing the letter of Rev. Dr. Morleigh in her hands.

She never forgot the angry, ominous frown that crossed her face.

Once, twice, even a third time she carefully perused its contents. Izetta watched the hard, set face, thinking on what a slight thread hung her hopes of remaining at the college. She was quite expecting the stern lips to decide against her.

"Of course, I can give you a trial to test your abilities," said madam. "Yet is is utterly useless to think of engaging you for the position you seek; it requires a person older than yourself, more dignified, and commanding."

Again those words sounded like a death- knell in the girl's ears.

"You have a good knowledge of vocal as well as instrumental music I presume?"

"Yes, madam."

"What is your voice?"

"Soprano," answered Izetta.

"That is quite against you," replied madam. "We were in need of a contralto voice. Step this way, miss," she glanced rapidly at the letter she held in her hand, "Miss Rienzi, step this way if you please; it may as well be said I gave you the trial asked for."

She led the way to the music-room which, at that hour of the morning was quite deserted.

A grand piano stood open; it seemed like a dear, old, familiar face to the girl.

"Your own selection," said madam, briefly, waving her to be seated. "I must ask you that it may be short."

For an instant the white fingers ran lightly over the keys. Izetta had never sung since the night of her grandfather's death.

As she sat there, the ship plowing through the dark waters, tipped by the silvery light of the stars, and the moonbeams drifting through the fleecy clouds, rose up before her. Again her lips took up the sad, sweet strain.

There was a low, subdued trill in the great, wide room, then the young, sweet voice broke forth in all its wondrous melody, like a yearning soul, first in hope, joy, and gladness, gradually dying away to subdued despair.

Izetta was thinking of Alderic, the lost love of her heart and soul; then the room filled with the most pathetic wailing that ever broke forth in the power of song.

The room was quite empty when they had entered it; now it was crowded with a breathless throng.

As the last notes of that wondrous young voice died away, a young girl with a sweet, sad face, framed in wavy, auburn hair, fell in a swoon at Izetta's feet.

Those who lifted her never forgot the glorious light that lit up the white face.

Silently the throng dispersed.

Izetta and Madam Root stood facing each other—quite alone.

Madam Root understood at once why Dr. Moreleigh had sent this young girl to her.

"If she were only older," thought madam.

She recognised Izetta's wonderful talent would be a valuable acquisition to the college; her extreme youthfulness alone was against her.

She motioned Izetta to a seat, touching sharply a call- bell lying on the table.

"Send Miss Glendyke to me," she said to the servant who answered the summons.

A few moments later that lady appeared.

There are faces which attract or repel us at a single glance. Miss Glendyke's face was undeniably one of the latter.

She was a woman who might have passed for youthful, but a keen observer could detect in the hard expression of the face that she was probably on the shady side of thirty; she was of medium height, slightly inclined to portliness; her black hair was curled low upon her forehead, brought back into a double coil at the back of her head, fastened with a long, narrow silver comb worn lengthwise.

I am improving every day. I notice if I cut or scratch myself the sore will heal up. I hope you will not stop treating me as long as there is a sign of that terrible disease. I am more afraid of it than death. I believe you have the right medicine for the disease. I feel so thankful to you for the good you have done me; I was a perfect wreck when I came to you, and was on the verge of suicide. To make a sure thing I would like to continue a while longer, so that it will not return. Very respectfully yours, Mrs. L. S.

THE COLORADO COPPER MINING COMPANY

LOCATION OF OUR MINES

THE COLORADO COPPER MINING COMPANY is fortunate in being the possessor of five splendid showing properties in the great Salida copper belt, the principal copper producing region of this portion of the rockies. All of our claims have been more or less developed and it is our purpose to put the same on a paying basis at once.

Our Company owns, clear of incumbrances the following claims,—The Sedalia Extension, the Sedalia Extension No. 2, which property adjoins the great Sedalia mine, which has been a big producer for upwards of seventeen years; the Copper King of Colorado, which immediately adjoins the above; the Copper Queen of Salida, a very promising property, only a few steps from the depot in Salida. This claim occupies an imposing position on a mountain just north of the city; and last, but by no means least, the Sunshine, located two miles east of Salida at Cleora station, on the main Trunk line of the great Denver and Rio Grande Railroad, also on the Arkansas river, which in length is one of America's greatest streams.

PRICES AND TERMS

PRESENT PRICES—We are now selling our fully paid and non-assessable TREASURY SHARES at 5 cents per share, in blocks of 100 shares and more; 100 shares, $5; 1,000 shares, $50; 5,000 shares, $250; or 10,000 shares or more at the same rate. Send your order right NOW, before the next advance, as you will soon pay a higher price. Investors are rapidly investing with us.

The company fully prepays all government revenue, postage, etc. Send also for our handsomely illustrated prospectus, which contains much valuable information. It is free for the asking.

All communications of every nature concerning this company should be plainly addressed to

The Colorado Copper Mining Company,
Mining Exchange Building, Denver, Colorado.

A Few Legitimate Mining Investments

PETERBOROUGH, OCTOBER 1, 1900

TOWN AND COUNTY NEWS

Harvest Excursion to Jubilee

A grand harvest excursion will be run to Jubilee Point on Thanksgiving Day, October 18th Steamers will run from all points. Prominent speakers will make addresses.

The Opera House

John Griffith, whose reputation as an interpreter of the classic drama stands unequalled, presented a splendid production at the Opera House last night. There was a fair audience, and everybody was well pleased.

For Stoney Lake, Thanksgiving Day

The steamer Majestic will run a trip to Stony lake on Wednesday, Oct. 17th, leaving Lakefield on arrival of the noon train from Peterborough. Will return on Friday afternoon in time to connect with the afternoon train from Lakefield to Peterborough.

Thanksgiving Services.

A union Thanksgiving service will be held in St Paul's Presbyterian Church on Thursday, at 11 a.m. The collection which will be taken up, will be divided equally between the Protestant Home and the Children's Aid Society.

Who Votes.

The following are the qualifications necessary for votes in the coming elections. — British subject, twenty-one years of age, who has been in the city 30 days, and in the province of Ontario one year, is entitled to vote at the coming Dominion election for the city.

Steamer Released.

The steamer Eclipse was released yesterday, and proceeded down the river. Mr. Poussette, Capt. Calcutt's solicitor, goes to Toronto to-day, in connection with the case. Thomas Lundy, who brought the action against the steamer, will probably find that he has got himself into serious trouble, as he has no claim whatever against Capt. Calcutt or his boat.

The 57th Band

Those who heard the band last night playing in front of the Opera House were of opinion that it was the 57th, but they were mistaken. It was simply "No. 1 Company, 57th Regimental Band," and consisted of 12 musicians. In the audience near by was Mr. Glidden, the director of the band, who, along with hundreds of others, seemed to enjoy the excellent music.

The Great West

Mr. Wm. Eyres, who has been on an extended trip to Manitoba and the North-west, has returned. He went as far west as Edmonton, and is delighted with the appearance of the country. The crops are excellent, and everything is on the boom. He says that land which was purchased a year or two ago for two dollars an acre has now increased in value from $4.00 to $7.00. The country is being settled very rapidly, and a large influx of settlers is expected next year, many of them in good financial standing. Throughout the west he found everyone expressing the utmost confidence in a great future for the country.

JOTTINGS ABOUT TOWN

—The coal bill nowadays is well calculated to make a man feel hot.

Perfectly healthy people have pure, rich blood. Hood's Sarsaparilla purifies and enriches the blood and makes people healthy.

—On Saturday night a customer left a pair of gentleman's worn gloves on the counter in the Times Bookstore. The owner will please call and get them.

—Members of the board are requested to meet at the rooms of the Young Women's Christian Association, Brock street, this evening, at half-past seven —before the general meeting of the Association.

—Honesty in a servant is sometimes as bad as stupidity, or even dishonesty. A Peterborough lady had a new servant from the country, told her one afternoon that she particularly did not wish to see anyone. Presently a great friend of the lady came to call and asked the servant if her mistress was at home. "She's at home all right," was the answer, "but she particularly doesn't wish to see you"—and then the door was shut briskly.

PERSONAL MENTION

—Mr. Robert Ruddy, barrister, Millbrook, was in town yesterday.

—After the elections comes the municipal prize fight.

—The politicians were hustling yesterday.

—Mr. George Mather, Keene, gave The Times a friendly call yesterday.

—Hon. J. R. Stratton spent Sunday in town.

—Mr. Lee Dunsford is being welcomed back to town by his many friends.

—Rev. Father Conway, of Norwood, was in town yesterday.

—Mr. W. J. Warde, of Arnprior, is visiting friends in Ashburnham.

—Mr. E. C. S. Huycke, barrister, of Cobourg, was in town yesterday attending the Assizes.

—David White, who underwent an operation for appendicitis on Sunday, is doing as well as can be expected.

—Mr. Tytler, of the Merchant's Bank, Montreal, formerly of town, is visiting friends in Peterborough.

—Miss Lucy McClelland left yesterday for New Jersey, where she will reside with her sister, Mrs. Thomas.

—Mr. James Simpson, who has been visiting here, returned to Finch, Ont., yesterday, to resume his duties as telegraph operator.

Rheumatic Joints.—Mrs. George Smith, 6a Charron street, Point St. Charles, Que., says: "Rheumatism in my joints caused me sufferings that words cannot describe how terrible. I took four bottles of South American Rheumatic Cure and am a well woman. I have recommended it to others with as good results. Think the treatment nothing short of a wonder."—10 Sold by Ormond & Walsh.

Still Increasing Equipment

Mr. Robert Leary, the enterprising liveryman, has just added three more horses to his stables. He was much pleased, when at Millbrook fair, with a team of dark bays, belonging to Mr. S. J. Henry, who lives near Bowmanville, and made an offer for them. Mr. Leary secured the horses on Saturday last. He also purchased a fine black mare from Mr. C. B. McAllister.

Solomon and the Baby.

By Miss M. H. Windsor.

Solomon is an Indian, and he's very
odd and queer,
But a harmless sort of fellow whom a
kitten need not fear.
He does some simple duties, and he
likes a quiet smoke,
But no higher aspiration his spirit
ever woke.

Till something came last summer, to his
neighbor's house next door,
That made roses bloom for Sol'mon,
where thistles grew before.
Their beauty and their fragrance sweet
gave him such joy maybe
He never would have known but for
their cooing baby.

"Come Sol'mon! Sol'mon!" baby cries,
Come rock her in your arms to rest
And soothe her with sweet lullabys
As she lies nestling 'gainst your
breast."
Hush, little papoose, he'll be here soon,
He'll haste by the light of the silv'ry
moon,
For Sol'mon loves the baby.

Swing low, swing high, she's all agiee.
For Sol'mon holds her high and true,
Now Babe's a birdie on a tree
And now she sails the light canoe.
Oh, Sol'mon's sky was dull and grey
Before this sunbeam cheered his way.
His neighbor's winsome baby.

Two children of the forest free,
His childlike nature with hers blends.
A babe, a man of thirty-three,
They're playmates, comrades, lovers,
friends.
Would'st see! just go across the way
You're sure to find at close of day,
Solomon and the baby.

A Doctor Carries Grape-Nuts Food

A physician in McDade, Tex., who cured himself by the use of Grape-Nuts food, says. "Lagrippe left me a physical and nervous wreck, with digestion, dilated stomach, constipation, and neurasthenia. I tried electricity, vapor baths, traveling, camping, and medicines, and nauseum.

"Finally I put myself on Grape-Nuts food, and before the first package was gone I made such an improvement that it seemed difficult to believe. I finally got to carrying Grape-Nuts in my valise, and in my pocket when I didn't have a valise. Yesterday I secured a new case of two dozen packages.

"The facts are that I could eat, and did eat, digest, and assimilate the food and gained remarkably in strength. I am now regularly attending to my practice. I have been twenty years in practice, and am free to say that Grape-Nuts food is the most perfectly and scientifically made food I have ever known. My name, for professional reasons, should not be published." It can be given privately by the Postum Cereal Co., Ltd., Battle Creek, simply to those who care to inquire, by Mich.

IF RUPTURED

Call and Examine the Famous Dr. Rice Method of Cure

Dr. W. S. Rice of Toronto, the well known authority who has cured thousands of ruptured people has sent his personal representative, Mr. J. H. Mc Donald, to our town to explain and demonstrate the remarkable Rice Method that cures without pain, danger, operation or an hour's loss of time from the day's work. Mr. Mc Donald will be at the Oriental Hotel in Peterborough Thursday, Friday and Saturday, Oct. 18, 19 and 20 and in Lindsay at the Benson House Monday, Tuesday and Wednesday, Oct. 22, 23 and 24th. His office hours will be from 9 A. M. to 6 P. M. and 7 to 8 P. M. Call at the hotel and ask for Mr. J. H. Mc Donald. He will gladly confer with you free of any cost and fully explain and show the perfect Rice Method of curing rupture. Remember the dates of Mr. Mc Donald's visit and don't fail to call. It may be the means of saving your life and will at least prove to you that rupture can be cured. In case you cannot call write to Dr. W. S. Rice, 18 Victoria St. Toronto, Ont. and and he will gladly mail you full description of his famous method.

HON. WM. MULOCK COMING

The Minister of Labor Will Speak Here Saturday

Hon. William Mulock, Minister of Labour and Postmaster General, will address the electors in the Opera House here on Saturday evening next.

It is evident from the fact that Cabinet Ministers are paying considerable attention to West Peterborough, that the Liberals hope to win the constituency. The Conservatives are beginning to relize that they will have to work, and are setting themselves to it in earnest.

Mr. Mulock is not a heaven-born orator, but is nevertheless an interesting and cultured speaker, forcible in his delivery, and has a thorough knowledge of his subject.

Harvest Pic-nic

The Harvest Picnic which will take place on Thursday to Jubilee Point, promises to be a complete success. Opportunity will be given for political orators to air their views on the questions of the day. The following gentlemen have been invited to attend, and deliver addresses—Hon. J. R. Stratton, James Kendry, M.P., J. H. McClellan, John Lang, M.P., T. D. Craig, M.P., Dr. Brennan, Col. Sam Hughes, George Guillet, M.P., A. P. Pousette, Q.C. The steamer will leave the wharf at 8 o'clock, a.m.

They Have No Politics.

A Toronto despatch says. "The Provincial Licensed Victuallers' Association has sent out circulars to all the ridings where there are strong prohibition candidates, asking the members of the association to get together and give battle to any candidate who favours the proposed legislation in the Legislature by which Ontario would be placed on the same lines as Manitoba regarding prohibition. The hotel men will fight neither party, but the candidates, whether Grit or Tory, when against the Victuallers' Association interests. The association is waiting until all the candidates are announced before going into the fight in earnest."

You Need The Kind

That Has Given New Life
To Others.

Paine's Celery Compound

The Only Banisher of Disease.

Other Celery Preparations are Worthless Imitations.

"PAINE'S"

HAS A LIFE SAVING RECORD THAT NO OTHER MEDICINE CAN EVER EQUAL.

The medicine that has cured your friends and neighbors—the wonderful medical prescription that has the approval of the ablest medical practitioners—is surely the kind that you stand in need of at the moment.

Paine's Celery Compound is, to-day the only agency under Heaven that can save you if you are suffering from rheumatism, neuralgia, liver complaint, kidney disease, dyspepsia, nervousness and the troubles that raise from poisoned and foul blood. It cures the sick as surely as night follows day

The extended reputation that Paine's Celery Compound has won as a life saver has induced unscrupulous men to foist worthless imitations on the public. Many people are daily deceived by these miserable frauds.

If you have decided to use Paine's Celery Compound, see that the name "PAINE'S" is on every wrapper and bottle that you purchase. When you have secured the genuine "Paine's," you have the only medicine that can effectually banish your load of misery and suffering, and give you a new vigorous and happy life.

Headache

REBELLION IN KWANG TUNG

Chinese Authorities Find it Impossible to Supress Rising

(Special to The Times.)

Washington, Oct. 16.—Secretary of State Hay has received a despatch from Consul McWade, at Canton, saying that the Imperial troops have re-captured Hui Chou and that the rebels have dispersed to the eastward.

Tien Tsin, Oct. 15, via Shanghai, Oct. 16.—The expedition against Pao Ting Fu has met with no opposition up to Oct. 14. Reports received by Courier, say that a column of 560 French marching to Hsien to relieve a party of French priests, met with no opposition in the six days' march to the south. The Fourth brigade of the British is now arriving. The Americans have evacuated the arsenal, which has been turned over to the Provincial City Government.

Hong Kong, Oct. 16.—The Hong Kong correspondent of the Daily Express sends a report that the British torpedo boat destroyer shelled two thousand rebels, who were advancing on San Chau, killing fifty and wounding hundreds.

London, Oct. 16—The formal declaration by M. Delcasse that the French propositions regarding China have met with the approval of the powers, clears the board considerably and enables to be seen the intentions of the allies. Briefly put, the powers declare in favor of punishment of those guilty Chinese officials who shall be designated by the Ambassadors at Pekin, the continuance of the interdiction against the export of arms into China, indemnities for all who have suffered, a permanent guard in Pekin for the Legations, dismantling of the Taku forts, the occupation by troops of two or three points on the road between Tien Tsin and Pekin. The powers are therefore committed to the establishment of a garrison in the Chinese capital, with a line of communication to the sea, and the destruction of the only fortifications which can bar their progress to Pekin. This step is in reality a more formidable one than it appears on the surface. "Permanent guard," means nothing less than "permanent garrison," and it will be interesting to notice the reception which such [illegible] will meet from the Chinese negotiators, who are shrewd enough to see it in its true light. Meantime affairs in Southern China appear to be falling into the critical state which characterized Northern China, and this, of course, will complicate matters more than ever, seeing that the reformers who are moving in that locality are the allies of the powers, who will find it difficult to act against them.

BASIS OF NEGOTATONS.

Paris, Oct. 16.—At a Cabinet Council held at the Elysee palace to-day the Minister of Foreign Affairs, M. Delcasse, announced that all the powers have accepted the French note as the basis for negotiations.

The Minister added that he had been informed Li Hung Chang has just ordered the black flags and Kwang Si troops, which are traversing the province of Shan Nan on their way to join the court at Sian Fu, to abandon their march and return to Canton.

ENDORSE FRENCH PLANS.

Paris, Oct. 16.—A despatch received by the Havas Agency from Tien Tsin dated October 15, says,—"The British Ambassador, being informed from [illegible] of the basis of negotiations proposed by France, called a meeting of the diplomatic corps in Pekin. The French propositions were unanimously approved and appreciation was expressed of France's initiative. United States Minister Conger alone raised an objection, not against the propositions, but against the method of procedure. Mr. Conger deemed that the French propositions would have to be imposed upon the Chinese during the negotiations. While these propositions are formulated as being the basis of negotiation, different Ministers, among others the British and the Italian, presented certain demands, especially the replacement of the Tsung Li Yamen by a Minister of Foreign Affairs, and the posting for two years of the decrees concerning the punishment of the instigators of the anti-European movement. These demands are approved by all Ministers."

REBELLION IN KWANG TUNG.

New York, Oct. 16.—A special to the World from Hong Kong says Americans and their extensive interests in the far south of China are imperilled by a rebellion in Kwang Tung province. Already the revolt is grown to such proportions that the Chinese authorities are unable to suppress it. Mr. Wildman, the United States Consul-General at Hong Kong, has gone to Manila to confer over the critical situation with General McArthur, the commander-in-chief of the American troops in the Phillipines.

Consul-General Wildman has warned American steamers not to go beyond Canton, says a despatch to the Journal and Advertiser from Hong Kong. The United States steamer Monterey is now being repaired at Hong Kong as fast as possible.

A Chinese mob attacked the Portuguese guard at the barrier on the peninsula on which Macao is situated, according to a Herald despatch from Hong Kong. The militia turned out and escaped the rioters, and then marched through the streets. East river is infested with pirates, who have blocked the channel.

PAO TING FU CAPTURED.

Shanghai, Oct 16.—A telegram was received to-day from Li Hung Chang reporting that he had seen all the foreign Ministers except the German and Russian, who are still at Tien Tsin. Peace negotiations have not yet been opened.

Pao Ting Fu was captured Saturday by the English, German, French and Italian expedition, which was despatched from Pekin for that purpose.

Kang-Yi, president of the Board of War, is reported to be dangerously sick at Wenhsi, on the road to Singanfu. Gen. Yung Lu has gone to Singanfu to join the court.

The local secret societies continue active. They entertain pronounced enmity against Great Britain for her failure to protect the participants in the Hankow trouble. They say they must now depend wholly on their own resources, and raise disturbances wherever it is possible to do so.

43 MEN DROWNED

During the Recent Gale Four Steamers [illegible] With Great Loss of Life

(Special to The Times.)

St. John's, Nfld., Oct. 16—The St. Pierre schooner Fiona drifted ashore in Fortune bay during the recent gale and her entire crew of 20 men were drowned. The schooner is a total loss.

The schooners Meleaj Rosebud and Angler with crews aggregating 18 men were also lost.

The schooner Huntress is ashore on the Labrador coast. Five of her crew were drowned.

END OF THE STRIKE IS NEAR AT HAND

The Coal Mine Owners Getting Ready for Resumption of Work

(Special to The Times.)

Scranton, Oct. 16—The Gibson coal company's colliery in South Scranton is being put into order for work and the company says it will begin operations to-morrow or next day surely.

This company has agreed to grant the strikers' demands if the strike is raised and further that it will only mine enough coal to fill its contracts with the school districts. The Delaware and Hudson Company's two washers at Carbondale and Oliphant have resumed operations after an idleness extending a month beyond the beginning of the strike.

TROOPS DROVE STRIKERS OFF.

Lansford, Pa., Oct. 16.—About 1,500 men and 60 women and girls marched eighteen miles from the south side of the Hazleton region during the night for the Panther Creek Valley, where they expected to close all of the ten collieries of the Lehigh Coal and Navigation Company, but just as the weary marchers were nearing their destination this morning they were met on a mountain road by three companies of infantry, and at the point of bayonets were driven back four miles to Tamaqua and dispersed. Another crowd of 300 strikers from the north side of Hazleton marched here and succeeded in closing the company's No. 1 colliery at Nesquahoning, near Mauch Chunk, before being dispersed. The presence of the soldiers was entirely unexpected, and the strikers were much crestfallen over their failure to accomplish the object of their long march.

It was probably the most exciting morning that the Panther creek and the Nesquehoning Valleys had ever experienced. The troops were patient with the mob of strikers, but for a moment just after the two forces met on the road in the darkness it looked as if a clash would come, but the good sense of those who had charge of the strikers prevented a conflict.

REDUCING THE TARIFF ON FARM IMPLEMENTS.

An Interesting Incident at a Liberal Meeting in Smith.

Mr. McCLELLAN and Mr. BURNHAM

They Have a Lively Time Over the Tariff on Agricultural Machinery—Mr. [illegible] in Favor Reducing the Tariff.

At the political meeting held at the Temperance Hall, Smith on Wednesday night, an incident occurred that is decidedly interesting.

The chair was occupied by Mr. Wm. Graham, and after addresses had been delivered by Mr. J. H. McClellan, the Liberal Candidate, and Mr. J. J. Hartley of town, Mr. J. H. Burnham took the stand and stated that he was authorized by Mr. Kendry, the Conservative Candidate, to state that now that the agricultural manufacturers were exporting, showing that they were able to hold their own, the necessity for protection in their case no longer existed, and therefore he was prepared to move for a reduction of the duties on agricultural implements in order that the farmers might receive the benefit. Mr Burnham therefore asked Mr. McClellan if he was prepared to say the same, but that gentleman declined the issue, contenting himself with an attempt to justify the tariff.

The incident caused a sensation, and it is hardly possible that Mr. McClellan, as a member of the free trade party, can stultify himself in this way and expect the support of the farmers. The last has not been heard of this matter.

The meeting was poorly attended, there being only between 30 and 40 persons present.

THE POLITICAL SIGNS.

The Fight in East and West Peterborough Getting Hot.

THE FORCES NOW AROUSED

Mr. Kendry Begins the Election Campaign in Dead Earnest.

And Will Stay With it Till the End—Mr McClelland is Also Hard at Work—How the Battle is Going in the East—Mr. Laing is Having Things Pretty Much His Own Way Just Now.

While the Liberal speakers in all parts of the country are trying to fire the popular heart, they are not using the Standard Company's coal oil for firing purposes.

* * *

Mr. Cook's hot manifesto is making the Liberal pot boil in earnest.

* * *

The astounding revelations of Mr. Cook leads The Times to ask "Is it the cash consideration that is keeping Mr. Richard Hall out of the Senate? He was, we believe, promised a senatorship, but somehow it never materialized."

* * *

Mr. Bourassa says that the sending of the Canadian contingents to South Africa was the result of a job put up on Sir Wilfred Laurier by Lord Minto and General Hutton. If, after that, Sir Wilfred's countenances Mr. Bourassa's candidature, he is not very particular as to the sort of supporters he has.

The Board of Registration will sit in Mr. D .W. Dumble's office, on Friday, October 19th, on Saturday, October 20th, and on Tuesday, 23rd October, from 10 a.m., till 6 p.m.; and on Wednesday, October 24th, from 7.30 p.m., till 10 p.m

The rally for young men at Mr. Kendry's committee rooms last night brought out a large number, and much enthusiasm was manifested.

At Windsor, Premier Laurier will address a mass meeting of French Canadians on Friday afternoon.

Sir Richard Cartwright speaks at Bowmanville on the 18th inst.

* * *

A difference between the imaginative electoral guesser and the campaign liar is that the latter generally confines himself to figures of speech.

* * *

In Addington the Church and politics seem to go together. The Church of England picnic held at Sydenham on Saturday developed into a Conservative meeting, at which Mr. J. W. Bell and the Hon. Clarke Wallace took occasion to severely criticize the Laurier Government because of its anti-Imperialistic spirit. Mr. Wallace declared that Sir Wilfred himself was of the same school as Tarte, Monet, and Bourassa.

* * *

Hon. A. G. Blair has accepted the Liberal nomination in St. John City, N. B. Mr. George E. Foster, who had been tendered the Conservative nomination, has likewise accepted. There will be a vigorous fight on both sides.

H. H. Cook has been challenged by Dr. Horsey, the Liberal candidate in North Grey, to meet him on the platform in that riding and discuss the questions of the day. The doctor also dares Mr. Cook to deny that he did not ask him to aid in getting him a senatorship at Ottawa.

* * *

The lashing which Mr. Cook has given the Liberal party hurts. So far there has been no satisfactory regulation of the charges.

* * *

It will be remembered that at the last general elections the Conservatives received a majority of the total votes polled, but they were unfortunately so distributed that they failed to give them the majority of seats, proving conclusively that the arrangement of constituencies favored the Liberals rather than their opponents. At the forthcoming appeal to the country the electoral divisions will be the same as in 1896, but the voters' lists will be different, and the uniformity of system which the Conservatives had labored so hard to bring about, will be destroyed. Voting will be on the provincial lists, and the franchise will vary more or less, in accordance with the franchise acts of the different provinces. This may not, and is possibly not designed to benefit one party more than another, but it is certainly an absurdity on the face of it to have different rules and qualifications prevailing in different parts of the Dominion for an election to the same parliament. For example, in Quebec a man may vote in as many constituencies as he is qualified by residence or possession of property, while in Ontario the one man, one vote system prevails. Again the disqualifications are not uniform in the different provinces, nor are the term of residence necessary to have get one's name on the electoral list the same.

Mr. McClellan held his second meeting of the campaign at Young's Point last night. Mr. J. H. Burnham attended in the interests of Mr. Kendry, and was accorded a good hearing.

SERGT. TRUSSLER HOME

Another Member of the South African Force Returned

Yesterday afternoon Sergt. A. Trussler arrived in Peterborough from South Africa, and was met at the station by the 57th Regiment, headed by the Band. He was accorded a hearty welcome, and escorted to the drill shed by the citizens, soldiers and his friends.

Although the news was only received during the day that he would arrive, a very creditable turn out was made, and many flags were displayed.

The returned hero looks well, and on reaching the drill shed expressed his thanks for the hearty welcome extended to him, in afew well chosen words. Cheers were given for him and for the Queen, when the crowd separated.

A SERIOUS ACCIDENT.

A Man Named George Johns Injured at the Electric Works.

Yesterday morning about ten o'clock while the construction gang at the Canadian General Electric Company's works were removing a vault, the arch suddenly fell, badly injuring Mr. George Johns, of Port Hope, who happened to be underneath.

There was upwards of 600 pounds of brick and material on top of the unfortunate man. As soon as he was extricated, Dr. Young was telephoned for and had him removed to the hospital. He suffers intense pain, and it is feared there are internal injuries of a serious nature.

The unfortunate man is about 27 years of age, and is unmarried. Late last night word was telephoned that he was doing nicely.

GRAND JURY'S PRESENTMENT

County Buildings and Charitable Institutions in Good Condition

At yesterday afternoon's session of the High Court of Justice the Grand Jury made the following presentment,—

The Grand Jury of Our Sovereign Lady the Queen beg to present as follows,—

Your Grand Jury are pleased to be able to report that this portion of our province has been remarkably free from serious crime, and has been more than commonly free from offences even of a more trivial character.

This happy state of circumstances your jury attribute to the advance of education and to the abundance of work open to everybody.

Your Grand Jury are pleased to report that they visited the gaol and public and charitable institutions of the town of Peterborough and the village of Ashburnham, namely, the Nicholls Hospital, St. Joseph's Hospital, House of Providence and Protestant Home. Your Grand Jury are pleased to note the care with which the gaol is conducted and to commend the good work done by the hospitals and charitable institutions of the county.

To Your Lordship,

W. T. BUCK,
Foreman.

After complimenting the jury upon the efficiency with which they had performed their duties, expressing himself in accord with the sentiments of their presentment, the Honorable Justice discharged the Grand Jury.

The case Stevens vs. Wm. Hamilton occupied the attention of the court for the greater part of the day. There is a probability that the court will not conclude business this week.

SIR WILFRID LAURIER AT MASSEY HALL

An Immense Meeting in Toronto Last Night

THE PREMIER IN GOOD FORM

He Again Denies the Charges of Trafficking in Senatorships Made by H. H. Cook

Toronto, Oct. 16.—Sir Wilfrid Laurier and his associates were accorded a splendid reception at Massey Hall to-night. Sir Wilfrid Laurier and Hon. W. S. Fielding, Minister of Finance, where the principal speakers. The other members of the cabinet gave short addresses.

The Premier secured an ovation when he arose to speak. He gave an unqualified denial of the charges which had been made by Mr. H. H. Cook, and said,—"I am not prepared to admit that a man in public life should be answerable for charges of this character, unless they are supported by some kind of evidence which would give them a colour. At first sight I, however, waive the right of ignoring such an accusation, and I here and now make the statement, for myself and my colleagues, that there is not a shadow of foundation in the charge of Mr. Cook; that I never, directly or indirectly, through an agent or otherwise, made any demand upon him for any sum of money, big or small, or for anything else. I give the material charge the most unqualified and emphatic denial, and challenge the proof of the same."

The Premier was frequently interrupted, and order was with some difficulty [illegible] at times during his speech.

200 FILIPINOS CAPTURE 20 OF 24TH REGIMENT

A Couple of Small Detachments of Americans Surprised.

Manila, Oct. 16, via Hong Kong.—A detachment of twenty men of the 24th Regiment, while engaged in repairing telegraph wires Oct. 10 at a point near San Jose, Isle de Luzon, wer set upon by 200 rebels and were overpowered and scattered. Seven of the Americans reached San Jose, but it is probable that the remainder were captured.

The enemy surprised a party of scouts of the 43rd Infantry at a point three miles from Takloban, Leyte Island, killing three of the Americans at the first volley. Two escaped and gave the alarm, but the enemy succeeded in evading their pursuers. The native police at Takloban had conspired to surprise the Americans. The bodies of the dead soldiers were badly mutilated.

MAJORITY IS 130

The Final Returns of the British Election With Exception of Orkney Islands

London, Oct. 16.—The election returns to-day do not change the results and the final figures, with the exception of the Orkney Islands, leave the Government a net gain of a single seat. The total number of members of Parliament elected is 669, as follows—

Ministerialists	400
Opposition	269

As the Orkney Islands district is regarded as a safe Liberal seat, the Government majority will be 130, against 129 at the time of dissolution.

MR. LANG FOR THE EAST

The Present Member Receives the Unanimous Nomination

Mr. John Lang, M.P., has again been chosen to contest East Peterborough in the interests of the Liberal party. The convention was not largely attended, but it was composed of representative men from all parts of the riding.

Mr. Lang, upon receiving the nomination, which was unanimous, in his characteristic manner, said that he would greatly have preferred giving way to some one else.

Hon. J. R. Stratton delivered a forcible and telling speech, in which he dealt with the leading political questions of the day in a way that elicited much applause.

Mr. Lang goes to his constituents with a clean record. He is known as a man of the strictest integrity and honor. It will be difficult to find a man who will have any chance to win against him.

A CHURCH FESTIVAL

Re-Opening Ceremonies Connected with Lakefield Church

On Monday evening appropriate ceremonies connected with the re-opening of the Presbyterian Church, Lakefield, took place. A sumptuous tea was served from 6 to 8 o'clock, which was partaken of by about 500 persons, many being present from Peterborough.

Rev. C. A. Campbell, the respected pastor of the church, delivered an address of welcome, after which a choice program of vocal and instrumental music was rendered by the choir, interspersing the addresses, which were delivered by the Rev. Messrs. McCamus and Bridgeman, of Lakefield, Hyde, of Warsaw; Dr. Carmichael, of King; A. C. Reeves, of Campbellford, and J. G. Potter, of Peterborough.

The financial statement of the Building Committee was read by Mr. Fairbairn. The total expenditure for a new Sunday School hall, and the renovation of the church was $4,600, of which $2,000 is raised by way of mortgage, payable in eight years, $1,600 by subscriptions, to be paid on demand, while the remaining $600 will be made up of cash received at Sunday and Monday services, and in the realization of subscriptions promised on the latter occasion.

A number of great improvements have been made in the church. The floor now has a slant, an alcove has been made for the choir, very comfortable pews have been installed and the entire interior has undergone quite a metamorphosis. A two-storied school building has been added containing two large halls and vestry.

The people of the congregation are to be congratulated upon their very handsome edifice.

The Inquest

The inquest of the deceased Chinaman, Sam Lung, was continued in the Police Court Chamber last night, when considerable evidence was taken. The inquest was adjourned to Friday evening.

WEATHER NOTES.

To-day,—Moderate to fresh winds, mostly north and west; fine, and decidedly cold

The small cold wave which was approaching Manitoba yesterday has assumed important proportions, whilst at the same time a depression has developed in the St. Lawrence Valley. The winds have increased to strong breezes and gales on the lakes, which will spread to Eastern Canada. Much colder weather will prevail in Ontario and Quebec, and frosts are likely t also general.

MAHON DEFEATS BOERS

Gen. French Clearing Unvisited Districts of Boers

THEY ARE SULLEN PEOPLE

Police Patrol Ambuscaded and Treacherously Shot—Netherlands Railway Investigated.

(Special to The Times.)

Durban, Oct. 16.—Near Vryheid a Boer commando was taken in ambuscade by Bethune's Mounted Infantry, the Boers losing sixty killed, thirty-five wounded and sixty-five taken prisoners.

London, Oct. 16.—Lord Roberts was to-day gazetted honorary colonel of the new regiment of Irish Guards.

London, Oct. 16.—Lord Roberts reports from Pretoria, under date of Oct. 15th as follows—

"French started from Machadodorp towards Heidelberg to clean a part of the country not yet visited by our troops.

"Mahon, commanding the mounted troops, successfully engaged the enemy on Oct. 13th, but our losses were severe, three officers and eight men being killed and three officers and 26 men wounded

"French occupied Carolina yesterday, capturing a convoy during his march."

Lord Roberts also reports a number of minor affairs, showing that the Boers are still active over a wide field.

BOERS HOLDING OUT.

London, Oct. 16.—Commandant Muller, with a number of burghers, has surrendered to the British at Standerton. The remainder of the commando intended to hold out until yesterday, when they would also surrender if they were not joined by a large force of Americans, who, it is said, would arrive on that day to aid them. The Boers have burned a number of farmhouses in the Standerton district belonging to Englishmen.

Commandant Erasmus is coming in to arrange terms of surrender.

Gens. Barton and Clements have surrounded a commando on Stewart kop, and it is expected that the whole force will be captured.

WILL RAISE A REGIMENT.

At a meeting of the Executive Committee of the Johannesburg Caledonian Society it was decided to apply to the military authority for permission to raise a regiment, to be known as the Transvaal Scottish Volunteers.

The National Bank of the South African Republic will in the future be known as the National Bank of South Africa. The head office will be in London.

Gen. Roberts has issued an order announcing that Gen. Buller has relinquished the command of the Natal force. Gen. Roberts thanks Gen. Buller for his services, and says that his ability and great success caused the collapse of the Boer army in the eastern part of the Transvaal.

BOERS BREAK THE RAILWAY.

A train has been derailed at Kaap River. Three persons were killed in the accident.

The Boers have broken the railway at Vraafontein. They fought a small force that was sent to repair the line, killing several and wounding a number. Some others were taken prisoners. The rifle brigade is proceeding to clear them out.

A police patrol of five men from Ladybrand has been ambuscaded by a small party of Boers on Stockdale's farm near Clocolan. The enemy ordered our men to hold up their hands, and then treacherously shot four, killing two and wounding two. The unwounded men were ordered to fetch an ambulance from Ladybrand.

A SULLEN PEOPLE.

Commenting on the activity of the Boers, the Standard says—"There are certain indications pointing to the conclusion that unexpected difficulties have arisen, which Lord Roberts deems grave enough to demand his presence for some time to come. All the facts suggest that it is impossible yet to denude South Africa of any substantial portion of the large army now engaged in dominating a sullen and recalcitrant population."

URGED ON JOUBERT.

The examination into the Netherlands Railway matter brought out some sensational evidence. Director Van Kretschmar gave the details of the directorate in the Transvaal and in Holland. He did not think that the question of war necessitated a meeting of the directors. The Holland Board were fully informed, and he had received no objection regarding the conduct of the company.

Director Van Kretschmar was examined regarding entries in his diary, which was found by the British. This diary showed that Van Kretschmar, prior to the outbreak of war, even as early as July, had urged General Joubert to make preparations for hostilities. He eventually formed a plan for destroying culverts near the Natal border. General Joubert commenced operations with extreme reluctance. Van Kretschmar's representations were upheld by President Kruger, Mr. Wolmarans, a non-official member of the Executive Council, and others.

HOPELESSLY COMPROMISED.

In a letter to the directors in Holland, Van Kretschmar admitted the hopelessness of the position in the event of England winning. He said—"We have compromised ourselves in word and deed, have made cannon and ammunition, have destroyed bridges in English territory, paid our staff on commando, and assisted the Free State with persons and material. There are letters, telegrams and witnesses to prove all this. I have endeavored to get orders as far as possible, but not always successfully. We could never attempt to show that we did not do the acts, in fact, we were only too willing."

Van Kretschmar further said he believed England would not be severe owing to her fear of annoying Continental shareholders.

NOTICE

Notice is hereby given that an application has been made for the transfer of license formerly held by A. P. Morgan, proprietor of the Morgan House, Peterborough, to his widow, Mrs. Eliza Morgan, and the commissioners will consider the application on the 25th October, 1900, at 10 o'clock, a.m.

Peterborough, October 16th, 1900.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Works at Port Colborne" will be received at this office until Friday the 9th November inclusively, for the construction of a breakwater and for rock excavation at Port Colborne, Welland County, Province of Ontario, according to a plan and specification to be seen at the offices of H. A. Gray, Esq., Engineer in charge Harbour and River Works for Ontario, Confederation Life Building, Toronto; the Resident Engineer Room, 411, Merchant's Bank Building, St. James St. Montreal, and Mr. Ph. Beland, Clerk of Works, Post Office, Quebec, on application to the Postmaster at Port Colborne, Ont., and at the Department of Public Works, Ottawa.

Tenders will not be considered unless made on the form supplied, and signed with the actual signatures of tenderers.

An accepted cheque on a chartered bank payable to the order of the Minister of Public Works, for thirty thousand dollars [illegible] must accompany each tender. The cheque will be forfeited if the party decline the contract or fail to complete the work contracted for, and will be returned in case of non-acceptance of tender.

The Department does not bind itself to accept the lowest or any tender.

By order,
JOS. R. ROY,
Acting Secretary.

Department of Public Works,

Morning Times

PETERBOROUGH, OCTOBER 17 1900.

SOMETHING IN TIME.

There is no real difference between the parties. Both alike are essentially Tory and in sympathy with the Tory party in Great Britain; both are imperialist, and vie with each other in imperialist professions, both are Protectionist, though one of them, instead of Protection, uses the phrase "stability of tariff." Both parties claim credit for the commercial boom, and they might almost as well claim credit for the sun and rain. They are, in fact, trying all the time to crowd each other off the same platform. It is a mere struggle for place and power, in which no great amount even of what may be called generous ambition is involved, and the tendency of which is and must be to estrange the worthiest and most patriotic citizens from public life. The turmoil is prolonged for months in order that the government may bedivil the constituencies and thus falsify public opinion.

EDITORIAL NOTES.

Admitting Sifton is making money flow like water, it will require strong argument to prove the water is at all suggestive of clean politics.

• • •

Some may infer that Mr. McClellan has not a leg to stand on since he is going round on the stump.

• • •

The opposition in Quebec reserve the privilege of referring to Premier Parent as Government Pap.

Those Boers who are said to be going to make their home in Dakota will feel perfectly at home there when the first cyclone strikes them. It will remind them of Botha and Buller and those other whirlwinds.

• • •

Mr. P. Louis Wessels is talking through his hat when he predicts an anti-British revolution in Cape Colony. The privilege of talking thus is one of the few things Mr. Wessels brought with him from South Africa, and nobody would wish to deprive him of it. Had the British colonies in South Africa intended to rebel they would have done so when Britain was busy fighting the Boers. They would not have been so foolish as to wait until that job was completed.

• • •

Politicians of both classes are agreed that the holding of Thanksgiving day before the elections is a happy idea. After the elections somebody will be in anything but a thankful mood.

• • •

The undoubted eloquence of Sir Wilfrid Laurier does not equal in persuasive powers the legal tender tones of the campaign fund.

• • •

A year ago the Boers invaded Natal. A good many of them remained permanently, but not to grow up with the country.

• • •

Speaking of the registration of voters in cities it is probably correct to surmise that in many cases it will be a cash register.

• • •

Canada is brought to a choice between a government which has done nothing in the way of effective reform and an opposition which promises nothing.

AS USUAL.

(By The Times political poet)

Oh! the ship of state's in peril where she's often been before.
She's driftin' with her rudder gone upon a rock-bound shore;
The cyclone of calamity is roarin' overhead,
An' on the smashed an' battered decks all hands is lyin' dead.
The ship o' state's in peril, an' the day o' wrath is here
It never fails to come around on an election year.

Oh! the ship o' state's in peril, an' the [illegible]-armed octopus
Is reachin' out its slimy coils to grab an' swallow us.
The awful, fear-compellin' form above the wave appears,
As it shows up unfailin'ly in all election years.
An' if the grand ol' ship keeps on she's certain sure to go
To wreck an' ruin the [illegible], just like four years ago.

Oh! the ship o' state's in peril, where it frequently is found.
The Tory howlers all can hear the keel grate on the ground.
They see the signal of distress a-flyin' at her mast,
An' watch to see her swalled up amid the shriekin' blast.
But they'll be disappointed, for the crew pile up a [illegible].
An' pulls out in the nick o' time on each election year.

THE POLITICAL POT

Mr. J. H. McClellan opened the campaign Monday night with a meeting in Smith. Mr. Kendry also starts out on Friday, when he will also hold a meeting in Smith.

• • •

Commodore Calcutt, with his usual enterprise and thoughtfulness, has afforded local politicians an opportunity to air their views at the big Harvest Picnic at Jubilee Point on Thanksgiving day. All the leading local politicians have been invited to attend, and deliver addresses.

• • •

Mr. Kendry's Committee rooms are crowded every night, and are found to be much too small to accommodate the crowds that attend. This certainly looks as if West Peterborough was likely to remain Tory.

• • •

Mr. H. H. Cook, who says he was offered a senatorship for $10,000, evidently had no ambition to mingle with the upper $10,000.

• • •

The Mail and Empire says that at the Brandon meeting where Sir Hibbert Tupper and Hon. Mr. Sifton met in gladiator form, the former, figuratively speaking mopped the floor with his opponent. The Globe on the contrary, says that Mr. Sifton carried the meeting by storm. You pays your money and takes your choice.

• • •

Another Liberal principle goes to smash in the decision of the government to delay the elections in Burrard, Yale, Cariboo, Algoma, Chicoutimi and Gaspe until after the general elections. The Conservative government used to get some warm roasts for doing the same thing.

• • •

Sir Wilfrid Laurier will be inclined to admit now that "too many Cooks spoil the broth."

• • •

Its astonishing how many Stratton grits are shouting for Kendry. One is almost tempted to imagine that Mr. Kendry was one of them himself.

• • •

The Times received a letter yesterday on the subject, "Do party papers help political parties?" Possibly they do. We can imagine how eagerly a good Tory would rush off to the Grits after having a few of the Review's editorials hurld at him, and how the poor, weary, overworked Grit would be happy to escape into the ranks of the Tories in order to get away from the Examiner's bellywash.

• • •

A very natural circumstance in the campaign liar's cutting a lie out of the whole cloth is making a habit of it.

• • •

Mr Sifton has been called the young Napoleon. The latter, it will be remembered, favored the cocked hat, and was ultimately knocked into one.

How are your Nerves?

If they are weak and you feel nervous and easily "flustrated," can't sleep, and rise in the morning unrefreshed, your blood is poor. Strong nerves depend upon rich, nourishing blood. Hood's Sarsaparilla makes the nerves strong by enriching and vitalizing the blood. It gives sweet, refreshing sleep and completely cures nervous troubles. Begin taking it to-day.

Nausea, indigestion are cured by Hood's Pills.

Thanksgiving Services.

A union Thanksgiving service will be held in St Paul's Presbyterian Church on Thursday, at 11, a.m. The collection which will be taken up, will be divided equally between the Protestant Home and the Children's Aid Society.

WEST PETERBOROUGH.

MR. KENDRY

The Liberal Conservative Candidate will address the electors on the issues of the campaign as follows,—

TEMPERANCE HALL, 4th line Smith, on Friday, October 19th.

MONTGOMERY'S SCHOOL HOUSE, Smith, on Monday, October 22nd.

SELWYN, Smith, on Wednesday, October 24th.

TOWN HALL, Bridgenorth, on Thursday, October 25th.

MEETINGS WILL BEGIN AT 7.30 p.m.

All are cordially invited to be present.

Mr. McClellan or his representative is invited to attend and will be given the usual time.

GOD SAVE THE QUEEN.

SEALED TENDERS, addressed to the undersigned and endorsed "Tenders for Post Office, Deseronto," will be received at this office until Tuesday, twenty-third October, 1900, for the erection of a Post Office at Deseronto, Ont.

Plans and specifications can be seen at this Department and on application to John Dalton, Esq., Deseronto, where forms of tender and all necessary information can be obtained.

Persons tendering are notified that tenders will not be considered unless made on the form supplied, and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honorable the Minister of Public Works, equal to ten per cent. of the amount of the tender, which will be forfeited if the party decline to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the tender be not accepted, the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
JOS. R. ROY,
Acting Secretary
Department of Public Works of Canada,
Ottawa, October 11th, 1900.

Newspapers inserting this advertisement without authority from the department will not be paid for it.

SUNNY WOMEN.

Who has not known the woman whose disposition is described by that one word "sunny?" There's always a laugh lurking on her lips. Her cheeks are ever ready to dimple in smiles. Her household influence is as brightening and stimulating as the sunshine. Nothing can be crueler than to have this sunshine blotted out by disease. But this is a common cruelty. The young wife who was the sunshine of the home becomes its shadow. Every young wife should know the value of Dr. Pierce's Favorite Prescription in the protection and preservation of the health. It promotes regularity, dries the drains which enfeeble body and mind, and cures inflammation, ulceration and female weakness. It nourishes the nervous system and gives to the body the balance and buoyancy of perfect health. It is a strictly temperance medicine.

"I can say that your medicine cured me," writes Mrs. Maud Pearce, of Stoutsville, Fairfield Co., Ohio. "I had suffered about twelve years from female weakness and I had almost given up, thinking there was no cure for me. Then I heard about Dr. Pierce's medicine and thought I would try it, and can say that seven bottles of your 'Favorite Prescription' made me well. I am now able to do my own housework. I took about twelve bottles in all of Dr. Pierce's medicines. Took some of the 'Golden Medical Discovery,' 'Favorite Prescription' and some of the 'Pleasant Pellets.'"

Dr. Pierce's Pellets cure constipation.

ATTACK of ROYAL CANADIANS at Paardeberg

The present is a time when war pictures are in greater demand than ever. The conduct of the British soldiers on the battlefield has won the plaudits of admiring nations. We have at great expense published four large, beautiful pictures, size 22x28, on heavy, superfine calendered paper. A picture that will command itself and send a thrill to the heart of every true Canadian is the one called Attack of Royal Canadians at Paardeberg, there are literally hundreds of figures on this picture, the mountains or kopjes stretching out into the distance are swarming with men, while here and there a prostrate figure speaks only too well of the Boer rifleman. It was on this battlefield the gallant Major Arnold met death unflinchingly. Indeed, it is only too true that many of those gallant hearts that beat so high when the cheering thousands bade them Godspeed as they sailed from Canada's shores now lie still forever in lonely graves on the other side of the world under African skies. To every Canadian heart, to every Canadian home, the deeds of their brave soldier boys speak with an irresistible thrill of patriotism and pride. Gordon Highlanders at the Battle of Belmont, Charging the Boer Guns at Elandslaagte and the Charge of Gen. French's Cavalry on the Retreating Gen. Cronje's Army. These are all stirring pictures and cannot fail to commend themselves to anyone who will examine them. They are MADE FOR SELLING! Agents coin money. Big profits. Enormous success. One agent sold 65 in one day. Sample and terms 25 cts (none free); four for 90 cts; $1.75 per dozen; 25 for $3.25; 50 for $6.00; 100 for $11.00 Write to-day for a dozen and make money. Sam's Royalty Mfg. Co., Box 515 (Dept, 20) [illegible] Chicago, Ill.

Address to the Electors

To the Free and Independent Electors of West Peterborough—

Gentlemen.—Having accepted the unanimous nomination of the Liberals of this Riding, as a candidate for its representation in the House of Commons I hereby respectfully solicit your support in securing my return at the coming general elections.

The grounds upon which I base my appeal are not so much nor chiefly by any means, my personal fitness for the position of your representation though as a citizen of Peterborough and interested in its progress in common with that of the country, I can and do promise, if elected, an intelligent support of such a public policy and such measures as will best conduce to the promotion of all the interests of Canada, the development of her great resources and the general betterment of the civil moral and material condition of the public; and my best abilities and most assiduous attention shall be devoted to the faithful discharge of my representative duties.

The strongest ground, however, of my appeal consists in the fact that I am a firm supporter of the Liberal Government led by Sir Wilfred Laurier, which is entitled to the renewed confidence of the people, both in the ground of its policy and the splendid record established by the application of that policy. The Liberal party appealed to the country in 1896 upon a clearly defined policy and the promises [illegible] followed.

The Liberal party promised a reduction of a high tariff that hampered our industrial and agricultural interests and was hostile to the Mother Country.

The tariff was materially reduced and otherwise improved and in such a way as to help instead of hinder the manufacturer and farmer, with the consequence that never before in the history of the country have our industries or our farmers enjoyed such great prosperity, our mechanics and working men such constant employment and high wages, nor our commercial and all other interests so flourished.

Our domestic and foreign trade have also greatly increased. The loyal gift of a trade preference, represented by a tariff reduction on British goods of 33 1-3 per cent., and our despatch of the Canadian Contingent, have resulted in a kindlier feeling towards Canada and greatly increased trade with the Mother Country.

With a largely reduced rate of tariff, our revenue has greatly expanded so that the Government was warranted in practicing true economy (reducing our postal rate one third, giving Imperial penny postage,) and permitting of the completion of great public works, deepening our canals, so long trifled with, pushing the work on the Trent Valley Canal which is now urged and will be urged to completion by the Liberal Government, and the application of a vigorous policy of general development and improvement of our transportation facilities, resulting and to result in easier access to the British market and better prices for all our products.

The farming interests of the country are deserving of the best services of a Government, such as the present has given. The immense impetus given the produce trade between Canada and Great Britain, through the preferential tariff, has been greatly helped by the action of the Government in providing an excellent and adequate system of cold storage, by which Canadian products can be landed in Great Britain in first-class condition, guaranteeing the highest prices. The system is of the most modern character, sufficient for all the present needs of the trade, and it will be improved and enlarged as experience suggests, and increase of the produce trade demands, and I shall, if elected, feel it my duty to support any policy that will improve our trade with the Mother Country, and strengthens the bond of British connection, of which we are so proud.

In an industrial centre like Peterborough the claims of the working classes are especially deserving of consideration. No country is well governed that does not look after the interests of all classes of the community. The Conservative Government has been, and the Conservative party declared itself to be, extremely solicitous of the interests of the capitalist classes—the manufacturers—but it left the working classes to largely shift for themselves. A Liberal Government came into power, and the attitude towards Labour was changed, and the rights of Labour to its rights recognized, and in a practical way. A Department of Labour has been established and a Minister of Labour placed over it. A Labour Gazette has been established in the interests of workingmen, published monthly; conditions have been inserted in all Government contracts compelling contractors to pay the highest current wages, which the Government guarantee the payment of; the sweating system has been abolished on Government enforced by a special officer, and in many other ways the Government has shown by deeds that the rights of the workingmen, as well as the capitalist, shall be protected. I heartily support the Government in what it has done, and shall support them in extending the benefits which they have already conferred, and which it is their policy to continue, as need arises.

The splendid achievements of Canadian soldiers in South Africa, make them worthy of the gratitude of the country. We have the best militia material in the world, and if we keep up a military establishment, let it be worthy of Canadians. Situated as Peterborough is, on the line of the Grand Trunk and Canadian Pacific Railways, and on the line of the Trent Valley Canal, begun as a military work, and now under course of completion, no other point in this Province is so well adapted for a military centre. I shall, therefore, feel it my duty to press upon the Government the advisability of constructing in Peterborough new armories and connected buildings for military stores for Ontario, and I feel that this is practicable of attainment at the hands of a Government which has shown its interest in our volunteers by placing the Militia Department, so greatly neglected by a previous administration, upon an effective basis, and will, therefore, more naturally be well disposed towards the improvement involved in making Peterborough a centre for military stores.

A town of the industrial and commercial importance of Peterborough, has certainly strong claims upon the good offices and of a Government. For the past four years the town has been represented, when it was represented in the House, by a member opposed to the Government. There is no doubt in the minds of unprejudiced observers, that the present Liberal Government will be strongly sustained in the country at the coming elections, and the question arises whether West Peterborough will have its interests better served by a member sitting in opposition and hostile to the Government and its policy, or by a member pledged to give the Government a fair support in the application of its policy. If elected I pledge myself to give my best ability and exertions to the promotion of the general good of the country, and to look especially after the interests of West Peterborough.

I cannot obviously here, enter into details of how, in other ways the Liberal Government has implemented its promises and applied its policy, but I shall have an opportunity during the campaign of more fully dealing with these and other public questions.

As a supporter of such a Government I can appeal with confidence for the support of the Electors of West Peterborough, knowing that by helping to give, as you will do, through my election, a renewal of the trust the Liberal Government has discharged with such evident and gratifying results, they will be conferring a great and lasting good upon this riding, the country at large, and securing a continuation of the great blessings of prosperity and good government we now enjoy.

Again soliciting your support, your votes, and influence in this contest,

I have the honor to be,
gentlemen,
Your obedient servant,
J. H. McCLELLAN

A NOVEL.

(Continued.)

There was no color in her pale face and its expression was at all times disagreeable; her mistaken idea of dignified pride.

Miss Glendyke's eyes, cold, searching, and merciless, fell upon the desolate, young stranger; it was plainly evident that there would never be friendship between them. For one brief instant their eyes met; cruel harsh Miss Glendyke's, and innocent trusting Isetta's.

There was a brief conversation carried on in a low key hurriedly between Madam Root and her principal.

"I may be in the wrong, as you say," Isetta heard Madam Root say "still I am determined to try her at least a quarter."

Miss Glendyke's lip curled contemptuously, and she shrugged her shoulders ominously, making a parting suggestion in a deep, coarse voice, as she swept from the room.

Isetta never afterward saw a hateful curl of the lip but she unconsciously associated it with disagreeable Miss Glendyke.

"I have concluded to try you for one quarter, Miss Rienzi," madam said in her slow, impressive way; "if mutually agreeable at the expiration of that time, I may re-engage your services; although without references from former instructors. I take you upon the Rev. Dr. Morleigh's recognizance."

Isetta hardly knew whether she felt happy or very sorry. If any one had spoken just one kind word to her at that moment, the chances are that she would have burst into tears.

Twice she attempted to tell Madam Root that she was not Isetta Rienzi, but Isetta Ross. The words froze on her lips; she dared not tell her pitiful sorrow to the cold woman before her.

"Perhaps it will be as well as it is," she sighed, wearily.

CHAPTER XVI.

The Class Of The "Pretty Ten."

Soon after the same maid that had shown her to the reception-room appeared to conduct her to the apartment.

"Your dinner may be served in your room to-day," called Madam Root, coldly; "to-morrow morning I should like you to come to the music-room early, that I may assign you your duties."

"Yes, madam," replied Isetta, as the woman turned haughtily away.

"Did you say," asked the lingering maid, her hand on the door-knob, "Madam Root had engaged you to teach music here?"

"Yes," answered Isetta, wearily.

"Did Miss Glendyke see you, miss?" queried the girl.

"Yes," responded Isetta.

"Well, well," muttered the girl, "that is the strangest thing I ever heard of."

"What is it that is so strange?" asked Isetta.

"Won't you never breathe a word of it if I tell you?" asked the girl, re-entering the room and closing the door softly after her.

Isetta smiled; she was very glad of even the maid's chatter to divert her mind even for the moment from her own sad thoughts.

"You see, miss, it's just this way here," commenced the maid, mysteriously. "All the people in this whole institution are a mean set, if I do say it."

"Hush," remonstrated Isetta, in a pained voice, "you should not talk so."

"But it's so all the same," reiterated the girl, stubbornly; "why, there's never a new teacher comes here but she's abused in a shameful way; the nicer she is and quiet, the more she's talked about and picked on," continued the girl, with a sidelong look at the beautiful face; "that's why they're always wanting more talent here, as they call it. You can hear a good deal of talk about getting in new teachers and needing 'em, but I tell you it isn't that; they can't get no teacher to stay, and it's all that Miss Glendyke's fault, the hateful old thing," cried the girl, shaking her forefinger warningly. "She's the worst of the lot; she sets 'em up against a body from the first. All I've got to say is, I'd look out for her if I were you."

With this parting advice, the girl quitted the room, and Isetta was left to the contemplation of her own confused thoughts.

She stretched out her hands with a low, bitter cry, the one great cry of her life issuing from her white lips.

"Oh, Alderic, my love, my husband, where are you?"

The tea which was sent up to her remained untasted; it was not the hunger of the body but of the heart which Isetta felt most keenly.

She rose early the next morning, donning one of her plainest dresses, a dark silver-gray that fell in graceful folds about her shapely form, and her dark curls were drawn back by a pearl comb, which was her only ornament.

The picturesque, foreign beauty of Isetta struck Madam Root forcibly as she entered the music-room. Soon after the young ladies of the college took their seats.

By nature Isetta was timid and shrinking; there she sat, the cynosure of all eyes, a sea of curious faces before her; she could see the curling of red lips, the flashing of angry eyes and tossing of heads, even the murmur of their voices was in a measure audible to her from where she sat.

One face only out of that vast throng smiled kindly upon her, the sweet, quiet, and young girl whose tender soul had overflowed at her song the previous day. The memory of that smile was precious to Isetta all the years of her after-life.

"I shall try hard to win their love," thought Isetta, as she listened to their low whispers, which ended in suppressed bursts of laughter.

There was rebellion in their hearts and war in their faces. She might as well have attempted to govern the fiery lava of Vesuvius as stayed the torrent of their dislike; her very beauty, and the picturesque, large, dark, starry eyes were the main causes of their envy.

They fully determined the young stranger should not have a comfortable time at the College of Music if they could help it.

There was another prime cause; on reception days Madam Root's establishment was crowded with the elite, for the pretty young ladies of the College of Music were far-famed, and many a match was made through these reception days.

THE NEW SYSTEM.

Powley's Liquified Ozone Kills the Germs of Disease.

IT CURES CATARRH.

It has only been in this century that the great value of Powley's Liquified Ozone as a germ killer was recognized by the men of science of the world. It was noticed that every kind of disease was benefitted when the patient went to live in mountainous districts. It was later discovered that in the rare air of high localities there was a great amount of Ozone. Now Ozone kills the germs of disease and this accounts for the health giving properties of the air in those places.

Powley was able to liquify ozone and adapt it for medicinal purpose. Already Powley's Liquified Ozone has made remarkable cures. Read what Mr. McLeod says. "I sent you this brief account of my experience with your Ozone remedy. I have been troubled with Catarrh as I have told you, for over fourty years. I have been treated by some of the best doctors in the city and have taken loads of so called Catarrh remedies, but all these proved a total failure. Over a year ago I was induced to give Ozone a trial and to-day I feel glad and rejoice in being cured of an obstinate case of Catarrh. My eyesight is much better. My hearing is immensely improved and my lame back, i.e. Lumbago, is all gone. Two years ago I was a physical wreck. To-day I am rugged and healthy. And to you, and the Ozone I am indebted for all these blessings. May God bless you in the good work is the prayer of your much indebted humble servant". (Signed) Alex. McLeod, 198 Elizabeth St., Toronto.

Ozone is $1.00 a large bottle, 50 cts., small size. All druggists, or from the laboratories of the Ozone Co., of Toronto Limited 48 Colborne St., Toronto.

NO CURE—NO PAY

THE NEW METHOD TREATMENT, original with Drs. K. & K., will positively cure forever any form of Blood or Sexual disease. It is the result of 25 years' experience in the treatment of these diseases.

WE CURE SYPHILIS

This terrible Blood Poison, the terror of mankind, yields readily to our NEW TREATMENT. Beware of Mercury, Potash, etc. They may ruin your system. If you have sores in the mouth or tongue, pains in the joints, sore throat, hair or eyebrows falling out, pimples or blotches, stomach derangement, sore eyes, headaches, etc., you have the secondary stage of this Blood Poison. We solicit the most obstinate cases, and challenge the world for a case we accept for treatment and cannot cure. By our treatment the ulcers heal, the hair grows again, pains disappear, the skin becomes healthy, and marriage is possible and safe.

CURES GUARANTEED

Thousands of young and middle-aged men have their vigor and vitality sapped by early abuses, later excesses, mental worry, etc. No matter the cause, our New Method Treatment is the refuge.

WE CURE IMPOTENCY

And restore all parts to a normal condition. Ambition, life and energy are restored, and one feels himself a man among men. Every case is treated individually—no cure-all—hence our wonderful success. No matter what ails you, consult us confidentially. We can furnish bank bonds to guarantee to accomplish what we claim.

THE COLORADO COPPER MINING COMPANY

LOCATION OF OUR MINES

THE COLORADO COPPER MINING COMPANY is fortunate in being the possessor of five splendid showing properties in the great Salida copper belt, the principal copper producing region of this portion of the rockies. All of our claims have been more or less developed and it is our purpose to put the same on a paying basis at once.

Our Company owns, clear of incumbrances the following claims,—The Sedalia Extension, the Sedalia Extension No. 2, which property adjoins the great Sedalia mine, which has been a big producer for upwards of seventeen years; the Copper King of Colorado, which immediately adjoins the above; the Copper Queen of Salida, a very promising property, only a few steps from the depot in Salida. This claim occupies an imposing position on a mountain just north of the city; and last, but by no means least, the Sunshine, located two miles east of Salida at Cleora station, on the main Trunk line of the great Denver and Rio Grande Railroad, also on the Arkansas river, which in length is one of America's greatest streams.

Indians Arrested

On Monday High County Constable Archie Moore arrived back from the vicinity of Buckhorn with an Indian named Jack Knott and his son about twelve years of age. They were charged with theft—the father with the theft of an ox and the son with the theft of a sum of money. They were remanded until Monday next to await the appearance of several important witnesses.

A Well Known Man Dead

Mr. Timothy Parent, familiarly known as "Colonel" Parent, died at the Nicholls Hospital yesterday morning. Deceased had no relatives residing in this country. He came from Belleville to Peterborough about 15 years ago, and was for years employed as clerk in the Grand Central and other hotels in town. The funeral takes place from the hospital to-day at four o'clock.

A Farewell Party.

The handsome home of Mr. and Mrs. Wm. Davidson, Macdonald st. was the scene of a joyous party on Monday evening, when their charming little grand daughter, Miss Helen Munro, entertained about 30 of her juvenile friends to a farewell party. Mr. Munro and family go to Montreal, where they will reside in future. It is enough to say that while hosts of people wish them well in their new home, little Miss Helen will carry with her the love and good wishes of her many little friends in Peterborough, with whom she was ever popular, and by whom she will be greatly missed.

On account of Thursday being a public holiday, there will be no issue of The Times on Friday. The paper of course, will appear to-morrow.

Provincial Boys' Conference

The second annual conference of the boys' department workers will be held in the Y.M.C.A. building on Thursday and Friday of this week.

About 25 delegates are expected, and any who can entertain are requested to send in their names at once.

The executive of the Ladies' Auxiliary met yesterday and made arrangements for the banquet to be tendered the delegates on Thursday evening at 5.30.

At seven o'clock on Thursday evening a meeting will be held for boys, to be addressed by prominent boy workers. All the boys of the town are invited. The evening sessions are open to parents and those interested in the boys' work.

On Thursday evening at eight o'clock Mr. C. K. Calhoun, assistant secretary, Montreal, and Mr. J. J. Davey, of New York City, are the speakers, and Rev. Elmore Harris, D.D., of Toronto, will be the principal speaker on Friday evening at the closing service.

The Y.M.C.A. quartette are expected to sing at the evening sessions.

Mr. John Penman, of Paris, chairman of the Provincial Committee, will be present.

THE AMERICAN HABIT

One in Every Three Affected

Of the 75,000,000 people in America, it is estimated that 25,000,000, or one in every three, are partially disabled from a broken down nervous system. America is the greatest consumer of coffee in the world. Can you draw the correct inference from these two facts?

Many a person will exclaim, "Nonsense!" It is easy for any thoughtless person to jump at a conclusion that a philosopher would study carefully over before reaching. Think of the members of you own family; how many of them are perfectly and completely well in every respect? How many of your friends are perfectly healthy? Inquire of them and you will be surprised to learn that the average of one in every three, who are sick, in the main, stands true. Health depends, primarily, upon a perfectly poised nervous organization, and the greatest known enemy to the nervous system is coffee. Its active principal is caffeine, which is a pronounced nerve destroyer. The action is, first, to attack the stomach, then the pneumogastric nerve which lies behind the stomach and which is directly connected with the brain.

The disordered conduction passes thence from the brain to all parts of the body, and in some it will show in trepidation (well-known nervous condition); in others this is hidden, but the work goes on from day to day, until some day the accumulation of forces climaxes in some organic disease. It may be the kidneys become affected and Bright's disease sets up, it may be weak eyes, may be catarrh, stomach trouble, palpitation and heart failure, (which is becoming more and more noticeable among Americans.)

Somewhere, you may depend upon it, this work will show forth in the form of disease. It may become so fixed and chronic that it can not be thrown off. It is hard to induce a man or a woman to give up coffee when they have become addicted to its use, but if such people can be given Postum Food Coffee, they will quickly change for the better, for the food drink, when properly made, has even a more beautiful color than the ordinary coffee, and has the delicious, toothsome flavor of old government Java of the middle and higher priced grades.

The work of organization begins at once, for the tearing down element of coffee has been eliminated, and in its place the strong rebuilding effects of the elements contained in the food coffee, go directly to work to rebuild the broken down delicate gray matter in the nerve centers and brain. This is just plain, old-fashioned common sense that any thoughtful person can make use of; in fact, hundreds of thousands of brain workers in America have already discovered the fact and are using Postum Food Coffee, to their very great benefit and relief.

THE CASE OF ROSE HENDERSON.

Editor Morning Times.

Sir,—Having noticed some statements in the Toronto papers purporting that the late Miss Rose Henderson used assumed names, I wish to state that I do not believe it at all probable. When she was ill here I called to visit her and judged her a person of good judgement and of high aspirations. This is corroborated by all who have met who knew her here. It is not long ago that I received a testimonial from her employer to be filled in, which had no intimation of the use of an "alias." Besides, her sister has lived with her in the city and knows nothing whatever of any attempt at disguise. Yellow journalism and the desire of newspapers for a sensation often does grievous injury to the innocent and their friends. Yours, etc.,

REV. W. L. ARMITAGE.

The Dead Chinaman

The remains of the Chinaman who was killed by coming in contact with the electric wires, were shipped to Toronto by the early C.P.R. express this morning for interment in the Chinese plot in that city.

Harvest Pic-nic

The Harvest Picnic which will take place on Thursday to Jubilee Point, promises to be a complete success. Opportunity will be given for political orators to air their views on the questions of the day. The following gentlemen have been invited to attend, and deliver addresses—Hon. J. R. Stratton, James Kendry, M.P., J. H. McClellan, John Lang, M.P., T. D. Craig, M.P., Dr. Brennan, Col. Sam Hughes, George Guillet, M.P., A. P. Poussette, Q.C. The steamer will leave the wharf at 8 o'clock, a.m.

Municipal Lighting Notes.

—The Woodstock, Ont., Electric Light Co., will sell their plant to the town for $14,000, but the town offers $13,000.

—Hamilton has gone back to gas for the lighting of the civic buildings, saving $375 a year on the city hall and clock tower alone.

—The city council of Kingston is getting ready to take over the electric light and gas plants. The company may make terms with the city as to the value of the plant, to save the costs of arbitration.

—The Newmarket town council has voted $10,000 towards the extension of the electric light plant, and has purchased a 250-h.p. Wheelock condensing engine, new boiler and 100-k.w. dynamo. This will give the plant a 30,000 light capicity. At present there are 1,700 lights run.

—L. J. Marian, superintendent of the Montreal waterworks, recommends the installation of two electric pumps at a cost of about $30,000. They would be capable of pumping five million gallons per day.

IF RUPTURED

Call and Examine the Famous Dr. Rice Method of Cure

Dr. W. S. Rice of Toronto, the well known authority who has cured thousands of ruptured people has sent his personal representative, Mr. J. R. Mc Donald, to our town to explain and demonstrate this remarkable Rice Method that cures without pain, danger, operation or an hour's loss of time from the day's work. Mr. Mc Donald will be at the Oriental Hotel in Peterborough Thursday, Friday and Saturday, Oct. 18, 19 and 20 and in Lindsay at the Benson House Monday, Tuesday and Wednesday, Oct. 22, 23 and 24th. His office hours will be from 9 A. M. to 6 P. M. and 7 to 8 P. M.. Call at the hotel and ask for Mr. J. R. Mc Donald. He will gladly confer with you free of any cost and fully explain and show the perfect Rice Method of curing rupture. Remember the dates of Mr. Mc Donald's visit and don't fail to call. It may be the means of saving your life and will at least prove to you that rupture can be cured. In case you cannot call write to Dr. W. S. Rice, 18 Victoria st. Toronto, Ont. and and he will gladly mail you full description of his famous method.

DAN SPENCE S DEATH

Letter From Daniel Spence to His Brother in Toronto

A letter was received on Saturday by Ald. Spence, Toronto, from his brother, Dan M., written shortly before he was killed. It was a chatty letter, and spoke cheerfully of his early return home. It was dated at a little railway station in which he wrote, and stated that he and 29 others were encamped in huts beside the track to keep the railway communication open. He had passed through thirty engagements, and had not received a wound.

CONCERNING BAKING POWDERS

Report of the Inland Revenue Department—Large Quantities of Impure Powders Found—Sale of Alum Powders Forbidden

The Bulletin of the Inland Revenue Department (No. 68) contains analyses of 156 samples of baking powders bought of dealers and manufactures in the Dominion. The alarming statement is made that 56 per cent. of these are alum mixtures.

In view of this large proportion of alum powders, Chief Analyst Macfarlane recommends that legal proceedings be taken against parties selling them, on the ground that they are unhealthful articles of food.

Upon this recommendation the Commissioner of Inland Revenue has given public notice that persons selling alum powders will be prosecuted.

The analysis were made by the Assistant Analyst, Mr. A. McGill, who fully discusses the use of alum in baking powders, which, as is of the positive opinion, is dangerous to health.

Professor Ruttan, of McGill College, Montreal, who made a series of experiments of the digestibility of bread baked with alum powders, is quoted as follows. "The unanimous verdict of my experiments is that alum powders introduce into a form of food of universal use, agents which are determental to the functional activity of the digestive ferments. They must therefore be prejudicial to health, and the only course is to carefully avoid them."

Both consumers and grocers are interested in this matter. Housekeepers should be very careful in purchasing their baking powders. The alum powders can generally be distinguished by their low price. They cost but two or three cents a pound to make, and are sold from ten to thirty cents. A pure, cream of tartar powder, is quite expensive to make, and is sold from forty to fifty cents.

"A Good Paymaster Starts Not at Assurances."

There is one good paymaster who is around on time, gives full value, and never fails in his duty. It is your privilege to select him, and his name is pure, wholesome blood. This paymaster makes the rounds of the body, visits brain, stomach, kidneys, liver, heart and head alike. Hood's Sarsaparilla acts as a guarantor that this paymaster will do his duty.

If the blood is impure, it cannot do its duty, and you are the sufferer,—but you need not be. Hood's Sarsaparilla purifies, vitalizes and enriches the blood. *It never disappoints.*

IMPERIAL EDICT A FORGERY

China Never Ordered the Officials to be Punished

Pekin, Oct. 15.—It is now regarded as certain that the alleged Imperial edict ordering the punishment of high officials was forged, and was concocted with the object of preventing the advance of the allies on Pao Ting Fu. Both Prince Ching and Li Hung Chang deny its authenticity.

Count Von Waldersee is expected to arrive here October 17.

Small marauding bands have become troublesome in the vicinity of the summer palace. A punitive expedition is being organised to proceed against them.

There is renewed activity among the Boxers north of Pekin. The Imperial troops claim that they can suppress the Boxers, but the allies may send an expedition against the rebels.

United States Minister Conger and Generals Chaffee and Wilson returned Li Hung Chang's call this afternoon.

Prince Ching and Li Hung Chang are conferring for the purpose of fixing a date for the first meeting with the Ministers.

MORE ENERGY REQUIRED.

London, Oct. 17.—The continued stand-still in connection with Chinese affairs induces the newspaper correspondents and others to lecture statesmen on the need of putting more energy in their actions. The Standard's Tien Tsin correspondent warns the public that it is a grave mistake to suppose that a solution oft he matter is within reach. He confirms the view that is practically general here, that the promised punishment of the guilty officials was devised merely to gain time. He adds that a primary and imperative condition to satisfactory progress towards a settlement is the restoration of the Emperor's authority, and the only effective argument that can be used is to insist upon his production in Pekin within a certain time, failing which the tombs of the kings will be demolished and the Manchu dynasty suppressed. Once the Emperor was restored the punishment of the guilty would be easy, for Kwang Su would have the whole nation behind him.

The English correspondents at St. Petersburg declare that opinion there is becoming increasingly pessimistic regarding the probability of an early settlement of the Chinese troubles.

REBELLION SPREADING.

London, Oct. 17, 4 a.m.—Hong Kong despatches tell of the continued spread of the southern rebellion. The Hong Kong correspondetn of the Daily Express sends a report that the British torpedo boat destroyer Handy shelled two thousand rebels who were advancing on Sanchun, killing 40 and wounding hundreds.

London, October 17.—The Chinese Minister asserts that peace negotiations have actually begun at Pekin between the Chinese plenipotentiaries and the representatives of the powers in the Tsung Li Yamen building, which has been given over to the Chinese for that purpose.

HUICHOW RECAPTURED.

Washington, Oct. 16.—Secretary of State Hay has received a despatch from Consul McWade at Canton saying that the Imperial troops have recaptured Huichow, and that the rebels have dispersed to the eastward.

TO BEGIN IMMEDIATELY.

Washington, Oct. 17.—M. Thiebaut, Charge d'Affairs of the French Embassy, to-day presented a memorandum to the State Department from the French Government asking that peace negotiations with China begin immediately, in accordance with the favorable action of the powers on the recent French note.

CANDIDATE FOR EAST PETERBOROUGH

Mr. J. A. Sexsmith, Reeve of Belmont Nominated

Mr. J. A. Sexsmith, Reeve of Belmont, was nominated at the Conservative convention at Norwood yesterday.

This will come as a surprise to many of our readers, who were assured that Dr. Brennan would be the candidate. The Doctor was tendered the nomination, but events had occurred connected with his business in South Africa that required his immediate attention. He had received word by cable that called him to the Dark Continent at once, and he was therefore forced at the last moment to decline the nomination.

Mr. Sexsmith was afterwards nominated, and accepted the nomination.

Arrangements were made for putting up a stiff fight. Meetings will be held throughout the riding at once.

GREAT COAL STRIKE PRACTICALLY OVER

Result of the Conference To-day was to Grant all Demands

Philadelphia, Pa., Oct. 17.—The conference between the individual coal operators, and the representatives of the big coal carrying companies with a view to bring about the termination of the anthracite coal strike, was resumed this morning in the private office of President Harris, of the Reading Railway Company. The meeting was secret, and those taking part declined to discuss anything in connection with the strike.

It is said that an agreement on the part of the coal carrying companies to reduce the freight charges would clear the way considerably for an early settlement of the strike. A discussion of this rather than the resolutions of the mine workers is what is principally occupying the attention of the conference.

The conference adjourned at 12.30, and it was announced that a statement was being prepared and probably would be given out within an hour.

It is reported unofficially that the coal operators have agreed to accept the terms offered by the mine workers. None of the conferees would affirm or deny the report.

STRIKE IS OVER.

Philadelphia, Oct. 17.—The result of the conference of the coal operators here to-day was an agreement to grant practically all the demands of the strikers. It is believed the strike will end immediately.

ELECTIONS GETTING HOT.

Not Only in West Peterborough But Elsewhere.

ARE LIBERALS FREE TRADERS

The Local Tories Would Like to Know Mr. McClellan's Position.

He is Again Asked to Define His Policy in Regard to Duty on Agricultural Machinery—Latest Election News.

Mr. McClellan's meeting at Montgomery's School House, Smith, on Tuesday night, was fairly attended. Messrs. J. W. Garvin and E. B. Stone had a little tilt.

Mr. Garvin repeated the statement made by Mr. Burnham at the opening of the campaign, that Mr. Kendry was in favour of lessening the duties on agricultural implements now that the manufacturers of these, unlike the makers of woollens, were able to export and compete in the markets of the world. The Liberal candidate again declined the issue.

Mr. Stone scored Mr. Garvin on his remarks regarding the alleged delay of the Laurier Government in sending the contingent, and used his gift of tongue with great skill.

Altogether the campaign is showing signs of warmth. The attendance was good.

* * *

The shell thrown into the Liberal camp by Mr. Burnham when he said that he was authorized by Mr. Kendry to state that the latter was in favour of lessening the duties on agricultural implements, since the manufacturers were competing in the markets in the world, has created consternation amongst the Liberal speakers. Although Mr. Burnham was correctly reported, so he says, in the Examiner, the Liberal speakers will not take that report, but are doing some manufacturing more to their own taste by saying that Kendry was in favour of abolishing the duties on implements altogether. Mr. McClellan will need to meet the bluff and go one better.

Are senatorships sold to the highest bidders?

Attend your committee meetings, get to work and keep at it till the night of November 7th.

The last House gave the Government a majority of 30 over Conservatives and independents, or of 50 when the independents, who generally voted with them, recorded their votes.

* * *

There is no mincing words out west. The editor of The Regina Standard remarks editorially, "Nicholas Davin is a liar!" The member of Pile o' Bones is yet to be heard from, but for one who is conversant with five different languages it will not be hard to beat that blunt statement.

* * *

The Hon. Mr. Mulock is on the stump with a vengeance. His own newspaper announces the following tour. Wednesday, 17th—Afternoon at Coldwater, evening at Waubaushene. Tuesday, 18th—Little Britain. Friday, 19th—Afternoon Fenelon Falls, evening Kirkfield. Saturday, 20th— Peterborough. Monday, 22nd—London. Tuesday, 23rd—Stratford.

* * *

The women will hereafter speak of the Laurier meeting at Toronto, and refer to the admirable fit of Sir Wilfrid's Prince Albert, which, by the way, was double-breasted, contra to Albert Edward's fit. In this respect, at least, Sir Wilfrid is not too British for Sir Charles.

* * *

Hon. Mr. Sifton has at length made reply to the charges of maladministration in the Yukon. The reply is not very voluminous, as reported in the Toronto Globe. He says simply that Sir Hibbert Tupper is a liar.

* * *

And now East Peterborough will be a hot-bed of politics. Mr. Lang goes on the stump at once, and will cover as much of the riding as possible between this and polling day.

* * *

The frozen hand which the Tories say the Grits are getting in Ontario is closely connected with the cold shoulder.

* * *

Making election claims founded on hope is one method of showing confidence, but is laying wagers a better way?

* * *

The chasing of rainbows is taken as typical of election vote guesses because they are highly colored.

* * *

Mr. McClellan is getting round the country in a lively way, though this is very different from getting around the voters.

PEN PICTURES OF KITCHENER.

Lieut. Morrison Describes the Calm Strength of The Hero.

Ottawa, Oct. 17.—Lieut. Morrison, in a letter to the Citizen, gives the following pen picture of the Hero of Khartoum.

"This morning devine service was held, and General Roberts and Lord Kitchener were both there, so I had a good look at them for nearly an hour as they stood out in the middle of the hollow square. 'Bobs' is certainly a wonderful little man for his years. It was very close, and hot, but he stood by the whole service though any number of men dropped in the ranks. Kitchener gives one the impression of not feeling very much at home as a member of the staff. It may be a mistake impression and due only to his manner in public, for 'the terrible Sirdar' looks the part in a most satisfactory way. Big, grim and unapproachable-looking, he takes his place always with scrupulous exactitude on the right, rear of the field marshall, but well out to the front of the staff. I have never seen him chatting with anyone even when the staff is standing easy.' He has nothing of the heavy tragedy air, but you instinctively think of something powerful and calmly ferocious under restraint. To his strong, handsome face, the overshot forehead gives a lowering appearance and, underneath his deep brows, the eyes look dull and apathetic until they undeceive you with a momentary leonine flash. Though so tall he is rather heavily built and moves with a deliberateness that would be sluggish were it not for the impression of a tremendous physical strength capable of being gradually roused into irresistible activity. He is the sort of man who would lyddite sixteen thousand of the enemy, light a fresh cigar and lyddite sixteen thousand more without a thought of anything but military exigency and the welfare of the state. He is, in a word, the very antithesis of his small, alert, cheerfully benevolent-looking chief.

"The preacher's text included the words, 'Are there not enough graves in Egypt that ye have brought us into this land.' And, somehow, I could not keep my eyes off Kitchener."

MARRIED AT GALWAY

Miss Addie Barr and Rev. Mr. Gilchrist, United in Matrimony

At ten o'clock on Wednesday, October 3rd, the residence of Mr. Alex. Barr, Galway, was the scene of a very pretty and quiet wedding, when Miss Addie Barr became the bride of the Rev. Mr. Gilchrist, of Ottawa. The groom was assisted by Mr. James Barr, brother of the bride. Miss Annie Barr, cousin of the bride, acted as bridesmaid.

The ceremony was performed by the Rev. Mr. Creighton, of Bobcaygeon. The bride looked charming in a dress of white cashmere, trimmed with white silk, white silk chiffon and white silk ribbon. She wore and carried a bouquet of China asters. The bridesmaid looked sweet in a white satin dress trimmed with white silk lace; she also carried a bouquet.

After congratulations had been given and received, all took places at a well-laden table, and after the repast the bride and groom took their departure by the noon train for Ottawa, which is to be their future home.

The bride's travelling suit was of pearl gray cloth, tailor-made, with red silk waist, and a black silk velvet hat, buckles, velvet and pink satin ribbon, and looked lovely. The young couple carry with them the blessings and best wishes of a large number of friends.

Then They Stole a Couple of Horses and Rode for Life—Exciting Adventure of a Torontonian.

Toronto, Oct. 17.—Mr. J. A. Campbell, of the City Hall, has received an interesting letter from his brother Tom, a private in "A" Squadron, Canadian Mounted Rifles, who served two quarters in "C" School at the Front. The letter was written from Droog Grand, a station about six miles from Pretoria, and gives an account of the capture of the writer and Corporal Wigle, Kingsville, Ont., by the Boers, and their subsequent thrilling escape. It reads as follows.—

"The war does not seem to be any nearer a finish than it was three months ago. The Boers are hanging on pretty well. By the way, I was taken prisoner on the first of this month. Corporal Wigle and myself were sent to take charge of the station. There is not a house nearer than five miles but a patrol visits us to report twice a day, morning and evening. It was after the first visit of the patrol in the evening, Corporal Wigle went to the door, and, thinking he heard a train coming, stepped outside, and was challenged in Dutch by the Boers, and I, thinking that the patrol had came back, went out to see what was wrong, when to my surprise we were surrounded by eight Boers shoving the muzzels of their rifles almost in our faces. It was no use; the game was up. Five of them took us about a mile over a kopje, where there were some more Boers. The others went into the station, and took what was valuable, and cut the telephone wires. There was nothing for us to do but walk, as they had no extra horses. After walking for hours, and we were getting pretty tired, we came to a small laager. After our escort giving the answer to a challenge, we proceeded to a waggon, which we wer told to get on by a signal from the boss, as we took him to be. They did not intend to go any further till morning, as we supposed by their actions.

PLAYED THE FOX.

"After getting on the waggon two men were placed in charge of us, armed with rifles and revolvers. The only thought in our minds now was how to escape, so playing the fox game, we were very soon asleep, and the sentries, thinking it was all right, followed suit, as they by all appearances were as much in need of sleep as we pretended to be. So in about one hour we took a view of the surroundings as best as we could in the dark. Seeing that everything was clear we left the waggon as easily as possible. Creeping on our hands and knees, we crawled to where the horses were. Taking the first we came to, we led them away from the camp and by chance did not encounter the outpost; so we jumped on their backs and road off, not knowning which way we were going on account of the darkness, and the road we had travelled being very crooked. We had not gone very far when day broke and then rode for dear life, knowing that if they caught us it would be sure death. The horses we had were not capable of carrying us very far. Corporal Wigle's horse fell first, so we both rode the one, but he did not carry us far before he went down, and was kicking his last when we were hurrying away from him. The sun was well up now, so, taking it for a guide, we changed our course and made for Pretoria as near as we could guess, and we were not far out, for we came to the railway two miles from the city. We now felt ourselves safe and sat down to rest, which we needed very much, when we heard a train coming. When it came up we stopped it and rode into Pretoria and reported our case, but they were already informed, and had sent two troops of Mounted Infantry after them. We were told to return to our station. Corporal Wigle is a 4th troop man whose home is in Kingsville, Ont. He resigned his commission in the 1st Hussars and joined the C. M. R. at London. He is a very daring man and an agreeable companion."

TWO MEN ADRIFT IN A FISHING BOAT.

John Gillam and Son, of Oakville, Missing Since Yesterday.

Oakville, Oct. 17.—Three fishing boats, the Alice Roy, Mina and Valetna, left Bronte early yesterday to lift their nets, which were several miles out in the lake and about a mile east of here. Two of the boats completed their task, and at about 10 o'clock started for home, leaving the one in which were John Gillman, a man of about 53, and his son, Howard, about 25, to finish work. Nothing has since been seen or heard of either boat or men. It is feared the vessel was capsized by the heavy gale blowing at the time and both men are drowned. A searching party has been organized and commenced work this mroning.

EIGHT LIVES THE VICTIM OF FIREBUG

Tenement Horror in New York With Usual Awful Result

New York, Oct. 17.—Eight people were either burned to death or suffocated early to-day in a fire which partially destroyed the three-stroy frame double tenement at numbers 45 and 47 Hester street, one woman being burned in full view of the spectators, after having thrown her child into the arms of a policeman below.

When the firemen arrived the place was in flames, and it burned like a straw stack.

Charles Sass, a butcher, who lived on the second floor, heard the janitor yelling, and picking up his four-year-old child Josephine, ran out and drove the rickety old fire escape. He made frantic efforts to get back for his wife and other children, but the flames were already shooting from the windows and he was cut off. His wife ran to the window and threw out Isaac, the five-year-old boy. A policeman caught the lad and he was unhurt. Then, before the eyes of the horror-stricken onlookers, Mrs. Sass was cut off from escape by bursting flames and her life whipped out of her while the spectators groaned in their helplessness. Inside the remainder of her family suffered the same fate.

Henry Brenhaltz, who lived in the rear, got his family out. Mary Martin and Mary Murray lived in the attic. They escaped, but Mary Martin was severely burned. Mrs. Lewis in trying to get out reached the second floor fire escape. There her body was found by the firemen.

The fire marshal has been notified by the police to investigate, as the fire is believed to have been incendiary.

ROUMANIA DISLIKES THE ISRAELITES

Government Trying Hard to get Rid of the Jews

Washington, Oct. 17.—The Roumanian Government, through the Jewish Colonization Society, has made a contract with Brasil by which over 25,000 Roumanian Jews will immigrate to the latter country in the near future. This announcement is made by the Treasury Department, after receiving the report on the subject of the immigration of Roumanian Jews by Special Immigrant Inspector Robert Watchorn, who was sent to Roumania in July to investigate the subject.

Mr. Watchorn's report says that the Roumanian Jews who recently arrived in New York, 1,300 in number, without money or friends, were encouraged to leave their country by the Roumanian Government. These people were admitted to the United States under bond. There will be no more immigration of this class to the United States on account of the contract with Brasil and the danger of an undesirable influx is thus removed.

Mr. Watchorn's report is an interesting one, and tells of the resources of Roumania and the reasons for the great immigration of Jews from there. The Roumanian Government is doing all it can to rid the country of Jews, and by making a contract for shipping a large colony to Brasil it has practically accomplished its purpose. The laws of Roumania have made it extremely hard for Jews to make a living there. The Government is, however, anxious to negotiate a loan, and in July the Parliament of that country ousted the Minister of Finance and Foreign Affairs, who was unfriendly to Jews, and placed a man in charge of these offices who is disposed to provide leniently for this class of people. It was found by the Roumanian Government that it would be extremely difficult to obtain a Government loan while a practical persecution of Jews was being carried on by the Roumanian Government.

The United States Government is not threatened by the coming exodus of Roumanian Jews, according to Mr. Watchorn's report, and Assistant Secretary Taylor has highly commended Mr. Watchorn for his comprehensive investigation of the matter.

STARVING OUT BOERS

Botha's Brother Surrendered to the British

U. S. TO GET THE CREAM

Belief in England that Americans will Secure the Lion's Share of Works Resulting From the War

London, Oct. 17.—A despatch received here to-day from Lord Roberts, under date of Pretoria, Tuesday, October 16, reports a number of minor affairs, but says that the only incident of importance was the surrender of Theunis Botha, a brother of Commandant-General Botha, at Volksrust, October 13.

COLONEL GIROUARD ATTACKED.

London, Oct. 17.—The Daily Express publishes this morning a special article dealing with the contracts which America is likely to secure to rebuild railways in South Africa through the energy of Lieut.-Col. Girouard. It gives full details as to the way in which the ground was prepared beforehand for securing the contracts, and then says—

"A feeling of indignation is spreading in industrial circles that British manufacturers are to have no part in the business resulting from the war. It is said that if, as is believed, all the contracts go to America such a storm will break upon the War Office as will make the outcry over the Atbara bridge seem tame in comparison."

The article gives statements by Senator Depew and Mr. J. K. Cullen, confirming the reports that America is likely to secure the contracts.

The Daily Express is a yellow journal, and its attack upon Col. Girouard, who is a Canadian, must be taken with reserve until confirmed.

KRUGER'S JOURNEY POSTPONED.

Lorenzo Marquez, Oct. 17.—Mr. Kruger has postponed his departure for Europe until October 20. He will land at Marseilles.

ON LORD ROBERTS' BODYGUARD.

Galt, Ont., Oct. 17.—Mr. H. Hughes-Charles has just received an interesting letter from his brtoher, Pte. Allan Hughes-Charles, with the second Canadian contingent. Pte. Hughes-Charles states that he, together with one other member of the second contingent, and one member of the first contingent, had been appointed as a body guard of 41 to Lord Roberts, picked from the mounted colonial troops. This body guard will remain with Lord Roberts until after his arrival in England and the reception ceremonies there are over. He is an old Woodstock and Galt boy.

BULLER'S DEPARTURE.

Cape Town, Oct. 16.—Gen. Buller will sail hence for England on Oct. 24. Gen. Roberts will probably leave for home early in November.

STARVING OUT BOERS.

Cape Town, Oct. 16.—General Settle is taking energetic measures to finish the war in the Bloemhof district, which he has occupied without opposition, the Boers fleeing on his approach. The British have collected all the cattle in the district, for which receipts have been given. Had this been done earlier it would have greatly helped to starve the Boers out.

BULLER THANKS COLONIALS.

Pietermaritzburg, Natal, Oct. 16.—Gen. Sir Redvers Buller, who is returning to England, arrived here this morning, and is now the guest of the Governor. A reception in his honor was given this afternoon, which was attended by the colonial Ministers, the municipal officers, and 2,000 citizens. In reply to an address, Gen. Buller thanked the Colonials for their aid, and for the splendid services of the Natal volunteers. The British success, he said, was largely due to the sacrifices of the Natalians. On his way here Gen. Buller was given enthusiastic ovations at Newcastle and Ladysmith.

MAY VISIT AMERICA.

Brussels, Oct. 16.—The Transvaal agency thinks that Mr. Kruger will make a tour of the European capitals, and that he will visit President McKinley.

LETTER FROM SOUTH AFRICA

Tom Miller Writes His Mother that he has Been Fighting for Seven Days

Mrs. F. W. Miller has received the following interesting letter from her son Thomas, at present in South Africa—

Waterval Onder,
Sept. 9, 1900.

Dear Mother,—You must excuse me for not writing for some time, but we have been on the march and have been fighting again for seven days around Belfast. We were very lucky and had only one killed and ten wounded, one of them being a Hamilton man by the name of Pearsons. Our division is all broken up now, so our fighting is over and we are only waiting for peace to be proclaimed, and then we will be sent home, which I hope will not be long now. Well, dear mother, I have no news to tell you this time, so hoping to hear from you soon, I remain,

Your loving son,
TOM.

WEATHER NOTES.

Probs.—To-day, moderate to fresh south-westerly to westerly winds; fine and milder.

A heavy gale has prevailed throughout Eastern Canada during the night but it will now soon subside. The first heavy frosts of the season have occurred in Ontario and Quebec. The outlook is for fine weather to-day.

Morning Times

PETERBOROUGH, OCTOBER 18 1900.

MR. H. H. COOK'S MANIFESTO.

The political campaign has already brought to the surface, a large crop of Mugwumps. Government candidates are being opposed by Liberals, and Opposition candidates by Conservatives. Everywhere in the Anglo-Saxon world the fetters of partizanship seem to fit loosely on the wrists of many thoughtful citizens.

The latest recruit for the ranks of the Canadian Mugwumps is H. H. Cook, a millionaire lumberman of Toronto, who has hitherto been a Liberal of Liberals, has twice sat in parliament as a Liberal M.P., and has contributed liberally to Liberal campaign funds. In a manifesto of some six columns or so of Mail and Empire type Mr. Cook deliberately kicks over the party bucket he has been carrying all these years, and announces himself as an opponent of the government for the reason that the government is Liberal only in name, has been false to the traditions of the Liberal Party and has deliberately violated most of the pledges, the giving of which presumably induced the Canadian electorate to place them in office.

Mr. Cook charges that the government has grossly violated the following pledges—

To maintain the independence of parliament.

To make parliament the judge in all cases where ministers are accused of misconduct.

To reduce the expenditure.

To reduce the debt.

To reduce the taxes.

To abolish protection.

To get a preference for Canadian products in the British market.

To prohibit the liquor traffic if so directed by the plebiscite.

To diminish the Cabinet.

To lower the outlay on superannuation account.

To abolish the department of Trade and Commerce.

To abolish the Senate.

It is a pretty lengthy and formidable list, it must be confessed, and Mr. Cook does not shirk his job. Having set out to make the government look like thirty cents, he attends all the necessary details with comprehensive thoroughness, and he does not hesitate to advise the electors to vote the Grits out even though by so doing they vote the Tories in.

"The record of our party," he concludes, "while it has been in power under its present leaders is one long, shameful story of promises unfulfilled and pledges broken; of reckless extravagance; of jobbery and corruption; and of utterly disgraceful betrayal of every principle for which as a party we have stood. For the purpose of securing themselves in office the men who have been entrusted with positions of leadership have brought disgrace upon our party and dishonor upon the name of Liberalism."

"In no other way," he continues, and by no means short of this, can we hope to regain or retain as a party the respect and confidence of a patriotic and decency-loving public. It may be said that this can only be accomplished at the expense of a return to power of our political opponents, a party opposed to the political principles in which we believe. I do not dispute this, nor do I shrink from this alternative. Neither do I believe that any true man or any man who has an abiding faith in the truth of Liberal principles, or in the ultimate triumph of truth, will shrink from it. We are bound to assume that the Conservative party was permeated and guided by a genuine belief in truth of its political ideals and and in the correctness of its principles. At any rate, we cannot truthfully charge that party or its leaders with having betrayed or abandoned its principles to get or retain office. This much we must say in fairness, even if we cannot see eye to eye with them. At the most, then the defeat of the present government would only mean loss of office to men whose holding of it is a disgrace and a scandal: it would involve no defeat of the principles of Liberalism; no rejection of those principles by the men whose votes would bring about the government's overthrow. On the other hand, for us to overlook and condone the treachery and desertion of principle of which our leaders have been guilty would not only be a deliberate decision on our part to make ourselves and our party partakers of their crimes against political decency, but it would mean putting a premium upon falsehood, promise-breaking, and treachery to principle, and a recognition of these as legitimate weapons of political warfare; a prospect from which every decency-loving Canadian must recoil with horror.

"The overthrow and punishment of the leaders who have betrayed and disgraced us is the important present duty to which we must put our hands and do with all our might.

"That done, we may again look the world in the face, for we shall have vindicated our party and proved our right to claim ourselves the highest earthly title—honest men."

Mr. Cook's manifesto receives scant courtesy from The Globe, which dismisses it with a paragraph, and intimates that Mr. Cook is "sore" because he has not been appointed to an office for which he hankered. This, it may be said, is not an answer to Mr. Cook's charges. Mr. Cook may be "sore" and yet speak the truth. The government will find it convenient before long to pay a little more heed to the manifesto and make a more elaborate defence. In the meantime Mr. Cook has supplied a superb lot of ammunition for the use of the opponents of the government.

If the reports that come from Galveston are correct the flood missed some people who could very conveniently be spared off the earth. The statement is made by a citizen of Galveston that supplies contributed by the people of other cities and states are sold by the relief committee instead of being distributed among the homeless and penniless, and that the money received for them disappears. The poverbial thief who robs the blind man's tin cup is a gentleman compared with the people who are guilty of robbing the widows and orphans left at their mercy by the Galveston flood.

ATTACK of ROYAL CANADIANS at Paardeberg

The present is a time when war pictures are in greater demand than ever. The conduct of the British soldiers on the battlefield has won the plaudits of admiring nations. We have at great expense published four large, beautiful pictures, size 22x28, on heavy, superfine calendered paper. A picture that will commend itself and send a thrill to the heart of every true Canadian is the one called Attack of Royal Canadians at Paardeberg, there are literally hundreds of figures on this picture, the mountains or kopjes stretching out into the distance are swarming with men, while here and there a prostrate figure speaks only too well of the Boer rifleman. It was on this battlefield the gallant Major Arnold met death unflinchingly. Indeed, it is only too true that many of those gallant hearts that beat so high when the cheering thousands bade them Godspeed as they sailed from Canada's shores now lie still forever in lonely graves on the other side of the world under African skies. To every Canadian heart, to every Canadian home, the deeds of their brave soldier boys speak with an irresistible thrill of patriotism and pride. Gordon Highlanders at the Battle of Belmont, Charging the Boer Guns at Elandslaagte and the Charge of Gen. French's Cavalry on the Retreating Gen. Cronje's Army. These are all stirring pictures and cannot fail to commend themselves to anyone who will examine them. They are MAD HOT SELLERS! Agents coin money. Big profits Enormous success. One agent sold 60 in one day. Sample and terms 25 cts (none free); four for 50 cts; $1.75 per dozen; 25 for $3.25; 50 for $6.00; 100 for $11.00 Write to day for a dozen and make money. Address to the Electors

To the Free and Independent Electors of West Peterborough—

Gentlemen.—Having accepted the unanimous nomination of the Liberals of this Riding, as a candidate for its representation in the House of Commons I hereby respectfully solicit your support in securing my return at the coming general elections.

The grounds upon which I base my appeal are not so much nor chiefly by any means, my personal fitness for the position of your representation though as a citizen of Peterborough and interested in its progress in common with that of the country, I can and do promise, if elected, an intelligent support of such a public policy and such measures as will best conduce to the promotion of all the interests of Canada, the developement of her great resources and the general betterment of the civil moral and material condition of the public; and my best abilities and most assiduous attention shall be devoted to the faithful discharge of my representative duties.

The strongest ground, however, of my appeal consists in the fact that I am a firm supporter of the Liberal Government led by Sir Wilfred Laurier, which is entitled to the renewed confidence of the people, both on the ground of its policy and the splendid record established by the application of that policy. The Liberal party appealed to the country in 1896 upon a clearly defined policy and the promised results followed.

The Liberal party promised a reduction of a high tariff that hampered our industrial and agricultural interests and was hostile to the Mother Country.

The tariff was materially reduced and otherwise improved and in such a way as to help instead of hinder the manufacturer and farmer, with the consequence that never before in the history of the country have our industries or our farmers enjoyed such great prosperity, our mechanics and working men such constant employment and high wages, nor our commercial and all other interests so flourished.

Our domestic and foreign trade have also greatly increased. The loyal gift of a trade preference, represented by a tariff reduction on British goods of 33 1-3 per cent., and our despatch of the Canadian Contingent, have resulted in a kindlier feeling towards Canada and greatly increased trade with the Mother Country.

With a largely reduced rate of tariff, our revenue has greatly expanded so that the Government was warranted in practising true economy (reducing our postal rate one third, giving Imperial penny postage,) and premitting of the completion of great public works, deepening our canals, so long trifled with, pushing the work on the Trent Valley Canal which is now urged and will be urged to completion by the Liberal Government, and the application of a vigorous policy of general development and improvement of our transportation facilities, resulting and to result in easier access to the British market and better prices for all our products.

The farming interests of the country are deserving of the best services of a Government, such as the present has given. The immense impetus given the produce trade between Canada and Great Britain, through the preferential tariff, has been greatly helped by the action of the Government in providing an excellent and adequate system of cold storage, by which Canadian products can be landed in Great Britain in first-class condition, guaranteeing the highest prices. The system is of the most modern character, sufficient for all the present needs of the trade, and it will be improved and enlarged as experience suggests, and increas of the produce trade demands, and I shall, if elected, feel it my duty to support any policy that will improve our trade with the Mother Country, and strengthens the bond of British connection, of which we are so proud.

In an industrial centre like Peterborough the claims of the working classes are especially deserving of consideration. No country is well governed that does not look after the interests of all classes of the community. The Conservative Government has been, and the Conservative party declares itself to be, extremely solicitous of the interests of the capitalist classes—the manufacturers—but it left the working classes to largely shift for themselves. A Liberal Government came into power, and the attitude towards Labour was changed, and the rights of Labour to its rights recognized, and in a practical way. A Department of Labour has been established and a Minister of Labour placed over it. A Labour Gazette has been established in the interests of workingmen, published monthly; conditions have been inserted in all Government contracts compelling contractors to pay the highest current wages, which the Government guarantees the payment of; the sweating system has been abolished on Government enforced by a special officer, and in many other ways the Government has shown by deeds that the rights of the workingmen, as well as the capitalist, shall be protected. I heartily support the Government in what it has done, and shall support them in extending the benefits which they have already conferred, and which it is their policy to continue, as need arises.

The splendid achievements of Canadian soldiers in South Africa, make them worthy of the gratitude of the country. We have the best militia material in the world, and if we keep up a military establishment, let it be worthy of Canadians. Situated as Peterborough is, on the line of the Grand Trunk and Canadian Pacific Railways, and on the line of the Trent Valley Canal, begun as a military work, and now under course of completion, no other point in this Province is so well adapted for a military centre. I shall, therefore, feel it my duty to press upon the Government the advisability of constructing in Peterborough new armories and connected buildings for military stores for Ontario, and I feel that this is practicable of attainment at the hands of a Government which has shown its interest in our volunteers by placing the Militia Department, so greatly neglected by a previous administration, upon an effective basis, and will, therefore, more naturally be well disposed towards the improvement involved in making Peterborough a centre for military stores.

A town of the industrial and commercial importance of Peterborough, has certainly strong claims upon the good offices and of a Government. For the past four years the town has been represented, when it was represented in the House, by a member opposed to the Government. There is no doubt in the minds of unprejudiced observers, that the present Liberal Government will be strongly sustained in the country at the coming elections, and the question arises whether West Peterborough will have its interests better served by a member sitting in opposition and hostile to the Government and its policy, or by a member pledged to give the Government a fair support in the application of its policy. If elected I pledge myself to give my best ability and exertions to the promotion of the general good of the country, and to look especially after the interests of West Peterborough.

I cannot obviously here, enter into details of how in other ways the Liberal Government has implemented its promises and applied its policy, but I shall have an opportunity during the campaign of more fully dealing with these and other public questions.

As a supporter of such a Government I can appeal with confidence for the support of the Electors of West Peterborough, knowing that by helping to give, as you will do, through my election, a renewal of the trust the Liberal Government has discharged with such evident and gratifying results, they will be conferring a great and lasting good upon this riding, the country at large, and securing a continuation of the great blessings of prosperity and good government we now enjoy.

Again soliciting your support, your votes, and influence in this contest,

I have the honor to be,
gentlemen,
Your obedient servant,

Many who sat intently studying that exquisite face, so like none other, trembled for their own laurels.

A class of the dullest pupils were assigned to Izetta, young girls who were apt enough at penning billets-doux, but who could not, or would not, interest themselves in their music, simply to annoy their young teacher.

Fretful parents complained of the want of attention shown by their daughter. Madam Root was alarmed

"This state of affairs will never do Miss Rienzi," she said.

Izetta was in despair.

"Whose fault was it if they would not learn," she cried out to herself in the solitude of her own room.

The class of "the pretty ten," as Izetta's was called, enjoyed their little ruse immensely, they even jeered in her face, predicting a turbulent future for her.

Among the visitors at the college on reception days was a wealthy young lieutenant, drawn thither by the galaxy of beauty, he often laughingly declared.

There had been a time when Miss Glendyke's charms had lingered in his memory, but like many another careless young fellow he soon tired of her, and what was to Miss Glendyke the one sweet dream of her life, was to the young officer a few easily spoken, pleasant words, and quite so easily forgotten.

Vernor Key never thought seriously of any woman, until the sweetest, saddest face he had ever gazed upon burst upon his startled vision.

He meant to win her for his wife if he could. He had come across this pearl in quite an unexpected fashion.

It was a chilly morning in the early winter, Vernor Key strolled leisurely up the marble steps of the college.

It was rather an early hour for visitors, still, as he was quite a favorite, he knew admittance would not be denied him.

The long halls were quite deserted; from where he stood, he had a good view, unobserved, of the music-room beyond.

A young girl sat at the piano, her head drooped over the keys; while beside the instrument, her arms folded across her chest, stood Miss Glendyke.

There was no mistaking the look of fierce hatred she bent upon the girl before her. Vernor Key was completely terrified at the change apparent in her hitherto smiling countenance.

"How abhorrent is the face of an angry woman," he muttered, feeling that he should turn away, but some impulse chained him to the spot.

"You will play the last bar over again, Miss Rienzi."

The white fingers rippled over the ivories, and the sweet, sad strains touched a hidden chord in Vernor Key's heart; the saddest and sweetest that ever fell on a human heart.

"Ha! I thought as much," continued Miss Glendyke, wrathfully; "no wonder that passage sounded unfamiliar to me; how dared you insert those variations; answer me, girl!"

The slight figure swayed to and fro.

Vernor could not catch the reply.

"I'm in time to frustrate a grand scheme of yours, Miss Rienzi. No doubt you would like to get your name up for a composer, but you shall never build up your triumphs from this establishment," she said, in her coarse, deep, peculiar voice.

In another moment she had snatched the music from Izetta's hand, tearing it spitefully into a thousand shreds.

For one brief instant Izetta's face was turned partially toward him, and the voice, the sweetest Vernor Key had ever heard, faltered, brokenly.

"I am very sorry indeed if I have displeased you, Miss Glendyke; believe me, I never once thought of being known as a composer."

A low, discordant laugh was Miss Glendyke's only response.

"I assure you I was only practicing it for my own amusement," continued Izetta.

"Amusement, indeed! do not trouble yourself with unnecessary explanations. I can see for myself," sneered Miss Glendyke.

"I hope you will forgive me," sighed Izetta.

A look, freighted with such abominable scorn and contempt, Vernor Key never forgot it, crossed Miss Glendyke's face.

"We will waive all that," she said; "by rights I should report this affair instantly to Madam Root. A severe reprimand in the presence of the whole school is what you richly deserve. Leave the room at once, Miss Rienzi, or I may be tempted to change my mind."

The next moment a quiet little figure glided past the spot where Vernor Key sat, quite shaded by the heavy curtains; he knew he was unobserved, for the large, dark, lustrous eyes were suffused with blinding tears that rolled off the long, curly lashes in pearly drops.

That was the first time Vernor Key ever remembered an imprecation to have wilfully passed his lips; as he turned savagely on his heel, hurriedly quitting the building, murmuring to himself:

"Woman's inhumanity to woman is certainly heart-rending."

Miss Rienzi—Miss Rienzi, the name had a sweet musical sound to his ears; he was wondering when he should see her again.

The beautiful, foreign face haunted him like a dream.

CHAPTER XVII.

A Startling Event.

Lieutenant Key haunted the college like a shadow.

A bright glow of hope had dawned for a moment in Miss Glendyke's bosom, only to be extinguished as she heard him remark to Madam Root, quite carelessly, "that he should like to be presented to the young lady at the window," indicating Izetta, one reception day.

"Certainly," said Madam Root, amiably, though at heart greatly annoyed; they had scarcely turned round, ere the object of their conversation was silently and mysteriously spirited from the room.

Miss Glendyke took great care Izetta should never again enter the reception room during visitors' hours.

How little Miss Glendyke knew that no face save one had power to charm the sweet young girl whose absorbing thought was bound up in the husband whom she believed had so cruelly abandoned her.

When a [illegible] voice fell upon her ear she gazed [illegible] at the speaker, to see if it [illegible] she [illegible]

HARVEY MAN DEAD.

One of the Most Wonderful Men of the County Passes Away.

Allentown, October, 15.—Samuel Fries, who died a few days ago at Steinsburg, in the upper end of Lehigh county, was known as the "hairy man." He was a blacksmith of powerful build, and nearly eighty years of age.

He was blessed with a growth of hair which gave him more than local fame. He had probably the most remarkable beard in all this country. It was upwards of six feet long and when spread out extended beyond his feet. But few people not acquainted with him would have supposed from his appearance that he was the possessor of a phenomenal beard, because he generally wore it tucked up under his shirt front neatly plaited. The man's face was almost wholly covered by hair, and that his head fell t o his shoulders. On rare occasions he showed his beard to friends or strangers, who often came a distance to see it. He was exceedingly proud of it, and often said it was a great protection to him in cold weather.

The beard was the outcome of a vow. In 1860, when Abraham Lincoln was elected President, he was terribly disappointed, and registered a vow that he would not shave again until after the election of a Democratic President. He had to wait twenty-four years, until 1884, when Cleveland was elected, but by this time he had raised a remarkable beard, of which he was so proud that no money would have induced him to part with it. He was often taunted by his old-time Democratic friends about this failure to keep his vow, but taunts and money could not alter his determination to keep his beard.

THE COLORADO COPPER MINING COMPANY

LOCATION OF OUR MINES

THE COLORADO COPPER MINING COMPANY is fortunate in being the possessor of five splendid showing properties in the great Salida copper belt, the principal copper producing region of this portion of the rockies. All of our claims have been more or less developed and it is our purpose to put the same on a paying basis at once.

Our Company owns, clear of incumbrances the following claims,—The Sedalia Extension, the Sedalia Extension No. 2, which property adjoins the great Sedalia mine, which has been a big producer for upwards of seventeen years; the Copper King of Colorado, which immediately adjoins the above; the Copper Queen of Salida, a very promising property, only a few steps from the depot in Salida. This claim occupies an imposing position on a mountain just north of the city; and last, but by no means least, the Sunshine, located two miles east of Salida at Cleora station, on the main Trunk line of the great Denver and Rio Grande Railroad, also on the Arkansas river, which in length is one of America's greatest streams.

To Our Subscribers.

We again ask our subscribers to notify us of change of residence. People move from one house to another and fail to notify us to change the address of their paper. This often causes confusion and loss. We are also thankful to receive notice of cases when irregularity of delivery exists.

The Electric Danger.

Sir,—I see by The Times that there is an investigation going on in connection with the tragic death of Sam Lung, the Chinaman. The idea, as I take it, is to discover the cause of death, few believing that the ordinary current for supplying incandescent light would be sufficient for the purpose.

It is possible that the wire, which killed Lung may have come in contact with a power wire. If this should be so, then it is time to have the whole business of wires investigated. It is only a few years ago that a horse was killed by contact with a live wire, that was dangling on the street. It might just as easily have been a human being. Our town is a network of wires, and the danger of turning the enormous force passing over the power wires with the telephone or electric light circuits is, to my mind, very great.

Therefore, Mr. Editor, I hope the inquest will disclose the true cause of the Chinaman's death, and if is found to be due to the electric light line "lapping" the power wires, that a strong verdict be given. Thanking yours, etc.,

F. B. MILLER.

A DETERMINED WOMAN

Finally Found a Food that Cured Her.

"When I first read of the remarkable effects of Grape-Nuts food, I determined to secure some," says Mrs. C. W. Aldridge, of Salisbury, Mo. "At that time there was none kept in this town, but my husband ordered some from a Chicago traveler.

"I had been greatly afflicted with sudden attacks of cramps, nausea, and vomiting. Tried all sorts of remedies and physicians, but obtained only temporary relief. As soon as I began to use the new food the cramps disappeared and have never reappeared.

"My old attacks of sick stomach were a little slower to yield, but by continuing the food, that trouble has disappeared entirely. I am to-day perfectly well, can eat anything and everything I wish, without paying the penalty that I used to. We could not and would not, keep house without Grape-Nuts.

"My husband was so delighted with the benefits I received that he has been recommending Grape-Nuts to his customers and has built up a very large trade in the food. He sells them by the case to most of the leading physicians of the county, who prescribe Grape-Nuts very generally. There is some satisfaction in using a really scientifically prepared food."

IF RUPTURED

Call and Examine the Famous Dr. Rice Method of Cure

Dr. W. S. Rice of Toronto, the well known authority who has cured thousands of ruptured people has sent his personal representative, Mr. J. B. Mc Donald, to our town to explain and demonstrate the remarkable Rice Method that cures without pain, danger, operation or an hour's loss of time from the day's work. Mr. Mc Donald will be at the Oriental Hotel in Peterborough Thursday, Friday and Saturday, Oct. 18, 19 and 20 and in Lindsay at the Benson House Monday, Tuesday and Wednesday, Oct. 22, 23 and 24th. His office hours will be from 9 A. M. to 6 P. M. and 7 to 8 P. M.. Call at the hotel and ask for Mr. J. B. Mc Donald. He will gladly confer with you free of any cost and fully explain and show the perfect Rice Method of curing rupture. Remember the dates of Mr. Mc Donald's visit and don't fail to call. It may be the means of saving your life and will at least prove to you that rupture can be cured. In case you cannot call write to Dr. W. S. Rice, 18 Victoria St. Toronto, Ont. and and he will gladly mail you full description of this famous method.

Horses Purchased

Messrs. W. J. Pearson & Son were in town yesterday and purchased a car of first-class horses for the Montreal market. The horses will be shipped east to-morrow.

Thanksgiving Services.

A union Thanksgiving service will be held in St Paul's Presbyterian Church on Thursday, at 11, a.m. The collection which will be taken up, will be divided equally between the Protestant Home and the Children's Aid Society.

Our Chances Good

Toronto Telegram.—Chris Graham, the well known Peterborough hockey, lacrosse and footballer, says that when they meet London in the finals Peterborough will have a tough road to hoe, but nevertheless will win the game. Peterborough looks to have a rosy chance for the pennant, and will no doubt win it, as they did last year.

Duck Shooting

Mr. Roy returned on Tuesday from Rice Lake, where a shooting party consisting of Col. J. Z. Rogers, Harry Neil and half a dozen others were enjoying themselves at Mr. Neil's cottage. They got 17 ducks on Monday morning, seven of the birds having been shot by Mr. Neil. Mr. Roy reports plenty of ducks, but they are very wild and difficult to shoot.

Union Service at St Paul's This A. M.

At eleven o'clock this morning a Union Thanksgiving Service will be held in St. Paul's church. Addresses will be delivered by Rev. O.C. Elliott, of Park street Baptist church, and Rev. Mr. Thompson, of Mark street church, Ashburnham. The collection will go towards the Children's Aid Society and Protestant Home funds.

The Action Against the Town

The action of Mrs. W. K. Sherwood against the town for $2,000 damages for injuries sustained by falling on the sidewalk near the Y.M.C.A. building on the second of February last, came up yesterday at the Court of Assize. Several witnesses were examined. The case will be continued to-day. Messrs. Dennistoun, Peck & Stevenson, for plaintiff; Messrs. Watson and E. H. Edwards, for defendants.

Barbers' Early Closing

Kingston News—"Encouraged by the success of the grocers' petition the barbers are on the war path, and will present a petition to the council asking that a by-law be passed providing that all shops be closed at eight o'clock each evening except Saturdays and the evenings preceding holidays, and that on holidays all shops close at one o'clock." Peterborough barbers should take pattern and do likewise.

Harvest Pic-nic

The Harvest Picnic which will take place on Thursday to Jubilee Point, promises to be a complete success. Opportunity will be given for political orators to air their views on the questions of the day. The following gentlemen have been invited to attend and deliver addresses—Hon. J. R. Stratton, James Kendry, M.P., J. H McClellan, John Lang, M.P., T. D Craig, M.P., Dr. Brennan, Col. Sam Hughes, George Guillet, M.P., A. P. Poussette, Q.C. The steamer will leave the wharf at 8 o'clock, a.m.

No Birds in Last Year's Nest.

"No establishment can long continue to do business on the strength of former prominence," says a persistent newspaper advertiser. "In every growing community the population is constantly changing, old citizens dying or retiring to prevent life, while new men are coming to the front. The public has a short memory. With new establishments as well as old showing daily enterprise, people cannot keep in mind business houses that have ceased to advertise." Everybody reads The Times.

Take One of Dr. Agnew's Liver Pills after dinner. It will promote digestion and overcome any evil effects of too hearty eating. Safe, prompt, active, painless and pleasant. This effective little pill is supplanting all the old school nauseous purgatives. 40 doses, 10 cents.—23

Fortunes Made From Patents.

One often hears of the enormous profits made on patents. Many of them are known not to be fairy tales; some are well founded. Nearly everybody can point to several cases of the sort in his personal experience. Tale of enormous wealth are usually regarded by readers as myths, but a western manufacturer has collected a number of specific instances which indicate that they are all realities. He says that a slight improvement in Straw-cutters yielded over $30,000 in eight months. A lamp chimney spring yielded over $60,000 a year for several years. A printing ink invention sold for $60,000. A machine for cleaning grain gave $60,000 in net profits in fifteen months. N. W. Spaulding, of San Francisco is credited with receiving $100,000 for his invention of a saw-tooth. The lead pencil rubber tip brought to the inventor over $100,000 profit. "Pigs in clover" netted $100,000. The Greely fan brought the inventor $5,000 a week. The inventor for the little cylinder savings bank get about $2,000 a day for several months. "A Store by Itself"

That expresses the modern, up-to-date appearance of China Hall.

We have made it unique, not only to gain the brilliant effect, but to gain the approval of customers. Our goods could be sold anywhere, but they will be better sold amidst handsome surroundings. A fine store draws trade. It's one form—even if it be costly—of good advertising.

And the stock rivals the store. Just as handsome, brilliant and bright. The solid things of use are here as well as the nice matters of luxury. And better, our wisdom in selection places at your service many articles of solid use in graceful forms and pretty finishes.

A look will repay. We'll be pleased to have you call.

STRIKE IS NOT ENDED YET BY ANY MEANS

Strikers Made an Effort to Close up a Colliery at Oakdale Yesterday

Hazleton, Pa., Oct. 19.—About 300 strikers made a descent on the No. 4 Jeddo mine of G. B. Markle & Company at Oakdale early this morning and made an effort to close the colliery at that place. No one was seriously hurt, but one man going to work was set upon by strikers and beaten, and others were menaced. The strikers claim that they shut the colliery up, but the information given out at the Markle office was to the effect that the mine was still working.

GETTING READY FOR WORK.

Shamokin, Pa., Oct. 19.—Preparations are being made by the Philadelphia & Reading Coal and Iron Company, the Mineral Railroad and Mining Company, and the Union Coal Company for an early resumption of work at their respective collieries.

Among the strikers some disappointment that no word has come from President Mitchell in reference to a settlement of the strike, but there appears to be no break in their ranks.

A HITCH IN THE SETTLEMENT.

Hazleton, Pa., Oct. 19.—The settlement of the big strike of anthracite mine workers is undoubtedly blocked by the question of the price miners will be asked to pay for powder.

The miners apparently want to go back to work for the ten per cent. advance, and then arbitrate the question whether they are to get their powder cheaper as an additional concession. It is not believed that the mine owners, who want the reduction in the price of powder to figure in the wage increase, will grant any such demand, and their refusal may mean the indefinite prolongation of the strike.

Since the Philadelphia conference of railroad officials and operators, President Mitchell has become very reticent.

The spirit of jubilation that prevailed in this region on Wednesday has given way to a feeling of disappointment, which is apparent everywhere.

THE CEMENT WORKS.

The Minister of Railways to Lay the Corner Stone.

The creation of the large Cement Works at Lakefield, is not only an event in the history of the village, but it also has an important bearing on the entire district. It is the first fruits of the Trent Valley Canal, for had it not been for the waterway, there would have been no Cement Works.

The Lakefield Council has extended an invitation to the Hon. Mr. Blair to lay the corner stone of the works. Our own Board of Trade has signified its intention of joining in the event, and helping to entertain the Minister, should he accept, as he no doubt will. The Council should also lend its countenance to the affect, as it will be a good advertisement of our great water power and shipping facilities.

We hope the day is not far off when the banks of the river between Peterborough and Lakefield, will be lined with factories the entire distance.

The following resolution was passed by the Lakefield Council.

Moved by Coun. Strickland, seconded by Coun. Fraser,—That this Council deem the laying of the corner stone of the Lakefield Portland Cement Co's Works an event in the history of the village, worthy of commemoration in some suitable manner, viz; by a civic holiday, and by the invitation of Hon. A. G. Blair, Minister of Railways and Canals, to attend on such date, as the guest of the village and to lay such stone, the inauguration of the works, with all that it means to this village the surrounding country, being the first direct fruit of the development of the magnificent waterway between Georgian Bay and Lake Ontario, known as Trent Valley Canal, now so near completion. And that the Peterborough Board of Trade, be asked to co-operate with this Council in their request.

KRUGER MAY VISIT AMERICA.

Report in Brussels That Boer Ex-President Plans a Long Tour.

London, Oct. 20.—A dispatch to the Times from Brussels, Oct. 18, says. "The Transvaal agency has received a dispatch from Lourenzo Marquez announcing the imminent departure of Kruger on board the Gelderland. The agency thinks the ex-President will undertake a circular tour of European capitals and may pay a visit to President McKinley in Washington.

BOUNDARY DISPUTE SETTLED.

Official Surveyor Says Disputants Were Each Partly Right.

Vancouver, B. C., Oct. 19.—(Special)—Arthur Bailey, who has just completed the official delimination of the boundary line in Mount Baker district, arrived here today. He says that both Americans and Canadians have been partly right and partly wrong in their contentions as to the whereabouts of the forty-ninth parallel, but the Americans have the best of argument, for all the mining properties of any consequence are south of the forty-ninth parallel, although a mile of territory heretofore supposed to be American territory is without doubt Canadian soil. This ground claimed for Canada is without mineral and is an unproductive, rocky stretch of country.

DROWNED IN RICE LAKE

A Well Known Citizen of Keene Drowned While Shooting

A drowning accident occurred at Rice Lake on Thursday afternoon by which Mr. W. Lumsden, a respected resident of Keene, lost his life.

It appears that he had gone out on Rice Lake early in the afternoon, to shoot, and was in the canoe alone. In some way the canoe was upset, and before assistance could be rendered he was drowned.

Search was at once made for the body, which was recovered yesterday morning, and taken to his home.

The deceased was 65 years of age and unmarried.

NEW SEA SERPENT IN JAPAN.

One Twenty-Three Feet Long Was Caught at a Depth of 250 Fathoms

Vancouver, B. C., Oct. 18.—A new sea serpent has been discovered on the coast of Japan 100 miles from Tokio. It is classed by scientists as a coelenterate and one of the most gigantic ever seen. It was caught by a long fishing line at a depth of 250 fathoms. It was a magnificent specimen. A large disk surmounted a long stalk, which evidently fixed the animal on the sea bottom. A circle of numerous graceful tentacles hung down from the margin of the disk, while on its surface arose an oval tube surrounded at the base by bushy appendages and having a second circle of slender tentacles around the upper edge. The total height of the animal was 700 millimetres (23 feet) and the prevailing color transparent scarlet. The specimen was entirely fresh, but not living.

MINE RATS TRIED TO EAT HIM

The Awful Experience of Frank Grierson Who Was Lost in a Mine

Carbondale, Oct. 18.—Lost in a mine for 36 hours and driven hither and thither all the while by famished rats, which endeavored to eat him alive, was the terrible experience of young Frank Grierson. He has not yet recovered from his awful adventure. He tells the story as follows—

"I went into the Merryfield Mine on Friday morning, just to look around, but soon I lost my way and could not get out. As I walked about I became more and more hungry until I thought I should die. Then the rats began to follow me. It was dark in there, but I could see the rats. They came out of all sorts of places. Several times I was forced to climb upon the sides of gangways and I clung there, and prayed for help.

"It seemed as though I was a month in that mine, the hours were so long. When the men found me Saturday I was nearly dead.

IS RUSSIA INNOCENT?

High Official Disclaims any Intention of Seizing Manchuria

LI HUNG'S DOUBLE GAME

China is Trying to Gain Time in the Hope that Winter May Disconcert the Allies.

Tien Tsin, Oct. 19.—Reliable reports say the advance guard of the allied forces entered Pao Ting Fu Wednesday, Oct. 17. The city was practically deserted and offered no resistance. The British column captured several Imperial soldiers at West Ans Oct. 16, who were part of the force of 2,000 men who dispersed the Boxers in that region. The captives assert that they killed 300 Boxers and were returning to Pao Chou, when they were fired upon by the French. The British confiscated their arms and horses, and released the Imperial soldiers.

Runners report that many Chinese are burning the villages in the path of the German-French column.

Paris, Oct. 19.—M. Delcasse, the Minister of Foreign Affairs, has received a cable message from the Chinese Emperor asking the assistance of France in the restoration of peace and expressing the hope that nothing will occurr during the negotiations to cause a rupture of the peace proceedings.

Hong Kong, Oct. 19.—The military at San Chun reports that Admiral Hemas defeated the rebels, killing one hundred of them and driving the survivors into the north East river.

London, Oct. 19.—Affairs in China still continue to stand still and the difficulty is no nearer solution than at the fall of Pekin. A general suspicion reigns throughout the diplomatic world that China is employing all its resources of duplicity and cunning to gain time until winter comes, counting upon the rigor of the climate, the scarcity of provisions, and harassing assaults by Boxers to make the positions of the allies untenable. These considerations and calculations of the enormous expenditure of life and treasure which the prosecution of war would involve inspire the Russian nation and Government, with a sense of the necessity of prudence, which draws them every day farther from the policy of common action with the other powers. There is already talk in St. Petersburg of postponing the Russian claim for indemnity. "Nobody need be surprised if Russia should shortly come to a separate agreement with China. The Standard's Tien Tsin correspondent warns the public that it is a grave mistake to suppose that a solution of the matter is within reach. He confirms the view that is practically general here that the promised punishment of the guilty officials was devised merely to gain time. He adds that a voluntary and imperative condition to satisfactory progress towards a settlement is the restoration of hte Emperor's authority, and the only effective argument that can be used is to insist upon his appearance in Pekin within a certain time, failing which the tombs of the kings will be demolished and the Manchu dynasty suppressed. Once the Emperor was restored the punishment of the guilty would be easy, for Kwang Su would have the whole nation behind him.

RUSSIA IS QUITE INNOCENT.

New York, Oct. 19.—In a long despatch from Yalta, Russia, near which place the Czar is staying, a correspondent of the Herald quotes a high Russian official, who sees the Czar daily and is fully conversant with the Emperor's views on the Chinese situation.

"I defy anyone to say that Russia has deviated in any respect from the policy which has been announced and which is given quite openly in the Russian press. What Russia undertook to do she did. Her policy has been open, and perfectly simple from the first.

"So far from having designs upon Manchuria, Russia's frontier in that part was not properly protected. We were so unprepared that we had to submit to being attacked and bombarded. Does that look like our being prepared to annex Manchuria?

"Just look at our country. Can any one who knows this country imagine for a moment that Russia is in want of additional territory? How can any thinking person entertain such a view? Russia is quite content with what she has got. What she has she wishes time to develop.

"If the other powers, one or any of them, were to think it right to push matters and annex Chinese territory, then Russia would have to come in and hold her own. That is not what Russia wishes. Such a policy would only be forced upon her.

FRANCE INSISTS.

Paris Oct. 19.—The Havas agency has received the following despatch from Pekin,—

"The diplomatic corps has received a joint note from Li Hung Chang and Prince Ching, saying that it is time to end the present situation and to treat for peace and that the Princes and Ministers who were accomplices of the Boxers will be handed over to the courts to be judged and punished according to Chinese law.

"In their quality of plenipotentiaries Li Hung Chang adn Prince Ching offer to treat for peace and accept the principle of indemnities for the Legations destroyed. The losses are to be estimated by delegates of the powers.

"European nations can be accorded fresh commercial advantages on the old treaties modified, but as the requirements of the powers vary, each power must formulate its own.

"The plenipotentiaries demand an immediate cessation of hostilities because of their offer, and request an interview with the Tsung Li Yamen for October 21.

"Replying to the note, M. Pichon, the French Minister, said that China, having recognized that she had violated the law of nations, was bound to accept, for that very reason, the responsibilities involved. Consequently, he demanded that exemplary punishment be inflicted upon the principals guilty namely, Prince Tuan, Prince Chweng Kang Yi and Tung Fu Hsiang, adding that so long as their heads had not fallen it was impossible to cease hostilities.

Kidney Duty.—It is the particular function of the kidneys to filter out poisons which pass through them into the blood. When the kidneys are diseased they cannot do their whole duty, and should have the help and strength that South American Kidney Cure will afford in any and all forms of kidney disorder. It relieves in 6 hours.—24

CHINA IS ARROGANT.

London, Oct. 19.—The Times, whose Pekin correspondent, Dr. Morrison, describes the tone of the joint note of Li Hung Chang and Prince Ching as "characteristically arrogant, as if it were China and not Europe that is dictating terms," says editorially,—

"This description applies with equal truth to the substance of the circular. To whatever cause this attitude is due, it is a bad augury for the progress of the negotiations, which cannot be fruitful until China has been taught her place. M. Pichon has given her the answer her imprudence deserves.

FIGHT IN THE PHILIPPINES.

Insurgents Attack a Party of Scouts and Kill a Number.

Manila, Oct. 18.—(Via Hong Kong)—A detachment of twenty men of the 24th Regiment while engaged in repairing telegraph wires Oct. 16, at a point near Sand Jose De Luzon, were set upon by 200 rebels and were over owered and scattered. Seven of the Americans reached San Jose but it is probable that the remainder were captured.

The enemy surprised a party of scouts of the 43rd Infantry at a point three miles from Takloban, Layte island, killing three of the Americans at the first volley. Two escaped and gave the alarm but the enemy succeeded in evading their pursuers. The native police of Takloban had conspired to surprise the Americans. The bodies of the dead soldiers were badly mutilated.

IN HIS NEW HOME

Mr Robert Leary's Handsome New Livery Stables

The splendid livery stables which have for some time been under construction on Water street, a few doors above the Post Office, have been completed and are now tenanted by Mr. Robert H. Leary. The stables are of modern design, and have all modern conveniences.

The horses are stabled on the second flat, where 26 stalls have been built. The stable is 127 feet long and 32 feet in width. On the ground floor are kept the vehicles. At the left of the entrance is the office, and adjoining is the robe room.

In the third floor is stored the fodder, and the hay, straw, etc., is placed in the loft by means of a hay fork which is capable of storing an ordinary load in ten minutes. Large bins are on this floor also, for the oats, etc.

The Times heartily congratulates Mr. Leary on his success, and joins his many friends in hoping that the future will amply reward him for his great enterprise.

MINISTERS DRAW UP DEMANDS.

Foreign Representatives Still in Pekin Agree on Conditions.

London, Oct. 20.—Dr. Morrison, telegraphing to The Times from Pekin on Friday, Oct. 12, says— "At a meeting of foreign representatives still in Pekin a discussion was held on Wednesday regarding the basis of negotiations and informally agreed that the demands to be enforced should include—

"1. Punishment of officials implicated.

"2. Payment of indemnity.

3. Dismantling the Taku and other forts between Tien Tsin and the sea.

"4. The prohibition of the importation of firearms.

"5. The establishment of permanent legation guards.

"6. The abolition of the Tsung Li Yamen and the appointment of one Minister of Foreign Affairs.

"7. The suspension for five years of provincial examinations in those districts where foreigners have been murdered.

"8. Provision for rational intercourse with the Emperor.

"All these demands, it was agreed, are to be promulgated as imperial decrees."

LOCAL NEWS-LETTERS.

MILLBROOK

Mrs. C. H. Winslow returned Saturday from a pleasant visit in Michigan.

Miss Millie Eakins, formerly of this town, but more recently on the staff of nurses at the hospital at Sarnia, is very ill of typhoid fever there. Mrs. Easkins left for Sarnia, Monday.

Rev. Dr. Young of Port Hope, occupied the pulpit of the Methodist church morning and evening last Sunday.

After living in Millbrook for over twenty-five years, Mr. and Mrs. Wm. Williams left for the city of Eau Claire, Wis. U. S., where they will live with their daughter, Mrs. (Rev.) Frizzel.

Millbrook is a good place to live in, the rate of taxation is 15 1-2 mills on the dollar and this is a half valuation assessment. Strangers visiting pronounce it one of the neatest villages in the province.

There are one dozen artesian wells of mineral water ranging from fifty feet to two hundred feet in depth, flowing constantly; some of them flowing the full of a five iron pipe with a force which is almost incredible.

Deer Hunting

The hunting season that opens on the 1st, will probably be interfered with somewhat by the elections, polling day falling on the 7th. The deer are reported numerous in most parts, and moose tracks are not infrequent in the Haliburton district. Only one moose is permitted to be shot per man this year, and a special license has to be obtained. So far as the editor of this g.f.j. is concerned, he was always content with killing one each season.

WEATHER NOTES.

Probs—Fine and a little milder.

Local showers have occurred in the Maritime Provinces, but the weather is generally fine in all parts of the Dominion, with no immediate prospect of a change.

GEN. BULLER SPEAKS

He Says He Arrived in Natal Without an Army

BOERS LOSE 21 IN KILLED

Desperate Fight Takes Place in Which the British Lose 10 Men.

London, Oct. 19.—Lord Roberts is coping vigorously with the harassing system of guerilla warfare which the Boers have set up, as despatches showing active movements in many parts of the campaign area fully indicate. The measures, taken, however, do not seem to be effective in subduing the Boers, who regard promises to cease hostilities of very little moment. Already it is being suggested that the only way to effectually extinguish opposition is by the wholesale deportation of the burghers and the carrying of them in captivity in the way that the Jews were carried off to Babylon. The Boers are pushing their guerilla operations father and farther south of Bloemfontein. It is a long time since any sign of hostility was manifested in the Orange River Colony to the southwest of the railway leading from Norval's Point to Bloemfontein. Lord Roberts' latest despatch, however, shows that the enemy have made a desperate attack upon Jagersfontein, forty or fifty miles south of President Steyn's late capital. They penetrated the British lines during the night and were not discovered until next morning, when a severe fight took place, costing the British eleven men killed and the Boers twenty-one. As a column had been despatched from Bloemfontein to Jagersfontein, it is apparent that the latter place is still beset by the Boers and in need of relief.

BOERS ENTER JAGERSFONTEIN.

London, Oct. 19.—Lord Roberts reports from Pretoria, under date of Oct. 18, as follows—

"A party of Boers got into Jagersfontein on the night of Oct. 16, and a fight ensued in the morning. Our loss was eleven killed. The Boers lost their commandant and twenty killed.

"Kelly-Kenny despatched a column, under Hughes-Hallett, which should reach Jagersfontein to-day."

TO HAND OVER THE RAILWAY.

Lorenzo Marquez, Oct. 19.—The local railroad authorities have been instructed to hand over to the British all the rolling stock of the Netherlands Railroad.

BARTON DEFEATS THE BOERS.

Pretoria, Oct. 19.—Gen. French has occupied Carolina. It is hoped, with his force and the column which Gen. Smith-Dorrien is concentrating in that neighborhood, to surround and capture a large number of Boers.

Former President Steyn, of the Orange Free State, and Commander-in-Chief Botha are reported to be at Belfast.

Gen. Barton has had an engagement with 1,500 Boers at Welvedlend. He killed five of them and scattered the commando. He also captured 1,000 head of stock.

Gen. Clements has made a great raid on cattle which the Boers were driving along the Magaliesberg range.

BULLER DEFENDS HIMSELF.

London, Oct. 19.—The Pietermaritzburg correspondent of the Daily Mail wires as follows—

"In his speech, returning thanks for the sword of honor, Sir Redvers Buller made a splendid defence of his strategy. He said that he did not believe that any general had ever faced a situation so difficult as that which confronted him when he disembarked at Cape Town without an army and with no hope of one for another seven weeks or longer.

"I found Mafeking and Kimberley beleagured," continued he, "and the two main avenues across the Free State, Bethulie Bridge and Norvalspont, in the hands of the enemy, with Ladysmith nearly surrounded. If I had waited for the army and then advanced on Bloemfontein, it would have been at least 12 weeks before I could have exerted my influence on the situation. In that time the Boers would have completely overrun and occupied Natal and what would have been the effect of that on Europe and the British people?"

"Gen. Buller then proceeded to make the interesting announcement that Sir Evelyn Wood had wired asking to be allowed to come out and serve under him. He said he never was so tempted in his life to take a man at his word, for he had begun to look upon Natal as a forlorn hope, but it would have been cowardly to have let Sir Evelyn come to take the risk.

"I knew that if I failed to relieve Ladysmith," he exclaimed, "I should lose the supreme command. I lost it and rightly I think. But I had taken on the task and was bound to see it through to a conclusion."

"Sir Redvers paid the highest compliments to the loyalty and gallantry of his troops under the tremendous strain, a strain, he believed, such as no soldiers in the history of the world had ever to undergo before."

RESTRICTIONS REMOVED

Pretoria, Oct. 19.—Lord Roberts has issued an order removing the restrictions on exports from the Transvaal and the Orange River Colonies. The order includes bar gold, but excepts munitions of war.

THE QUEEN'S REWARD.

London, Oct. 19.—It is announced that the Queen, in appreciation of the loyalty of the Australian troops in co-operating with the Imperial troops in South Africa, has decided that they shall be further associated in a peaceful capacity. She has accordingly directed that a representative of every branch of the service be sent as a guard of honor on the occasion of the visit of the Duke of York to Australia.

BRITISH MASTERS KICKING

About the Reported Intention of Girouard to Give Americans Preference

Birmingham, Oct. 18.—The Midland iron masters are enquiring in official quarters about the reported intention to prefer American manufacturers to British in awarding contracts for the railway and bridge construction contemplated in South Africa.

Several of these prominent iron men are acting conjointly in making these enquiries, and intend to organize a campaign to press the Government into favoring British manufacturers if it is found that any contracts are likely to go to the United States, even though the American bids should be lower than the British.

MAY FOLLOW AMERICA'S LEAD.

European Powers Expected to Appoint Members of The Hague Court.

Washington, D. C. Oct. 19.—The action of the United States in designating ex-President Harrison and ex Senator Gray as members of The Hague court of arbitration is attracting the attention of foreign governments, which are making inquiries through their representatives here as to the step taken by this country, the indications being that the American initative will result in general action by the other powers interested. As far as can be learned none of the foreign governments has yet named its members of the tribunal. It is understood, however, that M. Maertens, the distinguished Russian publicist, is likely to succeed M. Struve as Russian Minister to The Hague, and at the same time be designated as one of the Russian members of the arbitration court.

SHIPS FOR CANADIAN TRADE.

New Vessels Building in the United States For Ocean Service

Montreal, Que., Oct. 19.—News has been received that numerous ships are building the United States for the Canadian trade. The Union Dock company of Buffalo and the Craig Shipbuilding company of Toledo each is building a steamer of Canadian canal dimensions for J. L. Crosthwaite of Buffalo. They are designed especially for the lumber trade. The Hawgood-Perry-Payne company of Cleveland, O., has two steamers now in commission on the lakes that are fitted with surface condensers and other necessary apparatus for salt water service. They will leave for the coast about Nov. 1. The Bessemer Steamship company (Rockefeller interests) is arranging to send, on or about Nov. 1, three of its whaleback barges to the coast.

Not a Paying Concern.

The Wild West Show which performed at the Peterborough fair, got stranded in Elmvale about ten days ago from lack of funds. The largest part of the "Wild West" was made up of Indians from the Brantford reserve, Ontario, and they are now in Toronto trying to get their wages from the management. The entire outfit of the concern was sold by auction at Toronto on Friday and only brought a little over $300, which will be divided among the 36 performers.

Farewell Meeting.

Ensign Sims, the Commanding Officer of the local contingent of the Salvation Army, has received orders to farewell to Peterborough Corps and proceed to an appointment in the Maritime Provinces. The change was quite unexpected, as the Ensign has only been here three months. The farewell meetings will be conducted to-morrow at 3 to 7 p.m..

Everybody is welcome. Captain S. Aah will assist the Ensign in all the public greetings.

The C. P. R. Connection

Lindsay Post.—The engineers engaged in surveying the line of the proposed Lindsay, Bobcaygeon & Pontypool Railway spent Sunday at the Simpson House. Their line from Bobcaygeon was extended to the eastern limits of the corporation on Monday afternoon, and on Tuesday Mr. W. T. C. Boyd, president of the provisional board of directors, and Engineer Jennings, of Toronto, inspected the line selected between Lindsay and Dunsford. The engineers will now survey a second line to Bobcaygeon along the lake shore, and when that has been run they will survey the route between Lindsay and Pontypool. C. P. R. connection is bound to come.

Government Baking Powder Tests.

The Royal Baking Powder is an old candidate for favor with the housekeepers of the Dominion. Its patrons will be pleased to know that the recent Government report giving the analyses of baking powders sold in the Dominion show the Royal to be the purest of cream of tartar powders, the most healthful in character, and of greatest leavening strength.

It is shown that the art in baking-powder making is to give a pure and healthful powder, of highest leavening power, which will keep indefinitely without losing its strength. These two qualifications—effective keeping and highest strength—it is impossible to combine in a powder except with the use of chemically pure ingredients. The report states that the only entirely cream of tartar powders which came up to this standard were the Royal and Cleveland's.

Hon. Mr. Mulock To-Night

A large audience may be expected to welcome Hon. Mr. Mulock at the Opera House this evening. He is one of the ablest, and most successful of Sir Wilfrid Laurier's ministers. Mr. Mulock's administration of the post office department, has been very successful, the post office has been saddled with a deficit in the past, that needed improvements could not be made in the service. Mr. Mulock is a hard-working man, and his first year in the department reduced the deficit to a few thousand dollars and secured extensive improvements in the service. Then came Imperial penny postage and the two-cent rate, and yet with all these extensive reductions the department will not only make enough to pay expenses, but it may have a small surplus in sight ere long. This is a remarkable record highly creditable to Mr. Mulock. Mr. Mulock will therefore receive a cordial welcome to Peterborough from the general public without respect to party.

AN AIRSHIP IS AN NOTABLE SUCCESS

It Remains Poised, Sails Against the Wind, is Easily Handled

Friedrichshafen, Oct. 19. — Count von Zeppelin gave his airship another trial Wednesday, and achieved a notable success. After rising, the airship remained poised at a height of 600 metres for three-quarters of an hour. It then made a series of tacks and performed sundry turning manoeuvres, after which it was steered against the wind. It finally headed towards Immenstad, where the inventor landed, after a trip that lasted about an hour.

The airship carried five persons. When it rose the wind was from the north-east, blowing with a velocity of three and one-half yards a second. When the airship had attained a height of 400 yards it described a circle and then drove with the wind in a generally circular direction for about six miles. It then again described a circle, after which it made headway against the wind, which was then blowing with increased velocity. Eventually the airship descended with great ease and steadiness into the lake and was towed to a shed. Its stability, equilibrium and steering powers were excellent. It is generally agreed that considerable progress has been made since the first ascent.

THE POLITICAL POT

Sir Wilfrid's denial of H. H. Cook's charges in regard to the sale of a senatorship does not appear to "go" with the Tory press. This is what might be expected. One side does its utmost to blacken the other—except in Peterborough, where our two little contemporaries are as fond of each other as they can be. So far as the charges against Sir Wilfrid are concerned, it is hardly likely that he would himself traffic in the sale of senatorships. Such work is usually delegated to the party broker.

* * *

The Tory press claim that the Grit goose is Cook-ed.

* * *

Mr. Kendry has commenced a tour of the townships. He held his first meeting in Smith last night.

* * *

Sir Wilfrid says he is a Liberal of the English school. The way the English Liberals have been getting it in the neck is not inspiring.

* * *

Hon. George E. Foster has been eighteen years in parliament, and was eleven years a Minister. From his first session he has occupied a conspicuous position, and has been exposed to the keenest criticism. Mr. Foster's record as an administrator is unblemished by any scandal, his eminent ability is everywhere recognized, and even those who have fought him and his party all their lives, admit his integrity, his industry, his regard for his word, and his high position in Parliament and the country.

* * *

The Senate is an expensive enough institution already without the needless extravagance of supplying it with a $10,000 Cook.

* * *

Those Liberal papers which answered Mr. H. H. Cook's charges of pledge-breaking by a retort that Mr. Cook was a disappointed office seeker, are doubtless sorry they spoke in view of the $10,000 incident.

* * *

If the Toronto World cannot produce the documents it ought to drop its story that Liberal Whip Sutherland is engaged in an anti-Catholic campaign.

* * *

Ottawa Conservatives are hoping that in the present election most of the Ottawa voters will take Champagne.

* * *

The Ottawa Citizen declares that the Tory candidates in that city are a spanking team. This is doubtless the Cit's way of stating that both gentlemen are married and in the family business.

* * *

A Hamilton boy nearly choked to death by swallowing a Tupper button. This may be taken by heartless Grit newspapers as proof that that kind of politics is not good for the constitution.

* * *

It is said that a young man residing in Peterborough, whose sympathies are with the Liberal party, has gained a bride by promising to vote Tory. There's one marriage that may not prove a failure.

* * *

Gritism and Toryism make it so that while in this campaign the Kilkenny cat spirit comes out on both sides, they are fighting on other lines.

* * *

The meeting held by Mr. McClellan at Young's Point on Wednesday evening was well attended, and all the speakers were given a patient hearing. The candidate and Messrs. R. R. Hall, George E. Elliott and Dr. Moher were the speakers on the Government side. Mr. Kendry was represented by Messrs. Arthur Stevenson and A. P. Poussette, Q.C., who presented a strong case, which their opponents ignored. Mr. Poussette took up Mr. Cook's letter, but Mr. McClellan and his speakers did not discuss it, but passed it over as not worthy of notice as coming from a disappointed applicant for a Senatorship. These kinds of arguments won't go. The charges made are either true or they are not true, and they should be either refuted or admitted.

Morning Times

PETERBOROUGH, OCTOBER 20 1900.

ORGANIZATION IS NOT EVERYTHING.

Organize! Organize!

From the far Pacific to the far Atlantic the party press are calling upon their followers to organize, and the appeal does not fall on deaf ears. In every city and town, hamlet and township, committees of ardent partisans gather nightly to man voters' list, and do the hundred and one other little jobs necessary to get out the vote.

Every doubtful voter must be interviewed by the right man, every corner of the riding must have at least one meeting, every polling booth must have its scrutineers and workers, every available rig must be preempted and allotted, and every necessary dollar must be raised and judiciously expended to bring out the full party vote.

These are the legitimate duties of election workers, and on the thoroughness with which they do their work, the fact of the close riding depends. A half a dozen voters overlooked here and a half dozen there, a half a dozen reluctant or slow votes left unpolled may leave the party in a monority that practically renders useless all the labor of the campaign.

Still there are other factors in a contest besides organization. With the best organization in the world John Smith cannot honestly get elected provided a majority vote for the other fellows. And this is the moral of the article. The free and independent voter is after all master of the situation. In the seclusion of the polling booth he is no man's servant and no party's slave. The party organization may have paid his railroad fare and treated him to a free ride to the booth. There its usefulness and its power ends. He alone marks his ballot, and he and others like him are after all the real rulers of the nation.

MR. SIFTON'S DUTY.

The contest in Brandon between Hugh John Macdonald and Hon Clifton Sifton is evidently a fight to a finish; and if the story told by a couple documents published in the Winnipeg Telegram are true, the Hon. Clifford had the support of a "barl" that must be, of amazing depth.

The documents are subscribed to by W.J. Manby, an Oak Lake lawyer, and W. G. King, editor of the Brandon Independence. Manbey, in due legal rigmarole, swears that on Thursday, September 13, he was approached by a Mr. Amable Marion, formerly a Conservative, but now a supporter of Mr. Sifton, and urged to support the Government candidate. Mr. Manbey's affidavit further sets forth.—

"That after advancing a number of arguments, many of them of a personal nature, the said Amable Marion told me that he had got plenty of money from the Liberals and produced a number of ten dollar bills as evidence of his statement, and then proceeded to offer me a bribe of one thousand dollars, and an office under the Laurier Government, if I would betray Mr. Macdonald and go over to the Liberals."

The story told by Mr. King, the editor of the Independence, is in effect that agents of Mr. Sifton have attempted to bribe him and buy out his paper. This offer was made by a Mr. Speers, who, it is alleged, offered Mr. King from other parties, $100 a month to continue to edit Independence, but under the direction of Mr. Sifton and his friends, and the office would be purchased. He urged very strongly the folly of working hard for uncertain and small profits when comfortable ease could be obtained by acceptance of his proposition, and stated clearly, that he came from Clifford Sifton to make this offer. He subsequently (two of three days after) visited Independence office again and made more pressing applications.

"He put it foreward 'as a matter of business; there was no sentiment in it; it was dollars and cents, and that it did not matter which side a man took up as long as he was well paid for it."

The publication of these two declarations ought to have one of two results. Either Mr. Sifton should prosecute Messrs. Manbey and King for perjury, or he should get out of public life. Mr. Sifton has a duty to perform himself, and to the public.

The man with a Hoe is to be found in Ottawa, in the person of the proprietor of the Citizen, the capital's leading daily newspaper, who has just put in a splendid new 24,000 per hour Hoe printing press. The citizen has always been one of our brightest and best exchanges.

A Cross Clerk

Is a rarity. For the most part the young woman behind the counter is smiling and obliging, though her back hurts, her side pains, or her head throbs distractingly. The wonder is, not that a clerk is sometimes irritable, but that she so rarely shows irritation, when every nerve is quivering and she hardly knows how to hold her head up.

The nervous condition, headache and weakness, which are the results of irregularity or a diseased condition of the womanly organs, can be entirely cured by the use of Dr. Pierce's Favorite Prescription. It regulates the functions, stops enfeebling drains, strengthens the nervous system and promotes the general health of the entire body.

Sick women are invited to consult Dr. Pierce by letter, free of charge. All correspondence private. Address Dr. R. V. Pierce, Buffalo, N. Y.

"Having used Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery' during the past year," writes Mrs. Mattie Long, of Pfouts Valley, Perry Co., Pa., "I can truthfully recommend the medicines for all female weakness. I have used several bottles of 'Favorite Prescription,' which I consider a great blessing for weak women. I was so nervous and discouraged that I hardly knew what to do. Your kind advice for home-treatment helped me wonderfully. Thanks to Dr. Pierce."

ATTACK of ROYAL CANADIANS at Paardeberg

The present is a time when war pictures are in greater demand than ever. The conduct of the British soldiers on the battlefield has won the plaudits of admiring nations. We have at great expense published four large, beautiful pictures, size 20x24, on heavy, superfine calendered paper. A picture that will commend itself and send a thrill to the heart of every true Canadian is the one called Attack of Royal Canadians at Paardeberg, there are literally hundreds of figures on this picture, the mountains or kopjes stretching out into the distance are swarming with men, while here and there a prostrate figure speaks only too well of the Boer rifleman. It was on this battlefield the gallant Major Arnold met death unflinchingly. Indeed, it is only too true that many of those gallant hearts that beat so high when the cheering thousands bade them Godspeed as they sailed from Canada's shores now lie still forever in lonely graves on the other side of the world under African skies. To every Canadian heart, to every Canadian home, the deeds of their brave soldier boys speak with an irresistible thrill of patriotism and pride. Gordon Highlanders at the Battle of Belmont, Charging the Boer Guns at Elandslaagte and the Charge of Gen. French's Cavalry on the Retreating Gen. Cronje's Army. These are all stirring pictures and cannot fail to commend themselves to anyone who will examine them. They are RED HOT SELLERS! Agents coin money. Big profits Enormous success. One agent sold 48 in one day. Sample and terms 25 cts (none free); four for 50 cts; $1.75 per dozen; 25 for $3.25; 50 for $6.00; 100 for $11.00 Write to day for a dozen and make money. Address to the Electors

To the Free and Independent Electors of West Peterborough—

Gentlemen.—Having accepted the unanimous nomination of the Liberals of this Riding, as a candidate for its representation in the House of Commons I hereby respectfully solicit your support in securing my return at the coming general elections.

The grounds upon which I base my appeal are not so much nor chiefly by any means, my personal fitness for the position of your representation though as a citizen of Peterborough and interested in its progress in common with that of the country, I can and do promise, if elected, an intelligent support of such a public policy and such measures as will best conduce to the promotion of all the interests of Canada, the developement of her great resources and the general betterment of the civil moral and material condition of the public; and my best abilities and most assiduous attention shall be devoted to the faithful discharge of my representative duties.

The strongest ground, however, of my appeal consists in the fact that I am a firm supporter of the Liberal Government led by Sir Wilfred Laurier, which is entitled to the renewed confidence of the people, both on the ground of its policy and the splendid record established by the application of that policy. The Liberal party appealed to the country in 1896 upon a clearly defined policy and the promised results followed.

The Liberal party promised a reduction of a high tariff that hampered our industrial and agricultural interests and was hostile to the Mother Country.

The tariff was materially reduced and otherwise improved and in such a way as to help instead of hinder the manufacturer and farmer, with the consequence that never before in the history of the country have our industries or our farmers enjoyed such great prosperity, our mechanics and working men such constant employment and high wages, nor our commercial and all other interests so flourished.

Our domestic and foreign trade have also greatly increased. The loyal gift of a trade preference, represented by a tariff reduction on British goods of 33 1-3 per cent., and our despatch of the Canadian Contingent, have resulted in a kindlier feeling towards Canada and greatly increased trade with the Mother Country.

With a largely reduced rate of tariff, our revenue has greatly expanded so that the Government was warranted in practicing true economy (reducing our postal rate one third, giving imperial penny postage,) and premitting of the completion of great public works, deepening our canals, so long trifled with, pushing the work on the Trent Valley Canal which is now urged and will be urged to completion by the Liberal Government, and the application of a vigorous policy of general development and improvement of our transportation facilities, resulting and to result in easier access to the British market and better prices for all our products.

The farming interests of the country are deserving of the best services of a Government, such as the present has given. The immense impetus given the produce trade between Canada and Great Britain, through the preferential tariff, has been greatly helped by the action of the Government in providing an excellent and adequate system of cold storage, by which Canadian products can be landed in Great Britain in first-class condition, guaranteeing the highest prices. The system is of the most modern character, sufficient for all the present needs of the trade, and it will be improved and enlarged as experience suggests, and increase of the produce trade demands, and I shall, if elected, feel it my duty to support any policy that will improve our trade with the Mother Country, and strengthens the bond of British connection, of which we are so proud.

In an industrial centre like Peterborough the claims of the working classes are especially deserving of consideration. No country is well governed that does not look after the interests of all classes of the community. The Conservative Government has been, and the Conservative party declares itself to be, extremely solicitous of the interests of the capitalist classes—the manufacturers—but it left the working classes to largely shift for themselves. A Liberal Government came into power, and the attitude towards Labour was changed, and the rights of Labour to its rights recognised, and in a practical way. A Department of Labour has been established and a Minister of Labour placed over it. A Labour Gazette has been established in the interests of workingmen, published monthly; conditions have been inserted in all Government contracts compelling contractors to pay the highest current wages, which the Government guarantees the payment of; the sweating system has been abolished on Government enforced by a special officer, and in many other ways the Government has shown by deeds that the rights of the workingmen, as well as the capitalist, shall be protected. I heartily support the Government in what it has done, and shall support them in extending the benefits which they have already conferred, and which it is their policy to continue, as need arises.

The splendid achievements of Canadian soldiers in South Africa, make them worthy of the gratitude of the country. We have the best militia material in the world, and if we keep up a military establishment, let it be worthy of Canadians. Situated as Peterborough is, on the line of the Grand Trunk and Canadian Pacific Railways, and on the line of the Trent Valley Canal, begun as a military work, and now under course of completion, no other point in this Province is so well adapted for a military centre. I shall, therefore, feel it my duty to press upon the Government the advisability of constructing in Peterborough new armories and connected buildings for military stores for Ontario, and I feel that this is practicable of attainment at the hands of a Government which has shown its interest in our volunteers by placing the Militia Department, so greatly neglected by a previous administration, upon an effective basis, and will, therefore, more naturally be well disposed towards the improvement involved in making Peterborough a centre for military stores.

A town of the industrial and commercial importance of Peterborough, has certainly strong claims upon the good offices and of a Government. For the past four years the town has been represented, when it was represented in the House, by a member opposed to the Government. There is no doubt in the minds of unprejudiced observers, that the present Liberal Government will be strongly sustained in the country at the coming elections, and the question arises whether West Peterborough will have its interests better served by a member sitting in opposition and hostile to the Government and its policy, or by a member pledged to give the Government a fair support in the application of its policy. If elected I pledge myself to give my best ability and exertions to the promotion of the general good of the country, and to look especially after the interests of West Peterborough.

I cannot obviously here, enter into details of how in other ways the Liberal Government has implemented its promises and applied its policy, but I shall have an opportunity during the campaign of more fully dealing with these and other public questions.

As a supporter of such a Government I can appeal with confidence for the support of the Electors of West Peterborough, knowing that by helping to give, as you will do, through my election, a renewal of the trust the Liberal Government has discharged with such evident and gratifying results, they will be conferring a great and lasting good upon this riding, the country at large, and securing a continuation of the great blessings of prosperity and good government we now enjoy.

Again soliciting your support, your votes, and influence in this contest,

I have the honor to be,
gentlemen,
Your obedient servant,
J. H. McCLELLAN

Love Won - and - Lost.

A NOVEL.

(Continued.)

sought for him in the midst of crowds; his face, and his alone, was ever before her.

Izetta lived over in her dreams how she should fling herself at his feet, when she found him, and cry out:—

"Alderic, my love, my love, do not send me away from you."

Sweet little wife, she was so true to her husband of one short, happy week.

Much to the young lieutenant's chagrin, he never caught more than an occasional glimpse of Izetta.

Thus matters might have stood for many a day had not a singular accident happened.

One morning Izetta was standing in a curtained alcove, wondering how long she would have to live like this and how it would all end, when the sound of voices fell upon her ear.

Miss Glendyke and Lieutenant Key sauntered leisurely past her. Every word of their conversation, which seemed commonplace enough, fell distinctly upon her ear.

"How long do you think you will remain abroad?" Miss Glendyke was saying.

"That I really cannot say," he replied.

"That is hardly a definite answer," she replied, laughingly.

"I assure you, I wish I could guide my own fortunes," sighed the lieutenant, thinking of Izetta; "but, alas, I cannot; I am quite beginning to despair."

"I can hardly realize that this is your last day in Oxford for some time to come, lieutenant; I am very pleased to see you remember your old friends in calling to-day."

"I had intended bringing an old friend of mine up to-day, whom I have not seen for years. I do not think you have ever met him."

"I might be better prepared to answer, if you were to tell me his name," she replied, archly.

"His name," repeated the lieutenant, absently, "is—— Ross."

No another word of their conversation reached Izetta's ears; her heart was in a whirl and her brain on fire she had great difficulty in restraining herself from rushing out and imploring the young man to tell her where she could find the Mr. Ross of whom he spoke.

"It must be, oh, it must be my husband," she gasped out brokenly to herself; then, like a cold avalanche the lieutenant's words fell back upon her benumbed heart; "he was going away that very day."

"Merciful Heaven! what should she do? With him would depart the knowledge she was wearing her young life out to obtain.

She must think quickly; whatever she decided to do, must be done at once.

Every moment that scudded past laden with glorious golden opportunities she was losing.

She pressed her cold, clammy fingers to her hot brow. Already he was rising to depart.

She parted the curtains and sped quickly from the room.

"If I could but reach the portico—first, I might find an opportunity of exchanging at least a few words with him."

It seemed to her she had waited there long hours, so intense was her excitement; in reality only a few moments had elapsed.

She heard his quick, springy tread as he approached; she was almost overjoyed to find he was all alone; no one else was in sight.

Lieutenant's Key's astonishment knew no bounds upon seeing Izetta appear so suddenly from behind the curtains and vanish from the room.

His first impulse was to follow her with the hope of being able to overtake her.

Fortune favored him; as he neared the portico he saw her leaning like a statue against one of the marble columns.

Speak with her he must, he told himself, at any cost; and if she smiled—well, upon her smile hung his chances of leaving Oxford the following morning.

There never was a more desperate case than his own, he told himself.

He had expected the dark eyes to droop as he neared the spot where she stood; but the great, dark, eloquent orbs raised so inquiringly to his, almost took his breath away.

Now that he stood almost beside her for the first time in his life, he was at a loss as to what he should say to her.

"If you please, sir, may I speak with you a moment?"

The poor lieutenant stopped short. Surely this was some delicious dream.

Again Izetta repeated her question before he regained sufficient composure to answer her.

"Certainly," he replied; "it will be the greatest pleasure of my life to answer as many questions as you choose to put to me. Shall we return to the reception-room, Miss Rienzi?"

Izetta wondered how this stranger happened to know her name.

"I had rather not, if you please, sir I would much prefer speaking with you here."

He saw she was quite confused as to how to proceed.

"I—I— could not help overhearing a part of your conversation with Miss Glendyke," she began nervously.

The lieutenant's face certainly expressed his astonishment, yet he spoke no word.

"You— you— spoke of a Mr. Ross," she went on, hurriedly; "I could not help asking you if you would kindly deliver a message from me to Mr Ross. I ask it as a great favor, sir."

If a thunderbolt had suddenly exploded at his feet he could not have been more astounded.

"You wish me to take a message from you to Mr. Ross?" he queried hardly daring believe he had heard aright.

"If you please, sir," answered Izetta, simply, timidly; "If you knew — oh, sir, you could not, would not refuse me!"

The lieutenant actually believed he was losing his senses; he was quite positive his reason was playing a trick upon him.

"You will say to him, if you please I would like him to call; say to him I have waited so long— so long! No word of reproach shall pass my lips, say I have freely promised that. There will be no blot on the past if he will only come back to me. Will you tell him?" she whispered.

"I will tell him, certainly, all you have said," he responded slowly; "but——"

The sweet, red lips trembled eagerly, deep flushes coming and going over her white face.

"Do you think he will come to-day?" she asked, hesitatingly.

"Mr. Ross is a courteous gentleman," responded the lieutenant, gravely, "and when I tell him you

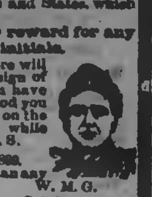
BLOOD POISON.

If you have this awful disease you are in danger until completely cured; the first symptoms you notice should be a warning to take immediate treatment. Don't put it off until too late, as it continually gets worse. If you have sore throat, patches on tongue or mouth, swollen glands, hair falling out, blotches on body, itching skin, or other signs of this awful disease, call on us. We give you a written guarantee to cure you by our LATEST METHOD TREATMENT without Mercury or Potassium, and You Pay When Cured. Each time you call you see Dr. Goldberg personally, who has 18 Diplomas, certificates and licenses received from the various colleges, hospitals and States, which testify to his standing and abilities.

The original testimonials can be seen at our office; $500.00 reward for any we cannot show; at request of patients we publish only the initials.



I am improving every day. I notice if I cut or scratch myself the sore will heal up. I hope you will not stop treating me as long as there is a sign of that terrible disease. I am more afraid of it than death. I believe you have the right medicine for the disease. I feel so thankful to you for the good you have done me; I was a perfect wreck when I came to you, and was on the verge of suicide. To make a sure thing I would like to continue a while longer, so that it will not return. Very respectfully yours, Mrs. L. S.

PETERBOROUGH, OCTOBER 20, 1900

TOWN AND COUNTY NEWS

The Band Concert

The band concert last night in the Market Building was well attended, the large building being filled to the doors. The music was of a very high order, and received unstinted praise.

A Successful Festival

The ladies of the Charlotte Street Methodist Church are to be congratulated on the magnificent success of their Thanksgiving tea, which took place in the lecture room of the church on Thursday evening. There was a big crowd. The programme which followed the tea was well rendered, every number being good.

Thanksgiving Day

Thursday was observed as a Thanksgiving holiday, and certainly there has been much for this Province to be thankful for. Good crops, fair prices, employment for all, and at high wages. The times are good, and thanks should be given for the bountiful works of Nature.

The Town Wins

The action against the town brought by Mrs. Sherwood was dismissed on Thursday, each party paying their own costs. Town Solicitor Edwards is now receiving the congratulations of citizens. Over 30 witnesses were examined. Messrs. Dennistoun, Peck & Stevenson, for plaintiff; R. B. Edwards, Q.C., and G. H. Watson, Q.C., for defendants.

The Adjourned Inquest.

The adjourned inquest to enquire into the death of Sam Lung was resumed last night. Messrs. Grier, Alexander, Miller and Fife were put into the witness box, but no positive information showing that more than the usual 52 volts was passing through the wire when the unfortunate man met his death, was elicited. The proceedings were finally adjourned till Wednesday next, at eight o'clock sharp. In the meantime the transformer outside of the building in which Sam Lung met his death is to be taken down and tested under the supervision of Mr. Fessenden, who is an expert electrician.

Admission of Trees.

Rochester, N. Y. Oct. 20.—Rochester nurserymen are greatly interested in the regulation by the Canadian government regarding the admission to Canada of nursery stock from the United States. A Canadian law prohibits the passage across the boundaries from any other country of nursery except as provided in special regulations. Last spring during a brief period the bars were down and nursery stock could be shipped to Canada if it was properly fumigated under the supervision of a government employe. This regulation is to prevent the further transportation of the San Jose scale. But the Canadian government has modified the regulation so as to allow nursery stock after fumigation to be shipped during a brief period.

JOTTINGS ABOUT TOWN

—Hallow'een will soon be here.

—The gate receipts of the Lindsay fair were $3000.

—The saw mill of the Dickson Company at Lakefield has been closed for the season.

—Several Brighton gentlemen met in that village last week, and decided to hold a street fair.

Rheumatism in all its forms is promptly and permanently cured by Hood's Sarsaparilla which neutralizes acidity of the blood.

—The gate receipts at the East Peterborough Agricultural Society's exhibition held at Norwood, amounted to about $1100.

—Nature's law of compensation also prevails in foot-ball. If the losers are all broken up the winners also are apt to feel rather sore over it.

—The Ferguson-Shortly fishing party who have been at Ketchecum Lake, returned. They had a fine outing and good luck.

—The Rathburn Company have a large drive of logs at Fenelon Falls.

—The coal bills are becoming a question of burning importance.

—A meeting of the Board is requested at half-past seven before the meeting of the Young Woman's Christian Association to-night.

—"Remember the Maine" Company played to a rather slim audience last night. The play was all that could be desired. The band concert in the Market Building accounted for the light house.

—The treasurer of the Children's Aid Society acknowledges with thanks the receipt of $15.45, from the collection at the union service at St. Paul's Church Thursday, and $4 from Mr. A. G. Parker.

—The Belleville Sun says a sensational case will be heard at the next county assizes, in which Mr. E. Guss Porter, of Belleville, is counsel on behalf of a Madoc man in an action against a Port Perry doctor, claiming $10,000 for the alienation of his wife's affections.

—Toronto News—The Grand Trunk Railway have issued a circular to all their employees in Toronto and Little York that unless they stop boarding at hotels they will be dismissed. For the accommodation of the men there is a well-kept "bunk house" in Little York yards, where men are given lodging free and good board at cost price.

That Cutting Acid that arises from the stomach and almost strangles, is caused by fermentation of the food in the stomach. It is a foretaste of indigestion and dyspepsia. Assessment Too High

In commenting on an article which appeared in The Times in regard to the way property in Peterborough is over-assessed, the Lindsay Post says—In Lindsay any property will sell for one-half or one-third more than the assessed valuation, but Peterborough citizens have candidly admitted to some of our business men that in that town real estate is assessed in many instances far in excess of its selling price.

To Select Food to Rebuild On

"To find that a lack of knowledge of how to properly feed one's self caused me to serve ten long years as a miserable dyspeptic, is rather humiliating. I was a sufferer for that length of time and had become a shadow of my natural self. I was taking medicine all the time and dieting the best I knew how.

"One day I heard of Grape-Nuts food, in which the starch was predigested by natural processes and that the food rebuilt the brain and nerve centers. I knew that if my nervous system could be made strong and perfect, I could digest food all right, so I started in on Grape-Nuts, with very little confidence, for I had been disheartened for a long time.

"To my surprise and delight, I found I was improving after living on Grape-Nuts a little while, and in three months I had gained 12 pounds and was feeling like a new person. For the past two years I have not had the slightest symptom of indigestion, and am now perfectly well.

"I made a discovery that will be of importance to many mothers. When my infant was two months old, I began to give it softened Grape-Nuts. Baby was being fed on the bottle and not doing well, but after starting on Grape-Nuts food and the water poured over it, the child began to improve rapidly, is now a year old and very fat and healthy and has never been sick. Is unusually bright,—has been saying words ever since it was six months old. I know from experience that there is something in Grape-Nuts that brightens up any one, infant or adult, both physically and mentally."

AN AMBULANCE NEEDED.

Editor Morning Times,

Sir,—I was pleased to see that our efficient Medical Health Officer has done his duty in regard to the matter of having an ambulance wagon in connection with the hospitals. Such a thing is badly needed. Only the other day a man was taken to Nicholls Hospital who had been badly injured. He was placed in an open delivery wagon, and suffered most excruciating agony all the way. The jolting of the rig made the poor fellow scream with pain.

Nor is this the worst side of this question. People suffering from contagious and infectious diseases are taken from their homes to the hospital in hacks. What is more likely to spread disease than this?

Surely, Mr. Editor, our two hospitals and the Councils of Peterborough and Ashburnham could unite and pay for an ambulance.

A NURSE.

TO HANG AN ALDERMAN.

Editor Morning Times.

Sir.—Recently an amusing scene might have been witnessed on London street. Two women with baby-carriages coming in different directions met on the new granolithic sidewalk. They met—the walk was narrow—four feet. The carriages could not pass. Each woman looked at the other. Neither would lift her carriage off the walk. One pushed her carriage against the other and spilled the baby; then there were shrieks and up-lifted parasols and cries of the baby. A man fortunately came up and righted the carriage. The women cooled a little, and one of them said it was all Councillor Sawers' fault in making the narrow walk. The other said "Yes, he ought to be hanged." By this time they got their carriages righted and moved off in different directions.

The fact is this walk is altogether too narrow, and the people on the street are very much dissatisfied. Several suggest that like the Mud Lake bridge, it should have several turns-out places, so that fat people or baby carriages could pass. The suggestion about hanging a councillor is worthy of some consideration.

LONDON STREET.

THE ONLY HOME PACKAGE DYES IN THE WORLD THAT GIVE PERFECT RESULTS.

The scientific preparation of dyestuffs and putting them up in proper shape for family dyeing has been brought to perfection by Wells & Richardson Co., who are proprietors of the celebrated Diamond Dyes.

These popular dyes have banished from the homes of Canada madder, fustic logwood, cochineal and all other antiquated dyestuffs. The work of home dyeing is now done quickly and successfully by Diamond Dyes; the process is one that would astonish our grand parents.

To-day millions all over the world use the scientific Diamond Dyes in preference to all others. Diamond Dyes commend themselves to all who use them, because they are the strongest, brightest and fastest, and the easiest to work with.

Diamond Dyes, like all other perfect and popular preparations, are largely imitated in style of package and the way they are put up. These imitations are worthless and adulterated dyes, ruinous to all kinds of goods and dangerous to handle. Great caution is advised when buying dyes for home use. Ask only for the "Diamond"; see that the name is on every package.

He will gladly confer with you free of any cost and fully explain and show the perfect Rice Method of curing rupture. Remember the dates of Mr. Mc Donald's visit and don't fail to call. It may be the means of saving your life and will at least prove to you that rupture can be cured. In case you cannot call write to Dr. W. S. Rice, 18 Victoria St. Toronto, Ont. and and he will gladly mail you full description of this famous method.

"Durability is Better Than Show."

The wealth of the multi-millionaires is not equal to good health. Riches without health are a curse, and yet the rich, the middle classes and the poor alike have, in Hood's Sarsaparilla, a valuable assistant in getting and maintaining perfect health. It never disappoints.

Scrofula—"Three years ago our son, now eleven, had a serious case of scrofula and erysipelas with dreadful sores, discharging and itching constantly. He could not walk. Several physicians did not help for sixteen months. Three months' treatment with Hood's Sarsaparilla made him perfectly well. We are glad to tell others of it." MRS. DAVID LAIRD, Ottawa, Kansas.

Nausea—"Vomiting spells, dizziness and prostration troubled me for years. Had neuralgia, grew weak and could not sleep. My age was against me, but Hood's Sarsaparilla cured me thoroughly. My weight increased from 125 to 143 pounds. I am the mother of nine children. Never felt so well and strong since I was married as I do now." MRS. M. A. WATERS, 1529 33d St., Washington, D. C.

Eczema—"We had to tie the hands of our two year old son on account of eczema on face and limbs. No medicine even helped until we used Hood's Sarsaparilla, which soon cured." MRS. A. VAN WYCK, 123 Montgomery Street, Paterson, N. J.

A WONDERFUL

KIDNEY and Bladder CURE

The Honorable Chairman of the Board of County Commissioners, Ellsworth, Kansas, tells how ALKAVIS cured him after Doctors and all other Remedies had Failed.

I. A. HOPKINS.

BRIGHT'S DISEASE, GRAVEL, DROPSY, And Rheumatism Mastered at Last.

One of the most remarkable medical discoveries of the century is the Kava-Kava Shrub, found on the Ganges River, East India, which has a wonderful action on the kidneys and bladder. Since its introduction into this country its fame has quickly spread, because of its seemingly impossible cures. Prominent men and women have testified to its great curative powers, and hospital tests prove its infallibility even in advanced stages of Bright's Disease. Among the more recent recoveries is that of Hon. I. A. Hopkins, Chairman Board of County Commissioners, Ellsworth, Kansas, who says:

GENTLEMEN:—I will say that I believe and know that I owe my life to Alkavis. I had been troubled with Kidney and Bladder Trouble for years. Two years ago I was sick for six weeks with Malarial Fever which left me in a bad condition. My limbs were swollen with Rheumatism so that I could hardly walk; I was troubled with Indigestion from taking Medicine for my Urinary troubles which had become very much worse. I had to get up every hour of the night to urinate. I passed great quantities of blood on account of hemorrhage of the Kidneys and Bladder. I tried and had been trying everything in the shape of Medicine for Kidney Trouble that I could think of or that the Doctors recommended, but nothing helped me for I kept getting worse. I suffered great pain continually in my Kidneys. I made up my mind unless I could get relief that I only had a short time to live. About this time my attention was called to an advertisement of Alkavis. As a drowning man will grasp at a straw, I was ready to try anything for relief. I sent to you for three bottles. I began to take it, and before I had taken it one week I began to feel the good effects of Alkavis. My Kidney Trouble and Rheumatism were soon gone, my digestion became all right, I found myself in better health than for ten years and I am in good health now. I know that Alkavis saved my life. What more can anyone say for a medicine? Unlike most medicines it is good for indigestion. It gives the person taking it a good appetite. I have recommended Alkavis to a great many people and all have been benefited by its use. I am 58 years of age, and am very grateful for what Alkavis has done for me.

Respectfully yours,
I. A. HOPKINS.

Rev. W. B. Moore, D. D., Washington, D. C., Editor *Religious World*, writes that after trying all known medicines for kidney and rheumatic disease he was permanently cured by Alkavis. Mrs. Wm. H. Hardy, East Rush, Pa., writes that Alkavis cured her after six doctors failed. Rev. J. W. Hickman, Collyer, Trego Co., Kansas, cured of liver, kidney and bladder trouble, of many years' standing, from which he could only get temporary relief and had given up all hope of a cure. Thus the grand work goes on. A new book, entitled "A Thousand Living Witnesses," sent with the free case of medicine, tells of the wonderful cures performed in every state.

Not only does this great discovery—Alkavis (the Kava-Kava Compound)—cure all forms of kidney and bladder diseases, but by expelling from the blood all poisonous deposits, excess of lime, uric acid, urates and lithiates, it banishes gravel, torpid liver, rheumatism, pains in back, difficult and too frequent urination, etc. The cure is complete. No phase is neglected, and the stomach, heart and nerves are toned and invigorated. No other medicine in the world will perform the work of Alkavis. To enable sufferers to get well and spread the glad tidings we have arranged to send a *Large Case of Alkavis* FREE by mail to all who write us. The case goes entirely FREE.

If you are a sufferer, write to-day and secure at once a *Free Case of Alkavis* and Book of "A Thousand Living Witnesses." Address The Church Kidney Cure Co., No. 166 Fourth Ave., New York. Please mention this paper.

Annual Ball of the Rugby Football Club.

LIST OF INVITED GUESTS

The Opera House Thronged With Youth and Beauty.

A Dazzling Scene—The Ball an Unqualified Success—Much Credit Due the Committee Who Managed the Affair.

The second annual ball under the auspices of Peterborough's Rugby Football Club was given in the Opera House last night, when a large and select gathering of lovers of the Terpsichorean art spent a very pleasant time. Credit is due the Committee for a perfect arrangement of details so indispensable to their guests' comfort and enjoyment, and the affair was a success in every way. Very acceptable music was furnished by the Misses Hurley, and the supper provided by the patronesses of the event and served by Mr. Geo. Graham's chief and assistants, proved to be par excellence. The hall had been artistically decorated by Messrs. J. J. Turner & Sons, and presented a truly brilliant appearance; these well known decorators had excelled themselves for this occasion, and demonstrated that no task in this line is beyond their skill. Festoons of flags of every description hung from the ceiling, while the walls were refreshingly relieved by beautiful Canadian and British ensigns. At the rear of the hall was seen the inscription "God Save the Queen," and immediately below, a picture of Her Majesty and the Prince of Wales, from the brush of Reg. Turner. Both stage boxes were gaily dressed in flags and many colored buntin, while the gallery was enlivened by tissue paper decorations and emblematic shields. The stage also presented a truly attractive appearance, handsomely carpeted, and charmingly beautified by ferns, plants and flowers, kindly loaned by Mr. Jas. Head.

ALVORDS LIVED HIGH KEPT COSTLY STABLE

A Warrant Out for the Arrest of the Missing Teller.

New York, N.Y., Oct. 24.—The whereabouts of Cornelius Lansing Alvord jr., who looted the First National Bank to the extent of $700,000, is unknown, and his handsome home at Mount Vernon is being closely watched by detectives.

W. G. Snow, an assistant cashier of the bank, who lives in Mont Clair, said that he had no authority to tell any of the details of the matter, but continued. "The money which was stolen came out of the profits accruing to the bank, and not out of the capital. If I could explain the methods of the defaulter to you you would see that they were very simple. The stealing has been going on for five or six years. The bank examiners should have discovered it, and so should we, but it was one little thing we all overlooked.

"We trusted Alvord implicitly, and had not the least suspicion of him until last Thursday. On that day, while the bank examiner was inspecting the books, one of our clerks called our attention to a circumstance that made us suspicious of Alvord at once. He had discovered this circumstance by the merest chance. Then a few of us who knew about the clerk's discovery started an investigation of the books. We found that by making false entries Alvord had been stealing out of our profits.

"I wish I could explain his trick to you. It is so simple. We all are greatly chagrined to think that he could have fooled us by it. Years ago we lost a few thousand in the same way, and we took special precautions which we thought would prevent anything like it in the future."

WHAT BOOKMAKERS SAY.

A bookmaker well known to the Broadway loungers had this to say of the missing man's acts at Saratoga.

"Alvord was a regular frequenter of the tracks. He was always accompanied by a woman with blonde hair, who wore a filmy veil, which served to hide her features.

"He generally bet on the English system; that is to say, he knew all the bookmakers by sight, and at a race he would go to a bookie saying. 'Bet me $500 on this horse.' He would go the round of the bookies putting a bet with each one. Then every Monday all the bookmakers would go to the United States hotel and there he would settle up in spot cash. Never any checks, and every Monday regularly. Because of this peculiarity the bookmakers used to call him 'the prince.'"

Al. Davis, another turfman, made the statement that in Saratoga Alvord was known as the Hon. Mr. Alvord, the younger son of an English Earl.

Alvord was born in Syracuse and belongs to a family of bankers. His father was Cornelius L. Alvord, brother of the late Thomas F. Alvord, formerly Lieutenant-Governor of the State.

Cornelius Alvord, sr., was one of the best known men in Central New York, when thirty years ago the family moved from Syracuse to a town between Albany and Hudson. He was treasurer of the Bank of Salina. Afterward he became treasurer of the Salt Springs National Bank.

New York, Oct. 24.—Cornelius L. Alvord, the defaulting teller of the First National Bank, has not yet been arrested, and it was said no news had been received of him. Mrs. Alvord left her home in Mount Vernon and came to this city this morning. Several dectives guarded the Alvord residence all night.

It was learned to-day that when the Alvords went to Sartoga last summer, they took with them all their horses and carriages. It took two cars to transport the outfit. The horses were blooded animals and the vehicles were all of the handsomest design. One set of harness alone is said to have cost $1,500, and everything about the stable equipment was on the same scale.

A meeting of the officials of the First National Bank was held this forenoon. It is thought that steps will be taken today or to-morrow to attach all property belonging to Alvord which the bank officials can lay their hands on. Another step that will be taken immediately is swear out a warrant before the U.S. courts for the arrest of Alvord. This is a matter of precaution in case Alvord should have left the country.

FINANCIAL CRISIS AFFECTS SWEDEN

Manufacturers in Desperate Straits For Money

London, Oct. 24.—A despatch to The Daily Mail from Stockholm, Sweden, says. "The extraordinary scarcity of money, which has been growing more acute for a month, is so seriously affecting commercial circles as to threaten a crisis. The balance of foreign trade continues against Sweeden and the repeated contraction of gold loans abroad fail to palliate the situation. Industries capital is unavailable, and the newspapers are filled with appeals from manufacturers in desperate straits for money.

"Rural people attracted by the industrial activity are flocking to the towns, and consequently the demand for houses is so great that rents have advanced twenty to thirty per cent. The civil servants have already been granted twenty per cent, increase in pay to meet the hard times, and it is expected employers generally will have to follow suit."

EAST NORTHUMBERLAND

Rev B. B. Denike, of Campbellford Pushing the Fight.

The entrance of Rev. B. Denike, of Campbellford, into the political arena, has had the effect of greatly stiffening the fight in East Northumberland. Mr. Denike is a fluent speaker, and has the respect and esteem of all classes of the community.

For many years Mr. Denike has managed the affairs of the Sun Life Assurance Company in Campbellford, having been obliged to quit the Ministry on account of throat troubles. He has been very successful in business, and has hosts of friends who will regard his political future with favor.

WEATHER NOTES.

Probs., To-day—Moderate easterly winds; fine.

The weather continues unseasonably warm from Lake Superior to the Atlantic, but in the Northwest it is cooler and sharp frosts occurred last night.

KRUGER NOT WELCOME

Belgian Government Does not Want Him in Brussels.

BOB SENT HIS REGRETS

Lt.-Col. Otter Makes an Official Report to the Militia Department.

London, Oct. 24.—Lord Roberts has sent the following despatch to the War Office.

"Pretoria, Sunday, Oct. 21.—Referring to your telegram of Oct. 9th. No orders have been placed by Col. Girouard in America, I believe Wernhere, Beit & Company acting for various mining firms have owing to the inability of English houses to complete orders on time, placed a portion of their orders in America.

BOER OFFICIALS ARRIVE IN EUROPE.

Naples, Oct. 24.—The Transvaal Foreign Secretary, Postmaster General and Treasurer have arrived here on board the German steamer Herzeg. They proceeded to Hamburg.

Ottawa, Oct. 24.—(Special) — The Militia Department has given out the official reports received from South Africa. The references in Col. Otter's report to the return of the contingent to Canada commences with an entry from Erste Fabricken, Sept. 9th. It states that a telegram has been received from the officer commanding the line of communications at Middleburg, that the War Office desired to know the matter of the regiment whose service expired to October, who wished to return to Canada, and those who will voluntarily extend their service. "This telegram," the entry continues, "was also sent by the O. C. to detachments of the regiment at Olifant's River and Silverton. In view of previous correspondence and arrangement with the commander-in chief, the O. C. takes no immediate action in this matter pending an interview with Lord Roberts, which he hoped to have to-morrow." The next day, Sept. 10, there is another mention of the subject as follows.—"Lord Roberts received at noon and stopped over a few minutes to express his pleasure on learning that the battalion would prolong its service, as a different action on its part would likely cause other colonial corps to also withdraw. A regimental order issued to battalion giving details of subject. A cable to G. O. C., Ottawa, detailing action taken and asking for instructions. Cable delayed in transmission until 11th June." The next entry is Sept. 11—Officer commanding went to Silverton in this morning to speak too fficers and men on subject of retention in South Africa, but owing to ridiculous contention of Capt. Stairs on the subject, did not do so. Wrote officially to O. G., Ottawa, full particulars of the matter. On Sept. 12 the following entry was made in letters received from Capts. Barker and Fraser, reporting their men not satisfied to re-engage of stay longer.

"On Sept. 13 received letters from Major Pelletier, aCpt. Barker, Fraser, and Lieut. Swift, notifying the refusal of the men of the 'C,' 'E' and 'F' companies to re-engage for further service in South Africa, and also same from Capt. Stairs, Of 'H' company. Officer commanding wired to Lord Roberts the desire of the majority of the officers and men, and asked that such be complied with."

LORD ROBERTS REGRETS.

Sept. 14.—"Message by wire from Lord Roberts at 9 a.m. regretting division the regiment had come to, as it was unlikely its service will be required much longer, and its going away now will prevent it taking part in the annexation ceremony at Pretoria and being present at the proposed review in England by her Majesty, and further, that if the officers and men still wish to return, necessary transportation will be made."

"Officer Commanding published his own message of 13th inst, to the Commander-in-chief, and also the reply, in regimental orders, wiring same to detachments at Olifant's Rives and armoured train, and in manscript to Silverton and details at Elandsfontein.

"Captain Stairs, 'H' Co., reports that all his men desire to return to Canada at once, and Lieut. Lawless, 'D' Co., that 32 of his men wished to return and 12 to remain longer.

"No report yet from C. E. and F."

There are no further references to the matter in Col. Otter's report.

GOOD TURN DESERVES ANOTHER.

New York, Oct. 24.—The Queen did not pay her customary visit to the south of France last winter, and the shopkeepers of the French Riviera suffered financially in consequence, says the London correspondent of the Tribune. They will not be pleased, therefore, to know that her Majesty proposes to desert the French for the Italian Mediterranean shore in the forthcoming season.

Brussels, Oct. 23.—(Special)—The Belgian Government has informed the Transvaal agency that a long sojourn for Kruger in Brussels would be unwelcome and calculated to occasion anti-British demonstrations, which the Government cannot allow. Therefore the agency publishes notice in the newspapers announcing notice in the newspapers announcing Kruger's refusal to accept the hospitility offered him by Ander Lecht, a rich Dutchman, in his villa in a Brussels suburg. Kruger will only pass through Belgium without stopping.

It is also quite certain Queen Wilhelmina will accord simply a private audience devoid of all official character, to the ex-President.

BULLER AT CAPETOWN.

London, Oct. 22.—Gen Buller arrived at Cape Town on the Hawarden Castle to-day. He was not expected, and there was no demonstration.

IMPERIAL TROOPS BEATEN

German Kaiser Fears His Grandmother Queen Victoria.

Vienna, Oct. 24.—Austria Hungary has given her assent to the Anglo-German agreement.

Canton, Oct. 24.—According to official reports, all the cities in the Hui Chow Prefecture are still holding out, the rebels confining themselves to capturing villages and slaughtering isolated bodies of Imperial troops. The rebels are also actively recruiting and are now estimated to number 10,000. There has been no pitched battle, but the Chinese general commanding at Hui Chow is afraid to leave the city, for fear of being cut off.

RULE THROUGH NATIVE PRINCES.

New York, Oct. 24.—The Rev. Dr. W. A. P. Martin, of the Imperial University, Pekin, who is staying at the home of his son, here, said of the Chinese problem—

"The best remedy of the situation is the re-establishment of the young Emperor, who possesses liberal and progressive ideas. If he cannot be put on the throne, one of two things will follow. Either native princes will divide the country, or foreign countries will cut it up and rule through native princes. The latter, I believe, would be the better of the two."

KAISER FEARS HIS GRANDMOTHER.

New York, Oct. 24.—Lord Salisbury's explanations of the motives of the Anglo-German alliance will find a sympathetic hearing at Balmoral, says the Tribune's London correspondent. It is a current saying that the only person of whom the German Emperor stands in awe is his grandmother, Queen Victoria. He is influenced by her, and she has a strong affection for him. Her sympathies have always been excited when England and Germany have been working together in diplomacy. The two Governments already had a secret understanding respecting African schemes of partition before this fresh agreement was made, and many of the best informed men in the diplomatic world have been convinced that it also includes possible contingencies in the Far East. It is not indeed, a new thing for Lord Salisbury to make a secret arrangement with Continental powers.

What is unusual is the peculiar manner in which this fresh compact has been sprung upon Europe. That baffles conjecture.

A PITIFUL APPEAL.

London, Oct. 24.—A despatch to the Central News from Rome states that King Victor Emmanuel to-day received a pitifully worded cable despatch from the Emperor of China, praying for his intercession in behalf of China.

LE TEMPS' OPINION.

Paris, Oct. 24.—The Temps, which is a semi-official organ, under a London date, says—

"The belief in diplomatic circles is that the Anglo-German agreement is purely a mutual guarantee against either country seizing the Yang Tze Kiang Valley Germany, even if not in an economic crisis, is at least in serious embarrassments, owning to considerable overproduction, brought about by the enormous industrial machinery which she has created at a great cost.

"She, therefore, seeing commercial outlets, cast her eyes on China, and especially the Yang Tze Kiang Valley, and fearing England might attempt to seize that territory, she signed the published agreement.

"Diplomats are convinced that no secret clause exits. The third article applies to the eventuality of Russia definitely seizing Manchuria, in which case Germany and England would divide the Yang Tze Kiany Valley. But there are reasons to believe this will not occurr, because Russia is determined not to seize Manchuria."

The officials of the British Foreign Office say the Anglo-German agreement will not effect Russia's railroad concessions in Manchuria. They point out that the object of the agreement is the upholding of the integrity of China, without reference to the arrangements of the powers regarding the construction of railroads in China.

THE SUN AND COLD STORAGE

The New York Sun seems to be favorably impressed with Sir Charles Tupper's cold storage manifesto. It says—

"The Conservatives of the Dominion seem to have made up their minds that a substantial and attainable boon must be substituted for the illusory 'trade preference' plank in their political platform. The Canadian farmers can not be convinced that Great Britain will ever tax the food products of other countries for their benefit and the Canadian manufacturers do not want such a concession, because they foresee that they would have to pay a ruinous price for it by admitting British fabrics duty free. If then, the agricultural interest is to be won over to the Conservative side, some promise must be made to it, for the fulfillment of which the prospective beneficiaries may look to Ottawa instead of London.

"Sir Charles Tupper has shown himself equal to the emergency. He proposes to use the public funds of the Dominion for the purpose of providing cold storage and effective transportation of perishable food staples, such as are produced in Canada and consumed in Great Britain. That is to say, in the matter of placing perishable commodities on the British market he offers on behalf of the Conservative party a promise to place Canada on an equal footing with New Zealand, Australia, the Argentine Republic and the United States. At present the Dominion sends to England but a small fraction of the food supplies which are benefited by cold storage and quick transportation. This will be rendered clear by a glance at some statistics. In ten months of the last fiscal year Great Britian imported 385,116,368 pounds of butter, whereof Canada furnished only 27,479,200 pounds. Of bacon Great Britain imported from all the world 570,829,280 pounds, of which Canada contributed but 55,748,560 pounds. Of the vast quantity of eggs consumed in Great Britain Canada forwarded only about 4 per cent. Her contribution of fresh meats, poultry, vegetables and fruits were even more insignificant. Here, according to Sir Charles Tupper, is a field in which the Canadian farmers might obtain great advantages at the hands of a government that had their interests at heart. Why, he asks, should not Canada fresh beef and mutton undersell the beef and mutton of New Zealand in the British market, and why should not Canadian poultry, butter and eggs undersell similar commodities imported into England from Denmark and Normandy? For what purpose, he adds, could the public funds of the Dominion be better expended than in improving the condition of Canadian food producers in the markets of the United Kingdom?"

The Sun concludes—

"To an onlooker it seems that the Conservative leader has at last hit upon a method of appealing to the farmers, but it is obvious that Sir Wilfred Laurier can outbid him, if he chooses, for he can quickly perform what Sir Charles Tupper merely promises to accomplish at a future day."

Still we don't know that the distinguished approval of the New York Sun is worth any startling amount in the present campaign to Sir Charles Tupper.

"Caliber 54"—Story of a Little Hero

When General W. T. Sherman was alive, he was often greeted with the shout, "Caliber 54." Old soldiers would shout it sometimes without understanding its significance, says the Pittsburg News. Its origin is well deserving of a place in history, especially as it proves that even the little drummer boys who were in the field in the Civil war, like the late T. C. E. Ecclesine, often did as efficient service as the older boys.

"Caliber 54" had its origin at the battle of Shiloh. General Sherman was riding along over the field hurrying to get to his troops when he heard a delicate voice calling: "General Sherman! General Sherman!" The old war hero stopped, and the boy piped out:

"The —— Illinois regiment is over there on the hill holding the rebels back as much as they can and they're all out of ammunition and they want some." And then, with as much volume of voice as he could muster, he added. "Caliber 54." That was the most important part of the message, for the wagon trains might have gone with loads of ammunition and if it hadn't been caliber 54 it would not have been of the least use.

General Sherman got down from his horse to pat the urchin's head, and to call him a "noble little fellow," when he saw three or four tears on the boy's cheek and he said: "There, don't cry, my little fellow; get right along back, for we're going to whip them."

"I know that," said the boy, "but when I was coming here to give you the colonel's message, a rebel's bullet struck me here," pointing to the calf of his leg. "I was crawling along the ground the best I could, and I knew I could catch you."

Then the general assisted the lad to the hospital, and a few days later he went home to his mother in Vermont. But "Caliber 54" lives in history.

An Appropriate Text.

A little girl who lives up town went to church last Sunday. She is a bright little maiden and, considering her tender age, only six, she is decidedly intelligent. Her mother has been suffering from the grip and didn't accompany her, and as her father was away from home she went alone.

Whether it was the loneliness of the big pew or whether the church was poorly heated, mamma wasn't quite sure, but, anyway, the little maid came home and declared she was very chilly.

"My toes got so cold while I was sitting there, mamma," she declared. "And so did my fingers and my nose. I don't believe there was hardly a speck of fire in the furnace."

"That was too bad," said mamma; "did the other people seem to suffer, too?"

"Oh, yes, they did," cried the little maid. "They just shivered!"

Then mamma thought she would divert the little maid's attention.

"What was the text, dear?" she asked; "can you remember it?"

"I should think I could," was the quick answer: "I can 'member every word of it."

"Well, what was it?"

The little maid put her head on one side and screwing up her face, shrilly intoned:

"'Many are cold, but few are frozen!'"

And mamma had to admit that it seemed remarkably appropriate.

Willing to Concede.

At a convival party, recently, a gentleman who had returned from a lengthened tour in the East, was relating some of the wonderful things he had seen on his travels. The yarns he spun were decidedly "steep," but the guests politely accepted his statements as true. Encouraged by the reception accorded to his tallest stories he ventured to state that he had seen at the foot of the Himalayas a tiger forty-three feet long, from the tip of the nose to the tip of the tail. This was too much, and everybody kept silence, until a gentleman from Oban dryly remarked:

"Oh, yes, the works of Nature are very wonderful and very large whatever. Just last week I saw a skate brought ashore at Oban, which covered a quarter of an acre of ground."

Nobody spoke, and amid the silence the Eastern traveler left the room. The host, perceiving that something was amiss, rose and followed him.

"Is there anything wrong?" he asked.

"I have been insulted," said the traveler. "That Scotch gentleman has dealt a blow at my veracity, and I cannot return until he apologizes."

Anxious that harmony should prevail among his guests, the host returned to the room, and explaining matters to the company, asked the Highlander to make an apology, if merely for form's sake.

"Weel," said he, "I'll no just apologise, but tell him to come back and take a few feet off the teegur, and we'll see what can be done wi' the skate."

He Could Wait.

A boy was sitting lazily in the stern of a boat dangling his feet in the water, when a man from the dock called sharply to him:

"What are you doin' there?"

"Nothin'," responded the boy.

"Do you get any pay for it?"

"No," and he drew one foot out of the water, ready to run if necessary.

"Why don't you go to work?"

"Will you get me a job?"

"Yes."

"Steady?"

"Yes."

"Pay anything?"

"Well, no," hesitated the man—"not the first week."

"How about the second?"

"Then I will."

"All right; I'll come round the second week. This is good enough for me now," and the boy put his foot back into the water, and winked at the man on the dock.

House Work

Seems easy to a man, but there is a great deal of lifting and reaching to do; a great many trips up and down stairs to make in the course of day's house work. It's hard where a woman is well. For a woman suffering with some form of "female trouble" it is daily torment. There are thousands of such women struggling along, day by day, in increasing misery. There are other thousands who have found a complete cure of their disease in the use of Dr. Pierce's Favorite Prescription. It stops debilitating drains, cures irregularity, heals inflammation and ulceration, nourishes the nerves, and gives vitality and vigor. It makes weak women strong and sick women well. It contains no opium, cocaine nor other narcotic.

"For a number of months I suffered with female trouble," writes Miss Agnes McGowne, of 1314 Bank St., Washington, D. C. "I tried various remedies, but none seemed to do me any permanent good. The doctor said it was the worst case of internal trouble they ever had. I decided to write to you for help. I received a very encouraging reply, and commenced treatment at once. I had not used your 'Favorite Prescription' a week before I began to feel better, and, as I continued, my health gradually improved. It is improving every day."

Dr. Pierce's Common Sense Medical Adviser is sent *free* on receipt of stamps to pay cost of customs and mailing *only*. Send 31 one-cent stamps for a book in paper covers, or 50 stamps in cloth, to Dr. R. V. Pierce, Buffalo, N. Y.

ATTACK of ROYAL CANADIANS at Paardeberg

The present is a time when war pictures are in greater demand than ever. The conduct of the British soldiers on the battlefield has won the plaudits of admiring nations. We have at great expense published four large, beautiful pictures, size 20x24, on heavy, superfine calendered paper. A picture that will commend itself and send a thrill to the heart of every true Canadian is the one called Attack of Royal Canadians at Paardeberg, there are literally hundreds of figures on this picture, the mountains or kopjes stretching out into the distance are swarming with men, while here and there a prostrate figure speaks only too well of the Boer rifleman. It was on this battlefield the gallant Major Arnold met death unflinchingly. Indeed, it is only too true that many of those gallant hearts that beat so high when the cheering thousands bade them Godspeed as they sailed from Canada's shores now lie still forever in lonely graves on the other side of the world under African skies. To every Canadian heart, to every Canadian home, the deeds of their brave soldier boys speak with an irresistible thrill of patriotism and pride. Gordon Highlanders at the Battle of Belmont, Charging the Boer Guns at Elandslaagte and the Charge of Gen. French's Cavalry on the Retreating Gen. Cronje's Army. These are all stirring pictures and cannot fail to commend themselves to anyone who will examine them. They are RED HOT SELLERS! Agents coin money. Big profits. Enormous success. One agent sold 65 in one day. Sample and terms 25 cts (none free); four for 80 cts; $2.75 per dozen; 25 for $5.25; 50 for $8.00; 100 for $11.00 Write to day for a dozen and make money. Address to the Electors

To the Free and Independent Electors of West Peterborough—

Gentlemen.—Having accepted the unanimous nomination of the Liberals of this Riding, as a candidate for its representation in the House of Commons I hereby respectfully solicit your support in securing my return at the coming general elections.

The grounds upon which I base my appeal are not so much nor chiefly by any means, my personal fitness for the position of your representation though as a citizen of Peterborough and interested in its progress in common with that of the country, I can and do promise, if elected, an intelligent support of such a public policy and such measures as will best conduce to the promotion of all the interests of Canada, the developement of her great resources and the general betterment of the civil moral and material condition of the public; and my best abilities and most assiduous attention shall be devoted to the faithful discharge of my representative duties.

The strongest ground, however, of my appeal consists in the fact that I am a firm supporter of the Liberal Government led by Sir Wilfred Laurier, which is entitled to the renewed confidence of the people, both on the ground of its policy and the splendid record established by the application of that policy. The Liberal party appealed to the country in 1896 upon a clearly defined policy and the promised results followed.

The Liberal party promised a reduction of a high tariff that hampered our industrial and agricultural interests and was hostile to the Mother Country.

The tariff was materially reduced and otherwise improved and in such a way as to help instead of hinder the manufacturer and farmer, with the consequence that never before in the history of the country have our industries or our farmers enjoyed such great prosperity, our mechanics and working men such constant employment and high wages, nor our commercial and all other interests so flourished.

Our domestic and foreign trade have also greatly increased. The loyal gift of a trade preference, represented by a tariff reduction on British goods of 33 1-3 per cent., and our despatch of the Canadian Contingent, have resulted in a kindlier feeling towards Canada and greatly increased trade with the Mother Country.

With a largely reduced rate of tariff, our revenue has greatly expanded so that the Government was warranted in practicing true economy (reducing our postal rate one third, giving Imperial penny postage,) and permitting of the completion of great public works, deepening our canals, so long trifled with, pushing the work on the Trent Valley Canal which is now urged and will be urged to completion by the Liberal Government, and the application of a vigorous policy of general development and improvement of our transportation facilities, resulting and to result in easier access to the British market and better prices for all our products.

The farming interests of the country are deserving of the best services of a Government, such as the present has given. The immense impetus given the produce trade between Canada and Great Britain, through the preferential tariff, has been greatly helped by the action of the Government in providing an excellent and adequate system of cold storage, by which Canadian products can be landed in Great Britain in first-class condition, guaranteeing the highest prices. The system is of the most modern character, sufficient for all the present needs of the trade, and it will be improved and enlarged as experience suggests, and increase of the produce trade demands, and I shall, if elected, feel it my duty to support any policy that will improve our trade with the Mother Country, and strengthens the bond of British connection, of which we are so proud.

In an industrial centre like Peterborough the claims of the working classes are especially deserving of consideration. No country is well governed that does not look after the interests of all classes of the community. The Conservative Government has been, and the Conservative party declares itself to be, extremely solicitous of the interests of the capitalist classes—the manufacturers—but it left the working classes to largely shift for themselves. A Liberal Government came into power, and the attitude towards Labour was changed, and the rights of Labour to its rights recognised, and in a practical way. A Department of Labour has been established and a Minister of Labour placed over it. A Labour Gazette has been established in the interests of workingmen, published monthly; conditions have been inserted in all Government contracts compelling contractors to pay the highest current wages, which the Government guarantees the payment of; the sweating system has been abolished on Government work, enforced by a special officer, and in many other ways the Government has shown by deeds that the rights of the workingmen, as well as the capitalist, shall be protected. I heartily support the Government in what it has done, and shall support them in extending the benefits which they have already conferred, and which it is their policy to continue, as need arises.

The splendid achievements of Canadian soldiers in South Africa, make them worthy of the gratitude of the country. We have the best militia material in the world, and if we keep up a military establishment, let it be worthy of Canadians. Situated as Peterborough is, on the line of the Grand Trunk and Canadian Pacific Railways, and on the line of the Trent Valley Canal, begun as a military work, and now under course of completion, no other point in this Province is so well adapted for a military centre. I shall, therefore, feel it my duty to press upon the Government the advisability of constructing in Peterborough new armories and connected buildings for military stores for Ontario, and I feel that this is practicable of attainment at the hands of a Government which has shown its interest in our volunteers by placing the Militia Department, so greatly neglected by a previous administration, upon an effective basis, and will, therefore, more naturally be well disposed towards the improvement involved in making Peterborough a centre for military stores.

A town of the industrial and commercial importance of Peterborough, has certainly strong claims upon the good offices and of a Government. For the past four years the town has been represented, when it was represented in the House, by a member opposed to the Government. There is no doubt in the minds of unprejudiced observers, that the present Liberal Government will be strongly sustained in the country at the coming elections, and the question arises whether West Peterborough will have its interests better served by a member sitting in opposition and hostile to the Government and its policy, or by a member pledged to give the Government a fair support in the application of its policy. If elected I pledge myself to give my best ability and exertions to the promotion of the general good of the country, and to look especially after the interests of West Peterborough.

I cannot obviously here, enter into details of how in other ways the Liberal Government has implemented its promises and applied its policy, but I shall have an opportunity during the campaign of more fully dealing with these and other public questions.

As a supporter of such a Government I can appeal with confidence for the support of the Electors of West Peterborough, knowing that by helping to give, as you will do, through my election, a renewal of the trust the Liberal Government has discharged with such evident and gratifying results, they will be conferring a great and lasting good upon this riding, the country at large, and securing a continuation of the great blessings of prosperity and good government we now enjoy.

Again soliciting your support, your votes, and influence in this contest,

I have the honor to be,
gentlemen,
Your obedient servant,
J. H. McCLELLAN

"Of course, you have good references, miss?" she said, interrogatively.

"No," replied Izetta, sadly, "I have no references whatever."

"I am sorry, miss," she said, "but of course, I could not think of sending you to any of my customers without recommendations. If I were to judge from your face, that would be sufficient for me, but there are faces that are sadly deceptive— I do not mean offense when I say— I have learned not to trust too much to appearances."

She saw the distressed expression on the wistful face.

"You might remain here a week or so until you looked about," continued Mrs. Guth, kindly.

Izetta gladly availed herself of the opportunity, paying for two weeks board in advance.

"I shall certainly find something to do in that time," she told herself.

Izetta had never been thrown so much on her own resources as now. A long, weary week had passed. Everywhere she had been met with the same reply, no one could think of engaging her without reference. Often she had been rudely repulsed.

"How dared Mrs. Guth send them a person whom she could not recommend?" they said. "I am afraid I shall have to take your name from my books, Miss Rienzi," she said at last. "I cannot get the ill will of any more of my customers; I really cannot. I have done what I could for you; I am sorry it was without success."

Mrs. Guth was wondering how long she would be able to pay for her lodgings; she was heartily sorry she had taken her in.

Again the last dollar was taken from Izetta's purse.

"I must find something to do, or starve," she told herself.

She looked up at the bright blue sky and fleecy clouds.

"Ah, mother, mother, if I had but you," she cried, "I might bear it patiently!"

Since she had left Madam Root's the word husband had never crossed her lips.

"He has left me to die," she cried out in bitterness, "let me try to forget him."

It was easy to say those words, but only Heaven knew how that young heart yearned for him.

She was so fragile to buffet the wild storms of life.

Izetta knew so little of the ways of the world; still she readily understood that Mrs. Guth would wish her to go at once, when she had no money to pay for her board.

Twice dark thoughts, like grim sentinels, had rushed across her brain.

"I shall end it all to-morrow," she told herself, wearily. "After to-morrow I shall never need a recommendation."

She did not ask herself if men would forget, and God would forgive what she so sorrowfully meditated as a panacea for her woe.

As she neared the porch of her humble abode she saw Mrs. Guth in the doorway.

"I have good news for you, Miss Rienzi," she said; "I have secured you a situation."

The swift joy mounted to Izetta's eyes; she looked the gratitude she could not express in words.

"Sit down," said Mrs. Guth, "while I tell you all about it. It is with a very wealthy family, by the name of Hampton— the Hamptons, of Hampton Place, in the suburbs of Newburyport, ten miles from Boston. The family consists of mother and son. The lady is exceedingly peculiar. I cannot explain more to you. She is in want of a companion— it is against my rules, still, in this case, I recommended you myself, Miss Rienzi, and she has consented to see you."

She had scarcely ceased speaking when a coach, drawn by two dark horses, drew up before the door.

The equipage was a magnificent one; the only thing which detracted from its appearance was the dwarfish driver, who scrambled nimbly down from his seat, throwing open the carriage door for an elegantly-attired young man whom Mrs. Guth met at the door. The next moment the stranger was ushered into her presence.

Izetta could never explain the strange sensation of horror that stole over her as she raised her eyes, bowing quietly to Heath Hampton's careless nod.

There was a something in the bold glance of evident admiration he cast upon her that caused her heart to flutter like a caged bird against its prison bars.

She noticed he was darkly handsome; still, without knowing why, she felt a great distrust of him.

She also noticed, as he raised his white right hand to his forehead, it bore across it a deep, irregular, livid scar, upon which her eyes rested, strangely fascinated.

CHAPTER XX.

A Terrible Warning.

The preliminaries were satisfactorily arranged, and Izetta was soon seated in the coach beside Heath Hampton, whirling rapidly in the direction of Hampton Court.

Then, and not till then, did Hampton's true character begin to show itself, and Izetta noticed, with feelings of horror, that there were fumes of wine upon his breath; it was a rare occasion, indeed, when such was not the case.

"I had no idea," he said, breaking the silence Izetta so persistently attempted to maintain, "my mother had secured such a little jewel of a companion; indeed, I may say for the first time in life I shall envy my own mother such charming society."

Izetta was mentally praying their destination could not be far distant. In her wildest dreams she had never anticipated such a horror as this which was forced upon her.

"If you please, sir," she said, with dignity, "I should be very grateful if you would not talk to me so; I——"

A low, mocking laugh interrupted her.

"I sincerely hope you are not going to be prudish, Miss—Miss Rienzi," he said; "if there is anything I do detest, it is a prude; really, now, prudery does not become fresh, handsome faces like yours; leave that for homely old maids; my advice is wholesome, I assure you."

Izetta shrank from him, pale with unspeakable horror, scorn and disgust blazing from her dark eyes, as she pictured to herself— how could she live under the same roof with this man, when she found even the first few moments passed in his society almost unbearable?

THE COLORADO COPPER MINING COMPANY

LOCATION OF OUR MINES

THE COLORADO COPPER MINING COMPANY is fortunate in being the possessor of five splendid showing properties in the great Salida copper belt, the principal copper producing region of this portion of the rockies. All of our claims have been more or less developed and it is our purpose to put the same on a paying basis at once.

Our Company owns, clear of incumbrances the following claims,—The Sedalia Extension, the Sedalia Extension No. 2, which property adjoins the great Sedalia mine, which has been a big producer for upwards of seventeen years; the Copper King of Colorado, which immediately adjoins the above; the Copper Queen of Salida, a very promising property, only a few steps from the depot in Salida. This claim occupies an imposing position on a mountain just north of the city; and last, but by no means least, the Sunshine, located two miles east of Salida at Cleora station, on the main Trunk line of the great Denver and Rio Grande Railroad, also on the Arkansas river, which in length is one of America's greatest streams.

PRICES AND TERMS

PRESENT PRICES—We are now selling our fully paid and non-assessable TREASURY SHARES at 5 cents per share, in blocks of 100 shares and more; 100 shares, $5; 1,000 shares, $50; 5,000 shares, $250; or 10,000 shares or more at the same rate. Send your order right NOW, before the next advance, as you will soon pay a higher price. Investors are rapidly investing with us.

The company fully prepays all government revenue, postage, etc. Send also for our handsomely illustrated prospectus, which contains much valuable information. It is free for the asking.

All communications of every nature concerning this company should be plainly addressed to

TOWN AND COUNTY NEWS

Mr Lang's Committee.

Last night the friends of Mr. John Lang met in the Council Chamber, Ashburnham, and organized. There was a fair attendance, and considerable progress was made. Permanent Committee rooms have been opened.

Tramps on the Railway.

The Grand Trunk and Canadian Pacific railway authorities in the vicinity of Toronto, are having some difficulty with tramps. They are continually boarding trains to the annoyance of the train crews, who find great difficulty in keeping them off. The police department of both railways have the matter in hand now and expect to be rid of them in a few days.

Evidently Prospering

Norwood Register.—We are pleased to learn that it is the intention of the directors of East Peterborough Agricultural Society to erect a commodious building on the side of the elevation on the Society's ground here next season, for displaying of fine arts, ladies' work, domestic manufactures, etc. The present building will in all probability be used for roots, grains, seeds, vegetables, etc. This is a much needed improvement and the Directors should receive the active support of all our citizens in their enterprise.

THE BY-LAW PASSED.

Mud Lake Bridge By-Law Passed by County Council.

The County Council met yesterday in special session, and passed the By-law granting aid to the extent of $15,000 to the Chemong Lake bridge.

Mr. Wm. Collins, the efficient Secretary of the Poultry Association, addressed the Council and asked for a grant. The matter was referred to the Finance Committee, and a grant of $35 will probably be made.

Several other matters came before the Council, and were sent to Committee, and will be dealt with at to-day's session.

TOWN SABBATH SCHOOL ASSOC.

Weekly Union Meetings and a General Rally Arranged.

At a recent meeting of the Executive Committee, it was decided to begin the union weekly meetings for the study of the lesson of the following Sabbath, on Friday evening, November 2, in the Y.M. C.A. hall, at 8 o'clock sharp.

The lesson will be conducted each week by leaders, chosen in rotation from the different schools and churches, Rev. O. G. Hillett, of Park street, will conduct the lesson on November 2, and a representative from George Street Methodist School will have charge on November 9. When the lesson only is taken up, meetings will close at 9.

On the first and third Fridays in each month normal work will be taken up by Rev. H. Symonds. On these evenings, a shorter time will be given to the lesson, and the meeting will close at 9.30.

A rally will be held in St. Paul's school room on Friday, Nov. 16, at 7.45 sharp. Addresses by Rev. W. W. Wagg on "The Teacher's Ideal and the Ideal Teacher" and "Report of Brockville Convention," by Rev. J. G. Potter, B.A. Collection at door to defray expenses. All interested are invited to all the meetings.

JOTTINGS ABOUT TOWN

—The nominations will take place next Wednesday.

—Apples sell for 50 cents per barrel in Peterborough.

—The Gold Lake Hunting Club is preparing to go North.

—The farmers are making good time with their fall crops.

—This is the time of the year when men would like to pass a law against housecleaning.

—Rev. Mr. Symonds delivered a very interesting address at the Sabbath School convention at Brockville on Tuesday last.

If your stomach is weak it should have help. Hood's Sarsaparilla gives strength to the stomach and cures dyspepsia and indigestion.

Death or lunacy seemed the only alternative for a well-known and highly respected lady of Wingham, Ont., who had travelled over two continents in a vain search for a cure for nervous debility and dyspepsia. A friend recommended South American Nervine. One bottle helped, six bottles cured, and her own written testimony closes with these words: "It has saved my life."—20

PERSONAL MENTION

—Mr. H. P. Kennedy left this morning for a few weeks' visit in New York.

—Hon. Senator Cox is in town to-day on his way to Toronto from the peat works at Kirkfield.

—Mr. Sidney B. Weir, of Toronto, was in town for a few days, and left for the city again this morning.

—Mr. and Mrs. W. B. Bamford have arrived home from a pleasant two weeks' visit to Buffalo, New York, and other places.

—Mr. Turpin, the genial representative of Messrs. Barnard & Holland, of Montreal, dealers in crockery and china, is registered at the Oriental.

The Times yesterday had a call from Messrs. Thomas Eastland, the popular representative of the northern division of the County Council, and Mr. Wm. Galion, the efficient Reeve of Burleigh.

—Mr. J. W. Smith, of the Crown Timber department of the Ontario Government, has returned from a trip to Chicago. Mr. Smith says that everything in the West points to the re-election of President McKinley.

—Dr. Court King returned yesterday from a trip to the Maritime Provinces. The doctor says that everything is elections down east. Money is plentiful, and business seems to be booming, especially in the mining districts of Cape Breton.

COUNTY POLICE COURT

A Series of Cases From Warsaw all due to a Dog

County Police Magistrate Edminson's Court was the scene of considerable interest on Tuesday, when the following result was arrived at.

Stephen Miller, charged with obstructing the police in the performance of their duty, case dismissed.

Stewart Miller, found guilty of obstructing a constable in the performance of his duty. Fined $10 and costs.

Stewart Miller, found guilty of common assault on Arthur Edwards. Fined $2 and costs.

David Miller, for causing a disturbance in a public place, $5 and costs.

It appears that a dog chased a skunk, and the former got the worst of it. On the return of the dog, one of the bunch of bystanders made a kick at the brute with the smell, when the owner interfered, and a general mix-up took place, in which a constable too, took a hand.

Waging War on Tramps.

Chicago, Oct. 24.—As tramps at this season prove to be a greater annoyance to the railroad companies than at any other, a determined effort is being made by many western railroads to drive the Weary Willies from the tracks. On the Santa Fe road special officers are arresting them in squads. The roads were compelled to take this action because the tramps caused great damage and detruction of railroad property all along the line.

STRUCK IT RICH

When They Needed it Bad

"When a two months' old baby refuses to nurse and cannot digest any of the 'baby food' or cow's milk prepared in different ways, we must do something or lose the baby. That was the condition of our little one about a year and a half ago.

We tried every baby food on the market, besides the cow's milk, but nothing seemed to agree with him. He suffered from indigestion until by the time he was nine months old, he had grown so weak and emaciated that we didn't think he could live. At last his stomach refused to take anything, and for three days the little fellow was actually starving for something he could digest.

"I happened to have a box of Grape-Nuts in the house and getting a teaspoonful, poured a little hot water over it, letting the food stand a few minutes, then gave the baby the brown water which had the strength of the Grape-Nuts in it. He could take but two spoonsful at a time and then rest a while.

"His stomach retained the food and after one day's use of the Grape-Nuts in this way, his bowels were right, for the first time in six months. I continued to feed him the water from the Grape-Nuts and a little cream and later on the softened food itself and he steadily improved, his little body and limbs beginning to get round and plump, and by the time he was a year old, he was as large again as when nine months old. At 15 months, he weighed 33 pounds, and now at 18 months, he is a great, fat, jolly baby, climbing and going everywhere, full of fun, rosy cheeks, and bright eyes.

"During all this time his food has been Grape-Nuts; just the water at first, then later on he had the food itself. He is the best advertisement Grape-Nuts could have in this town, for every one knew his condition and no one thought he could possibly live. We give all the praise to this most valuable food, and never lose an opportunity to recommend it to persons suffering from indigestion and lack of nourishment." Mrs. C. D. Johnston, Greenfield, Ind.

Actual proof is better than all theory, yet it is well to know that Grape-Nuts food is made scientifically and made for a purpose. The most powerful elements in wheat and barley are used and so prepared as to furnish the human body with those food elements, predigested in a natural manner; that is, turned from starch into grape sugar.

The food is powerful enough for athletes and easy enough of digestion (as shown by the above experience) for the weakest babe.

DUTY AND THE FARMER.

Editor Morning Times,

Sir,—It is amusing to read the Examiner on the agricultural implement question. The old N.P., under the Conservative administration, gave the agricultural implement manufacturers a certain protective duty, but the Liberals have gone one better and made them a present of the duty on iron, etc., which they took off. Hence the agricultural implement manufacturers have both the old N.P. duty and the duty on raw material, or about twice the protective duty of the Conservatives! But what have farmers got out of it? Ask them and they will soon tell you that they have been "gold bricked." This important fact the Grit speakers and the Examiner have been trying to minimize by saying that those who criticize the double-barrelled duty of the Liberals are free traders and not protectionists, but this herring won't draw. You can't fool the people. Honest protection is what the people want, but as in all them of the borrowed (?) policies, the Liberals contrive to bungle the whole thing

A VOTER.

A HAPPY CONTRAST.

Editor Morning Times,

Sir,—I was one of those who attended the Mulock meeting on Saturday night, and also the Montague meeting on Tuesday evening, and can bear testimony to the noisy character of one and the orderly character of the other. This, to me at least, is an eloquent reproof of the methods of the Conservative crowd who created the racket at the first meeting. When men descend to disturb a public debate because the arguments used are unpleasant, it shows not only a lamentably weak side, but also a vicious disregard of other people's feelings. I am sure, Mr. Editor, that Mr. Kendry was personally guiltless of having anything to do with the disturbance referred to.

I cannot close without saying a word about the Times. I congratulate you, dear Sir, on the fair and manly course of the paper during the campaign, administering, as you frequently do, rebuke where rebuke is needed. If our newspapers were less under the domination of party, their influence would be much greater. I believe that nearly all mechanics in town read the Times, and I know that its influence is felt for the purging of dirty politics.

Thanking you Mr. Editor, I am, etc.,

J. R. HAMILTON.

Inquest Again Adjourned

The inquest to enquire into the cause of Sam Lung's death was resumed in the Town Clerk's office last night. Mr. Fessenden testified that after a thorough test of the transformer, he did not think sufficient current could have been transmitted by that means from the primary wire to the secondary wire to cause deceased's death. And he would be very much surprised to learn for certain that 53 volts had killed any person.

Mr. Ritchie, of the Canadian General Electric Works, under examination, agreed with Mr. Fessenden, and explained that the heat of the lamp upon which deceased was found lying would be sufficient to burn the hole in his body, even if only 53 volts were passing along the wire. The inquest was adjourned till Friday evening at 7.30.

PETERBORO CHEESE BOARD

The Highest Price Paid this Week was 10 and 14-16 ths,

The regular meeting of the Peterborough Cheese Board was held in the Town Council Chamber this morning, when most of the factories sold at 10 13-16.

The president, Mr. Drummond, occupied the chair, and there were present the following buyers, Messrs. Bailey, Wrighton, Rollins, Whitton. Cook, Fitzgerald, Kerr, Cluxton, Moore and Squires.

Before the factories boarded, Mr. Fitzgerald brought to the notice of the board the fact that since the last meeting of the board, one of the buyers, Mr. Watkins, had lost by death his wife and sister. He alluded briefly to Mr. Watkins' popularity, and the sincere loss he had sustained. He therefore moved, seconded by Mr. Bailey, that the secretary forward a resolution expressing the sympathy of the Board in his sad affliction. This needless to say, was unanimously adopted.

The factories boarded as follows.

Keene	160
Warminster	105
Shearer	85
Central Smith	140
North Smith	160
Villiers	85
Warsaw	108
Westwood	160
Oakdale	150
Missing Link	80
Daisy D	80
Lakefield	130
Trewern	100
Bensfort	112
Cedardale	60
Stony Lake	60
Cavanville	165
Mount Pleasant	78
Fleetwood	107
Oakleaf	40
Brickley	50
Piengrove	100
Peterborough	60
Otonabee Union	60
Maple Leaf	90
Myrtle	80
Ormonde	170
Young's Point	96
Lang	160
Fraserville	130
Indian River	100
Ballyduff	45
East Emily	62

The bidding opened at 10 1-4 by Mr. Bailey. Mr. Fitzgerald went 10 1-2 Mr. Wrighton, 10 5-8, Mr. Cook 10 3-4 and Mr. Whitton 10 13-16. He got the call and took Keene, Shearer, Villiers, Westwood, Fraserville, Indian River, Bensfort and Warsaw, all of which accepted. The same buyer offered 10 3-4 for further selections, but Mr. Rollins went 13-16 and picked up Warminster, North Smith, Oakdale, Maple Leaf, Daisy D, Cedardale and Stony Lake.

Mr. Cook at 10 13-16 called Pine Grove, Central Smit, Lakefield, Ormonde, Trewern, and Young's Point. They accepted.

10 13-16 was still the ruling price, and at that figure Peterborough, Otonabee Union, Missing Link, Cavanville, Mount Pleasant, Fleetwood and Oakleaf sold to Mr. Bailey. The same gentleman at 10 3-4 carried off Myrtle, Lang, East Emily, which accepted, but Brickley refused.

KRUGER'S PURPOSE IN EUROPE.

May Seek Intervention to Secure Autonomy of Boer Republics.

London, Oct. 23.—A Times special from Brussels says—

"It is stated here that President Kruger will undertake a circular tour through the European capitals in an effort to obtain the intervention of the powers, not in favor of the independence of the Boer republics, but only for autonomy of the Transvaal and Orange colonies under the supremacy of England. The Transvaal agency is full of hope that Kruger will obtain a favorable hearing in France and Russia."

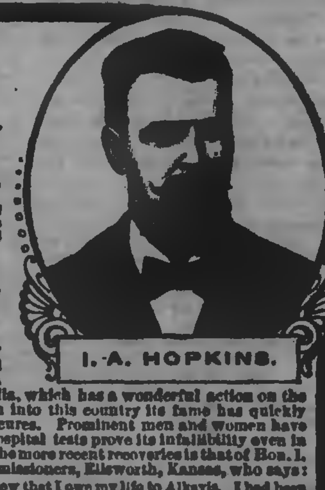
A WONDERFUL
KIDNEY and Bladder CURE

The Honorable Chairman of the Board of County Commissioners, Ellsworth, Kansas, tells how ALKAVIS cured him after Doctors and all other Remedies had Failed.



I. A. HOPKINS.

BRIGHT'S DISEASE, GRAVEL, DROPSY, And Rheumatism Mastered at Last.

One of the most remarkable medical discoveries of the century is the Kava-Kava Shrub, found on the Ganges River, East India, which has a wonderful action on the kidneys and bladder. Since its introduction into this country its fame has quickly spread, because of its seemingly impossible cures. Prominent men and women have testified to its great curative powers, and hospital tests prove its infallibility even in advanced stages of Bright's Disease. Among the more recent recoveries is that of Hon. I. A. Hopkins, Chairman Board of County Commissioners, Ellsworth, Kansas, who says:

GENTLEMEN:—I will say that I believe and know that I owe my life to Alkavis. I had been troubled with Kidney and Bladder Trouble for years. Two years ago I was sick for six weeks with Malarial Fever which left me in a bad condition. My limbs were swollen with Rheumatism so that I could hardly walk; I was troubled with Indigestion from taking Medicine for my Urinary troubles which had become very much worse. I had to get up every hour of the night to urinate. I passed great quantities of blood on account of hemorrhage of the Kidneys and Bladder. I tried and had been trying everything in the shape of Medicine for Kidney Trouble that I could think of or that the Doctors recommended, but nothing helped me for I kept getting worse. I suffered great pain continually in my Kidneys. I made up my mind unless I could get relief that I only had a short time to live. About this time my attention was called to an advertisement of Alkavis. As a drowning man will grasp at a straw, I was ready to try anything for relief. I sent to you for three bottles. I began to take it, and before I had taken it one week I began to feel the good effects of Alkavis. My Kidney Trouble and Rheumatism were soon gone, my digestion became all right, I found myself in better health than for ten years and I am in good health now. I know that Alkavis saved my life. What more can anyone say for a medicine? Unlike most medicines it is good for indigestion. It gives the person taking it a good appetite. I have recommended Alkavis to a great many people and all have been benefited by its use. I am 59 years of age, and am very grateful for what Alkavis has done for me.

Respectfully yours,
I. A. HOPKINS.

Rev. W. B. Moore, D. D., Washington, D. C., Editor Religious World, writes that after trying all known medicines for kidney and rheumatic diseases he was permanently cured by Alkavis. Mrs. Wm. H. Hardy, East Rush, Pa., writes that Alkavis cured her after six doctors failed. Rev. J. W. Hickman, Collyer, Trego Co., Kansas, cured of liver, kidney and bladder trouble, of many years' standing, from which he could only get temporary relief and had given up all hope of a cure. Thus the grand work goes on. A new book, entitled "A Thousand Living Witnesses," sent with the free case of medicine, tells of the wonderful cures performed in every state.

Not only does this great discovery—Alkavis (the Kava-Kava Compound)—cure all forms of kidney and bladder diseases, but by expelling from the blood all poisonous deposits, excess of lime, uric acid, urates and lithiates, it banishes gravel, torpid liver, rheumatism, pains in back, difficult and too frequent urination, etc. The cure is complete. No phase is neglected, and the stomach, heart and nerves are toned and invigorated. No other medicine in the world will perform the work of Alkavis. To enable sufferers to get well and spread the glad tidings we have arranged to send a Large Case of Alkavis FREE by mail to all who write us. The case goes entirely FREE.

If you are a sufferer, write to-day and secure at once a Free Case of Alkavis and Book of "A Thousand Living Witnesses." Address The Church Kidney Cure Co., No. 402 Fourth Ave., New York. Please mention this paper.

GERMANY APPROVES OF BRITAIN'S CONQUEST

Emperor Believes it is to His Country's Advantage for England to Control Africa

EX-PRESIDET KRUGER SET SAIL FOR EUROPE

Dutch Warship Gelderland Set Sail at Noon Today—Intervention of Europe is Again talked of, but a British Minister Says England will Fight all the Powers.

London, Oct. 20.—"I believe," said Emperor William recently, "that it is to Germany's advantage for England to have the Boer Republics."

The complete accuracy of this important quotation, which gained strength from the fact that it was not said with any idea of repetition of for the sake of mollifying some British diplomat, is reliably vouched for. The remark was made in the course of a conversation between the Emperor and one of the leading Germans, whose advice in matters of commercial policy his Majesty greatly relies upon, and who, by the way, is not a lover of Great Britain and her works. Through a recent visit of this individual to England the Associated Press secured knowledge of what may be fairly described as the Emperor's candid opinion of the South African matter. For several days the English and continental papers have contained hints and even assertions that Russia, France and Germany are contemplating joint action with the idea of coercing Great Britain into granting at least a degree of independence to the Boers. Several correspondents have adduced the most circumstantial details to prove the existence of this undercurrent of projected diplomacy between the powers mentioned, and while the English public has grown inured to intervention rumors, this latest revival has secured no small degree of credence and has even affected the markets.

AN EFFECTUAL REPLY.

Whether Russia and France ever contemplated such action is not known, but the circumstances under which Emperor William spoke effectually and definitely disposed of all possibility of any European intervention, for it is acknowledged on all sides that Russia and France would not act without Germany. There is even further significance in his Majesty's pronouncement, for, since he made the statement referred to his interviewer has conferred with the Boer delegates. This occurred only a few days ago, and it can be inferred that Dr. Leyds, the diplomatic agent of the Transvaal, was informed that it would be hopeless to expect any aid from Emperor William towards intervention campaign planned to sympathize with Mr. Kruger's arrival in Europe.

WOULD FIGHT EUROPE.

The British Foreign Office professes ignorance of any secret intentions on the part of the continental powers in regard to a settlement of the trouble in South Africa, and, indeed, appears genuinely to disbelieve the possibility of any such thing happening. How it would meet such an eventually, however, can be judged from an expression used by an official who is regarded as being more in Lord Salisbury's confidence than any other man, and who said to a representative oft he Associated Press.

"What, interference mooted again! Why, we would fight all Europe first."

ANTI-BRITISH FEELING.

To what extent Great Britain may be indebted to Emperor William for rendering such a serious alternative unnecessary can only be surmised, but it is not doubted here that the anti-British feeling among the people of France and Russia daily gains virulence, and that it is not likely to be decreased by the presence of ex-President Kruger in Europe.

The Associated Press further learns his Majesty's conviction that it would be to Germany's advantage to have the British control the Boer Republics sprang apparently not from any idea of gaining counter concession or from a general policy of friendship, but from a distinct idea that Germany's commerce would be immensely benefitted, and that the adjacent German territory would be improved.

KRUGER SAILS FOR EUROPE.

Lorenzo Marques, Oct. 20.—The Dutch cruiser Gelderland, with ex-President Kruger on board, sailed at noon. She will call at Dar Es Salaam, Tanga, Jibutil and Marseilles.

IDAHO AT CAPE VERD.

Halifax, N.S., Oct. 20.—The transport Idaho, with the Canadian Regiment on board, arrived at Cape Verde Islands to-day, according to a despatch to the Commercial Cable office in this city, received at 4 o'clock. Shipping men say that it will take the transport at least ten days to make the run to this port. The earliest date at which the transport can arrive here will therefore be the evening of Monday, October 29th. *It is quite probable she will not be here before the first of November.*

SAYS WAR IS IMMINENT.

Dowie Predicts Fighting Between Britain and France.

London, Oct. 21, 3 a.m.—According to John Alexander Dowie, overseer of the Christian Catholic Church, war between France and England will follow close on the heels of the Paris Exhibition. Speaking before a good-sized audience at the town hall in St. Martin, the Zionist said:

"My observations in France a few weeks ago convinced me that a certain clique of French military and naval men are conspiring to bring the French and British peoples into a war. While the present French Government lasts the plotted tragedy may be averted, but if the men who sent Dreyfus to Devil's Island obtain the power, prepare for bloody war.'

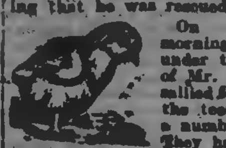
A JOLLY PARTY.

Return of a Toronto Party From Buckhorn on Saturday.

One of the jolliest parties of the season returned to their homes in Toronto from Buckhorn on Saturday. They spent the day in town, the guests of Mr. R. H. Jackson, of the Crown Hotel. The party consisted of the following members of the Toronto Rod and Gun Club—Messrs. T. D. Ellis, Ed. Trow, Jimmy Morgan, T. Caff and Dr. Charles Trow.

The party were in bad luck until Wednesday, when they were reinforced by ex-President Alf. Jackson, and Mr. R. H. Jackson, of the Crown Hotel, who drove out from town. The ex-President is a noted hunter, and has the reputation of being the only man in the Club who never experienced that peculiar feeling of returning after a long day's tramp through the woods with an empty game bag. His achievements with the rod and line are also marvellous. They would make the teeth of old Izaak Walton himself ache with envy, were he to hear him relate some of his fishing trips.

An incident worthy of record in connection with the hunt was the landing of Jimmy Morgan on a desolate island by one of the party, and leaving him there to hunt. He was forgotten and was not missed until the party returned to the hotel late at night. His companion was unable to tell in which direction the island lay, and it was only after considerable trouble and searching that he was rescued.



On Wednesday morning, the party under the direction of Mr. Alf. Jackson, sallied forth armed to the teeth, and with a number of guides. They had all fully made up their minds that the past was to be forgotten, and they would start afresh. Up to date the only thing in the way of game secured was a chipmunk, brought down by the unerring rifle of Mr. Ed. Trow. After hours of weary travelling through the heavy second growth, the party returned to the hotel, more weary than before, bearing with them one solitary partridge as the result of their united efforts. Our special artist succeeded in getting a good snap-shot of the bird, as shewn here.

The party were, however, in no wise discouraged, but returned to the woods the next two following days, and succeeded, we understand, in adding fresh laurels to their reputation as hunters.

A LOST SMALL BOY.

Came From England to See His Grandmother But is Lost.

Toronto, Oct. 21.—Mrs. Clarke of 126 Elm street has informed the police that her grandson, Darcy Smith, 8 years of age, who was coming to her from England, has not arrived as expected, and she is very anxious. He came to Montreal on the steamer Numidian in charge of the under steward, and was handed over to the care of a passenger coming to Toronto. He has not been heard of since then.

THE HON. WM. MULOCK AT THE OPERA HOUSE

The Postmaster-General and Minister of Labor is Enthusiastically Received.

MR. McCLELLAN WADES INTO FACTS AND FIGURES

The Second Innings of the Liberals was Fairly Well Attended, but Some Evil Disposed Persons Grudged the Visiting Minister British Fair Play.

The Liberals of West Peterborough had their second innings in the political campaign of 1900 at the Opera House Saturday night, with Hon. Wm. Mulock, J. R. Stratton and the candidate, Mr. J. H. McClellan in the battery. Mr. Peter Hamilton, President of the Association, made a very capable chairman, and on the platform were gathered a thoroughly representative group of prominent Reformers, from all over the Riding.

THE DECORATIONS.

The hall was profusely decorated by Mr. Alf. Kingscotte, and presented a brilliant and patriotic appearance in its resplendent display of many coloured flags, prominent among which were British [illegible] and the grand old Union Jack. In front of the stage hung a picture of Her Majesty, draped with flags, while from each stage box and the rear wall, the well-known features of Sir Wilfrid Laurier, wreathed in his sunniest of smiles, beamed benignantly down from a nest of national ensigns upon Grit and Conservative alike. Banners, bearing campaign mottos were in evidence on either hand. "A Revenue Tariff, More Factories, More Employment, More Wages," stared one out of countenance from the left wall, while at the rear of the hall, "Laurier, the Farmers' Friend" was conspicuous in its prominence. "God Save the Queen" loyally held its own among a loyal people, and "More Protection for Labor" caught the eye of artisan and laborer.

THE MEETING A SUCCESS.

If enthusiasm is any criterion, then the meeting must be pronounced a success. The utterances of all the speakers elicited prolonged applause, cheers and laughter, but interspersed here and there with hisses, which are perhaps after all only natural in a campaign meeting worthy of the name of such. Some questions were asked from the audience and fittingly responded to, while a few were freezingly deservedly ignored.

ATTENDANCE FAIRLY LARGE.

Saturday night is certainly not the best evening of the week for which to call a political meeting, and at first it looked as though the event would prove a frost.

At ten minutes to eight the hall was but one-third, or rather less, filled, and one Liberal stumper advocated calling the band into requisition. However Chairman Peter Hamilton called the meeting to order pretty close on time, when a crowd began to pour in, until at eight-fifteen or thereabouts, a good sized audience had gathered, which gradually increased in numbers till but very few seats were vacant. The Liberal Committee had not on their bills invited Mr. Kendry or his supporters to be present, and consequently they were conspicuous by their absence, on the platform at least. Perhaps this was an unintentional oversight on the Committee's part. The fair sex also did not very liberally respond to their invitation to be present.

IDIOTS WHO DISTURB A MEETING.

The educational privileges of this century, claimed to be the most enlightened the world has ever seen, evidently has not yet taught some Peterborians the sublime lesson of common courtesy due a visitor to the town, and one at that with the prefix Hon. to his name, and invested with the control of an important public department. The Hon. Wm. Mulock came here to expound the Liberal cause, to defend his actions as Postmaster General and Minister of Labor, and in his own words to champion the cause of the working classes. A number of idiots went to the meeting evidently bent at hissing and stamping at anything and nothing, actuated by a disreputable desire to deny him British Fair Play. But the Hon. Gentleman rose to the occasion he would not be put down, and when he [illegible]—

> "I Ask you citizens of Peterboro to take note of the disreputable treatment I am receiving tonight, at the hands of workingmen in whose interests I have labored, in this hitherto reputable town of Peterborough."

the hearty [illegible] of an intelligent electorate put to shame the small minority of pitiable ignoramuses whose serpentine aggression must call forth the condemnation of every right-thinking man.

THE CANDIDATE

Mr. J. H. McClellan received an enthusiastic reception; he was in fine fettle and spoke to better advantage than at the last meeting here. His utterances were patiently listened to, and frequently elicited applause and cheers. It afforded him much pleasure, he said, to stand on this platform a Liberal candidate, asking the suffrage of West Peterborough electors in the interest of our good Laurier administration. You have often heard in this hall Cabinet Ministers, but to-night we have a different kind of minister to those who have addressed you during the past twenty-three years. We have, the pleasure to-night of listening to an indefatigable member of the Laurier Government at Ottawa, who will have to plead no excuse for having left undone those things which they should have done, and done those things they should not have have done. [Applause.] When Sir Wilfrid last spoke in Peterborough, he said he would not mistify his audience with an array of figures, but on his return he would ask the electorate to put their hands in their pockets and see if they were not better off than under Sir Charles Tupper's administration. He has redeemed his pledges; artisans, laborers and farmers alike are richer, happier and more content under a policy of moderation and leniency, calculated to set aside sectarian strife and unite classes and creeds in one happy union of peace and prosperity. No leader has done more for Canada than Sir Wilfrid Laurier. [Applause.]

Continuing, the speaker produced a paper named "The Globe" and embellished with scare headings. This is a campaign sheet, he said, published by the Star company of Montreal, and its heading is a forgery calculated to mislead the electorate of West Peterborough. It has been freely circulated here and I feel sorry for a Tory press, so degenerated that it is compelled to resort to disreputable measures and to steal the name of good old honest George Brown's paper in order to get you to read their literate. [Applause.] Take it home with you, it will answer the purpose of lighting your fires. [Laughter.]

Turning to the tariff question, he asserted that the Opposition accused Sir Wilfrid of not making any changes in it, notwithstanding his great promises made in this direction in 1896. Sir Wilfrid had promised to revise and reduce the tariff in the interest of everybody, and all industries where compatible with the country's prosperity. Sir Charles Tupper and his colleagues opposed a reduction, and prophesied blue ruin. To-day, when the beneficial effects of that revision and reduction are apparent, they claim it to be the outcome of the N.P., combined with showers of blessings from Providence. Perhaps they believe they were favored by Providence in 1896, when chastisement was administered them in the shape of political defeat, which punishment will be renewed on November 7th next. [Cheers.] The speaker then enumerated three instances of where the tariff had been reduced in support of Sir Wilfrid having kept his pledges. Indian Corn, upon which could have been collected under the Conservative tariff $543,977, has been put on the free list; Binder Twine for which farmers would have paid $162,300 in revenue, also is imported free; then Cream Separators, admitting of taxation to the tune of $40,000 have been put on the market free of tariff; and yet our opponents say we have not meddled with the tariff.

The speaker next referred to the following extract from the Times, referring to a public meeting in Smith—

"The shell thrown into the Liberal camp by Mr. Burnham when he said that he was authorized by Mr. Kendry to state that the latter was in favor of lessening the duties on agricultural implements, since the manufacturers were competing in the markets in the world, has created consternation amongst the Liberal speakers. Although Mr. Burnham was correctly reported, so he says, in the Examiner, the Liberal speakers will not take that report, but are doing some manufacturing more to their own taste by saying that Kendry was in favor of abolishing the duties on implements altogether, Mr. McClellan will need to meet the bluff and go one better."

Continuing, Mr. McClellan said Mr. Burnham had been correctly reported, and that Mr. Garvin had reiterated his statement; but Mr. Dennistoun who came along hurriedly, and had probably not been properly instructed, remarked that "now that farmers were exporting, it was time the tariff should be reduced." Now Mr. Kendry and his colleagues all over the country are advocating that the moment a factory commences to export the tariff on such exports should be reduced. He, the speaker, took exception to that argument, and he did not think the Conservatives would throw that shell into a Peterborough audience. We have here the Stanley Piano Co., Wm. Hamilton Mfg. Co., the Geo. Matthews Co., and the Edison Works, all of which are exporting their products, and according to Mr. Kendry's argument should be subjected to a keener competition at home, with outside manufacturers on whose importations the tariff had been reduced because Peterborough manufacturers were exporting. This would *mean*, he said, that a firm like the Stanley Piano Co., for instance, must refuse an order for a large shipment of pianos for fear some person would be watching to have the tariff on such instruments reduced, because of the Company's exportations in this line, whereby their *home market* would be endangered.

Turning directly to his opponent in the field, he claimed that the only time during four years, he (Mr. Kendry) spoke in the House, was when he prophesied that the Government's preference of 33 1-3 per cent. on all English woolen goods would shut down the Auburn Mills and compel its employes to seek employment elsewhere, where they could find more "generous" treatment. In proof of this those mills are and have been for three or four years working night and day under that preference.

He next likened Sir Charles to a man riding two horses in opposite directions. In Quebec he says that Sir Wilfrid is too English for him, and that his Imperial tendencies will entail upon Canada an expenditure of $40,000,000 [illegible] of the maintenance of an Imperial army and navy, while in Ontario, he (Sir Wilfrid) is blamed for being slow to move in sending the contingent to South Africa, wherefor the Queen has soused upon Canadians because of their being twenty-four hours' late in arriving on the scene. [Laughter.] Continuing, he felt proud of Sir Wilfrid's action in the contingent matter and his fellow citizens of Ontario, French and his fellow citizens of Ontario, French Canadians and English Canadians alike, who at the call of duty stood shoulder to shoulder in defence of their Queen and Empire. And the last man to bid them God speed, and to offer up a prayer for their welfare was a French Canadian—Sir Wilfrid Laurier. [Cheers.] The blood of the Premier's race has been shed in South Africa as well as the blood of Canadians of the British race, and to-night, in the Transvaal, the last vestige of any antagonism we ever had lies buried in the graves of Canada's soldier sons. [Prolonged Applause.]

Mr. McClellan next turned his attention to the financial question. The Conservatives claim, he said, that we are the most extravagant administration the Dominion has ever had, and they tell you, and correctly, that our estimates called for $52,000,000. Let us see how this compares with the cost of their administration. The last estimate of Mr. Foster, the great economical financier, called for $38,000,000; but there are always two estimates under a Conservative rule. The first is brought in early in the session, when members are fresh and ready to criticise, to be followed later on at the end of the session, when members are tired and eager to get home, by a supplementary estimate which it is easy to shove through. Well Mr. Foster's last estimate, the first and supplementary ones combined, called for $53,500,000. Then wherein are we extravagant with an estimate of $52,000,000, covering all expenses, and the country in a phenomenally prosperous condition. [Applause.] Out of our estimate we spent $1,000,000 for administration of justice in the Yukon and $2,000,000 for sending a contingent to South Africa [Applause,] and I would ask any fair-minded man to define in what way we have been extravagant.

The speaker next jumped to the cold storage question, and claimed that the Laurier administration had fitted up twenty-eight [illegible] at a cost of $25,000 a year as against a contemplated expenditure by the Opposition of $750,000 in

(Continued on Page Four.)

BRITAIN AND GERMANY ENTER INTO AN ALLIANCE

Grertest Sea Power and Greatest Land Power Will keep Open the Ports of China.

COMBINATION AGAINST ATTEMPT AT SPOILATION

They will Consider the Advisability of Taking Action Against any Power Which shall act Contrary to this Understanding.

London, Oct. 20.—As was anticipated, the sphinx-like silence which Lord Salisbury preserved during the British elections has been broken so soon as the campaign is concluded, and risk of injuring the Conservative cause by furnishing the opposition with new food for criticism is removed. Though dumb for many weeks, while all other nations were prolific in suggestions and correspondence, Britain has spoken at last, and to such purpose that a new epoch in the Chinese question has been inaugurated. The greatest sea power and the greatest land power in the world—Britain and Germany—have formed an alliance, the effect is bound to be far reaching. These two powers have published the terms of their agreement, which constitute a warning to the powers interested in China that they will insist upon the river and seaports of China being kept open to the trade of all nations; that they will not make use of the present complications t obtain territory from China; and that in case of any other power seeking to grab such territory they will consider the advisability of taking action to prevent it. The other powers will be asked to make similar declarations, and interesting developments may be expected, for a better test of the sincerity of their protestations could not be imagined. The agreement is indirectly aimed at Russia, who has by this time occupied the greater part, if not the whole, of Manchuria, and her reply to this direct challenge will be awaited with interest. It is difficult to see how she can resist so decisive an appeal from two nations who are competent to enforce their wishes if necessary. As to the remainder of the powers, France, Italy, Japan, the United States and Austria, it is very likely that they will fall in with the agreement, especially the United States, whose policy of the open door is fully indorsed. It is satisfactory to note that Britain and Germany, so long estranged from each other, are at last found on the same side in China. Henceforth it may be expected that affairs in the Orient will advance more rapidly, and that Chinese cunning and delay will cease to be tolerated.

DUAL ALLIANCE IN CHINA.

London, Oct. 20.—Germany and England have formed an alliance to maintain the territorial integrity of China and to keep the ports open.

The terms of this important agreement of the two countries, which was arrived at October 16 between Lord Salisbury and Count Von Hatzfeldt, German Ambassador to England, are officially given out as follows.

"The German Government and her British Majesty's Government, being desirous to maintain their interests in China and their rights under existing treaties, have agreed to observe the following principles regarding a mutual policy in China.

"Firstly—It is a matter of joint permanent international interest that the ports on the rivers and littoral of China should remain free and open to trade and to every other legitimate form of economic activity for the peoples of all countries, without distinction; and the two Governments agree on their part to uphold the same for all Chinese territory as far as they can exercise influence.

"Secondly—Both Governments will not on their part make use of the present complication to obtain for themselves any territorial advantages in Chinese dominion, and will direct their policy towards maintaining undiminished the territorial condition of the Chinese Empire.

"Thirdly—In case of another power making use of the complications in China in order to obtain under any form whatever such territorial advantages, the two contracting parties reserve to themselves the right to come to a preliminary understanding regarding the eventual step to be taken for the protection of their own interests in China.

"Fourthly—The two Governments will communicate this agreement to the other powers interested, especially Austria-Hungary, France, Italy, Japan, Russia and the United States, and invite them to accept the principles recorded in it."

HAVE REACHED PAO TING FU.

London, Oct. 20.—The Secretary of State of India, Lord George Hamilton, has received the following from Major-General Campbell.

"Wangchanfou, Oct. 16.—Arrived here without opposition. Two thousand cavalry retreated southward. Lieutenant King, sent with a communication to French General officer, left Manahsien at 8 p.m. yesterday and returned here at 5 p.m. to-day, with orders, having ridden 80 miles on one horse.

"Gaselee is at Sunlintien, six miles southwards of Cheohow.

"The Chinese regulars are retiring.

"The local Governments appear to be trying to suppress the Boxers. Thirteen heads of Boxers were hanging on the gate at Cheochow when we entered."

Wangchangfou is on the road to Pao Ting Fu, and no great distance from the latter place.

Reliable unofficial reports from Tien Tsin say the advance guard of the allied forces entered Pao Ting Fu Wednesday, Oct 17. The city was practically deserted and offered no resistance. The British column captured seventeen Imperial soldiers at Menanhsien, Oct. 18, who were part of the force of two thousand men sent to disperse the Boxers in that region. The captives assert that they killed two hundred Boxers, and were returning to Pao Chow when they were fired upon and dispersed by the French. The British confiscated their arms and horses and released the Imperial soldiers. [illegible] are burning the villages in the path of burning the villages in the path of the German-French column.

MR. KENDRY'S FIRST MEETING.

A Warm Meeting at the Temperance Hall, Smith.

Mr. Kendry and Mr. Burnham went out of the Conservative candidate's opening meeting of the campaign, at the Temperance Hall, Smith, on Friday evening. The audience was as large if not larger than that which greeted Mr. McClellan, and in this centre of Liberalism, showed that the Tory Candidate was as good a "drawing" card as his opponent.

Mr. Burnham dealt with the emergency ration scandal, reading the letter of a Canadian officer at the front. It was, he claimed, an outrageous thing, sending this food to men who relied upon it to sustain them in their long marches, and the government had made no attempt to punish the guilty party.

Mr. McWilliams, in a calm, practical, manner, went over the ground, but did not get down very closely to the bottom. He is a good speaker and will no doubt make his mark. He dealt with the leading issues of the campaign.

Mr. Kendry, in a forcible speech of three quarters of an hour, answered the objections made to his candidature on the ground of absence from the house, and showed how far ahead in that respect is Messrs. Tarte and Sifton, whose "ill-health" compelled them to remain away for a long period. He referred to the danger of the preference, and how onesided it was in that respect, in contrast to the interpreferential policy of his leader. He sat down amidst applause, after thanking the audience for their hearty reception.

Mr. Burnham closed with a few remarks on agricultural implements, asking the farmers if they were satisfied with the action of the Government in taking the duty off iron but neglecting to correspondingly reduce that on implements. As one old Liberal veteran said —"It is a hard nut to crack, and one the Liberals don't seem to meddle with."

The meeting closed with cheers for the Queen and Mr. Kendry.

WEATHER NOTES.

Probs. To-day, increasing south-easterly and southerly winds, fine.

The weather is now fine and cool over the Dominion from Lake Superior to the Maritime Provinces, and severe frosts have again occurred in nearly all districts. In Manitoba and the Northwest Territories it is fine, unseasonably warm, and no [illegible] change is indicated.

THE UPRISING IN SOUTHERN CHINA.

Whether the story is true or not that an active revolution is in progress against imperial authority in China, it is a matter of importance. If it is true, the powers who have adopted the strenuous method to exact peace in China will find themselves without a potential government with which to treat, and if it is not it will be necessary to determine the responsibility for disturbing the diplomatic horizon by giving circulation to reports that have such an air and sense of the tenet of truth.

That there is trouble in the south of China, and that it has the form of an anti-dynastic uprising, is not doubted, but its movement and extent are as yet only to be estimated. The revolutionary movement is, however, broken into two parties which take the same direction, but one looks to moderate ends that shall retain the existing authorities but enforce a programme of effective reform, the other looks to the deposition of the Empress and the clearing out of the whole imperial family and its support. This latter body, which may be called the radical wing, being numerically stronger and the more vigorous, has swept into its current the conservative wing and, gathering volume as it moves, menaces the entire situation in China.

The conditions, as presented in the meagre reports that have been received, are altogether paradoxical. The Black Flags, who are in the revolt, are said to be marching north to aid the Empress against her foreign enemies, but are opposed to and will fight against those who support her policy. They are, therefore, with the Boxers, who fight the foreigners, but against them as being pro-dynastic. On the other hand, the leaders of the conservative force, who favor the foreigners, are opposed to methods of government in domestic affairs, but are otherwise with the Empress. Out of all of this confusion some light may come, but it is a question of congratulation that the United States is out of it, and her further affairs in China for the present are limited to interested observation.

WITH STRATHCONA'S HORSE.

Trooper Alex. Skinner of Lindsay Writes Home.

Trooper Alex. Skinner, of "B" Squadron of Strathcona's Horse, writes to his father, Mr. Alex. Skinner, of Lindsay, Ont., and well-known in Peterborough, under date "In camp near Machadodorp, August 31"—

I have leisure to write you but it will be only a few lines, as my hand is all tied up with rags, and it is awkward writing. Since I wrote you last we have been through a big battle and have had a very exciting time generally. The day after I wrote we went out to the front firing line before daylight and without breakfast and it is a good job we got into the trenches by daybreak. We were on the east or right flank of the army and were under a fearful fire all day till dusk; nothing to eat, but we had water. Heavy artillery and rifle fire on both sides of us. We all got safely back to camp except three of "C" Squadron, who were wounded when retiring. They made a break about 4 p.m., but we wisely held our ground until after dark. The next day (27th) was the big battle, and we were out on the west flank about a mile from the firing line, keeping watch and not under fire at all. The place where I last wrote, "Gilead's farm," was shelled by the Boers, perhaps a dozen falling around us, but only one man was killed and some wounded. The day of the big fight we got into camp at 8 p.m., rode eight or nine miles and were pretty tired. It was cold that night with rain threatening and we had a shower of rain the next morning. Reveille at 4 & Strathcona's in advance guard; old "B" as usual, at the front and off for Machadodorp. [illegible] camped, had been a Boer stronghold and scores of their dead were lying around, but I did not go to see them. They were getting our soldiers' bodies off the field as we marched off. A couple of shells bursting right in front of us was our first salute; then we did some skirmishing on our left flank and advanced again. We were bunched up in a small place, a cutting on the railway, when two shells burst right among us, wounding two of our troop who were right beside us and one English officer. Then shortly after we entered and marched through the town for one mile past, where we remained until a shell from their Long Tom came pretty near wiping out Strathcona's Horse. Off again next day as advance guard, and we got into the mountains, when we chased them hill over hill. Then we came together and General French's army relieved us. No one hit. Then next day off to relieve prisoners, when we had to travel twelve miles for nothing, as we learned that the prisoners had been released and were coming in another way. We expect we will be going home soon now. The rainy season is getting in and the work about done. I have been and am in splendid health. We hardly know what sickness is amongst us.

Famines of Modern Times.

The worst famines of modern times were the famine in Ireland in 1846-7, in which 1,000,000 people perished; the Indian famine of 1866, which claimed 1,450,000 victims; the Indian famine of 1877, in which 500,000 people perished, and the great famine in China in 1878, in which 9,500,000 died.

Sneeze and Blow.

This is what you must do when you have catarrh in the head. The way to cure this disease is to purify the blood with Hood's Sarsaparilla. This medicine soothes and heals the inflamed surfaces, rebuilds the delicate tissues and permanently cures catarrh by expelling from the blood the scrofulous taints upon which it depends. Be sure to get Hood's.

One Man Saved

From a wreck will attract the world's attention to the life-saver. Yet let the life-saving be continued every day, and very soon it attracts no public attention. If the scene of the saving of one life by that life-saving remedy, Dr. Pierce's Golden Medical Discovery, could be made to stand out alone, like a picture on a screen, it would attract the notice of the whole nation. By a curious contradiction, the very frequency with which the "Discovery" saves life, robs the fact of general interest. For obstinate coughs, bronchitis, weak lungs, and other diseases of the respiratory organs, "Golden Medical Discovery" is the one medicine which offers certain help, and almost certain cure. It contains neither alcohol nor narcotics.

"Only for Doctor Pierce's Golden Medical Discovery I think I would be in my grave to-day," writes Mr. Moses Miles, of Hilliard, Uinta Co., Wyoming. "I had asthma so bad I could not sleep and was compelled to give up work. It affected my lungs so that I coughed all the time, both day and night. My friends all thought I had consumption. My wife insisted on my trying 'Golden Medical Discovery.' I have taken four bottles and am now a well man, weighing 165 pounds—thanks to Dr. Pierce."

ATTACK! of ROYAL CANADIANS at Paardeberg

The present is a time when war pictures are in greater demand than ever. The conduct of the British soldiers on the battlefield has won the plaudits of admiring nations. We have at great expense published four large, beautiful pictures, size 22x24, on heavy, superfine calendered paper. A picture that will commend itself and send a thrill to the heart of every true Canadian is the one called Attack of Royal Canadians at Paardeberg, there are literally hundreds of figures on this picture, the mountains or kopjes stretching out into the distance are swarming with men, while here and there a prostrate figure speaks only too well of the Boer riflemen. It was on this battlefield the gallant Major Arnold met death unflinchingly. Indeed, it is only too true that many of those gallant hearts that beat so high when the cheering thousands bade them Godspeed as they sailed from Canada's shores now lie still forever in lonely graves on the other side of the world under African skies. To every Canadian heart, to every Canadian home, the deeds of their brave soldier boys speak with an [illegible] thrill of patriotism and pride. Gordon Highlanders at the Battle of Belmont, Charging the Boer Guns at Elandslaagte and the Charge of Gen. French's Cavalry on the Retreating Gen. Cronje's Army. These are all stirring pictures and cannot fail to commend themselves to anyone who will examine them. They are RED HOT SELLERS! Agents coin money. Big profits Enormous success. One agent sold 80 in one day. Sample and terms 25 cts (none free); four for 80 cts; $4.75 per dozen; 25 for $8.25; 50 for $15.00; 100 for $21.00 Write to-day for a dozen and make money. Address to the Electors

To the Free and Independent Electors of West Peterborough—

Gentlemen.—Having accepted the unanimous nomination of the Liberals of this Riding, as a candidate for its representation in the House of Commons I hereby respectfully solicit your support in securing my return at the coming general elections.

The grounds upon which I base my appeal are not so much nor chiefly by any means, my personal fitness for the position of your representation though as a citizen of Peterborough and interested in its progress in common with that of the country, I can and do promise, if elected, an intelligent support of such a public policy and such measures as will best conduce to the promotion of all the interests of Canada, the developement of her great resources and the general betterment of the civil moral and material condition of the public; and my best abilities and most assiduous attention shall be devoted to the faithful discharge of my representative duties.

The strongest ground, however, of my appeal consists in the fact that I am a firm supporter of the Liberal Government led by Sir Wilfred Laurier, which is entitled to the renewed confidence of the people, both on the ground of its policy and the splendid record established by the application of that policy. The Liberal party appealed to the country in 1896 upon a clearly defined policy and the promised results followed.

The Liberal party promised a reduction of a high tariff that hampered our industrial and agricultural interests and was hostile to the Mother Country.

The tariff was materially reduced and otherwise improved and in such a way as to help instead of hinder the manufacturer and farmer, with the consequence that never before in the history of the country have our industries or our farmers enjoyed such great prosperity, our mechanics and working men such constant employment and high wages, nor our commercial and all other interests so flourished.

Our domestic and foreign trade have also greatly increased. The loyal gift of a trade preference, represented by a tariff reduction on British goods of 33 1-3 per cent., and our despatch of the Canadian Contingent, have resulted in a kindlier feeling towards Canada and greatly increased trade with the Mother Country.

With a largely reduced rate of tariff, our revenue has greatly expanded so that the Government was warranted in practicing true economy (reducing our postal rate one third, giving Imperial penny postage,) and premitting of the completion of great public works, deepening our canals, so long trifled with, pushing the work on the Trent Valley Canal which is now urged and will be urged to completion by the Liberal Government, and the application of a vigorous policy of general development and improvement of our transportation facilities, resulting and to result in easier access to the British market and better prices for all our products.

The farming interests of the country are deserving of the best services of a Government, such as the present has given. The immense impetus given the produce trade between Canada and Great Britain, through the preferential tariff, has been greatly helped by the action of the Government in providing an excellent and adequate system of cold storage, by which Canadian products can be landed in Great Britain in first-class condition, guaranteeing the highest prices. The system is of the most modern character, sufficient for all the present needs of the trade, and it will be improved and enlarged as experience suggests, and increase of the produce trade demands, and I shall, if elected, feel it my duty to support any policy that will improve our trade with the Mother Country, and strengthens the bond of British connection, of which we are so proud.

In an industrial centre like Peterborough the claims of the working classes are especially deserving of consideration. No country is well governed that does not look after the interests of all classes of the community. The Conservative Government has been, and the Conservative party declares itself to be, extremely solicitous of the interests of the capitalist classes—the manufacturers—but it left the working classes to largely shift for themselves. A Liberal Government came into power, and the attitude towards Labour was changed, and the rights of Labour to its rights recognised, and in a practical way. A Department of Labour has been established and a Minister of Labour placed over it. A Labour Gazette has been established in the interests of workingmen, published monthly; conditions have been inserted in all Government contracts compelling contractors to pay the highest current wages, which the Government guarantees the payment of; the sweating system has been abolished on Government enforced by a special officer, and in many other ways the Government has shown by deeds that the rights of the workingmen, as well as the capitalist, shall be protected. I heartily support the Government in what it has done, and shall support them in extending the benefits which they have already conferred, and which it is their policy to continue, as need arises.

The splendid achievements of Canadian soldiers in South Africa, make them worthy of the gratitude of the country. We have the best militia material in the world, and if we keep up a military establishment, let it be worthy of Canadians. Situated as Peterborough is, on the line of the Grand Trunk and Canadian Pacific Railways, and on the line of the Trent Valley Canal, begun as a military work, and now under course of completion, no other point in this Province is so well adapted for a military centre. I shall, therefore, feel it my duty to press upon the Government the advisability of constructing in Peterborough new armories and connected buildings for military stores for Ontario, and I feel that this is practicable of attainment at the hands of a Government which has shown its interest in our volunteers by placing the Militia Department, so greatly neglected by a previous administration, upon an effective basis, and will, therefore, more naturally be well disposed towards the improvement involved in making Peterborough a centre for military stores.

A town of the industrial and commercial importance of Peterborough, has certainly strong claims upon the good offices and of a Government. For the past four years the town has been represented, when it was represented in the House, by a member opposed to the Government. There is no doubt in the minds of unprejudiced observers, that the present Liberal Government will be strongly sustained in the country at the coming elections, and the question arises whether West Peterborough will have its interests better served by a member sitting in opposition and hostile to the Government and its policy, or by a member pledged to give the Government a fair support in the application of its policy. If elected I pledge myself to give my best ability and exertions to the promotion of the general good of the country, and to look especially after the interests of West Peterborough.

I cannot obviously here, enter into details of how in other ways the Liberal Government has implemented its promises and applied its policy, but I shall have an opportunity during the campaign of more fully dealing with these and other public questions.

As a supporter of such a Government I can appeal with confidence for the support of the Electors of West Peterborough, knowing that by helping to give, as you will do, through my election, a renewal of the trust the Liberal Government has discharged with such evident and gratifying results, they will be conferring a great and lasting good upon this riding, the country at large, and securing a continuation of the great blessings of prosperity and good government we now enjoy.

Again soliciting your support, your votes, and influence in this contest,

I have the honor to be,
gentlemen,
Your obedient servant,
J. H. McCLELLAN

have so earnestly requested his presence, I have no doubt he will come immediately."

Vernor Key wondered at the ecstatic joy that swept across her face.

He would have given the best years of his life if a look like that had passed over her face on his account.

"Why does that which we covet most elude our grasp?" he pondered, as he walked slowly down the street, sorely puzzled as to what it could all mean.

All the morning Izetta was extremely nervous, now that the one great longing of her heart was to be suddenly realized; she was bewildered, the air seemed to stifle her.

She never remembered how the hours rolled by as she waited in eager expectancy.

"Would he really come to her?" was the cry that ever and anon broke from her lips, as she listened eagerly at each peal of the bell.

At last the welcome sound fell upon her ear; a moment later the waiting maid handed her two cards, announcing that the gentlemen awaited her in the reception room.

She glanced at the cards; one read, "Vernor Key," and the other, "A. Ross."

Izetta fell on her knees, pressing the dear name to her lips and covering it with kisses.

Ah! she must go down to him at once. She wondered how she was to greet him with a stranger's eyes upon her.

"If he had only come alone!" she murmured.

She brushed her dark, glossy curls back from her fair face, little dreaming, as she fastened a few crimson roses in her hair, how exquisitely lovely she looked. She only remembered Alderis had once admired her hair worn so.

She walked down the long, silent corridor like one in a dream; her heart beat tumultuously as she told herself each moment she was nearing her husband.

If he held out his arms to her, she would fling herself into his embrace with a glad, happy cry; if he looked haughtily, coldly upon her, she felt she would die then and there at his feet.

"He might pity me then, and kiss my face," she said to herself.

With these thoughts she turned the knob; the huge oaken door swung heavily back on its hinges.

Hesitatingly she crossed the threshold, her brain in a whirl.

She put out two little fluttering white hands gropingly and slowly raised her great, dark, starry eyes to the face of—Mr. Ross!

CHAPTER XVIII.

Demanding An Explanation.

Izetta raised her lovely eyes.

As they encountered those of the gentleman before her she started back with a low, despairing cry; she was dimly conscious of Lieutenant Key saying:

"Mr. Aaton Ross, Miss Rienzi."

Her white lips parted in a sharp, agonizing cry.

"I have waited so long, so long, and 'tis not he!" and she fell in a deep swoon at the stranger's feet.

For an instant only the two gentlemen gazed at each other in consternation. Mr. Ross, a kindly, elderly gentleman of perhaps some fifty years, was the first to recover himself and touch the bell sharply, bringing the servants instantly into the room.

"The young lady has fainted," said the lieutenant. "I should advise her wants to be seen to as speedily as possible."

He made some remark about the heat of the room, but the keen attendants were not so easily baffled; they surmised something greatly out of the usual order of things had transpired, perhaps some mystery they could unearth; they meant to probe the affair to the very root.

"I suppose we may as well go," suggested Mr. Ross to the lieutenant. "You see, my dear sir, this is exactly what I predicted; the young lady has undoubtedly made a mistake. I am sorry for the poor child; she felt the disappointment keenly."

"I am completely dumfounded," confessed the lieutenant. "I cannot get at the bottom of this mystery, although I feel there is one."

"It is strange you cannot understand this affair," replied Mr. Ross. "From what you told me she had said this morning, and from her present actions, I draw my own conclusions."

"Would you mind expressing them?" asked Vernor.

"Certainly not, but you must remember they are only mere suppositions, and take them for what they are worth. I gather that the young lady has a lover; probably of the name of Ross, from whom she has been separated by some means; any one can see it's an affair of the heart. As she told you, she heard you mention a Mr. Ross this morning; the young lady jumped at conclusions, which ended in sending for the one whom she supposed was her lover. Maidens' freaks are often hard problems to solve, my dear friend," continued Mr. Ross, sagaciously. "Women in general are hard problems; a man may devote all of his life to the enigma, to give it up at last. You may take it for granted we never understand them; in fact, I might say, that is their principal charm."

The theory of Mr. Ross was quite lost upon Vernor Key; he had heard but one sentence—Izetta undoubtedly had a lover. If he felt uncomfortable before, with no known rival in the field, he felt doubly so now at the very idea of a prospective one.

If his affairs just then were not in the shape they were, demanding his presence elsewhere, he would have remained in Oxford and settled his chance of winning her beyond a doubt.

The young lieutenant cared for Izetta more than he ever cared to admit to himself.

He had raised Izetta from the floor; for one brief instant the beautiful head had lain against his shoulder; his arms had been about her, and the poor fellow had said to himself, as he gazed down on the lovely face:

"Ah, sweet one, you, and no other, shall be my wife. I should have but one thought in life—that of making you happy. If cruel fate should separate us, I shall go down to my grave unmarried."

Vernor Key meant every word that he said.

Izetta was carried to her room, and Madam Rost quickly summoned; each

THE COLORADO COPPER MINING COMPANY

LOCATION OF OUR MINES

THE COLORADO COPPER MINING COMPANY is fortunate in being the possessor of five splendid showing properties in the great Salida copper belt, the principal copper producing region of this portion of the rockies. All of our claims have been more or less developed and it is our purpose to put the same on a paying basis at once.

Our Company owns, clear of incumbrances the following claims—The Sedalia Extension, the Sedalia Extension No. 2, which property adjoins the great Sedalia mine, which has been a big producer for upwards of seventeen years; the Copper King of Colorado, which immediately adjoins the above; the Copper Queen of Salida, a very promising property, only a few steps from the depot in Salida. This claim occupies an imposing position on a mountain just north of the city; and last, but by no means least, the Sunshine, located two miles east of Salida at Cleora station, on the main Trunk line of the great Denver and Rio Grande Railroad, also on the Arkansas river, which is [illegible] one of America's greatest streams.

Morning Times

PETERBOROUGH, OCTOBER 22, 1900

TOWN AND COUNTY NEWS

Hon. Dr. Montague Coming

Hon. Dr. Montague, one of the most eloquent parliamentary debaters in Canada, will adress the elections in the Opera House to-morrow evening. Mr. Kendry and other speakers will also deliver addresses.

Col. Sam Hughes Coming

Col. Sam Hughes has kindly consented to deliver a lecture at the Opera House, Peterborough, on the South African War, at an early date. The lecture will be given under the auspices of one of the Societies of the town. We have no doubt hundreds will avail themselves of the opportunity to hear the gallant Colonel, who has done so much for his country, and who is a fluent speaker. Full particulars later.

Hundreds to See It

Yesterday from early morning until late in the afternoon there was a steady stream of people passing over the hill in Ashburnham, going to and coming from the Lift Lock. The work is rapidly becoming very interesting, and every day makes it more so. The tremendous granite walls are gradually assuming shape. The work is yet in its early stages, but sufficent can be seen to show the greatness of the undertaking.

The Engineering Club

The next meeting of the Engineering Club will be held to-morrow evening at the Y.M.C.A. at 8 o'clock, when a paper on the incondescent lamp will be read by H. D. Barnett, Supt. of the lamp works of the Canadian General Electric Co. The paper will not only be popular but instructive, the reading of which will be accompanied by illustrations and experiment. All members are requested to be present and a cordial invitation is extended to the public, ladies as well as gentlemen.

Mr Frank Yeigh Coming

Mr. Frank Yeigh, one of the best of entertainers, will give a lecture on "Britain's Girdle of the Globe, and the South African War," in the Town Hall, Ashburnham, on Friday evening next, 26th, instant. The lecture will be given under the auspices of the County Teacher's Convention. Admission fee only 25 cents. The lecturer will illustrate his talk with beautiful lime-light views. This is a rare opportunity to hear a more than ordinarily pleasing and instructive address. Mr. M. W. Matchett, the popular and efficient principal of the Ashburnham schools, has heard the lecture, and says it is exceedingly good, and should be most liberally patronized.

The Returned Soldiers.

On Thanksgiving, a reception was given at the residence of Mr. Eyers. Miss Blackstock and Miss Jennie Eyers had a reception for Messrs. Johnstone and Truscler, the returned soldiers. Quite a large number of friends gathered, and a very enjoyable programme was furnished by the company present. Mr. Eyers, being chairman, gave a most suitable and pleasing address to begin with, and was followed by addresses from the distinguished guests, interspersed with choice music. After a sumptuous repast and the singing of "Home, Sweet Home." Home again, from a Foreign Shore, and "God save the Queen," the company dispersed, well pleased with the evening spent.

JOTTINGS ABOUT TOWN

PERSONAL MENTION

—Miss Pearl Hamilton, is visiting friends in Lindsay.

—Mr. John Craig, Lakefield, was in town Saturday.

Mrs. Erskine, Lakefield, was visiting friends in town on Saturday.

Mr. Dan Merriam of Harwood, was in town Saturday, shaking hands with friends.

Mrs. W. J. Thompson will receive to-day and to-morrow afternoon and evenings.

Mr. George W. McPherson and bride, of Smithville, are in town on their honeymoon, the guest of the latter's cousin, Mrs. George I. Bossel.

Miss Kelly, daughter of Mr. David Kelly, of Dummer, has been appointed stenographer to Dr. Russell, supt. of the Asylum for the Insane, Hamilton.

—Mr. George Matthews, of Lindsay, has received the following reply to a cable sent to Colonel Otter, South Africa.—"7,516 Matthews is returning to Canada on the steamship Idaho." The news will be hailed with pleasure by Joe's many friends in Peterborough.

END OF THE ASSIZES

Mr Justice Ferguson Concludes a Lengthy Docket

The Fall Assizes of the High Coourt of Justice for the county of Peterborough which have been in session all week before the Honourable Mr. Justice Ferguson, concluded Saturday morning.

The case of Armstrong vs. the Sun Life Assurance Co., was settled out of court. In the action of Ennis vs. McAllister Milling Co., judgment was reserved. Hatton & Bradburn for plaintiff; E. B. Stone for defendant.

Crowley vs. Trust and Loan Co., was dismissed with costs. D. O'connel for plaintiff; Lount & Co., for defendant.

Dickson vs. Walsh was settled out of court.

Presentation to Mrs Peck

Mrs. E. A. Peck, president of St. Luke's Auxiliary of St. Luke's Church, Ashburnham, was presented by the Society with a life membership ticket. The presentation was made at a meeting of the Society on Wednesday last, by the Vice-President, in a few well chosen words. Mrs. Peck, who has taken completely by surprise, requested the Rector to say a few words on her behalf. Rev. Mr. Symonds referred briefly to Mrs. Peck's poor health, and hoped she would return to them from her visit to her home, which she is about to take, in renewed health and strength. He feelingly expressed the gratitude which she felt to the members for their mark of affection. The speaker also referred to the value of Mrs. Peck's work. It has been entirely self denying, and always to the welfare of the society had been placed above her own convenience. This was the true mind of Christ, who made himself of no reputation but emptied himself that he might fill others. After prayer Rev. Canon Matheson, of St. John's college, Winnipeg, pronounced the benediction. Refreshments were then served and a pleasant social half-hour was passed.

SHOWED THE MINISTER.

And Got Him in Line.

"In a minister's family in Los Angeles where I was visiting sometime ago, the wife complained of serious indigestion and dyspepsia. She admitted that she used coffee and said she more than half believed that was the trouble. I told her that I knew it was the trouble, for I had gone through with the experience myself and had only been cured when I left off coffee and took up Postum Food Coffee.

"She said she had tried the Postum, both for herself and her husband, but they did not like it. With her premission, I made Postum next morning myself, and boiled it full fifteen minutes after the real boiling of the pot began. Then when it was served, it was a rich deep brown color and had the true flavor and food value that every Postum maker knows. It is all folly to talk about trying to make Postum with one or two minute's steeping.

"You can't get something good for nothing. It must be boiled, boiled, boiled, and to keep it from boiling over, use small lump of butter, perhaps twice the size of a pea. That morning the minister and his wife liked Postum so well that their whole lives were changed on the question of diet and they abandoned coffee at once for all time.

"Now after a hard day's work, they are comforted, refreshed, and rested by a cup of well made Postum for supper. They are both enthusiastic in its praise. The wife had entirely recovered from her dyspepsia. I will not go into the details of my own case, except to say that I was a desperate sufferer with dyspepsia and discovered by leaving off coffee that coffee was the cause of it. I quickly got well when I took up Postum Food Coffee. I earnestly hope many more coffee drinkers may get their eyes open." Name and address given by Postum Cereal Co., Ltd., Battle Creek, Mich.

HON. WM. MULOCK AT THE OPERA HOUSE

Continued from First Page.

furnishing three of the Allan lines fast steamers with cold storage for the exportation of butter, cheese, etc. In conclusion, he appealed to the ladies to use their influence in his behalf and to every man to be true to himself, to his country, by placing his cross opposite the name of J. H. McClellan—in support of the best Government Canada has ever seen—that of Sir Wilfrid Laurier. The candidate resumed his seat amid prolonged applause.

HON. WM. MULOCK

The hon. gentleman's reception was of the most cordial nature. In his opening remarks he referred to the increased prosperity of Peterborough since his last visit, which should gladden the heart of every man who wishes well to his fellow mortals. His party had redeemed their pledge to promote and protect the interest of every industry, both agricultural and commercial; but he must admit that they had neglected and injured one class and one only, in doing which they had provoked strenuous opposition and indignation from that class—The members of the Opposition. "Witness how the heathen rage," he continued; they are seekink to put us out of office because their occupation is gone; they heap their vengeance on us from the press, public platforms and in anonymous forgeries such as exhibited here to-night by Mr. McClellan in the (Globe) published by the Star Company of Montreal. [Applause.]

The task of governing Canada is no easy matter if on good, sound, patriotic lines. Geometrically the country stretches from ocean to ocean, and the interests of the east and west are not the same. Then the nation is composed of members of two distinct races, and the task of cementing the union of those races and erecting a strong national fabric is fraught with mighty difficulties. Any person can be an incendiary, and can raise race against race by sowing seeds of discord; but the task of uniting a people under a constitution similar to that of the Mother Country is that of a statesman and not a demagogue. "Union, Peace, United Canada and an United Empire" is the motto of the Liberal cause. [Cheers.]

A voice—"What about the Farmers' Loan?"

The speaker—"If you give me your name, my man, I'll answer you."

No response being forthcoming the hon. gentleman continued, and scathingly de-n'ounced the distribution by the Opposition in a corner of the Dominion occupied chiefly by French Canadians, of campaign literature known as Pamphlet No. 6, maligning the Government in their work of uniting the races of the Empire. I think, he said, we are at least entitled to the aid of those who delight in nation building, and especially by such men as Sir Charles, who knows from experience the responsibility of public office. When we came into office we had to brush away the school question, so sadly mismanaged by the Conservative administration; they proposed to settle by cohersion, but Sir Wilfrid applied a conciliatory measure, and now that vexed question is a thing of the past. [Applause.] One cannot restore prosperity to a country on the verge of religious war; sectarianism has been the downfall of many a land. Sir Wilfrid removed all this discord and in doing so, invited all men, all sects and all races to unite in promoting the welfare of the Dominion.

Turning to the Tariff question, the speaker claimed that Mr. Fielding's measure had reduced the tariff to an honest revenue base, and that substantial reductions have been made to the benefit of manufacturer and consumer alike. We have also given a preferential rate of one-third reduction to British goods, and in doing so have paved the way to a reciprocal preference for our own products in the British markets. The Opposition opposed this preference and urged that we should have wrung something from the Mother Country in return. They forget that we owe a debt of gratitude to England, who has in the past given her sons in defence of this land; that she spends annually $330,000,000 on an army and navy, of which every man and every ship is as much for Canada's protection as that of the British isles; that no matter where a Canadian may be, and under what flag, he is as much guarded as though he were a citizen born in the Mother Country. Why then should we rise in commerce against Great Britain, as though we were not part and parcel of that greatest Empire the world has ever seen; For every one dollar increase we spend ing English goods, she buys $3 worth from us. For the year closed last July Canada gave a preference to English goods amounting to $12,000,000 which would have otherwise gone to the United States, and England in return purchased $35,000,000 worth of our products. [Applause.] Canadian products are fast replacing American products in the British markets, a direct line of steamers has been furnished, and now has a chance of conquering a market hitherto unconquerable by us, and catering to a market which absorbs $800,000,000 of food per year.

The hon. gentleman then turned his attention to Mr. Kendry's plan of putting in the free list those articles which are beginning to be exported. He did not know how this would fit in with Hugh John's and Mr. Foster's statements in Toronto that the N.P. was a strong protection one. Of course, Hugh John in Brandon when facing an audience of farmers, had wavered and said he was in favor of modifying the policy in so far at least as agricultural implements were concerned. [Laughter.] What is their policy?

A voice—"They have none."

You are right, my friend, they are bankrupt.

Let us consider what the Township of Smith's policy is

Voice—"Any hopes to get there?"

Have no fear my friend, they won't get there. [Laughter.] Continuing, he claimed that if the Township of Smith's Policy meant putting on the free list wheat, fruit, butter, bacon, etc., for the moment you take out the linch pin everything must go. And in town the work of degeneration will come, the duty will be knocked off our neighbors goods, our manufacturers undersold, and we return to the same old condition of things in '96. Canada is well now, my friends; Mr. Foster pretends that she is sick and needs treatment. But isn't it better to leave well alone and continue in those lines which have ensured the growth of our industries, ingreased prosperity and full pockets to workingmen. [Applause.]

Continuing, the hon. gentleman replied to the Opposition's charge that the Laurier administration had not capable men for office, by reviewing the work of several departments. Taking that of Railways and Canals, he turned to the Intercolonial Railway, which, he said up to four years ago had its terminal point at Point Levi, thereby failing to reach a great commercial centre, and which had been worked at a great financial loss, being fully a quarter of a million short in their receipts of running expenses. Mr. Blair took hold of it, continued the line up to Montreal, and in one year improved the roadbed, renovated the rolling stock, and had a surplus of $62,000. [Applause.]

Again, for the year ending last July, he had still further improved the road, and it had increased in business, returning in the confidence a surplus of $120,000. [Cheers.] Then in [illegible] (the speaker's) own depratment, the Post Office, under Conservative rule, the revenue collected, $4,000,000 had been devoted to running expenses, and still they had a huge deficit and were obliged to ask for six, seven and eight hundred thousand dollars, to meet its debts. When he, (the speaker) came into office, he dispensed with 200 unnecessary employees, in the first year reduced the deficit by $300,000, and in the second year it fell to the comparatively trifling sum of $47,000. He then lowered the postal rates between Canada and England and Canada and the States, and from British business we are to-day receiving more revenue at a penny rate than we did at a 5-cent one. [Applause.] At the present day the loss from that reduction is entirely recovered and the P.O. is self-paying. [Cheers.] We also carry mails over more territory than in '96, and now handle 73,000,000 pieces of mail matter at $19,000 less than under the Conservative administration. As regards the Financial Department he continued, Mr. Foster spent all the money received from revenues, and failed by an average deficit of $2,000,000 to pay expenses, while Mr. Fielding had a surplus each year averaging nearly $8,000,000. [Cheers.] Up to the year just closed, he continued, we paid all ordinary expenses, invested money in productive public works, spent a million and a half on Canada's contingent, reduced the public debt by a million dollars, and still had three-quarters of a million to go towards the same purpose. I will leave it to your intelligence which is the best Government.

Mr. Mulock then took up the labor question, in the course of which he was interrupted by hisses and stamping of feet at the rear of the hall. I deplore, he said, that when I, who have worked in the interests of the masses, came to the reputable town of Peterborough to give an account of my labors, that any man should be found prepared by violence and noise to prevent my discussing so sacred a cause, and I would ask the audience to take note of the disreputable treatment I am receiving. [Applause.] We have endeavored to promote the interests of the working class, and we recognize that no country can be great if its workmen and workwomen are not happy and contented; crowns and mitres do not make a country, the greatness of which must depend on the homes of its people. On taking office we found that public contracts for clothing were let to a favored few; that the sweating system under which women are paid $1 a week for 6 days' work was in force. Gentlemen, had we a duty to perform or had we not? We removed that festering sore, and now by act of Parliament, all Government contractors are forced to pay the wages current in the district in which the work is done. We asked for public recognition in Parliament of this measure, and the Opposition thwarted us in every way; but despite this and the aggressiveness of Mr. Taylor, the Tory whip, we put the measure through. The Ontario Government has followed suit, other governments and municipalities will fall in line, and then everyone will haveto pay a fair wage in this Canada of ours. [Cheers.] In conclusion, the hon. gentleman claimed that the Alien Labor Act had been thoroughly enforced, and steps taken to put the industrial and commercial classes on the same footing, so that employers and employees will better understand each other, when there will be no longer cause for strikes and lock-outs. He felt confident that West Peterborough would declare itself for the best Government Canada has ever seen, by returning Mr. J. H. McClellan, a supporter of Sir Wilfrid Laurier.

HON. J. R. STRATTON

gave a brief, but interesting speech, in which he endorsed the Crow's Nest Railway measure, the Government's action in the matter of railways and canals, and their preferential tariff. He was enthusiastically received.

The meeting closed with cheers for the Queen, Sir Wilfrid, Hon. Wm. Mulock, Hon. J. R. Stratton and the candidate.

"Evil Dispositions Are Early Shown."

Just so evil in the blood comes out in shape of scrofula, pimples, etc., in children and young people. Taken in time it can be eradicated by using Hood's Sarsaparilla. In older people, the aftermath of irregular living shows itself in bilious conditions, a heavy head, a foul mouth, a general bad feeling.

It is the blood, the impure blood, friends, which is the real cause. Purify that with Hood's Sarsaparilla and happiness will reign in your family.

Blood Poison—"I lived in a bed of fire for years owing to blood poisoning that followed small pox. It broke out all over my body, itching intensely. Tried doctors and hospitals in vain. I tried Hood's Sarsaparilla. It helped. I kept at it and was entirely cured. I could go on the housetops and shout about it." Mrs. J. T. Williams, Carbondale, Pa.

Scrofula Sores—"My baby at two months had scrofula sores on cheek and arm. Local applications and physicians' medicine did little or no good. Hood's Sarsaparilla cured him permanently. He is now four, with smooth fair skin." Mrs. S. S. Wrotes, Farmington, Del.

A WONDERFUL

KIDNEY and Bladder CURE

The Honorable Chairman of the Board of County Commissioners, Ellsworth, Kansas, tells how ALKAVIS cured him after Doctors and all other Remedies had Failed.

I. A. HOPKINS.

BRIGHT'S DISEASE, GRAVEL, DROPSY, And Rheumatism Mastered at Last.

One of the most remarkable medical discoveries of the century is the Kava-Kava Shrub, found on the Ganges River, East India, which has a wonderful action on the kidneys and bladder. Since its introduction into this country its fame has quickly spread, because of its seemingly impossible cures. Prominent men and women have testified to its great curative powers, and hospital tests prove its infallibility even in advanced stages of Bright's Disease. Among the more recent recoveries is that of Hon. I. A. Hopkins, Chairman Board of County Commissioners, Ellsworth, Kansas, who says:

GENTLEMEN:—I will say that I believe and know that I owe my life to Alkavis. I had been troubled with Kidney and Bladder Trouble for years. Two years ago I was sick for six weeks with Malarial Fever which left me in a bad condition. My limbs were swollen with Rheumatism so that I could hardly walk; I was troubled with Indigestion from taking Medicine for my Urinary troubles which had become very much worse. I had to get up every hour of the night to urinate. I passed great quantities of blood on account of hemorrhage of the Kidneys and Bladder. I tried and had been trying everything in the shape of Medicine for Kidney Trouble that I could think of or that the Doctors recommended, but nothing helped me for I kept getting worse. I suffered great pain continually in my Kidneys. I made up my mind unless I could get relief that I only had a short time to live. About this time my attention was called to an advertisement of Alkavis. As a drowning man will grasp at a straw, I was ready to try anything for relief. I sent to you for three bottles. I began to take it, and before I had taken it one week I began to feel the good effects of Alkavis. My Kidney Trouble and Rheumatism were soon gone, my digestion became all right, I found myself in better health than for ten years and I am in good health now. I know that Alkavis saved my life. What more can anyone say for a medicine? Unlike most medicines it is good for indigestion. It gives the person taking it a good appetite. I have recommended Alkavis to a great many people and all have been benefited by its use. I am 58 years of age, and am very grateful for what Alkavis has done for me.

Respectfully yours, I. A. HOPKINS.

Rev. W. B. Moore, D. D., Washington, D. C., Editor *Religious World*, writes that after trying all known medicines for kidney and rheumatic diseases he was permanently cured by Alkavis. Mrs. Wm. H. Hardy, East Rush, Pa., writes that Alkavis cured her after six doctors failed. Rev. J. W. Hickman, Collyer, Trego Co., Kansas, cured of liver, kidney and bladder trouble of many years' standing, from which he could only get temporary relief and had given up all hope of a cure. Thus the grand work goes on. A new book, entitled "A Thousand Living Witnesses," sent with the free case of medicine, tells of the wonderful cures performed in every state.

Not only does this great discovery—Alkavis (the Kava-Kava Compound)—cure all forms of kidney and bladder diseases, but by expelling from the blood all poisonous deposits, excess of lime, uric acid, urates and lithiates, it banishes gravel, torpid liver, rheumatism, pains in back, difficult and too frequent urination, etc. The cure is complete. No phase is neglected, and the stomach, heart and nerves are toned and invigorated. No other medicine in the world will perform the work of Alkavis. To enable sufferers to get well and spread the glad tidings we have arranged to send a Large Case of Alkavis FREE by mail to all who write us. The case goes entirely FREE.

If you are a sufferer, write to-day and secure at once a Free Case of Alkavis and Book of "A Thousand Living Witnesses." Address The Church Kidney Cure Co., No. 508 Fourth Ave., New York. Please mention this paper.

5000 BOER PRISONERS FOR ISLE OF CEYLON

Nearly 4,000 Have Already been Conveyed there, including Oliver, Roux and Prinsloo.

FUTILE ATTEMPTS AT ESCAPE HAVE BEEN MADE

Frenchman and a Spaniard Evade the Guards, but are Captured in a Temple—Element of Danger in India.

Colombo, Ceylon, Oct. 22.—Up to the present six transports have arrived from South Africa with prisoners of war for Ceylon, and altogether a total of 2,388 prisoners of all ranks have been sent to the camp at Diyatalawa. Another batch of 300 prisoners is due here on the 24th instant by the steamship City of Vienna, and it is expected that by the end of the present month, or the beginning of next, 5,000 prisoners, the limit to be accommodated in Ceylon—will have been located in our midst.

Among the next batch to arrive is the well known Boer leader Commandant Oliver, and his three sons, the capture of whom was mentioned by Lord Roberts as a very important one. Commandant Roux, "the fighting parson," who surrendered with General Prinsloo at Fouriesburg, is already in camp. About 1,000 of the prisoners who have arrived up to date formed a portion of Prinsloo's commando, and are nearly all genuine Boers. The first few batches that arrived, however, comprised the riffraff of Continental Europe, besides many Irishmen and a few Scotchmen and Englishmen.

One or two futile attempts at escape were made in Colombo harbor a small coterie of Frenchmen on one of the transports dropped a bottle overboard containing a message to the commander of a French vessel berthed alongside, but without result.

GENERAL DE WET'S BONFIRE.

Paris, Oct. 22.—The Matin publishes today an account written by a young Boer of the disposal of certain booty taken from a train captured by De Wet on June 5 at Roodeval. The convoy contained 80,000 new uniforms for winter wear, lyddite shells, an enormous quantity of tobacco and 2,000 bags of letters. The Boers numbered only eight, and they had no means of removing their prize. Having satisfied their immediate wants, therefore, they determined on the initiative of De Wet to make a bonfire of all they [illegible] were despatched to find fire wood, of which they cut 19 wagon loads. On this pile they placed the shells and other booty, the 2,000 bags of letters being made to serve the purpose of lighter fuel. An English captain, knowing that an enormous proportion of this correspondence consisted of letters to private soldiers from their mothers, wives and sweethearts, was unable to control his indignation, and uttered some vehement exclamatory protests. "You call it a scandal," answered De Wet, "and yet you burn our farms, ill treat our women and children and turn them out naked on the veldt. That is what I call a scandal."

ELEMENTS OF DANGER.

Simla, Oct. 22.—Replying to an inquiry Lord Roberts cables that he hopes the Indian contingent in South Africa will commence to return to India in November.

It is certainly desirable that nothing should happen to prolong their absence from the peninsula.

At the present moment the forces in India are 20,000 below their normal strength, owing to the large drafts sent for garrison duty to Ceylon, Singapore and Mauritius and for active service in South Africa and China. There is an element of danger in the situation.

Great Britain may safely draw from India as many native regiments as she can find employment for. The peril lies in leaving Sepoy regiments cooped up in their own country with an unduly depleted British garrison. India is a country where events grow out of nothing—witness the sudden tempest that burst upon the country in 1857.

It is no secret now that in the dark days of 1897 we were perilously near a widespread rising. That rising fortunately never occurred, but there is no telling when it may take place. Hence Anglo-Indians welcome the news that the South African contingent may soon be expected here.

REWARDED BY ROBERTS.

London, Oct. 22.—The Rev. James Gray, the leading Presbyterian minister in Pretoria, who before the war denounced Mr. Kruger's system of government from the pulpit, has been placed by Lord Roberts in charge of the official library and the remaining Transvaal archives at Pretoria.

WAR SPREADS SOUTHWARD.

London, Oct. 22.—The South African war has again spread southward. The heaviest fatalities of the week have been in the Orange River Colony, near the border of Cape Colony. The outlook is dismal for an early resumption of farming and mining. The desolation already wrought will take years to redress. Yet the British generals are returning. Chermside and Hutton, as well as Buller, are all on their way to England.

A draggling guerilla warfare threatens serious social sequels at Cape Town and Durban. The Transvaal refugees there are now penniless and destitute, and riots are probable if they are now allowed to return in a few weeks. This is impossible, as the plight of those in the Transvaal is even worse.

BOERS GAIN IN NUMBERS.

The military position has been materially unchanged for a month. The British hold all the key positions, but are not active enough to prevent the Boers from gathering and sweeping down upon weak garrisons. The Boers are now acting on their individual initiative, without a government or without orders from the commandant-general. There is no reason to expect peace for months, yet Sir Alfred Milner is at Pretoria studying the toughest problem of his life. He knows that more Boers are under arms than a fortnight ago, and that the military district commissioners have failed to gain the allegiance of the burghers through their incapacity.

METHUEN AT ZEERUST.

Cape Town, Oct. 22.—Lord Methuen has re-occupied Zeerust and captured numerous wagons, a large quantity of stores, and many cattle and sheep.

ONLY HIS PRIVATE EFFECTS.

London, Oct. 22.—Before his departure for Lorenzo Marquez, Kruger's baggage was carefully examined by Delagoa Bay customs officers. There were twenty-four boxes, but nothing contraband was found. They contained nothing but Kruger's private effects and his title deeds to property.

TIRED OF THE WAR.

London, Oct. 22.—A despatch to the Times from Zerust says that Von Hoosburg, an American lieutenant, who has been fighting with and financing the Boers, declared himself tired of the war.

MISS DUNLOP'S DEATH IS BEING INVESTIGATED

THE CROWN TO MAKE RIGID ENQUIRY

Into the Circumstances Connected with her Death—It is Alleged that she was a Victim of Faith Cure Treatment

On Sunday last the death of Miss Frances Emeline Dunlop, daughter of Mr. Thomas Dunlop, 49 Boliver street occurred. It is said the deceased was stricken with typhoid fever, and that medical treatment was not permitted by the girl's parents, although the young lady, who was 23 years of age, desired treatment. At any rate, a burial permit was refused, and an inquest was ordered.

The inquest opened last night at the Police Court, before Dr. Gray, Coroner, who empannelled the following jury—W. G. Ferguson, foreman. Jos. Succe, M. L. Henry, C. N. Brown, W. H. Hamilton, W. H. Meredith, R. R. Phillip, R. W. McFadden, Jos. Maher, F. J. R. Mitchell, Robert McWhinnie, Wm. Ovens, John Fanning, C. A. Roy, Michael Coughlin

After an address by the Coroner, the Jury proceeded to view the body, after which the inquest was adjourned until Thursday night.

SLAVE TRADE IN SIBERIA.

Traffic in Children in the Russian Province of Yakutsk.

St Petersburg, Oct. 22.—According to the Russkija Vedomosti, of Moscow, the traffic in human flesh is a daily occurrence in the Yakutsk province of Eastern Siberia. As a rule children are sold, the price varying from ten to fifty roubles. The illicit unions which exist between the exiles and the native women are chiefly responsible for this state of affairs, and children are born with the special idea of "raising" them for sale at five years old. The purchasers are usually Russian officials and merchants who trade in laborers, the demand for whom exceeds the supply.

The Government of Holland has ordered 12,000 tons of steel rails from firms in Pittsburg, Pa.

Four firemen were killed during a $150,000 fire in Hinman & Co.'s packing house at St. Paul, Minn.

Gov. Roosevelt's train had a narrow escape from collision with a frieght train at Port Pleasant, W. Va.

Three men are under arrest on suspicion of having abducted Morris Cohn at New York, thought to be held for ransom.

The constitutional convention of the Cuban people will be held Nov. 5 to establish "the free and independent Republic of Cuba."

Freight trains collided opposite the Waltham, Mass. station. C. P. Cooper, brakeman, was killed and 15 cars and an engine demolished.

THEY DIED TOGETHER

Harry Bettis Shot His Sweetheart and Killed Himself.

THEY HAD AGREED TO DIE

Moved in the Best Society at Corro, Pa., and Were Highly Respected.

Buffalo, Oct. 22.—A special to the News from Corry, Pa., says—

A horrible murder and suicide occurred here early this morning. About 1 o'clock two shots were heard in the park. No attention was paid to them, however, until this morning, when the dead bodies of Harry Bettis and Daisy Blydenburg were found on a seat under a tree. Both were shot through the temple. The revolver with which the deed was done was clenched in Bettis' right hand.

It is thought by many that the deed was premeditated. The young couple attended church last night, and spent a pleasant evening together at Miss Blydenburg's home, and later called on friends When bidding them good-bye they said—"Well, good-bye, you will never see us again."

A letter was found on Mr. Bettis addressed to his mother, the contents of which are as yet unknown. Harry Bettis, who was 20 years old, and Miss Blydenburg, who was 18, moved in the best society and were highly respected.

STEALING A WOMEN

Sack Thrown Over a Girl's Head, and the Men Were Taking Her Away

Bellefontaine, Ohio, October, 22.—Two strangers, ostensibly canvassers for "The Life of McKinley and Roosevelt," arrived at Belle Center yesterday, and boldly attempted to kidnap Miss Elizabeth Weimer last night. They called at Cyrus Johnson's house and Miss Weimer came to the door. The men choked her, threw a sack over her head and carried her to a closed carriage, Johnson came opportunely upon the scene, and, after a struggle to retain the girl, the men dropped their fair burden and escaped. There is a clew to their identity, and arrests will follow. Miss Weimer recently sued Robert Young, the Columbus liquor dealer, charging attempted criminal assault. The case will be heard next week.

DEATH OF SHERMAN

A Prominent Figure in the U. S. for Forty Years.

A MEMBER OF THE CABINET

Had Been Unconscious for Thirty-Six Hours—Burial in Ohio.

Washington, Oct. 22.—Hon. John Sherman, who for a period of 40 years occupied a prominent place in the legislative and administrative branches of public affairs in the United States, died here at 6.45 o'clock this morning of brain exhaustion.

Death came to the aged sufferer peacefully after almost thirty-six hours of nearly complete unconsciousness. A number of relatives and friends were at the bedside when the end came. Funeral services over the remains will be held in this city and at Mansfield, Ohio. Interment will be in the family plot at that place, and will occur in all probability on Thursday.

MR. COOK'S RECORD.

What the Parliamentary Companion Says of the Man of Whom All Canada is Now Talking

Many people are asking, "Who is this man Cook?", whose arraignment of the Liberal Administration is yet ringing in the ears of the people of Canada. In the Canadian Parliamentary Companion, published in 1890 appears the following.—

Cook, Herman Henry. (East Simcoe.)

Fifth son of the late Capt. George Cook, a U.E. Loyalist; nephew of Capt. John Cook, who represented Dundas in the U. C. Assem. from 1829 until Responsible Government was obtained, when he resigned; brother of J. W. Cook, Esq., who represented Dundas in the Can. Assem. from 1857 until 1861; and brother of S. S. Cook, Esq., who lately represented the same Co. in the Ont. Assem from Confederation to Jan. 1875. B. in the Tp. of Williamsburg, Dundas, Ont., 30th Apr. 1837. Ed. at Iriquois Grammar School. M., 1861, Miss White. A lumber merchant. An unsuccessful candidate for North Simcoe in Leg. Assem. at g.e. 1871. First returned to Commons for North Simcoe at g.e., 1872; re-elected at g.e., 1874. Unseated on petition 11 November, 1874; re-elected 22 Dec., same year. Elected for East Simcoe in Leg. Assem. at g.e., 1879, but resigned 1882. Elected for present seat in the Commons at g.e. 1882, and re-elected at the same g.e. A Reformer. Is in favor of Free Trade with the world; but if that cannot be obtained, the next best trade policy in his opinion would be unrestricted reciprocity with the United States. Imperial Federation not being within the range of practical politics he sets that idea aside as not worth serious consideration from a Colonial standpoint. Canada should make her own treaties with other nations. On former occasions she has invariably been at a disadvantage in this respect. This is becoming intolerable. The only instance in which the rights of Canada were properly upheld was that of the Halifax award, when the Commissioners were all Canadians, who had the interest of their country at heart. Canada should make her own constitution, and he would favor a change in this respect that would enable the Provinces to raise their own revenues, and so [illegible] of the central Government.—300 Dowling's Avenue, Parkdale [illegible]

EMPEROR AND EMPRESS SLEPT ON BRICKS

Proud Dowager and Weak Monarch of China Escaped from Pekin Disguised as Common People.

Tacoma, Wash., Oct. 22.—The Oriental liner Glenogle, which reached Tacoma last night, brought an interesting story of the flight of the Empress Dowager from Pekin. The escape of the court furnishes one of the most entrancing stories of the Chinese campaign. The Shanghai Mercury tells it as follows.

"It appeared that in accordance with the regular practice of the Chinese officials in similar cases, false reports of victories over the allies were persistently rendered to the palace, with the result that the court was lulled into a feeling of fancied security, and it was not until the allies actually entered the capital that the real facts became known to the Empress, and a rude awakening took place.

"On the early morning of the 15th of August the Dowager, in company with the Emperor, left the palace clothed in common Chinese cotton garments, travelling in an ordinary Chinese cart and accompanied by an insignificant retinue. Such was the hurry of their departure that no money or valuables in any quantity were taken with them and for several days the Imperial party is said to have suffered great hardships. The only food with which they were supplied was the common millet of the country, and at night they had to sleep in wayside inns on the rough brick kangs furnished for the accommodation of travellers.

"Among those who accompanied the court were Prince Tuan, Kang Yi, and Wang Wenshao, and it is said that the Empress, feeling sympathy with Wang on account of his age, urged him to return to his residence at the capital, but the old man begged with tears to be allowed to share in the exile of the court.

"The humiliating effect of this experience upon the proud Manchus can better be imagined than described, and it has evidently inspired a desire for vengeance, as is indicated in the secret orders sent to Li Hung Chang for the recapture of Tien Tsin and Pekin, as well as by the tone of recent edicts.

"In the light of the above narrative the reference in the account given by the Sin Wen Pao of the reported disgrace of Prince Tuan, to the discomforts attending the flight from Pekin, affords some circumstantial evidence of the accuracy of that account and the fact that the same paper in its issue of this morning again refers to the Empress' displeasure with the Prince adds further weight to its previous statement.

LIBERALS MUST GO.

At Any Rate Sir Charles Tupper is of That Opinion.

Long nights on the platform, weary journeys over thousands of miles of railway, have not subdued the spirit or abated the energies of Sir Charles Tupper. He walked into the Queen's Hotel, Toronto, as if he had just appeared after the first round, and was ready for all the business his friends had to submit.

"I will appear at the East Toronto convention to-night," said Sir Charles to a Telegram representative. "I will address two of Mr. Maclean's meetings. After that—well, my plans have not been reduced to detail. I shall address several meetings in Ontario, at places where I promised to appear in the early part of the campaign and have not had an opportunity to do so. I shall speak at Hamilton, London and Windsor, and at other towns and cities to be announced later."

"Will the Conservative party win?"

"I have not the slightest doubt of it," replied Sir Charles emphatically. He predicted a Conservative sweep in Prince Edward Island. In Nova Scotia he claims fifteen of the twenty seats. The Liberals in Quebec, Sir Charles asserts, are paralyzed with fear. He looks for an increased majority in New Brunswick, and in the West overwhelming defeat of the Administration. In Ontario also the outlook is to Sir Charles' liking—it promises success to the Opposition.

"The Conservative party united, was never defeated," he declared. "It is united now, it will win. The signs which indicated the downfall of the Mackenzie Government are present to-day. The story of 1878 will be repeated. I have travelled from Prince Edward Island to the Pacific coast. I know the country. My meetings were greater than the meetings of Sir Wilfrid Laurier and his colleagues. The revulsion of feeling against the Laurier Government is everywhere apparent."

"How do you account for the tactics of La Presse?"

"There is only one way to account for its conduct," said Sir Charles. "The Liberal party in Quebec is desperate with fear. The winning over of La Presse is an instance of its desperate methods."

Sir Charles had a talk with Sir Hibbert Tupper in St. John. Sir Hibbert declared that in his clash with Hon. Clifford Sifton the latter declined to close, evading the issues which he has most to fear from.

The mention of Phelp's name brought Sir Charles to his feet. "I apologised to Mr. Phelp, and for this reason—I based my charges against him on the strength of a telegram read by Hon. Clifton Sifton in the House, and signed by Phelp, asking if his permit carried with it power to take liquor into the Yukon. That telegram Mr. Phelp proved to my solicitor was a forgery. As my charges against Mr. Phelp were based wholly on the statement made by Mr. Sifton in the House, I had no quarrel with him when it was proved that his name was forged. Mr. Sifton will now have to explain how he came to use a forged telegram. He is in a more embarrassing position than before.

"He will be called to account for this when Parliament meets.

"Of course, that is if he is in Parliament then."

WEATHER NOTES.

Probs. To-day: Southerly winds; mild and showery.

Fine mild weather prevails in all parts of the Dominion, except in British Columbia, where rain is still falling, and in Western Algoma where it is cold and showery.

ANGLO-GERMAN ALLIANCE TO DELAY PARTITION

Britain is not yet Strong Enough to Occupy the Yang-tse Valley, and Wishes for time.

BRITISH PRESS APPROVES OF THE COMBINATION

Remarkable Sucess Scored by Lord Salisbury in His Old Age—What German and Parisian Papers Think of It.

London, Oct. 22.—The diplomatic world has not yet recovered from its surprise that Great Britain should have abandoned, temporarily it may be, that policy of splendid isolation which has for the past decade appealed so strongly to the imagination of Britons. The fact is that the situation in China was so complicated and so many nations were concerned, that an alliance with one or the other of her rivals was the only method by which Lord Salisbury could make Britain's weight felt in the Orient. There are now two dual alliances which may have a bearing on the solution of Chinese affairs—the Anglo-German and the French-Russian—and the former is infinitely stronger than the latter, not only in actual power, but in the probability of accession to such power by the adhesion of the United States and Japan. The bringing about of this agreement is a diplomatic victory which shows that Lord Salisbury in his hoary old age is able to match himself successfully against Continental intriguers of eminence. In any event, the alliance is only an expedient. Neither Great Britain nor Germany intend to respect the territorial integrity of China for all time. Both powers recognise that the inevitable fate of China is dismemberment. What they desire to prevent is a too rapid progress in this direction, preferring that partition should be gradual and evolutionary rather than hastly and stormy. At present Britain's grasp upon the richest part of China, the Yange Tze Kiang valley, is not so firm and her armed strength in China not so great that she could absorb the whole of it without a struggle of vast dimensions, for other nations have an eye to the trade advantages of this region. Britain's aim is to obtain time for tightening her hold upon the southern province, so that when the proper time comes she may claim it for her own, while Germany is given territorial concessions elsewhere. Of one thing the world may be certain, and that is that self-interest is at the bottom of the alliance.

BRITISH PRESS APPROVES.

London, Oct. 20.—The Sunday Special raises the question of the possibility of an alliance of England, Germany, the United States and Japan, in the face of which it says Russia and France would be unlikely to venture on a policy which might lead to serious complications.

The Observer says the document as a whole may be regarded as a pendant to the note of M. Delcasse, the French Minister of Foreign Affairs, and was formulated in order to adjust the international reciprocal relations of the powers and guard against future misunderstandings between the allies. The provisions of the agreement are so simple and few in number, the paper says, that it is difficult to see how legitimate opposition can arise. If the note is substantially and loyally accepted by the rest of the allies it will do much to facilitate a solution of the present crisis in the Far East.

A Paris despatch to The Central News says the announcement of the Anglo-German agreement has caused a profound impression in official circles. It is believed to be directed against Russia, and M. Delcasse is blamed for lack of knowledge of what was going on. The publication of the agreement checked operations on the Bourse.

A FRENCH VIEW.

Paris, Oct. 21.—The Eclair, in an article on the Anglo-German agreement, points out the previously antagonistic attitude of England and Germany in China. The paper says. "Berlin denounced the monopolist schemes of England, and Londoners predicated an invasion of the Yang Tze Valley by Germany. Now the two powers embrace and constitute themselves the champions of Chinese integrity. It is curious to see two knaves adopt this attitude."

SALISBURY'S GREAT SUCCESS.

New York, Oct. 22.—Lord Salisbury's diplomatic success in making terms with Germany and intervening in the China negotiations with such authority silences all talk about his retirement from the Foreign Office, says The Tribune's London correspondent. The most industrious Cabinet makers now admit that he cannot be spared from that office, and that he must be allowed to hold it and the Premiership as long as possible. Lord Lansdowne is now relegated by the rumormongers to Dublin. Lord Balfour, of Burleigh, is named for the War Office, and Mr. Ritchie for the Admiralty. Mr. Wyndham and Mr. Brodrick are promoted to the Cabinet. Each day produces a new combination from the friends of ambitious or restless statesmen.

HOW ENGLAND TREATS TWO OF HER PRISONERS

They are Confined at Equal Distances From South Africa.

London, Oct. 22.—Located at about an equal distance from the continent of Africa, on either side of it are two island prisons, where at the present time Great Britain has confined the most important captures of her two recent wars.

On St. Helena the gallant Cronje and his devoted comrades, who finally succumbed to the superiority of numbers, are leading a life of exile far from the happy freedom of the boundless veldt, and at the Seychelles those two dusky warriors, King Prempeh and King Asabi of Ashanti, have just arrived on board H. M. S. S. Dwarka, to end their lives far from the torrid tracts and pathless jungles of equitorial Africa.

From all reports these prisoners have nothing to complain of in the matter of personal treatment, General Cronje being practically the guest of the Governor of St. Helena, and while the other officers have more or less freedom afforded them and the rank and file doubtless fare better in most respects than they did in the long campaign, with its forced marches and frequent scarcity of provisions.

Cold bacon and hardtack would nevertheless be more welcome to them, undoubtedly, than all the amenities of their life at St. Helena.

The dusky savages who have gone to the Seychelles will miss one of the table delicacies in the shape of broiled missionary, as their field of usefulness in providing vacancies for young missionaries along Cape Coast has been indefinitely curtailed.

But they will find very agreeable quarters on the islands, and if they are disposed to make the best of enforced exile, can substitute pretty coral caves or houses for their usual fibre huts, and enjoy a climate which has no superior in the world.

It is not likely that either Asabi or Prempeh will ever revisit the scenes of their youth, as they have made too much trouble for Britain during the last few years. Owing to their success in stirring up the natives recently a fearful massacre of British in Kumassi was averted by only what seemed to be a miracle.

The relieving force under Col. Willcocks was reduced to such extremities that they were compelled to charge the machine guns with gravel and stones. Even then but for the heroism of some of the native troops the attempt to relieve Sir Frederick Hodgson and his garrison would have been futile.

The story of the march from Kumassi to the coast is a thrilling one. Many of the garrison were so depleted that it was necessary to carry them on stretchers. Indeed, the situation in Kumassi must have been quite as serious as it was in Pekin before the arrival of the allies, the little band of Europeans and loyal natives, according to the despatches of Colonel Willcocks, being almost too weak to stand, and a few days more would have seen the last of the defence. What a march through this malaria-poisoned region to the coast meant under such conditions cannot well be imagined, but the troops do not appear to have forgotten to attend to business, nevertheless, for in the course of their journey they surprised King Asabi in his capital at Kokofu, and actually captured the author of the recent trouble.

As Asabi's presence is indispensable at the coronation of the King of Ashanti, it scarcely seems probable that the natives will venture on placing a successor to Prempeh upon the throne, in which case the Ashantis as a nation will probably not figure very largely in history henceforth.

ANOTHER LYNCHING

Louisiana Mob Take a Negro From Officer and Hang Him

Plaquemine, La., Oct. 22.—Milry Johnson, colored, who shot and seriously wounded a conductor on the Texas & Pacific Railway, Wednesday, was lynched early to-day.

Officers were conveying him in a skiff from West Baton Rouge to Port Allen. When the skiff touched shore a number of men surrounded the officers, compelled them to hand over Johnson, and carried him 11 miles to the scene of the shooting, where they hanged him.

CHARLTON BY ACCLAMATION

Tories of North Norfolk Says He is Good Enough for Them.

Toronto, Oct. 22.—

John Charlton's revolt from the present policy of the Laurier Administration is so complete that the Conservatives of North Norfolk, after carefully discussing the platform enunciated by him in his recent address to the electors, have come to the conclusion that to all intents and purposes Mr. Charlton is now a Conservative, and they will accordingly offer no opposition to his election. At the Conservative convention of North Norfolk held at Delhi on Saturday Mr. Charlton's old opponents passed a resolution declaring that.

"After reading Mr. John Charlton's address to the electors of North Norfolk, and after being made conversant with his personal convictions, as expressed and pledged in private conversation to various people, we find that he is so in accord with our leaders on the matter of reciprocity of tariffs, of preferential trade, the pressing need of retrenchment, the dangerousness of the agitation in Quebec by certain members of Parliament, and other matters that it is not necessary for us to place a candidate in the field so long as he continues to abide by his expressed opinions, of which fact the Executive Commitee of this association shall be left to judge and act accordingly."

WILL HAVE ITS EFFECT.

The arraignment of the government by that old-time Liberal, Mr. H. H. Cook, ex-M.P., is one of the surprises of the campaign. Nothing is disclosed which the public did not already know, but coming from one who is a true Liberal and who has been identified with the party for many years, the indictment is remarkable. That it will influence votes there can be no manner of doubt. The sins of the government are set forth categorically. They cannot be denied or explained away. Mr. Cook is not violent; he makes a plain statement, and he asks the electors to punish the party which has been false to all its promises. Mr. Cook is a Liberal of the old school—that old school which regarded principles and ideals, and which sought to give a disinterested service in public life. The new school is of the practical order and, while using the language of philosophical Liberalism, adopts those human methods the character of which Mr. Cook sets forth without disguise. The arraignment is a bolt from the blue. It will have an undoubted effect upon the electorate.

THE SINEWS OF WAR.

There are signs that the people are being aroused from the apathy which they undoubtedly felt a few weeks ago. Public meetings are being held all over the country, and are well attended, the people following the arguments with attention, and the probabilities are that a large vote will be polled. It is said that neither party has much money to spend, but the evidence points to well filled war chests. Where does the money come from to conduct a campaign extending over so vast a territory as the Dominion? The mystery has never been quite solved. There are, of course, legitimate expenses, but beyond these there are disbursements the character of which never see the light. The party in power might, at a pinch, fall back on the treasury. Certainly, it can count on the contractors, the friends who have got fat jobs, and the manufacturers, in so far as the latter have been benefitted. The Opposition is in more difficult case. It must find the sinews of war, at all costs, for the work of organization is not done for nothing. The man with the bag could tell you all about it, but he is mum. A crafty man is the party treasurer. He knows so many secrets! He is able to so analyse human motive. He probes the source of vanity. It is he who realises the truth of Shakespeare's saying that "gratitude is a lively sense of favors to come." But see, his finger is on his lip. He drops the bill, the cheque, in the bag, and says nothing. Public opinion and sentiment are valuable, but the treasurer knows that these, of themselves, will not win the election. It may be the contractor, or the manufacturer, or the railway syndicate, but the bag fills, and, in some mysterious way, when the elections are announced, the money is ready for the emergency.

THE POLITICAL POT

Mr. John Green attacked Mr. McClellan at a political meeting a few evenings ago on the ground that he was a comparative stranger. What has that got to do with the matter? Mr. McClellan may not have the personal acquaintance of very many in the rural districts, but he is none the worse for that. The Tories will have to bring stronger arguments than this, to bear, if they expect to elect their candidate.

What does this meeting of leading Roman Catholics mean? Is it proposed to have that great religious body vote as one man? If so it might be worth while for the Orange Association to get together and offset it. We have no room in Canada for any such methods.

The Mulock meeting was not quite so largely attended as was the Cartwright meeting a short time ago, although there was standing room only.

Mr. McClellan is improving as a public debater. His speech in the Opera House on Saturday night was forcible and fairly eloquent.

About forty prominent Roman Catholics, representing the Province of Ontario, held a meeting behind closed doors in the Temple Building a few days ago. They discussed a letter said to have been written by Hon. James Sutherland, suggesting that no Catholic Liberal candidates be placed in the field for fear of arousing the suspicion of Protestant Ontario. The meeting lasted nearly three hours. What does it mean?

* * *

It is said that Mr. Cook is a disgruntled Liberal, who now exposes the party which refused him a senatorship. Very well; but can the facts be denied? Mr. Cook is categorical and authoritive. Can he be refuted? A prominent Liberal admitted to The Times on Saturday that the manifesto would mean thousands of votes for the Tories.

* * *

Stuffing votes is an old industry, but many of these election guesses are meant to stuff the voters.

One of the leading features very noticeable at the Mulock meeting was the fact that Mr. McClellan has developed very much as a platform speaker since his entry into politics. Prior to the present campaign he had been known as a clear-headed business man, but now he is a great deal more.

* * *

"Vote as well as pray," prints one of our little local contemporaries. But how is he to mix praying with the campaign of falsehood and villification which both sides are conducting?

Miss Maud Kenyon,

Of 1533 Orange Street, Los Angeles, Cal., writes: "I had been afflicted with my eyes for over a year with such a dreadful itching and inflammation that I could not use them for anything. Physicians had given me many different remedies which were like using so much water; they measured my eyes for glasses, which I got and wore for some time, but they did not benefit me in the least. My mother desired me to write to Dr. R. V. Pierce and explain the condition of my eyes. I did so, and after following your advice, and using eight bottles of the 'Favorite Prescription' and eight of the 'Golden Medical Discovery,' can say my trouble is entirely cured. I would advise any one so afflicted to try these wonderful medicines. My health was never so good as it is now, and I shall never tire of praising Dr. Pierce's medicines."

ATTACK of ROYAL CANADIANS at Paardeberg

The present is a time when war pictures are in greater demand than ever. The conduct of the British soldiers on the battlefield has won the plaudits of admiring nations. We have at great expense published four large, beautiful pictures, size 22x28, on heavy, superfine calendered paper. A picture that will commend itself and send a thrill to the heart of every true Canadian is the one called Attack of Royal Canadians at Paardeberg, there are literally hundreds of figures on this picture, the mountains or kopjes stretching out into the distance are swarming with men, while here and there a prostrate figure speaks only too well of the Boer rifleman. It was on this battlefield the gallant Major Arnold met death unflinchingly. Indeed, it is only too true that many of those gallant hearts that beat so high when the cheering thousands bade them Godspeed as they sailed from Canada's shores now lie still forever in lonely graves on the other side of the world under African skies. To every Canadian heart, to every Canadian home, the deeds of their brave soldier boys speak with an irresistible thrill of patriotism and pride. Gordon Highlanders at the Battle of Belmont, Charging the Boer Guns at Elandslaagte and the Charge of Gen. French's Cavalry on the Retreating Gen. Cronje's Army. These are all stirring pictures and cannot fail to commend themselves to anyone who will examine them. They are RED HOT SELLERS! Agents coin money. Big profits. Enormous success. One agent sold 68 in one day. Sample and terms 25 cts (none free); four for 50 cts; $1.75 per dozen; 25 for $3.25; 50 for $6.00; 100 for $11.00. Write to-day for a dozen and make money. Address to the Electors

To the Free and Independent Electors of West Peterborough—

Gentlemen.—Having accepted the unanimous nomination of the Liberals of this Riding, as a candidate for its representation in the House of Commons I hereby respectfully solicit your support in securing my return at the coming general elections.

The grounds upon which I base my appeal are not so much nor chiefly by any means, my personal fitness for the position of your representation though as a citizen of Peterborough and interested in its progress in common with that of the country, I can and do promise, if elected, an intelligent support of such a public policy and such measures as will best conduce to the promotion of all the interests of Canada, the development of her great resources and the general betterment of the civil moral and material condition of the public; and my best abilities and most assiduous attention shall be devoted to the faithful discharge of my representative duties.

The strongest ground, however, of my appeal consists in the fact that I am a firm supporter of the Liberal Government led by Sir Wilfred Laurier, which is entitled to the renewed confidence of the people, both on the ground of its policy and the splendid record established by the application of that policy. The Liberal party appealed to the country in 1896 upon a clearly defined policy and the promised results followed.

The Liberal party promised a reduction of a high tariff that hampered our industrial and agricultural interests and was hostile to the Mother Country.

The tariff was materially reduced and otherwise improved and in such a way as to help instead of hinder the manufacturer and farmer, with the consequence that never before in the history of the country have our industries or our farmers enjoyed such great prosperity, our mechanics and working men such constant employment and high wages, nor our commercial and all other interests so flourished.

Our domestic and foreign trade have also greatly increased. The loyal gift of a trade preference, represented by a tariff reduction on British goods of 33 1-3 per cent., and our despatch of the Canadian Contingent, have resulted in a kindlier feeling towards Canada and greatly increased trade with the Mother Country.

With a largely reduced rate of tariff, our revenue has greatly expanded so that the Government was warranted in practising true economy (reducing our postal rate one third, giving imperial penny postage,) and permitting of the completion of great public works, deepening our canals, so long trifled with, pushing the work on the Trent Valley Canal which is now urged and will be urged to completion by the Liberal Government, and the application of a vigorous policy of general development and improvement of our transportation facilities, resulting and to result in easier access to the British market and better prices for all our products.

The farming interests of the country are deserving of the best services of a Government, such as the present has given. The immense impetus given the produce trade between Canada and Great Britain, through the preferential tariff, has been greatly helped by the action of the Government in providing an excellent and adequate system of cold storage, by which Canadian products can be landed in Great Britain in first-class condition, guaranteeing the highest prices. The system is of the most modern character, sufficient for all the present needs of the trade, and it will be improved and enlarged as experience suggests, and increase of the produce trade demands, and I shall, if elected, feel it my duty to support any policy that will improve our trade with the Mother Country, and strengthens the bond of British connection, of which we are so proud.

In an industrial centre like Peterborough the claims of the working classes are especially deserving of consideration. No country is well governed that does not look after the interests of all classes of the community. The Conservative Government has been, and the Conservative party declares itself to be, extremely solicitous of the interests of the capitalist classes—the manufacturers—but it left the working classes to largely shift for themselves. A Liberal Government came into power, and the attitude towards Labour was changed, and the rights of Labour to its rights recognized, and in a practical way. A Department of Labour has been established and a Minister of Labour placed over it. A Labour Gazette has been established in the interests of workingmen, published monthly; conditions have been inserted in all Government contracts compelling contractors to pay the highest current wages, which the Government guarantees the payment of; the sweating system has been abolished on Government enforced by a special officer, and in many other ways the Government has shown by deeds that the rights of the workingmen, as well as the capitalist, shall be protected. I heartily support the Government in what it has done, and shall support them in extending the benefits which they have already conferred, and which it is their policy to continue, as need arises.

The splendid achievements of Canadian soldiers in South Africa, make them worthy of the gratitude of the country. We have the best militia material in the world, and if we keep up a military establishment, let it be worthy of Canadians. Situated as Peterborough is, on the line of the Grand Trunk and Canadian Pacific Railways, and on the line of the Trent Valley Canal, begun as a military work, and now under course of completion, no other point in this Province is so well adapted for a military centre. I shall, therefore, feel it my duty to press upon the Government the advisability of constructing in Peterborough new armories and connected buildings for military stores for Ontario, and I feel that this is practicable of attainment at the hands of a Government which has shown its interest in our volunteers by placing the Militia Department, so greatly neglected by a previous administration, upon an effective basis, and will, therefore, more naturally be well disposed towards the improvement involved in making Peterborough a centre for military stores.

A town of the industrial and commercial importance of Peterborough, has certainly strong claims upon the good offices and of a Government. For the past four years the town has been represented, when it was represented in the House, by a member opposed to the Government. There is no doubt in the minds of unprejudiced observers, that the present Liberal Government will be strongly sustained in the country at the coming elections, and the question arises whether West Peterborough will have its interests better served by a member sitting in opposition and hostile to the Government and its policy, or by a member pledged to give the Government a fair support in the application of its policy. If elected I pledge myself to give my best ability and exertions to the promotion of the general good of the country, and to look especially after the interests of West Peterborough.

I cannot obviously here, enter into details of how in other ways the Liberal Government has implemented its promises and applied its policy, but I shall have an opportunity during the campaign of more fully dealing with these and other public questions.

As a supporter of such a Government I can appeal with confidence for the support of the Electors of West Peterborough, knowing that by helping to give, as you will do, through my election, a renewal of the trust the Liberal Government has discharged with such evident and gratifying results, they will be conferring a great and lasting good upon this riding, the country at large, and securing a continuation of the great blessings of prosperity and good government we now enjoy.

Again soliciting your support, your votes, and influence in this contest,

I have the honor to be,
gentlemen,
Your obedient servant,
J. R. McCLELLAN

(Continued.)

attendant had his or her theory of the matter, and by the time madam reached the scene matters had assumed alarming proportions.

One servant was quite sure she heard loud, angry words issuing from the reception-room; another had heard a sharp, piercing voice cry out, "'Tis he! 'tis he!" while still another hinted in a vague manner of the words he had heard the stranger utter.

Madam Root was intensely annoyed. Straightway Miss Glendyke was summoned, who impaneled a jury on the spot.

"Well, well," said Miss Glendyke emphatically, "there was something dark about some people's ways!"

There was no mistaking the significant look she cast on the still, white face lying against the pillow, as to whom the words, "some people," referred.

"We will let the matter rest where it is now, and to-morrow we will fully investigate the matter," said Madam Root, severely, sweeping haughtily from the room, followed by Miss Glendyke, who could scarcely repress her malicious delight in anticipation of the sweet morsel on the morrow.

None but Becky, the maid, remained behind. She advanced close to the couch on which Izetta lay so white and still.

"Poor little thing," sighed Becky, "how unfit you do look for the knockings about of this world. I knew how they would act to you—I said so from the very first."

She brushed back the dark curls that strayed over the pillow, murmuring:

"It will be a dark to-morrow for you, I'm afraid."

A tear dropped from Becky's honest eyes upon the small, white hand; she hastily gathered up a corner of her gingham apron and brushed it away.

The action aroused Izetta.

"Is that you, Becky?" she sighed.

"Yes, miss," answered the girl meekly. "I had something to tell you; I couldn't go away and leave you lying there so white and still, till I said it."

At that moment a rush of memory brought back to Izetta's mind all that had transpired.

"I must have fainted," she murmured.

"Yes, ma'am, you did," answered Becky.

"I hope Madam Root does not know of it," whispered Izetta, in a startled voice. "Do you think she has heard of it, Becky?"

"That she has, miss," answered Becky, shaking her head; "and it's only this minute she and that Miss Glendyke left the room."

"What were they doing here?" asked Izetta, in a scared voice. "Tell me about it—tell me all they said."

There was not much to tell, but as Becky repeated it a faint tinge of color arose to her listener's face.

What the morrow had in store for her she could not even guess.

The dark, ominous cloud of some coming event was slowly casting its shadows before.

Izetta had gleaned from Becky's conversation that they did not actually know what had caused her to faint.

She was very thankful that Lieutenant Key left Oxford on the morrow; they would never know the cause of her agitation, she told herself. She flushed scarlet when she wondered what the two gentlemen must have thought of her strange behavior; her position was certainly the most awkward one imaginable; how could she explain it? what could she say in her own defense?

That morning her hopes had been so high; now they lay crumbled in ruins at her feet.

Ah! had it been her husband, how different life would have been for her!

"Do you know, Becky," she asked suddenly, "if Madam Root spoke with the gentlemen who were in the reception room?"

"No, miss, I am sure she did not. I saw them leave a moment or two after we were summoned."

Izetta felt greatly relieved.

"Can I make you more comfortable, miss?" queried Becky, as if loth to depart.

"No, thank you, Becky; I am doing very nicely."

"If ever you need a friend, miss," said honest Becky, coming a step nearer, "will you come to me? I would do anything in the world for you miss; indeed I would."

Izetta smiled up into the kind, homely face bending over her, and pressed warmly the girl's work worn hand.

"Yes, Becky, I will always remember it," she said.

With a pleasant "good-night," the girl left the room.

The next morning dawned bright and clear.

The maple boughs swayed to and fro in the keen, frosty air, nipping the autumn leaves that had left the protecting shelter of the boughs to whirl through the air—red in the sunshine, gold in the shade.

Izetta looked sorrowfully out upon the bare branches, upon which but a few clinging autumn leaves remained.

She sighed as she thought how her poor grandfather had always loved them; how he had murmured:

"As bathed in blood, the trailing
vines appear,
While round them, soft and low, the
wild wind grieves;
The heart of autumn must have broken here,
And poured its treasure out upon
the leaves."

"Poor grandfather!" she whispered; "no autumn leaves are drifting o'er your watery grave."

At that moment a servant at the door announced that Madam Root wished to speak to her at once.

Izetta had not forgotten what Becky had said the previous evening, and she was trying to nerve herself for the coming interview.

A few moments later she was ushered into madam's presence.

All hope died out of her heart as, before her, in solemn array, sat the full quota of teachers of the college, Miss Glendyke in their midst.

Once again the hope died out of Izetta's heart of telling Madam Root her pitiful story. Her lips were sealed; an icy band seemed pressing around her heart.

It was strange the pitiful pleading in that sweet, young face did not melt the milk of human kindness in those, stern, frozen breasts.

There was a set, stoical expression on the faces of that grim circle; no mercy need be expected from them.

Izetta would have fallen had she not clutched the back of a chair for support.

THE COLORADO COPPER MINING COMPANY

LOCATION OF OUR MINES

THE COLORADO COPPER MINING COMPANY is fortunate in being the possessor of five splendid showing properties in the great Salida copper belt, the principal copper producing region of this portion of the rockies. All of our claims have been more or less developed and it is our purpose to put the same on a paying basis at once.

Our Company owns, clear of incumbrances the following claims,—The Sedalia Extension, the Sedalia Extension No. 2, which property adjoins the great Sedalia mine, which has been a big producer for upwards of seventeen years; the Copper King of Colorado, which immediately adjoins the above; the Copper Queen of Salida, a very promising property, only a few steps from the depot in Salida. This claim occupies an imposing position on a mountain just north of the city; and last, but by no means least, the Sunshine, located two miles east of Salida at Cleora station, on the main Trunk line of the great Denver and Rio Grande Railroad, also on the Arkansas river, which in length is one of America's greatest streams.

PRICES AND TERMS

PRESENT PRICES—We are now selling our fully paid and non-assessable TREASURY SHARES at 5 cents per share, in blocks of 100 shares and more; 100 shares, $5; 1,000 shares, $50; 5,000 shares, $250; or 10,000 shares or more at the same rate. Send your order right NOW, before the next advance, as you will soon pay a higher price. Investors are rapidly investing with us.

The company fully prepays all government revenue, postage, etc. Send also for our handsomely illustrated prospectus, which contains much valuable information. It is free for the asking.

TOWN AND COUNTY NEWS

Working Overtime

The employees of the Stanley Piano Company are working overtime at present to keep abreast of orders. The excellency of the instruments built by this Company is recognized far and near.

A Returned Missionary

Miss McAllister, returned missionary from Siberia, addressed another meeting in Bethany Tabernacle last night. The work in that distant field has been wonderful. The meeting was largely attended.

To-Night's Meeting.

Hon. Dr. Montague will address the electors in the Opera House this evening. He is a fluent speaker, and will deal with the public questions of the day as few men can. Besides the ex-Minister, addresses will be delivered by Mr. Kendry, and others. Gallery, as usual, reserved for ladies.

Typhoid Fever Epidemic

Yesterday a gentleman who was in Oshawa last week for a few days, stated that there are one hundred and sixty-seven cases of typhoid fever in that town at present. He says that many of the cases are sent to Toronto General Hospital for treatment. The outbreak is due to bad water and the unsanitary condition of the town.

The Finishing Touches

The work of putting in piers and glance booms along the river between Peterborough and Lakefield is now proceeding. This, with a little blasting and dredging at a few points, will complete the canal as far as the borders of the town. A steamer will then be able to make the run between Peterborough and Balsam Lake. When the lift lock is finished, the navigation will be completed between Healey's Falls, 50 miles below Peterborough, and Balsam Lake.

Retiring From Business

Mr. David Hall has disposed of his hairdressing establishment on Simcoe street, to Mr. Tommy Cunningham, who will conduct the business in future. Mr Hall, during his business career, made many friends, who will regret the change, and who will wish him prosperity.

He has been forced to quit on account of ill health, but will remain with Mr. Cunningham, working fewer hours, until he recovers.

The Cement Works

The contractor for the stonework of the Lakefield Cement Works, we are informed, is not likely to go on with the work, which may delay matters a little. Mr. Kilbourn, the efficient manager, is however, able to overcome the difficulty, as he has many others, with a little trouble and perhaps loss. We have not heard on what ground the contract has been thrown up. The work is progressing finely, however, and the mammoth structure will soon be seen taking shape.

Good Fishing

A couple of fishermen, with a can of live minnows for bait, caught 60 odd bass at the second lock one afternoon last week. The fact is the river between Peterborough and Lakefield, promises to become in a short time the best fishing ground in Canada. The construction of the Trent Valley Canal, has greatly improved the river, [illegible] dams creating small lakes at four different [illegible] on the river, besides greatly widening and deepening the channel all the way to Lakefield.

JOTTINGS ABOUT TOWN

—Register to-day or never. Last chance.

—Several hunting parties are preparing to go back, regardless of elections.

—The Steamer City of Peterborough has gone into winter quarters.

Hood's Pills are non-irritating. Price 25 cents.

—The inquest into the cause of death to Sam Lung will resume to-morrow night.

—The Times is in big demand these days, hundreds of extra copies being required.

—Partridges are plentiful this season. Last week one flew into a garden in the south end.

—A few months ago there were between one and two hundred empty houses in town. Now there is scarcely one.

—Complaints as to the condition of the crossings in the vicinity of All Saints' Church have been made at the Times Office.

You have read of the cures by Hood's Sarsaparilla, and you should have perfect confidence in its merit. It will do you good.

—Mr. I. J. Turner on Saturday received an order from Oak Hall, Toronto, for 100 flags, which were accordingly shipped.

—The Black Patti Troubadours appeared in the Opera House last night to a fair sized audience. The performance was the usual female minstrel variety.

—Editor Delamere, of the Minden Echo, has received a Fenian Raid Medal for services rendered in 1866 as Sergt.-Major of the 1st Provisional Battalion of Canadian Rifles.

When Rheumatism doubles a man up physician and sufferer alike lose heart and often despair of a cure, but here's the exception. Wm. Pegg, of Norwood, Ont., says: "I was nearly doubled up with rheumatism. I got three bottles of South American Rheumatic Cure and they cured me. It's the quickest acting medicine I ever saw."—18

PERSONAL MENTION

—Mr. T. Weston, of Port Hope, is in town for a few days.

—Mr. J. J. Lundy is out on a fishing jaunt.

—Miss Pearl Hamilton has returned from Lindsay where she was a guest at the home of Lawyer McSweyne.

—Hon. J. R. Stratton, Provincial Secretary, will speak at Woodville on Tuesday, at Newtonville on Wednesday; at Bismark Thursday; at Haliburton, Friday; at Lakefield, Saturday, and at Bobcaygeon on Monday.

—Mr. J. H. Carnegie, M.P.P., of Coboconk, is visiting his father here.

—Mr. J. J. Turner, Jr., and wife left Liverpool on the 18th instant, per steamer Parisian for home.

Keep Yourself Strong.

And you will ward off colds, pneumonia, fevers and other diseases. You need to have pure, rich blood and good digestion. Hood's Sarsaparilla makes the blood rich and pure as no other medicine can do. It tones the stomach, creates an appetite and invigorates the whole system. You will be wise to begin taking it now, for it will keep you strong and well.

Deer Hunters' Protest.

The holding of the elections in the middle of the deer hunting season, which extends from November 1st to 15th, is causing protest from hunters. It has, therefore, been urged that the Government should extend the season by order-in-Council. But there is in reality no authority in the act for the Government to take such a course.

Mr Frank Yeigh Coming

Mr. Frank Yeigh, one of the best of entertainers, will give a lecture on "Britain's Girdle of the Globe, and the South African War," in the Town Hall, Ashburnham, on Friday evening next, 26th, instant. The lecture will be given under the auspices of the County Teacher's Convention. Admission fee only 25 cents. The lecturer will illustrate his talk with beautiful lime-light views. This is a rare opportunity to hear a more than ordinarily pleasing and instructive address. Mr. M. W. Matchett, the popular and efficient principal of the Ashburnham schools, has heard the lecture, and says it is exceedingly good, and should be most liberally patronized.

FRANCE TO HONOR KRUGER.

He Will Be Received in Paris, as the Head of a State.

Paris, Oct. 23, 3 a.m.—It is stated on excellent authority to-night that Mr. Kruger will, after landing at Marseilles, pass through Paris, and that he will be received with all the honors due to the head of a state.

The municipality of Marseilles is making preparations for a grand reception for Kruger, and it is quite certain that he will be enthusiastically welcomed by the population in general.

The recommencement of active defense in the Transvaal has reawakened European interest in the Boer cause, and the French Government, in common with other European Governments, is not sorry to see this reawakening of sympathy, as Great Britain's hands are all but completely tied while the Boers remain active. In China and in the settlement of any difference with Great Britain, her rivals can therefore take an advantage.

It is quite likely, for this reason, that Europe, and especially France, will give a semblance of encouragement to Mr. Kruger and will hold out a vague hope of intervention.

A well-informed politician stated frankly to-night that this will be the policy of the French Government. Kruger will be well received, and the Boers will be encouraged as much as possible. The end of hostilities need not, therefore, be looked for at present.

Mr. Kruger's friends are still hoping that he will visit America.

A Milwaukee judge, Saturday, issued an injunction to a husband to restrain his wife from "coming to the store and talking incessantly."

Archbishop Ireland reiterates the pope's approval of the policy of the United States towards the Catholic church in Cuba and the Philippines.

THE TIMES LETTER BOX

Letters from the People on Interesting Topics.

(NOTE.—The Times does not hold itself in any way responsible for the opinions expressed by its correspondents.—Ed. Times.)

THE TIMES CONGRATULATED.

Editor Morning Times,

Sir,—I must congratulate the Times on its impartial and manly report of the Mulock meeting on Saturday night. It was a fair and truthful report of what took place, and totally different from the garbled accounts published in your contemporaries.

The Times has long been regarded as Peterborough's brightest and best conducted newspaper, and it appears to be read by nine out of ten of the working men of the town.

A WORKING MAN.

THE CAMPAIGN.

Editor Morning Times,

Sir,—I have watched the course of the campaign closely, and up to date it has been, so far as the Grits are concerned, one of villification and abuse. There has not yet been one word said in reply to the sweeping charges made by Mr. H. H. Cook. Let Mr. McClellan tell the people what he thinks about the sale of senatorships. Does he consider the Liberals have lived up to their pledges given when in opposition? Has he the hardihood to tell the people that there was no Yukon scandal, no Crow's Nest deal or no contingent food scandal? I don't think he has, and I am sure he would not make any votes if he did.

A mere denial of Mr. Cook's charges is not enough. Let Mr. McClellan give proof, or he will earn the condemnation which he so much deserves through the ballot box on the 7th of November next.

Thanking you, Mr. Editor, for your valuable space, I am, etc.,

SATURDAY NIGHT'S RACKET.

Editor Morning Times

Sir,—As a mechanic of this town I want to say that my fellow working men had nothing to do with the disturbance at Mr. Mulock's meeting on Saturday night. It was caused entirely by a few loafers from Kendry's committee room, who never did a day's work in their lives. Everyone could see who they were, and if Mr. Hamilton had done his duty he would have called them down by name and not left it to Mr. Stratton to dress them down, as he was quite right in doing.

It was a shame and disgrace to the town, for the Minister who has done so much for the laboring and working classes to be insulted in the way he was. I suppose these well-dressed loafers consider they are "gentlemen." God save the people if these are their representatives.

Another thing I want to draw attention to,—Your reporter says that Mr. Mulock protested at the treatment he was receiving "at the hands of working men in whose interests I have labored." He said nothing of the kind. He complained of the treatment he was getting, but knew well enough, as everyone else did, that the blackguardism was not coming from the working men but from a crowd of well dressed loafers led by a whiskey soak.

However, it won't do any real harm, I should think, as it will show the people who their friends are. I don't believe that Kendry had anything to do with it, but just the same he lost quite a few votes in our shop through the blackguardism of his supporters on Saturday night.

Thanking you, Mr. Editor, yours respectfully,

MECHANIC.

FOUND IN JAPAN.

Baroness Von Ketteler Returns to Her Home in Detroit

Detroit, Mich., Oct. 22.—The long suspense of President Ledyard, of the Michigan Central Railroad, is over at last. His daughter, the Baroness von Ketteler, whose husband was murdered in Pekin before the legations were besieged, is expected here to-day. Her whereabouts were for a long time unknown, the utmost endeavors of her father failing to secure tidings of her. But Mr. Ledyard's son, with his bride, found her in Japan, and the party came home together.

Stay for two weeks.

PAINE'S CELERY COMPOUND

Is Now Being Used by the Wise and Prudent.

It Saves Sleepless, Nervous and Despondent People From Insanity.

BUILDS UP THE DEBILITATED AND BROKEN-DOWN.

Those who are wise are now using the most reliable of all health-building medicines, and are getting back their proper weight, nerve vigor, good appetite and healthy color. No long, anxious waitings and disappointments when Paine's Celery Compound is used.

At this season there are thousands of restless, fretful, nervous, despondent and gloomy men and women. They find it impossible to obtain restful and natural sleep, and, as a consequence, they are almost physical wrecks; some are desperately near the abyss of insanity. It is not safe for sufferers to trifle with their difficulties. The weakened, irritated and nervous system must be toned, strengthened and built up at once.

There is but one reliable and honest remedy before the public that guarantees renewed health and a long lease of life; it is Paine's Celery Compound, the prescription of a noble physician, and strongly indorsed by his professional confreres.

Paine's Celery Compound is now within the reach of all classes of our people, and it is a very simple matter to test its efficiency; the expense is trifling. As there are miserable imitations sold by some dealers, see that you get "PAINE'S" the kind that has wrought such marvelous cures.

One Dose

Tells the story. When your head aches, and you feel bilious, constipated, and out of tune, with your stomach sour and no appetite, just buy a package of

Hood's Pills

And take a dose, from 1 to 4 pills. You will be surprised at how easily they will do their work, cure your headache and biliousness, rouse the liver and make you feel happy again. 25 cents. Sold by all medicine dealers.

Night in Town

The following lines were prepared expressly for this great family journal by one of our junior reporters, who makes a specialty of poetry,—

The curfew tolls the knell of parting day,
The evening shadows blanket all the town,
The weary (hic) husband homeward takes his way
In fear his waiting wife may call him down!
Against the billboards on the vacant lots
The Kendry-McClellan men do calmly stand,
And clustered round the corpulent jackpots
Sit anxious men with pictured cards in hand,
And lovers stroll beneath the starlit skies
And feed each other's ears with honeyed lies.

The arc-lights spit and sputter overhead,
The noisy hackmen drive along the street,
The fat policeman of the funeral tread,
Swipes peanuts from the stands along his beat,
Within the washee house the snowy shirt,
With spray from puckered mouth Wun Lung wets,
And prowlers pick cigar stumps from the dirt,
Which, later, we will get in cigarettes.
And ere the town clock peals its early chimes,
Far and near the news is in the Times.

In moisture joints where glasses clink we hear,
As through the dimly lighted streets we walk,
Men curse the politician o'er their lager beer,
With tongues expanded till they scarce can talk,
And heelers flush with cash of candidate
Go drink with them the red-nosed rounders press,
And in their slangy eloquence dilate
Upon the ballot's guarded sacredness,
And ask the bummers to do all they can
To land their pure, unspotted, honest man.

The night creeps on; the hackmen at the call
Their sleep-besieged eyes with chilly fingers rub,
Then speed away with rattling wheels to haul
The men with tangled legs home from the club.
The tired barkeepers close and lock their doors,
The bums themselves to cheaper beds betake,
The weary cop in darkened hallway snores,
And dreams of clues he sees not when awake.
The wicked town relinquishes its sins
To catch a nap before the day begins.

FREE! A WONDERFUL KIDNEY and Bladder CURE

The Honorable Chairman of the Board of County Commissioners, Ellsworth, Kansas, tells how ALKAVIS cured him after Doctors and all other Remedies had Failed.

BRIGHT'S DISEASE, GRAVEL, DROPSY, And Rheumatism Mastered at Last.

I. A. HOPKINS.

One of the most remarkable medical discoveries of the century is the Kava-Kava Shrub, found on the Ganges River, East India, which has a wonderful action on the kidneys and bladder. Since its introduction into this country its fame has quickly spread, because of its seemingly impossible cures. Prominent men and women have testified to its great curative powers, and hospital tests prove its infallibility even in advanced stages of Bright's Disease. Among the more recent recoveries is that of Hon. I. A. Hopkins, Chairman Board of County Commissioners, Ellsworth, Kansas, who says:

GENTLEMEN:—I will say that I believe as I know that I owe my life to Alkavis. I had been troubled with Kidney and Bladder trouble for years. Two years ago I was sick for six weeks with Malarial Fever which left me in a bad condition. My limbs were swollen with Rheumatism so that I could hardly walk; I was troubled with Indigestion from taking Medicine for my Urinary troubles which had become very much worse. I had to get up every hour of the night to urinate. I passed great quantities of blood on account of [illegible] of the Kidneys and Bladder. I tried and had been trying everything in the shape of Medicine for Kidney Trouble that I could think of or that the Doctors recommended, but nothing helped me for I kept getting worse. I suffered great pain continually in my Kidneys. I made up my mind unless I could get relief that I only had a short time to live. About this time my attention was called to an advertisement of Alkavis. As a drowning man will grasp at a straw, I was ready to try anything for relief. I sent to you for three bottles. I began to take it, and before I had taken it one week I began to feel the good effects of Alkavis. My Kidney Trouble and Rheumatism were soon gone, my digestion became all right, I found myself in better health than for ten years and I am in good health now. I know that Alkavis saved my life. What more can anyone say for a medicine? Unlike most medicines it is good for indigestion. It gives the person taking it a good appetite. I have recommended Alkavis to a great many people and all have been benefited by its use. I am 58 years of age, and am very grateful for what Alkavis has done for me.

Respectfully yours, I. A. HOPKINS.

Rev. W. B. Moore, D. D., Washington, D. C., Editor Religious World, writes that after trying all known medicines for kidney and rheumatic diseases he was permanently cured by Alkavis. Mrs. Wm. E. Hardy, East Rush, Pa., writes that Alkavis cured her after six doctors failed. Rev. J. W. Hickman, Collyer, Trego Co., Kansas, cured of liver, kidney and bladder trouble, of many years' standing, from which he could only get temporary relief and had given up all hope of a cure. Thus the grand work goes on. A new book, entitled "A Thousand Living Witnesses," sent with the free case of medicine, tells of the wonderful cures performed in every state.

Not only does this great discovery—Alkavis (the Kava-Kava Compound)—cure all forms of Kidney and bladder disease, but by expelling from the blood all poisonous deposits, excess of lime, uric acid, urates and lithiates, it banishes [illegible], torpid liver, rheumatism, pains in back, difficult and too frequent urination, etc. The [illegible] complete. No phase is neglected, and the stomach, heart and nerves are toned and invigorated. No other medicine in the world will perform the work of Alkavis. To enable sufferers to get well and spread the glad tidings we have arranged to send a Large Case of Alkavis FREE by mail to all who write us. The case goes entirely FREE.

If you are a sufferer, write to-day and secure at once a Free Case of Alkavis and Book of "A Thousand Living Witnesses." Address The Church Kidney Cure Co., No. 493 Fourth Ave., New York. Please mention this paper.

HON. DR. MONTAGUE AT THE OPERA HOUSE

A Large and Enthusiastic Audience Attends the Conservatives' First Mass Meeting.

EX-MINISTER'S RECEPTION AN ENTHUSIASTIC ONE

The Meeting was Phenomenally Orderly and Good Humor Prevailed—W. P. Bull and Mr. Kendry also Addressed the Electors.

The Liberal-Conservatives of West Peterborough held their first mass meeting of the political campaign of 1900 in the Opera House last night, with Hon. Dr. Montague, as the star speaker of the evening, very ably seconded by Mr. W. P. Bull, a prominent barrister of Toronto. The hon. gentleman has lost none of his old-time vigor, wit and humor, which makes his speeches so acceptable to the average lover of political gatherings, and an immense audience gathered to hear the issues of the day expounded by one of the best speakers in Canada.

On the platform were seated amongst other prominent Conservatives, Jas. Stevenson, ex-M.P., Wm. Cluxton, A. P. Poussette, H. C. Winch, L. M. Hayes, J. Gappe, J. W. Garvin, H. Margan, W. P. Bull, a prominent barrister of Toronto; Jas. Forster, Warden of the County of Peterborough; ex-Ald. Langford, Coun. Smith, of Ashburnham.

DECORATIONS WERE SUPERB.

In the matter of decorations, the Conservatives went one better than their opponents; the hall, in its many colored dress of flags and bunting, arranged with a view to effect, and with the artistic taste for which Messrs. J. J. Turner & Sons, the decorators, are renowned, presented a truly brilliant appearance, while as to mottoes they were very much in evidence on every hand, glittering in many colored letterings, the characters of which were grouped in an exceedingly attractive manner. At the extreme back of the stage was seen "Expenses under Foster, $36,000,000.; Ditto under Fielding, $42,000,000"; while immediately below this motto were hung portraits of the Queen and Prince of Wales. Attached to the first stage fly was the startling announcement, "Foster Remitted Duty on Sugar, Saving the People $5,000,000; Fielding Changed the Tariff, and Taxed the People an Extra $12,000,000." Fly No. 2 also dived into finance, and its banner read "How the Laurier Government Reduced our Taxes—In 1896, $5.48 per Head; in 1900, $7.24 per Head!!!" The other mottoes were—"No Flag in Canada but the Union Jack," "We Have a Few Questions to Ask Tarte," "Should a Party Be Allowed to Retain Power that Was Secured by False Pretences?" "Conservative Party Made Canada a Nation," "God Save the Queen," "We Stand by the National Policy," "Preferential Trade, but with Two Sides to it," "Canada for Canadians," "Foster Means the Master in Finance."

A MAMMOTH MEETING.

When Major Miller took the Chair at 8.10, the seating capacity of the hall was pretty well taxed, and the crowd continued to pour in until a little later on the building was crowded to the doors. The ladies, for whom the gallery had been reserved, had taken advantage of a cordial invitation extended to them, and quite a phalanx of femininity smiled down upon the speakers and audience below. Major Miller made a very acceptable Chairman, and opened the meeting with a brief and appropriate speech, in which he deplored the unwarranted interruption of the Hon. Wm. Mulock last Saturday night, assuring the audience that his party had no hand in the matter, and that no person regretted the incident more than the Conservative party. After launching briefly into patriotic sentiments, Major Miller resumed his seat amid prolonged applause.

GREAT ENTHUSIASM.

The meeting was certainly an enthusiastic one, from start to finish, and as the several prominent Conservatives meandered on to the platform, they were met with cheers and applause, which increased in volume until the advent of Hon. Dr. Montague, whose appearance was the signal for a tremendous outburst of cheering and hand clapping, testifying to the popularity hitherto gained by the hon. gentleman on previous campaign visits.

The event was phenomenally orderly throughout the whole proceedings, the only noise heard being frequent outbursts of enthusiasm and laughter in response to the remarks of the several speakers.

THE CANDIDATE

The first speaker was Mr. James Kendry, who received an ovation as he came forward. Mr. Kendry said that he as well as the others present had come to hear their distinguished visitor, and it was not his purpose to make an extended speech, but he wished to correct some mis-statements that had appeared in the columns of the Examiner, and had been repeated throughout the constituency by Mr. McClellan and others speaking in his behalf. He then read from the issues of that paper of Oct. 8th and 9th, paragraphs to the effect that the representative of West Peterborough had never spoken but once in Parliament, and had then spoken in the interest of his own business. Mr. Kendry produced and read portions of speeches he had delivered in Parliament on different occasions — once in favor of the duty on agricultural implements, again, against the preferential tariff; on another occasion against the abolition of the duty on corn; at another time in favor of the Trent Valley Canal, and on still another occasion in favor of the striking trackmen on the G.T.R. Hon. Mr. Stratton, at Norwood, declared that Mr. Lang was the best man that could be sent to Parliament to represent East Peterborough. "During the four years that I have sat in Parliament," said Mr. Kendry, "Mr. Lang never raised his voice. I don't say that Mr. Lang may not be a good man for all that, but can you rely on any journal or any speaker who would make statements of that kind."

Mr. McClellan, Mr. Kendry said, claims to be an orator, when he goes to Ottawa they will have to enlarge Hansard. But he appealed to Dr. Montague as to whether that was a desirable consummation.

Dr. Montague—"We are mighty glad to get a man who isn't a talker.

Mr. Kendry spoke briefly on the violated pledges of the Government, and showed that the preferential tariff discriminated against the cotton and woollen industries. Of the sixteen different classes of imports from the Mother Country that showed increase under the preference, the two classes of cottons and woolens were 56 per cent. of the total amount of increase. In conclusion, Mr. Kendry contrasted his own local record with that of his opponent. He had been instrumental with others in bringing the Electric Company to Peterborough, as well as other manufactories. He was himself a manufacturer. He had been honored by the people with the position of Mayor and other positions, and he thanked them for the honor. The interests of his life were all in Peterborough, while his opponent had lived here but three to five years. He had been criticised for holding the office of Mayor at the same time that he sat in Parliament. In reply to that criticism he wished to announce that in any event he would retire from municipal politics at the end of the present year. He expressed confidence in his re-election on the 7th, and was given prolonged applause as he took his seat.

MR. W.P. BULL

A young gentleman from Toronto, Mr. W. P. Bull, barrister, was next introduced and made a short but eloquent speech. Mr. Kendry, he said, need not be concerned about the false reports that were circulated. There are three quick ways of transmitting information — telegraph, telephone, and tell a woman. Seeing the large number of ladies in the audience, he had no doubt of Mr. Kendry's correction having its due effect. Mr. Bull contrasted the Mr. Laurier of 1896, a "democrat to the hilt," who despised "tinpot titles," with the patrician Sir Wilfrid of 1900, and denounced Tarte as disloyal in very strong language, ending with the patriotic lines—

"It is only an old bit of bunting,
It is only an old colored rag,
Yet thousands have died for its honor
And shed their best blood for the flag."

HON. DR. MONTAGUE

The hon. gentleman on rising to speak received a perfect ovation. Cheer upon cheer rent the air, and it was several minutes before quiet could be restored, but once the large audience settled down, no man could desire for a more patient and attentive hearing than the doctor received, the only interruption being intermittent and demonstrative appreciation of his utterances. In his opening remarks he eulogised Mr. Kendry as a most capable and conscientious member of Parliament, whom we look upon as quite a talker, and who never permits an opportunity to escape him of championing the interests of trade and commerce, together with those of the working man. [Applause.] He urged the Conservative ladies present to give no rest to their husbands, their sons and their sweethearts until they promise to vote Mr. Kendry in as a member for the Ottawa House by the biggest majority ever received by any candidate in Peterborough. [Cheers.] He was pleased to note that one Liberal stumper had made the statement that the Liberals were returned to power in 1896 by Conservative votes. This was the result of the party being then divided, which however, is fortunately now united as one man for victory and an United Empire. He next spoke of the appalling differences now so apparent in the Liberal ranks, which is now a party of dissimilar fragments, held together only by a love of power and unscrupulous plunder. [Laughter.] Talking of the results of the elections, he quoted Sir Richard Cartwright as warning his friends in Ontario and the West that they will be called upon to fight as they never fought before. "Yes," thundered the speaker, "and he might have added, we shall be thrashed as we have never been thrashed before." [Laughter.] He, (the speaker) enumerated many constituencies which have gone back on the Government, and believed that when the campaign is over, the Conservatives will be found to have won a majority in every Province outside of Quebec, in which, even Sir Wilfrid's majority will be materially reduced. [Cheers.] He supported Mr. Kendry in his manly attitude towards his opponents, which sentiments of good will and personal respect should characterize the campaign throughout. [Applause.] He denounced the Laurier administration as entering this campaign handicapped by the worst record ever made by any government in the civilized world in four years. [Cheers.] Many charges have been made against them, but not that of "modesty." [Laughter.] They claim to have made Canada a nation, and given it a marvellous degree of prosperity; but he gave some credit to the early settlers and that gallant band of United Loyalists, who came to Canada rather than participate in the degredation of their flag. [Cheers.] And those men who in 1812 gave their life's blood in defence of British institutions: together with Sir John A. Macdonald [Cheers] and his colleagues, who tied the provinces with bands of steel and patriotic sentiments, he thought they had also something to do with making Canada a nation. [Prolonged Applause.] He accused Sir Wilfrid and party of having broken their pledges of 1896, and would defy any Liberal to-day to say those pledges have been kept. They claim, he continued, greater increase of trade during their term of office than under our administration. This is not so, for in comparing Canada's advance of exports with those of the U.S. during the different periods, we find that Canada's advance now is 57.90 per cent. as against an advance of 57.85 per cent. for the United States, while from 1878 to 1896 our increase of trade was 62.5 to 27. per cent. for our neighbors across the border.

Oh, they are good at cooking accounts, continued the speaker. Why, under the Free Corn Law 19,000,000 bushels of corn came into Canada, but it did not stop here a single day, and when it came in they booked it as imports and on its journey out they called it exports. [Laughter.]

The hon. gentleman then spoke about immigration, for which purpose the Government had spent $400,000, but where did it go to? Some of it went to provide soft snaps for such men as Mr McCreary, one of Sifton's heelers; Mr. Devlin, Jas. Green, of North Perth; T. O. Curry, the Patron gentleman who advised his party to vote for Laurier and who secured a fat job as agent in Milwaukee at $1,500 a year; and W. T. R. Preston of machine fame. Is there any man here who thinks these gentlemen got these positions on account of their utility in the matter of immigration? But were they not selected because they are party heelers and it was easier to put them on the immigration list, where no one can see them, than to get them into the House of Commons. [Applause.]

He next scathingly denounced the Government for the importation of undesirable foreigners, such as the Galicians, of whom Mr. Oliver says their settlement in the West causes the people in that territory to leave Canada for the States and other parts, because they saw no prospect of Britishers settling there. And Mr. Oliver avers that if Mr. Sifton can find any place where these Galicians are welcome, his constituency will pay their way to that haven. That is what the Government takes as an evidence of prosperity. [Laughter.]

He then spoke of the way in which Sir Richard Cartwright and his colleagues had kept millions of dollars in capital from coming into this country, to the unfortunate loss of a development in the iron industry, by their threats during their long term of minority of destroying and uprooting every vestige of protection once they came into office.

Touching slightly on Mr. Fielding's double faced attitude with regards protection, he arraigned the administration for claiming credit for Canada's prosperous condition, and quoted John Charlton, one of the ablest of Liberals as saying in a pamphlet issued in the North Riding of Perth, "The Government was fortunate in assuming office at the beginning of a period of prosperity which applies to the whole world, to causes which are absolutely beyond the control of the Liberal party." This gentleman is now an Independent Liberal and is disgusted with the Laurier administration. [Applause.]

He then went for Minister Fielding, whom he accused of, in running up a surplus in an astonishingly easy manner in the matter of Railways. When cars, bridges and rails are worn out, instead of replacing them from the revenue of such railway, he borrows capital for that purpose, and calls the revenue a surplus. [Laughter.]

He next jumped on Mr. Blair for giving a job of dredging to a Liberal firm, The Gilbert Blasting & Dredging Co., which cost the country $475 a day for a scow dredge and tug that could have been done for $100 a day if let under contract. When this is figured up we find that every yard taken up cost $43.75, instead of 60 cents or $1, which would have been a fair price. Then Mr. Blair purchased cement which the Tory minister of railways had refused, had it tested by an expert in Montreal, who pronounced it unfit for use. Yet the Minister buys 17,700 barrels of the same cement, trys 1,000 barrels, which plows up the work in which it was used; the remainder of the cement is thrown away, entailing a loss to the country of $24,700.

They also have a good deal to say about the Intercolonial Railway, continued the speaker, and just to show how economical they have been in this matter, let us consider their expenditure on oil for the use of this railway. Where we bought $22,000 worth of oil for this road in 1896, they purchased $32,000 in 1899, and the mileage of the road had only increased 24 per cent. Then take the case of Archie Stewart as a sample of the economical management of Mr. Blair in his department. When we went out of power he had a contract on the Soulanges Canal. Mr. Blair complained that the stone he was using was not good enough and took the contract away from him. Stewart sued the Government, which cost them $17,344. The Minister then complained that the work was not being done fast enough, and gave the contract to another man at a cost of $75,000, so as to get work completed by '98—1901 is here and that work is not done yet. [Laughter.] The new contractor has no stone, and Mr. Blair said get it from Mr. Stewart's quarry. The latter then sued for trespass, fixing his damage at $12,000; the Government lawyer said settle, and they did for $21,500. Stewart next sued for the stone taken from his quarry and for breach of contract, which will run into another $50,000; and altogether this matter will cost the country over $200,000. Yet Mr. Fielding says Mr. Blair has applied business methods in his department. [Laughter.]

Dr. Montague next spoke of the Mackenzie-Mann and Drummond Railway deals so well known to every body; and once more attacked the Laurier administration in the matter of broken pledges. He believed the only one they thoroughly kept was that made to do everything in their power to make jobs for those who supported them. [Laughter.] In the Redistribution Bill they do not try to carry out their whole pledge, but only in so far as it would help them to office, while the Franchise Act was a mixed and indefinable affair, which provides that a man having property in five counties in Quebec can vote in each one of them, while a man in the same condition in Ontario has but one vote. He next grew eloquent on the Government's attempt to disfranchise members of the N. W. Mounted Police and of the regular military force, and was glad their aims in regard to the Senate had been thwarted. "He was glad there had been a Senate to check such men as the Laurier Government was composed of." He spoke on the reciprocity question, in which he opined they had been humbugging the public. They are always giving something away, he said, as for instance the free admission of corn into Canada from the States in return for which they should have given us free barley. Laurier also gave away our coasting trade in North West grain to the Americans, for which we received no reciprocal treatment in return.

The hon. gentleman next turned his attention to the Government's attitude in not enforcing the Alien Labor Act, and condemned them in strong terms for not bidding for the removal of English embargo on cattle when bidding for preferential trade.

Briefly touching on the expenditure of the Liberal party, the hon. gentleman drew attention to their increased duty on tobacco and on sugar. As to coal oil he continued, they knocked 1 cent duty off, but they also allowed Americans to bring it in in tank steamers, which put the hands of the Standard Oil Co. at the throats of the Canadian people.

The next week the Canadian oil dealers took occasion to sell out, and the Standard Oil Co. owns Canada, so far as oil is concerned. No matter what tariff we put on now, they are in a position to sell at any price they please. The time has come when the Government of Canada should develop one of our own oil fields, and give to consumer oil at cost price, which would be only 5 or 6c at the most. [Applause.]

They promised to reduce the expenditure by, $5,000,000 and instead have increased it by $12,000,000. This is the price paid for the governmentship of Mr. Tarte, for the government of which Sir Wilfrid Laurier is the nominal head. Continuing, he urged that the Conservative party is prepared to spend the last cent in defence of the Empire, but our policy is, "that in return for the preference we give to Great Britain, we ought to get a preference for our farmers in her markets in return [applause]. In the contingent matter, he remarked, Canada is the greatest colony in the Empire, and should have been first to offer her services in its defence. He did not believe Mr. Tarte speaks for the French Canadian people, who would be found solid in support of British Government and British Institutions. The speaker resumed his seat amid prolongued applause.

A most successful meeting closed with cheers for the Queen, Hon. Dr. Montague, Mr. Bull, Mr. Kendry and the chairman, Mayor Miller.

THE DUNLOP INQUEST

A Post Mortem Examination was Held Yesterday.

The Inquest to be [illegible] Thursday Evening—Mr Perry, the Scientist, [illegible] Evidence of Dr. Greer.

The investigation into the circumstances of the death of Frances Emeline Dunlop, after the body had been viewed by the jury, on Monday night. The following evidence was taken.—

The first witness was Dr. Greer who had at first attended deceased and to whom deceased's relatives had applied for a burial certificate. Dr. Greer, on being sworn said that he was a physician practicing in Peterborough. He was called on the night of the 10th of October to attend deceased. He considered from her symptoms that she was suffering from typhoid fever. He saw her again on the 11th, and on the morning of the 12th inst. Her temperature on the first occasion on which he called to see deceased was 102. Her parents said she had not slept for a week and was in a nervous condition. He gave her treatment to make her sleep which, according to the statements of the family caused her to sleep five hours. When Dr. Greer called next day deceased's temperature was 105 and there were more apparent symptoms of typhoid fever. When he called the following day her temperature was 104, and her pulse was very rapid. Dr Greer said he advised the family to send the patient to the hospital, where she would receive every attention. He impressed the necessity of this upon them by stating that the girl would die if she was not taken to such an institution. While the house was a comfortable one, still it had not the conveniences and appliances for treating the disease as it should be treated. The girl at first hesitated about going, but when the circumstances were fully explained to her she consented. The father and mother said they would consider the matter. At this time deceased had a severe attack of typhoid fever.

Dr. Greer in answer to Mr. Wood, stated that it is necessary to await some little time the development of all fevers before determining its true distinction.

Continuing, Dr. Greer said that on Friday morning the family said that they would decide whether or not they would send deceased to the hospital, and at two o'clock, Mr. Dunlop came to witness' office and said that they had decided not to do so. He further told witness that they required no more medicine. Dr. Greer stated that he took this to mean that they required his service no longer. Mr. Dunlop called again, however, that evening to state that Miss Emma was much improved. The doctor told him that he hoped that they were making no mistake in not giving the girl medical treatment, and advised him against that so-called faith cure. Yesterday morning Mr. Robert Morrison applied to witness on behalf of the deceased's family, for a burial certificate, and the same was refused. The reason Dr. Greer gave for this was that he did not know sufficient about the girl's death to issue such a certificate.

In reply to various questions, Dr. Greer stated that from his three visits to deceased he was convinced that she had typhoid fever. However, he would prefer to have a post-mortem examination held in order to clear up any doubt. During the short time that deceased was under medical treatment she showed signs of improvement, and Dr. Greer did not think that her case was hopeless had she received proper treatment.

This concluded the evidence for the present, and an adjournment was made until Thursday evening at 8 o'clock.

Dr. Gray, in accordance with the wish Dr. Greer expressed for a post mortem examination, asked the jury if they desired such. They replied in the affirmative, and same was conconducted by Dr Eastwood this morning.

The funeral took place yesterday afternoon at two o'clock, according to arrangements, the necessary burial certificate being furnished by Dr. Gray.

In connection with the case, some evidence that may prove very interesting will be that of Mr. Richard Perry of Toronto. Mr. Perry is a man apparently of about 28 years of age, who, it is said came down from Toronto to take charge of the sick young lady for the Christian Scientists. He was summoned to appear last night, and was present, although his evidence was not taken. He returned to Toronto yesterday, but will be back in time to attend the inquest when it resumes on Thursday evening.

QUARTETT UNDER ARREST

Charge With Taking Life of New York Woman

New York, Oct. 23.—To-day the police arrested Garret A. Stowcraft, a cabman, who told the police that he was hired by McAllister, Kerr, Death and Campbell to drive them with Miss Bosschieler in a two-seated rig last Thursday night.

Kerr, McAllister, Death and Campbell were successively arranged before Recorder Senior and were held without bail to wait the action of the grand jury. They were charged with murdering Jennie Bosschieler "by giving her a powerful drug of which she died a lingering death." It is said that Death has been married only a few months.

REBELS ARE VICTORIOUS

One Band Led by a Stripling is Successful.

RUSSIA WANTS MANCHURIA

She Will Continue to Exterminate the Chinese to Protect the Railway.

Berlin, Oct. 23.—A high official of the German foreign office asserted this evening that Austria Hungary and Italy have expressed their formal adherence to the Anglo-German agreement, but that France, Russia and the United States have not defined their positions.

Berlin, Oct. 23.—Advices from China show that the German troops are suffering in health. News of the death of three from decease was cabled home to-day.

When the attention of the German foreign office was called to the success of the rebels in Kwangtung province and the question was asked, whether the powers had yet discussed their attitude toward the rebellion, a high official replied in the negative, but implied that it would soon become necessary to discuss that question. The press says that the first measure that will be introduced in the Reichstag will be a bill indemnifying the Government for the expenditure on the China expedition.

London, Oct. 23.—The Anglo-German ultimatum to Russia, for it was nothing else, is till subject of conversation in the world of diplomacy. Interest, of course, centres upon the effect of the treaty upon Russians, who up to the present have made no sign of future movement. There is undoubtedly a disposition in Russia, as indicated by some Russian journals, to claim the whole of Manchuria. Should this disposition be maintained and openly shown Russia and her ally, France, will be brought into direct conflict with Britain and Germany. It is evident that Russia is still intriguing with China, and the object if not far to seek. The object of the Czar's advisers is most certainly to obtain the consent of China to the occupation of Manchuria, and the meeting now going on in Livadia, may have a far-reaching effect upon the crisis. What would happen in case China and Russia made an agreement by which the latter was confirmed in possession of the country north of the Peiho river, is difficult to tell. It would establish entirely new ground to work upon. Britain and Germany could scarcely prevent China from alienating her own territory and they would not be likely to make the attempt.

RUSSIA WANTS MANCHURIA.

London, Oct. 23.—The Times publishes *the following from its correspondent* in St. Petersburg.

"It is safe to say that the visit of the Chinese Minister to Livadia, where the Russian court and the principal Ministers are now staying, and whence the Russian Government is directed with more secrecy than would be possible here, is connected with an endeavor to make a separate arrangement concerning Manchuria.

The Russians will continue to exterminate the Chinese in the most ruthless manner in order to protect the future of the railway. A critical study of the official reports shows that Chinese resistance has been a mere farce. The Russians have been only to glad of the opportunity to kill every Chinese soldier and to distroy every vestige of Chinese authority in Manchuria, and they have taken advantage of this farcicial resistance with a vengeance."

REBELS SCORE SUCCESSES.

Hong Kong, Oct. 23.—The situation at Canton is comparatively quiet.

It is reported that the consuls have received letters warning them of danger.

Refugees from Hui Chow say the rebels are welcomed everywhere. They take nothing without payment, and are treated as guests instead of enemies. Their leaders are supposed to number ten, each commanding a seprarate band. The one operating in the Low Lung Hinterland is a mere stripling, but is everywhere successful. He is reported to have defeated a large body of Imperial troops, killing a hundred of the Chinese soldiers.

The surnames of four of the rebel chiefs are Fong, Ho, Ching, and Chan.

St. Petersburg, Oct. 23.—The Viedonoste thinks the Anglo-German agreement is "enigmatical, since maintenance of the integrity of China is accepted as the fundamental principle by all parties."

It adds. "The agreement, therefore, aims to the protection of that which needs no protection. To the question as to who will threaten the intergity of China there is only one answer, namely, those who have arranged to crush anyone who thinks of preventing them from taking as booty those ports in China which they have regarded as belonging to them. Russia will, in the meanwhile, know how to protect China."

The Novoe Vremyea regards the territory north of the Peiho River as belonging to Russia, "who will not admit the application of the open door to that territory."

FIVE VICTIMS OF A BLAZE

Children Perish in Their Burning Home in Montreal.

Montreal, Oct. 23.—Shortly before one o'clock this morning a lamp explosion at 37 Archambault lane resulted in the suffocation of five children, aged from 4 to 14.

Olivier Leblanc, cooper, father of the children, was burned about the hands, face and legs. Aurora Leblanc, aged three years, was badly burned about the body and may die. Madame Leblanc was slightly injured.

The eldest son, Romulus, was pouring coal oil in the lamp while it was alight, and it caught fire. In a moment the room was ablaze and the youth ran out into the street to give the alarm and forgot to arouse the sleeping family. The father, with the infant in his arms, jumped from a second story window.

SUPPRESSING BOERS

Canadian Member of Roberts' Horse Tells how it is Done.

TO WORK AFTER THE WAR

How will the Thousands of Returned Soldiers be Provided for?

London, Oct. 23.—The war in South Africa continues, the centre of the martial cyclone being at present in the Orange River, and more particularly in the district to the south-west of Bloemfontein, of which Fauresmith is the chief town. This is a district which, strange to say, had not until the operations reported by Lord Roberts in his last despatch, witnessed the more sterner aspect of war, the almost unopposed march of a British column having been the only sample of campaigning served out to the inhabitants. That such determined attacks have been made upon Jagersfontein and Fauresmith, places comparatively near the boarder of Cape Colony, and the Norval's pont bridge, speaks volumes for the stupid tenacity of the Boers—patriotism some would call it. It begins to look as if the British would be compelled in spite of their earnest desire to effect a merciful settlement of the South African question, to adopt the policy of the Romans conveyed in the immortal quotation. "They made a solitude and called it peace." The British are finding out what the Romans found out two thousand years ago and are being reduced to the necessity of acting as the ancients did in dealing with an enemy which rejected magnanimous leniency and clemency. Indications are not wanting in South Africa to show that such a policy has at last been forced upon Lord Roberts.

WORK AFTER THE WAR.

London, Oct. 23.—The war in South Africa draws to a close, and we may now speak of the return of the army, or at least a great portion of it. That raises a problem which cannot be faced too soon, namely, the employment of the reservists who have been serving with the colors, and of expired men. How many reservists are there serving with the army in South Africa, and how many time expired men? It was not possible to obtain absolute figures, but the broad calculation was made that a third of the South African army are reserving. That, in a general way, would mean, say, seventy thousand men whom the close of the war will send back to civil life. Then it was calculated that at least fifteen thousand time expired soldiers—one authority thought more—would have to be added to this number. From the total substract those who would be likely to take up their abode in South Africa. No light of course, could be obtained on that point, and time only will answer it. But, allowing for the thing—liberally or otherwise, as the view may be—it is certain that within the next six months we shall have the English labor market reinforced by many thousands of hands.

SUPPRESSING THE BOERS.

Toronto, Oct 23.—

A letter reached the city yesterday from Trooper H. R. Jackson, with Roberts' Horse, dated, "In the field, about 25 miles from Pretoria, September 13," in which he says.

"Our regiment is with Gen. Ridley, under Gen Clements, and has a fine bit of country to patrol, although it's very mean kind of work. There are any number of streams of water and lots of wood, which are the main things, not to mention lots of farms, so we have been living well. There are any amount of oranges and lemons, fowls, pigs, etc. and the other day we managed to get a peck of green peas.

"I heard last night that sixteen Boers captured a wagon coming from Pretoria with mail for the troops, so suppose mine is gone again. From information by niggers we found out where the homes of eight of the sixteen are, and they are to be burned to-day. Several farms have been already destroyed belonging to snipers. This is dangerous but exciting work, and I think it is the only way to put an end to the war."

VOLUNTEERED TO A MAN.

London, Oct. 22.—Letters received from Africa this morning state positively that the original "A" and "B" Companies of the first Canadian contingent will remain in South Africa until the war is over. The letters state that when the Canadians' time was up it was the great wish of Lord Roberts that they should stay and see the end, take part in the annexation ceremonies, and go to England and be in the great march-past before the Queen. The commanders of the companies were ordered to learn the opinions of the men. "A" and "B" Companies volunteered to a man to stay, and the remaining companies demanded to be sent home.

SOLDIER ISSUES A WRIT.

St. Thomas, Oct. 23.—J. A. Robinson, barrister, issued a writ yesterday on behalf of Gunner George A. Barrett, just returned from South Africa, against Rev. Dr. Philip, pastor of First Methodist church, for alleged slander in a sermon last evening, wherein the doctor said he was sorry to see in connection with the return of one brave boy a carnival of drink and dissipation, which he hoped would not be repeated.

Constant Advertising Economical

A certain city clothing merchant advertised extensively and regularly in the newspapers during the first year of his business career, and then having succeeded in winning a satisfactory trade, adopted the plan of advertising only occasionally. Business did not continue to satisfy the merchant, and after eighteen months he found it was necessary to do all his first work over again. "It cost more to re-establish myself," he said to an advertising agent, "than it would if I had continued to take a reasonable amount of space in the newspapers every day the year 'round; but the lesson has been worth its cost." Everybody reads the Times.

PETERBOROUGH, OCTOBER 24 1900.

THE CAMPAIGN.

As the campaign goes on, it becomes every day more clear that there is no essential difference between the tariff policy of Sir Charles Tupper and the protectionist Tories on the one hand, and Sir Wilfred Laurier and the protectionist Grits on the other hand. Duties that both Liberals and Conservatives four years ago spoke of as protective duties, and that have not since been lowered, Mr. Sifton, for instance, now terms revenue tariff duties; he endeavors to make it appear that there is a difference of policy, by using a different set of words to describe the same thing, that is all. By calling black white, he tries to make his hearers believe that black and black are two different colors. On the one hand we have men who advocate duties of 20 per cent., and who term them protective duties, while on the other hand we have men who term duties of 20 per cent., revenue tariff duties and who advocate such duties.

The Times has pointed out that both parties are protectionist in practise, if not in profession, and if the trade question is the issue of the campaign there does not seem much cause for excitement.

In West Peterborough the fight is getting warm, and promises to be good and hot long before the 7th of November. Mr. Kendry has, metaphorically speaking, closed out all business, and gone with the campaign with all his might. Mr. McClellan has also his sleeves rolled up to the elbows, and is striking right and left. His powers of ridicule are great, and he is not backward in dressing down his opponents when occasion requires it.

THE POLITICAL POT

Notwithstanding that political meetings are on every night, there are people who do not attend. This no doubt is because they feel there may be a difference between going in and being taken in.

* * *

Honest John Lang is not being heard much this campaign, but the Liberals have a time trying to hold him in.

* * *

An estimate of the strength of the parties in the house of commons at the close of the late session, vacancies being counted according to their former representation, shows as follows—

	Con.	Lib.
Ontario	49	42
Quebec	14	51
New Brunswick	8	6
Nova Scotia	8	12
Prince Edward Island	2	3
Northwest Territories	1	3
British Columbia	2	4
Manitoba	2	5
	77	136

This leaves the Conservatives with a majority of fifty-nine to overcome, requiring a change of at least thirty seats, or fifteen per cent. of the whole.

* * *

The Laurier ministry, which is now appealing to the country, consists of the following—

Premier and President of the Council, Sir Wilfred Laurier.

Minister of Trade and Commerce, Sir Richard Cartwright.

Minister of Justice, Hon. David Mills.

Secretary of State, Hon. R. W. Scott.

Minister of Marine and Fisheries, Hon. Sir Louis H. Davies.

Minister of Militia and Defence, Hon. F. W. Borden.

Postmaster General, Hon. W. Mulock.

Minister of Agriculture, Hon. S. A. Fisher.

Minister of Finance, Hon. W. S. Fielding.

Minister of Public Works, Hon. J. I. Tarte.

Minister of Railways and Canals, Hon. A. G. Blair.

Minister of Interior, Hon. Clifford Sifton.

Minister of Customs, Hon. Wm. Patterson.

Minister of Inland Revenue, Hon. T. A. Bernier.

Solicitor General, Hon. Chas. Fitzpatrick.

Without portfolio, Hon. R. R. Dobell, and Hon. James Sutherland.

The cabinet has been increased in number by two since it was first formed. The offices of Controller of Customs and Controller of Inland Revenue were abolished, and on 30th June, 1897, the Controllers were sworn of the Privy Council and called to the cabinet.

* * *

The House of Commons consists of 213 representatives, which are divided amongst the various provinces and territories as follows—

Ontario, ninety-two members.
Quebec, sixty-five members.
Nova Scotia, twenty members.
New Brunswick, fourteen members.
Manitoba, seven members.
British Columbia, six members.
Prince Edward Island, five members.
Northwest Territories, four members.

* * *

At the last general election the popular vote was as follows—

Conservatives	417,685
Liberals	392,108
Independents	55,522
Patrons	30,965

Although the Conservatives had a majority of the popular vote over the Liberals, the Liberals, together with Independents and Patrons, elected a majority of the members of the house of Commons. The first division of the new House of Commons took place on September 8, 1896, upon a resolution, moved by Hon. Mr. Foster, relating to governor-generals' warrants, and resulted in a majority of thirty-four in favor of the government, the figures being—For the government 103; for the opposition, 69. One of the last divisions taken last session was upon the question of the emergency rations scandal, when the government's majority was found to have decreased to twenty-three; the vote being—For the government, seventy-three; against, fifty.

* * *

The last was the eight parliament of the Dominion of Canada. It has held five sessions. Its first meeting was on August 19, 1896, and the House rose for the last time on 18th July, 1900. The shortest session of the parliament was its first, which lasted from 19th August, 1896, until the 5th of October, same year, or a period of forty-seven days. The longest session of this parliament was its last, which extended from 1st February, 1900, to 18th July, of the same year, or a period of 168 days.

* * *

In 1874 a law was passed dispensing with public nominations and providing for simultaneous polling at a general election. No qualification in real estate is now required of any candidate for a seat in the House of Commons, but he must either be a natural born subject of the Queen or must be neutralized.

The Montreal Witness is the only Liberal organ that has had the honesty to meet the letter of Mr. H. H. Cook fairly. It says—

"If Mr. Cook can convince the country that the offer of a senatorship to him was actually made for $10,000, we think the country will effectively resent the corrupt act."

* * *

"Rough on Rats" is the head line in the report of a political meeting held in North Middlesex. Mr. R. is a candidate.

* * *

"Elevation to the Senate" is a happy way of expressing it. Senatorial seats come high.

* * *

Canada's $10,000 Cook makes a specialty of hot roasts and political stews.

* * *

In the far West Mark continues to whoop up everything but the barrel.

* * *

From now on the campaign lie and those nailing them may be expected to go at it hammer and tongs.

* * *

If Mr. McClellan's parliamentary hopes go to blazes, as a Tory orator recently stated, it can't be charged against him that in his late tour he set the riding on fire.

* * *

Of course the Liberals may claim that the $10,000 asked for the Senatorship was a tariff for revenue only.

This laying stress on the full dinner pail may be but a reflex of the orator's own anxiety to get at the public trough.

* * *

No, the politicians are placing no big issues before the people. They don't usually. Five dollars is about the biggest.

* * *

The Ottawa Citizen says "the Cook harpoon is in the Grit whale. That is a barbed criticism sure enough.

* * *

Mr. Kendry is not yet out of the woods, but it's not because he's having a picnic.

* * *

The Bobcaygeon Independent thinks Geo. McHugh, Liberal, is stronger in Victoria to-day than in 1896, and predicts that he will have an increased majority in this election. Col. Hughes, the Independent declares, will win by a decreased majority in the north riding.

Scrofula the Cause.

Eczema, catarrh, hip disease, white swelling, and even consumption have their origin in scrofulous conditions. With the slightest taint of scrofula in the blood, there is no safety. The remedy for this disease in all its forms is Hood's Sarsaparilla, which goes to the root of the trouble and expels all impurities and disease germs from the blood.

The best family cathartic is Hood's Pills.

Sir Frank Yeigh Coming

Mr. Frank Yeigh, one of the best of entertainers, will give a lecture on "Britain's Girdle of the Globe, and the South African War." in the Town Hall, Ashburnham, on Friday evening next, 26th, instant. The lecture will be given under the auspices of the County Teacher's Convention. Admission fee only 25 cents. The lecturer will illustrate his talk with beautiful lime-light views. This is a rare opportunity to hear a more than ordinarily pleasing and instructive address. Mr. M. W. Matchett, the popular and efficient principal of the Ashburnham schools, has heard the lecture, and says it is exceedingly good, and should be most liberally patronized.

A Business Proposition.

A successful business career cannot be achieved without sound health. The business man should guard his health as he guards his capital; for health is part of his capital and the impairment of that capital affects every business interest. A sedentary occupation and quick lunches, soon show their effects in a sluggish liver. The use of Dr. Pierce's Golden Medical Discovery will cure "liver trouble" as well as indigestion and other diseases of the organs of digestion and nutrition.

The "Discovery" strengthens the body by supplying Nature with strength making materials. It contains no whisky, alcohol or other intoxicant.

"After three years of suffering with liver trouble and malaria," writes Mr. Edward Jacobs, of Marengo, Crawford Co., Indiana, "I gave up all hopes of ever getting stout again, and the last chance was to try your medicine. I had tried all the home doctors and received but little relief. After taking three bottles of Dr. Pierce's Golden Medical Discovery and one vial of his 'Pleasant Pellets' I am stout and hearty. It is due entirely to your wonderful medicines."

Dr. Pierce's Pleasant Pellets assist the action of "Golden Medical Discovery."

ATTACK! of ROYAL CANADIANS at Paardeberg

The present is a time when war pictures are in greater demand than ever. The conduct of the British soldiers on the battlefield has won the plaudits of admiring nations. We have at great expense published four large, beautiful pictures, size 22x28, on heavy, superfine calendered paper. A picture that will commend itself and send a thrill to the heart of every true Canadian is the one called Attack of Royal Canadians at Paardeberg, there are literally hundreds of figures on this picture, the mountains or kopjes stretching out into the distance are swarming with men, while here and there a prostrate figure speaks only too well of the Boer rifleman. It was on this battlefield the gallant Major Arnold met death unflinchingly. Indeed, it is only too true that many of those gallant hearts that beat so high when the cheering thousands bade them Godspeed as they sailed from Canada's shores now lie still forever in lonely graves on the other side of the world under African skies. To every Canadian heart, to every Canadian home, the deeds of their brave soldier boys speak with an irresistible thrill of patriotism and pride. Gordon Highlanders at the Battle of Belmont, Charging the Boer Guns at Elandslaagte and the Charge of Gen. French's Cavalry on the Retreating Gen. Cronje's Army. These are all stirring pictures and cannot fail to commend themselves to anyone who will examine them. They are RED HOT SELLERS! Agents coin money. Big profits Enormous success. One agent sold 63 in one day. Sample and terms 25 cts (none free); four for 80 cts; $1.75 per dozen; 25 for $3.25; 50 for $6.00; 100 for $11.00 Write to day for a dozen and make money. SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Works at Port Colborne" will be received at this office until Friday the 9th November inclusively, for the construction of a breakwater and for rock excavation at Port Colborne, Welland County, Province of Ontario, according to a plan and specification to be seen at the offices of H. A. Gray, Esq., Engineer in charge Harbour and River Works for Ontario, Confederation Life Building, Toronto; the Resident Engineer Room, 411, Merchant's Bank Building, St., James St, Montreal, and Mr. Ph. Beland, Clerk of Works, Post Office, Quebec, on application to the Postmaster at Port Colborne, Ont., and at the Department of Public Works, Ottawa.

Tenders will not be considered unless made on the form supplied, and signed with the actual signatures of tenderers.

An accepted cheque on a chartered bank payable to the order of the Minister of Public Works, for thirty thousand dollars, ($30,000), must accompany each tender. The cheque will be forfeited if the party decline the contract or fail to complete the work contracted for, and will be returned in case of non-acceptance of tender.

The Department does not bind itself to accept the lowest or any tender.

By order,
JOS. R. ROY,
Acting Secretary.

Address to the Electors

To the Free and Independent Electors of West Peterborough—

Gentlemen.—Having accepted the unanimous nomination of the Liberals of this Riding, as a candidate for its representation in the House of Commons I hereby respectfully solicit your support in securing my return at the coming general elections.

The grounds upon which I base my appeal are not so much nor chiefly by any means, my personal fitness for the position of your representation though as a citizen of Peterborough and interested in its progress in common with that of the country, I can and do promise, if elected, an intelligent support of such a public policy and such measures as will best conduce to the promotion of all the interests of Canada, the developement of her great resources and the general betterment of the civil moral and material condition of the public; and my best abilities and most assiduous attention shall be devoted to the faithful discharge of my representative duties.

The strongest ground, however, of my appeal consists in the fact that I am a firm supporter of the Liberal Government led by Sir Wilfred Laurier, which is entitled to the renewed confidence of the people, both on the ground of its policy and the splendid record established by the application of that policy. The Liberal party appealed to the country in 1896 upon a clearly defined policy and the promised results followed.

The Liberal party promised a reduction of a high tariff that hampered our industrial and agricultural interests and was hostile to the Mother Country.

The tariff was materially reduced and otherwise improved and in such a way as to help instead of hinder the manufacturer and farmer, with the consequence that never before in the history of the country have our industries or our farmers enjoyed such great prosperity, our mechanics and working men such constant employment and high wages, nor our commercial and all other interests so flourished.

Our domestic and foreign trade have also greatly increased. The loyal gift of a trade preference, represented by a tariff reduction on British goods of 33 1-3 per cent., and our despatch of the Canadian Contingent, have resulted in a kindlier feeling towards Canada and greatly increased trade with the Mother Country.

With a largely reduced rate of tariff, our revenue has greatly expanded so that the Government was warranted in practising true economy (reducing our postal rate one third, giving Imperial penny postage,) and premitting of the completion of great public works, deepening our canals, so long trifled with, pushing the work on the Trent Valley Canal which is now urged and will be urged to completion by the Liberal Government, and the application of a vigorous policy of general development and improvement of our transportation facilities, resulting and to result in easier access to the British market and better prices for all our products.

The farming interests of the country are deserving of the best services of a Government, such as the present has given. The immense impetus given the produce trade between Canada and Great Britain, through the preferential tariff, has been greatly helped by the action of the Government in providing an excellent and adequate system of cold storage, by which Canadian products can be landed in Great Britain in first-class condition, guaranteeing the highest prices. The system is of the most modern character, sufficient for all the present needs of the trade, and it will be improved and enlarged as experience suggests, and increase of the produce trade demands, and I shall, if elected, feel it my duty to support any policy that will improve our trade with the Mother Country, and strengthens the bond of British connection, of which we are so proud.

In an industrial centre like Peterborough the claims of the working classes are especially deserving of consideration. No country is well governed that does not look after the interests of all classes of the community. The Conservative Government has been, and the Conservative party declares itself to be, extremely solicitous of the interests of the capitalist classes—the manufacturers—but it left the working classes to largely shift for themselves. A Liberal Government came into power, and the attitude towards Labour was changed, and the rights of Labour to its rights recognized, and in a practical way. A Department of Labour has been established and a Minister of Labour placed over it. A Labour Gazette has been established in the interests of workingmen, published monthly; conditions have been inserted in all Government contracts compelling contractors to pay the highest current wages, which the Government guarantees the payment of; the sweating system has been abolished on Government work, enforced by a special officer, and in many other ways the Government has shown by deeds that the rights of the workingmen, as well as the capitalist, shall be protected. I heartily support the Government in what it has done, and shall support them in extending the benefits which they have already conferred, and which it is their policy to continue, as need arises.

The splendid achievements of Canadian soldiers in South Africa, make them worthy of the gratitude of the country. We have the best militia material in the world, and if we keep up a military establishment, let it be worthy of Canadians. Situated as Peterborough is, on the line of the Grand Trunk and Canadian Pacific Railways, and on the line of the Trent Valley Canal, begun as a military work, and now under course of completion, no other point in this Province is so well adapted for a military centre. I shall, therefore, feel it my duty to press upon the Government the advisability of constructing in Peterborough new armories and connected buildings for military stores for Ontario, and I feel that this is practicable of attainment at the hands of a Government which has shown its interest in our volunteers by placing the Militia Department, so greatly neglected by a previous administration, upon an effective basis, and will, therefore, more naturally be well disposed towards the improvement involved in making Peterborough a centre for military stores.

A town of the industrial and commercial importance of Peterborough, has certainly strong claims upon the good offices and of a Government. For the past four years the town has been represented, when it was represented in the House, by a member opposed to the Government. There is no doubt in the minds of unprejudiced observers, that the present Liberal Government will be strongly sustained in the country at the coming elections, and the question arises whether West Peterborough will have its interests better served by a member sitting in opposition and hostile to the Government and its policy, or by a member pledged to give the Government a fair support in the application of its policy. If elected I pledge myself to give my best ability and exertions to the promotion of the general good of the country, and to look especially after the interests of West Peterborough.

I cannot obviously here, enter into details of how in other ways the Liberal Government has implemented its promises and applied its policy, but I shall have an opportunity during the campaign of more fully dealing with these and other public questions.

As a supporter of such a Government I can appeal with confidence for the support of the Electors of West Peterborough, knowing that by helping to give, as you will do, through my election, a renewal of the trust the Liberal Government has discharged with such evident and gratifying results, they will be conferring a great and lasting good upon this riding, the country at large, and securing a continuation of the great blessings of prosperity and good government we now enjoy.

Again soliciting your support, your votes, and influence in this contest,

I have the honor to be,
gentlemen,
Your obedient servant,
J. H. McCLELLAN

"We, the faculty of the College of Music, have sent for you to demand an explanation of yesterday's behavior; we will hear, if you please, what you have to say for yourself Miss Rienzi," said Madam Root, slowly, laying stress upon each particular word.

"I—I—ladies," faltered Izetta, beseechingly, glancing from one to the other. "It was all a cruel mistake; I——"

"So we have observed," commented madam, grimly, "a grievous mistake on your part."

The quivering lips and tearful eyes of the young girl would have melted hearts of stone.

The hearts of the faculty of the College of Music were made of harder material, invulnerable to pity.

"We are waiting with patience to know the cause of yesterday's disturbance."

"I cannot tell you," said Izetta, respectfully but firmly.

"What!" exclaimed madam, opening her eyes widely; "am I to understand you refuse us an explanation?"

"I would tell you if I could," replied Izetta, in a low voice, "but, oh, madam, I cannot, I cannot tell you more than this. I—oh, believe me, it was all a mistake!"

CHAPTER XIX.
Cruel Sentence.

"Well," said Madam Root, impressively, "we have all agreed as to what course should be pursued in case the explanation proved unsatisfactory to us, have we not, ladies?" she added, turning to the calm, grim circle on her left; whereupon each person nodded her head gravely in the affirmative.

"Please do not be hard upon me, ladies," sobbed Izetta, wringing her hands; "I have suffered — oh, so much!"

At this remark each one of the stoical circle glanced knowingly at her neighbor, with a peculiar suspicion of a wink. No one vouchsafed a reply.

"There are some sorrows which enter our lives," said Izetta, plaintively, "which are too bitter to repeat; mine is one of them."

"If I had known there was that which through shame should cause you to remain silent concerning your past life, we should never have given you refuge at the College of Music, should we, ladies?" again addressing the circle, who grimly chorused:

"Never!"

"Oh, madam," cried Izetta, in agony, "do not speak so; I am more sinned against than sinning."

Although innocently meant and innocently uttered, Izetta's words had again condemned her in the hearing of the grim audience; their worst opinions were confirmed by those pure lips.

Madam Root turned slowly and impressively to her confederates.

"I see no other course than the one agreed upon in this case, do you, ladies?"

The ladies of one accord arose slowly, responding metallically:

"We see no other course, madam."

"We have concluded," said madam, slowly, noting the effect of each word on her quivering victim, "that it will be necessary to dispense hereafter with your services, Miss Rienzi. We, the faculty, wish it understood that we have expelled you from the College of Music."

For some moments Izetta hardly realized the great blow that had befallen her.

Madam Root opened the door, with a calm, cold bow.

"The porter will call for your luggage in an hour or two," she said.

Izetta felt all remonstrance was useless; the conversation was at an end.

What else could she do but pass from their presence, a cruel example of woman's inhumanity to woman?

Izetta paused hesitatingly on the threshold.

"If I had a recommendation from you, madam, I——"

"I am forced to courteously but firmly refuse your request," said Madam Root; "I cannot conscientiously recommend to another roof one whom I refuse to harbor beneath my own. Good-morning, Miss Rienzi."

Again the warp of fate was weaving its web closer around her.

She was so young to bear the weight of sorrow, such as was hers.

As she traced her steps to her own apartment she met a few of the scholars on the stairway; she noticed they all turned their heads away.

"What have I done?" she asked herself, wearily; "the world is so cruel to me!"

Kind-hearted Becky was her only friend in need.

She could not go back to Silverbrook— where could she go, what could she do?

Then a practical idea occurred to her; she would procure a boarding-place and seek for a situation.

She counted over the contents of her purse. Yes, her means were ample for the purpose.

"Where to, miss?" asked the driver, as he mounted the box an hour later.

"I should like to find a nice, quiet boarding-house; do you know of any such?"

He shook his head doubtfully.

"A boarding-place, such as you would like, miss, is pretty hard to find in Oxford. I'm around rather much, an' I'm sure I don't know of any. There's only one place that I can really recommend."

"Take me there, if you please," she answered.

In the course of a half hour the hack stopped before a neat frame house, upon which was painted in unpretentious black letters, "Intelligence Office," and beneath this a small sign of "Boarding."

Izetta was ushered into a neat little parlor, and in a few moments Mrs. Guth made her appearance.

"What can I do for you, miss?" asked the landlady in a cheery, bustling way that made Izetta feel quite at home.

"I should like to stay with you for a while," she replied, "until I procure a situation."

"Ah!" said Mrs. Guth, briskly, "I think I can accommodate you; and, by the way, you have come to just the place you want. I have an intelligence office here, too, with some of the best people in Oxford for patrons, and if there is anybody can get you just the place you want, I am that body."

As she spoke she looked at the sweet, young face, wondering what sorrow had visited her, for she read a deep tragedy in the dark, sorrowful eyes.

BLOOD POISON.

If you have this awful disease you are in danger until completely cured; the various symptoms you notice should be a warning to take immediate treatment. Don't put it off until too late, as it continually gets worse. If you have sore throat, patches on tongue or mouth, swollen glands, hair falling out, blotches on body, itching skin, or other signs of this awful disease, call on us. We give you a written guarantee to cure you by our LATEST METHOD TREATMENT without Mercury or Potassium, and you pay when Cured. Each time you call you see Dr. Goldberg personally, who has 18 Diplomas, certificates and licenses received from the various colleges, hospitals and states, which testify to his standing and abilities.

The original testimonials can be seen at our office; $500.00 reward for any we cannot show; at request of patients we publish only the initials.

I am improving every day. I notice if I cut or scratch myself the sore will heal up. I hope you will not stop treating me as long as there is a sign of that terrible disease. I am more afraid of it than death. I believe you have the right medicine for the disease. I feel so thankful to you for the good you have done me; I was a perfect wreck when I came to you, and was on the verge of suicide. To make a sure thing I would like to continue a while longer, so that it will not return. Very respectfully yours, Mrs. L. S.

THE COLORADO COPPER MINING COMPANY

LOCATION OF OUR MINES

THE COLORADO COPPER MINING COMPANY is fortunate in being the possessor of five splendid showing properties in the great Salida copper belt, the principal copper producing region of this portion of the rockies. All of our claims have been more or less developed and it is our purpose to put the same on a paying basis at once.

Our Company owns, clear of incumbrances the following claims,—The Sedalia Extension, the Sedalia Extension No. 2, which property adjoins the great Sedalia mine, which has been a big producer for upwards of seventeen years; the Copper King of Colorado, which immediately adjoins the above; the Copper Queen of Salida, a very promising property, only a few steps from the depot in Salida. This claim occupies an imposing position on a mountain just north of the city; and last, but by no means least, the Sunshine, located two miles east of Salida at Cleora station, on the main Trunk line of the great Denver and Rio Grande Railroad, also on the Arkansas river, which in length is one of America's greatest streams.

TOWN AND COUNTY NEWS

Pushing the Canvas

Mr. Lang is holding a series of meetings in the northern part of his riding, and is everywhere received with favor. Meetings have been arranged to be held in other parts of the riding at once, to be addressed by good speakers.

A Successful Outing

Mr. Harry Nall's duck shooting party, consisting of Col. J. Z. Rogers, R. M. Roy, B. O'Datte, Bert Walley, J. Tivey, Jack Irwin and J. C. Snyder, returned per steamer Rob Roy, on Monday, from Rice Lake. The party were very successful, bringing home 40 ducks.

A Dangerous Place

Complaints have reached the Times of the dangerous condition of Lake street. It appears that a number of holes have been dug for telephone or telegraph poles, and these holes have been left open. Only a few days ago a cow fell into one of the excavations, and it was only after considerable trouble that she was pulled out. The Town authorities should fill the holes up at once.

Again in Trouble

Thomas Coursey is again in trouble. Chief Rossel received a letter from Chief Goodall, of Parry Sound, asking as to the previous record of Coursey, who is held on a charge of rape. It appears that Coursey along with another disreputable character entered a certain woman's house and committed the horrible act at the point of the revolver. He has been committed to stand his trial at the forthcoming Assizes. Coursey is well known to the local police. On the 18th of February, '98, he was sentenced to two years less one day in the Central Prison for theft. He has been in the local police court on several occasions for being drunk and disorderly, and his record is a very bad one. He is about 22 years of age.

Death of Stanley Clarke

It is with sorrow the Times is obliged to announce the death of Mr. Stanley Clarke, son of Mr. George Clarke, 781 George street, which occurred on Monday afternoon from consumption. The deceased was only 23 years of age, and had been ailing for some months, and, although not expected to recover, his death was a severe shock to his friends. He was at one time a freight clerk at the C.P.R. station here, and held a position at Montreal, which he had to give up on account of ill-health. The deceased was a member of the Church of England and of St. John's Church, and was a regular attendant at the services of the church before his illness. He was very popular amongst those who knew him, and was highly esteemed and beloved. The funeral will take place this afternoon at 2.30 o'clock.

Johnny Comes Marching Home.

Halifax N.S., Oct. 24.—The city is en fete to-day, the return of the Canadian South African Volunteers calling out a national patriotic demonstration that has not been equalled in this country. The troopship Idaho is due here from Cape Town, with the 18 officers and 410 men, the survivors of the first contingent that left the Dominion for the Cape a year ago.

This regiment took a foremost part in the investment and capture of Cronje at Paardeberg, and was among the first battalions to enter Pretoria. It went out 1,200 strong and has been greatly reduced by sickness and casualties. A warship meets the Idaho off port. Among other conspicuous features of the welcome home is an address by Lord Minto, a civil banquet, a combined naval and military review ashore, and the inauguration of a fund by his excellency to erect a monument at Ottawa, to the memory of Canadians who died in South Africa.

JOTTINGS ABOUT TOWN

—Yesterday was the last day for registering.

—Go to the Times Bookstore for cheap stationery.

—The Grand Trunk pay car passed through here yesterday.

—The inquest on the Chinaman case will be resumed this evening at the Police Court.

—After the elections will come more elections. The ratepayers will then be called upon to elect Aldermen.

Scrofula in the blood shows itself sooner or later in swellings, sores, eruptions. But Hood's Sarsaparilla completely cures it.

—A special meeting of the Board is particularly requested at the rooms of the Young Women's Christian Association, Brock street, this afternoon at half-past three.

—Mr. Egerton Whitfield, formerly of this town, who was in the carting and hack business for several years, here died in Fulton, N. Y., on Sunday, the 12th October.

A certain young clerk on George street, who delights in playing odd jokes on friends, called on a young lady on Thursday morning, and was invited to luncheon, but declined to stay. He took his hat, cane and gloves, said good-bye, and pretended to go. Instead of going, however, he went back on tiptoe through the dining room of the house, crawled up the back stairway and hid in the hall, behind the door of the sitting-room, where the young girl he had just left sat reading. It was his intention to frighten the household by pretending to be a robber, and on the successful perpetration of his joke to stay to lunch, after all. While he was in hiding the mother of the young girl entered the room. "Where is Mr. B. I thought he would be here for lunch," she said. "No, he has gone home," the daughter answered. "Well, it's a good thing," said the mother, "for there are only four chops in the house, and that would not have made one apiece." Mr. B. crawled down the back stairs quietly again, sneaked out of the front door and went home.

Heart relief in half an hour.—A lady in New York State, writing of her cure by Dr. Agnew's Cure for the Heart, says: "I feel like one brought back from the dead, so great was my suffering from heart trouble and so almost miraculous my recovery through the agency of this powerful treatment. I owe my life to it."—19

PERSONAL MENTION

—Sergt. Trussler, the returned soldier from South Africa, was in town yesterday.

—Mrs. Bell, of Montreal, is visiting her father, Mr. Robert White, of the White House.

—Mr Cecil E. Wight, of the S. S. White Dental Mfg., Co., Toronto is a guest at the Oriental.

—We are pleased to announce that Mr. J. H. Porter, who has been ill for some time, is rapidly improving.

—Rev. Father Phelan, of Lindsay, and his mother, Mrs. E. Phelan, town, are spending a few weeks in New York.

—The many friends of Mr. Earnest Wasson will be sorry to learn that he has been taken to the Nicholls Hospital, suffering from an attack of typhoid fever.

—Mr. J. A. Sexsmith, the Conservative candidate for East Peterborough, was in town yesterday arranging for speakers to address public meetings which he proposes to hold throughout the riding.

Patents Granted to Canadians.

The following list of United States patents granted to Canadian inventors is reported by Egerton R. Case, registered solicitor of patents and expert, Temple building, Toronto—Canadian inventors—John Clarke, Orangeville, car ventilator; Robert Ireland, A. L. Ashdown and M. S. Holmes, Portage la Prairie, stubble burner; Nelson McPherson, Silverdale Station, grass seeder; George F. Purser, Sarnia, game table.

Arrested in Toronto.

Toronto Globe—A young girl named Florence Wilder Spinn, who has told the police that she came from Peterborough, was arrested yesterday by Policeman Mackie on a warrant charging her with having stolen a dressing case and a small sum of money, from Mrs. Delphyna Kilmare of 14 Drummond place. Mrs. Kilmare asserts that she sheltered the girl, who said that she had no home, and when the protege subsequently left the articles alleged to have been stolen were missing." The girl in question, The Times learns, was employed by a farmer residing near Peterborough.

LIKE OPIUM EATERS.

Coffee Drinkers Become Slaves.

"The experience, suffering, and slavery of some coffee drinkers would be almost as interesting as the famous "Confessions of an Opium Eater," says a Boston man, W. J. Tuson, 131 W. Newton St. "For twenty years I used coffee at the breakfast table, and, incidentally, through the day, I craved it as a whiskey drinker longs for his morning bracer. I knew perfectly well that it was slowly killing me, but I could not relinquish it.

"The effect on the nervous system was finally alarming and my general health greatly impaired. I had dyspepsia, serious heart difficulty, and insomnia. When I would lie down I would almost suffocate. My doctor assured me it was due to the action of caffeine (which is the active principle of coffee) on the heart.

"I persisted in its use, however, and suffered along just as drunkards do. One day when I was feeling unusually depressed, a friend whom I met looked me over and said,—'Now, look here, old man, I believe I know exactly what's the matter with you. You are a coffee fiend and it's killing you. I want to tell you my experience. I drank coffee and it ruined my nerves, affected my heart, and made me a sallow, billious old man, but through a friend who had been similarly afflicted, I found a blessed relief and want to tell you about it. Try Postum Food Coffee, a grateful, delicious beverage, full of nourishment, that will satisfy your taste for coffee and feed your nervous system back into health, rather than tear it down as coffee has been doing.'

"I took my friend's advice, and within a week from that time, my digestion seemed perfect, I slept a sweet, refreshing sleep all night, and my heart quit its quivering and jumping. I have been steadily gaining in health and vitality right along."

Letters from the People on Interesting Topics.

(NOTE.—The Times does not hold itself in any way responsible for the opinions expressed by its correspondents.—Ed. Times.

Y.M.C.A. JANITOR.

Editor Morning Times.

Sir,—I am pleased to learn that my short letter which you published some time since has borne fruit. I hear that our old janitor is to be installed on Nov. 1st, at an augmented salary.

Many thanks to the Directors for their sensible action, but more especially to our Secretary, whom we all heartily respect. I hear it was only a slight misunderstanding which has since been rectified.

I also hear that it was the rare common sense of the Secretary which brought every thing right We have too few of his kind in Peterborough. Yours, etc.,

A MEMBER.

MR. McCLELLAN'S CHANCES.

Editor Morning Times.

Sir,—One hears a good deal about Mr. Kendry having "a sure thing," and that it will be a walk-over for him, etc.

Now, Sir, I desire to say to the thousands of persons who read the Times, many of whom have no doubt heard this kind of talk that they must not be misled in the matter. Mr. McClellan has developed wonderful strength since the contest began, and while I don't go so far as to say that he is sure of election, I do say that his chances are good. It will be close, and the majority will not be large.

I hope the Times will publish this letter, and in order to have it appear I do not sail under false colors, but sign my name in full.

ALFRED J. LOUDEN.

"SATURDAY NIGHT'S RACKET."

Editor Morning Times.

Sir,—In yesterday's Times I notice a letter signed "Mechanic." In it he refers to the misconduct at Mr. Mulock's meeting, of a number of men whom he refers to as "loafers who never did a day's work in their lives."

Though the conduct of these poor "loafers" was not very creditable, our friend is perhaps a little too severe, as being of a higher element, judging by his letter, he cannot understand the feelings of his more unfortunate fellow men.

He further says, "It won't do any real harm. But just the same, he, (Mr. Kendry) lost quite a few votes in our shop through it." He has evidently made up his mind that Mr. Kendry's majority will be so large that "quite a few votes in our shop" polled against him "won't do any real harm." His fellow workmen must be easily influenced if they would allow their spite against a few "loafers" to induce them to vote against what they otherwise think is for the welfare of the country.

Pittsburg, Oct. 24.—The great Pennsylvania railroad is working assiduously in the construction of the longest fence in the world. BURGLARY IN HAVELOCK

Thompson Bros.' Store Broken into and Goods Stolen

About three o'clock on Monday morning the general store of Thompson Bros., of Havelock, was broken into. An entrance was effected through the front, a large pane of plate glass, five feet by ten feet, having been broken for the purpose.

The burglars evidently were disturbed in their work, for they only got away with four pairs of shoes and four odd ones. They left no clue.

The excellent music rendered by the church choir was much admired.

To the Electors OF EAST NORTHUMBERLAND

Gentlemen,—

Through the urgent, hearty and unanimous solicitation of the Reform party of East Northumberland, I have consented to be the Liberal candidate to contest the Riding in the coming Dominion election. Time will not allow me to visit personally, therefore I take this opportunity of asking your hearty support as far as you may deem me worthy of the same. If elected I promise you earnest and honest service. Your obedient servant,

R. R. DENIKE.

"Better Be Wise Than Rich."

Wise people are also rich when they know a perfect remedy for all annoying diseases of the blood, kidneys, liver and bowels. It is Hood's Sarsaparilla, which is perfect in its action. It so regulates the entire system as to bring vigorous health. It never disappoints.

Goitre—"For 42 years I had goitre, or swellings on my neck, which was discouraging and troublesome. Rheumatism also annoyed me. Hood's Sarsaparilla cured me completely and the swelling has entirely disappeared. A lady in Michigan saw my previous testimonial and used Hood's and was entirely cured of the same trouble. She thanked me for recommending it." MRS. ANNA SUTHERLAND, 408 Lovel Street, Kalamazoo, Mich.

Poor Health—"Had poor health for years, pains in shoulders, back and hips, with constant headache, nervousness and no appetite. Used Hood's Sarsaparilla, gained strength and can work hard all day; eat heartily and sleep well. I took it because it helped my husband." MRS. ELIZABETH J. GIFFELS, Moose Lake, Minn.

Servant Girls Want Places.

Reports received by Mr. Thomas Southworth, Superintendent of Colonization from Liverpool, denote that there are many enquiries from domestic servants in England anxious to get places in this country. Some applicants would come if their passages were paid, or only partially met, while others would come irrespective of the question of expenses if they could be assured of good situations on their arrival. Mr. Southworth has forwarded to the Ontario Government's agent in Liverpool a list of twelve situations in Sault Ste. Marie, which are available for suitable persons.

A WONDERFUL
KIDNEY and Bladder CURE

The Honorable Chairman of the Board of County Commissioners, Ellsworth, Kansas, tells how ALKAVIS cured him after Doctors and all other Remedies had Failed.

I. A. HOPKINS.

BRIGHT'S DISEASE, GRAVEL, DROPSY,
And Rheumatism Mastered at Last.

One of the most remarkable medical discoveries of the century is the Kava-Kava Shrub, found on the Ganges River, East India, which has a wonderful action on the kidneys and bladder. Since its introduction into this country its fame has quickly spread, because of its seemingly impossible cures. Prominent men and women have testified to its great curative powers, and hospital tests prove its infallibility even in advanced stages of Bright's Disease. Among the more recent recoveries is that of Hon. I. A. Hopkins, Chairman Board of County Commissioners, Ellsworth, Kansas, who says:

GENTLEMEN:—I will say that I believe and know that I owe my life to Alkavis. I had been troubled with Kidney and Bladder Trouble for years. Two years ago I was sick for six weeks with Malarial Fever which left me in a bad condition. My limbs were swollen with Rheumatism so that I could hardly walk; I was troubled with Indigestion from taking Medicine for my Urinary troubles which had become very much worse. I had to get up every hour of the night to urinate. I passed great quantities of blood on account of hemorrhage of the Kidneys and Bladder. I tried and had been trying everything in the shape of Medicine for Kidney Trouble that I could think of or that the Doctors recommended, but nothing helped me for I kept getting worse. I suffered great pain continually in my Kidneys. I made up my mind unless I could get relief that I only had a short time to live. About this time my attention was called to an advertisement of Alkavis. As a drowning man will grasp at a straw, I was ready to try anything for relief. I sent to you for three bottles. I began to take it, and before I had taken it one week I began to feel the good effects of Alkavis. My Kidney Trouble and Rheumatism were soon gone, my digestion became all right, I found myself in better health than for ten years and I am in good health now. I know that Alkavis saved my life. What more can anyone say for a medicine? Unlike most medicines it is good for indigestion. It gives the person taking it a good appetite. I have recommended Alkavis to a great many people and all have been benefited by its use. I am 56 years of age, and am very grateful for what Alkavis has done for me.

Respectfully yours,
I. A. HOPKINS.

Rev. W. B. Moore, D. D., Washington, D. C., Editor *Religious World*, writes that after trying all known medicines for kidney and rheumatic disease he was permanently cured by Alkavis. Mrs. Wm. H. Hardy, East Rush, Pa., writes that Alkavis cured her after six doctors failed. Rev. J. W. Hickman, Collyer, Trego Co., Kansas, cured of liver, kidney and bladder trouble, of many years' standing, from which he could only get temporary relief and had given up all hope of a cure. Thus the grand work goes on. A new book, entitled "A Thousand Living Witnesses," sent with the free case of medicine, tells of the wonderful cures performed in every state.

Not only does this great discovery—Alkavis (the Kava-Kava Compound)—cure all forms of kidney and bladder diseases, but by expelling from the blood all poisonous deposits, excess of lime, uric acid, urates and lithiates, it banishes gravel, torpid liver, rheumatism, pains in back, difficult and too frequent urination, etc. The cure is complete. No phase is neglected, and the stomach, heart and nerves are toned and invigorated. No other medicine in the world will perform the work of Alkavis. To enable sufferers to get well and spread the glad tidings we have arranged to send a Large Case of Alkavis FREE by mail to all who write us. The case goes entirely FREE.

If you are a sufferer, write to-day and secure at once a Free Case of Alkavis and Book of "A Thousand Living Witnesses." Address The Church Kidney Cure Co., No. 166 Fourth Ave., New York. Please mention this paper.

The Opera House Thronged With Youth and Beauty.

A Dazzling Scene—The Ball an Unqualified Success—Much Credit Due to Committee Who Managed the Affair.

The second annual ball under the auspices of Peterborough's Rugby Football Club was given in the Opera House last night, when a large and select gathering of lovers of the Terpsichorean art spent a very pleasant time. Credit is due the Committee for a perfect arrangement of details so indispensable to their guests' comfort and enjoyment, and the affair was a success in every way. Very acceptable music was furnished by the Misses Hurley, and the supper provided by the patronesses of the event and served by Mr. Geo. Graham's chief and assistants, proved to be par excellence. The hall had been artistically decorated by Messrs. J. J. Turner & Sons, and presented a truly brilliant appearance; these well known decorators had excelled themselves for this occasion, and demonstrated that no task in this line is beyond their skill. Festoons of flags of every description hung from the ceiling, while the walls were refreshingly relieved by beautiful Canadian and British ensigns. At the rear of the hall was seen the inscription "God Save the Queen," and immediately below, a picture of Her Majesty and the Prince of Wales, from the brush of Reg. Turner. Both stage boxes were gaily dressed in flags and many colored bunting, while the gallery was enlivened by tissue paper decorations and emblematic shields. The stage also presented a truly attractive appearance, handsomely carpeted, and charmingly beautified by ferns, plants and flowers, kindly loaned by Mr. Jas. Head.

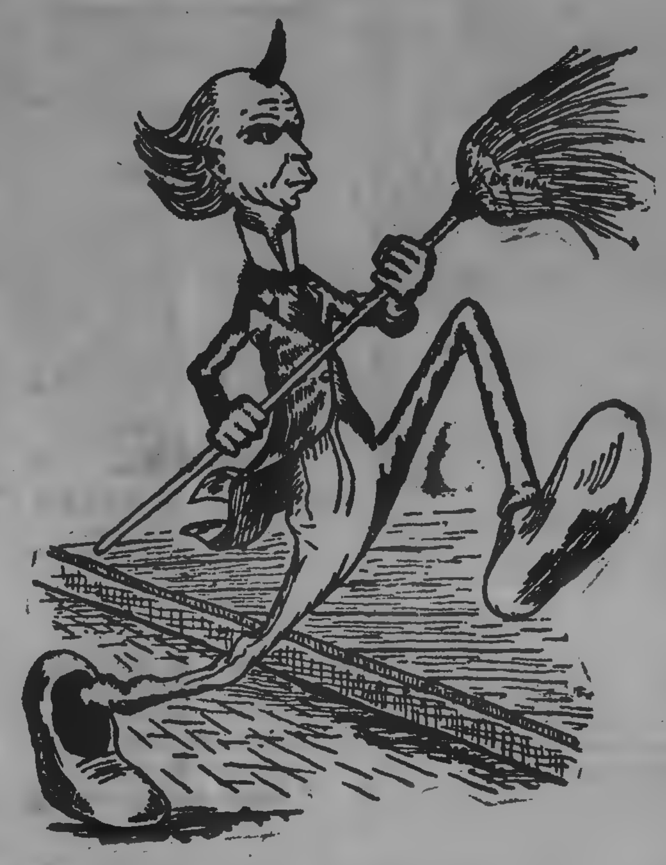
A SWEEPING DENIAL



WILFRED —"Who dares to say we're crooked.

ALVORDS LIVED HIGH KEPT COSTLY STABLE

A Warrant out for the Arrest of the Missing Teller.

New York, N.Y., Oct. 24.—The whereabouts of Cornelius Lansing Alvord jr., who looted the First National Bank to the extent of $700,000, is unknown, and his handsome home at Mount Vernon is being closely watched by detectives.

W. G. Snow, an assistant cashier of the bank, who lives in Mont Clair, said that he had no authority to tell any of the details of the matter, but continued. "The money which was stolen came out of the profits accruing to the bank, and not out of the capital. If I could explain the methods of the defaulter to you you would see that they were very simple. The stealing has been going on for five or six years. The bank examiners should have discovered it, and so should we, but it was one little thing we all overlooked.

"We trusted Alvord implicitly, and had not the least suspicion of him until last Thursday. On that day, while the bank examiner was inspecting the books, one of our clerks called our attention to a circumstance that made us suspicious of Alvord at once. He had discovered this circumstance by the merest chance. Then a few of us who knew about the clerk's discovery started an investigation of the books. We found that by making false entries Alvord had been stealing out of our profits.

"I wish I could explain his trick to you. It is so simple. We all are greatly chagrined to think that he could have fooled us by it. Years ago we lost a few thousand in the same way, and we took special precautions which we thought would prevent anything like it in the future."

WHAT BOOKMAKERS SAY.

A bookmaker, well known to the Broadway loungers had this to say of the missing man's acts at Saratoga.

"Alvord was a regular frequenter of the tracks. He was always accompanied by a woman with blonde hair, who wore a filmy veil, which served to hide her features.

"He generally bet on the English system; that is to say, he knew all the bookmakers by sight, and at a race he would go to a bookie saying. 'Bet me $500 on this horse.' He would go the round of the bookies putting a bet with each one. Then every Monday all the bookmakers would go to the United States hotel and there he would settle up in spot cash. Never any checks, and every Monday regularly. Because of this peculiarity the bookmakers used to call him 'the prince.'"

Al. Davis, another turfman, made the statement that in Saratoga Alvord was known as the Hon. Mr. Alvord, the younger son of an English Earl.

Alvord has born in Syracuse and belongs to a family of bankers. His father was Cornelius L. Alvord, brother of the late Thomas F. Alvord, formerly Lieutenant-Governor of the State.

Cornelius Alvord, sr., was one of the best known men in Central New York, when thirty years ago the family moved from Syracuse to a town between Albany and Hudson. He was treasurer of the Bank of Salina. Afterward he became treasurer of the Salt Springs National Bank.

New York, Oct. 24.—Cornelius L. Alvord, the defaulting teller of the First National Bank, has not yet been arrested, and it was said no news had been received of him. Mrs. Alvord left her home in Mount Vernon and came to this city this morning. Several dectives guarded the Alvord residence all night.

It was learned to-day that when the Alvords went to Sartoga last summer, they took with them all their horses and carriages. It took two cars to transport the outfit. The horses were blooded animals and the vehicles were all of the handsomest design. One set of harness alone is said to have cost $1,500, and everything about the stable equipment was on the same scale.

A meeting of the officials of the First National Bank was held this forenoon. It is thought that steps will be taken to-day or to-morrow to attach all property belonging to Alvord which the bank officials can lay their hands on. Another step that will be taken immediately is swear out a warrant before the U.S. courts for the arrest of Alvord. This is a matter of precaution in case Alvord should have left the country.

FINANCIAL CRISIS AFFECTS SWEDEN

Manufacturers in Desperate Straits For Money

London, Oct. 24.—A despatch to The Daily Mail from Stockholm, Sweden, says. "The extraordinary scarcity of money, which has been growing more acute for a month, is so seriously affecting commercial circles as to threaten a crisis. The balance of foreign trade continues against Sweden and the repeated contraction of gold loans abroad fail to palliate the situation. Industries capital is unavailable, and the newspapers are filled with appeals from manufacturers in desperate straits for money.

"Rural people attracted by the industrial activity are flocking to the towns, and consequently the demand for houses is so great that rents have advanced twenty to thirty per cent. The civil servants have already been granted twenty per cent, increase in pay to meet the hard times, and it is expected employers generally will have to follow suit."

EAST NORTHUMBERLAND

Rev B. Denike, of Campbellford Pushing the Fight.

The entrance of Rev. B. Denike, of Campbellford, into the political arena, has had the effect of greatly stiffening the fight in East Northumberland. Mr. Denike is a fluent speaker, and has the respect and esteem of all classes of the community.

For many years Mr. Denike has managed the affairs of the Sun Life Assurance Company in Campbellford, having been obliged to quit the Ministry on account of throat troubles. He has been very successful in business, and has hosts of friends who will regard his political future with favor.

WEATHER NOTES.

Probs., To-day—Moderate easterly winds; fine.

The weather continues unseasonably warm from Lake Superior to the Atlantic, but in the Northwest it is cooler and sharp frosts occurred last night.

KRUGER NOT WELCOME

Belgian Government Does not Want Him in Brussels.

BOB SENT HIS REGRETS

Lt.-Col. Otter Makes an Official Report to the Militia Department.

London, Oct. 24.—Lord Roberts has sent the following despatch to the War Office.

"Pretoria, Sunday, Oct. 21. — Referring to your telegram of Oct. 9th. No orders have been placed by Col. Girouard in America, I believe Wernhere, Beit & Company acting for various mining firms have owing to the inability of English houses to complete orders on time, placed a portion of their orders in America.

BOER OFFICIALS ARRIVE IN EUROPE.

Naples, Oct. 24.—The Transvaal Foreign Secretary, Postmaster General and Treasurer have arrived here on board the German steamer Herzeg. They proceeded to Hamburg.

Ottawa, Oct. 24.—(Special) — The Militia Department has given out the official reports received from South Africa. The references in Col. Otter's report to the return of the contingent to Canada commences with an entry from Erste Fabricken, Sept. 9th. It states that a telegram has been received from the officer commanding the line of communications at Middleburg, that the War Office desired to know the matter of the regiment whose service expired to October, who wished to return to Canada, and those who will voluntarily extend their service. "This telegram," the entry continues, "was also sent by the O. C. to detachments of the regiment at Olifant's River and Silverton. In view of previous correspondence and arrangement with the commander-in chief, the O. C. takes no immediate action in this matter pending an interview with Lord Roberts, which he hoped to have to-morrow." The next day, Sept. 10, there is another mention of the subject as follows.—"Lord Roberts received at noon and stopped over a few minutes to express his pleasure on learning that the battalion would prolong its service, as a different action on its part would likely cause other colonial corps to also withdraw. A regimental order issued to battalion giving details of subject. A cable to G. O. C., Ottawa, detailing action taken and asking for instructions. Cable delayed in transmission until 11th June." The next entry is Sept. 11—Officer commanding went to Silverton in this morning to speak too fficers and men on subject of retention in South Africa, but owing to ridiculous contention of Capt. Stairs on the subject, did not do so. Wrote officially to O. G., Ottawa, full particulars of the matter. On Sept. 12 the following entry was made in letters received from Capts. Barker and Fraser, reporting their men not satisfied to re-engage of stay longer.

"On Sept. 13 received letters from Major Pelletier, aCpt. Barker, Fraser, and Lieut. Swift, notifying the refusal of the men of the, 'C,' 'E' and 'F' companies to re-engage for further service in South Africa, and also same from Capt. Stairs, Of 'H' company. Officer commanding wired to Lord Roberts the desire of the majority of the officers and men, and asked that such be complied with."

LORD ROBERTS REGRETS.

Sept. 14.—"Message by wire from Lord Roberts at 9 a.m. regretting dicision the regiment had come to, as it was unlikely its service will be required much longer, and its going away now will prevent it taking part in the annexation ceremony at Pretoria and being present at the proposed review in England by her Majesty, and further, that if the officers and men still wish to return, necessary transportation will be made."

"Officer Commanding published his own message of 13th inst. to the Commander-in-chief, and also the reply, in regimental orders, wiring same to detachments at Olifant's River and armoured train, and in manscript to Silverton and details at Elandsfontein.

"Captain Stairs, 'H' Co., reports that all his men desire to return to Canada at once, and Lieut. Lawless, 'D' Co., that 32 of his men wished to return and 12 to remain longer.

"No report yet from C. E. and F."

There are no further references to the matter in Col. Otter's report.

GOOD TURN DESERVES ANOTHER.

New York, Oct. 24.—The Queen did not pay her customary visit to the south of France last winter, and the shopkeepers of the French Riviera suffered financially in consequence, says the London correspondent of the Tribune. They will not be pleased, therefore, to know that her Majesty proposes to desert the French for the Italian Mediterranean shore in the forthcoming season.

Brussels, Oct. 23. —(Special)—The Belgian Government has informed the Transvaal agency that a long sojourn for Kruger in Brussels would be unwelcome and calculated to occasion anti-British demonstrations, which the Government cannot allow. Therefore the agency publishes notice in the newspapers announcing notice in the newspapers announcing Kruger's refusal to accept the hospitility offered him by 'Ander Lecht, a rich Dutchman, in his villa in a Brussels suburg. Kruger will only pass through Belgium without stopping.

It is also quite certain Queen Wilhelmina will accord simply a private audience devoid of all official character, to the ex-President.

BULLER AT CAPETOWN.

London, Oct. 23.—Gen Buller arrived at Cape Town on the Hawarden Castle to-day. He was not expected, and there was no demonstration.

A PITIFUL APPEAL

Emperor of China Prays for Intercession of Italy.

IMPERIAL TROOPS BEATEN

German Kaiser Fears His Grandmother Queen Victoria.

Vienna, Oct. 24.—Austria Hungary has given her assent to the Anglo-German agreement.

Canton, Oct. 24.—According to official reports, all the cities in the Hui Chow Prefecture are still holding out, the rebels confining themselves to capturing villages and slaughtering isolated bodies of Imperial troops. The rebels are also actively recruiting and are now estimated to number 10,000. There has been no pitched battle, but the Chinese general commanding at Hui Chow is afraid to leave the city for fear of being cut off.

RULE THROUGH NATIVE PRINCES.

New York, Oct. 24.—The Rev. Dr. W. A. P. Martin, of the Imperial University, Pekin, who is staying at the home of his son, here, said of the Chinese problem—

"The best remedy of the situation is the re-establishment of the young Emperor, who possesses liberal and progressive ideas. If he cannot be put on the throne, one of two things will follow, either native princes will divide the country, or foreign countries will cut it up and rule through native princes. The latter, I believe, would be the better of the two."

KAISER FEARS HIS GRANDMOTHER.

New York, Oct. 24.—Lord Salisbury's explanations of the motives of the Anglo-German alliance will find a sympathetic hearing at Balmoral, says the Tribune's London correspondent. It is a current saying that the only person of whom the German Emperor stands in awe is his grandmother, Queen Victoria. He is influenced by her, and she has a strong affection for him. Her sympathies have always been excited when England and Germany have been working together in diplomacy. The two Governments already had a secret understanding respecting African schemes of partition before this fresh agreement was made, and many of the best informed men in the diplomatic world have been convinced that it also includes possible contingencies in the Far East. It is not indeed, a new thing for Lord Salisbury to make a secret arrangement with Continental powers.

What is unusual is the peculiar manner in which this fresh compact has been sprung upon Europe. That baffles conjecture.

A PITIFUL APPEAL.

London, Oct. 24.—A despatch to the Central News from Rome states that King Victor Emmanuel to-day received a pitifully worded cable despatch from the Emperor of China, praying for his intercession in behalf of China.

LE TEMPS' OPINION.

Paris, Oct. 24.—The Temps, which is a semi-official organ, under a London date, says—

"The belief in diplomatic circles is that the Anglo-German agreement is purely a mutual guarantee against either country seizing the Yang Tse Kiang Valley Germany, even if not in an economic crisis, is at least in serious embarrassments, owning to considerable overproduction, brought about by the enormous industrial machinery which she has created at a great cost.

"She, therefore, seeing commercial outlets, cast her eyes on China, and especially the Yang Tse Kiang Valley, and fearing England might attempt to seize that territory, she signed the published agreement.

"Diplomats are convinced that no secret clause exits. The third article applies to the eventuality of Russia definitely seizing Manchuria, in which case Germany and England would divide the Yang Tse Kiang Valley. But there are reasons to believe this will not occurr, because Russia is determined not to seize Manchuria."

The officials of the British Foreign Office say the Anglo-German agreement will not effect Russia's railroad concessions in Manchuria. They point out that the object of the agreement is the upholding of the integrity of China, without reference to the arrangements of the powers regarding the construction of railroads in China.

U. S. TO BUY DANISH W. I.?

St. Thomas, D. W. I., Oct. 24.—Intense adverse feeling has been excited here by the renewal of the report that Denmark intends to sell the Danish Antilles to the United States.

A meeting of the Colonial Council has been convoked at St. Croix, for purpose of making a formal protest.

IMPERIAL FEDERATION

London, Oct. 25.—The Chancellor of the Exchequer, Sir Michael Hicks Beach, in the course of an address before the Liverpool Chamber of Commerce, yesterday advocated closer commercial union between the different centres of the Empire, and greater organization for the Empire's common interest.

THE SUN AND COLD STORAGE

The New York Sun seems to be favorably impressed with Sir Charles Tupper's cold storage manifesto. It says—

"The Conservatives of the Dominion seem to have made up their minds that a substantial and attainable boon must be substituted for the illusory 'trade preference' plank in their political platform. The Canadian farmers can not be convinced that Great Britain will ever tax the food products of other countries for their benefit and the Canadian manufacturers do not want such a concession, because they forsee that they would have to pay a ruinous price for it by admitting British fabrics duty free. If then, the agricultural interest is to be won over to the Conservative side, some promise must be made to it, for the fulfilment of which the prospective beneficiaries may look to Ottawa instead of London.

"Sir Charles Tupper has shown himself equal to the emergency. He proposes to use the public funds of the Dominion for the purpose of providing cold storage and effective transportation of perishable food staples, such as are produced in Canada and consumed in Great Britain. That is to say, in the matter of placing perishable commodities on the British market he offers on behalf of the Conservative party a promise to place Canada on an equal footing with New Zealand, Australia, the Argentine Republic and the United States. At present the Dominion sends to England but a small fraction of the food supplies which are benefited by cold storage and quick transportation. This will be rendered clear by a glance at some statistics. In ten months of the last fiscal year Great Britain imported 305,116,368 pounds of butter, whereof Canada furnished only 27,479,100 pounds. Of bacon Great Britain imported from all the world 570,889,280 pounds, of which Canada contributed but 55,748,560 pounds. Of the vast quantity of eggs consumed in Great Britain Canada forwarded only about 4 per cent. Her contribution of fresh meats, poultry, vegetables and fruits were even more insignificant. Here, according to Sir Charles Tupper, is a field in which the Canadian farmers might obtain great advantages at the hands of a government that had their interests at heart. Why, he asks, should not Canada fresh beef and mutton undersell the beef and mutton of New Zealand in the British market, and why should not Canadian poultry, butter and eggs undersell similar commodities imported into England from Denmark and Normandy? For what purpose, he adds, could the public funds of the Dominion be better expended than in improving the condition of Canadian food producers in the markets of the United Kingdom?

The Sun concludes—

"To an onlooker it seems that the Conservative leader has at last hit upon a method of appealing to the farmers, but it is obvious that Sir Wilfred Laurier can outbid him, if he chooses, for he can quickly perform what Sir Charles Tupper merely promises to accomplish at a future day."

Still we don't know that the distinguished approval of the New York Sun is worth any startling amount in the present campaign to Sir Charles Tupper.

"Caliber 54"—Story of a Little Hero

When General W. T. Sherman was alive, he was often greeted with the shout, "Caliber 54." Old soldiers would shout it sometimes without understanding its significance, says the Pittsburg News. Its origin is well deserving of a place in history, especially as it proves that even the little drummer boys who were in the field in the Civil war, like the late T. C. E. Ecclesine, often did as efficient service as the older boys.

"Caliber 54" had its origin at the battle of Shiloh. General Sherman was riding along over the field hurrying to get to his troops when he heard a delicate voice calling: "General Sherman! General Sherman!" The old war hero stopped, and the boy piped out:

"The —— Illinois regiment is over there on the hill holding the rebels back as much as they can and they're all out of ammunition and they want some." And then, with as much volume of voice as he could muster, he added, "Caliber 54." That was the most important part of the message, for the wagon trains might have gone with loads of ammunition and if it hadn't been caliber 54 it would not have been of the least use.

General Sherman got down from his horse to pat the urchin's head, and to call him a "noble little fellow," when he saw three or four tears on the boy's cheek and he said: "There, don't cry, my little fellow; get right along back, for we're going to whip them."

"I know that," said the boy, "but when I was coming here to give you the colonel's message, a rebel's bullet struck me here," pointing to the calf of his leg. "I was crawling along the ground the best I could, and I knew I could catch you."

Then the general assisted the lad to the hospital, and a few days later he went home to his mother in Vermont, But "Caliber 54" lives in history.

An Appropriate Text.

A little girl who lives up town went to church last Sunday. She is a bright little maiden and, considering her tender age, only six, she is decidedly intelligent. Her mother has been suffering from the grip and didn't accompany her, and as her father was away from home she went alone.

Whether it was the loneliness of the big pew or whether the church was poorly heated, mamma wasn't quite sure, but, anyway, the little maid came home and declared she was very chilly.

"My toes got so cold while I was sitting there, mamma," she declared. "And so did my fingers and my nose. I don't believe there was hardly a speck of fire in the furnace."

"That was too bad," said mamma; "did the other people seem to suffer, too?"

"Oh, yes, they did," cried the little maid. "They just shivered!"

Then mamma thought she would divert the little maid's attention.

"What was the text, dear?" she asked; "can you remember it?"

"I should think I could," was the quick answer; "I can 'member every word of it."

"Well, what was it?"

The little maid put her head on one side and screwing up her face, shrilly intoned:

"'Many are cold, but few are frozen!'"

And mamma had to admit that it seemed remarkably appropriate.

Willing to Concede.

At a convival party, recently, a gentleman who had returned from a lengthened tour in the East, was relating some of the wonderful things he had seen on his travels. The yarns he spun were decidedly "steep," but the guests politely accepted his statements as true. Encouraged by the reception accorded to his tallest stories he ventured to state that he had seen at the foot of the Himalayas a tiger forty-three feet long, from the tip of the nose to the tip of the tail. This was too much, and everybody kept silence, until a gentleman from Oban dryly remarked:

"Oh, yes, the works of Nature are very wonderful and very large whatever. Just last week I saw a skate brought ashore at Oban, which covered a quarter of an acre of ground."

Nobody spoke, and amid the silence the Eastern traveler left the room. The host, perceiving that something was amiss, rose and followed him.

"Is there anything wrong?" he asked.

"I have been insulted," said the traveler. "That Scotch gentleman has dealt a blow at my veracity, and I cannot return until he apologizes."

Anxious that harmony should prevail among his guests, the host returned to the room, and explaining matters to the company, asked the Highlander to make an apology, if merely for form's sake.

"Weel," said he, "I'll no just apologise, but tell him to come back and take a few feet off the teeger, and we'll see what can be dune wi' the skate."

He Could Wait.

A boy was sitting lazily in the stern of a boat dangling his feet in the water, when a man from the dock called sharply to him:

"What are you doin' there?"

"Nothin'," responded the boy.

"Do you get any pay for it?"

"No," and he drew one foot out of the water, ready to run if necessary.

"Why don't you go to work?"

"Will you get me a job?"

"Yes."

"Steady?"

"Yes."

"Pay anything?"

"Well, no," hesitated the man—"not the first week."

"How about the second?"

"Then I will."

"All right; I'll come round the second week. This is good enough for me now," and the boy put his foot back into the water, and winked at the man on the dock.

House Work

Seems easy to a man, but there is a great deal of lifting and reaching to do; a great many trips up and down stairs to make in the course of day's house work. It's hard where a woman is well. For a woman suffering with some form of "female trouble" it is daily torment. There are thousands of such women struggling along, day by day, in increasing misery. There are other thousands who have found a complete cure of their disease in the use of Dr. Pierce's Favorite Prescription. It stops debilitating drains, cures irregularity, heals inflammation and ulceration, nourishes the nerves, and gives vitality and vigor. It makes weak women strong and sick women well. It contains no opium, cocaine nor other narcotic.

"For a number of months I suffered with female trouble," writes Miss Agnes McGowne, of 1312 Bank St., Washington, D. C. "I tried various remedies, but none seemed to do me any permanent good. The doctors said it was the worst case of internal trouble they ever had. I decided to write to you for help. I received a very encouraging reply, and commenced treatment at once. I had not used your 'Favorite Prescription' a week before I began to feel better, and, as I continued, my health gradually improved. It is improving every day."

Dr. Pierce's Common Sense Medical Adviser is sent *free* on receipt of stamps to pay cost of customs and mailing *only*. Send 31 one-cent stamps for a book in paper covers, or 50 stamps in cloth, to Dr. R. V. Pierce, Buffalo, N. Y.

ATTACK of ROYAL CANADIANS at Paardeberg

The present is a time when war pictures are in greater demand than ever. The conduct of the British soldiers on the battlefield has won the plaudits of admiring nations. We have at great expense published four large, beautiful pictures, size 20x28, on heavy, superfine calendered paper. A picture that will commend itself and send a thrill to the heart of every true Canadian is the one called Attack of Royal Canadians at Paardeberg, there are literally hundreds of figures on this picture, the mountains or kopjes stretching out into the distance are swarming with men, while here and there a prostrate figure speaks only too well of the Boer riflemen. It was on this battlefield the gallant Major Arnold met death unflinchingly. Indeed, it is only too true that many of those gallant hearts that beat so high when the cheering thousands bade them Godspeed as they sailed from Canada's shores now lie still forever in lonely graves on the other side of the world under African skies. To every Canadian heart, to every Canadian home, the deeds of their brave soldier boys speak with an irresistible thrill of patriotism and pride. Gordon Highlanders at the Battle of Belmont, Charging the Boer Guns at Elandslaagte and the Charge of Gen. French's Cavalry on the Retreating Gen. Cronje's Army. These are all stirring pictures and cannot fail to commend themselves to anyone who will examine them. They are RED HOT SELLERS! Agents coin money. Big profits. Enormous success. One agent sold 68 in one day. Sample, and terms 25 cts (none free); four for 80 cts; $2.25 per dozen; 25 for $3.35; 50 for $6.00; 100 for $11.00. Write to day for a dozen and make money. Address to the Electors

To the Free and Independent Electors of West Peterborough—

Gentlemen,—Having accepted the unanimous nomination of the Liberals of this Riding, as a candidate for its representation in the House of Commons I hereby respectfully solicit your support in securing my return at the coming general elections.

The grounds upon which I base my appeal are not so much nor chiefly by any means, my personal fitness for the position of your representation though as a citizen of Peterborough and interested in its progress in common with that of the country, I can and do promise, if elected, an intelligent support of such a public policy and such measures as will best conduce to the promotion of all the interests of Canada, the developement of her great resources and the general betterment of the civil moral and material condition of the public; and my best abilities and most assiduous attention shall be devoted to the faithful discharge of my representative duties.

The strongest ground, however, of my appeal consists in the fact that I am a firm supporter of the Liberal Government led by Sir Wilfred Laurier, which is entitled to the renewed confidence of the people, both on the ground of its policy and the splendid record established by the application of that policy. The Liberal party appealed to the country in 1896 upon a clearly defined policy and the promised results followed.

The Liberal party promised a reduction of a high tariff that hampered our industrial and agricultural interests and was hostile to the Mother Country.

The tariff was materially reduced and otherwise improved and in such a way as to help instead of hinder the manufacturer and farmer, with the consequence that never before in the history of the country have our industries or our farmers enjoyed such great prosperity, our mechanics and working men such constant employment and high wages, nor our commercial and all other interests so flourished.

Our domestic and foreign trade have also greatly increased. The loyal gift of a trade preference, represented by a tariff reduction on British goods of 33 1-3 per cent., and our despatch of the Canadian Contingent, have resulted in a kindlier feeling towards Canada and greatly increased trade with the Mother Country.

With a largely reduced rate of tariff, our revenue has greatly expanded so that the Government was warranted in practicing true economy (reducing our postal rate one third, giving Imperial penny postage,) and promoting of the completion of great public works, deepening our canals, so long trifled with, pushing the work on the Trent Valley Canal which is now urged and will be urged to completion by the Liberal Government, and the application of a vigorous policy of general development and improvement of our transportation facilities, resulting and to result in easier access to the British market and better prices for all our products.

The farming interests of the country are deserving of the best services of a Government, such as the present has given. The immense impetus given the produce trade between Canada and Great Britain, through the preferential tariff, has been greatly helped by the action of the Government in providing an excellent and adequate system of cold storage, by which Canadian products can be landed in Great Britain in first-class condition, guaranteeing the highest prices. The system is of the most modern character, sufficient for all the present needs of the trade, and it will be improved and enlarged as experience suggests, and increase of the produce trade demands, and I shall, if elected, feel it my duty to support any policy that will improve our trade with the Mother Country, and strengthens the bond of British connection, of which we are so proud.

In an industrial centre like Peterborough the claims of the working classes are especially deserving of consideration. No country is well governed that does not look after the interests of all classes of the community. The Conservative Government has been, and the Conservative party declares itself to be, extremely solicitous of the interests of the capitalist classes—the manufacturers—but it left the working classes to largely shift for themselves. A Liberal Government came into power, and the attitude towards Labour was changed, and the rights of Labour to its rights recognized, and in a practical way. A Department of Labour has been established and a Minister of Labour placed over it. A Labour Gazette has been established in the interests of workingmen, published monthly; conditions have been inserted in all Government contracts compelling contractors to pay the highest current wages, which the Government guarantees the payment of; the sweating system has been abolished on Government work, enforced by a special officer, and in many other ways the Government has shown by deeds that the rights of the workingmen, as well as the capitalist, shall be protected. I heartily support the Government in what it has done, and shall support them in extending the benefits which they have already conferred, and which it is their policy to continue, as need arises.

The splendid achievements of Canadian soldiers in South Africa, make them worthy of the gratitude of the country. We have the best militia material in the world, and if we keep up a military establishment, let it be worthy of Canadians. Situated as Peterborough is, on the line of the Grand Trunk and Canadian Pacific Railways, and on the line of the Trent Valley Canal, begun as a military work, and now under course of completion, no other point in this Province is so well adapted for a military centre. I shall, therefore, feel it my duty to press upon the Government the advisability of constructing in Peterborough new armories and connected buildings for military stores for Ontario, and I feel that this is practicable of attainment at the hands of a Government which has shown its interest in our volunteers by placing the Militia Department, so greatly neglected by a previous administration, upon an effective basis, and will, therefore, more naturally be well disposed towards the improvement involved in making Peterborough a centre for military stores.

A town of the industrial and commercial importance of Peterborough, has certainly strong claims upon the good offices and of a Government. For the past four years the town has been represented, when it was represented in the House, by a member opposed to the Government. There is no doubt in the minds of unprejudiced observers, that the present Liberal Government will be strongly sustained in the country at the coming elections, and the question arises whether West Peterborough will have its interests better served by a member sitting in opposition and hostile to the Government and its policy, or by a member pledged to give the Government a fair support in the application of its policy. If elected I pledge myself to give my best ability and exertions to the promotion of the general good of the country, and to look especially after the interests of West Peterborough.

I cannot obviously here, enter into details of how in other ways the Liberal Government has implemented its promises and applied its policy, but I shall have an opportunity during the campaign of more fully dealing with these and other public questions.

As a supporter of such a Government I can appeal with confidence for the support of the Electors of West Peterborough, knowing that by helping to give, as you will do, through my election, a renewal of the trust the Liberal Government has discharged with such evident and gratifying results, they will be conferring a great and lasting good upon this riding, the country at large, and securing a continuation of the great blessings of prosperity and good government we now enjoy.

Again soliciting your support, your votes, and influence in this contest,

I have the honor to be,
gentlemen,
Your obedient servant,
J. H. McCLELLAN

A NOVEL.

(Continued.)

"Of course, you have good references, miss?" she said, interrogatively.

"No," replied Izetta, sadly, "I have no references whatever."

"I am sorry, miss," she said, "but of course, I could not think of sending you to any of my customers without recommendations. If I were to judge from your face, that would be sufficient for me, but there are faces that are sadly deceptive— I do not mean offense when I say— I have learned not to trust too much to appearances."

She saw the distressed expression on the wistful face.

"You might remain here a week or so until you looked about," continued Mrs. Guth, kindly.

Izetta gladly availed herself of the opportunity, paying for two weeks' board in advance.

"I shall certainly find something to do in that time," she told herself.

Izetta had never been thrown so much on her own resources as now. A long, weary week had passed. Everywhere she had been met with the same reply, no one could think of engaging her without reference. Often she had been rudely repulsed.

"How dared Mrs. Guth send them a person whom she could not recommend?" they said. "I am afraid I shall have to take your name from my books, Miss Rienzi," she said at last. "I cannot get the ill will of any more of my customers; I really cannot. I have done what I could for you; I am sorry it was without success."

Mrs. Guth was wondering how long she would be able to pay for her lodgings; she was heartily sorry she had taken her in.

Again the last dollar was taken from Izetta's purse.

"I must find something to do, or starve," she told herself.

She looked up at the bright blue sky and fleecy clouds.

"Ah, mother, mother, if I had but you," she cried, "I might bear it patiently!"

Since she had left Madam Root's the word husband had never crossed her lips.

"He has left me to die," she cried out in bitterness, "let me try to forget him."

It was easy to say those words, but only Heaven knew how that young heart yearned for him.

She was so fragile to buffet the wild storms of life.

Izetta knew so little of the ways of the world; still she readily understood that Mrs. Guth would wish her to go at once, when she had no money to pay for her board.

Twice dark thoughts, like grim sentinels, had rushed across her brain.

"I shall end it all to-morrow," she told herself, wearily. "After to-morrow I shall never need a recommendation.

She did not ask herself if men would forget, and God would forgive what she so sorrowfully meditated as a panacea for her woe.

As she neared the porch of her humble abode she saw Mrs. Guth in the doorway.

"I have good news for you, Miss Rienzi," she said; "I have secured you a situation."

The swift joy mounted to Izetta's eyes; she looked the gratitude she could not express in words.

"Sit down," said Mrs. Guth, "while I tell you all about it. It is with a very wealthy family, by the name of Hampton— the Hamptons, of Hampton Place, in the suburbs of Newburyport, ten miles from Boston. The family consists of mother and son. The lady is exceedingly peculiar. I cannot explain more to you. She is in want of a companion— it is against my rules, still, in this case, I recommended you myself, Miss Rienzi, and she has consented to see you."

She had scarcely ceased speaking when a coach, drawn by two dark horses, drew up before the door.

The equipage was a magnificent one; the only thing which detracted from its appearance was the dwarfish driver, who scrambled nimbly down from his seat, throwing open the carriage door for an elegantly- attired young man whom Mrs. Guth met at the door. The next moment the stranger was ushered into her presence.

Izetta could never explain the strange sensation of horror that stole over her as she raised her eyes, bowing quietly to Heath Hampton's careless nod.

There was a something in the bold glance of evident admiration he cast upon her that caused her heart to flutter like a caged bird against its prison bars.

She noticed he was darkly handsome; still, without knowing why, she felt a great distrust of him.

She also noticed, as he raised his white right hand to his forehead, it bore across it a deep, irregular, livid scar, upon which her eyes rested, strangely fascinated.

CHAPTER XX.

A Terrible Warning.

The preliminaries were satisfactorily arranged, and Izetta was soon seated in the coach beside Heath Hampton, whirling rapidly in the direction of Hampton Court.

Then, and not till then, did Hampton's true character begin to show itself, and Izetta noticed, with feelings of horror, that there were fumes of wine upon his breath; it was a rare occasion, indeed, when such was not the case.

"I had no idea," he said, breaking the silence Izetta so persistently attempted to maintain, "my mother had secured such a little jewel of a companion; indeed, I may say for the first time in life I shall envy my own mother such charming society."

Izetta was mentally praying their destination could not be far distant. In her wildest dreams she had never anticipated such a horror as this which was forced upon her.

"If you please, sir," she said, with dignity, "I should be very grateful if you would not talk to me so; I——"

A low, mocking laugh interrupted her.

"I sincerely hope you are not going to be prudish, Miss—Miss Rienzi," he said; "if there is anything I do detest, it is a prude; really, now, prudery does not become fresh, handsome faces like yours; leave that for homely old maids; my advice is wholesome, I assure you."

Izetta shrank from him, pale with unspeakable horror, scorn and disgust blazing from her dark eyes, as she pictured to herself— how could she live under the same roof with this man, when she found even the first few moments passed in his society almost unbearable?

THE COLORADO COPPER MINING COMPANY
LOCATION OF OUR MINES

THE COLORADO COPPER MINING COMPANY is fortunate in being the possessor of five splendid showing properties in the great Salida copper belt, the principal copper producing region of this portion of the rockies. All of our claims have been more or less developed and it is our purpose to put the same on a paying basis at once.

Our Company owns, clear of incumbrances the following claims,—The Sedalia Extension, the Sedalia Extension No. 2, which property adjoins the great Sedalia mine, which has been a big producer for upwards of seventeen years; the Copper King of Colorado, which immediately adjoins the above; the Copper Queen of Salida, a very promising property, only a few steps from the depot in Salida. This claim occupies an imposing position on a mountain just north of the city; and last, but by no means least, the Sunshine, located two miles east of Salida at Cleora station, on the main Trunk line of the great Denver and Rio Grande Railroad, also on the Arkansas river, which in length is one of America's greatest streams.

TOWN AND COUNTY NEWS

Mr Lang's Committee.

Last night the friends of Mr. John Lang met in the Council Chamber, Ashburnham, and organized. There was a fair attendance, and considerable progress was made. Permanent Committee rooms have been opened.

Tramps on the Railway.

The Grand Trunk and Canadian Pacific railway authorities in the vicinity of Toronto, are having some difficulty with tramps. They are continually boarding trains to the annoyance of the train crews, who find great difficulty in keeping them off. The police department of both railways have the matter in hand now and expect to be rid of them in a few days.

Evidently Prospering

Norwood Reporter.—We are pleased to learn that it is the intention of the directions of East Peterborough Agricultural Society to erect a commodious building on the side of the elevation on the Society's ground here next season, for displaying of fine arts, ladies' work, domestic manufactures, etc. The present building will in all probability be used for roots, grains, seeds, vegetables, etc. This is a much needed improvement and the Directors should receive the active support of all our citizens in their enterprise.

THE BY-LAW PASSED.

Mud Lake Bridge By-Law Passed by County Council.

The County Council met yesterday in special session, and passed the By-law granting aid to the extent of $13,000 to the Chemong Lake bridge.

Mr. Wm. Collins, the efficient Secretary of the Poultry Association, addressed the Council and asked for a grant. The matter was referred to the Finance Committee, and a grant of $25 will probably be made.

Several other matters came before the Council, and were sent to Committee, and will be dealt with at to-day's session.

TOWN SABBATH SCHOOL ASSOC.

Weekly Union Meetings and a General Rally Arranged.

At a recent meeting of the Executive Committee, it was decided to begin the union weekly meetings for the study of the lesson of the following Sabbath, on Friday evening, November 2, in the Y.M.C.A. hall, at 8 o'clock sharp.

The lesson will be conducted each week by leaders, chosen in rotation from the different schools and churches. Rev. O. C. Elliott, of Park street, will conduct the lesson on November 2, and a representative from George Street Methodist School will have charge on November 9. When the lesson only is taken up, meetings will close at 9.

On the first and third Fridays in each month, normal work will be taken up by Rev. H. Symonds. On these evenings, a shorter time will be given to the lesson, and the meeting will close at 9.30.

A rally will be held in St. Paul's school-room on Friday, Nov. 16, at 7.45 sharp. Addresses by Rev. W. W. Wagg on "The Teacher's Ideal and the Ideal Teacher" and "Report of Brockville Convention," by Rev. J. G. Potter, B.A. Collection at rally to defray expenses. All interested are invited to all the meetings.

JOTTINGS ABOUT TOWN

—The nominations will take place next Wednesday.

—Apples sell for 36 cents per barrel in Peterborough.

—The Gold Lake Hunting Club is preparing to go North.

—The farmers are making good time with their fall crops.

—This is the time of the year when men would like to pass a law against housecleaning.

—Rev. Mr. Symonds delivered a very interesting address at the Sabbath School convention at Brockville on Tuesday last.

If your stomach is weak it should have help. Hood's Sarsaparilla gives strength to the stomach and cures dyspepsia and indigestion.

Death or lunacy seemed the only alternative for a well-known and highly respected lady of Wingham, Ont., who had travelled over two continents in a vain search for a cure for nervous debility and dyspepsia. A friend recommended South American Nervine. One bottle helped, six bottles cured, and her own written testimony closes with these words: "It has saved my life."—go

PERSONAL MENTION

—Mr. H. P. Kennedy left this morning for a few weeks' visit in New York.

—Hon. Senator Cox is in town to-day on his way to Toronto from the peat works at Kirkfield.

—Mr. Sidney B. Weir, of Toronto, was in town for a few days, and left for the city again this morning.

—Mr. and Mrs. W. B. Bamford have arrived home from a pleasant two weeks' visit to Buffalo, New York, and other places.

—Mr. Turpin, the genial representative of Messrs. Barnard & Holland, of Montreal, dealers in crockery and china, is registered at the Oriental.

The Times yesterday had a call from Messrs. Thomas Eastland, the popular representative of the northern division of the County Council, and Mr. Wm. Gallon, the efficient Reeve of Burleigh.

—Mr. J. W. Smith, of the Crown Timber department of the Ontario Government, has returned from a trip to Chicago. Mr. Smith says that everything in the West points to the re-election of President McKinley.

—Dr. Court King returned yesterday from a trip to the Maritime Provinces. The doctor says that everything is elections down east. Money is plentiful, and business seems to be booming, especially in the mining districts of Cape Breton.

COUNTY POLICE COURT

A Melee of Cases From Warsaw all due to a Dog

County Police Magistrate Edminson's Court was the scene of considerable interest on Tuesday, when the following result was arrived at.

Stephen Miller, charged with obstructing the police in the performance of their duty, case dismissed.

Stewart Miller, found guilty of obstructing a constable in the performance of his duty. Fined $10 and costs.

Stewart Miller, found guilty of common assault on Arthur Edwards. Fined $2 and costs.

David Miller, for causing a disturbance in a public place, $5 and costs.

It appears that a dog chased a skunk, and the former got the worst of it. On the return of the dog, one of the bunch of bystanders made a kick at the brute with the smell, when the owner interfered, and a general mix-up took place, in which a constable too, took a hand.

Waging War on Tramps.

Chicago, Oct. 24.—As tramps at this season prove to be a greater annoyance to the railroad companies than at any other, a determined effort is being made by many western railroads to drive the Weary Willies from the tracks. On the Santa Fe road special officers are arresting them in squads. The roads were compelled to take this action because the tramps caused great damage and detruction of railroad property all along the line.

STRUCK IT RICH

When They Needed it Bad

"When a two months' old baby refuses to nurse and cannot digest any of the 'baby food' or cow's milk prepared in different ways, we must do something or lose the baby. That was the condition of our little one about a year and a half ago.

We tried every baby food on the market, besides the cow's milk, but nothing seemed to agree with him. He suffered from indigestion until by the time he was nine months old, he had grown so weak and emaciated that we didn't think he could live. At last his stomach refused to take anything, and for three days the little fellow was actually starving for something he could digest.

"I happened to have a box of Grape-Nuts in the house and getting a teaspoonful, poured a little hot water over it, letting the food stand a few minutes, then gave the baby the brown water which had the strength of the Grape-Nuts in it. He could take but two spoonsful at a time and then rest a while.

"His stomach retained the food and after one day's use of the Grape-Nuts in this way, his bowels were right, for the first time in six months. I continued to feed him the water from the Grape-Nuts and a little cream and later on the softened food itself and he steadily improved, his little body and limbs beginning to get round and plump, and by the time he was a year old, he was as large again as when nine months old. At 15 months, he weighed 26 pounds, and now at 18 months, he is a great, fat, jolly baby, climbing and going everywhere, full of fun, rosy cheeks, and bright eyes.

"During all this time his food has been Grape-Nuts; just the water at first, then later on he had the food itself. He is the best advertisement Grape-Nuts could have in this town, for every one knew his condition and no one thought he could possibly live. We give all the praise to this most valuable food, and never lose an opportunity to recommend it to persons suffering from indigestion and lack of nourishment." Mrs. C. D. Johnston, Greenfield, Ind.

Actual proof is better than all theory, yet it is well to know that Grape-Nuts food is made scientifically and made for a purpose. The most powerful elements in wheat and barley are used and so prepared as to furnish the human body with those food elements, predigested in a natural manner; that is, turned from starch into grape sugar.

The food is powerful enough for athletes and easy enough of digestion (as shown by the above experience) for the weakest babe.

DUTY AND THE FARMER.

Editor Morning Times,

Sir,—It is amusing to read the Examiner on the agricultural implement question. The old N.P., under the Conservative administration, gave the agricultural implement manufacturers a certain protective duty, but the Liberals have gone one better and made them a present of the duty on iron, etc., which they took off. Hence the agricultural implement manufacturers have both the old N.P. duty and the duty on raw material, or about twice the protective duty of the Conservatives! But what have farmers got out of it? Ask them and they will soon tell you that they have been "gold bricked." This important fact the Grit speakers and the Examiner have been trying to minimize by saying that those who criticize the double-barrelled duty of the Liberals are free traders and not protectionists, but this herring won't draw. You can't fool the people. Honest protection is what the people want, but as in all them of the borrowed (?) policies, the Liberals contrive to bungle the whole thing

A VOTER

A HAPPY CONTRAST.

Editor Morning Times,

Sir,—I was one of those who attended the Mulock meeting on Saturday night, and also the Montague meeting on Tuesday evening, and can bear testimony to the noisy character of one and the orderly character of the other. This, to me at least, is an eloquent reproof of the methods of the Conservative crowd who created the racket at the first meeting. When men descend to disturb a public debate because the arguments used are unpleasant, it shows not only a lamentably weak side, but also a vicious disregard of other people's feelings. I am sure, Mr. Editor, that Mr. Kendry was personally guiltless of having anything to do with the disturbance referred to.

I cannot close without saying a word about the Times. I congratulate you, dear Sir, on the fair and manly course of the paper during the campaign, administering, as you frequently do, rebuke where rebuke is needed. If our newspapers were less under the domination of party, their influence would be much greater. I believe that nearly all mechanics in town read the Times, and I know that its influence is felt for the purging of dirty politics.

Thanking you, Mr. Editor, I am, etc.,

J. R. HAMILTON.

Inquest Again Adjourned

The inquest to enquire into the cause of Sam Lung's death was resumed in the Town Clerk's office last night. Mr. Fessenden testified that after a thorough test of the transformer, he did not think sufficient current could have been transmitted by that means from the primary wire to the secondary wire to cause deceased's death. And he would be very much surprised to learn for certain that 53 volts had killed any person.

Mr. Ritchie, of the Canadian General Electric Works, under examination, agreed with Mr. Fessenden, and explained that the heat of the lamp upon which deceased was found lying would be sufficient to burn the hole in his body, even if only 53 volts were passing along the wire. The inquest was adjourned till Friday evening at 7.30.

PETERBORO CHEESE BOARD

The Highest Price Paid this Week was 10 and 14-16 lbs.

The regular meeting of the Peterborough Cheese Board was held in the Town Council Chamber this morning, when most of the factories sold at 10 13-16.

The president, Mr. Drummond, occupied the chair, and there were present the following buyers, Messrs. Bailey, Wrighton, Rollins, Whitton, Cook, Fitzgerald, Kerr, Cluxton, Moore and Squires.

Before the factories boarded, Mr. Fitzgerald brought to the notice of the board the fact that since the last meeting of the board, one of the buyers, Mr. Watkins, had lost by death his wife and sister. He alluded briefly to Mr. Watkins' popularity, and the sincere loss he had sustained. He therefore moved, seconded by Mr. Bailey, that the secretary forward a resolution expressing the sympathy of the Board in his sad affliction. This needless to say, was unanimously adopted.

The factories boarded as follows.

Keene	160
Warminster	105
Shearer	85
Central Smith	140
North Smith	160
Villiers	85
Warsaw	108
Westwood	100
Oakdale	150
Missing Link	60
Daisy D	60
Lakefield	130
Frewern	100
Bensfort	112
Cedardale	60
Stony Lake	60
Cavanville	165
Mount Pleasant	78
Fleetwood	107
Oakleaf	40
Brickley	50
Pinegrove	100
Peterborough	60
Otonabee Union	60
Maple Leaf	90
Myrtle	80
Ormonde	170
Young's Point	96
Lang	160
Fraserville	130
Indian River	100
Ballyduff	45
East Emily	62

The bidding opened at 10 1-4 by Mr. Bailey. Mr. Fitzgerald went 10 1-2 Mr. Wrighton, 10 5-8, Mr. Cook 10 3-4 and Mr. Whitton 10 13-16. He got the call and took Keene, Shearer, Villiers, Westwood, Fraserville, Indian River, Bensfort and Warsaw, all of which accepted. The same buyer offered 10 3-4 for further selections, but Mr. Rollins went 13-16 and picked up Warminster, North Smith, Oakdale, Maple Leaf, Daisy D, Cedardale and Stony Lake.

Mr. Cook at 10 13-16 called Pine Grove, Central Smit, Lakefield, Ormonde, Frewern, and Young's Point. They accepted.

10 13-16 was still the ruling price, and at that figure Peterborough, Otonabee Union, Missing Link, Cavanville, Mount Pleasant, Fleetwood and Oakleaf sold to Mr. Bailey. The same gentleman at 10 3-4 carried off Myrtle, Lang, East Emily, which accepted, but Brickley refused.

KRUGER'S PURPOSE IN EUROPE.

May Seek Intervention to Secure Autonomy of Boer Republics.

London, Oct. 23.—A Times special from Brussels says—

"It is stated here that President Kruger will undertake a circular tour through the European capitals in an effort to obtain the intervention of the powers, not in favor of the independence of the Boer republics, but only for autonomy of the Transvaal and Orange colonies under the supremacy of England. The Transvaal agency is full of hope that Kruger will obtain a favorable hearing in France and Russia."

A WONDERFUL

KIDNEY and Bladder CURE

The Honorable Chairman of the Board of County Commissioners, Ellsworth, Kansas, tells how ALKAVIS cured him after Doctors and all other Remedies had Failed.

BRIGHT'S DISEASE, GRAVEL, DROPSY,

And Rheumatism Mastered at Last.

I. A. HOPKINS.

One of the most remarkable medical discoveries of the century is the Kava-Kava Shrub, found on the Ganges River, East India, which has a wonderful action on the kidneys and bladder. Since its introduction into this country its fame has quickly spread, because of its seemingly impossible cures. Prominent men and women have testified to its great curative powers, and hospital tests prove its infallibility even in advanced stages of Bright's Disease. Among the more recent recoveries is that of Hon. I. A. Hopkins, Chairman Board of County Commissioners, Ellsworth, Kansas, who says:

GENTLEMEN:—I will say that I believe and know that I owe my life to Alkavis. I had been troubled with Kidney and Bladder Trouble for years. Two years ago I was sick for six weeks with Malarial Fever which left me in a bad condition. My limbs were swollen with Rheumatism so that I could hardly walk; I was troubled with Indigestion from taking Medicine for my Urinary troubles which had become very much worse. I had to get up every hour of the night to urinate. I passed great quantities of blood on account of hemorrhage of the Kidneys and Bladder. I tried and had been trying everything in the shape of Medicine for Kidney Trouble that I could think of or that the Doctors recommended, but nothing helped me for I kept getting worse. I suffered great pain continually in my Kidneys. I made up my mind unless I could get relief that I only had a short time to live. About this time my attention was called to an advertisement of Alkavis. As a drowning man will grasp at a straw, I was ready to try anything for relief. I sent to you for three bottles. I began to take it, and before I had taken it one week I began to feel the good effects of Alkavis. My Kidney Trouble and Rheumatism were soon gone, my digestion became all right, I found myself in better health than for ten years and I am in good health now. I know that Alkavis saved my life. What more can anyone say for a medicine? Unlike most medicines it is good for indigestion. It gives the person taking it a good appetite. I have recommended Alkavis to a great many people and all have been benefited by its use. I am 53 years of age, and am very grateful for what Alkavis has done for me.

Respectfully yours, I. A. HOPKINS.

Rev. W. B. Moore, D. D., Washington, D. C., Editor *Religious World*, writes that after trying all known medicines for kidney and rheumatic diseases he was permanently cured by Alkavis. Mrs. Wm. H. Hardy, East Rush, Pa., writes that Alkavis cured her after six doctors failed. Rev. J. W. Hickman, Collyer, Trego Co., Kansas, cured of liver, kidney and bladder trouble, of many years' standing, from which he could only get temporary relief and had given up all hope of a cure. Thus the grand work goes on. A new book, entitled "A Thousand Living Witnesses," sent with the free case of medicine, tells of the wonderful cures performed in every state.

Not only does this great discovery—Alkavis (the Kava-Kava Compound)—cure all forms of kidney and bladder diseases, but by expelling from the blood all poisonous deposits, excess of lime, uric acid, urates and lithiates, it banishes gravel, torpid liver, rheumatism, pains in back, difficult and too frequent urination, etc. The cure is complete. No phase is neglected, and the stomach, heart and nerves are toned and invigorated. No other medicine in the world will perform the work of *Alkavis*. To enable sufferers to get well and spread the glad tidings we have arranged to send a Large Case of Alkavis FREE by mail to all who write us. The case goes entirely FREE.

If you are a sufferer, write to-day and secure at once a Free Case of Alkavis and Book of "A Thousand Living Witnesses" Address The Church Kidney Cure Co., No. 409 Fourth Ave., New York. Please mention this paper.

conference of Ministers at Pekin in a Week—Prince Tuan and Prince Ching are Awaiting Sentences.

Pa Atingu, Oct. 25.—The allied troops under my command, arrived here yesterday. British, French, German and Italian guards have been posted at the gates. To-day all the generals with small escorts went through the town after which they arranged for the allotment of quarters for occupation. I shall keep most of the British in camp at present. Am waiting orders from Gen. Waldersee regarding their future disposal.

Hong Kong, Oct. 25.—Advice from Lienchu, on North River says that American mission property there is threatened with distruction by Boxers.

London, Oct. 25.—The announcement that Austria-Hungray has signified her approval of the Anglo-German agreement to maintain the territorial integrity of China, though important, is thrown into insignificance by reports of the rapidly growing revolt in Southern China. According to the most recent news from Hong Kong, two villages have been burned, and two thousand of their inhabitants slain by the revolutionists. This is evidence that an alarming state of affairs exists in the Yang-tse region, and that British interests are about to be more directly affected than they have hitherto have been. A problem of some difficulty now confronts the allies. The reformers of Southern China, who personally responsible for the outbreak referred to, are totally distinct from the Boxers, and are in favor of a liberal regime in the Celestial Empire. They are in fact contending in a great degree for things which the allies are bound to admit would be for the benefit of both China and themselves. How the European powers will comport themselves is, therefore, a matter of interest, for opposing the Boxers and suppressing the reformers are totally different things.

REBELS DEVASTATE.

Hong Kong, Oct. 25.—The Governor of Hong Kong has been informed that 4,000 villagers in the Cantochuck-Kwaishin district were attacked by rebels at Pengtok. The villagers were defeated and 2,000 of them killed. The rebels, who lost 400 killed, burned two villages containing 3,000 houses. A force of 2,000 troops went to the assistance of the villagers, and engaged the rebels on Oct. 22.

General Ho, with 6,000 troops, has returned to Hong Kong, having burned the villages of Shanchautin and Malantau.

CONFERENCE INA WEEK.

Paris, Oct. 25.—The Foreign Office has heard directly from M. Pichon, the French Minister at Pekin. He has been ill with typhoid fever, but is improving. He was never so ill as to be unable to oversee the affairs of the legation. It is believed that he will be able to attend the session of the Ministers in a week.

The French Consul at Hankow cables that he has secured protection for the missions and Christians in Shensi Province. Fearing that the courts present there might cause an anti-foreign outbreak, the Council notified the Viceroy that any hostile attitude would result in breaking all the peace negotiations on the part of the Powers. The Viceroy thereupon secured the issuance of an Imperial decree making death the penalty of any anti-foreign disturbances of the peace.

ANOTHER RUSSIAN RAILWAY.

St. Petersburg, Oct. 25.—Four engineering corps have begun laying out a railroad between Orneburg and Taschkend, for which American locomotives have been ordered. The engineers will probably finish the survey in 1900.

AWAITING SENTENCE.

Shanghai, Oct. 25.—A telegram from a reliable source at Taiyuen-fu was received here on Monday. It states that Prince Tuan and Prince Chwang, the notorious Boxer sympathizers, are still at that place, which has been abandoned by the court as the capital, waiting to hear what penalty is to be imposed on them for their connection with the anti-foreign uprising. This penalty is to be determined at Pekin by the members of the Imperial Clan Court, who still remain there, and at Singan-fu, the new capital.

Yang-Yih, the notorious anti-foreigner, died at Home on Saturday while travelling with the imperial party. The court was still at Tungkwan, eight miles from Singan-fu yesterday. The journey has had a bad effect on the health of the EEmpress Dowager.

THE DUNLOP INQUEST

The Mother and Father and Sister Under Examination

'HE DOCTORS' EVIDENCE

Deceased's Death Due to Typhoid Fever Proceedings Adjourned Till Monday.

The adjourned investigation into the circumstances of the death of Frances Emeline Dunlop was resumed in the Council Chamber last night.

DR GREER

The first witness called was Dr. Greer, who conducted the post mortem examination. He said he found the body in an emaciated condition, and in his opinion death was the result of exhaustion produced by a serious attack of typhoid fever. He thought the deceased would have recovered under proper medical treatment, and there existed no reasonable doubt that the chances were strongly in favor of her recovery had she been sent to the hospital.

To the Coroner, witness said deceased had been ailing about a week, when he was called in. He had been told she had not slept for a week, during which time, he claimed, the fever was developing. From all indications, he would say the disease had lasted fourteen days or more. Cold sponging on typhoid, if properly carried out, lowers the fever and increases vitality, while antiseptic treatment counteracts poison in the bowels. Under modern treatment in uncomplicated cases, the majority of patients recover. He favored cold sponging for reducing the fever and preserving the vitality of the heart. He had discovered no complications in his examination of the body. Death usually occurs from complications in typhoid fever.

To a juryman witness said it was a disputed point whether typhoid is contagious or not. It is certainly an infectuous disease though.

DR EASTWOOD

Dr. Eastwood, who assisted Dr. Greer in the post mortem examination was next called, and to Mr. Wood said he had signed, and agreed with, the medical report as read. He agreed with Dr. Greer in everything.

MISS DUNLOP

Miss Ida Dunlop, sister of the deceased, was next sworn. She had been living at home with her sister, who took sick two weeks ago yesterday. Dr. Greer was called in that evening. Deceased was never very strong, but did not complain much; she visited Mrs. Lowe the day she took sick. Witness was a Christian Scientist, but could not explain the system by which they heal the sick: she herself had been cured of dyspepsia, catarrh, and neuralgia by means of this treatment. She could not remember how old she was when cured. Could not give her present age truthfully, but is somewhere about 27 or 28. Her sister was 22 last birthday. Deceased was never a good sleeper; she could not say that she heard of her not having slept for a week, and thought her in ordinary health up to the day Dr. Greer was called in; that was on Wednesday night, Oct. 10th. This was done on Mrs. Lowe's advice. She heard her sister remark that she did not want a doctor; deceased did not say she wasn't ill, and did not call for Mrs. Lowe to heal her. Witness had some talk with Dr. Greer about sending deceased to the hospital, but still thought she might recover. After extensive cross questioning, witness asserted that Dr. Greer had said deceased might rally if taken to the hospital, but that she would probably lose her reason. On Thursday deceased grew worse and was delirious. She heard deceased express her willingness to go to the hospital, but her parents had told Dr. Greer that they must have a couple of hours to determine whether she should be sent there are not. Deceased did not take any more medicine after Friday, and put in the stove some powders which she found lying on the table. Witness did not ask the doctor in her hearing who would treat her at the hospital.

Mr. Wood here remarked that Dr. Greer had given evidence that deceased had asked him who would treat her at the hospital, and wanted to know if witness would consider that an evidence of delirium, to which she replied, "I don't know." The family talked the matter over, she said, and agreed not to send her sister to the hospital; not one member desiring her to go there.

Deceased asked Mrs. Lowe, in her presence, to have Mrs. Stewart of Toronto sent for; they knew of her as a Christian Scientist; Mrs. Lowe telephoned to Toronto, and Mr. Perry came on Saturday last. No one came for one week, during which time Mr. and Mrs. Stewart treated deceased by their influence from Toronto, till Mr. Perry's arrival. Distance is not a drawback to healing by Christian Science. Some of the family, or Mrs. Pane or Mrs. Lowe sat up every night with deceased, who slept considerably. Witness did not know whether delirium prevailed while her sister was awake or not; no attention had been paid her in the way of medicine, or making a test of her pulse. Deceased drank much milk during her illness; had very little appetite. Witness did not believe there was any disease in material. Mr. Perry came down on Saturday noon, and treated her sister, as far as she understands, by silent prayer, which is not exactly Faith Cure. Her sister died Sunday night, at 11.30; she got brighter looking, but did not speak after Perry came. They waited upon her all they could. Witness had not talked the inquest over with either Perry, her father and mother, or friends; still, she had been told just to open her mouth and God would fill it.

To the Coroner, Witness said Mrs. Lowe came back and forth all the time, and was a regular visitor at the house; she did not know whether Mrs. Lowe treated the deceased by Christian Science. She, (witness) knew her sister was seriously ill. When the doctor was called in Perry passed no opinion as to whether deceased would get better or not, this is customary. She did not think her sister was near death on Saturday or Sunday; death came altogether unexpectedly. She had faith that Mr. Perry would restore her sister to perfect health again if health was for her.

To Mr. Wood—Mrs. Stewart sent Mr. Perry, the Scientist, from Toronto.

Dr. Greer was again called, and said he did not remember remarking that deceased might go out of her mind, even were she sent to the hospital and got better. Sleep is a feature of typhoid fever.

To the Coroner, in cross examination, witness said her father paid for her treatment at the hands of Mr. Stratton, a Christian Scientist in town some years ago. Was also treated by a Mr. Parker at a dollar a fee. Mrs. Lowe charges for treatment; her father paid Mrs. Lowe for treatment of her sister, on previous occasions.

MRS DUNLOP

Mrs. Dunlop, mother of the deceased girl, was next sworn. She thought her daughter was suffering from a cold, or an attack of la grip, or something of that sort. She would not let her mother rub her neck with a lotion. Witness had not much faith in medicine, and has not needed any since she came into Science. She did not urge her daughter to accept medical treatment. She supposed Mrs. Lowe treated her on the Wednesday the doctor was called in. It was at Mrs. Lowes' suggestion he was sent for. She did not hear any one tell the doctor the patient had not slept for a week. Dr. Greer told her deceased might be liable to go out of her mind, even if she did recover. Witness put in a poor night with her after she took medicine Thursday night. He gave no further medicine on Friday morning and advised sending his patient to the hospital. Her daughter was willing to go there. Witness had no faith in any hospital; she expected Christian Science would heal deceased, but could not explain its system. From what she had read and seen she believed there is good in it. She believed in Mrs. Eddy's statement that "it is impossible for matter to suffer or feel of pain or to be thirsty or sick." They have ministers who teach and understand the doctrine of Christian Science, but it was hard for all to explain its theory. The Bible says, she claimed, that one could take poison and would not be harmed thereby, if of sufficient faith, but she could not give chapter and verse for it; her belief, however, is not strong enough to make the test. Witness herself wanted a Christian Science testement for deceased, but could not say who proposed it first. Mrs. Lowe sent for a Christian Scientist from Toronto at her and her husband's advice. Nothing had been said about money; did not hear of any one giving Mrs. Lowe any money. Mrs. Lowe did not treat her daughter at witness's request, pending the arrival of Perry. Deceased grew weaker from the beginning; she applied no cold baths to her after Dr. Greer ceased his visits. Deceased did not seem so feverish after taking Dr. Greer's treatment and appeared easier from treatment received from Toronto through the medium of Mr. and Mrs. Stewart. Witness did not know what payment was a necessary adjunct to insure cure from Christian Science treatment. She expected Perry to cure her daughter. Mr. Wood here quoted from Mrs. Eddy's book, Science and Health, a passage affirming that without payment Christian Science has no effect. Witness did not appear very sure on this point. Some of the girls, continued the witness, suggested applying cold cloths to deceased's head. Mr. Dunlop told witness that he had sent $5 to Stewart, of Toronto, early in the week before Perry came. No money was paid to Perry that she knew of.

To the Coroner, Witness replied that Perry would know for what purpose he was sent by Mr. Stewart; he was in the room when deceased died. Perry does not take a patient's temperature. She told him that Dr. Greer had said her daughter had symptoms of typhoid fever, and there were symptoms lacking, she thought that Christian Scientists have belief in mind cure, and believes in it herself, having received relief from its treatment several times.

In the reading of her evidence, she corrected the same by asserting that she could not say who sent the $5 to Mr. Stewart, but thought she herself gave it to Mrs. Lowe to mail.

In cross examination by Mr. Wood, Mrs. Dunlop explained that her faith had not been shaken by the results of Perry's treatment. Mr. Wood here quoted Mrs. Eddy's theory that "Divine Love is Our only Physician and Never loses a Case."

To the Coroner's question — "Do you think that Mr. Perry's assertions on three separate occasion concerning your daughter were correct?" Witness made several evasive replies, and with much difficulty the following answers were accepted—"It did not seem to go the way Mr. Perry spoke it;" "It did not seem to come as she thought it would."

MR DUNLOP

Mr. Thos. Dunlop, deceased girls father was the last wwitness examined.

He corroborated the statements of previous witnesses as to the time deceased took ill. He has paid Mrs. Lowe a dollar once or twice on previous occasions, but not this one. Mrs. Lowe did not require payment always. Her treatment has been successful up to this time. He did not know very much about the theory of Christian Science, and was not prepared to say whether any person experienced pain or not. He has been treated for dyspepsia and rheumatism, when he certainly felt a pain and a bad one at that. His daughter, while suffering pain would not agree to his calling in a doctor. Mrs. Lowe advised getting medical advice, and he called in the nearest doctor, they all being a poor lot, he had no choice in the matter. Doctors never did him any good. His reason for not retaining Dr. Greer was that he had worked his daughter into a delirous state by talking hospital to her. After which he switched out of the house, saying "come up to-night and decide whether you'll send her to the hospital or not." Witness admitted that deceased expressed a willingness to go to the hospital, but claimed she was not then in her right mind. Deceased refused to take any medicine.

He did not know of any money being sent to Toronto, and did not himself pay Mr. Perry anything. He believed Mrs. Eddy's book on "Science and health," but has not read it all. He had been healed by Christian Science, when the doctor had given him up, and the case of his daughter is the only one in which he knew Christian Science to have failed. He did not think it would keep people on earth for ever. He believed in Mrs. Eddy's message to a half yearly communion in Toronto on June last that "Divine Love is our only physician and never loses a case.".

Perry had told him he thought there would be no danger to his daughter, and his own faith had not wavered even when his daughter was in a state of coma on Saturday and Sunday. He had not thought it necessary to call in medical assistance, even when she was incapable of expressing a wish for it herself.

To the Coroner, Mr. Dunlop said he knew his daughter was in a bad way and very weak; Perry, when he came was acquainted with her condition. Witness admitted that Perry's statements to the effect that his daughter would recover had proved to be incorrect.

To Mr. Wood, Witness said he believed that a person would die when their time comes, utb not until their time comes, and that it necessarily follows that a person would die at the appointed hour, no matter what means is resorted to prolong life.

The inquest was adjourned till Monday evening at seven o'clock.

LORD ROBERTS LEAVES AFRICA IN NOVEMBER

Officially Announced by the British War Office that He will Leave About 15th November.

GEN. KITCHENER WILL PROBABLY SUCCEED HIM

Highly Probably That a Policy of Stern Repression will be Pursued and Gen. Kitchener will Probably be the one to put Down the Guerilla Bands.

London, Oct. 25.—With the official announcement that Lord Roberts will return to England on November 15th, a flood of speculation naturally springs forth as to his successor in South Africa. It is evident that a new policy is needed to cope with the annoying tactics of the Boers, and that Lord Roberts is leaving the conquered Republics in order that Lord Kitchener, who will be left behind, may take his place as a stern represser of the Boers by methods which will probably be a modification of those practiced in the Soudan, for the Boer, after all, is not much better than the Arab, and has not the ability of the latter to recognise that he is worsted. Meanwhile the burning of houses, which have sheltered guerillas and the pursuit of small but elusive bodies of Boers continue in most parts of the war area. In one case it was necessary to set an example to the enemy by burning the village of Bothasville, in the Orange Free State. So that the termination of hostilities cannot be the cause of Lord Robert's return, as it is evident operations will continue for some months. The intention of inaugurating a new policy with which the kind hearted hero of Candahar does not wish to be identified is therefore the only theory to account for his return.

WILL KITCHENER SUCCEED HIM?

New York, Oct 2[illegible] The revival of guerilla warfare in [illegible] Africa, says The Tribune's Lo[illegible] correspondent has lighted up En[illegible]timent, especially in smart so[illegible]ich is divided into military cliq[illegible]act ons. Lord Roberts' leniency [illegible]ondemned by impatient partisans as a source of weakness in South Africa, and the opinion is expressed that a general as cold blooded as Kitchener is needed to suppress the lawlessness now in progress.

Cape Town. Oct. 25.—The Town Council entertained Gen. Buller at luncheon yesterday. In replying to a toast in his honor, Gen. Buller said that when he arrived here at the outbreak of the war he found the same spirit of determination to uphold the flag and defend its rights prevading the colonists, as he found when he was last here 20 year ago. There was no doubt that if in 1878 Sir Bartle Freere had been supported in the policy he had been despatched from England to carry through, much misery would have been prevented in South Africa. Fortunately, Sir Alfred Milner had been supported. He was sure that the spectacles through which South African affairs were now looked upon by those in power in England were considerably better than they were 20 years ago. From that he deduced that the sacrifices made and the misery endured by the people of South Africa had not been made in vain. Henceforth South Africa would be a prosperous country under one flag.

Enormous enthusiastic gatherings witnessed the presentation of address to Gen. Buller in the afternoon. In replying, Gen. Buller said he had felt extreme pleasure in commanding troops who had been trained by him. He paid high tribute to the devotion, loyalty and bravery of the soldiers, especially mentioning the South African Light Horse. He said that after the war it was supposed that there would be permanent peace, when all the people would be alike under one flag, all joining in the creation of one common country. It would be possible, however, to secure permanet peace unless the very best feeling was shown by those who had the best of the fight.

PARKER'S DEATH AVENGED.

Corporal John Bansfield, of "C" Squadron, Strathcona Horse, writes home an account of stirring deeds. Some Boers had sent word they would surrender, and some twenty men, including the writer, were sent to bring them in.

"Everything went well until we came to a house in which were the Boers. A white flag was flying from the building, and we did not suspect treachery. I was about 50 yards from the house, and the others at intervals of about the same distance to the right, when suddenly I saw the Kaffirs turn and run towards me. Directly afterwards a volley of rifle shots came from all sides. The guides shouted that we were in a trap and urged us to fly. We lost no time in taking their advice. We then got it thick. One bullet struck my stirrup and broke it, and another the ramrod of my rifle, but I was uninjured. All of the party got through safely, but Sergt. Parker and Private Arnold. In the morning, Bansfield and three others volunteered to search for the missing men, which they did under fire. They found Parker dead, shot through the heart, and Arnold fatally wounded. The following day, the Strathconas set fire to the house, and in the fight that ensued avenged Parker by killing 17 Boers.

BAKING POWDER

-Absolutely Pure-

For the third of a century the standard for strength and purity. It makes the hot bread, hot biscuit, cake and other pastry light, sweet and excellent in every quality.

No other baking powder is "just as good as Royal," either in strength, purity or wholesomeness.

Many low-priced imitation baking powders are upon the market. These are made with alum, and care should be taken to avoid them, as alum is a poison, never to be taken in the food.

THE SELYN MEETING.

A BREEZY MEETING IN NORTH SMITH.

The Chairman Claims to Have Forsake the Liberal Party, and is Taken Several to Task by Mr. Stone.

A largely attended meeting in the interests of Mr. Kendry was held at Selwyn on Wednesday night, and was marked by unusual warmth, and some features not originally on the programme.

Mr. Wellington Manning, a well-known farmer, rose to state that he had never cast a Conservative vote in his life, but this time he would vote for Mr. Kendry, as he could not stomach Tarte. He emphasized his remarks by being elected chairman of the meeting and made a short and forcible address in opening the proceedings in which he stated that he had noting but contempt for the Liberal party in their violation of their pledge in regard to the plebiscite.

Mr. Burnham, who followed, said the Examiner was unable to confute the arguments on the tariff used by him with regard to agricultural implements and the other features of the tariff in which the tariff has actually been raised—not to the protection of—certain classes, but to their aggrandisement. He was a believer in protection, as was Mr. Kendry, and a believer in the old N.P., but a tariff which took the duty off the iron industry and presented it to the agricultural implement manufactory without even giving a share to the former—and a tariff that, under its one-sided preference clause, allows the importation of three millions of dollars worth of woollens and cottons, or more than one-half of the total increased importations under the preference—was a bungle, and instead of being a protective tariff, was a most unjust manipulation of the power of inflicting duties by favor and not by fair play. It was useless, he said, for the local Liberals and their organ to assert that Mr. Kendry and Mr. Burnham were at one on this question, and when these gentlemen understand these principles remain the same, no matter how much they may realize that the talk of free trade and protection is one breath reveals either their ignorance of the questin or their desire to shelve it. He dealt also with some of the other issues of the campaign.

Mr. Stone, who followed Mr. Burnham, was enraged at the Chairman's address and took Mr. Manning to task in unmerciful terms. He was surprised that a man like Mr. Manning would support the old crew that was looking to replace the Liberals at Ottawa—the Tuppers, the Langevins, the Connolleys, and McGreevys, with a brewer the Minister of Agriculture. It is a strange thing to see a man in favor of prohibition in favor of a party who have treated prohibition the way the Conservatives have. He referred to the present tariff and stated that we spend the money because we have it to spend. Mr. Stone also referred to other matters, and concluded the time allotted to him in an appeal for those present to vote for Mr. McClellan.

Mr. F. D. Kerr made a brief and forcible speech, in which he dealt with the leading questions of the day.

Mr. Kendry, in beginning a long and able address, demanded of his opponents to know why they condemned him for his absence from the House when they had no word of censure for the government who had to adjourn the House because the business of the various departments was not ready. "Why, too," exclaimed Mr. Kendry, "were Tarte and Sifton absent?" If the Opposition speakers wish to put blame where it applied they had plenty of places on their own side. Mr. Kendry took a strong stand against the emigration of paupers. $420,000, he said, was spent last year, and $450,000 is to be spent this, in addition to all the land that is to be given for the importation of men who are thus displacing the sons of the farmers of this country. Mr. Oliver, the member of Alberta, said on the floor of the House that it was a downright shame that the government should act in the manner in which they were doing—filling the Northwest with a worthless and dirty crew at an enormous expense. "The money," said Mr. Kendry, "is largely being sent out of the country, and we have not even the satisfaction of knowing that we retain it in circulation. I will, if elected, vote against this policy." Mr. Kendry read extracts from the Examiner stating that he had spoken on several occasions on different subjects, and was able and willing to say what he had to say. Notwithstanding the fact that it was easy for the Examiner to find out the truth, they preferred to say what was false in order to show that he was not a fit member for this constituency. He dwelt further with the subject of plural voting in Quebec, and advocated one man one vote for the entire Dominion on Dominion questions. He touched upon the contingent and Mr. Tarte, and wound up by denouncing the emergency food scandal, and said it was all very well form a servile majority in the House to say that the food was good, but did one returning soldier say so? Mr. Kendry finished his address amidst general applause.

The meeting concluded with cheers for the candidates and for the Queen.

FRIENDLY RIVALRY WITHOUT ACRIMONY

Emperor William Discusses British-German Relations.

Berlin, Oct. 25.—Emperor William yesterday, in a speech, said.

"It has always been my greatest task to maintain peace as far a sponsible for my people. I believe I gave proof of this a few days ago. The agreement I have made with the most powerful Teutonic State outside our own nation will, I hope, in the near future, be a guarantee for common efforts in the open market of the world for our two nations in friendly rivalry without acrimony."

Referring to the illness of Empress Frederick, his mother, His Majesyt said he was happy to state that her condition now allowed him to leave her bedside, but, though his heart was joyously beating, it still was troubled by the shadow over her.

WEATHER NOTES.

Probs. To-day—Easterly to southerly winds, continued mild, becoming showery.

It has turned a little cooler in Northern Ontario and Quebec, but at present there are no indications of pronounced change in any of the provinces.

ENGLISH RESENTMENT KINDLED BY BOER RAIDS

Bobs Critised for His Lenient Policy Towards Them.

London Oct. 25—The revival of guerilla warfare in South Africa, where apparently it is necessary to have a strong guard in front of every farmhouse, and keep flying columns in motion in every direction after trainwreckers and bands of raiders, has lighted up English resentment. Lord Roberts' leniency is condemned by impatient partisans as a source of weakness in South Africa, and the opinion is expressed that a man without sentiment, such as Lord Kitchener, is needed in order to suppress the lawlessness not in progress.

There are loud exclamations among the military and social sets over the attempts to coax the burghers to surrender their rifles and return to their farms by means of promises to pay for the horses and stock taken during the campaign.

There is a strong Buller clique in London, which is circulating reports that he was offered by Lord Roberts the succession to the command, and that he will certainly be rewarded for his services by advancement to the Peerage. These partisans, not content with working up a triumphal reception for General Buller at Southampton, Aldershot and in Devonshire, are most sarcastic and bitter in their reference to Lord Roberts. Lord Methuen also has a circle of friends who assert that he has not received fair treatment and there is a Gatacre group, which recents his removal from command.

These evidences of ingratitude for the immense services rendered by Lord Roberts are confined, without doubt, to the military factions and to small social sets. The true national feeling will be disclosed when Lord Roberts returns, and it will be foreshadowed by the reception to the London Volunteers on Saturday, which promises to be a revel of good humor and patriotic rejoicings.

ELECTION FORECASTS.

The Ottawa Journal (Ind.) publishes three forecasts of the approaching elections prepared by gentlemen whose names are not given. The first was prepared by a Liberal, "keen and shrewd," as follows,—

	Libs.	Cons.
Ontario	39	53
Quebec	42	23
Nova Scotia	14	6
New Brunswick	10	4
P. E. Island	3	2
Manitoba	3	4
N. W. T....	2	2
British Columbia	2	4
	115	98
Liberal majority		17

This was not prepared for publication or for election purposes, says the Journal, and "some may be surprised that the claim is so moderate." The following two forecasts were not prepared with the object of having them published, either, but to interest friends. The next forecast is also by a Liberal,—

	Libs.	Cons.
Ontario	34	58
Quebec	50	15
New Brunswick	14	6
Nova Scotia	10	4
P.E. Island	2	3
Manitoba	2	5
N. W. T.	2	2
British Columbia	2	4
Liberal majority		19

The third forecast is by a Conservative, who sent it in a letter to a friend, says our Ottawa contemporary. He figures out a Conservative majority of 13 as follows,—

	Libs.	Cons.
Ontario	33	59
Quebec	39	26
Nova Scotia	15	7
New Brunswick	8	6
P.E. Island	2	3
Manitoba	1	6
N. W. T.	1	3
British Columbia	2	4
	101	114
Conservative majority		13

Commenting on these three "guesses," the Journal says they all foretell a close election, and adds,—"As regards any of the foregoing forecasts, all of which give Ontario decisively to the Conservatives, an even break in this province would mean an overwhelming victory in the Dominion for the Liberals."

Another forecast appears, in which the Conservatives are the top-notchers. It is written by "one who knows," and who claims to have made a careful survey of the situation. It is as follows,—

My private accounts indicate that we are going to lose badly in New Brunswick, where Blair has worked the Intercolonial for all it is worth, and perhaps in Nova Scotia, no matter what Sir Charles says. Also I don't believe that Quebec is going back on Laurier much, even though Sir Wilfrid did play the imperialist. We may gain a bit in the Montreal district. But we will play Old Scratch with the Grits in Ontario and the west. Here you are for a card,—

	Libs.	Cons.
Ontario	33	59
Quebec	39	24
Nova Scotia	15	5
New Brunswick	8	6
P. E. Island	2	3
Manitoba	1	6
N. W. T.	1	2
British Columbia	2	4
	102	112
Conservative majority		11

There you have it all. The Times does not pretend to forecast the result. It is evident, however, if the Government is sustained at all, it will be by a very largely diminished majority.

—Mr. J. W. Smith, of the Crown Timber department of the Ontario Government, has returned from a trip to Chicago. Mr. Smith says that everything in the West points to the re-election of President McKinley.

NO MARKED DIFFERENCE.

As the political campaign advances and the views of the leaders of both parties are more fully expressed, it becomes increasingly evident that there is not much difference between them on the score of policy. The tariff, which caused a cleavage in 1896, is no longer a dividing line. Both Conservatives and Liberals agree that the present tariff shall not be lowered, and not even the once high tariff Tories seem now to favor any increase. In other respects, any difference between the Tupper and Laurier men is more in words than in the substance. Hence any preference for individual candidates or party the people may have, will arise more from the character of the candidates and the past record of the men in power than from the present policies put forth by the parties.

The man tangled in the tape from the ticker is the type of the average business man. His business cares wrap him about like the coils of a constrictor and slowly crush out his life. The common sign of the business man's slavery is "weak stomach," the natural consequence of the rapid eating, the indigestible pastry, the coffee and pie or doughnuts, with which many a man stuffs his stomach under the name of "quick lunch." The quickest way back to a strong stomach and sound health is to use Dr. Pierce's Golden Medical Discovery until perfectly cured. It goes to the root of disease. It removes the cause of ill-health. It makes more blood and better blood, and this blood nourishes every organ in the body to the highest point of vigorous health.

"During the summer and fall of 1896," writes Chas. H. Sergeant, Esq., of Plain City, Madison Co., Ohio. "I became all 'run down,' nerves were out of order. I wrote to Dr. Pierce for advice. He said I had general debility, and advised Doctor Pierce's Golden Medical Discovery, and, thanks to you for your advice, I used six bottles; and since I stopped taking it about one year ago, I have not taken any medicine of any kind, and *have been able to work every day*. My appetite is good, I can eat three square meals a day, and I do not feel that miserable burning in the stomach after eating. My blood and nerves are in good shape, and I am in good running order."

Address to the Electors

To the Free and Independent Electors of West Peterborough—

Gentlemen.—Having accepted the unanimous nomination of the Liberals of this Riding, as a candidate for its representation in the House of Commons I hereby respectfully solicit your support in securing my return at the coming general elections.

The grounds upon which I base my appeal are not so much nor chiefly by any means, my personal fitness for the position of your representation though as a citizen of Peterborough and interested in its progress in common with that of the country, I can and do promise, if elected, an intelligent support of such a public policy and such measures as will best conduce to the promotion of all the interests of Canada, the developement of her great resources and the general betterment of the civil moral and material condition of the public; and my best abilities and most assiduous attention shall be devoted to the faithful discharge of my representative duties.

The strongest ground, however, of my appeal consists in the fact that I am a firm supporter of the Liberal Government led by Sir Wilfred Laurier, which is entitled to the renewed confidence of the people, both on the ground of its policy and the splendid record established by the application of that policy. The Liberal party appealed to the country in 1896 upon a clearly defined policy and the promised results followed.

The Liberal party promised a reduction of a high tariff that hampered our industrial and agricultural interests and was hostile to the Mother Country.

The tariff was materially reduced and otherwise improved and in such a way as to help instead of hinder the manufacturer and farmer, with the consequence that never before in the history of the country have our industries or our farmers enjoyed such great prosperity, our mechanics and working men such constant employment and high wages, nor our commercial and all other interests so flourished.

Our domestic and foreign trade have also greatly increased. The loyal gift of a trade preference, represented by a tariff reduction on British goods of 33 1-3 per cent., and our despatch of the Canadian Contingent, have resulted in a kindlier feeling towards Canada and greatly increased trade with the Mother Country.

With a largely reduced rate of tariff, our revenue has greatly expanded so that the Government was warranted in practicing true economy (reducing our postal rate one third, giving Imperial penny postage,) and premitting of the completion of great public works, deepening our canals, so long trifled with, pushing the work on the Trent Valley Canal which is now urged and will be urged to completion by the Liberal Government, and the application of a vigorous policy of general development and improvement of our transportation facilities, resulting and to result in easier access to the British market and better prices for all our products.

The farming interests of the country are deserving of the best services of a Government, such as the present has given. The immense impetus given the produce trade between Canada and Great Britain, through the preferential tariff, has been greatly helped by the action of the Government in providing an excellent and adequate system of cold storage, by which Canadian products can be landed in Great Britain in first-class condition, guaranteeing the highest prices. The system is of the most modern character, sufficient for all the present needs of the trade, and it will be improved and enlarged as experience suggests, and increas of the produce trade demands, and I shall, if elected, feel it my duty to support any policy that will improve our trade with the Mother Country, and strengthens the bond of British connection, of which we are so proud.

In an industrial centre like Peterborough the claims of the working classes are especially deserving of consideration. No country is well governed that does not look after the interests of all classes of the community. The Conservative Government has been, and the Conservative party declares itself to be, extremely solicitous of the interests of the capitalist classes—the manufacturers—but it left the working classes to largely shift for themselves. A Liberal Government came into power, and the attitude towards Labour was changed, and the rights of Labour to its rights recognized, and in a practical way. A Department of Labour has been established and a Minister of Labour placed over it. A Labour Gazette has been established in the interests of workingmen, published monthly; conditions have been inserted in all Government contracts compelling contractors to pay the highest current wages, which the Government guarantees the payment of; the sweating system has been abolished on Government enforced by a special officer, and in many other ways the Government has shown by deeds that the rights of the workingmen, as well as the capitalist, shall be protected. I heartily support the Government in what it has done, and shall support them in extending the benefits which they have already conferred, and which it is their policy to continue, as need arises.

The splendid achievements of Canadian soldiers in South Africa, make them worthy of the gratitude of the country. We have the best militia material in the world, and if we keep up a military establishment, let it be worthy of Canadians. Situated as Peterborough is, on the line of the Grand Trunk and Canadian Pacific Railways, and on the line of the Trent Valley Canal, begun as a military work, and now under course of completion, no other point in this Province is so well adapted for a military centre. I shall, therefore, feel it my duty to press upon the Government the advisability of constructing in Peterborough new armories and connected buildings for military stores for Ontario, and I feel that this is practicable of attainment at the hands of a Government which has shown its interest in our volunteers by placing the Militia Department, so greatly neglected by a previous administration, upon an effective basis, and will, therefore, more naturally be well disposed towards the improvement involved in making Peterborough a centre for military stores.

A town of the industrial and commercial importance of Peterborough, has certainly strong claims upon the good offices and of a Government. For the past four years the town has been represented, when it was represented in the House, by a member opposed to the Government. There is no doubt in the minds of unprejudiced observers, that the present Liberal Government will be strongly sustained in the country at the coming elections, and the question arises whether West Peterborough will have its interests better served by a member sitting in opposition and hostile to the Government and its policy, or by a member pledged to give the Government a fair support in the application of its policy. If elected I pledge myself to give my best ability and exertions to the promotion of the general good of the country, and to look especially after the interests of West Peterborough.

I cannot obviously here, enter into details of how in other ways the Liberal Government has implemented its promises and applied its policy, but I shall have an opportunity during the campaign of more fully dealing with these and other public questions.

As a supporter of such a Government I can appeal with confidence for the support of the Electors of West Peterborough, knowing that by helping to give, as you will do, through my election, a renewal of the trust the Liberal Government has discharged with such evident and gratifying results, they will be conferring a great and lasting good upon this riding, the country at large, and securing a continuation of the great blessings of prosperity and good government we now enjoy.

Again soliciting your support, your votes, and influence in this contest,

I have the honor to be,
gentlemen,
Your obedient servant,
J. H. McCLELLAN

To the Electors
OF
EAST NORTHUMBERLAND

Gentlemen,—

Through the urgent, hearty and unanimous solicitation of the Reform party of East Northumberland, I have consented to be the Liberal candidate to contest the Riding in the coming Dominion election. Time will not allow me to visit personally, therefore I take this opportunity of asking your hearty support as far as you may deem me worthy of the same. If elected I promise you earnest and honest service. Your obedient servant,

B. B. DENIKE.

Love Won—and—Lost.
A NOVEL.

(Continued.)

"Come, come, Miss Rienzi," he said, "I do hope we are not going to quarrel. I want to become the best of friends with you, if possible."

Heath Hampton, wild and reckless though he was, never forgot the graceful dignity with which the fair young girl drew herself up proudly, as she answered:

"There is one way, sir, and one way only, which could command my respect and friendship."

"I should like to be enlightened," he declared, ironically.

"That one way," repeated Izetta, firmly, "is to leave me quite alone."

Heath Hampton opened his eyes very wide.

"Dictated to by my mother's companion," he muttered under his breath. "Well, this is decidedly rich!"

Had he met Izetta under any other circumstances he would have been the pink of propriety, but, as his mother's paid companion, that was quite a different affair; her evident scorn and disgust piqued him.

"I will show her," he thought, "those little airs and graces are lost upon me."

He did not mean to be rude to her, still he meant she should worship at his shrine as the generality of women did.

He told himself that she was really the prettiest piece of prudery he had ever come across.

One thought, and one only, filled Izetta's mind; how long would she be obliged to sit opposite those bold, scrutinizing eyes that seemed to burn tauntingly into her very soul.

Despite her utmost endeavors to maintain her composure, she was trembling like a leaf when the coach stopped.

Izetta scorned his proffered hand, alighting quite without his aid.

Heath Hampton stood gazing after her with a strange expression crossing his wickedly handsome face, and as she disappeared in the hall he muttered quite inaudibly:

"Ah! why not?"

He had spoken the words quite carelessly, yet there was a pair of keen ears to hear them, and a hissing voice whispered, as Hampton turned on his heel and strode toward the library:

"Never—never, villain, if Vatal can prevent it; you have played your last game, now it is my turn; even the worm will turn when bruised, why shouldn't I?"

In an apartment which had once been luxurious, but was now dingy and worn by age, Izetta was soon ushered. A small, dark little lady had rose as she entered.

"Ah! you are Miss Rienzi," she said. "I have been expecting you."

If the son had made an unfavorable impression upon Izetta, who was slow to judge of like or dislike, the mother formed but a little better one.

She was small and dark; her mouth alone was the only pleasant feature about her. There was a strange, restless expression about the eyes not easily defined nor understood.

Again Izetta's heart sank; she had no thought she would be able to please the critical lady before her.

"You are young," she said in a crisp voice, with that peculiar glance bent full upon her, "and rather good-looking. I will be frank with you; I must say to you I do not like that, it is not well for you; otherwise you will be most suitable. There is one thing I wish to warn you against from the outset; you see, Miss Rienzi, I am candid with you. I do not wish you to ever meet my son."

Izetta was on the point of explaining that that calamity had already happened her, when the lady continued:

"You will have a very pleasant life of it here, if you strictly observe that one condition. I have no doubt we shall be mutually pleased with each other. You will strictly avoid my son, will you not, Miss Rienzi?"

Izetta readily promised to fully obey her instructions.

"I have had apartments fitted up for you in what we call the western wing. Vatal will take you to them," adding, as she touched the bell: "I shall not need you till after luncheon; then you may come to me here."

"I beg your pardon, miss," said the dwarf, stopping hesitatingly at her door. "Mr. Hampton requests you to please not mention having met him, to his mother."

"Why?" said Izetta, hardly knowing what construction to put upon the strange actions which pervaded this house of secrets; "his mother sent him for me herself."

"No," replied the dwarf; "I was the one sent. He overheard the message, and would go to see how you looked, miss."

Izetta looked surprised.

"I do not know why that should have interested him," she said.

"It will be best for you, miss, if you never seek to know," replied the dwarf, in a low, earnest whisper.

Izetta felt faint and terrified; she sank down on a chair when she found herself alone, wondering what it all meant.

"If I only had a little money I would not rest a night, no, not an hour beneath this mysterious roof."

She could not shake off the forebodings that came over her.

Izetta's duties were not arduous; there was much of the mornings she had quite to herself. The afternoons were spent in reading to Mrs. Hampton.

Izetta greatly wondered at the style of books the lady preferred there was one book in particular which seemed to captivate her capricious fancy. From "Queen Fredericka's Revenge," she was never weary of hearing selections.

"What is your idea of revenge, Miss Rienzi?" she asked, suddenly, one day, as Izetta closed the book with a shudder.

This was the very question Izetta had asked herself many a time.

"I can hardly tell you," answered Izetta; "I have often heard that revenge is sweet, but I have often thought forgiveness a thousand times sweeter."

"Should you think it strange," said Mrs. Hampton, slowly, "there could be persons who live only in the hope of revenge?"

"I could not imagine such a life, madam," said Izetta, simply.

"Yet, like Queen Fredericka, there are such in real life," said Mrs. Hampton, slowly; "they have wealth, position, everything that should make life enjoyable—yet they would forego all this for revenge; it is their dream by night, their thought by day."

"I should pity such people more than I can express," replied Izetta.

The lady laughed a short, hard bitter laugh, that had a peculiar ring to it, so like the son's.

THE COLORADO COPPER MINING COMPANY is fortunate in being the possessor of five splendid showing properties in the great Salida copper belt, the principal copper producing region of this portion of the rockies. All of our claims have been more or less developed and it is our purpose to put the same on a paying basis at once.

Our Company owns, clear of incumbrances the following claims,—The Sedalia Extension, the Sedalia Extension No. 2, which property adjoins the great Sedalia mine, which has been a big producer for upwards of seventeen years; the Copper King of Colorado, which immediately adjoins the above; the Copper Queen of Salida, a very promising property, only a few steps from the depot in Salida. This claim occupies an imposing position on a mountain just north of the city; and last, but by no means least, the Sunshine, located two miles east of Salida at Cleora station, on the main Trunk line of the great Denver and Rio Grande Railroad, also on the Arkansas river, which in length is one of America's greatest streams.

Address to the Electors

To the Free and Independent Electors of West Peterborough—

Gentlemen. —Having accepted the unanimous nomination of the Liberals of this Riding, as a candidate for its representation in the House of Commons I hereby respectfully solicit your support in securing my return at the coming general elections.

The grounds upon which I base my appeal are not so much nor chiefly by any means, my personal fitness for the position of your representation though as a citizen of Peterborough and interested in its progress in common with that of the country, I can and do promise, if elected, an intelligent support of such a public policy and such measures as will best conduce to the promotion of all the interests of Canada, the developement of her great resources and the general betterment of the civil moral and material condition of the public; and my best abilities and most assiduous attention shall be devoted to the faithful discharge of my representative duties.

The strongest ground, however, of my appeal consists in the fact that I am a firm supporter of the Liberal Government led by Sir Wilfred Laurier, which is entitled to the renewed confidence of the people, both on the ground of its policy and the splendid record established by the application of that policy. The Liberal party appealed to the country in 1896 upon a clearly defined policy and the promised results followed.

The Liberal party promised a reduction of a high tariff that hampered our industrial and agricultural interests and was hostile to the Mother Country.

The tariff was materially reduced and otherwise improved and in such a way as to help instead of hinder the manufacturer and farmer, with the consequence that never before in the history of the country have our industries or our farmers enjoyed such great prosperity, our mechanics and working men such constant employment and high wages, nor our commercial and all other interests so flourished.

Our domestic and foreign trade have also greatly increased. The loyal gift of a trade preference, represented by a tariff reduction on British goods of 33 1-3 per cent., and our despatch of the Canadian Contingent, have resulted in a kindlier feeling towards Canada and greatly increased trade with the Mother Country.

With a largely reduced rate of tariff, our revenue has greatly expanded so that the Government was warranted in practicing true economy (reducing our postal rate one third, giving imperial penny postage,) and premitting of the completion of great public works, deepening our canals, so long trifled with, pushing the work on the Trent Valley Canal which is now urged and will be urged to completion by the Liberal Government, and the application of a vigorous policy of general development and improvement of our transportation facilities, resulting and to result in easier access to the British market and better prices for all our products.

The farming interests of the country are deserving of the best services of a Government, such as the present has given. The immense impetus given the produce trade between Canada and Great Britain, through the preferential tariff, has been greatly helped by the action of the Government in providing an excellent and adequate system of cold storage, by which Canadian products can be landed in Great Britain in first-class condition, guaranteeing the highest prices. The system is of the most modern character, sufficient for all the present needs of the trade, and it will be improved and enlarged as experience suggests, and increase of the produce trade demands, and I shall, if elected, feel it my duty to support any policy that will improve our trade with the Mother Country, and strengthens the bond of British connection, of which we are so proud.

In an industrial centre like Peterborough the claims of the working classes are especially deserving of consideration. No country is well governed that does not look after the interests of all classes of the community. The Conservative Government has been, and the Conservative party declares itself to be, extremely solicitous of the interests of the capitalist classes—the manufacturers—but it left the working classes to largely shift for themselves. A Liberal Government came into power, and the attitude towards Labour was changed, and the rights of Labour to its rights recognized, and in a practical way. A Department of Labour has been established and a Minister of Labour placed over it. A Labour Gazette has been established in the interests of workingmen, published monthly; conditions have been inserted in all Government contracts compelling contractors to pay the highest current wages, which the Government guarantees the payment of; the sweating system has been abolished on Government enforced by a special officer, and in many other ways the Government has shown by deeds that the rights of the workingmen, as well as the capitalist, shall be protected. I heartily support the Government in what it has done, and shall support them in extending the benefits which they have already conferred, and which it is their policy to continue, as need arises.

The splendid achievements of Canadian soldiers in South Africa, make them worthy of the gratitude of the country. We have the best militia material in the world, and if we keep up a military establishment, let it be worthy of Canadians. Situated as Peterborough is, on the line of the Grand Trunk and Canadian Pacific Railways, and on the line of the Trent Valley Canal, begun as a military work, and now under course of completion, no other point in this Province is so well adapted for a military centre. I shall, therefore, feel it my duty to press upon the Government the advisability of constructing in Peterborough new armories and connected buildings for military stores for Ontario, and I feel that this is practicable of attainment at the hands of a Government which has shown its interest in our volunteers by placing the Militia Department, so greatly neglected by a previous administration, upon an effective basis, and will, therefore, more naturally be well disposed towards the improvement involved in making Peterborough a centre for military stores.

A town of the industrial and commercial importance of Peterborough, has certainly strong claims upon the good offices and of a Government. For the past four years the town has been represented, when it was represented in the House, by a member opposed to the Government. There is no doubt in the minds of unprejudiced observers, that the present Liberal Government will be strongly sustained in the country at the coming elections, and the question arises whether West Peterborough will have its interests better served by a member sitting in opposition and hostile to the Government and its policy, or by a member pledged to give the Government a fair support in the application of its policy. If elected I pledge myself to give my best ability and exertions to the promotion of the general good of the country, and to look especially after the interests of West Peterborough.

I cannot obviously here, enter into details of how in other ways the Liberal Government has implemented its promises and applied its policy, but I shall have an opportunity during the campaign of more fully dealing with these and other public questions.

As a supporter of such a Government I can appeal with confidence for the support of the Electors of West Peterborough, knowing that by helping to give, as you will do, through my election, a renewal of the trust the Liberal Government has discharged with such evident and gratifying results, they will be conferring a great and lasting good upon this riding, the country at large, and securing a continuation of the great blessings of prosperity and good government we now enjoy.

Again soliciting your support, your votes, and influence in this contest,

I have the honor to be,
gentlemen,
Your obedient servant,
J. H. McCLELLAN

To the Electors
OF
EAST NORTHUMBERLAND

Gentlemen,—

Through the urgent, hearty and unanimous solicitation of the Reform party of East Northumberland, I have consented to be the Liberal candidate to contest the Riding in the coming Dominion election. Time will not allow me to visit personally, therefore I take this opportunity of asking your hearty support as far as you may deem me worthy of the same. If elected I promise you earnest and honest service. Your obedient servant,

R. B. DENIKE.

Love Won - and - Lost.

A NOVEL.

(Continued.)

"Come, come, Miss Rienzi," he said, "I do hope we are not going to quarrel. I want to become the best of friends with you, if possible."

Heath Hampton, wild and reckless though he was, never forgot the graceful dignity with which the fair young girl drew herself up proudly, as she answered:

"There is one way, sir, and one way only, which could command my respect and friendship."

"I should like to be enlightened," he declared, ironically.

"That one way," repeated Izetta, firmly, "is to leave me quite alone."

Heath Hampton opened his eyes very wide.

"Dictated to by my mother's companion," he muttered under his breath. "Well, this is decidedly rich!"

Had he met Izetta under any other circumstances he would have been the pink of propriety, but, as his mother's paid companion, that was quite a different affair; her evident scorn and disgust piqued him.

"I will show her," he thought, "those little airs and graces are lost upon me."

He did not mean to be rude to her, still he meant she should worship at his shrine as the generality of women did.

He told himself that she was really the prettiest piece of prudery he had ever come across.

One thought, and one only, filled Izetta's mind; how long would she be obliged to sit opposite those bold, scrutinizing eyes that seemed to burn tauntingly into her very soul.

Despite her utmost endeavors to maintain her composure, she was trembling like a leaf when the coach stopped.

Izetta scorned his proffered hand, alighting quite without his aid.

Heath Hampton stood gazing after her with a strange expression crossing his wickedly handsome face, and as she disappeared in the hall he muttered quite inaudibly:

"Ah! why not?"

He had spoken the words quite carelessly, yet there was a pair of keen ears to hear them, and a hissing voice whispered, as Hampton turned on his heel and strode toward the library:

"Never—never, villain, if Vatal can prevent it; you have played your last game, now it is my turn; even the worm will turn when bruised, why shouldn't I?"

In an apartment which had once been luxurious, but was now dingy and worn by age, Izetta was soon ushered. A small, dark little lady hal rose as she entered.

"Ah! you are Miss Rienzi," she said "I have been expecting you."

If the son had made an unfavorable impression upon Izetta, who was slow to judge of like or dislike, the mother formed but a little better one.

She was small and dark; her mouth alone was the only pleasant feature about her. There was a strange, restless expression about the eyes not easily defined nor understood.

Again Izetta's heart sank; she had no thought she would be able to please the critical lady before her.

"You are young," she said in a crisp voice, with that peculiar glance bent full upon her, "and rather good-looking. I will be frank with you; I must say to you I do not like that, it is not well for you; otherwise you will be most suitable. There is one thing I wish to warn you against from the outset; you see, Miss Rienzi, I am candid with you. I do not wish you to ever meet my son."

Izetta was on the point of explaining that that calamity had already happened her, when the lady continued:

"You will have a very pleasant life of it here, if you strictly observe that one condition. I have no doubt we shall be mutually pleased with each other. You will strictly avoid my son, will you not, Miss Rienzi?"

Izetta readily promised to fully obey her instructions.

"I have had apartments fitted up for you in what we call the western wing. Vatal will take you to them," adding, as she touched the bell: "I shall not need you till after luncheon; then you may come to me here."

"I beg your pardon, miss," said the dwarf, stopping hesitatingly at her door. "Mr. Hampton requests you to please not mention having met him, to his mother."

"Why?" said Izetta, hardly knowing what construction to put upon the strange actions which pervaded this house of secrets; "his mother sent him for me herself."

"No," replied the dwarf; "I was the one sent. He overheard the message, and would go to see how you looked, miss."

Izetta looked surprised.

"I do not know why that should have interested him," she said.

"It will be best for you, miss, if you never seek to know," replied the dwarf, in a low, earnest whisper.

Izetta felt faint and terrified; she sank down on a chair when she found herself alone, wondering what it all meant.

"If I only had a little money I would not rest a night, no, not an hour beneath this mysterious roof."

She could not shake off the forebodings that came over her.

Izetta's duties were not arduous; there was much of the mornings she had quite to herself. The afternoons were spent in reading to Mrs. Hampton.

Izetta greatly wondered at the style of books the lady preferred there was one book in particular which seemed to captivate her capricious fancy. From "Queen Fredericka's Revenge," she was never weary of hearing selections.

"What is your idea of revenge, Miss Rienzi?" she asked, suddenly, one day, as Izetta closed the book with a shudder.

This was the very question Izetta had asked herself many a time.

"I can hardly tell you," answered Izetta; "I have often heard that revenge is sweet, but I have often thought forgiveness a thousand times sweeter."

"Should you think it strange," said Mrs. Hampton, slowly, "there could be persons who live only in the hope of revenge?"

"I could not imagine such a life, madam," said Izetta, simply.

"Yet, like Queen Fredericka, there are such in real life," said Mrs. Hampton, slowly; "they have wealth, position, everything that should make life enjoyable—yet they would forego all this for revenge; it is their dream by night, their thought by day."

"I should pity such people more than I can express," replied Izetta.

The lady laughed a short, hard bitter laugh that had a peculiar ring to it, so like the son's.

TOWN AND COUNTY NEWS

Three Thousand Epworth Leaguers.

Des Moines, Iowa, Oct. 26.—Three thousand Epworth Leaguers are in the city at the meeting of the State League.

Money Counter Wanted.

Philadelphia, Oct. 26.—A civil service examination is being held to-day to fill the position of money-counter in the sub-treasury of this city. The successful man will get $900 a year for counting millions.

Opera House To-night

The Gorman Bros. will present their breezy farce comedy, "Two Jolly Companions," at the Opera House this evening. Last week they played at the new Russell Theatre, Ottawa, and made a very favorable impression.

Thrown From His Wheel

Mr. Thomas McDonough, the genial clerk of the Oriental Hotel, while passing along Aylmer street on Wednesday night, was thrown from his wheel and severely injured. His nose was broken and his face badly cut. His many friends will sympathize with him in his misfortune.

Deadly Wires.

The investigation now going on in regard to the death of the Chinaman through coming in contact with an electric wire, should be thorough and searching. On Tuesday George G. Munro was killed by a live wire at Brantford while in the act of turning on an incandescent light. If the ordinary electric current for lighting purposes is dangerous to life, it is well that people should know it.

Likes Our Back Lakes.

Mr. W. B. Murray, travelling Passenger Agent of the Erie Railway, was in town yesterday, and gave The Times a call. Mr. Murray was one of those who took in the Olympic excursion last June to Stony Lake, and spoke of the delightful day spent on that occasion. He is impressed with the picturesque beauty of our back lakes, and hopes for other reunions in years to come similar to the last one under the auspices of the Olympics. Mr. Murray left for the east at 11.40.

A Correction.

In our report of the Mulock meeting on Saturday night our types made it appear that Mr. Mulock protested at the treatment he was receiving "at the hands of working men in whose interests I have labored." This is wrong. Mr. Mulock complained of the treatment he was getting, but did not attribute it to the working man. We are pleased to make the correction, as the statement did the Minister, who is a recognized champion of the laboring classes, a great injustice.

A WARSAW MEETING

Mr Saxsmith Holds a Meeting on Wednesday Evening

A meeting in the interests of Mr. J. A. Saxsmith, the Conservative candidate, was held in the new Town Hall, Warsaw, on Wednesday evening. There was a large attendance, and the speakers were accorded a good hearing.

Addresses were delivered by the candidate and Messrs. John Green, J. W. Garvin, from Peterborough, and Dr. Ford and Mr. Sherry, from Norwood.

The Chair was occupied by Mr. Robb, who filled the position with credit.

At the conclusion of the addresses cheers were given for the candidate, Sir Charles Tupper and the Chairman.

JOTTINGS ABOUT TOWN

—For cheap books, stationery, games or wedding presents, go to Times Bookstore.

—Hjorvard concert took place last night, and was a big success.

—The political atmosphere is darkening, for the storm that will break on November 7th.

—Double Trading Stamps given on all purchases every Saturday at Times Bookstore.

—Two loads of hay got stuck in the frame of the market scales yesterday, and were with difficulty pulled through.

—There is a slight stagnation of business due to the elections. It will be a satisfaction when they are over.

—The ten-year-old son of Mr. Frank White, who was operated on for appendicitis about ten days ago, is doing nicely, and will soon be all right.

—A greater number of men might find employment in the lumber camps just now. Business is very active, and the highest wages are being paid—as much as $35 per month.

—The town of Lindsay has spent $15,-350 so far this year on granolithic walks and sewers. During the past year the town has increased in population nearly 1,000, numbering 7,356 at present.

—Mr. Lang's committee rooms in the Council Chamber, Ashburnham, will be open each evening and friends of the present administration are asked to report.

—A drive of logs belonging to the Gilmour Co., Trenton, is being boomed and will be tied up about a mile below Hastings for the winter. There are 25,000 pieces in the drive and at present only thirteen men are working on the same.

Never Worry.—Take them and go about your business—they do their work whilst you are doing yours. Dr. Agnew's Liver Pills are system renovators, blood purifiers and builders; every gland and tissue in the whole anatomy is benefited and stimulated in the use of them. 40 doses in a vial, 10 cents.—21

PERSONAL MENTION

—Mr. Judd Kennedy, the popular representative of Messrs. Dick, Ridout & Co., Toronto, was in town yesterday, and took in the Rugby dance.

—The Times yesterday was favored with a call from Mr. J. A. Saxsmith, the Conservative candidate for East Peterborough. Mr. Saxsmith held a meeting last night at Stewart's settlement.

SIR CHARLES IN TOWN

The Veteran Statesman Spends a Few Hours in Peterborough

Sir Charles Tupper arrived in town early yesterday morning from Lindsay, in his private car, and spent a couple of hours in town. He was met by a number of his friends and supporters, and escorted to the Oriental Hotel, where he held an informal reception.

To the Times Sir Charles said that he was satisfied the country would restore the Conservatives to power. He referred to the Lindsay meeting as very encouraging, and in fact from every quarter comes most cheering assurance of victory. He had no doubt that the Conservatives would sweep the country.

Sir Charles looked well, and appeared the veritable old war horse that he is known to be. He left on the 11.45 C.P.R. express for Smith's Falls, where he spoke last night.

HON. W. PATTERSON IN LINDSAY

The Minister of Customs Had a Splendid Reception Last Night

Lindsay, Oct. 25.—Hon. Wm. Patterson, Minister of Customs, addressed a mass meeting here to-night in the interests of the Liberal candidate. The Academy of Music was crowded to the doors, and the enthusiasm was equal to that displayed at the reception of Sir Charles Tupper last night.

Speeches were made by the Liberal candidates in East and West Victoria, after which the Hon. Mr. Patterson delivered one of the most effective speeches of the campaign, dealing with all the public questions. He replied to the charges made last night by the leader of the Opposition, to the satisfaction, at least, of the Liberals present.

The enthusiasm was quite as intense as at the Tupper meeting. The battle wages hot here. North Victoria will probably go Conservative, while the South is doubtful.

A LOCAL WILL CASE.

Estate of Alex. Gough, Worth $100,000, a Subject of Litigation.

Toronto Evening News:—When Alexander Gough, a Peterborough merchant died, he left an estate worth $100,000. By his will he directed that his eight children should get the major portion of the estate. One son, C. A. Gough, was left $6,000, but by a verbal agreement, $1,000 was advanced before his father's death on the understanding that it should be deducted from the amount he should receive under the will. The young man now repudiates the agreement, and wants the full $6,000. The matter came before Chief Justice Falconbridge this morning, who directed that the other legatees be notified, the case to come before the court at a later day.

KILLED BY A WIRE

Shocking Fate of a Bell Telephone Lineman

On Wednesday morning a deplorable accident occurred in Lindsay, by which George Smith, a lineman of the Bell Telephone Company, who is well known in Peterborough, lost his life.

It appears that Smith was one of the gang of Bell Telephone Co. linemen engaged in installing the new fire alarm system and re-arranging the town telephone system. At the time of the accident three or four of the men were aloft on the poles stripping them of wires and cross-arms. One of the men severed a guy wire, which rebounded and fell across one of the wires of the Light, Heat & Power Co. The end trailed on the roadway in a way likely to obstruct passing vehicles, and Smith, who was acting as a ground man, sprang forward and grasped the wire to pull it out of the way. The moment the unfortunate man touched the wire, he staggered and fell. Drs. Jeffers and McAlpine were summoned, and found that life was extinct. Coroner Poole decided that an inquest was unnecessary.

LOCAL NEWS LETTERS.

ZION, OTONABEE.

The following are the officers elected at the meeting of the Y.P.S.C.E. held on Wednesday night, 3rd inst., for the coming year,—

President—Miss S. Bennett.
Vice-President—Mr. A. Kent.
Recording Secretary—Miss Jos. Kindred.
Treasurer—Mr. Sid Rutherford.
Convenor P. M. Com.—Mr. W. Dickson.
Convenor Social Committee—Miss B. Rutherford.
Convenor Lookout Committee—Mrs. W. Dickson.
Convenor Missionary Committee—Miss E. Robinson.
Reporter—Mr. J. Weir.

With the large number of members that we have and the competent officers, some good may be expected.

Come as many as can to our meetings every Wednesday night at 7.30, and receive our welcome.

BENSFORT.

Owing to dry weather the wells in the neighborhood are nearly all dry.

Large quantities of grain are being shipped from Hall's Landing. Although last Thursday was Thanksgiving Day, the farmers turned out and drew grain most of the day. The scene outrivalled Manitoba.

We are pleased to see Mr. Andrew Huggins out again.

It is with deep regret we note the death of Mr. A. C. Maycock, Township Clerk. Mr. Maycock will be greatly missed in township and insurance affairs.

One day quite recently, some parties from town picked up a logging chain. The owner, who was only a few yards ahead on the road, did not miss it until he reached home and needing the chain, he started out to look for it. Somehow he traced it a considerable distance, being fortunate enough to recover the lost property next day about noon. What the parties intended doing with the chain is still a mystery, as they do not use logging chains in their business.

Some of our boys appear to take trips northward on Sunday. One young gentleman, especially, takes these wheeling trips about every two weeks. We do not see what the young ladies of Bensfort are thinking about. He is a general favorite with everyone, but perhaps he has found his favorite elsewhere. However, we are waiting for future developments.

The township council are putting in a watering trough on the road to the new bridge. It will be a great convenience and greatly needed.

There is a dog quite close to the Bensfort bridge that ought to be taken care of, as it has a bad habit of scaring horses as they pass. If the owner will take a timely word of advice it may perhaps save him some trouble and perhaps save the dog too.

Thanksgiving day passed off very quietly. Owing to scarcity of game the usual number of shots were not heard as on former Thanksgiving days.

Mrs. John Lucke, of Hiawatha, was over visiting her friends around Bensfort for a few days last week.

Mr. Rork, of Norwood, has been spending a few days visiting Mr. Perrins.

Mrs. Jas. Patterson, of Norwood, is visiting her friends here for a short time.

Miss Bella Hamilton, of Lakefield, is visiting her uncle, Mr. Thos. Dodds.

Mr. and Mrs. Lance Nicholson gave a fowl supper to a few of their intimate friends on Thanksgiving evening, which was enjoyed very much.

The lecture given in the S. S. Hall on Monday evening by the Salvation Army was well patronized.

ROADS AND BRIDGES.

The Committee on Roads and Bridges reported as follows.

1. The cheque deposited by D. McDermid, contractor for the building of the Chemong Lake Bridge be returned to him, he having executed the contract and given the bond required in that behalf.

2. That paragraph 6 of the report of the Committee on Roads and Bridges adopted on the 27th of January, 1900, be amended by appointing Mr. John Gilmour of the Township of Galway, commissioner for the expenditure of the grant to the united townships of Galway and Cavendish, in the room and stead of Mr. Shaw, Mr. Gilmour to furnish a certified statement in detail of the manner in which such moneys are expended.

3. That Mr. W. J. Young be paid $5 as caretaker of the Young's Point Bridge for the present year.

4. Your Committee acknowledge receipt from Mr. Pearce of his vouchers in connection with the appropriation of $150 by this council for Belmont and Methuen, which show payment as follows. Robert McCutcheon, $25.50; Robert Vansickel, $10.00; Frank Post, $20.-00, Albert Nicholls, $10.00; Jaris Dingman, $15.00; Isaac Whitney, $25.00; James Burgess, $37.00, and J. B. Pearce $7.50.

5. That the matter of repairing the approaches to the Allandale bridge be left in the hands of Mr. Anderson, with power to act.

6. That Taylor's Mill bridge in the township of Belmont be reconstructed as a steel bridge according to plans and specifications to be prepared by the County Engineer, and that the Special Committee on Roads and Bridges be empowered to advertise for tenders, let contract, and do everything to carry out the work, and that Mr. Buck be added as a member of the special committee.

WM. ANDERSON.

Councillor E. A. Peck, moved, seconded by Councillor Shaw the first reading of a bylaw confirming the report of the Roads and Bridges Committee. Council went into Committee of the whole, and the bylaw passed its several stages. Committee arose and reported, and the bylaw was given its third reading.

Councillor Pearce brought up the matter of the title to the land on which the county buildings stand. He moved, seconded by Councillor Shaw, that the County Solicitor be instructed to report to the next meeting of this council as to the title of the lands issued by the Crown in 1847 to the District Council of Colborne, on which the county buildings are situated, and what steps should be taken to have the same registered in the name of the municipality of the County of Peterborough.

The motion was carried and the council adjourned amid much jubilation. All the members arose and sang "Auld Lang Syne," "We are Jolly Good Fellows," and other old favorites.

STRENGTHEN QUEBEC.

Speaking at Lynedoch, Mr. John Charlton said, concerning the French-Canadians, that Canada had to learn something from the experience of the empire in South Africa. God forbid that he should say anything against the French or call their loyalty into question, but he could not be ignorant of the fact that the tri-colour is shown in Quebec a thousand times where the Union Jack is shown once. These people look back with regret to the time when the empire passed from the hands of France to England and the history of North America was changed and while he would not abridge one iota the privilege the French-Canadian possesses or insinuate ought as to his loyalty, yet he would say that the saftey of Canada lay in Anglo-Saxon hands, and, realizing that, he felt it would not be improper to have a British garrison stationed in Quebec, ready at any moment to assert British authority under any circumstances or emergencies that might arise. He did not say this because he wanted to insinuate that the necessity would come for it, but he would say, "Forwarned is forearmed," and we cannot afford to trifle with the future. In conclusion Mr. Charlton said there were two courses open to Canada—to become absorbed with the United States, the most powerful nation next to Great Britain—(cries of "Never!")—the other was identification with the Empire of Great Britain, and he preferred the latter alternative.

McClellan's Orators.

(For The Times.)

Every factory whistle and toot,
 Every blow of a mallet,
Every peg in a walker's boot,
 Every dime in a wallet.—
Others are of golden speech,
 And tell a wonderful story—
And this is the lesson they seem to teach—
 The country's rise and glory!

Every chug of the river tug,
 Every click of the type,
Every drop of milk and the jug,
 Every oiler's "wipe,"—
Speak Mac's praises here—
 Tell of the victory won;
Give to the toilers hope and cheer,
 Through deeds that he has done!

Every buzzsaw's noisy whirr,
 Every cry for "mert!"
Every wheel that 'gins to stir,
 And cars of every sort,—
Tell of what the Grits have done
 In giving trade the notion.
That if a victory's to be won,
 Just get McClellan's motion!

Every clang of the engine bell,
 Ever loaded dray;
Every drop of paint that's fell
 Where busy brushes play,—
Tell how grand the thoughts they raise—
 Brings closer man to man—
How eloquent all speak to praise
 McClellan's hopeful plan!

A WONDERFUL

KIDNEY and Bladder CURE

The Honorable Chairman of the Board of County Commissioners, Ellsworth, Kansas, tells how ALKAVIS cured him after Doctors and all other Remedies had Failed.

I. A. HOPKINS.

BRIGHT'S DISEASE, GRAVEL, DROPSY,

And Rheumatism Mastered at Last.

One of the most remarkable medical discoveries of the century is the Kava-Kava Shrub, found on the Ganges River, East India, which has a wonderful action on the kidneys and bladder. Since its introduction into this country its fame has quickly spread, because of its seemingly impossible cures. Prominent men and women have testified to its great curative powers, and hospital tests prove its infallibility even in advanced stages of Bright's Disease. Among the more recent recoveries is that of Hon. I. A. Hopkins, Chairman Board of County Commissioners, Ellsworth, Kansas, who says:

GENTLEMEN:—I will say that I believe and know that I owe my life to Alkavis. I had been troubled with Kidney and Bladder Trouble for years. Two years ago I was sick for six weeks with Malarial Fever which left me in a bad condition. My limbs were swollen with Rheumatism so that I could hardly walk; I was troubled with Indigestion from taking Medicine for my Urinary troubles which had become very much worse. I had to get up every hour of the night to urinate. I passed great quantities of blood on account of hemorrhage of the Kidneys and Bladder. I tried and had been trying everything in the shape of Medicine for Kidney Trouble that I could think of or that the Doctors recommended, but nothing helped me for I kept getting worse. I suffered great pain continually in my Kidneys. I made up my mind unless I could get relief that I only had a short time to live. About this time my attention was called to an advertisement of Alkavis. As a drowning man will grasp at a straw, I was ready to try anything for relief. I sent to you for three bottles. I began to take it, and before I had taken it one week I began to feel the good effects of Alkavis. My Kidney Trouble and Rheumatism were soon gone, my digestion became all right, I found myself in better health than for ten years and I am in good health now. I know that Alkavis saved my life. What more can anyone say for a medicine? Unlike most medicines it is good for indigestion. It gives the person taking it a good appetite. I have recommended Alkavis to a great many people and all have been benefited by its use. I am 52 years of age, and am very grateful for what Alkavis has done for me.

Respectfully yours, I. A. HOPKINS.

Rev. W. B. Moore, D. D., Washington, D. C., Editor Religious World, writes that after trying all known medicines for kidney and rheumatic disease he was permanently cured by Alkavis. Mrs. Wm. H. Hardy, East Rush, Pa., writes that Alkavis cured her after six doctors failed. Rev. J. W. Hickman, Collyer, Trego Co., Kansas, cured of liver, kidney and bladder trouble, of many years' standing, from which he could only get temporary relief and had given up all hope of a cure. Thus the grand work goes on. A new book, entitled "A Thousand Living Witnesses," sent with the free case of medicine, tells of the wonderful cures performed in every state.

Not only does this great discovery—Alkavis (the Kava-Kava Compound)—cure all forms of kidney and bladder diseases, but by expelling from the blood all poisonous deposits, excess of lime, uric acid, urates and lithiates, it banishes gravel, torpid liver, rheumatism, pains in back, difficult and too frequent urination, etc. The cure is complete. No phase is neglected, and the stomach, heart and nerves are toned and invigorated. No other medicine in the world will perform the work of Alkavis. To enable sufferers to get well and spread the glad tidings we have arranged to send a Large Case of Alkavis FREE by mail to all who write us. The case goes entirely FREE.

If you are a sufferer, write to-day and secure at once a Free Case of Alkavis and Book of "A Thousand Living Witnesses." Address The Church Kidney Cure Co., No. 108 Fourth Ave., New York. Please mention this paper.

ATTACK of ROYAL CANADIANS at Paardeberg

The present is a time when war pictures are in greater demand than ever. The conduct of the British soldiers on the battlefield has won the plaudits of admiring nations. We have at great expense published four large, beautiful pictures, size 20x24, on heavy, superfine calendered paper. A picture that will commend itself and send a thrill to the heart of every true Canadian is the one called Attack of Royal Canadians at Paardeberg; there are literally hundreds of figures on this picture; the mountains or kopjes stretching out into the distance are swarming with men, while here and there a prostrate figure speaks only too well of the Boer riflemen. It was on this battlefield the gallant Major Arnold met death unflinchingly. Indeed, it is only too true that many of these gallant hearts that beat so high when the cheering thousands bade them Godspeed as they sailed from Canada's shores now lie still forever in lonely graves on the other side of the world under African skies. To every Canadian heart, to every Canadian home, the deeds of their brave soldier boys speak with an irresistible thrill of patriotism and pride. Gordon Highlanders at the Battle of Belmont, Charging the Boer Guns at Mandassagie and the Charge of Gen. French's Cavalry on the Retreating Gen. Cronje's Army. These are all stirring pictures and cannot fail to commend themselves to anyone who will examine them. They are RED HOT SELLERS! Agents coin money. Big profits. Enormous success. One agent sold 60 in one day. Sample and terms 25 cts (none free); four for 60 cts; $1.75 per dozen; 25 for $3.25; 50 for $6.00; 100 for $11.00. Write to-day for a dozen and make money. THE BOXER REVOLT IS SPREADING FAST

Sir Robert Hart Says the Boxer Revolt is a Real Yellow Peril.

BOXERS WILL INCREASE TO TWENTY MILLION

And Will Drive all the Foreigners from the Celestial Empire—China is Still Engaged upon her old Game of Bluff.

St. Petersburg, Oct. 26.—The remains of the Chinese troops in the wide spaces of country around Maikden, Manchuria, says officials despatches, are broken up into guerilla bands, which are plundering villages and farms.

London, Oct. 27.—It now appears that Jacobsdal was not captured by the Boers. Advices received from Cape Town shortly after midnight, says—Later news from Jacobsdal show that 200 Boars unsuccessfully attacked the garrison. The Highlanders had 14 killed and 20 wounded.

London, Oct. 26.—Sir Robert Hart, whose authority on all Chinese matters is undoubted, contributes a striking article to the Fortnightly Review on the Boxer movement. He adops an extremely pessimistic tone, and declares that the rising will spread like wildfire throughout China, constituting a real "yellow peril." In fifty years' time there will be, he says, twenty millions of armed Boxers at the call of the Chinese Government. The remedies for this state of affairs, Sir Robert fears, are outside the range of practical politics, and full of forebeding he looks to the future. The Boxers will sweep every foreigner out of China, and pay back old scores with interest. Nothing can stop the movement but partition or the miraculous spread of Christianity, and neither contingency is, in Sir Roberts Hart's opinion, at all probable. Fortunately, there is not much reason to suppose that the powers will be frightened by this awful picture of the greatness of China in the future from doing their duty by the China of to-day.

UNSATISFACTORY LETTERS.

Paris, Oct. 26.—According to a Havas Agency despatch from Pekin, dated Oct. 24, Prince Ching and Li Hung Chang have communicated to the legations the Imperial decree in accordance with which the Princes and Ministers responsible for the recent troubles in China are to be punished, according to their respective degrees of culpability.

The Emperor recognizes the fact that General Tung Fuh Siang has committed serious offences, and he charges Prince Ching and Li Hung Chang to fix the penalties to be fixed on those for whom the Europeans demand punishment.

The decree states that Chinese plenipotentiaries have already inflicted punishment upon some Princes. These plenipotentiaries assure the Emperor of the death of Kang Yi.

Prince Tuan and Prince Tchouang are not with the court.

These communications are not satisfactory to the legations.

DEATH AND SUICIDE.

Washington, Oct. 26.—The Chinese Minister has received a despatch stating that Kang Yi, a member of the Cabinet with Yung Lu, and one of the intense anti-foreign leaders, whose punishment was demanded by the powers, died of illness on ont he 18th instant; also that Yu Hsien, the late Governor of Shansi, who is said to have been responsible for the death of many missionaries, has committed suicide by swallowing gold leaf. Minister Wu regards this act as the result of the disfavor which the high officials have received from the throne.

SAM LUNG S DEATH.

The Coroner's Jury at Last Renders a Verdict.

The Chinaman Was Killed by a Heavy Shock of Electricity—How it Reached the Electric Light Wire is Not Explained.

The inquest into the death of Sam Lung, the Chinese laundryman, who met his death on the 15th inst., while handling an electric lamp, was concluded last night. The whole evening was occupied in taking the evidence of electricians, Mr. Fisk, Superintendent of the Light & Power Company, and Mr. Madill, of the Canadian General Electric Company, being the principal witnesses. Their testimony included a great deal of interesting information about the mysterious latter-day agency of light and power, but failed to fully explain the cause of Sam Lung's death. One discovery was made, however. Mr. Madill examined the lamp socket and the wire attached to it, and found that the wire had pierced the insulation and transmitted a current to the socket. From the charred condition of the wire, it was evident that a current much heavier than the 52 volts of the electric light had passed through the Chinaman. But a most exhaustive discussion by Coroner, counsel and experts failed to indicate the way in which the accident occurred. The Jury returned the following verdict:—

1st.—That the said Sam Lung came to his death by electricity.

2nd.—That a voltage greater than that shown to have existed by the testimony of sworn witnesses must have been made to pass through the wires entering into the premises in which the death occurred.

3rd.—That this excess of voltage was produced in some way unknown to this jury.

Bryan in New Jersey.

Jersey City, N.J., Oct. 26.—William J. Bryan invaded New Jersey, to-day making his first stop at Camden. This afternoon he will address the Democratic Clubs at Trenton, and then take a train for this city, speaking from the car platform en route. To-morrow he will go to Morristown, and will speak in the evening at Paterson.

INTEREST IN THE BOY PREACHER

Meetings in College Street Baptist Church Causes Much Comment.

Toronto, Oct. 26.—The preaching of Master Jack Cook, the fourteen-year-old religious prodigy, in College street Baptist Church this week is provoking much comment, both favorable and adverse. As a drawing card the boy is away ahead of any revivalist, with the exception of the late Mr. D. L. Moody and Messrs. Crossley and Hunter, who has ever made a campaign against sin in this city. College Street Church is crowded to the doors every evening, and overflow meetings have to be held in the school-room. Of course a large number of people go entirely from curiosity, and it is because of this feature—the "circus element," one indignat Baptist put it to-day—that some of the prominent Baptists are objecting to young Cook's presence.

Then, again, it is held by some that the boy's remarkable utterances do not proceed from his own brain, but that they are transferred to him by someone else gifted with subtle mental power. Very few church members, of course, credit such powers, and they also object to the efforts of individuals in the audience to trip the youthful preacher by asking him questions of theology, or to interpret obscure Bible passages. Indeed, many of young Cook's interrogators do not confine themselves to Biblical subjects, but branch off into questions of scientific matters. To these questions, however, young Cook turns a deaf ear. "They are not in the Bible," he invariably answers.

His methods are unusual. He is introduced, and the audience is invited to name a text. A dozen texts are secured from persons in the audience, and from these one is selected, at the approval of the audience, and the sermon commences. The discourses are certainly remarkable for a child of fourteen years, although as compared with the sermons of some of the city pastors they are somewhat mediocre. Still coming from the lips of a lad of such years, in good English and accurate pronunciation, accompanied by appropriate gestures, it is not at all remarkable that the sermons have caused much comment in both directions. Whether any real spiritual good will be done is a question which is being eagerly discussed.

DEER ARE PLENTIFUL

Encouraging Advice for Sportsmen from the Line of the G T R

The G.T.R. has issued a nice little booklet entitled "The Trail of the Red Deer," which gives much needed information valuable to the sportsmen. Among other things it contains an abstract of the game laws of Ontario. According to the booklet the season of 1900 will be better than that of last year. Advices from the several districts reached by the G.T.R. system show that deer are plentiful, and moose tracks have been seen in many places throughout the forests of the Highlands of Ontario, and this season being the first for some years in which hunters have been allowed to shoot moose in the province, there will be quite a few "good shots," who will endeavor to bring down one of the big fellows.

To accommodate all persons wishing to remain at home until after the elections on November 7th, the reduced rates will also be given on November 8th, 9th and 10th.

THE APSLEY RAILWAY.

A Proposed Road Between Norwood and the North Country.

The initial survey of the proposed line of railway between Norwood and Apsley has been made by the C.P.R., and a careful estimate made of the cost. An easy route has been secured, where little cutting will be necessary. The line will start at Norwood, passing northward a few miles east of Warsaw on the upper Stony Lake and thence by way of Jack's Lake to Apsley.

The Times has repeatedly called attention of our citizens to this matter, and urged upon them the desirability that something be done to have Peterborough made the terminus instead of Norwood. We would suggest that the Board of Trade take the matter up as soon as the elections are over, and invite the people from the north to come down and talk the matter over. The back country would greatly prefer Peterborough to Norwood as a terminus. It largely rests with ourselves if we lose the road.

TOWN QUIET AGAIN

Presence of Troops Subdues the Strikers.

NO ONE SERIOUSLY HURT

Only Three of the Soldiers who Were Struck are off Duty.

Valleyfield, Que., Oct 26.—After a night of pandemonium the town is perfectly quiet, the streets being filled with Montreal troops, who are patrolling the bridge which connects the Montreal Cotton Mills with the town, and are guarding all places of importance. A special train bearing two hundred more troops from Montreal, of the Scots and Victoria Rifles, has just arrived.

NINE MEN WOUNDED.

In the clash last evening nine men of the Scots were wounded, most of them slightly. The following report was issued by Surgeon Maj. Rollo Campbell, R.S. C.

No. 1 Company— Colburn Miller, scalp wound, not serious. Stewart Simpson, severe wound over the eye.

No. 2 Company—Dan McQuay, severe contused wound in the face; William Wilson, slight contusion on the neck; Samuel John Tuck, injured elbow, severe; contusion of the scalp.

No 3 Company—Ernest Simpson, ear cut.

No 5 Company—Lorne Clark, severe contusion on the shoulder; Fred William Flood, slight scalp wound; Stewart Foster, wound and contusion on the face.

THE MAYOR LEFT.

The mob gathered at dark and proceeded first to the store of Mayor Langevin, who, when he saw the crowd coming made his escape through a back lane. He has not been seen since.

There is talk of a general strike this morning. The ill-feeling seems to be greatly aggravated and more generally diffused since the arrival of the redcoats. The feud, or such it really is, has taken a racial aspect, and it was unsafe all night for any English-speaking person to walk anywhere near the cotton mills.

The troops were returning from supper at 8 o'clock last night from the Queens Hotel, and had to pass the bridge where the crowd had massed. Before the soldiers could defend themselves they were assaulted by a perfect hail of stones. The Scots wheeled and charged, the officers firing shots in the air, and the mob turned and ran.

Though Col. Ibbotson urged it strongly, no magistrate could be found to read the riot act. Recorder Papineau, who was called upon, thought it better to wait until reinforcements arrived, the result being that the militia was powerless to do anything. From 9 o'clock until midnight the

HOWLING, YELLING RABBLE.

swept through the street. The discipline of the Scots was excellent, having to stand as they did under the ceaseless bombardment of stones and clubs. The men charged and charged again. Finally the Scots fired several shots in the air. This was the signal for the crowd to disperse.

Godfroi Lecomte was caught in the act of throwing stones and was taken a prisoner. He will be sent to Montreal this morning, along with the wounded men.

Serious trouble is feared when the mills re-open to-day. It is given out here that an effort will be made to resume with a full force. The Scots are on duty, and a vigilant watch is being kept on all places to which the least suspicion of a further outbreak attaches. No one is being allowed to cross the street near the mill without a pass.

A room in the club house has been improved as a hospital for the wounded, and the men, who are resting easily, are receiving every attention.

NOT BADLY HURT.

On examination of the wounded soldiers this morning it was decided that it would be necessary for six only to be returned to Montreal. The wounds of the remaining soldiers being of a slight nature and not preventing them attending their duty. The six injured men are mostly cut up about the head, due to the stones hurled at them by the mob. The two men arrested for being active participants in the disturbances of last night are this morning being removed to the county jail at Beauharnois, where it is likely a military guard will be sent to prevent their release by sympathizers.

SENDING TROOPS.

Royal Scots at Drill in Montreal When the News Came From Valleyfield

Montreal, Oct. 26.—The Royal Scots were drilling at the Drill Hall last night, when the news came that more men were needed at Valleyfield. Capt. Cantlie was in command, and at once made arrangements with the Grand Trunk officials to provide a special train if it was necessary, and to communicate with Lieut.-Col. Roy, D.O.C., who had left for St. John's just before the information was received.

Communication with Col. Roy was established at about 10 o'clock, and it was decided to dispatch at once two companies of the Victoria Rifles, two companies of the Garrison Artillery, the remainder of the Royal Scots and No. 3 Bearer Company, 250 men in all. Lieut.-Col. Labelle was to make all arrangements for their despatch, and the other regiments were warned to be ready for to-day if their services were needed.

The officers commanding were at once informed of the D.O.C.'s orders, and by 12.30 a.m. the following corps marched into Bonaventure Station. The 3rd Victoria Rifles, comprising 80 men, with the Maxim gun, making a total of 100 under command of Lieut.-Col. Hamilton and Maj. Wilson; the Royal Scots 50 strong, under Capt, Cantlie and Lieutenants Armstrong and Davidson, with Capt. Bond and Lieut. Bond attached; the Garrison Artillery 20 strong, under Capt. Cole and Lieutenants Davidson, Ewing and Glass, and No. 3 Bearer Company, 24 strong, with four stretchers, under Surgeon-Maj. Birkett and Surgeon Lieut Wylde.

Every man was served with 40 rounds of ball, and the Victorias took their Maxim. If necessary a much stronger force will leave at the earliest possible moment to-day, under Lieut.-Col. Roy, who will also probably bring 40 men from St. John's. Lieut. Riley got together a troop of the Duke of York's Hussars, but as there is no means of unloading horses at Valleyfield and they would be of no use till daylight, it was decided to keep them until to-day, to be sent if necessary.

The spirit of war was evinced by the appearance of four men just returned from the Cape. They were in the uniforms of their old regiments, and seemed happy to be in active service again.

THE POLITICAL POT

Although Nov. 7 is not Ash Wednesday it will be a day of humiliation for many a candidate.

•• • ••

All sorts of election tables are being put out. All that is certain is that the tables will be turned on somebody ten days hence.

•• • ••

This is the season for the wealthy candidate and the honest corn husker to shell out.

•• • ••

The dew is on the pumpkin and the rye is in the canvasser's rear pocket.

•• • ••

Stumping over the riding as now is quite different from the pleasant walkovers Mr. Stratton has.

•• • ••

It is just possible that some of the chaps who have got their feet aimed at Joe McClellan's hat may discover there's a brick in it.

•• • ••

A government usually professes a desire to be known by its works. In the close constituency it hopes to be judged by its public works.

•• • ••

A dozen meetings are being held nightly in the constituency in which Hon. Clifford Sifton and Mr. Hugh J. Macdonald are battling for political supremacy.

•• • ••

Mr. John Lang spoke in Haliburton last night. He is working day and night, believing that it is better to be "sure than sorry."

•• • ••

The joint meeting in Lakefield this evening will be addressed by both Mr. McClellan and Mr. Lang, besides other speakers from town.

•• • ••

At any rate, whether he wins or loses, Sir Charles Tupper can proudly claim the authorship of a manifesto that is undoubtedly vaster than has been.

•• • ••

Mr. McClellan has not the confidence of a self-made man. He might not have come out for member, but the Provincial Secretary made him.

•• • ••

Sir Mackenzie Bowell, speaking at a Corby meeting in Belleville, hinted that at next session of Parliament a commission might be asked to investigate the alleged sale of Senatorships.

•• • ••

The balmy breezes which toy with Mr. Kendry's whiskers as he pursues the canvas over the kopjes of Smith at all hours of the day and night, may mean a big storm later on.

•• • ••

Mr. McClellan spoke in Ennismore on Wednesday night, and had a very successful meeting. He will hold a joint meeting at Lakefield to-night, when Mr. Lang will be present. On Monday evening he speaks at Fraserville.

•• • ••

As long as John Charlton was a thick and thin Grit he had to fight for his seat. Now he proclaims his independence, and the Tories decide to let him in by acclamation. It is seldom that a meritorious deed gets such speedy reward in this sad world.

•• • ••

Senator Wm. Kerr, Q.C., of Cobourg will address general meetings in West Hastings and East Durham. Senator Kerr is a strong speaker and his active participation in the campaign will be appreciated by the Liberal candidates, in whose behalf he will speak.

•• • ••

Mr. E. B. Stone is billed to speak at Trenton this evening, in the interests of Mr. S. J. Young, the Liberal candidate in West Hastings. Mr. Stone is a fluent and impressive speaker, and is doing good work for the Liberal party.

•• • ••

Dr. L. B. Powers, of Port Hope, has received the Liberal nomination for East Durham. He was brought out at a convention at Millbrook. East Durham is a pretty safe Conservative seat, but the turning down of Mr. T. Dixon Craig wrought some dissension in the Conservative ranks, and it is the hope of the local Liberals that they will run in their man on the strength of the division of the enemy. Mr. Ward, however, is popular, and has the esteem and respect of everybody. That he will be elected, there is little doubt.

•• • ••

A meeting in Mr. Sexsmith's interests was held at Stewart's Otonabee, Thursday night, when the attendance was large and the speakers received the closest possible attention. Mr. John Moore opened the meeting briefly, and was followed by Mr. Sexsmith. Mr. R. M. Dennistoun then held the interest of the audience for an hour and a half while he went into the record of the present Government, dealing with them as Liberals who had forsaken their principles and been false to their pledges and promises.

•• • ••

Sir Wilfred was asked the other night to explain the H. H. Cook charges. He replied that neither he nor any of his colleagues had asked or obtained one cent from Mr. Cook for a senatorship. He challenged Mr. Cook to produce the proof of his charge. Hon. Mr. Tarte also made a brief address at the same meeting. He said that the French-Canadians were loyal, and that the only traitors to Canada were the Tory organizers, who sought to show that his countrymen were disloyal. Their political allegiance was to Great Britain, and always would be. They were better under English rule than they would be under French.

•• • ••

It is one of the entertaining features of this campaign to see the boot on the other foot in the case of the Examiner. It is usual for that journal to make use of some little side issue as the proverbial herring which keeps the innocent Tory organ hammering away like a tramp at the door of an empty house. This time, however, Mr. Kendry and his lieutenants are holding the Examiner down with one hand while they talk to the electors (with the other), and it is compelled to resort to the usual and time-worn expedient of asserting that Mr. Kendry and Mr. Burnham do not agree—that Mr. Kendry is against protection, &c., &c. In the meantime the inconsistency of the present tariff remains.

WEATHER NOTES.

Probs. To-day—Moderate westerly winds; fine and mild.

Rain has fallen during the night in Algoma, but the weather is fine and comparatively warm in nearly all parts of the Dominion, and at present there is no indication of any important change.

CAPE HIGHLANDERS LOSE 34 MEN OUT OF 52

Boer Forces Capture Jacobsdal After a Stubborn Fight With the Cape Highlanders.

EX-PRESIDENT KRUGER WILL WINTER AT NICE

Report That Colesberg, in Cape Colony, has Been Capturee and that the Enemy Have Cut Telgraphic Communications.

Pretoria, Oct. 26.—The Transvaal was to-day proclaimed a part of the British Empire. The proclamation being attended with impressive ceremonies. The Royal Standard was hoisted in the main square of the city. The Grenadiers presented arms, massed bands played the National Anthem. Sir Alfred Milner read the proclamation and 6,200 troops representing Great Britain and her colonies marched past.

Cape Town, Oct. 26.—Hans Botha has cut off a train with a reconnoitering party of the Highland Brigade, between Heidelberg and Greylingstad in the Transvaal Colony, tearing up the rails in front of and behind the train. In the fight which followed, two captains and eight men were wounded and all were captured. It is reported that former-President Steyn and the members of the Executive Council are at Lourieberg, south of Bethlehem, and that he has declared Lourieburg to be the capital of the Orange Free State. Mr. Steyn has ordered Krieter, a member of the late Volksraad, to be tried on the charge of high treason.

Cape Town, Oct. 26.—The Boers have captured Jacobsdal, south-west of Kimberley, after a stubborn resistance on the part of the garrison, which consisted of a detachment of Cape Town Highlanders. The latter suffered severely, losing 34 out of 52 men.

BOERS CUT WOOD AT ST. HELENA.

London, Oct. 26.—A despatch to the Express from St. Helena, says—There has been a great deal of activity among the military people during the past four weeks. Preparations for the reception of some 2,000 or more prisoners of war are going on apace.

The place (Francis Plain) first decided upon has been given up in favor of another much father out in the country—in the south-western district of the island, known as "Great Broad Bottom" which possesses far greater advantages as far as a plentiful supply of excellent spring water and amplitude of space are concerned, but which presents great difficulties in the way of the transporting of material, as the roads leading thereto render it impossible for wagons to go beyond a certain distance from the site of the camp, from which point pack mules are employed to convey the supplies down.

The climate of Deadwood Camp is much to be preferred to that of Broad Bottom. The latter is more central, and in a district where a much larger rainfall and lower temperature are recorded during the year. The prisoners complained bitterly of the weather at Deadwood during the period—approximating six weeks — when Jupiter Pluvius and Aeolus held sway over us; they had been at the new camp during this time there would have been more forcible reasons for complaint, as those who are going to live there will find out if by March and April of next year their release has not been effected.

THE PRISONERS' CAMP.

A surprise visit to inspect the prisoners' camp and hospitals was made a few weeks ago by Prof. John Chiene, consulting surgeon to the forces in South Africa. The professor was specially commissioned for this work by Lord Roberts, to whom, I understand, he has made a very favorable report of the conditions of things obtaining there generally.

In view of the not remote posibility of the destruction of the forests of the island by the injudicious cutting of trees to meet the great demands for wood for camp use, the professor strongly recommended that at least three trees should be planted for every one cut down.

In this work of cutting wood a large number of the prisoners are continually employed by local contractors, and numbers are also put to work at repairing and making roads by the Government. This does not in the least affect the laboring class of people in the island, who find constant work, and some twenty odd men of whom have been taken into Government employ as mule drivers.

The drivers imported from the Cape are a hard set, and often figure in the police court either for drunkenness or fighting, and it has been found necessary to increase the number of men in the police force of the island.

The transport Armenian has just arrived with some 400 or 500 tons of stores.

KRUGER TO STAY AT NICE.

Paris, Oct. 26.—Dr. Leyds, the Transvaal agent, who is in this city for a few days, was questioned by a representative of the Associated Press to-day with reference to the plans of former-President Kruger. He said—"Most of the stories published on the subject are imaginative. Mr. Kruger is an old man and not accustomed to a cold climate, so it is likely he will sojourn in the neighborhood of Nice for the winter."

BURNED THE DEPOT.

Cape Town, Oct. 26.—The military depot at Victoria West has been destroyed by fire. An immense quantity of food and ammunition has been lost.

It is reported that a Boer commando has occupied Colesburg, and that telegraphic communication beyond the Orange River has been cut off.

About 100 Rand Uitlanders appeared at the railway station here last night with passes for the Rand. The officials announced that the train which they expected to travel in had been cancelled.

This and other acts have much exasperated the Randites, who do not think that they are being treated in a generous spirit by the military authorities. In consequence, they are reproaching the Imperial Government through the public press.

The Afrikander leaders are of the opinion that Lord Roberts' latest proclamation is not likely to placate the Boers.

TRYING TO CAPTURE THE BYNK ROBBER

The Chief of the N. Y. De ectives Will Undertake to Catch Him.

New York, Oct. 26.—The capture of the defaulting note teller, Cornelius L. Alvord, jr., has been officially left in the hands of Captain McClusky, chief of detectives. It was said that a reward would probably be offered to-day by the bank.

HE MAY SURRENDER.

New York, Oct. 26.—Freinds of Cornelius L. Alvord, the absconding note teller of the First National Bank, think that he will surrender himself very soon, probably to-day. It is confidently believed the man is hiding in this vicinity, perhaps within the limits of Greater New York.

Chief of Detectives McCluskey, speaking of the case to-day, said.—

"A circular describing Alvord, and offering a reward for his capture, will be issued some time to-day. The amount has not yet been fixed by the bank directors.

"When Alvord left he did not take any packages of money. He has not stolen any of the bank's securities. He could not lay hands on them. He has not been at the bank since a week ago last Wednesday. There is no woman in the case except his wife. He had no accomplice. None was needed.

HIS METHOD WAS TOO SIMPLE.

"What did he do with the money? Well, he did not lose it all in Wall street. He was too shrewd. I understand he was a pretty heavy winner in some transactions. He had a business head, and knew a good business proposition. He lived high, but, figuring it all out, his house and his horses and wife's diamonds and his suppers all together, I can't see where he could have squandered more than $200,000. That leaves something like half a million. I believe Alvord has that amount 'salted away.'"

FIVE THOUSAND THE REWARD.

New York, Oct. 26.—It was learned later that a reward of $5,000 would be offered by the First National Bank for the arrest and detention of Alvord. From police headquarters to-night there will be sent out 10,000 circulars giving a full discription of Alvord and offering the reward. Captain McClusky stated that he would at once cable all the leading cities of Europe to be on the lookout.

WONDERFUL GROWTH.

The growth of American cities is shown in an interesting way by a table compiled from the census reports of successive decennial periods. At the first census, in 1790, there were but eighteen cities or towns in the United States having a population of over one thousand, and but one, Philadelphia, whose population exceeded 40,000. In 1800 the towns of over one thousand had increased to 29; in 1810 there were 30 whose population exceeded 2,000. At this census New York had moved ahead of Philadelphia, their numbers being respectively 96,373 and 91,874, with Baltimore, Boston and Charleston following.

In 1820 New York and Philadelphia pass 1000,000 and the population of 30 cities exceeds [illegible]. In 1830 there are 33 with more than [illegible],000, and in 1840, 36 with more than 8,000; in 1850 there are 30 with more than 14,000, and six above 100,000, New York then reaching half a million.

In 1860 there are 45 cities above 19,000 and 9 above 100,000. In 1870 there are 48 rising 28,000, with 14 in the 100,000 class. In 1880 this class is increased to 26, New York passing a million, and 51 cities exceed 30,000. In 1890 there were 60 cities with more than 48,000 and 28 with more than 100,000, while three had passed a million. This year there are 38 above 100,000 and 78 above 50,000. Wilmington, Camden and Trenton and fifty others have each a greater population now than Philadelphia had a century ago.

CHINESE ARE LIARS.

In China lying is reduced to a fine art; also to an exact science. No lie that scruples over difficulties or hesitates at obstacles is respected in China. The lie that does not sweep everything before it does not command popular Chinese approval. It must be a lie that abandons all communication and destroys all bridges in its rear—a lie that once fairly under way can be trusted to outstrip truth to the utmost parts of the empire, which, of course, are the utmost parts of the earth.

Hence ordinary lies regarding the destruction of the allied fleet at Taku or the complete massacre of the allied troops at Tien-Tsin fall upon dull Chinese ears. They were believed, improved upon, and circulated, but the oldest civilization on earth regarded them as the work of amateurs. The defeats of the foreign devils were matters of course. The victories of the children of the sun were beyond dispute. Therefore it was only when the liars began to tell how the captured Generals of the foreign armies were crawling on their knees from Tien-Tsin to Pekin and begging for the privilege of kissing the dust of the Sacred City that popular interest in China began to make itself manifest.

From that time the cartoonists of the empire were able to fix the attention of a refined and sensitive people. As narrated by the Oriental correspondent of the Indianapolis Journal and other veracious newspaper men in the field, these artists depicted not only the Generals but the envoys of the foreign nations begging for mercy at the Imperial throne, while ill-disguised scorn was depicted upon the terra cotta countenance of the Empress Dowager. They represented the crowned heads of Europe struggling for the privilege of an audience with the Mistress of the World while the Chinese ministers of state were tickling their royal ears with straws and pouring rice down their royal backs. At last accounts, President McKinley was hastening across the Pacific with an offer of half the United States as a gift to the Dowager Empress in the hope that she might be induced to forego her intention of invading this country and annexing it to China as an imperial colony.

There is only one newspaper in China—The Pekin Gazette—and that esteemed journal has been suppressed for several months in the fear that by some mischance a word of truth might creep into its columns. The Chinese depend upon the cartoonists for their news, and they are seldom disappointed. The cartoons of China are to the Celestial empire what the yellow press is to the United States. When this is said and understood, nothing more is necessary.

This Is What They Say.

Those who take Hood's Sarsaparilla for scrofula, eczema, eruptions, catarrh, rheumatism or dyspepsia, say it cures promptly and permanently, even after all other preparations fail. You may take this medicine with the utmost confidence that it will do you good. What it has done for others you have every reason to believe it will do for you.

Constipation is cured by Hood's Pills. 25c.

CHINESE GENERAL SUMMONED.

Tien Tsin, Oct. 24, via Shanghai, Oct. 25.—Genereg Vinshinag has arrived here en route for Pekin, under an American escort. It is understood that his presence is due to Count Von Waldersee's request. The Germans are sending supplies to Pao Ting Fu for the winter garrison. The Chinese Imperial troops are reported to be operating unmolested against the Boxers to the southward of Tien Tsin.

ONE FOR FRANCE.

Yokohamo, Oct. 25.—It is reported from Seoul that the construction of the Seoul-Wijo railway is about to begin. French engineers have secured the contract.

Address to the Electors

To the Free and Independent Electors of West Peterborough—

Gentlemen.—Having accepted the unanimous nomination of the Liberals of this Riding, as a candidate for its representation in the House of Commons I hereby respectfully solicit your support in securing my return at the coming general elections.

The grounds upon which I base my appeal are not so much nor chiefly by any means, my personal fitness for the position of your representation though as a citizen of Peterborough and interested in its progress in common with that of the country, I can and do promise, if elected, an intelligent support of such a public policy and such measures as will best conduce to the promotion of all the interests of Canada, the developement of her great resources and the general betterment of the civil moral and material condition of the public; and my best abilities and most assiduous attention shall be devoted to the faithful discharge of my representative duties.

The strongest ground, however, of my appeal consists in the fact that I am a firm supporter of the Liberal Government led by Sir Wilfred Laurier, which is entitled to the renewed confidence of the people, both on the ground of its policy and the splendid record established by the application of that policy. The Liberal party appealed to the country in 1896 upon a clearly defined policy and the promised results followed.

The Liberal party promised a reduction of a high tariff that hampered our industrial and agricultural interests and was hostile to the Mother Country.

The tariff was materially reduced and otherwise improved and in such a way as to help instead of hinder the manufacturer and farmer, with the consequence that never before in the history of the country have our industries or our farmers enjoyed such great prosperity, our mechanics and working men such constant employment and high wages, nor our commercial and all other interests so flourished.

Our domestic and foreign trade have also greatly increased. The loyal gift of a trade preference, represented by a tariff reduction on British goods of 33 1-3 per cent., and our despatch of the Canadian Contingent, have resulted in a kindlier feeling towards Canada and greatly increased trade with the Mother Country.

With a largely reduced rate of tariff, our revenue has greatly expanded so that the Government was warranted in practicing true economy (reducing our postal rate one third, giving Imperial penny postage,) and premitting of the completion of great public works, deepening our canals, so long trifled with, pushing the work on the Trent Valley Canal which is now urged and will be urged to completion by the Liberal Government, and the application of a vigorous policy of general development and improvement of our transportation facilities, resulting and to result in easier access to the British market and better prices for all our products.

The farming interests of the country are deserving of the best services of a Government, such as the present has given. The immense impetus given the produce trade between Canada and Great Britain, through the preferential tariff, has been greatly helped by the action of the Government in providing an excellent and adequate system of cold storage, by which Canadian products can be landed in Great Britain in first-class condition, guaranteeing the highest prices. The system is of the most modern character, sufficient for all the present needs of the trade, and it will be improved and enlarged as experience suggests, and increase of the produce trade demands, and I shall, if elected, feel it my duty to support any policy that will improve our trade with the Mother Country, and strengthens the bond of British connection, of which we are so proud.

In an industrial centre like Peterborough the claims of the working classes are especially deserving of consideration. No country is well governed that does not look after the interests of all classes of the community. The Conservative Government has been, and the Conservative party declares itself to be, extremely solicitous of the interests of the capitalist classes—the manufacturers—but it left the working classes to largely shift for themselves. A Liberal Government came into power, and the attitude towards Labour was changed, and the rights of Labour to its rights recognized, and in a practical way. A Department of Labour has been established and a Minister of Labour placed over it. A Labour Gazette has been established in the interests of workingmen, published monthly; conditions have been inserted in all Government contracts compelling contractors to pay the highest current wages, which the Government guarantees the payment of; the sweating system has been abolished on Government enforced by a special officer, and in many other ways the Government has shown by deeds that the rights of the workingmen, as well as the capitalist, shall be protected. I heartily support the Government in what it has done, and shall support them in extending the benefits which they have already conferred, and which it is their policy to continue, as need arises.

The splendid achievements of Canadian soldiers in South Africa, make them worthy of the gratitude of the country. We have the best militia material in the world, and if we keep up a military establishment, let it be worthy of Canadians. Situated as Peterborough is, on the line of the Grand Trunk and Canadian Pacific Railways, and on the line of the Trent Valley Canal, begun as a military work, and now under course of completion, no other point in this Province is so well adapted for a military centre. I shall, therefore, feel it my duty to press upon the Government the advisability of constructing in Peterborough new armories and connected buildings for military stores for Ontario, and I feel that this is practicable of attainment at the hands of a Government which has shown its interest in our volunteers by placing the Militia Department, so greatly neglected by a previous administration, upon an effective basis, and will, therefore, more naturally be well disposed towards the improvement involved in making Peterborough a centre for military stores.

A town of the industrial and commercial importance of Peterborough, has certainly strong claims upon the good offices and of a Government. For the past four years the town has been represented, when it was represented in the House, by a member opposed to the Government. There is no doubt in the minds of unprejudiced observers, that the present Liberal Government will be strongly sustained in the country at the coming elections, and the question arises whether West Peterborough will have its interests better served by a member sitting in opposition and hostile to the Government and its policy, or by a member pledged to give the Government a fair support in the application of its policy. If elected I pledge myself to give my best ability and exertions to the promotion of the general good of the country, and to look especially after the interests of West Peterborough.

I cannot obviously here, enter into details of how in other ways the Liberal Government has implemented its promises and applied its policy, but I shall have an opportunity during the campaign of more fully dealing with these and other public questions.

As a supporter of such a Government I can appeal with confidence for the support of the Electors of West Peterborough, knowing that by helping to give, as you will do, through my election, a renewal of the trust the Liberal Government has discharged with such evident and gratifying results, they will be conferring a great and lasting good upon this riding, the country at large, and securing a continuation of the great blessings of prosperity and good government we now enjoy.

Again soliciting your support, your votes, and influence in this contest,

I have the honor to be,
gentlemen,
Your obedient servant,

J. H. McCLELLAN

Love Won - and - Lost.

A NOVEL.

(Continued.)

"Had you experienced the same sorrows in life that some people have you would not be so sanguine in believing it easy to forgive or forget a cruel wrong."

Isetta's dark eyes wandered afar off across the distant horizon. There were few lives that held such a hidden sorrow as her own, yet no thought of vengeance had crossed her pure mind.

The subject was never resumed between them again.

The first glance of that beautiful young face had been the doom of Heath Hampton; he was heedless of all consequences.

He fell to comparing her, quite unconsciously, with Loraine Ulvesford, the fair, haughty beauty whom he would have married for her money; he little dreamed what a cruel mockery of fate such a comparison would become.

He had never loved Loraine; her wealth had been the reward for which he had striven; but he loved this beautiful Isetta, with her fair, foreign face, as such a reckless nature as his was only capable of loving— for herself.

He had seen more of life in his twenty-six years than most men at forty.

He had tested to the full that all knowledge begins with experience.

Isetta had been at Hampton Court only a month before he succeeded in obtaining another interview with her.

All of his numerous schemes to waylay her in the parlor, the library or the hall failed signally; she never ventured anywhere where there was the least likelihood of his presence.

Affairs should not go on in this way much longer, he promised himself.

Fortune favored him quite unexpectedly.

One evening, as he entered the library, his quick eye detected a small, dark-robed figure in the further corner of the room.

"Ah! Miss Rienzi," he said, with a curious smile on his lips, "I have long awaited just this opportunity."

Isetta would have passed him, but he coolly placed himself before her.

"Not until you have listened to what I have to say," he said.

"Let me pass, if you please, sir; I have no wish to hear you," she replied.

"Probably not, still you will favor me by listening, all the same. You have mistaken me from the very first, Miss Rienzi. I am a dangerous man to be trifled with. I am frank with you; my follies are many and my virtues few; my will is my law. You are the first woman I have ever met whom it was possible for me to love; for that reason I have decided to make you my wife."

"Sir!" cried Isetta, "this is outrageous. I will not listen. Allow me to pass, or I will call for assistance."

"From whom would you expect to obtain it?" he asked, sarcastically. His face was growing livid with passion. "Have a care, girl!" he cried, "you and you alone might have made of me what you would—if I cannot win your love I swear none other shall! I come of a passionate race, quick to love and as quick to hate! I would win you in spite of the whole world—in spite of yourself. I love you too madly to have a care as to that."

Isetta held up her hand to stay the mad torrent of his vehement words; her heart fluttered wildly; by a great effort she restrained herself from swooning at his feet.

"Never," she cried, "I would never marry you. I could not. I would die first."

"Shall I tell you why you shall?" he said, quietly, his hot breath scorching her face, his mocking eyes gleaming down into her own.

He whispered but a few words in her ear, yet those few words produced the most startling effect upon her.

Isetta would have fallen had he not stretched out his hand and caught her.

He opened the door, with a low bow, for her to pass.

"Think well of what I have said, Miss Rienzi; I shall await your answer here to-morrow."

The next moment Isetta was alone.

CHAPTER XXI
Lost in The Snow.

Long after the door had closed behind her, Isetta leaned against the balustrade in the corridor, her white face buried in her hands, wildly asking herself if it was not a dream from which she must soon awaken.

"It cannot," oh, it cannot be true," she moaned. Heaven could not be so cruel to me!"

Alas, she knew not which way to turn from her own mad thoughts.

"Oh, mother! mother!" she cried, throwing open her window, "what shall I do?"

The dark night gave back no answer, save the low moaning of the wind among the towering pines. No friendly star pierced the frowning face of the heavens.

Isetta leaned far out on the casement; the great, white snow-flakes drifted down upon her agonized face but they did not cool her fevered brow.

She laid her hot cheek against the little hand which wore her marriage-ring, bitter, scalding tears falling upon it.

"Oh, little ring," she cried, "if you could only tell me where my husband is to-night."

She closed the window with a shudder.

It was the night before Christmas Eve. A bitter storm was setting in; the snow-drifts covered hill and valley in their cold embrace; the winds, freighted with their icy burden, howled dismally, and the shutters creaked as they swung restlessly to and fro on their hinges, yet the darkness and the storm without were nothing to the storm of agony that raged in Isetta's heart as she paced to and fro.

"Grandfather, grandfather!" she wailed, "this never would have happened if you and I had never left sunny Italy."

But a few fleeting months had passed since then, yet it seemed to the friendless girl who stood there, alone in the greatest sorrow her young life had ever known, as if long years had flown.

She remembered but too well the vow that had been made to her grandfather, as the steamer plowed through the dark, seething waters; she could hear again those words, as if spoken by an honest heart:

"I will protect Isetta, come what may."

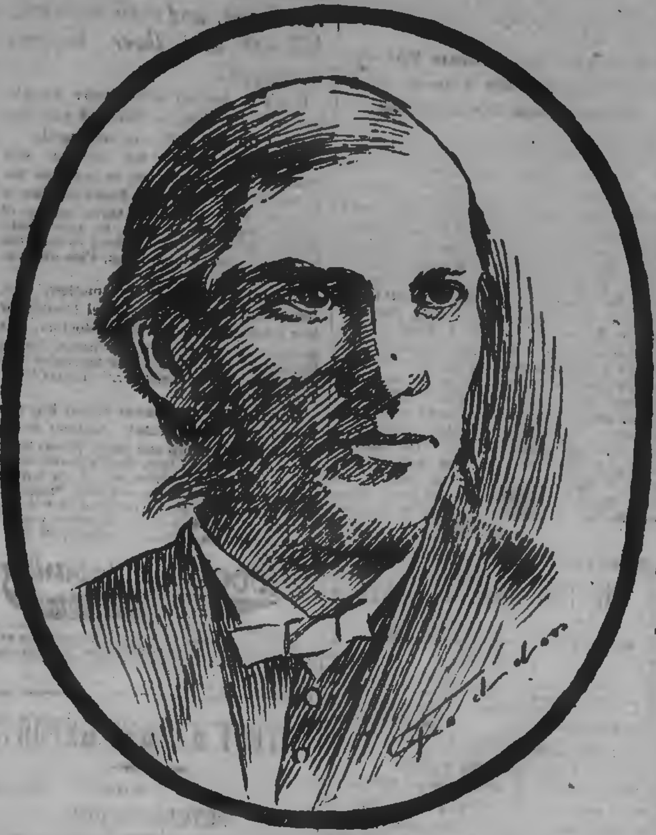
A Clergyman's Testimony.

Powley's Liquified Ozone Saves the Life of the Rev. William Fawcett, D.D.



REV. DR. FAWCETT SAYS: "I feel to-day that I owe my life to Ozone."

> I have used Ozone for stomach trouble and found it an excellent medicine for this weakness. I feel to-day that I owe my life to its being brought to my notice. I believe you have an excellent family remedy and wish you every success.
>
> Yours very respectfully,
>
> (Signed.) WM. FAWCETT, D.D.,
> 103 Hazelton avenue,
> Toronto.

The Rev. Wm. Fawcett, D.D., is one of the most brilliant sons of whom Canada can boast. The son of the late Rev. Michael Fawcett, one of the pioneer clergymen of Canada, he early distinguished himself in his calling. To-day Dr. Fawcett is pastor of one of the largest churches in Chicago.

Some time ago the reverend gentleman was suffering so severely from stomach disorder that he had to resign his pastorate. After a vain attempt to find health in the leading cities of the United States, after spending money lavishly for the best advice of dietetic specialists, after travelling half the world over to take in the noted health resorts, he came back to his father's house, 103 Hazelton avenue, Toronto, to die. But it was not yet his time. He had heard about Powley's Liquified Ozone, and began taking it. In a few months he had recovered perfect health and resumed his duties in Chicago. Now he permits his testimonial to be published, that it may do good to those who may be suffering.

Powley's Liquified Ozone kills the germs of disease and supplies the blood with the oxygen which forms the red corpuscles of health. A great many people are unhealthy because their lungs do not extract the oxygen from the air they breathe. Now, Powley's Liquified Ozone, being liquid oxygen, supplies them with this principle, and makes them strong. Ozone is the new method of treating disease. The instant success it has attained stamps it at once as a preparation altogether different from any ever before placed at your disposal. Ozone is not a patent medicine. The prominent clergyman and citizens of Canada who have been cured by it of long-standing diseases do not lend their names to quack nostrums. You would do well to consult them and satisfy yourself as to its very great value.

Powley's Liquified Ozone is $1.00 large size bottle; 50c small size. At druggists', or from the laboratories of THE OZONE COMPANY OF TORONTO, Limited, 48 Colborne Street, Toronto.

TOWN AND COUNTY NEWS

Coming Home

Dr. H. C. Barrie, Y.M.C.A. representative, who has been with the first contingent in South Africa, is on board the Idaho, due to arrive in Halifax next week. He will probably make a tour of visitation among the associations at an early date.

A "Hurry Order

Messrs. J. J. Turner & Sons received yesterday afternoon, a telephone request to send at once to Windsor all the political (Conservative) mottoes they had on hand. Sir Charles Tupper speaks in Windsor to-night, and the Committee, eager to insure effective decorating sent to Peterborough for assistance in that line. Messrs. Turner & Sons lost no time in filling the order, and just caught the C.P.R. evening train.

Room for Improvement

In Buenos Ayres, says an exchange, butchers do not sell meat by weight, but at so much per chunk. In more enlightened localities they sell it by weight, and they don't forget to see that there is plenty of bone along to make it weigh. In Peterborough they sell potatoes by the "chunk" or sack, regardless of quantitie. Eggs are also sold by the dozen, large or small, instead of by weight, as should be.

Deer Hunting

Deer hunting commences on the 1st of November, and for the first time for many years it will be permissable to hunt bull moose. Deer hunting of any kind, is however, prohibited in Algonquin National Park, and hunters should take notice accordingly. The superintendant and rangers at the park have the strictest injunctions to enforce the provisions of the law, and trespassers will be severely dealt with.

A Strategic Feat

Mr. C. N. Brown has made an interesting addition to the attractions of his feed store, in the form of a live, but rather diminutive owl, which was discovered, to be a tenant of a lane near the store this morning. Gunless, and only assisted by their own activity, Messrs. Brown and W. H. Hamilton proceeded to land the bird. After various kinds of strategic manoeuvres on the market square, the men succeeded in corralling the downy creature, which is now doing its daily dreams in a biscuit box and surrounded by sundry pieces of meat and temptations of Mr. Brown's best wheat.

Home Economics

The second lecture of the Home Economic Association will be held in the lecture room of the George-st., Methodist church on Tuesday evening October, 31st. Mrs. Helen Campbell will be the speaker, and her subject is Household Service. The following subscriptions have been received, in addition to those previously acknowledged. RUBBED IT IN.

Third Time Won.

"Last Xmas I took dinner with a minister's family in New Haven, and although the spread was elaborate and appetizing, nothing was so heartily held up and applauded as a little saucer of Grape-Nuts food, standing by the minister's plate. He said—'I have taken medicine, but nothing has brought relief to body and brain like this food.'

"His wife echoed the sentiments and said she could never tell how much brighter and braver she had been since the advent of Grape-Nuts into her home.

"A week later, I called to see a widow who had a broken arm. I expected to find her disconsolate, but to my surprise, was greeted with cheerful smiles. 'Well,' I said, 'how is this, I expected to find you in the depths of despondency.' 'Oh, no,' she said, 'I could not cook very well with a broken arm, but with a little hot milk added to a few spoonsful of Grape-Nuts, I get a most delicious meal that builds up my strength by the wholesale.'

"This was the second time I had seen Grape-Nuts in the character of a public benefactor. Before night I received my third glimpse of Grape-Nuts when calling on a little child who had burned her hand. Her mother was just preparing a saucer of strawberries and Grape-Nuts food. 'Do you like it?' said I. 'Oh, don't I!' said the child. 'It's so good it most makes me forget my burn.'

"Now I decided I must have some Grape-Nuts myself, for if it was good for tired brain and burns and broken arms, it surely ought to benefit my broken nerves; so I had a package sent up to the house and have had some Grape-Nuts every morning for breakfast since, with this result, that nature's sweet restorer, balmy sleep, came back to me, my nerves somehow quieted down and life took on a different aspect. The old tired, sleepy feeling has gone and the air seems charged with buoyancy.

"I can as easily walk ten blocks as one, difficult duties are easily accomplished and the burdens of life are lightened by the astonishing power of good and well selected food. I have taken no medicine during this time, therefore I can only attribute the agreeable change to the sure help that comes daily from the use of this remarkable food." Jennie May Summer, 69 Abbott Ave., Waterbury, Conn.

DIAMOND DYES

Produce all the New shades.

A Rich and Marvellous Variety of Fashionable Colors for Autumn and Winter Wear.

The great majority of wise and prudent women collect and examine their old dresses, shirts, capes, jackets, shawls, husband's and children's suits this month with the view of having them cleaned and dyed so as to fit them for autumn and winter wear.

The Diamond Dyes (prepared specially for home use) have a wealth of variety, beauty and brilliancy possessed by no other make of dyes. They produce all the new and fashionable colors for autumn and winter wear—colors that will not fade in the strongest sunlight. Every packet of Diamond Dyes is warranted, and will give perfect results when simple directions are followed. There are imitations; avoid them if you delight in good colors and value the safety of your materials. The use of poor dyes means ruin of goods and loss of money.

MR. STONE'S SPEECH.

Editor Morning Times,

Sir,—I notice in yesterday's Times in your report of Mr. Kendry's meeting at Selwyn, you make Mr. Stone ask the farmers if they will replace as Minister of Agriculture a practical farmer by a brewer. Now everyone knows that Mr. Stone thinks that sound and fiery and vulgar abuse of his opponent on the platform takes the place of argument—especially when he is in the country districts; but I think your reporter is mistaken about the brewer. E. B. knows better than that, he knows that there is not a brewer in the House of Commons, so that I think you have misreported Mr. Stone. Yours,

READER.

Mr. Stone no doubt referred to Sir John Carling, who was Minister of Agriculture, and who is president of a London brewing Company—Ed. Times.

OBITUARY

Death of Mr Alexander Mitchell

Yesterday afternoon at one o'clock, Mr. Alexander Mitchell quietly passed away at the residence of his son-in-law, Mr. W. G. M. Turner, Weller street. The deceased was 83 years of age, and is survived by his widow, and four daughters in the person of Mrs. Alex. Crombie and Mrs. W. J. Brown, Toronto; Mrs. Charles Stanley and Mrs. W. G. M. Turner, Peterborough.

The funeral will leave the residence of his son-in-law, Mr. W. J. Brown, No. 203 Roberts street, Toronto, on Monday, 29th inst., for interment in St. James' cemetery in that city.

BOWELL AGAINST HAGGART

Former Prime Minister Opposes one of the Nest of Traitors.

Carleton Place, Oct. 26.—Sir Mackenzie Bowell is going to take the stump in South Lanark against Hon. John Haggart, his former colleague, who, however, during the dark days of the Remedial Bill, was one of the bolters who resigned from the Bowell Cabinet, and who has since been popularly included in the term, "The nest of traitors."

Tuesday, shortly after the announcement that the Liberals of South Lanark would not put up a candidate for the approaching campaign, bills weer issued in Carleton Place, making the following announcement, in large black-faced type.—

"Sir Mackenzie Bowell will open Dr. Preston's campaign in the town hall, Carleton Place, on Thursday, October 25, at 7.30 p.m.

Dr. Preston is a conservative, and the fight in South Lanark is one between two Conservatives, Messrs. Haggart and Preston.

Ottawa, Ont., Oct. 26.—A large number of Ottawa people will go to Carleton Place this afternoon to hear Sir Mackenzie Bowell speak in favor of Dr. Preston, who is opposing Hon. John Haggart."

TEACHERS IN CONVENTION

At the Village of Ashburnham Yesterday

The above convention met in the Public School building, Ashburnham, yesterday morning at nine o'clock. Mr. T. L. Wallace, of Keene, presided.

The minutes of the last convention were read by Secretary M. W. Matchett, and approved.

An invitation was received from Miss A. Williamson, director of Ashburnham Kindergarten, to the teachers to attend the morning session of the Kindergarten.

The following nominating committee was appointed—Miss S. Hamilton, Miss E. Courtney, Miss B. Duff, Mr. T. Stockdale and Mr. S. Smithson.

The president made a brief address, in which he gave many valuable suggestions.

Inspector Brown delivered a practical address on "The Ontario Readers." He pointed out that if the children are taught to read well, they are well equipped for the battle of life. If they cannot read they are badly handicapped, not being in a position to gain knowledge from books.

An adjournment was then made to the Kindergarten, where a pleasant time was spent.

On the convention resuming, Inspector Walker gave a very able paper on "Thoroughness." He showed in a pleasing and thoughtful way many results of careless or hasty teaching. It is better to make haste slowly. Always take time to correct errors; it is a saving of time in the end.

"Pride Goeth Before a Fall."

Some proud people think they have strong constitutions, and ridicule the idea of disease. Such people neglect their health, let the blood run down, and their stomach, kidneys and liver become deranged.

Don't be foolish about your health. Use Hood's Sarsaparilla and you will prevent the fall and save your pride.

Running Sore—"My mother was troubled with rheumatism in her knee for a number of years, and it broke out into a running sore. She took three bottles of Hood's Sarsaparilla and is now well. Hood's Olive Ointment helped to heal the eruption." MRS. JOHN FARR, Cloverlawns, Ancaster, Ont.

Bowel Trouble—"My mother, Mrs. John Ried, suffered with bowel trouble for four years and tried different doctors, but obtained no relief until she began taking Hood's Sarsaparilla. Three bottles of this medicine entirely cured her." LIZZIE REID, Tracy Station, N. B.

Scrofula—"An abscess on my hip was lanced and never healed. Another broke out on the other hip and the next year three more appeared. I took Hood's Sarsaparilla and it helped me. Since taking six bottles of the medicine I have not been troubled, and previous to this treatment one of the eruptions had discharged for seven years." MRS. FRANKLIN H. TEED, Freeport, N. S.

To the Electors
—OF—
EAST PETERBORO.

Gentlemen,—

Unexpectedly placed in the field as the Liberal-Conservative standard-bearer within three weeks of polling day, I find it will be impossible for me to personally meet more than a small proportion of the entire electorate. This being so I have to ask many of you to overlook my seeming neglect, and to accept a written request for your favorable consideration of my claims as a candidate for your suffrages.

As you know I am the son of a Belmont farmer, and have been engaged all my life at the occupation of tilling the soil. There is no nobler or more independent calling; and as farming is the most important Canadian industry there is no good reason why patriotic and public-spirited young farmers should not aspire to represent their fellows in the legislative halls of the nation.

Four years ago many Conservatives and Independent farmers, believing that the Dominion Government had been extravagant in the management of public affairs, and believing that the Liberal leaders meant to keep their word when they so earnestly and persistently promised economy, voted with the Reform party. How grossly and shamefully they had been deceived you all know. Over $20,000,000 have been collected in Customs and Excise duties, during the last four years, more than were collected between 1892 and 1896, and not only has that large sum been expended, but, besides, the net National debt has been increased nearly $8,000,000. When we are suffering from hard times it is sometimes necessary to mortgage a farm or otherwise to incur debt; but the wise farmer will wipe out the indebtness in the years of plenty. Not so with the Laurier government. With overflowing revenues they have not lessened, but have actually increased the mortgage on the nation, until Canada's gross debt is now $345,000,000—$20,000,000 more than in 1896. Is it not time for farmers to rise in their might and insist on retrenchment in public expenditures? As they are the chief consumers the burden of taxation bears most heavily upon them, and in self-defence they should wield the power of the ballot to lessen that burden.

The citizens of Canada were also promised purity of administration but a more corrupt Government has never disgraced our fair Dominion. But you are aware of this as well as I.

Sir Charles Tupper has promised the farmers if he is returned to office, a national cold storage system and a fast Atlantic transportation service, which, by enabling them to place their perishable products in first-class condition in due season on the British market would greatly increase their facilities for acquiring wealth. Sir Charles Tupper and Hon. Hugh John McDonald are men who keep their word and are worthy of trust.

If you do me the honor to elect me, be assured that 'economy in the public service' and 'purity of administration' shall be my watchwords, and that I will not hesitate to fearlessly condemn governmental wrong-doing in whatever form it may arise.

I have the honor to be, gentlemen,
Yours very truly,
JOHN A. SEXSMITH.

A WONDERFUL

KIDNEY and Bladder CURE

The Honorable Chairman of the Board of County Commissioners, Ellsworth, Kansas, tells how ALKAVIS cured him after Doctors and all other Remedies had Failed.

I. A. HOPKINS.

BRIGHT'S DISEASE, GRAVEL, DROPSY,

And Rheumatism Mastered at Last.

One of the most remarkable medical discoveries of the century is the Kava-Kava Shrub, found on the Ganges River, East India, which has a wonderful action on the kidneys and bladder. Since its introduction into this country its fame has quickly spread, because of its seemingly impossible cures. Prominent men and women have testified to its great curative powers, and hospital tests prove its infallibility even in advanced stages of Bright's Disease. Among the more recent recoveries is that of Hon. I. A. Hopkins, Chairman Board of County Commissioners, Ellsworth, Kansas, who says:

GENTLEMEN:—I will say that I believe and know that I owe my life to Alkavis. I had been troubled with Kidney and Bladder Trouble for years. Two years ago I was sick for six weeks with Malarial Fever, which left me in a bad condition. My limbs were swollen with Rheumatism so that I could hardly walk; I was troubled with Indigestion from taking Medicine for my Urinary troubles which had become very much worse. I had to get up every hour of the night to urinate. I passed great quantities of blood on account of hemorrhage of the Kidneys and Bladder. I tried and had been trying everything in the shape of Medicine for Kidney Trouble that I could think of or that the Doctors recommended, but nothing helped me for I kept getting worse. I suffered great pain continually in my Kidneys. I made up my mind unless I could get relief that I only had a short time to live. About this time my attention was called to an advertisement of Alkavis. As a drowning man will grasp at a straw, I was ready to try anything for relief. I sent to you for three bottles. I began to take it, and before I had taken it one week I began to feel the good effects of Alkavis. My Kidney Trouble and Rheumatism were soon gone, my digestion became all right, I found myself in better health than for ten years and I am in good health now. I know that Alkavis saved my life. What more can anyone say for a medicine? Unlike most medicines it is good for indigestion. It gives the person taking it a good appetite. I have recommended Alkavis to a great many people and all have been benefited by its use. I am 58 years of age, and am very grateful for what Alkavis has done for me.

Respectfully yours, I. A. HOPKINS.

Rev. W. B. Moore, D. D., Washington, D. C., Editor Religious World, writes that after trying all known medicines for kidney and rheumatic disease he was permanently cured by Alkavis. Mrs. Wm. H. Hardy, East Rush, Pa., writes that Alkavis cured her after six doctors failed. Rev. J. W. Hickman, Collyer, Trego Co., Kansas, cured of liver, kidney and bladder trouble, of many years' standing, from which he could only get temporary relief and had given up all hope of a cure. Thus the good work goes on. A new book, entitled "A Thousand Living Witnesses," sent with the free case of medicine, tells of the wonderful cures performed in every state.

Not only does this great discovery—Alkavis (the Kava-Kava Compound)—cure all forms of Kidney and bladder diseases, but by expelling from the blood all poisonous deposits, excess of lime, uric acid, urates and lithiates, it banishes gravel, torpid liver, rheumatism, pains in back, difficult and too frequent urination, etc. The cure is complete. No phase is neglected, and the stomach, heart and nerves are toned and invigorated. No other medicine in the world will perform the work of Alkavis. To enable sufferers to get well and spread the glad tidings we have arranged to send a Large Case of Alkavis FREE by mail to all who write us. The case goes entirely FREE.

If you are a sufferer, write to-day and secure at once a Free Case of Alkavis and Book of "A Thousand Living Witnesses." Address The Church Kidney Cure Co., No. 466 Fourth Ave., New York. Please mention this paper.

ATTACK of ROYAL CANADians at Paardeberg

The present is a time when war pictures are in greater demand than ever. The conduct of the British soldiers on the battlefield has won the plaudits of admiring nations. We have at great expense published four large, beautiful pictures, size 20x26, on heavy, superfine calendered paper. A picture that will commend itself and send a thrill to the heart of every true Canadian is the one called Attack of Royal Canadians at Paardeberg, there are literally hundreds of figures on this picture, the mountains or kopjes stretching out into the distance are swarming with men, while here and there a prostrate figure speaks only too well of the Boer rifleman. It was on this battlefield the gallant Major Arnold met death unflinchingly. Indeed, it is only too true that many of those gallant hearts that beat so high when the cheering thousands bade them Godspeed as they sailed from Canada's shores now lie still forever in lonely graves on the other side of the world under African skies. To every Canadian heart, to every Canadian home, the deeds of their brave soldier boys speak with an irresistible thrill of patriotism and pride. Gordon Highlanders at the Battle of Belmont, Charging the Boer Guns at Elandslaagte and the Charge of Gen. French's Cavalry on the retreating Gen. Cronje's Army. These are all stirring pictures and cannot fail to commend themselves to anyone who will examine them. They are READ NOT SELLERS! Agents coin money. Big profits Enormous success. STORY OF PEKIN DURING THE SIEGE

A Returned Missionary Tells of the Horrows During Siege--Killing of Christians.

REPORTED THAT THE CHINESE EMRRESS IS ILL

Miec Rutherford, of Toronto, Returns Home from Pekin—She Tells of the Horrows of the Boxer Uprising.

Tien Tsin, Friday, Oct. 26.—Information has been received from Japanese sources that the Empress Dowager is seriously ill at Tai Chuen Fu, and that the most prominent physicians in the empire have been called to attend her.

PEKIN DURING THE SIEGE.

Toronto, Oct 27.—Miss H. E. Rutherford, one of the missionaries of the Christian and Missionary Alliance, who was in Pekin during the lengthy siege last summer, arriveed in the city from the west early this morning, and is now once more safe at her home on Gerrard street east. Her experience during that period are such as she never wishes to go through again.

"Nearly all our native Christians were killed," she said. "We had thought it advisable to let them go to their own homes, as we were not too sure of our own safety."

"Did all the Boxers seem to be antagonistic to the Christians?"

"No; a great many joined the society merely as a pastime. You see, the Empress Dowager, who was at the back of all the trouble, offered

A SLIGHT REMUNERATION

to all joining the society, so you will see this itself was an inducement. A great many of the Chinamen belonging to the Boxers' society were to be met with on the streets of the city. They wore a red badge, and their clothes somewhat resembled a uniform. They used to practice in the streets with their kives; they had no guns, and we did not anticipate anything very serious.

Miss Rutherford then gave an account of the siege—

"When the trouble broke out we all went to the British Legation. The Chinese troops around the city kept firing all day and all night, and one could never get more than two or three hours' sleep at a time. The Boxers seemed to be firing at random, but these random shots killed nevertheless. There was no possibility of our soldiers going out and having an engagement, for we had only four hundred men."

HORSE AND MUEL DIET.

"What sort of food did you have to eat?"

Miss Rutherford laughed. "Oh, we had horse and mule every day, and it was very good indeed. You see, the Europeans are unable to eat the Chinese food and so they get in their own provisions. But when the siege started there were only two weeks' supplies on hand. There were two 'foreign stores' in the city which kept a stock of canned goods and other European edibles; but as the Legations usually imported their own supplies these stores had only very small stocks. After our white rice and canned goods had given out, we were compelled to live on brown unculled rice and horse flesh. After Tien Tsin had fallen, the Empress Dowager seemed to lose confidence, for she sent us in 400 watermelons and 1,000 pounds of flour as a peace offering. However, the firing went on just the same. We were afraid to touch the watermelons at first, but after having them carefully examined we ate them all. But we never touched the flour. Probably had we been reduced to the extremes, we might have done so."

LIVING IN SUSPENSE.

"I suppose you were in a great suspense all the time?"

"Yes, we were. We had heard that Admiral Seymour was coming to our relief, and we looked for him every day. When he did not come, we feared that he had been forced to turn back. However, after the first month had passed, we did not mind the firing so much. We thought that if we were killed by the bullets that were being fired into the Legation, the suspense would be all over, and that would be the end of it.

"We knew that the outside owrld would be in a terrible state of uncertainty, and this gave us morre concern than anything else. We sent messages by servants, but the emissaries never returned until a few days before the relief.

RELIEF AT LAST.

"Did you witness much bloodshed?"

"I often saw dead Boxers lying in the street; that was enough.

"When the relief came, the Legation, of course, was overjoyed," said Miss Rutherford, "and everybody was thankful."

As a relic of the siege Miss Rutherford brings back a cannonball about three inches in diameter.

"Are you going back to China?"

"Well, I don't know. You see the north of China is in a very unsettled state, and we have to wait and see what the powers are going to do."

PLOT TO KILL LOUBET

Anarchist Arrested at Lyons For Conspiracy.

STOLE TO SECURE FUNDS

To Aid Him to Assassinate the President of the French Republic.

Lyons, Oct. 27.—The Nouv Elliste de Lyon says a plot to assassinate President Loubet has been discovered. It appears that a working electrician, named Couturier, entered the electric company's premises at Nimes and stole 2,500 frances. He was tracked to Orange, near Lyons, where he was arrested. Documents found on his person revealed, the paper says, an anarchist conspiracy to assassinate President Loubet on his coming visit to Lyons to unveil a monument erected to the memory of President Carnot. Couturier is said to have committed the burglary in order to obtain funds, to carry out his project. He has, it is added, confessed to the police, who are now tracking his accomplices and watching anarchists in order to prevent any attempt to carry out the scheme.

ONLY ONE MINE YET TO GIVE IN

Additionel Companies Advance the Wages of their Men.

Shamokin, Pa., Oct. 27.—A committee representing 4,000 employes of the Union Coal Company waited on Superintendent William Rianhardt this morning, and was assured that the ten per cent. increase will be granted and all grievances arbitrated. Work will be resumed next Monday.

Shenandoah, Pa., Oct. 27.—Superintendent Thomas Baird, of the Thomas Coal Company, posted notices this morning to the effect that his company had agreed to make the same concession to the mine workers as the Philadelphia and Reading Coal and Iron Company.

The Susquehanna Coal Company's colliery at William Penn is the only one in this vicinity where the notices have not been posted. The men employed there held a meeting last night at which it was decided to remain on strike until the notices were posted or some other assurance given that they would receive the advance in wages.

Big California Orange Crop.

San Francisco, Oct. 27.—The Orange crop of the state of California will, it is estimated, amount to not less than 23,000, and possibly 25,000 cars. Orange county has nearly 1,000 acres of newly bearing trees this year, and other sections of the state show a much larger acreage. The crop is in fine conditon.

Expected General Surrender of Boers.

London, Oct. 27.—A Lydenburg dispatch, in the Transvaal, says that the Boers, disheartened and discouraged by the departue of President Kruger and the death of most of their generals, intend to make a general surrender to-day. This step is said to have been decided upon after a long and stormy conference of leaders at Lydenburg.

Mountain of Solid Ore.

Los Angeles, Cal., Oct. 29.—The Rosamond mining district, near Mojave, in the Mojave district, is affording large profit. The prospects pay from the surface down, one man in four months taking out $58,000 net profit, beginning without any capital. He is now able to employ a dozen miners and put in a small stamp mill. A colored man has refused $100,000 for his claim, his assays have run $23,000 per ton.

Bryan in Brooklyn.

Brooklyn, Oct. 29.—The Blooklyn Democratic campaign committee has made elaborate preparations for a big mass meeting here to-night. Mr. Bryan will be the principal speaker, he having cancelled several of his western dates to come here. There will be a series of minor meetings at which Mr. Bryan will also speak, making the plan something like the Tammany reception. The Democrats here are working hard, but it is thought that Brooklyn will go strongly Republican. Mr. Bryan's visit is an attempt to sway the vote.

A NEW TITLE FOR THE QUEEN.

Premier of New South Wales Suggests that Her Majesty Assume the Title of Empress of the British Empire

(Special to The Times.)

Sydney, N. S. W., Oct. 29.—Mr. William John Hyne, Premier and Treasurer of New South Wales, during a speech at the opening of a German fete here to-day said—"The temper of the Australian people was never so affectionate toward the Mother Country as it is now. The war in South Africa has produced a patriotic feeling which should last eternally. It has been suggested locally that Her Majesty should assume the title of Queen of Australia. To me it seems a good proposal. Indeed I think Her Majesty might well be approached with a view to her assumption of the title of Empress of the British Empire, thus embracing all the colonies and dependencies."

STRIKE IS EXTENDING

Attempt to Stop Operation of Steam Shovel Defeated.

WANT SOLDIERS TO LEAVE

Mills Opened With Only a Few Hands Rest Refuse to Work Until Soldiers Go.

Valleyfield, Que., Oct. 27.—Nothing startling has transpired this morning in connection with the great strike at the mills of the Montreal Cotton Co. An attempt was made at an early hour to stop the operation of a steam shovel, but the strikers were quickly put to flight by the cavalry, which charged the mob. The milles were opened this morning with about 100 or 200 hands. The bulk of the affected hands went to the gates, but upon seeing the militia still on duty turned back, refusing to go to work while the soldiers remained.

REFUSED TO GO TO WORK.

Valleyfield, Que., Oct. 27.—The union of the mill operatives has decided that they will not return to work until the troops have been withdrawn. An official note to this effect is understood will shortly issue.

Bishop Emard is preparing a letter to be read in the churches at high mass tomorrow requesting the mill hands to return to their work and submit what grievances exist to a board of arbitration. The troops are having a game of football this morning, which is being witnessed by a large number of spectators.

THE STRIKE IS EXTENDING.

Valleyfield, Oct. 27.—The strikers at the cotton mills now number 2,500. All the operatives in the old mill have gone out in sympathy with the construction employes, who were at work on the new mill.

A peculiar feature of yesterday's situation was the request of five of the councillors for the militia to withdraw, maintaining that peace and order had been restored. Colonel Roy answered that such was not the case, as witness the unwarranted attack on the Royal Scots Thursday evening. He refused to remove the troops till life and property were safe.

THE MAYOR'S DISAPPEARANCE.

Mayor Langevin's disapperance from Valleyfield was explained yesterday by his visit to the company's office in Montreal. He was a badly scared man, saying that the strikers had threatened to lynch him. He said that he had never been asked to read the riot act, which was probably true, as he could not be found, but he added that if he were asked now to read it he would. He returned to the town in the evening in company with the additional troops sent down.

DIED OF FRIGHT.

Mrs. Dion, the wife of one of the town councillors, died from an attack of heart disease, following the excitement of Thursday evening. Mrs. Dion was sitting on the verandah of her home at the time that the militia fired in the air to intimidate the mob. The shock caused by the report had so effected Mrs. Dion that she died a short time afterward.

COMPANY'S STATEMENT.

In connection with the trouble the Montreal Cotton Company made a statement yesterday to the effect that ever since last March some employes in the construction department have been asking for an increase of 25 per cent., though a general increase had been made at that time. The result was the strike early this week, which threatened to close down part of the mills for the winter unless the strikers were prevented from further preventing supplies and raw material from coming in. An effort on Wednesday to bring coal to the furnaces having failed, they decided on Thursday to call on the militia for protection to enable them to carry on their business. The necessary requisition of the Mayor was signed "as by law required by the necessary parties, and on Thursday afternoon two companies of the Royal Scots from Montreal arrived in town. They lined up on the street and protected the coal carts of the company so that they could haul coal to the boilers. They later put on guards at our weakest gates to protect the property of the company. The militia, under Col. Ibbotson, rendered the company protection at great hazards to their lives."

The statement concludes as follows. "To-day a large portion of the inside help has gone out on strike, though no demands for any change in the conditions of their employment have been made by them to the company. The state of affairs now is that a large portion of the inside help and all the construction help of the company are on strike. The militia are protecting the property of the company and the lives of the employes who desire to work."

SIMS REEVES DIED WHILE WIFE SANG

An Ignorant Audience Demanded Encores of "Kath'een Mavourneen"

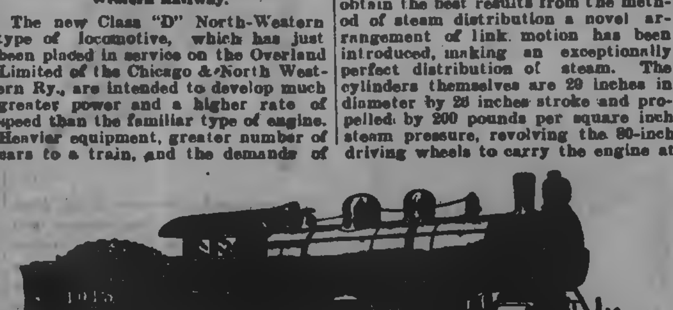
London, Oct. 27.—The death of Sims Reeves on Thursday last at Worthing removes an idol of the British public who for 30 years eclipsed any prima donna of those days. Lengthy obituaries and reminiscences of the famous tenor appear on all sides. But a pathetic feature connected with his death has quite escaped attention. Reeves caught a chill a few days ago, and it developed into bronchitis. But his condition was so improved Thursday morning that he was not belived to be in danger. Mrs. Reeves, many years younger than her husband, to whom she was married in 1895, after the death of his first wife, left her husband in their modest home in Worthing to sing in London for the benefit of the survivors of Balaklava. Just as Mrs. Reeves commenced singing "Kathleen Mavourneen," a telegram was received at the theatre announcing the death of Sims Reeves. When the song was finished and the applause was at its height the news of her husband's death was broken to Mrs. Reeves, but the audience, ignorant of this behind the scenes tragedy, kept on demanding encore. The widow was removed from the theatre on the verge of collapse.

A NEW LOCOMOTIVE.

Now in Use on the Chicago and North Western Railway.

The new Class "D" North-Western type of locomotive, which has just been placed in service on the Overland Limited of the Chicago & North Western Ry., are intended to develop much greater power and a higher rate of speed than the familiar type of engine. Heavier equipment, greater number of cars to a train, and the demands of business and sharp competition call for a class of engine that will combine all essential features and yet not exceed the limit of weight which is considered to be good practice on American railways and which it is believed these new engines possess.

The North-Western type has what is known as a trailing wheel which supports an outside bearing, thus helping largely to steady the engine in running at high speed around curves, and an experienced railroader will notice many other striking innovations, particularly in the boiler and cylinders, which are perhaps the first thing that will strike the eye, as the old-time steamchests have been entirely abandoned and cylindrical or piston type of valves substituted in the saddle portion of the cylinder. The valves take their steam at the center, and in order to obtain the best results from the method of steam distribution a novel arrangement of link motion has been introduced, making an exceptionally perfect distribution of steam. The cylinders themselves are 20 inches in diameter by 26 inches stroke and propelled by 200 pounds per square inch steam pressure, revolving the 80-inch driving wheels to carry the engine at a high rate of speed with a relatively low number of revolutions.



THE NEW LOCOMOTIVE.

The engine weighs in working order 160,000 pounds, 90,000 pounds of which are on the four driving wheels, the remainder being divided between the truck and trailing wheels. The tender carries 5,200 gallons of water and 12 tons of coal, which would be ample for a run of 200 miles with a train of 10 cars, and it is expected a speed of 73 miles an hour on a level stretch can be maintained, or with an 8-car train a speed of 80 or 90 miles an hour is considered entirely practicable. With the wonderful possibilities of speed and economy in operation the performance of this new type of locomotive will be watched with great interest.

AT WESTWOOD.

Tory Meeting in Asphodel Very Largely Attended.

Notwithstanding the inclemency of the weather, over 70 electors turned out at Westwood on Friday night to welcome the Conservative candidate, Mr. Sexsmith. Squire Breckenbridge, J.P., occupied the chair, and first called upon Mr. Andrews, Reeve of Asphodel, who in a few well chosen words, introduced his friend, the Reeve of Belmont, Mr. Sexsmith, the Conservative candidate, who was received with applause. The geniality and kindly manner of this gentleman, combined with his plain, practical way of putting things, had a visible effect upon the audience, who gave him close attention. He said that he had nothing against Mr. Lang personally, but as their representative, he felt that Mr. Lang should have made some effort to carry out his promises. On the contrary, however, he neither by word or deed made the slightest effort to save the farmer from the imposition of the iniquitous rise in coal oil, from the various railway deals, or to carry out his avowed intention in regard to the superannuation and pension list. It was plain that his wish was to get into power, after which he evidently considered that his responsibility ceased.

Mr. J. H. Burnham spoke for an hour and a half upon the violated pledges of Mr. Lang and the Liberal party generally. So far from lessening what Mr. Lang was pleased to condemn as the farmers' burden, he voted to increase it—the duty on ready-made clothing and all other wearing apparel, made of wool or worsted, having been increased under the Liberals from 30 to 35 per cent. The agricultural implement manufacturer, moreover, so far from being stripped of his protective duty, had had it increased by that which had been taken off iron and steel raw materials, without one particle of compensation having been made to the farmer or to the maker of the raw materials. A more iniquitous conspiracy against the well-being of the farmer from a business point of view could hardly be conceived, and whilst the Examiner writhed under the charge, they made no attempt to confute it. Mr. Burnham continued and remarked that one memorable occasion Mr. Lang had closed his speech with a charge against the Conservatives, that necessaries had been taxed, but the diamonds of the rich had been allowed to come in free. "Well, gentlemen," said Mr. Burnham, "diamonds are still free, and for aught I know Mr. Lang may be wearing some. But at any rate he makes no further protest." However, in this regard he is no worse than Sir Richard Cartwright, who thundered against the creation of the portfolio of Trade and Commerce, and yet now holds that portfolio himself. Time works wonderful changes, but there is nothing more startling than the manner in which Mr. Lang became divorced from his good intentions so soon as he got to Ottawa.

The meeting closed with cheers for the Conservative candidate and the Queen.

THE BOER RAIDERS ARE STILL VERY ACTIVE

Depredations and Fighting Reported in Many Parts of the Orange Colony.

JACOBSDAL WAS NOT CAPTURED AS REPORTED

Highlanders at Jacobsdal Killed in Their Tents—Much Praise of Gen. Buller is Being Heard in England.

London, Oct. 27.—Although not definitely refuted by official despatches it seems likely that the statement wired from Cape Town yesterday as to the garrison of Jacobsdal, having been overwhelmed by the Boers was incorrect.' Later despatches say that the garrison made a successful resistance, though at great loss, and that this important strategic point is still safe, thanks to the gallantry of a force from one of the colonies, who thus win another laurel. But the British have not been so fortunate in other parts of the field, for the enemy is reported to have captured 42 cavalrymen at Philippolis, in the extreme southern part of the Orange River Colony, and to have afterwards blown up the railway leading across the Orange river from Cape Colony, thus cutting off railway communication between Cape Town and Bloemfontein by the Norval's Pont route. President Steyn has also again taken the field, and has set up his capital at Fouriesberg, in the district where De Wet operated so successfully prior to his famous dash to the north, and it is even reported, though not confirmed, that Ficksburg, considerably to the south and on the Basuto border, has been recaptured from the British. The war has also been revived in Natal, where Waschbank station, a name which figured during the operations around Ladysmith, has been distroyed, and the railway leading from Ladysmith to the north interrupted. In the Transvaal the same line at Greylingstad has been the scene of a derailment, and the capture of a detachment of Highlanders, and is probably cut. The main feature of these affairs is that the Orange River Colony is continuing the war more presistently than the Transvaal, for it is evident that the Boers who were concerned in the last mentioned operations crossed the border into Natal and the Transvaal from the domain of President Steyn. On the whole, Steyn has shown up in a much better light than Kruger, for while the latter has left his followers in the lurch the former still tempts the fortunes of war and leads a forlorn hope. It is unfortunate that at a time when Britain is greeting returning heroes the war should break out with renewed activity in unexpected places.

HOMECOMING OF HEROES.

London, Oct. 27.—The preparations here to welcome on their return to England from South Africa the few hundred men who constitute the City Imperial Volunteers, have entirely monopolized England's attention this week, banishing from notice matters of international import.

The Imperial Volunteers did remarkably good work in South Africa, earning the praise of Lord Roberts for a phenomenal piece of marching, and thousands of people are pouring into London in order to witness their home-coming, and windows along the line of march have been sold at pieces almost equal to those demanded at the time of the Jubilee procession. In addition decorations and illuminations costing many thousands of pounds have been prepared, and business and even traffic will be suspended practically the whole day when they arrive, and the night will doubtless witness a repetition of the Mafeking carnival.

BULLER'S HOMECOMING.

The next big celebration will probably occur on November 10, when Gen. Buller is due at Southampton. He will receive the freedom of several cities, and will doubtless have a triumphant progress, though the reception which will be accorded to Lord Roberts will of course eclipse the celebration presentative of the Associated Press learns another distinguished man. Cecil Rhoders, will return from South Africa. In pursuance of his determination to adopt a self obliterating policy until the war is entirely over it is likely that Mr. Rhodes' homecoming be quieter than that of the most insignificant private of the City Imperial Volunteers.

GOVERNOR OF ORANGE RIVED.

It is asserted that Major Goold-Adams, the British Commissioner in Bechuanaland, will be made Governor England. Lord Roberts is expected in December, and the same month a rewhich will attend Buller's return to of the Orange River Colony. General Buller is slated to resume command of Aldershot. General Kitchener, it is said, will temporarily succeed Lord Roberts in command of the troops in South Africa, but will, it is further asserted, be eventually replaced by Major-General Lyttleton, and Kitchener will then be likely to come home and assume the duties of Adjutant-General.

WHO WILL SUCCEED ROBERTS?

London, Oct. 27.—The military succession is South Africa is still uncertain, and the War Office authorities are non-committal respecting the relations of Lord Roberts and General Buller. The reports circulated by Buller's friends that he was offered the chief command after Lord Roberts had declined it have not been confirmed. General Buller's popularity among the soldiers who fought under him cannot be questioned. An officer who has only just arrived in London from Natal tells me that every man who served under General Buller had absolute faith in him as a general, and would have gone anywhere with him. Not one word of criticism was ever heard in the Natal field force against General Buller, whose coolness and courage were considered phenomenal. His only rival in the possession of these qualities were Colonel Thorneycroft, a giant in stature, who was one of the heroic figures of the campaign, notwithstanding Lord Roberts' censure in the Spion Kop affair. Colonel Thorneycroft on one occasion had a cigar shot out of his mouth while he was smoking it, and the next minute had lighted another without changing color. This informant states that Lord Roberts' leniency is generally condemned in South Africa, where there is a deep conviction that there will be continued trouble until lawlessness is punished with rigorous severity.

JACOBSDAL NOT CAPTURED.

London, Oct. 27.—It now appears that Jacobsdal was not captured by the Boers. Advices received from Cape Town shortly after midnight say. 'Later news from Jacobsdal shows that 200 Boers unsuccessfully attacked the garrison. The Highlanders had 14 killed and 20 wounded."

It is regarded as a curious coincidence that the reported recapture of Jacobsdal by the Boers and the subsequent denial of the report should be received concurrently with the expected arrival home from South Africa, of the City Imperial Volunteers, as Jacobsdal was the scene of the latter's first fight. The town was captured by the Volunteers on February 19th, going there from the Modder river camp. The British loss was 14 killed and 13 wounded. The affair has caused a sensation in Cape Town, where the men belonged.

ATTACKED WHILE ASLEEP.

Cape Town, Oct. 27.—Two hundred and fifty Boers attacked Jacobsdal at midnight. The attack was a complete surprise to the British, the garrison being asleep in their tents, where several of them were killed. The garrison consisted of the company of Cape Town Highlanders, 53 of whom had only been at Jacobsdal for a week, they

There will be general satisfaction in Ontario at the announcement that Mr. Tarte is to tour the Province, and it is probably good politics on the Liberals' part to bring him up here. Mr. Tarte has been so systematically roasted by the Conservative papers that many will doubtless attend his meetings just to see whether he really has hoofs and horns, or not. And when they discover that Mr. Tarte looks like other ordinary white men the disillusionment is not likely to do the Liberal party any harm.

PETERBOROUGH, OCTOBER 29 1900.

ROCKEFELLER'S DIVIDENDS.

According to figures published in Republican newspapers, John D. Rockefeller, the Standard Oil trust magnate, will put aside not less than $60,000,000 as his share of the dividends for this year of the various corporations and trusts in which he is interested.

No one with a grain of intelligence and the smallest remnant of a conscience will undertake even to pretend that an industrial system that permits Rockefeller to draw sixty millions a year in dividends and absorb to himself the lion's share of the profits of the great petroleum industry and reach out into a dozen other industries in a scarcely less degree is a just one or that it can be permitted to continue without reducing the great mass of the American people to a state of industrial slavery.

Rockefeller, while the originator of the trust plan of grabbing everything for himself and leaving nothing for anybody else except moderate wages to a few thousands of daily toilers, is not the only trust magnate who is drawing more in annual dividends than the largest fortunes that could be accumulated in a lifetime a generation or two ago. All the great industries of the United States have been Standardized, and the Carnegies. Worse than all they have joined hands to Standardize the American government and make it a great political trust which shall protect all the other trusts in their schemes to plunder the public.

Rockefeller's money and the money of his fellow-trust magnates is being poured out like water to elect scoundrels to the United States Senate, the House of representatives and State Legislatures to corrupt voters and stifle political manhood. Worse than the hypocrites of old who devoured widows' houses, and for a pretense made long prayers, the modern trust Pharisees destroy whole communities by their combinations, ruin all competitors of moderate means and bestowing a few of their many millions upon colleges that will teach the trust method of political economy, and churches that will tithe mint cumin and anise and overlook justice and fair play between man and man, in the hope of being able to cheat high heaven, they band themselves together in schemes of political debauchery the most stupendous ever witnessed in any country.

Here's the way the London Advertiser puts it—It turns out that H. H. Cook's so-called manifesto was written by one of the opposition campaign organizers, who arranged for its publication simultaneously the day after the dissolution. It is really a rehash of opposition campaign literature, which Mr. Cook, in his chagrin at not being able to get what he wanted, had been bad-tempered enough to sign. It is also asserted that the opposition managers are promising Mr. Cook a senatorship for his aid. But it will be many a year and a day before they will be able to deliver the goods.

EVERYTHING IS FIXED.

By the Hierarchy in Quebec, Says Rev E. J. Stobo.

The Toronto Telegram has been interviewing Rev. E. J. Stobo, formerly of Peterborough, district secretary of the Quebec Bible Society. Mr. Stobo was attending the Baptist convention at Woodstock, and was on his way back to the lower province.

"Well, how is Quebec going to go this election?" asked The Telegram man.

"Oh, I don't know anything about that; it has all been 'fixed.'"

"Fixed?"

"Yes, the hierarchy attends to that."

"Oh, that's the way it's managed?"

"Yes, it just depends on which party promises to do the most for the hierarchy. If the Liberal party promises to do as the hierarchy wants it to, it will get the votes, the same being the case with the Conservatives."

"I suppose the Baptist church has nothing to do with it?"

"Oh, no, the hierarchy does it all."

"Caliber 54"—Story of a Little Hero

When General W. T. Sherman was alive, he was often greeted with the shout, "Caliber 54." Old soldiers would shout it sometimes without understanding its significance, says the Pittsburg News. Its origin is well deserving of a place in history, especially as it proves that even the little drummer boys who were in the field in the Civil war, like the late T. C. E. Ecclesine, often did as efficient service as the older boys.

"Caliber 54" had its origin at the battle of Shiloh. General Sherman was riding along over the field hurrying to get to his troops when he heard a delicate voice calling: "General Sherman! General Sherman!" The old war hero stopped, and the boy piped out:

"The —— Illinois regiment is over there on the hill holding the rebels back as much as they can and they're all out of ammunition and they want some." And then, with as much volume of voice as he could muster, he added. "Caliber 54." That was the most important part of the message, for the wagon trains might have gone with loads of ammunition and if it hadn't been caliber 54 it would not have been of the least use.

General Sherman got down from his horse to pat the urchin's head, and to call him a "noble little fellow," when he saw three or four tears on the boy's cheek and he said: "There, don't cry, my little fellow; get right along back, for we're going to whip them."

"I know that," said the boy, "but when I was coming here to give you the colonel's message, a rebel's bullet struck me here," pointing to the calf of his leg. "I was crawling along the ground the best I could, and I knew I could catch you."

Then the general assisted the lad to the hospital, and a few days later he went home to his mother in Vermont. But "Caliber 54" lives in history.

Grandpa

Everybody's proud of this sort of Grandpa, and he's proud of himself; proud of his clear brain and active body. There are other kinds of grandparents that we can't be proud of. Weak of body and feeble of mind, we can only pity them. They no more live; they only exist. What makes the difference between these two classes of old men? A sound stomach and a plentiful supply of pure, rich blood. Dr. Pierce's Golden Medical Discovery strengthens the stomach, purifies the blood, and increases the activity of the blood-making glands. It won't make old men young, but it will enable old men to assimilate the food they eat, and so strengthen them for a life of reasonable exertion.

"I suffered for six years with constipation and indigestion, during which time I employed several physicians, but they could not reach my case," writes Mr. G. Popplewell, of Eureka Springs, Carroll Co., Ark. "I felt that there was no help for me; could not retain food on my stomach; had vertigo and would fall helpless to the floor. Two years ago I commenced taking Dr. Pierce's Golden Medical Discovery and little 'Pellets,' and improved from the start. After taking twelve bottles of the 'Discovery' I was able to do light work, and have been improving ever since. I am now in good health for one of my age—60 years. I owe it all to Dr. Pierce's medicines."

Old people often need a laxative medicine. The best for them is Dr. Pierce's Pleasant Pellets.

Address to the Electors

To the Free and Independent Electors of West Peterborough—

Gentlemen. —Having accepted the unanimous nomination of the Liberals of this Riding, as a candidate for its representation in the House of Commons I hereby respectfully solicit your support in securing my return at the coming general elections.

The grounds upon which I base my appeal are not so much nor chiefly by any means, my personal fitness for the position of your representation though as a citizen of Peterborough and interested in its progress in common with that of the country, I can and do promise, if elected, an intelligent support of such a public policy and such measures as will best conduce to the promotion of all the interests of Canada, the developement of her great resources and the general betterment of the civil moral and material condition of the public; and my best abilities and most assiduous attention shall be devoted to the faithful discharge of my representative duties.

The strongest ground, however, of my appeal consists in the fact that I am a firm supporter of the Liberal Government led by Sir Wilfred Laurier, which is entitled to the renewed confidence of the people, both on the ground of its policy and the splendid record established by the application of that policy. The Liberal party appealed to the country in 1896 upon a clearly defined policy and the promised results followed.

The Liberal party promised a reduction of a high tariff that hampered our industrial and agricultural interests and was hostile to the Mother Country.

The tariff was materially reduced and otherwise improved and in such a way as to help instead of hinder the manufacturer and farmer, with the consequence that never before in the history of the country have our industries or our farmers enjoyed such great prosperity, our mechanics and working men such constant employment and high wages, nor our commercial and all other interests so flourished.

Our domestic and foreign trade have also greatly increased. The loyal gift of a trade preference, represented by a tariff reduction on British goods of 33 1-3 per cent., and our despatch of the Canadian Contingent, have resulted in a kindlier feeling towards Canada and greatly increased trade with the Mother Country.

With a largely reduced rate of tariff, our revenue has greatly expanded so that the Government was warranted in practicing true economy (reducing our postal rate one third, giving Imperial penny postage,) and premitting of the completion of great public works, deepening our canals, so long trifled with, pushing the work on the Trent Valley Canal which is now urged and will be urged to completion by the Liberal Government, and the application of a vigorous policy of general development and improvement of our transportation facilities, resulting and to result in easier access to the British market and better prices for all our products.

The farming interests of the country are deserving of the best services of a Government, such as the present has given. The immense impetus given the produce trade between Canada and Great Britain, through the preferential tariff, has been greatly helped by the action of the Government in providing an excellent and adequate system of cold storage, by which Canadian products can be landed in Great Britain in first-class condition, guaranteeing the highest prices. The system is of the most modern character, sufficient for all the present needs of the trade, and it will be improved and enlarged as experience suggests, and increase of the produce trade demands, and I shall, if elected, feel it my duty to support any policy that will improve our trade with the Mother Country, and strengthens the bond of British connection, of which we are so proud.

In an industrial centre like Peterborough the claims of the working classes are especially deserving of consideration. No country is well governed that does not look after the interests of all classes of the community. The Conservative Government has been, and the Conservative party declares itself to be, extremely solicitous of the interests of the capitalist classes—the manufacturers—but it left the working classes to largely shift for themselves. A Liberal Government came into power, and the attitude towards Labour was changed and the rights of Labour to its rights recognized, and in a practical way. A Department of Labour has been established and a Minister of Labour placed over it. A Labour Gazette has been established in the interests of workingmen, published monthly; conditions have been inserted in all Government contracts compelling contractors to pay the highest current wages, which the Government guarantees the payment of; the sweating system has been abolished on Government enforced by a special officer, and in many other ways the Government has shown by deeds that the rights of the workingmen, as well as the capitalist, shall be protected. I heartily support the Government in what it has done, and shall support them in extending the benefits which they have already conferred, and which it is their policy to continue, as need arises.

The splendid achievements of Canadian soldiers in South Africa, make them worthy of the gratitude of the country. We have the best militia material in the world, and if we keep up a military establishment, let it be worthy of Canadians. Situated as Peterborough is, on the line of the Grand Trunk and Canadian Pacific Railways, and on the line of the Trent Valley Canal, begun as a military work, and now under course of completion, no other point in this Province is so well adapted for a military centre. I shall, therefore, feel it my duty to press upon the Government the advisability of constructing in Peterborough new armories and connected buildings for military stores for Ontario, and I feel that this is practicable of attainment at the hands of a Government which has shown its interest in our volunteers by placing the Militia Department, so greatly neglected by a previous administration, upon an effective basis, and will, therefore, more naturally be well disposed towards the improvement involved in making Peterborough a centre for military stores.

A town of the industrial and commercial importance of Peterborough, has certainly strong claims upon the good offices and of a Government. For the past four years the town has been represented, when it was represented in the House, by a member opposed to the Government. There is no doubt in the minds of unprejudiced observers, that the present Liberal Government will be strongly sustained in the country at the coming elections, and the question arises whether West Peterborough will have its interests better served by a member sitting in opposition and hostile to the Government and its policy, or by a member pledged to give the Government a fair support in the application of its policy. If elected I pledge myself to give my best ability and exertions to the promotion of the general good of the country, and to look especially after the interests of West Peterborough.

I cannot obviously here, enter into details of how in other ways the Liberal Government has implemented its promises and applied its policy, but I shall have an opportunity during the campaign of more fully dealing with these and other public questions.

As a supporter of such a Government I can appeal with confidence for the support of the Electors of West Peterborough, knowing that by helping to give, as you will do, through my election, a renewal of the trust the Liberal Government has discharged with such evident and gratifying results, they will be conferring a great and lasting good upon this riding, the country at large, and securing a continuation of the great blessings of prosperity and good government we now enjoy.

Again soliciting your support, your votes, and influence in this contest,

I have the honor to be,
gentlemen,
Your obedient servant,
J. H. McCLELLAN

WE CURE STRICTURE

Thousands of young and middle-aged men are troubled with this disease—many unconsciously. They may have a smarting sensation, small, twisting stream, sharp cutting pains at times, slight discharge, difficulty in commencing, weak organs, emissions, and all the symptoms of nervous debility—they have STRICTURE. Don't let doctors experiment on you by cutting, stretching, or tearing you. This will not cure you, as it will return. Our NEW METHOD TREATMENT absorbs the stricture tissue; hence removes the stricture permanently. It can never return. No pain, no suffering, no detention from business by our method. The sexual organs are strengthened. The nerves are invigorated, and the bliss of manhood returns.

WE CURE GLEET

Thousands of young and middle-aged men are having their sexual vigor and vitality continually sapped by this disease. They are frequently unconscious of the cause of these symptoms. General Weakness, Unnatural Discharges, Failing Manhood, Nervousness, Poor Memory, Irritability, at times Smarting Sensation, Sunken Eyes, with dark circles, Weak Back, General Depression, Lack of Ambition, Varicocele, Shrunken Parts, etc. GLEET and STRICTURE may be the cause. Don't consult family doctors, as they have no experience in these special diseases—don't allow Quacks to experiment on you. Consult Specialists, who have made a life study of Diseases of Men and Women. Our NEW METHOD TREATMENT will positively cure you. [illegible]

Love Won - and - Lost.

A NOVEL.

(Continued.)

How had that sacred trust to the dying been fulfilled? Alderic had doomed her to the coldest, most pitiless neglect.

The poor young wife, scarcely more than a child, flung herself wildly on her knees, imploring Heaven to tell her why he had married her, if he meant to desert her. He had married her of his own free will.

"Ah, Alderic! Alderic!" she wailed, "my sorrow is greater than I can bear."

Those last words sounded mockingly which Heath Hampton had tauntingly uttered:

"I will wait until to-morrow morning for your answer; if you consent we will leave Hampton Court together at once; if you refuse, the consequences shall mock your folly."

Izetta little realized the resources of which a desperate man was capable.

Ruin and disgrace stared the poor innocent, hapless young wife in the face.

On the morrow she would be spurned from their door with scathing contempt.

"What have I done," she wailed, "that fate should weave such a terrible web about me?"

She was so guiltless of the dark ways of the world; her heart was as pure as the snow-drifts out there.

Like a gleam of hope across her benighted soul, rose the calm, peaceful faces of blind Marguirette and the good old flute-maker.

"If I could only get back to Silvernook," she thought, "she would not turn me from her door—other refuge have I none."

Then a terrible fear seized her: what fierce alternative, what terrible revenge would Heath Hampton take on that to-morrow, of which she hardly dared trust herself to think.

Once again she went to the window, peering out into the dark, wild night.

"If I only dared," she murmured.

The more she thought of that morrow that in a few short hours would dawn upon her, despair sank deeper in her heart.

If she fled from Hampton's home there and then, would not the son pursue her? It was her last chance; she made a desperate effort to calm herself and quickly donning cloak and hood, she sped noiselessly down the long, dark corridors, out into the storm and the night; swift as a shadow she threaded her way through the snow-drifts and beneath the friendly leafless trees, until she reached a pool, lying dark and silent in its snowy bed, the white drifts shrouding its dark outlines, where solemn owls uttered their piercing cries, and flocks of ravens fluttered. The snowflakes fell tremulously upon its dark waters, and were silently gathered into its cold, glassy bosom.

Isetta felt no fear as she knelt down on the brink.

"One plunge, and all the bitterness of life will be over for me," she muttered.

The snow-flakes fell unheeded on her long, dark hair, that blew across and about her face with the piercing storm.

"I am so young to die," she sobbed "but I cannot bear my sorrow alone Alderic, Alderic," she wailed, "you will never know how your name was on my lips, as the dark waters closed over my head; the silent pool can never tell its story or whisper to you how dearly I loved you."

The moaning winds took up the wild cry, echoing softly:

"I loved you!"

Izetta gathered her cloak closer about her; she closed her eyes, her lips parted in a sweet, sad smile.

"I'm coming, grandfather," she murmured; "coming, coming, sweet mother."

As the words fell from her lips she started back with a low cry.

Was it the voice of the young mother who had hushed her to rest on her breast, or the night winds, whispering sternly:

"What wouldst thou do? Darest thou take into thine own hands the life thy God hath lent thee?"

"Forgive me, angel mother," humbly whispered the young girl, shuddering. "Heaven forgive me; I had not thought of that; the dark waters seemed to hold out their arms for me; the world was so cold and cruel I thought I could find rest there!"

She knelt down, burying her face in the cold snow.

"Forgive me, mother," she sobbed "I have been so sorely tried!"

She raised her dark eyes to the inky heavens above her, praying her angel mother to guide her faltering footsteps.

Slowly she raised herself from the knees and turned her back to the dark pool that had so nearly engulfed her, pressing steadily onward in the face of the storm, never pausing to look back at the great, dark building she was leaving behind her.

One thought buoyed up her hopes and waning courage; each step brought her nearer the humble flute-maker's abode.

She remembered Hampton Place lay directly midway between Silvernook and a city they had called Boston.

She remembered Silvernook must lie toward the north. There were no stars to guide her; still she told herself she knew the way; she could not miss the road, it could be but a few miles distant.

Izetta watched the first gray streaks of dawn pierce the dull, leaden sky, with a grateful heart. All the night long she had pushed steadily onward. It was dark and lonely; she thanked God for the friendly morning light; she could not be far from there, she told herself.

Then she stood still and looked about her. Merciful Heaven! where was she. She never remembered having been in that locality before. She had been so sure she was in the right path, whereas, she found herself in a trackless, boundless sea of snow.

She was the only living being amidst all that vast expanse of frozen whiteness, whose outline was broken, here and there, only by some hardy, bare branched shrub or tree that rose up darkly from its white, shrouded bed; the cold, white, dreary expanse of snow stretched out on all sides as far as her eye could reach; no path was discernible through the uneven driftings.

For some moments Izetta gazed around her in blank bewilderment; then her lips grew white with a sudden fear.

"I have lost my way!" she cried out in horror.

DR. GOLDBERG, 291 WOODWARD AVE., DETROIT, MICH.

To the Electors —OF— EAST PETERBORO.

Gentlemen,—

Unexpectedly placed in the field as the Liberal-Conservative standard-bearer within three weeks of polling day, I find it will be impossible for me to personally meet more than a small proportion of the entire electorate. This being so I have to ask many of you to overlook my seeming neglect, and to accept a written request for your favorable consideration of my claims as a candidate for your suffrages.

As you know I am the son of a Belmont farmer, and have been engaged all my life at the occupation of tilling the soil. There is no nobler or more independent calling; and as farming is the most important Canadian industry there is no good reason why patriotic and public-spirited young farmers should not aspire to represent their fellows in the legislative halls of the nation.

Four years ago many Conservatives and Independent farmers, believing that the Dominion Government had been extravagant in the management of public affairs, and believing that the Liberal leaders meant to keep their word when they so earnestly and persistently promised economy, voted with the Reform party. How grossly and shamefully they had been deceived you all know. Over $20,000,000 have been collected in Customs and Excise duties, during the last four years, more than were collected between 1892 and 1896, and not only has that large sum been expended, but, besides, the net National debt has been increased nearly $8,000,000. When we are suffering from hard times it is sometimes necessary to mortgage a farm or otherwise to incur debt; but the wise farmer will wipe out the indebtness in the years of plenty. Not so with the Laurier government. With overflowing revenues they have not lessened, but have actually increased the mortgage on the nation, until Canada's gross debt is now $345,000,000—$29,000,000 more than in 1896. Is it not time for farmers to rise in their might and insist on retrenchment in public expenditures? As they are the chief consumers the burden of taxation bears most heavily upon them, and in self-defence they should wield the power of the ballot to lessen that burden.

The citizens of Canada were also promised purity of administration but a more corrupt Government has never disgraced our fair Dominion. But you are aware of this as well as I.

Sir Charles Tupper has promised the farmers if he is returned to office, a national cold storage system and a fast Atlantic transportation service, which, by enabling them to place their perishable products in first-class condition in due season on the British market would greatly increase their facilities for acquiring wealth. Sir Charles Tupper and Hon. Hugh John McDonald are men who keep their word and are worthy of trust.

If you do me the honor to elect me, be assured that 'economy in the public service' and 'purity of administration' shall be my watchwords, and that I will not hesitate to fearlessly condemn governmental wrong-doing in whatever form it may arise.

I have the honor to be, gentlemen,
Yours very truly,
JOHN A. SEXSMITH.

BRIGHT'S DISEASE, GRAVEL, DROPSY,
And Rheumatism Mastered at Last.

One of the most remarkable medical discoveries of the century is the Kava-Kava Shrub, found on the Ganges River, East India, which has a wonderful action on the kidneys and bladder. Since its introduction into this country its fame has quickly spread, because of its seemingly impossible cures. Prominent men and women have testified to its great curative powers, and hospital tests prove its infallibility even in advanced stages of Bright's Disease. Among the more recent recoveries is that of Hon. I. A. Hopkins, Chairman Board of County Commissioners, Ellsworth, Kansas, who says:

GENTLEMEN:—I will say that I believe and know that I owe my life to Alkavis. I had been troubled with Kidney and Bladder Trouble for years. Two years ago I was sick for six weeks with Malarial Fever which left me in a bad condition. My limbs were swollen with Rheumatism so that I could hardly walk; I was troubled with Indigestion from taking Medicine for my Urinary troubles which had become very much worse. I had to get up every hour of the night to urinate. I passed great quantities of blood on account of hemorrhage of the Kidneys and Bladder. I tried and had been trying everything in the shape of Medicine for Kidney Trouble that I could think of or that the Doctors recommended, but nothing helped me for I kept getting worse. I suffered great pain continually in my Kidneys. I made up my mind unless I could get relief that I only had a short time to live. About this time my attention was called to an advertisement of Alkavis. As a drowning man will grasp at a straw, I was ready to try anything for relief. I sent to you for three bottles. I began to take it, and before I had taken it one week I began to feel the good effects of Alkavis. My Kidney Trouble and Rheumatism were soon gone, my digestion became all right. I found myself in better health than for ten years and I am in good health now. I know that Alkavis saved my life. What more can anyone say for a medicine? Unlike most medicines it is good for indigestion. It gives the person taking it a good appetite. I have recommended Alkavis to a great many people and all have been benefited by its use. I am 53 years of age, and am very grateful for what Alkavis has done for me.
Respectfully yours,
I. A. HOPKINS.

Rev. W. B. Moore, D. D., Washington, D. C., Editor *Religious World*, writes that after trying all known medicines for kidney and rheumatic diseases he was permanently cured by Alkavis. Mrs. Wm. H. Hardy, East Rush, Pa., writes that Alkavis cured her after six doctors failed. Rev. J. W. Hickman, Collyer, Trego Co., Kansas, cured of liver, kidney and bladder trouble, of many years' standing, from which he could only get temporary relief and had given up all hope of a cure. Thus the grand work goes on. A new book, entitled "A Thousand Living Witnesses" sent with the free case of medicine, tells of the wonderful cures performed in every state.

Not only does this great discovery, Alkavis (the Kava-Kava Compound) cure [illegible] kidney and bladder diseases, but [illegible] from the blood all poisonous deposits, excess of lime, uric acid, urates and lithiates, it banishes gravel, torpid liver, rheumatism, pains in back, difficult and too frequent urination, etc. The cure is complete. No phase is neglected, and the stomach, heart and nerves are toned and invigorated. No other medicine in the world will perform the work of Alkavis. To enable sufferers to get well and spread the glad tidings we have arranged to send a Large Case of Alkavis FREE by mail to all who write us. The case goes entirely FREE.

If you are a sufferer, write to day and secure at once a Free Case of Alkavis and Book of "A Thousand Living Witnesses." Address The Church Kidney Cure Co., No. 98 Fourth Ave., New York. Please mention this paper.

THE COLORADO COPPER MINING COMPANY

LOCATION OF OUR MINES

THE COLORADO COPPER MINING COMPANY is fortunate in being the possessor of five splendid showing properties in the great Salida copper belt, the principal copper producing region of this portion of the rockies. All of our claims have been more or less developed and it is our purpose to put the same on a paying basis at once.

Our Company owns, clear of incumbrances the following claims,—The Sedalia Extension, the Sedalia Extension No. 2, which property adjoins the great Sedalia mine, which has been a big producer for upwards of seventeen years; the Copper King of Colorado, which immediately adjoins the above; the Copper Queen of Salida, a very promising property, only a few steps from the depot in Salida. This claim occupies an imposing position on a mountain just north of the city; and last, but by no means least, the Sunshine, located two miles east of Salida at Cleora station, on the main Trunk line of the great Denver and Rio Grande Railroad, also on the Arkansas river, which in length is one of America's greatest streams.

Whitney arrived here in charge of the police on Saturday evening.

BETTING ON THE ELECTION

Some Peculiar Wagers Being Made on the Result

There are sporty people who make almost everything the subject of a bet. Elections and horseraces, being uncertain, naturally attract attention in this regard.

The betting on the general result on the Dominion appears to be about even. In Toronto several wagers have been made even, and one of $500 to $400 that the Liberals would come out on top.

In Peterborough the bets have been small. Mr. Kelsey Hall has $5 up that Kendry's majority would exceed 200.

Mr. E. Roach bet $10 even that Lang's majority would exceed 50.

Mr. Charlie Legros is open to bet any amount that the Liberals will carry the country.

One or two very peculiar bets have, it is said, been made. One is that if West Peterborough goes Tory, Mr. Blank is to meet a certain well known supporter of Mr. Kendry at 12 o'clock election night, on the band stand at Victoria Park, take off his coat, trousers and vest, and present them to his Tory friend with an appropriate speech, which must not take less than ten minutes in delivery. If the riding goes Grit, the other party is to do the disrobing act. The bet grew out of a statement of one of the parties that he would bet the clothes on his back that Mr. McClellan would win. There is $10 up to bind the bargain.

A weird story comes from North Victoria about a bet made on the election, in which a Grit wagered his cow against ten cases of beer that Col. Sam Hughes would not be elected. The bet was made in the hearing of the cow, it appears, and, though usually a docile animal, the cow broke out of its stable that night and committed suicide by jumping over a precipice. The conclusion was that the cow knew it had no chance to win.

JOTTINGS ABOUT TOWN.

—Burglars are operating in Marmora.

—There is considerable sickness in town at present.

—Saturday's market was liberally patronized.

—The Hjorvard Concert Company spent Sunday in town.

—The work on the lift lock is progressing splendidly on account of the mild weather.

The best that money can buy should be your aim in choosing a medicine, and this is Hood's Sarsaparilla. It cures when others fail.

—The contract for the Canal works between Nassau and Lakefield, is practically completed. Only a little dredging remains to be done.

—Mrs. Jesse Martin, formerly of Havelock, has secured the sum of $1,500 damages from the G.T.R. for the death of her husband in February last.

—The Ashburnham Reading Circle, Rev. H. Symonds, leader, will hold their regular meeting this evening, instead of Tuesday, at 7.30 o'clock.

—Rev. Dr. Neil McDermott, of Whitby, preached educational sermons in the George Street Methodist Church yesterday morning and evening.

—The Committee of Management of the P. P. Home gratefully acknowledge the receipt of $18.45; one half of Thanksgiving collection, union service, St. Paul's Church.

—Corp. James A. Fraser, of Hastings, arrived home from South Africa last week and was given a very hearty reception by the officials and citizens of Hastings and the band and local company of the 40th Batt.

—The Ontario Rugby Football Union trophy, which is held by the local club as champions fo the intermediate series for 1899, is in the window of Oak Hall drug store and is much admired. A picture of last year's club is also on exhibition.

A Veteran's Story.—George Lewis, of Shamokin, Pa., writes: "I am eighty years of age. I have been troubled with Catarrh for fifty years, and in my time have used a great many catarrh cures, but never had any relief until I used Dr. Agnew's Catarrhal Powder. One box cured me completely." 50 cents.—25

BIG LAKEFIELD MEETING

Messrs Lang and McClellan have a Successful Meeting

A joint meeting was held on Saturday night in the Town Hall, Lakefield, in the interests of Mr. J. H. McClellan and John Lang. The Town Hall was jammed to the doors. The Chair was occupied by Mr. J. M. Kilburn, President of the Lakefield Cement Company, who performed the duties in a very acceptable manner.

Mr. John Lang was the first speaker, and gave an address which was well received. He was followed by Mr. J. W. Garvin, who also had a good hearing.

Hon. J. R. Stratton was the speaker of the evening, and delivered one of his masterly addresses, in which the policy of the Liberal party was ably maintained.

Mr. J. H. McClellan closed with a stirring address, in which he gave many reasons why the Liberal party should be sustained.

The meeting closed with the usal cheers for the candidates and the Queen.

The New System

Powley's Liquified Ozone kills the Germs of Disease

It Cures Catarrh

It has only been in this century that the great value of Powley's Liquified Ozone, as a germ killer was recognized by the men of science of the world. It was noticed that every kind of disease was benefited when the patient went to live in mountainous districts. It was later discovered that in the rarer air of high localities there was a great amount of ozone. Now Ozone kills the germs of disease, and this accounts for the health giving properties of the air.

Powley was able to liquify Ozone and adapt it for medicinal purposes. Already Powley's Liquified Ozone has made remarkable cures. Read what Mr. McLeod says—"I send you this brief account of my experience with your ozone remedy. I have been troubled with Catarrh, as I have told you, for over forty years. I have been treated by some of the best doctors in the city, and have taken loads of the so-called Catarrh remedies, but all these proved a total failure. Over a year ago I was induced to give Ozone a trial and to-day I feel glad and rejoice in being cured of an obstinate attack of Catarrh. My eyesight is much better. My hearing is immensely improved and my lame back, i. e., Lumbago, is all gone. Two years ago I was a physical wreck. To-day I am rugged and healthy. And to you and the Ozone, I am indebted for these blessings. May God bless you in the good work, is the prayer of your much indebted humble servant."

POLITICS IN THE PULPIT

Plain Words on the Political Duty of Patriotic Canadians.

Preaching at All Saints' Church last night, Rev. J. C. Davidson dealt frankly with certain aspects of the political situation. His text was "A Just Man an and Holy." Mark vi-20, and the sermon extolled the virtues of truth, justice and honor, without which, the speaker said, any character was soft, weak and wanting.

After fully setting forth the importance of these qualities, the rev. gentleman made a straight reference to the political situation. Would, he said, that every elector should regard the franchise as a responsibility to be dealt with justly and honorably; but there were great temptations in the way. Let them face the actual facts. In this country the Almighty gives to every man a share in the government, which he exercises by voting. At certain times his country calls upon him to express by his vote his deliberate opinion between different policies and the men who undertake to carry them out. If he does his duty like a man, well and good. But here the political agent comes in. He too often is not working for the good of the country, but in order that a certain party (it matters not which it is) should grasp and enjoy the spoils of office. Finding an elector indifferent or antagonistic, this man trys directly, or more frequently indirectly, to buy him up. He promises the "independent elector" either a Government job or some private favor, or else he will offer $10 for his dog, which offer he can only make to a friend. The bargain is closed, and on election day the elector is called on to do his menial part of it. How much manhood is there left in him on the evening of election day? About as much, said the speaker, as there is in a good sized sheep. And like a sheep too, he and others like him are herded into the poles, and yet the poor creature thinks he is somebody as he rides in a train on somebody else's ticket, or drives in somebody else's carriage! After all, however, it was appropriate that men who had sold themselves, body and bones, should be driven by the man or the party who had bought them up, and the only thing more appropriate would be if they could be driven in crates or pens. The speaker took care to explain that many an honest man was driven, but from his point of view it was more independent and patriotic to travel on one's own legs on such an occasion. The rev. gentleman also deprecated the common practice of speaking lightly of bribery, which had the effect of causing others to look on it as something that was passable, if not smart, instead of being a dishonorable act and grevious wickedness. He trusted that his hearers would circulate these principles if they believed in them, and so put an end to conduct, which he feared, had disgraced this and certain other constituences in the past, and threatened the true welfare of the country.

COUNTY TEACHERS' CONVENTION

Report of Friday Afternoon Session

The Friday afternoon session met at 1.30, President Wallace in the Chair.

"Methods in Arithmetic" was first taken up in an able paper, by Mr. W. A. Evans, principal of Lakefield Public School. He showed how arithmetic might be made interesting, and pointed out many errors to be avoided. Mr. Evans placed several examples and illustrations on the blackboard, to make clear the points he was presenting. He showed that he possessed a very full grasp of the subject.

Miss E. Courtney then favored the convention with a very pleasing vocal solo, which was well rendered.

Then followed a discussion on "School-Room Difficulties," in which Inspector Brown, and Mr. T. J. Wallace took part. Mr. Evans answered a number of questions which were asked. Mr. Stockdale also took part, as did Mr. R. S. Brackenridge, Inspector Walker, Mr. Orde, Mr. Kindred, and others.

Miss Dr. Birnie was introduced, and addressed the convention on the subject of the teaching of temperance in the public schools.

Mr. M. W. Matchett, one of the delegates to the O.E.A., gave a comprehensive report of the first half of the meeting held in Toronto last Easter.

The election of officers resulted as follows—

President—Mr. H. C. Kindred.

Vice-President—Mr. Jas. Brackenridge.

Sec.-Treas.—Mr. M. W. Matchett.

Executive Committee—Miss M. Campbell, Miss J. Wallace, and Mr. Chas. Sisson.

Auditors—Misses A. Wood and F. Coveney.

O.E.A. Delegates—Messrs. Kindred and Wallace.

On Friday evening a meeting was held in the Town Hall, when an extremely interesting and instructive programme was given.

Misses F. and M. Thompson gave a well-renered instrumental duet entitled "The Return of the Heroes." Major Miller gave two pleasing patriotic recitations, "The Union Jack" and "Glencoe." Mr. Frank Yeigh gave his picture travel talk on "Britain's Girdle of the Globe and the South African War," illustrated by over 100 excellent stereopticon views. All who were fortunate enough to be present were greatly delighted with the programme. Rev. Mr. Davidson kindly presided.

The Saturday morning session opened at 9 o'clock, President Wallace presiding.

Mr. H. C. Kindred presented the report of the last half of the O.E.A. meeting, which proved very interesting.

Mr. J. Jeffries, B.A. of Peterborough, next took up the subject of "Poetic Literature." Mr. Jeffries' well known abilities in literature made his address a treat to all present.

Mr. Frank Yeigh, of Toronto, was next heard with great pleasure on "The Romantic Side of Canadian History." Very fortunate indeed are those who have the pleasure of hearing addresses by the talented and well-informed lecturer.

Mr. R. S. Brackenridge gave the report of the Committee on Resolutions.

It was decided to ask the County Council for permission to have Thursday as one of the days on which to hold the next convention.

Mr. Brown gave a short talk on the Third and Fourth Readers.

The singing of "God Save the Queen" closed the forenoon session and the Convention.

"Every Path Hath a Puddle."

The puddle in the pathway of most lives is a defective circulation due to a blood supply that instead of growing clear and strong like a mountain brook, is stagnant and impure. Puddles may be purified, however, and and become limpid streams. That is what Hood's Sarsaparilla does with human blood.

It clarifies, purifies and strengthens the blood, and when this is accomplished, the vital organs, liver, lungs, kidneys, bowels, are all braced and invigorated. *It never disappoints.*

Dyspepsia—"My wife suffered from rheumatism, dyspepsia and pains in her stomach. She had medical attendance but did not get relief. She read about Hood's Sarsaparilla and tried it. Three bottles entirely cured her. She is now a well and hearty woman." T. W. COVERT, Cape Sable Island, N. S.

Sick Headache—"For a long time I was troubled with sick headaches. Different medicines failed to give me relief. I took Hood's Sarsaparilla, my husband having been cured of salt rheum by it, and soon it made me feel like a new woman." MRS. ROBERT MCAFEE, Deerhurst, Ont.

ATTACK of ROYAL CANADians at Paardeberg

The present is a time when war pictures are in greater demand than ever. The conduct of the British soldiers on the battlefield has won the plaudits of admiring nations. We have at great expense published four large, beautiful pictures, size 20x24, on heavy, superfine calendered paper. A picture that will commend itself and send a thrill to the heart of every true Canadian is the one called Attack of Royal Canadians at Paardeberg, there are literally hundreds of figures on this picture, the mountains or kopjes stretching out into the distance are swarming with men, while here and there a prostrate figure speaks only too well of the Boer rifleman. It was on this battlefield the gallant Major Arnold met death unflinchingly. Indeed, it is only too true that many of those gallant hearts that beat so high when the cheering thousands bade them Godspeed as they sailed from Canada's shores now lie still forever in lonely graves on the other side of the world under African skies. To every Canadian heart, to every Canadian home, the deeds of their brave soldier boys speak with an irresistible thrill of patriotism and pride. Gordon Highlanders at the Battle of Belmont, Charging the Boer Guns at Elandslaagte and the Charge of Gen. French's Cavalry on the Retreating Gen. Cronje's Army. These are all stirring pictures and cannot fail to commend themselves to anyone who will examine them. They are RED HOT SELLERS! Agents coin money. Big profits. Enormous success. One agent sold 63 in one day. Sample and terms 25 cts (none free); four for 80 cts; $1.75 per dozen; 25 for $3.25; 50 for $6.00; 100 for $11.00. Write to-day for a dozen and make money. KNOX CAPTURES TWO GUNS AND THREE WAGONS

Got Gen. DeWet in a Tight Fix, He Lost Heavily While British Lost Nothing.

GEN. FRENCH IS FIGHTING NEAR HEIDELBERG

The Saturday Review Recommends Lord Roberts to Follow the Example of Caesar—Methune Disperses Boers.

London, Oct. 29.—The War Office has received the following from Lord Roberts, dated Pretoria, Oct. 28.

"Knox successfully engaged De Wet October 27. During the Boer retreat Knox caught De Wet in the Rensburg Drift. The Boers lost considerably and left two guns and three wagons in Knox's hands. Another ammunition wagon was blown up by a shell. The British casualties were nil."

Referring to the Jacobsdal affair, Lord Roberts says it was due to the treachery of the inhabitabts, who admitted the Boers to their houses at night. They opened fire at daybreak. Fourteen men were killed and thirteen were wounded, mostly Cape Highlanders. Troops despatched from the Modder River drove off the Boers. The houses of the treacherous inhabitants were distroyed. Commandant Rosman was killed. Lord Roberts calls attention to the "increasing inclination of the better class of Boers to co-operate with the British to secure peace, and they find the guerilla warfare is visited with heavy punishment."

METHUEN DISPERSES BOERS.

London, Oct. 29.—The War Office has received the following despatch from Lord Roberts, dated Pretoria, Oct. 28—

"Barton's losses yesterday and additional casualties were a captain and twelve men killed and three officers and twenty-five men wounded. The nineteen wounded. Three Boers who held up their hands in token of surrender and then fired on our men were captured and tried by court-martial. I have confirmed the death sentence imposed on them.

"Methuen has dispersed the Boers near Zeerust. They had six casualties and we took twenty-eight prisoners. Our casualties were six wounded.

"Kitchener has made a night march and captured a Boer laager near Krukerspoort.

"The Boers occupied Philippolis a few days ago. The little garrison held out pluckily, and three were killed and eleven wounded before they were relieved. As the entry into the town was effected by the treachery of some of the inhabitants, I have directed Kelly Kenny to send the persons implicated in this out of the country.

"Lieut. Chapman and fifty cavalrymen were ambushed between Springfontein and Philippolis. Seven escaped."

In another despatch, under date of Oct. 25, Lord Roberts describes the ceremony of proclaiming the annexation of the Transvaal, which he says was carried out most successfully. The Royal Standard was hoisted, the Grenadier Guards presented arms, while the massed bands played the National Anthem. A salute of twenty-one guns was fired as the Standard was hoisted. Afterward seven Victoria Crosses were presented and 6,200 troops marched past. These included Canadians, New Zealanders, and a detachment of the Royal Scottish Fusiliers, which was in Pretoria when the British flag was hauled down in 1881.

Sir Godfrey Lagden, British Resident Commissioner in Basutoland, and a number of Basuto chiefs were present during the ceremonies. The Basutos were much impressed, and sent expressions of their loyalty to the Queen.

Lord Roberts adds that Gen. Barton has scattered Gen. De Wet's force at Frederickstad. The British had three officers wounded.

Pretoria, Oct. 29.—The burghers systematically put the telegraph lines nightly. There has been desultory fighting during the week.

Gen. French has been engaged daily since his arrival at Barberton. He is now near Heidelberg.

Governor Sir Alfred Milner has gone to Johannesburg, where he will make his summer residence. He will go to Cape Town for three weeks prior to taking over the Government of the annexed territories.

The Commision which is examining into the dynamite concession has learned that the Dynamite Company, on May 4, 1900, supplied the Government with ten thousand each of soft-nosed and split catridges made by Nobel.

The colonial forces are being reorganized. Gen. Brabant is here.

Gen. De Wet, with a following of three thousand burghers, is reported to be in the northern part of the Orange River Colony.

ADVICE OF LORD ROBERTS.

London, Oct. 27.—The Saturday Review, dealing with the gurilla warfare, begs Lord Roberts to take "a lesson from one who was a greater soldier than he, namely, Caeser, and ruthlessly suppress the rebellion." The truest mercy in the present case," says The Globe, "is to be merciless."

This fairly voces the average opinion of the Government organs, while a few out-and-out Radical organs scarcely conceal their satisfaction arising from their ability to say, "I told you so," in reference to the war being drawn out and engendering hatred.

An encounter as dramatic as any that marked the battlefields of South Africa may shortly occur at Marseilles. The plan of Mr. Joseph Chamberlain, the Secretary of State for the Colonies, to go to Marseilles to meet Mrs. Chamberlain, who is now at Aix Les Bains, will more than probably be affected just about the time that Mr. Kruger is arriving at the same port on the Dutch cruiser Gelderland. Judging from the tone of French public opinion, the simultaneous arrival of these two leading figures in the late world drama would afford opportunities for demonstrations not too pleasant for Mr. Chamberlain, and which might possibly cause international complications that would be hard to settle peaceably.

CHINA SUGGESTS TERMS

Proposes that She Pay £40,000.000 In Sixty Installments.

London, Oct. 30.—Lord Geo. Hamilton, Secretary of State for India, has received the following despatch, dated Oct. 23, at Pao Ting Fu from Mr. Alfred Gaselee—"An Intermediate Commission has been appointed to enquire into the murder of the missionaries and railway officials, with a view of fixing the responsibility.

TO RETURN TO PEKIN.

In a despatch dated Pao Ting Fu, Oct. 24, Gen. Gaselee says that in pursuance of instructions from Field Marshal Count Von Waldersee, the British troops will return to Pekin and Tien Tsin, reaching their destination about Nov. 14. After reporting regarding the expedition against the Boxers, Gen. Gaselee concludes with a statement that he expects to reach Pekin himself, Oct. 31.

CHINESE SUGGEST TERMS.

London, Oct. 30.—The Chinese plenipotentaries have opened negotiations, says the Chinese correspondent of the Daily Express, by proposing that China should pay an indemnity of £40,000,000, in sixty installments, agreeing that Hi Kin and the Customs Service should be under foreign control until the obligation should be discharged. They also agreed that Prince Tuan should be imprisoned for life, and that Tien Tsin should be treated as an international depot, and that other places should be opened to foreign trade.

FRENCH NOTE RECEIVED.

Paris, Oct. 30.—The Havasagency has received the following from Pekin. The foreign Envoys have had further meetting and the French note has been accepted in Priciple, as the basis of discussion. Li Hung Chang has informed the legations of the poisoning of Lu Ksien.

The Austrian Minister has arrived. A company of French troops sent for a days march west of Pekin to rid a district that was supposed to be invested with Boxers, killed eight rebels and took one prisoner, and captured a gun. The International Column now returning from Pao Ting Fu is pillaging the villages en route. The armed population is being punished and all arms are destroyed.

Gay Times in Paris.

Paris, Oct. 29.—These are gay times in "Gay Paree." The visits of the King of Greece, the King of the Belgians, and the son of King George of Greece, the Prince of Crete, have stirred up the city, and there have been a series of social feastings and festivals that have astonished even the veteran habitues of swell society. The last two weeks have witnessed an almost unbroken series of illuminations and al fresco dancing in the streets, which will be carried on for another week or two in all their height of gay reverly.

PETERBORO FEELS SORE

Rugby Match at London on Saturday has Been Protested.

The following despatch from Peterborough appeared in last night's Toronto Telegram.—Peterborough, Oct. 29 (Special)—The Rugby football team returned last night from Lodnon, where they met defeat in an intermediate champion-ship match on Saturday. Disgust marks every comment they make on the result and the fact that the O. R. F. U. failed to send official referees will be used as the basis of a protest. Even the men who were chosen, while decent enough fellows, knew comparatively nothing about the match and unfairness seemed to be dealt out in big dishes to the visitors The team travelled all the way to the Forest City and only got $38 expenses, though there were 1,200 paid admissions of the match. The match has been protested and will be dealt with by the O. R. F. U. on Wednesdaynight. It is quite possible the game will be played over again, as the circumstances especially as regards officials, support Peterborough's contentions.

THE DUNLOP INQUEST

Mr. Perry, the Scientist of Toronto Examined.

VERDICT REACHED AT LAST

The Jury Condemn the Parents for Their Inhuman Conduct and Think the Legislation should Give the Matter Careful Consideration.

The inquest into the circumstances connected with the death of Frances Emeline Dunlop was resumed in the Council Chamber at 7.25 last night.

THE VERDICT.

The Jury arrived at the following verdict in about three-quarters of an hour—

Frances Emeline Dunlop came to her death from typhoid fever, and the Jury are of further opinion that if the deceased had had proper medical treatment by a physician, she would have recovered, and the Jury consider that the parents of deceased were guilty of most inhuman conduct in allowing their daughter to die without making an intelligent effort to save her life, and they strongly condemn the Christian Scientists who professed to treat the deceased, as they had no knowledge whatsoever of the nature of the disease, and took no step to ascertain its nature, and showed their utter ignorance of the nature of this or any other disease, or any proper method of curing the same, on their own admission under oath. The Jurors further wish to express their strongest detestation of the practices of those who ignorantly dare to treat thus lightly with human life, and we consider the practices of so-called Christian Scientists a danger to the community.

And the Jurors further wish to express their opinion that for the safety of society some further legislation is necessary dealing with these people, and we would humbly submit that it is full time that the Provincial Legislature should give this matter their careful consideration.

MRS. LOWE'S EVIDENCE

The first witness called was Mrs. Lowe, who under examination by County Crown Attorney R. E. Wood, said she was by occupation a Christian Scientist, and makes her living by this means. She heals the sick by authority of the Scriptures, and none other. Any person in the room would have the same authority as she, if they understood the Scriptues. Mr. Stewart had been her teacher; she had received twelve lessons, but did not know that she paid any thing for them.

She admitted, however, that she and her daughter got through their course 14 years ago, at a cost of $100. Witness could not enumerate how many people she had healed. She would not attempt to set broken limbs, but had cured many cases of typhoid fever, none in Peterborough, though.

She came here in 1891, and has practiced somewhat since her arrival. It is Truth which does the work;—Truth is God, God is Truth, and Truth is Mind; there is no God but Mind—this Mind is Infinite and not found in man; man reflects Mind, but has none of his own. There are two parties of Christian Scientists in Peterborough; Witness leads one, and does not include the other party with hers, but they have a right to work out their own Salvation. She treated deceased before, for complaints of the stomach, headache, etc., nothing very serious however. Deceased was not the strongest of girls. Witness had never had a headache since joining Christian Science, and can work a cure on herself, and also on others; deceased, however, did not respond to her treatment, or rather the Claim—another name for disease—did not respond in this instance. Witness treated her for a pain in the back and a headache. Continuing, Witness admitted deceased paid her a small sum last April for treatment, but not on the occasion of her last illness. Neither did she expect any remuneration. There are people who did pay and yet recovered. Payment is not a necessary adjunct to healing. Witness was called in Wednesday morning, the 10th October, and found that deceased was not feverish; she treated her by Christian Science for a pain in the back and headache. She was called in again at midnight; she did not feel the patient's pulse, or look for any symptoms.

They don't diagnose a case at all. Neither she nor the doctor when he first came knew deceased had typhoid fever. Witness' treatment was mental, or "truth destroying error." The pains were error. Christian Science is the Word of God, discovered about thirty-four years ago.

Since Christ's death, Truth had been lost sight of till 1866, when discovered by Mrs. Eddy. Her system is the effect of the "Divine Mind over the Mortal Mind." The Truth is declared by her to a patient by the action of Mind upon Mind.

At this juncture Witness was requested by Mr. Wood to declare some of the Truth to himself, or any person in the room, in a mental way; but notwithstanding she was given her own time in which to perform the act, no results were forthcoming.

Continuing, she said "Error is a false claim of the sense, such as pain, which, however, was reality to the patient, who thought she had a pain."

In cross examination, witness admitted that the patient had a pain, which she attempted to remove by sitting down by her side and mentally treating her. This treatment consisted in declaring the Truth to her mentally. She took up portions of the Scriptures, but would not tell the Court what portions she used. She believed that Jesus, the man, died on the cross. Mrs. Eddy says that Christ didn't die, only Jesus (who was the man) died on the cross to show that death has no power. Christ was the principle. She believed in the Trinity, Christ being God's son, and the Holy Ghost the Truth. Witness said deceased did not respond to her mental treatment, as had been the case at other times. She did nothing for her, while under the doctor's treatment. Witness suggested calling in the doctor. She admitted that doctors are useful to help nature to throw off disease. Christian Scientists, also try to assist nature to throw off disease. She did not know whether deceased improved under the doctor's treatment. Deceased told her on Friday morning she was no better, and appeared to be a very sick girl. Deceased asked Witness to send for Mr. Stewart. She heard of him in Toronto; he had more experience than witness. She telephoned for Stewart, who could not come at that time; he asked her what ailed the patient, and she informed him she was in the first stages of typhoid, and had been ailing two days. He replied that he would take the case. She interviewed Stewart by telephone, because she could not communicate conversation mentally. He then treated deceased mentally for eight days, distance being no drawback to Christian Science treatment. The patient was easier, and could make known changes in her condition. None could tell the moment Stewart was treating deceased. Witness here admitted that the patient was growing weaker from day to day; Witness waited upon her during a portion of the time, when she gave her milk and a few drops of liquor. Although Mrs. Eddy says food has no influence on the body, and that we can do without it on attaining to greater goodness, Witness would not advise one to stop eating at this stage of the world's history.

Returning to the unfortunate girl, Witness said deceased was not delirious on Friday morning; could not say when she was delirious first; she knew however, that she was so, and tried to reason with her, but could not treat the patient while under Stewart's care. Stewart sent Perry down, on being telephoned by Mr. Morrison that the patient was not responding. Perry came to Witness' place first; she had met him before; Perry is a student under Stewart; he had not as long experience as Witness; she did not remember telling Perry what deceased was suffering from; could not remember going into the sick room with him. Perry treated the patient, but witness did not see him do any thing; he made no examination of the girl, who was in a state of coma on Saturday, and could not be aroused any further than to look at a person coming into the room on Sunday, which they thought a sign of improvement. Witness did believe there were curative powers in nature. Christian Scientists know of their power of healing by a patient responding to treatment.

Continuing, Witness said she never heard deceased ask for a doctor. On the contrary, she said she did not want one. Witness advised a doctor being called in, although she had no faith in them herself. There is no other healer in her institution in town than herself. Deceased asked the time, and requested some water on Sunday. This was the only time she spoke.

It is God's Power which influences a patient; Christian Scientists are only the channels through which such power is conveyed to the patient, although the [illegible] is not conscious of it passing through them. Christ was the first Christian Scientist, and his cures were all immediate, and there are instantaneous cures to-day by his followers. Witness did not believe in Matter as a reality; it is an allusion; God did not make matter, although He created the heavens and the earth; the latter is matter.

To Coroner Grey, Witness admitted that she had treated cases of typhoid in Toronto; they have no means of diagnosing a case; but treat a patient for what he or she THINKS is wrong. She has never been in trouble like this before, and has never had to seek for a certificate of death for a case she has treated. She admitted that a house in which typhoid existed should be placarded, according to the law of the country.

To Mr. Wood, Witness admitted that a dose of poison would prove fatal. This is the result of public opinion; that is, if one did not think a dose of poison (say arsenic) would prove fatal, it would not be so.

Mr. Wood here read an interpretation of the Lord's prayer by Mrs. Eddy, taken from the Christian Science Journal, but Mrs. Lowe denied its authenticity. Mr. Wood eventually produced Mrs. Eddy's Book, called Domestic Science and Health, and after reading the same thing word for word from its pages, Witness seemed surprised, and remarked it did not sound the same as when read from the Journal. She excused her ignorance on the subject by suggesting that Mrs. Eddy improves on her theories as she gains in knowledge.

To Mr. Wood, in cross examination, Witness aadmitted that there was such a thing as disease, over which the power of Christian Science is limited by a limited knowledge of God, and again, she contradicted herself by stating that there was no carporeal disease; it was simply spiritual.

In cross examination by Coroner Gray, Witness had to admit that in the case of a Christian Scientist being called in to treat a person having a dose of poison, the Scientist would be powerless, and would have no antidote to administer; their only treatment being mental, or mind acting in mind. The Coroner then went in to administer a few words of fatherly advice to Mrs. Lowe, calling her attention to the seriousness of trifling with disease. He also quoted a Hospital expert. Although witness seemed struck by Dr. Gray's timely remarks, she repeatedly reiterated the question "How is it that so many inmates of insane asylums have been cured by the means of Christian Science?"

PERRY EXAMINED

Mr. Perry, the Christian Scientist healer of Toronto, was the next witness, and to Mr. Wood, admitted was a Christian Scientist, which was his present occupation; he had, however, worked for the York County Loan, previous to which he had been a farmer. He left farming because he was tired of it. He has not made a comfortable living out of Christian Science; he expects, though, to get something out of it, and thought if his time was employed he had a right to remuneration. Money was not necessary to secure a cure, under Christian Science treatment. Witness first heard of this case on Saturday, from Miss Stewart, who asked him to come down and treat the girl. No person told him what ailed the deceased. Did not know if any one else had been treating her. Christian Scientists do not profess to treat where physicians are attending. He did not ask neither did he care, what was wrong with the deceased. He had not taken her temperature, felt her pulse, or given her medicine, but simply sat down quietly in the room, and treated her mentally. He expected to be paid for his services. Witness could not explain his treatment, except that it was in his mind; he did not expect to influence deceased by his own mind. "There is a power higher than mine," he said. "I expected the Divine Mind to influence the patient partly by his (Witness') request; our prayer is a silent one." At this juncture Mr. Wood quoted a prayer by the president of a New York School of Practical Christian Science, to the effect that "disease is the result of a carnal martal mind, and that there is no such thing as sickness and never was such a thing—Amen." Witness objected to this prayer as being contrary to the doctrine of his sect.

To the Coroner, Witness said he treated deceased for about an hour on Saturday morning, during which time the patient never spoke, and had every appearance of being sick; he asked her no questions. He had encouraged the father and mother to hope for the best; he hoped she would get better himself. He might have casually remarked that "she would be all right," but did not think he made any definite statement to that effect. Deceased was breathing very hard when he entered the room, but finally breathed easier under his treatment. He treated her again that evening, when she seemed to grow easier; her eyes were brighter, and she had a more intelligent appearance. Witness could not remember what his report to the parents of this treatment was. He treated patient again next morning, when she appeared to be quieter and looked better; and again in the afternoon, when she seemed to be doing nicely; deceased did not ask him for anything, nor did he hear her ask any person for anything. He treated her again after ten Sunday evening—about seven o'clock—when she did not seem to be any worse; he did not report the results of this treatment to her parents. Witness did not treat the girl again; he could not tell why. On being pressed by Coroner Gray, he replied, "You understand the case and don't expect that I treated what you call a corpse." Perry admitted that he saw his patient was passing away, but having pulled so many cases through, he naturally expected her to get better. He had not diagnosed the case; she apparently slept Saturday afternoon and night; at least her eyes were closed, and had the appearance of sleeping. It would not strike him that she was laboring under an opiate; he could not tell if she was, and did not know if the patient recognized him, she might have done so. The Coroner here explained that this was a serious matter; when he arrived on the scene deceased was lying in a comatose state, which exactly assimulates the effects of a dose of opium. Witness could not tell if deceased's comatose condition had been the results of opium whether his treatment would have brought her round or not. He admitted that he had no means of diagnosing the case, and she might have been under the influence of opium or any other drug for all he could tell.

After a perfect cross fire of questions, Perry acknowledged that his treatment for opium poisoning would have been the same as in the case of deceased, as he could not distinguish symptoms of one from the other. A person taking a fatal dose of laudanum might recover under his treatment, or might not. Witness said it was a question whether he intended to follow his present occupation of a Christian Science healer for any length of time. He slept the night the girl passed away, and felt no remorse for his conduct in the matter. He would not attempt to amputate a limb. He could not tell if deceased would have recovered under any other treatment than his, and did not think he (Witness) was a dangerous element to society. His treatment is mental, or mind acting upon mind, which is hard to acquire by some; any person could acquire the gift if spiritual enough. This is the first case he treated from beginning to end, that died under his treatment; had heard of some dying under the treatment of others, but could not explain the reason for such. Continuing, witness had great respect for the medicine fraternity, but thought he (Witness) had been very successful in the numerous cases that had been intrusted to him. He had treated cases which had been treated unsuccessfully by physicians for many months, and which had recovered under his treatment. When treating a case he could not tell whether patient would recover or not.

Coroner Gray here advised Perry to turn over a new lead; this business he was engaged in was a very serious matter. Witness replied that being a Christian Scientist was indeed no laughing matter.

To Mr. Wood, Perry said he did not get the $5 sent to Mr. Stewart; he did not receive anything for his services.

In his charge to the Jury, Coroner Gray briefly revived the evidence, emphasizing the fact that deceased being under her father's roof, she would consequently feel, although not a Christian Scientist herself, morally bound to obey her parents' wishes. Of course, he urged, the time came when the poor girl was in a state of coma, under which she would not be able to express her own opinions, and referring to this stage of the disease, her father inconsistently remarked that she was of age and could judge for herself what was best for her. Under proper treatment, the Coroner continued, people have lain delirious for weeks under typhoid fever, and yet recovered. Briefly touching upon Perry's encouragement to the parents to hope for deceased's recovery under his treatment, he concluded his remarks by emphasizing the fact of Mrs. Lowe's faith in her own theory having been evidently shaken, as evidenced by her advice to call in a doctor, much against the deceased's expressed wishes, if the evidence is to be relied on.

A BIG EXPLOSION IN NEW YORK

Big Factory Blown up and its Inmates Killed Without a Moments Warning—Elevated Railway Sent Hnstling in the Air.

New York, Oct. 29.—The loss of life is not known but it is gathered that perhaps bodies of 30 persons in the ruins Though owing to hot debris and slowness of the moving of it, no body has been removed up to midnight. The disaster was one of the most terrible that has ever occurred in this city, and rivals of the Windsor Hotel fire, though loss of property will be greater. Chief Croker of the fire department said to-night, loss fully $1,500,000.

New York, Oct. 29.—A fire in the building at the corner of Greenwich and Warren street, occupied by Tarrant & Company, wholesale druggists and chemists, caused four tremendous explosions.

Twenty-five persons are said to have lost their lives in the building.

It was half past twelve, and the fire department was hurrying to the scene when the first explosion occurred.

Before the fireman arrived there were three convulsions more violent than the first.

Witnesses say that a column of debris and flame shot up 200 feet into the sky.

Fifteen minutes after the explosion pieces of sheet tin and other debris were falling eight or ten blocks away.

There are those who say they saw human bodies thrown up in the column of debris when the explosion occurred.

The elevated railroad structure, which passes the building, was demolished at that point, and many Western Union wires disabled.

Windows in the vicinity and for blocks around were broken by the concussion of the explosion. Every ambulance south of 59th street was called out.

Dozens of persons in the streets were injured. One fire engine was demolished by falling of walls.

It is said that one hundred of the employes in the building were girls. They were on different floors when the fire broke out and the explosions. No one could be found who could see how the girls could have escaped.

In a restaurant next door to the drug store there were about 200 guests eating their luncheon. The explosion came so suddenly that many of these were injured, and it is expected that a score or more of them lost their lives.

Up to 12.45 p.m. eleven injured persons had been taken to the New York Hospital.

A lithographing establisment close to Tarrant's place caught fire, and the flames spread to the Irving Bank, and to two buliding across the street.

The Warren Street Station of the Ninth avenue elevated road, which stood directly in front of the drug store, was completely demolished, and a numbe rof persons who were standing up on it waiting for a train were blown to the street and received serious injury.

Several building at the rear of the drug building were blown down, and the flames spread with great rapidity, and the two blocks comprising Chambers to warren and from Washington to Greenwich streets were soon on fire.

Mysterious Death of a Peterborough Girl.

Mary McWilliams, Formerly of Peterboro, Passes Away at Grace Hospital Under Mysterious Circumstances

At Grace Hospital, Toronto, on Saturday night, the Coroner opened an inquest on the body of Mary Ann McWilliams, a young woman who died there early on Saturday morning. After Coroner Cotton had intimated that there were some strange circumstances connected with the woman's death, and the viewing of the remains by the jury, an adjournment was made until Wednesday evening at the St. Andrew's Market police station.

Deceased was employed as a domestic at the home of Mr. Lewis Howard, Ontario street. Early on Friday evening she was found by some members of the family lying unconscious on the floor of a room which she had been dusting. Drs. C. J. O. Hastings and R. A. Pyne were called, but they were unable to revive her. The woman was then taken to the hospital in the police ambulance, where she rapidly sank until her death occurred at 6.30 o'clock on Saturday morning.

Coroner Cotton, who was notified of the death, instructed Drs. Anderson and Hastings to perform a post-mortem examination of the remains, which was done on Saturday evening. The physicians found that profuse hemorrhages of the brain and spinal cord had caused death, but what induced the hemmorhages they were unable to determine. The doctors, however, were of the opinion that the action of some poison on the system probably brought about the conditions found on the body, and so reported to the coroner, with the result that the stomach and kidneys were retained in order that an analysis might be made.

At a consultation held afterwards the theory was advanced that the woman had been seized with convulsions and had fallen to the floor. The fall, the doctors believed, was more than sufficient to produce the hemorrhage.

Mary Ann McWilliams went to work at the home of Mr. Howard last April, shortly after her arrival from Peterborough, where her father, Thomas McWilliams, resides. Relatives of the dead woman notified Coroner Cotton that they would take charge of the remains on Saturday, and they were accordingly shipped to Peterborough, where they arrived at noon yesterday, and were interred in the Little Lake cemetery.

Deceased was a daughter of Mr. Thomas McWilliams, of Peterborough, and was 25 years of age.

THE STORY DENIED

The Auburn Employes Speak for Themselves.

Editor Morning Times.

Sir,—The report having been circulated in parts of the riding that the employees of the Auburn Woolen Company intended voting against Mr. Kendry in the present election, we, the undersigned employees of the mill and voters of the town, desire to deny such report, and in order to do so, we hereby subscribe our names, thereby giving the report an emphatic denial.

We would also state that Mr. Kendry has not in this election, and never has in any election, asked us to vote for him, or questioned us as to how we proposed to vote when he was a candidate, leaving us free to do as we saw fit. But when such a false and unfair report is in circulation to do him injury, we desire to show where we are, and we are with him to a man, having the fullest confidence in him as an employer and as a representative.

PETERBOROUGH, OCTOBER 30 1900.

THE COST OF A CAMPAIGN

A writer in the Saturday Evening Post, Col. A. K. McClure, gives some interesting figures which afford a slight insight into the methods of the politicians in the United States and the immense amount of money spent in electioneering over there.

Col. McClure does not attempt to go into too many details, and contents himself with saying that the Republican campaign fund must run up into the millions. Think of that ye Canadian politicians who think yourselves corrupt because you spend a few paltry thousands.

Col. McClure is more precise in speaking of some of the campaign details. For instance, the city of Philadelphia paid $100,000 for the mere privilege of entertaining the Republican national convention, and it is estimated spent $250,000 more in entertaining the visitors. The cost of a single parade to give inspiration to the Republican cause was, says Col. McClure, probably quite as much as the entire contributions to the Lincoln state committee in the election of 1860.

Philadelphia business men have been asked to chip in the huge sum of $600,000 into the national campaign fund, and Col. McClure thinks they will do it, and besides this, several hundred thousand dollars must be contributed for the Pennsylvania state contest and for congressmen, legislators and local officers. Col. McClure says it is a moderate estimate that Philadelphia alone will spend half a million dollars in local contests alone this year.

No wonder they have the spoils system in American politics. There would need to be many offices with fat salaries attached to recoup the politicians of the great republic for their enormous outlays.

RUSSIA CHECKMATED

The agreement between Great Britain and Germany to maintain the territorial integrity of China and to keep the ports of that country, the river ports as well as the sea ports, open to the trade of all nations is the most important development of the Chinese question since the pending troubles began. It gives notice to Russia that the dismemberment of China will not be quietly submitted to by these western powers. They pledge themselves not to take part in the grab game for partitioning the provinces of the empire. This of itself would be a good deal, as it would break up the arrangement for a general division of the spoils. But the Anglo-German agreement goes a good deal farther. Its third article runs to the effect that if any other power should make use of the complications in China to obtain territorial advantages, "under any form whatever," the two contracting powers "reserve to themselves the right to come to a preliminary understanding regarding the eventual step to be taken for the protection of their own interests in China."

It is stipulated in the agreement that the other powers interested will be invited to accept the principles recorded in it. The Boston Herald sees no reason why the United States should hesitate in according its acceptance. The principles are in full accordance with American policy, and an endorsement of them would in no way bind the United States to any entangling alliance.

THE CANDIDATE.

I'll promise you sunshine, I'll promise you rain;
I'll promise you fabulous prices for grain;
I'll promise you music by day and by night;
I'll promise you beauty and sweetness and light.
Let us look to the future and ponder no more
On the numerous things I have promised before;
'Twas mentioned when first my career I began,
I am an exceedingly promising man.
I will flatter your fancy and nourish your schemes
With limitless wealth from the mint of my dreams.
Come, pledge me a vote ere I part from the place,
And I'll fling you a promise with prodigal grace!
You'll find I won't falter what'er be the boon—
A rosebud in winter; a snowstorm in June.
The health of a peasant; the pomp of a king—
In short I will promise you any old thing.

SCYTHE IN THE PINE TREE.

A Curious Reminder of the Son's Going to the War, Never to Return.

Thirty-eight years ago young Augustus Bliss, of Warwick, quit cutting brush on his father's farm, hung his scythe on a pine tree and went off to war. The soldier boy never came back, and the scythe has never been taken down from the tree where he hung it, but has become imbedded in the growing pine until it is a fixture. This pathetic reminder of the great civil struggle is a familiar sight to members of the Sheomet Club of this city, as the tree stands near the club's comfortable quarters in Blissville, a hamlet just across the North Orange line into Warwick.

When young Augustus Bliss left home and parents, to fight his country's battles, Blissville was a busy centre of small industries, traces of which remain to tell the story of the shifting of the scene of manufacturing from the small country hamlet to large centres. The tree has witnessed all these changes, has seen the mill standing near slowly falling into decay, the population changing, but still the scythe hangs there, summer and winter, a mute testimonial to the devotion to duty that animated young Bliss. His father, Milton Bliss, was engaged in building the dam standing by, and sent his son to cut some briers that were in the way of stone that were needed. After the briers were cut the scythe was hung on a small pine tree near, probably without a thought of how long it would remain there.

In a day or two Augustus Bliss went to the front, having enlisted for a three years' term of service in the army some time previous. The young soldier never came back. He was but eighteen years old when he enlisted, August 4, 1862, in Company H, Thirty-sixth Massachusetts Regiment. While with his regiment in the South, he was overtaken by a fatal disease and died in an army hospital at Mildale, Miss. The circumstances of his contracting disease were very sad. He had gone to get water for his comrades, and his company had orders to march while he was gone. He tried to overtake them, and the over-exertion was more than he could stand, and he was taken ill with fever before he had been in battle. He was not brought home for burial, but his name is on the roll of honor on the soldiers' monument at Orange.

In all these years no one has meddled with the scythe. It has hung there a symbol and visible reminder to his father of his son's devotion to duty. As the tree grew, the scythe has become embedded in the wood, until it is a part of the tree. The snath, which has been forced off the scythe by the growing tree, is supported in its original position by a small framework. The woodwork of the tholes has yielded to the action of the elements and fallen away. Around the tree, which is probably a little over a foot in diameter at its base, has been erected a railing.—Springfield Republican.

To the Electors OF EAST NORTHUMBERLAND

Gentlemen,—

Through the urgent, hearty and unanimous solicitation of the Reform party of East Northumberland, I have consented to be the Liberal candidate to contest the Riding in the coming Dominion election. Time will not allow me to visit personally, therefore I take this opportunity of asking your hearty support as far as you may deem me worthy of the same. If elected I promise you earnest and honest service. Your obedient servant,

In The Summer

Of life a woman may find herself fading and failing. She doesn't understand it. She goes to doctors, who treat her for this or for that, but she gets no better. She grows frail and pale. She can just "drag about the house," but has no pleasure in life. Many such women have taken advantage of Dr. Pierce's offer of *free consultation by letter*, and have been restored by Dr. Pierce's treatment to perfect health. There is no more wonderful medicine for women than Dr. Pierce's Favorite Prescription. Its action upon the womanly organs is at once apparent in the decrease of pain and the increase of strength. It cures female weakness and such diseases as take away the strength and beauty of women.

Sick women are invited to consult Dr. Pierce by letter *free*. All correspondence private. Address Dr. R. V. Pierce, Buffalo, N. Y.

"Before I commenced to use your medicine I was in a bad condition (for eight years) and four doctors treated me," writes Mrs. Bettie Askew, of Garysburg, Northampton Co., N. C. "They, of course, gave me at the time some relief, but it did not last long. I was some days in my bed and some days I dragged about the house. I have used five bottles of Dr. Pierce's Favorite Prescription and five of the 'Golden Medical Discovery,' and four vials of the 'Pellets.' Now I feel like a new woman, and I want the world to know it."

The action of the "Favorite Prescription" is assisted by the use of "Pleasant Pellets" when the bowels are irregular.

Address to the Electors

To the Free and Independent Electors of West Peterborough—

Gentlemen.—Having accepted the unanimous nomination of the Liberals of this Riding, as a candidate for its representation in the House of Commons I hereby respectfully solicit your support in securing my return at the coming general elections.

The grounds upon which I base my appeal are not so much nor chiefly by any means, my personal fitness for the position of your representation though as a citizen of Peterborough and interested in its progress in common with that of the country, I can and do promise, if elected, an intelligent support of such a public policy and such measures as will best conduce to the promotion of all the interests of Canada, the developement of her great resources and the general betterment of the civil moral and material condition of the public; and my best abilities and most assiduous attention shall be devoted to the faithful discharge of my representative duties.

The strongest ground, however, of my appeal consists in the fact that I am a firm supporter of the Liberal Government led by Sir Wilfred Laurier, which is entitled to the renewed confidence of the people, both on the ground of its policy and the splendid record established by the application of that policy. The Liberal party appealed to the country in 1896 upon a clearly defined policy and the promised results followed.

The Liberal party promised a reduction of a high-tariff that hampered our industrial and agricultural interests and was hostile to the Mother Country.

The tariff was materially reduced and otherwise improved and in such a way as to help instead of hinder the manufacturer and farmer, with the consequence that never before in the history of the country have our industries or our farmers enjoyed such great prosperity, our mechanics and working men such constant employment and high wages, nor our commercial and all other interests so flourished.

Our domestic and foreign trade have also greatly increased. The loyal gift of a trade preference, represented by a tariff reduction on British goods of 33 1-3 per cent., and our despatch of the Canadian Contingent, have resulted in a kindlier feeling towards Canada and greatly increased trade with the Mother Country.

With a largely reduced rate of tariff, our revenue has greatly expanded so that the Government was warranted in practising true economy (reducing our postal rate one third, giving Imperial penny postage,) and permitting of the completion of great public works, deepening our canals, so long trifled with, pushing the work on the Trent Valley Canal which is now urged and will be urged to completion by the Liberal Government, and the application of a vigorous policy of general development and improvement of our transportation facilities, resulting and to result in easier access to the British market and better prices for all our products.

The farming interests of the country are deserving of the best services of a Government, such as the present has given. The immense impetus given the produce trade between Canada and Great Britain, through the preferential tariff, has been greatly helped by the action of the Government in providing an excellent and adequate system of cold storage, by which Canadian products can be landed in Great Britain in first-class condition, guaranteeing the highest prices. The system is of the most modern character, sufficient for all the present needs of the trade, and it will be improved and enlarged as experience suggests, and increas of the produce trade demands, and I shall, if elected, feel it my duty to support any policy that will improve our trade with the Mother Country, and strengthens the bond of British connection, of which we are so proud.

In an industrial centre like Peterborough the claims of the working classes are especially deserving of consideration. No country is well governed that does not look after the interests of all classes of the community. The Conservative Government has been, and the Conservative party declares itself to be, extremely solicitous of the interests of the capitalist classes—the manufacturers—but it left the working classes to largely shift for themselves. A Liberal Government came into power, and the attitude towards Labour was changed, and the rights of Labour to its rights recognized, and in a practical way. A Department of Labour has been established and a Minister of Labour placed over it. A Labour Gazette has been established in the interests of workingmen, published monthly; conditions have been inserted in all Government contracts compelling contractors to pay the highest current wages, which the Government guarantees the payment of; the sweating system has been abolished as Government enforced by a special officer, and in many other ways the Government has shown by deeds that the rights of the workingmen, as well as the capitalist, shall be protected. I heartily support the Government in what it has done, and shall support them in extending the benefits which they have already conferred, and which it is their policy to continue, as need arises.

The splendid achievements of Canadian soldiers in South Africa, make them worthy of the gratitude of the country. We have the best militia material in the world, and if we keep up a military establishment, let it be worthy of Canadians. Situated as Peterborough is, on the line of the Grand Trunk and Canadian Pacific Railways, and on the line of the Trent Valley Canal, begun as a military work, and now under course of completion, no other point in this Province is so well adapted for a military centre. I shall, therefore, feel it my duty to press upon the Government the advisability of constructing in Peterborough new armories and connected buildings for military stores for Ontario, and I feel that this is practicable of attainment at the hands of a Government which has shown its interest in our volunteers by placing the Militia Department, so greatly neglected by a previous administration, upon an effective basis, and will, therefore, more naturally be well disposed towards the improvement involved in making Peterborough a centre for military stores.

A town of the industrial and commercial importance of Peterborough, has certainly strong claims upon the good offices and of a Government. For the past four years the town has been represented, when it was represented in the House, by a member opposed to the Government. There is no doubt in the minds of unprejudiced observers, that the present Liberal Government will be strongly sustained in the country at the coming elections, and the question arises whether West Peterborough will have its interests better served by a member sitting in opposition and hostile to the Government and its policy, or by a member pledged to give the Government a fair support in the application of its policy. If elected I pledge myself to give my best ability and exertions to the promotion of the general good of the country, and to look especially after the interests of West Peterborough.

I cannot obviously here, enter into details of how in other ways the Liberal Government has implemented its promises and applied its policy, but I shall have an opportunity during the campaign of more fully dealing with these and other public questions.

As a supporter of such a Government I can appeal with confidence for the support of the Electors of West Peterborough, knowing that by helping to give, as you will do, through my election, a renewal of the trust the Liberal Government has discharged with such evident and gratifying results, they will be conferring a great and lasting good upon this riding, the country at large, and securing a continuation of the great blessings of prosperity and good government we now enjoy.

Again soliciting your support, your votes, and influence in this contest,

I have the honor to be,
gentlemen,
Your obedient servant,
J. H. McCLELLAN

WE CURE STRICTURE

Thousands of young and middle-aged men are troubled with this disease—many unconsciously. They may have a smarting sensation, small, twisting stream, sharp cutting pains at times, slight discharge, difficulty in commencing, weak organs, emissions, and all the symptoms of nervous debility—they have STRICTURE. Don't let doctors experiment on you, by cutting, stretching, or tearing you. This will not cure you, as it will return. Our NEW METHOD TREATMENT absorbs the stricture tissue; hence removes the stricture permanently. It can never return. No pain, no suffering, no detention from business by our method. The sexual organs are strengthened. The nerves are invigorated, and the bliss of manhood returns.

WE CURE GLEET

Thousands of young and middle-aged men are having their sexual vigor and vitality continually sapped by this disease. They are frequently unconscious of the cause of these symptoms. General Weakness, Unnatural Discharges, Failing Manhood, Nervousness, Poor Memory, Irritability, at times Smarting Sensation, Sunken Eyes, with dark circles, Weak Back, General Depression, Lack of Ambition, Varicocele, Shrunken Parts, etc. GLEET and STRICTURE may be the cause. Don't consult family doctors, as they have no experience in these special diseases—don't allow Quacks to experiment on you. Consult Specialists, who have made a life study of Diseases of Men and Women. Our NEW METHOD TREATMENT will positively cure you. One thousand dollars for a case we accept for treatment and cannot cure. Terms moderate for a cure.

Love Won - and - Lost.

A NOVEL.

(Continued.)

There was no path before her, and the footprints of her own feet were completely obliterated by the thick falling snow.

She could not retrace her steps; she sat down in the snow and tried to think.

Izetta was growing quite used to sorrow; unforeseen events were ever thrusting themselves unawares upon her.

She could see the raven careening about in the upper air above her head. One thought occurred to her:

"Should she ever be able to reach Silvernook?"

She felt cold and benumbed; she longed to lie down in the soft, white snow and rest. Yet she had often heard such rest meant death.

She would try to bear up a little longer.

"Ah, well," she thought, "it does not matter much what becomes of me."

She had not tasted food since the night before, still she did not feel the need of it.

She felt wofully tired and weary, that was all. Ere she was hardly aware, the sun had sunk behind the crimson, western clouds.

The darkness of night would soon fall around her, ushered in by the still heavily falling snow.

Suddenly the chiming of far- off bells fell upon her ear; at first they sounded like church bells; then she remembered that this was Christmas Eve.

As she paused in the twilight, the jingling bells sounded nearer and nearer. A dark speck was skimming toward her from the distant horizon.

Could it be a human being? Her first impulse was one of intense joy, which suddenly gave place to the most pitiful terror.

"What if it should be Heath Hampton?" she thought, trembling like a leaf.

Ah, she could screen herself behind the bushes; if it was no one who might be seeking her, she would cry out to them.

Izetta was not a moment too soon. Nearer and nearer each moment dashed the sleigh and its occupants over the white, crusted snow.

Another instant, and they had reached the very spot where she knelt, screened by the alder bushes! they were so near she could have put out her hand and touched them as they grazed her hiding- place.

Had those prancing steeds swerved ever so slightly toward those alder bushes, they must have crushed her.

Now she could see their faces. A voice, hoarse with wrath, which she knew but too well, cried sharply:

"I say she must have come this way, you stupid dolt, to have lost track of the footprints."

"I could not help it," answered a voice, which she instantly recognized as the dwarf's; "the fault is the snow falling so fast not mine."

Suddenly Vatal drew rein.

"Have you forgotten, sir, you are nearing dangerous ground? Yonder lies Ulvesford Manor in the distance, to the right, there."

His companion uttered a short, hard, mocking laugh, that made Izetta, crouching in her ambush, almost faint with fear.

"I have forgotten nothing," answered Heath Hampton, wrathfully. "Ulvesford knows nothing of my return from abroad. I have succeeded in keeping that a profound secret. I could not wish him better luck than to meet him here and now. He has led a charmed life; twice he has escaped me, once in Switzerland, and once on this very road by the cliff he shall never escape me the third time. He little dreams of the vengeance which shall soon be meted out to him."

"Fate seems against you of late," answered the dwarf.

"Yes, I'm at the bottom of the wheel now, Vatal," answered Hampton; "but it revolves quickly. I'll soon be at the top. Dame Fortune dealt Ulvesford the winning cards in gaining the heiress of Lorrimer Hall. Even this dark- eyed little beauty has eluded my grasp. I was so sure — hark! what noise was that?"

The next instant Izetta met the glaring eyes of Heath Hampton gazing fixedly at her through the branches.

CHAPTER XXII.

Ulvesford Mansion.

"What noise was that?" again queried Heath Hampton.

"I'm sure I did not hear any," answered Vatal.

"Pshaw!" muttered the other, impatiently, "I believe I'm growing as fanciful as a woman."

His keen, shrewd eyes had not detected the startled, dark eyes gazing as if fascinated upon him.

"You had better turn about, Vatal," he ordered; "she cannot have gone very far; we will take a short cut across; she must be somewhere about."

The next moment the horses were plunging on through the darkness in an opposite direction.

"Mother," she cried, raising her eyes to heaven, through her tearless sobs, "I had rather lie cold and lifeless upon the pure, cold snow here, food for the vultures of the air, than breathe the same air with this human vulture, from whom you have saved your child."

The bitter cold and the great mental excitement through which she had so lately passed were beginning to tell upon Izetta's sadly shattered nerves; her garments were white with the fallen snow, and with great difficulty she made her way step by step.

Once she staggered and fell. She was beginning to feel delightfully warm and drowsy; the bitter cold seemed to have passed harmlessly by her. If she could only lie down and rest a few moments she would feel refreshed directly.

Suddenly the shrill cry of a night-bird circling above her head partially aroused her lagging energy.

They had spoken of some place at the right; she had walked many miles and found no such place, she had told herself, with a pitiful little laugh that sounded strangely weird among dark trees and waste of snow.

Suddenly the flashing of many lights burst upon her view; for one brief instant she half imagined she was walking down the street of some Italian city upon a gala night. Delightful strains of music fell upon her ear. The music awoke Izetta's soul to consciousness of her position.

Oh! how she strove to reach the lights and the music. A few steps more and she reached the park gate. The sound of revelry was at its height.

Izetta crept up the broad walk,

DR. GOLDBERG, 291 WOODWARD AVE., DETROIT, MICH.

To the Electors
OF—
EAST PETERBORO.

Gentlemen,—

Unexpectedly placed in the field as the Liberal-Conservative standard-bearer within three weeks of polling day, I find it will be impossible for me to personally meet more than a small proportion of the entire electorate. This being so I have to ask many of you to overlook my seeming neglect, and to accept a written request for your favorable consideration of my claims as a candidate for your suffrages.

As you know I am the son of a Belmont farmer, and have been engaged all my life at the occupation of tilling the soil. There is no nobler or more independent calling; and as farming is the most important Canadian industry there is no good reason why patriotic and public-spirited young farmers should not aspire to represent their fellows in the legislative halls of the nation.

Four years ago many Conservatives and Independent farmers, believing that the Dominion Government had been extravagant in the management of public affairs, and believing that the Liberal leaders meant to keep their word when they so earnestly, and persistently promised economy, voted with the Reform party. How grossly and shamefully they had been deceived you all know. Over $20,000,000 have been collected in Customs and Excise duties, during the last four years, more than were collected between 1892 and 1896, and not only has that large sum been expended, but, besides, the net National debt has been increased nearly $8,000,000. When we are suffering from hard times it is sometimes necessary to mortgage a farm or otherwise to incur debt; but the wise farmer will wipe out the indebtness in the years of plenty. Not so with the Laurier government. With overflowing revenues they have not lessened, but have actually increased the mortgage on the nation, until Canada's gross debt is now $345,000,000—$20,000,000 more than in 1896. Is it not time for farmers to rise in their might and insist on retrenchment in public expenditures? As they are the chief consumers the burden of taxation bears most heavily upon them, and in self-defence they should wield the power of the ballot to lessen that burden.

The citizens of Canada were also promised purity of administration but a more corrupt Government has never disgraced our fair Dominion. But you are aware of this as well as I.

Sir Charles Tupper has promised the farmers if he is returned to office, a national cold storage system and a fast Atlantic transportation service, which, by enabling them to place their perishable products in first-class condition in due season on the British market would greatly increase their facilities for acquiring wealth. Sir Charles Tupper and Hon. Hugh John McDonald are men who keep their word and are worthy of trust.

If you do me the honor to elect me, be assured that 'economy in the public service' and 'purity of administration' shall be my watchwords, and that I will not hesitate to fearlessly condemn governmental wrong-doing in whatever form it may arise.

I have the honor to be, gentlemen,
Yours very truly,
JOHN A. SEXSMITH.

A WONDERFUL
KIDNEY and Bladder CURE

The Honorable Chairman of the Board of County Commissioners, Ellsworth, Kansas, tells how ALKAVIS cured him after Doctors and all other Remedies had Failed.

I. A. HOPKINS.

BRIGHT'S DISEASE, GRAVEL, DROPSY,
And Rheumatism Mastered at Last.

One of the most remarkable medical discoveries of the century is the Kava-Kava Shrub, found on the Ganges River, East India, which has a wonderful action on the kidneys and bladder. Since its introduction into this country its fame has quickly spread, because of its seemingly impossible cures. Prominent men and women have testified to its great curative powers, and hospital tests prove its infallibility even in advanced stages of Bright's Disease. Among the more recent recoveries is that of Hon. I. A. Hopkins, Chairman Board of County Commissioners, Ellsworth, Kansas, who says:

GENTLEMEN:—I will say that I believe and know that I owe my life to Alkavis. I had been troubled with Kidney and Bladder Trouble for years. Two years ago I was sick for six weeks with Malarial Fever which left me in a bad condition. My limbs were swollen with Rheumatism so that I could hardly walk; I was troubled with Indigestion from taking Medicine for my Urinary troubles which had become very much worse. I had to get up every hour of the night to urinate. I passed great quantities of blood on account of hemorrhage of the Kidneys and Bladder. I tried and had been trying everything in the shape of Medicine for Kidney Trouble that I could think of or that the Doctors recommended, but nothing helped me for I kept getting worse. I suffered great pain continually in my Kidneys. I made up my mind unless I could get relief that I only had a short time to live. About this time my attention was called to an advertisement of Alkavis. As a drowning man will grasp at a straw, I was ready to try anything for relief. I sent to you for three bottles. I began to take it, and before I had taken it one week I began to feel the good effects of Alkavis. My Kidney Trouble and Rheumatism were soon gone, my digestion became all right, I found myself in better health than for ten years and I am in good health now. I know that Alkavis saved my life. What more can anyone say for a medicine? Unlike most medicines it is good for indigestion. It gives the person taking it a good appetite. I have recommended Alkavis to a great many people and all have been benefited by its use. I am 53 years of age, and am very grateful for what Alkavis has done for me.
Respectfully yours, I. A. HOPKINS.

Rev. W. B. Moore, D. D., Washington, D. C., Editor Religious World, writes that after trying all known medicines for kidney and rheumatic disease he was permanently cured by Alkavis. Mrs. Wm. H. Hardy, East Rush, Pa., writes that Alkavis cured her after six doctors failed. Rev. J. W. Hickman, Collyer, Trego Co., Kansas, cured of liver, kidney and bladder trouble, of many years' standing, from which he could only get temporary relief and had given up all hope of a cure. Thus the grand work goes on. A new book, entitled "A Thousand Living Witnesses," sent with the free case of medicine, tells of the wonderful cures performed in every state.

Not only does this great discovery—Alkavis (the Kava-Kava Compound)—cure all forms of kidney and bladder diseases, but by expelling from the blood all poisonous deposits, excess of lime, uric acid, urates and lithiates, it banishes gravel, torpid liver, rheumatism, pains in back, difficult and too frequent urination, etc. The cure is complete. No phase is neglected, and the stomach, heart and nerves are toned and invigorated. No other medicine in the world will perform the work of Alkavis. To enable sufferers to get well and spread the glad tidings we have arranged to send a Large Case of Alkavis FREE by mail to all who write us. The case goes entirely FREE.

If you are a sufferer, write to-day and secure at once a Free Case of Alkavis and Book of "A Thousand Living Witnesses." Address The Church Kidney Cure Co., No. 508 Fourth Ave., New York. Please mention this paper.

TOWN AND COUNTY NEWS

Dog Lost

A black dog, short hair, answers to name of "Rover," wearing nickle-plated collar, bearing owner's name. Finder will be suitably rewarded by leaving word at the City Hotel, Peterborough. A. D. TOWLE.

They Will Be Decorated.

Hon. J. R. Stratton, Provincial Secretary, has notified the Toronto City Clerk that arrangements have been made to decorate and illuminate the Parliament Buildings on the occasion of the return of the soldiers from South Africa.

Death of Robert Rowe

Yesterday a telegraphic despatch was received from Buffalo, announcing the fact that Mrs. Isabella Rowe, relict of the late Robt. Rowe, who was a well known and much respected citizen of Peterborough, had passed away. For some years past Mrs. Rowe has been an invalid. No particulars as to the funeral arrangements were given.

Lieut. Hayward Honored

On Saturday evening a large and enthusiastic crowd, composed of citizens and members of the 3rd Dragoons, 57th Batt., and other local corps, gathered at the G.T.R. station to welcome Lieut. Hayward, of the 3rd Dragoons, who has but recently returned from South Africa. In the evening he was banquetted by the officers and his friends. Patriotic speeches and songs were given, and Lieut. Hayward related a number of interesting and exciting experiences he had while fighting with the Boers. He expressed himself as highly gratified by the very cordial reception given him. Lieut. Hayward will return to South Africa shortly.

Stuff on Hunting

Bobcaygeon Independent—"Yes, sir. Any amount of hunting here, you can hunt twenty-four hours to the day. As for shooting there is a loon down in Pigeon lake that you can blaze away at to your heart's content. He won't mind it in the least. In fact if a day passes without a few sports getting after him he grows that wearied with ennui, that he will take a spin over the village yelling, laughing, and daring anyone to have a fling at him. Hunting! Why, yes. You should see the way the political gushers are still hunting day and night. And half of our enterprising citizens and many of the fair residents will tell you, that they are tired to death hunting cows. Did you never go hunting for cows. If not, you should. It is a great sport, and there are scores of people here who will willingly put you on the track. There was a gentleman went out last week at 6.30 p.m. and returned at 5.30 a.m. after, an excitinng night in a muskrat marsh, and at 6.35 discovered his milk factory in the parson's orchard blown out like a penny baloon. Then there is Sporty Josh. He has been hunting duck since the 1st of September, and he swears by the Great Horn spoon that he will get one if he has to hunt till next spring. Hunting! Bless yer, come right along, we've more hunting to the square foot than you can imagine."

JOTTINGS ABOUT TOWN.

—The steam road roller is working on Simcoe street.

—Merchants complain that business is poorer than usual this season.

—Hundreds of people visited the lift lock on Sunday.

—A large flock of wild ducks passed over the town yesterday.

—Vacant houses in Peterborough are becoming scarce. There are however, many vacant stores.

—The roads in the country are in excellent condition.

—Hunters are preparing to go to the woods.

—After the Dominion elections come the municipal elections, with a lively scrap for Mayor's chair.

Perfectly healthy people have pure, rich blood. Hood's Sarsaparilla purifies and enriches the blood and makes people healthy.

—Nominations take place at the Court House to-morrow. There will be no speechmaking, the matter only being formal.

—It is said that cattle buyers are picking up young cattle for shipment to the United States, and paying from $6 to $8 for them.

—The girls of St. John's will meet this evening to arrange for a social reception, which the Guild are to give the congregation next Friday week.

—Next Tuesday the Presidential election in the United States will take place. Wednesday's Times will be the first paper in Eastern Ontario to give the result.

—The semi-annual convention of the Woman's Auxiliary of the diocese of Toronto is to be held in Peterborough on Nov. 14 and 15. The local branches are already making preparations.

—The annual meeting of the P. P. Home, will be held Tuesday, Oct. 30, at half past three o'clock. All interested in the work are cordially invited to be present.

—Wm. Whitney, of Hamilton, pleaded guilty to a charge of theft, and the magistrate took a lenient view of the case and will release him as soon as he makes good the amount and costs.

—The man who has a vote to sell on Wednesday, November 7, and more will sell it if possible, is now busily engaged in talking about good government and pure politics.

—The railways have issued a special circular to ticket agents advising them that they can sell tickets for hunters' excursions on Nov. 8 9 and 10 in order to give those who wish an opportunity to remain home to vote at the Dominion election.

—Napanee Town Council will, in January next, submit a by-law to the people for $45,000 with which to purchase the water works there. The company first asked $52,000; the town offered $38,000; finally $45,000 was accepted.

—Farmers throughout this section unite in saying that the grass at present was never better at any time this year. The make of cheese is unusually large for October and with prevailing high prices the sturdy yeomen are wearing broad smiles.

—The Grand Trunk reports its annual fall shortage of freight cars. They are simply unable to supply the cars demanded. The bulk of the rolling stock of the road is engaged in the grain and through traffic while hundreds of cars are required for the northern lumber trade.

—Mr. Wm. Hall, one of the oldest residents of Otonabee, died on Sunday, aged 82 years. Deceased was unmarried and had very few, if any, relatives living in this country. Interment will take place, at Little Lake cemetary this afternoon.

—Even now, as we are entering upon the last few days of October, the atmosphere is as balmy as rosy June, with apple trees bearing green leaves, butterflies on the wing, robins singing, and the hardy varieties of flowers still in bloom.

—There is a growing dislike to the English sparrow among farmers whose barns afford shelter as well as food for these birds, and the general opinion is in favor of their destruction. In Detroit and other American cities a bounty is paid for their heads, with the hope of soon exterminating them.

—A young woman of pleasing address is swindling her sisters in the northern and central parts of New York State, and is due in Ontario any time. She gets into town and organizes classes in fancy work, instructors to follow her in two or three days, who will provide material and give lessons. She collects the entrance fee and disappears, and that is the last heard of the classes.

Helpless as a Baby.—South American Rheumatic Cure strikes the root of the ailment and strikes it quick. R. W. Wright, 10 Daniel street, Brockville, Ont., for twelve years a great sufferer from rheumatism, couldn't wash himself, feed himself or dress himself. After using six bottles was able to go to work, and says: "I think pain has left me forever."—56

MR. COOK'S CHARGES.

Editor Morning Times,

Sir,—I would like to ask The Times if it thinks that Mr. H. H. Cook has done his whole "duty," as he puts it, or whether or not he should put his charges in such shape as would enable him to be punished by the government. He is doubtless waiting until the eve of the election to make a further attack. Does the Times approve of such tactics? I am sure it does not. Yours etc., F. R. W.

Ans.—The Times is of opinion that Mr. Cook's charges in regard to the alleged offer by the government of a Senatorship for $10,000 should be more specific. The other charges, however, are different, and should have received attention. To say that they were the result of spite, because the writer was a disappointed office seeker is far from being satisfactory.—Ed. Times.

The Ledger Monthly, a Dollar Magazine.

With the November number, the Ledger Monthly enters the field of the dollar magazines. It has already won a place among our most popular monthlies, and in the enlarged and improved form in which it now appears, we predict for it increased popularity and success. Hall Caine's new story, "Jan, the Icelander," begins in the November number. This is the only story that Hall Caine has written for publication this year. It is a domestic story that will be read in every household in the land with delight. The cover of the November number is a charming autumn farm scene entitled "In the Cornfield." A lovely girl stands shading her eyes with a yellow blade of corn, and the field stretches off yellow with the ripe pumpkins, corn stacks, and golden rod. The frontispiece is a beautiful engraving of a girl drinking from an "old oaken bucket." "Our American Thanksgiving" is described by Phebe W. Humphreys, and illustrated by Victor Perard. "Doris Kingsley, Child and Colonist" is the title of a new serial by Emma Rayner, author of "Free to Serve," which begins in the November number. There are short stories by Jeannette Scott Benton, E. M. Bowyer, M. B. Thrasher, Morris Wade and Kate Whiting Patch. Among the miscellaneous articles is one entitled "Unique Women Bread Winners," by John Livingston Wright, with many portraits of prominent women. "The American Army and Navy in China," is an illustrated article by Waldon Fawcett. "Old Colonial and Historic Churches" by Richard Cramer, is the subject of a beautifully illustrated article describing the old churches of the country. All the regular departments are maintained in this number, with additional illustrations and new headings. Altogether the promise of the Ledger Monthly as a dollar magazine is abundantly fulfilled. It is sold on all the news stands at 10 cents per copy. Robert Bonner's Sons, Publishers, Ledger Building, New York.

Rose Henderson's Death

Toronto Globe—"Coroner, Young will resume the inquest into the death of Rose Henderson to-night at 7.30 o'clock at No. 2 Police Station. The girl died two weeks ago at Mrs. Wiley's maternity home in Victoria street. The inquest was adjourned in order that an analysis of the stomach might be presented to the jury. The testimony submitted was not conclusive as to whether death was caused by poison or by convulsions induced by a diseased condition of the kidneys. Dr. Ellis, the Government Analyst, will complete his analysis to-day, and the result will be made known to the jury to-night." The deceased was well known in Peterborough, where she formerly lived.

A Powerful Remedy

PAINE'S CELERY COMPOUND

Banishes Disease and Builds Up the Whole System.

A TORONTO LADY SAYS:

"I Thank God and Paine's Celery Compound For My Renewed Health and Strength."

While Paine's Celery Compound is the most powerful of all medicines as a disease banisher, it is at the same time, safe and harmless. By its use sickly children, nervous and weary women, and tired and brokendown men find health, strength and happiness.

If you are a sufferer from nervous debility or cruel neuralgia, you stand in need of Paine's Celery Compound. The ablest physicians in the world now prescribe Dr. Phelp's great remedy for all obstinate and deep-seated cases of neuralgia; the cures are prompt and always permanent.

Mrs. Margaret Young, 137 Jarvis Street, Toronto, says—

"I was a terrible sufferer from neuralgia and nervous debility, and was extremely weak and rundown. While in this condition I tried almost all kinds of medicines without a shadow of improvement. My sister finally persuaded me to try your Paine's Celery Compound. The first bottle helped me wonderfully, and, after having used six bottles my health is restored and I am now a new woman. I am pleased to say that Paine's Celery Compound is all that you represent it to be—a banisher of disease and a health restorer. I thank God and Paine's Celery Compound for my renewed health and strength."

DAN SPENCE'S DEATH

He Died Through Treachery of the Boers.

Sad Particulars of How the Poor Fellow Was Lured to Death

Mr. G. H. Williamson, General Secretary of the Y.M.C.A., town, has just received the following letter from Mr. T. F. Best, who represents the Y. M. C.A. with the second contingent. In it will be found the details of the deplorable death of Pte. Dan Spence. The letter is as follows.

Belfast, Sept. 25, 1900

Dear George,—Dan is gone. He with three others went out foraging on Sunday last and they ran into some Boers. The Boers were dressed in khaki and beckoned to them to come close, which our men foolishly did. Result—Spence and Ratcliffe instantly killed, Thornton severely wounded. No doubt you will get this news in the papers long before this reaches you, but I thought I would drop you a line anyway, as the last words Dan spoke to me were, "Have you heard from George lately?" He was with our men at Wonderfontain and I had only seen him a few times the last few weeks. After service with our regiment here on Sunday morning, I rode to Wonderfontein, 12 miles, visiting all the outposts along the way and distributing tracts, reaching my destination about five o'clock. I had a box of matches each for all the men, besides writing material etc., and I soon found out who was away on this foraging expedition. It was late before the news reached us. We waited impatiently for daylight, then were soon on the scene of the battle, to find reports only too true. We brought them to Belfast. The funeral took place at five a.m. Monday, to Belfast Cemetery. All our men turned out and were marched to the spot. Officers and men were visibly affected. The sun was just setting as we lowered the two comrades into their graves. I did not stay to comment on their lives but used the Word of God freely. Dan was known and loved by nearly all our regiment. His manly Christian life was an example to us all. He was Vice-President of our Y.M.C.A. and a faithful helper in all good works. We will all miss him, but none more than I. He often spoke of you and I think wrote you once, and had some notion of entering our work when we would get home. I wrote to his brother F. S. Spence, but do not know any other relatives. Our men are vieing with each other as to who can make the graves look the prettiest. I have buried many Boers and British, but to conduct the service over Dan's body was like burying my own brother. You will understand George that we have not had a chaplain with us now for over two months and all their work falls to me, besides my own work, however, I am not complaining. I am well and strong and can stand anything. I am enjoying my work more and more and am so thankful now that it was my privilege to come.

The Boers are quite active around here yet, although the war must surely soon be at an end. Why do you not write me, this is my second or third letter to you. Last night's mail brought me letters from Freddy Withow, Bert Hadcock, and S. M. Thomson, all good newsy letters; three letters also came for Dan. I have just sent them to his brother F. S. Spence, Toronto.

I do not know anything about going home as yet, but hope it may be soon. Most of the first Contingent are going and Dr. Barrie is going with them. The weather is getting warmer now and more like our spring. I hold meetings almost every night somewhere and, God has greatly blessed them. I am homesick to see you dear boy and trust the blessed Lord is giving you great blessing in service. Give my love to any of your people that know me.

Your brother in Christ,
T. F. BEST.

ATTACK of ROYAL CANADIANS at Paardeberg

The present is a time when war pictures are in greater demand than ever. The conduct of the British soldiers on the battlefield has won the plaudits of admiring nations. We have at great expense published four large, beautiful pictures, size 20x24, on heavy, superfine calendered paper. A picture that will commend itself and send a thrill to the heart of every true Canadian is the one called Attack of Royal Canadians at Paardeberg, there are literally hundreds of figures on this picture, the mountains or kopjes stretching out into the distance are swarming with men, while here and there a prostrate figure speaks only too well of the Boer rifleman. It was on this battlefield the gallant Major Arnold met death unflinchingly. Indeed, it is only too true that many of those gallant hearts that beat so high when the cheering thousands bade them Godspeed as they sailed from Canada's shores now lie still forever in lonely graves on the other side of the world under African skies. To every Canadian heart, to every Canadian home, the deeds of their brave soldier boys speak with an irresistible thrill of patriotism and pride. Gordon Highlanders at the Battle of Belmont, Charging the Boer Guns at Elandslaagte and the Charge of Gen. French's Cavalry on the Retreating Gen. Cronje's Army. These are all stirring pictures and cannot fail to commend themselves to anyone who will examine them. They are RED HOT SELLERS! Agents coin money. Big profits. Enormous success. One agent sold 68 in one day. Sample and terms 25 cts (none free); four for 80 cts; $1.75 per dozen; 25 for $3.25; 50 for $6.00; 100 for $11.00 Write to day for a dozen and make money.
